Essex Junior Defeat Colchester.

Essex Junior ball team won their second game of the season, by defeating Colchester 6 to 4, in 11 innings.

Talbot started on the mound for Essex but was relieved by Loebach in the sixth inning. Talbot allowed two hits in 5-2-3 innings and Loebach held his rivals to 2 hits in 5-1-3 innings.

The batting star of the game was Milt Hartley, with two singles in five times at bat. C. Wright cut short an Essex rally by making a very fine catch of Hartley's line drive to left in the seventh inning. Kokoval and Harrison played good ball in the field for Essex.

Don Keady, wife and daughter, St. Catharines, spent the week-end at the home of Mrs. Vera Keady.

The W. M. S. of Gesto United Church will meet at the home of Mrs. Charles Coleman, on June 5th, at 2:30 p.m.

John Mortimer, of North Ridge, and Glenda Leslie, of Cottam, spent the 24th of May with Ruth Hall.

Only a few parents and friends attended Emma's birthday party at 8 S. No. 4, Colchester North, where Miss W. A. Robson is teacher. The program consisted of a Junior Red Cross presentation, choruses by the girls and boys, an interesting survey of the good Queen Victoria as a child and queen, a May pole hop and the presentation of the flag by the juniors. The singing of God Save the King preceded a social time on the lawn.

A chicken supper was served from 8 to 8 p.m. by the ladies of the church, which was enjoyed by all. A program was held afterwards in the church.

Leona and Isabelle Sweet sang and Donna Barkosky sang a solo. Sixteen year-old Norman Walsh, of Windsor, entertained by magic and ventriloquism. Jean Peacock, granddaughter of Mrs. Spinks, sang a solo, and then sang with Prosper Adams; Mrs. Gerald Calhoun gave a reading; Asa Shepley showed pictures he had taken with his movie camera on his trip through Western Canada and the States; Joe Calhoun told a story. Chairman for the evening was Ewart Clarke.

The following merchants donated prizes, for which the committee in charge are very grateful:

Essex Junior Baseball.

The Essex Juniors will meet the McGeer Juniors, on the local ball diamond, at 2.30 p.m. on Sunday. All baseball enthusiasts are asked to come out and cheer for the local boys.

Dominion Day Celebration.

A meeting was held Wednesday evening in preparation for the Dominion Day celebration, to be held in Essex, at the Fair Grounds, on July 1st and 2nd. The celebration is to be of such great magnitude that your correspondent could not grasp the greatness of the whole affair.

The twoday affair is to be held under the combined auspices of the Essex Canadian Legion, Rotary Club, Kinsman Club, Sportsmen's Association, Chamber of Commerce and the Essex Parks Board. The proceeds will be used toward converting the present Fair Grounds into a Memorial Park and recreation centre.

It promises to be two of the biggest days ever held in Essex, and will feature monster parades, with six big brass bands in attendance. There will be baseball games, horse races, kite flying contests, balloon ascensions, bathing beauty and horse drawing contests, baby contests, pep shows, tractor driving, steer throwing contests and amazing feats of skill and daring that will rival the prowess of the Olympian Gods.

A proposal was made to have a big general barbecue and roast a whole steer over an open fire, each side of the crowd. Extravagant night performances may feature trapeze artists, tight-rope walkers, bear wrestling, fire-eaters and sword swallowers, as well as high divers and koochie divers.

It was definitely stated that there will be two orchestras in attendance, both evenings, for square and round dancing.

Passes in Leamington.

John Potter Danhier, aged 76, a pioneer farmer of Maidstone Township, died Sunday in Leamington.

Mr. Danhier is survived by his wife, Mary Ann; four sons, Gordon, of Maidstone; Charles, of Kingsville, and Orville and Wilfred, at home; three daughters, Mrs. W. J. Jones, of Myrtletown, of Roseland; Mrs. Richard Kettle (Clara) of Maidstone, and Mrs. Orville Hollingsworth (Pauline), of Essex; three brothers, Edward and George, both of Windsor, and Prof. Ernest L. Danhier, of Toronto, and one sister, Delilah, of Windsor.

Rev. R. Normand conducted services on Wednesday at 2.30 p.m. from the Hicks Funeral Home, Essex.

Burial was in North Ridge cemetery.

Ralph Counsell Dies.

Ralph Counsell, aged 52, of 995 Windermere road, Windsor, died Tuesday morning at Grace Hospital, Windsor, following a long illness. He was born in Lancashire, England, had lived in Windsor the past three years, moving there from Cottam where he had lived for 17 years. He was a member of the Church of God and had been employed by Ford Motor Company of Canada, Limited, for 19 years.

Mr. Counsell is survived by his wife, Polly; three brothers, Robert, of Brantford, and Richard and Harry, both of Woodlee; and one sister, Mrs. Elizabeth Ferguson, of Oakville, Ont.

Funeral services will be held from the Morris Funeral Home, Windsor, on Friday, with burial in Evergreen Park, Leamington.

Howard Felstead Feted.

Howard Felstead, accountant in the local Imperial Bank the past nine years, was guest of honour at a supper, held in St. Paul's parish hall, on Monday evening, prior to his moving to Aylmer, where he will be manager of a new branch being opened in that town.

Tributes were paid the honoured guest by Art Milne, chairman of the evening, vice-president of the Essex Chamber of Commerce, of which Mr. Felstead is president; Rev. R. H. Parr, Charles Masdel, H. R. Johnston, Grover C. Johnston, J. A. Nightingale, Cecil Simpson, Jim Thrasher, Max Webster, who brought best wishes from the members of the Bank's staffs in Windsor, and the city's Junior C. of C., George R. Weller and John Shaw, acting Mayor of Windsor in the absence of Mayor J. C. Linton.

During the evening Howard was presented with an easy chair and steel by Hugh Newman and Dr. Charles Bosson, following a talk by Cec. Simpson.

Howard, in replying, thanked all for their thoughtfulness, congratulating the people of Essex on their fine public spirit, expressing hope the Fair Grounds would develop into a Memorial Park, and at the close shook hands with each one as they left the hall.

The entertainment part of the program consisted of a sing song and solos by Bob Jones, of Windsor, introduced to his audience by Don Wilson. There were 125 present.

T. H. Carder Passes.

Thomas Henry Carder, aged 80, died Sunday at his home on the 9th Concession, Gosfield North Township. He had been ill for two months. Born at Chesley, Bruce County, on May 15th, 1867, he came to Essex County when he was 10 and had lived here ever since. He carried on his fruit farm until quite recently.

Fifty-three years ago he married Millie Calder, who predeceased him two years ago. He was a member of Albion United Church. Funeral services were held on Wednesday at 2 p.m. at the residence, and 2.30 p.m. at Albion United Church, Rev. S. R. Johnston officiating.

Five brothers survive, Edwin, of Gosfield North; James, George and Wilbert, of Windsor; Robert, of Seattle, Wash., also six sons, Herbert, Thomas, John, of Windsor, and Rev. James L., of Hears, Ont., and five daughters, Mrs. Earl Gulliver (Roxie), of Mersea Township; Mrs. Roy Roundling (Annie), of Essex; Mrs. Gerald Douglas (Frances), of Staples; Mrs. William Gray (Helen), of Mersea; and Mrs. Everett Wiper (Virginia), of Wheatley. A daughter, Mrs. Clifford Scratch, of Windsor, predeceased him three years ago. There are also 29 grandchildren and four great-grandchildren.

Stuebings-Johnston Wedding.

In a lovely setting of spring flowers and candle light at the bride's parent's home in town, Rev. R. H. Parr, on Saturday united in marriage Gerald Arthur Stuebings, of Amherstburg, and Miss Betty Jane Johnston, of Detroit, daughter of Mr. and Mrs. W. J. Johnston, of Essex.

The bride, given in marriage by her father, wore a fuchsia dressmaker suit, with matching hat and a corsage of white carnations. Mrs. Marion Overway, her sister's only attendant, chose a beige dressmaker suit with black accessories, and wore a corsage of pink carnations. James Hardy assisted the groom as best man.

A reception followed for 35 guests, with Mrs. James Hardy, Miss Shirley Wigle, Miss Grace Kelly and Miss Margaret Johnston, a sister of the bride, assisting in the dining room.

Mrs. Johnston chose for her daughter's wedding a lime green casual dress, with white flowered hat, white accessories and wore a corsage of pink carnations. Mrs. Stuebings was dressed in black and white print, with white hat and white accessories and wore a corsage of white gardenias.

The bride and groom are honeymooning in Osage, Iowa.

A. Duncan Taylor Dies.

Alexander Duncan Taylor aged 85 years, of Leamington, passed away in Victoria Hospital, London, on Thursday morning of last week, after having undergone a long operation.

He was a native of the Woodlee district, but lived in Essex for many years, owning the farm now owned by Walter Scanlon, on Intersection Road. He had lived in Leamington the past 28 years.

Surviving are his wife, two sons, Frank, of Leamington, and Roy, of Kingman, Arizona; one daughter, Mrs. Walter Coleman; two brothers, Fred, of Essex, and Walter, of Windsor; seven grandchildren and 15 great-grandchildren.

Funeral services were held Sunday afternoon at 2.30 from the Smith Funeral Home, Leamington, with Rev. Sidney Davidson officiating. Interment was in the Jarrett cemetery, Woodlee.

Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven.—Matthew 5:16.

Lauzon-Mahon Nuptials.

A lovely wedding was solemnized at St. Mary's Church, Maidstone, recently, when the Rev. J. P. Gleason united in marriage Miss Teresa Mahon, daughter of Mr. and Mrs. Frank Mahon, of Maidstone, and Henry Lauzon, son of Mr. and Mrs. Ambrose Lauzon, of Tuscara street, Windsor.

The bride, who was given in marriage by her father, wore a Victorian gown of white nylon, with a sweetheart neckline, the top and sleeves featuring insets in a leaf design, and the full skirt ending in a long train. Her double veil of embroidered silk and was held to her head with a coronet of orange blossoms and extended over the train of her gown. The arm bouquet was of red carnations, from which long long satin streamers stood out with sweetpeas.

Miss Rose Lauzon, the bride's sister, acted as maid of honour, wearing a pink gown styled with a lace top and a skirt of net over tulle. Her veiled headpiece was of matching net caught with flowers to match her official bouquet of mixed carnations and sweetpeas.

The three attendants, Miss Margaret Shumaker, of Windsor, Miss Dorothy Shumaker, in orchid and Mrs. E. S. Lauzon, in orchid, wore gowns and hats identical to that worn by the maid of honour. Each carried a colonial bouquet of carnations and sweetpeas.

The best man was Harold Mahon, brother of the bride, and usher, Gene Gall, Charles Mahon and Ernest Lauzon.

During the ceremony Michael McCloskey sang "On This Day, O Lord, I Married Myself," "Mother at Your Feet is Kneeling," and during the communion, "O Lord, I am not Worthy." The wedding music was played by Miss Olive Deacon.

A dinner for 50 guests was held at the bride's home where the table was centred with a three-tiered wedding cake, flanked by tapers in crystal candleholders. A dinner was later served at the bridegroom's home for 50 guests.

A reception for 150 persons was held in the evening.

Mrs. Mahon wore for her daughter's wedding a navy blue dress with black accessories, while the bridegroom's mother chose black with black accessories. Both wore corsages of sweetpeas.

Mr. and Mrs. Lauzon left for London and Niagara Falls on a wedding trip.

Out-of-town guests were Miss Jane Gall and Gene Gall, both of Constance; Michael, Mr. and Mrs. William Justice and Fred Justice, Mr. and Mrs. James McCoy, and Mrs. Alice McCoy, all of Detroit.

Kingsville Man Found Dead.

The body of Rasmus Peterson aged 77, was found hanging from a beam in the barn on his farm on Concession 2, Gosfield South Township, Sunday at noon, by his sister, Trine.

Miss Peterson summoned her brother, Peter, and together they removed the body to the house.

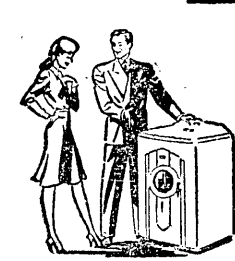

Peterson had been in ill-health for some years and had been subject to spells of despondency of late, his brother said.

Provincial Constable J. S. Bennett and Constable Dr. E. K. Lyon investigated and had the body removed to Crawford's Funeral Home. It has not yet been decided whether an inquest will be held.

Peterson came to Canada at the age of five from Falster Island, Denmark. His sister and two brothers, Peter and Ole, survive. The four lived together on the farm.

BYLAW NO. 3.
A BYLAW of the Board of Trustees of
the Roman Catholic Separate Schools
for the Town of Essex, to raise by
way of loan the sum of \$55,000.00 for
the purposes hereinafter mentioned.

Whereas the Board of Trustees of the
Roman Catholic Separate Schools for
the Town of Essex, requires to borrow
the sum of \$55,000.00 to raise funds for
the purpose of purchasing a site and
building and equipping thereon a new
school and for such purpose to issue de-
bentures bearing interest at the rate of
three and three-quarters per cent
(3 3/4%) per annum, which is the am-
ount of the debt intended to be created
by this bylaw:

AND WHEREAS it is expedient to
make the principal of the said debt
repayable in twenty (20) annual instal-
ments of the respective amounts shown
herein, which is hereby declared to be
and form part of this bylaw:

AND WHEREAS it will be necessary
to raise during the respective years of
the said period of twenty years the re-
spective sums set forth in the fourth
column of schedule "A" hereto to pay
the yearly sum of principal and interest
as they become due:

AND WHEREAS the amount of the
existing debenture debt of the Board
of Trustees of the Roman Catholic Sep-
arate Schools for the Town of Essex,
is \$11 and no part of the principal or
interest is in arrears:

NOW, THEREFORE, the Board of
Trustees of the Roman Catholic Sep-
arate Schools for the Town of Essex EN-
ACTS AS FOLLOWS:

1. That for the purposes aforesaid
there shall be borrowed the sum of
\$55,000.00 and debentures of the Board
of Trustees of the Roman Catholic Sep-
arate Schools for the Town of Essex
shall be issued therefor in sums of not
less than \$500 each, the said debentures
shall have coupons attached thereon
for the payment of interest.

2. The said debentures shall all be
dated the 1st day of July 1947,
shall bear interest at the rate of three
and three-quarters per cent (3 3/4%) per
annum, semi-annually, and shall be
payable in twenty annual instalments,
each of the sum of \$2,750.00, on the 1st
day of July in each year commencing
on the 1st day of July 1947, and in the
last instalment shall be repaid the prin-
cipal of the said debentures, together
with the interest thereon then due.

3. The chairman and secretary, treas-
urer of the said Board shall sign and
seal the said debentures, and the de-
bentures shall be sealed with the cor-
porate seal of the said Board. The in-
terest coupons attached to the debentures
shall be signed by the said chairman
and secretary-treasurer and their
successors, thereon may be written, or
stamped, lithographed or engraved
copies of the debentures, the reports
and interest thereon shall be paid
in cash, or by cheque, or by draft, or
by any other mode of payment, and the
said debentures shall be payable at the
option of the said Board, at the office of
the said Board, or at any other place
which may be determined by the said
Board.

4. The said sum of \$55,000.00, in bor-
rowed, and interest thereon, and the
said debentures shall be used for the
purpose of purchasing a site and build-
ing and equipping thereon a new school,
and for such other purposes as may be
determined by the said Board.

5. That the said Board of Trustees of
the Roman Catholic Separate Schools for
the Town of Essex, shall have the right
to sell, lease, or otherwise dispose of the
said school, and the proceeds of the sale,
lease, or other disposal thereof, shall be
used for the purpose of paying the prin-
cipal and interest of the said debentures,
and for such other purposes as may be
determined by the said Board.

6. That the said Board of Trustees of
the Roman Catholic Separate Schools for
the Town of Essex, shall have the right
to borrow money from time to time, and
to issue debentures for the purpose of
raising the same, and to use the same for
the purpose of purchasing a site and build-
ing and equipping thereon a new school,
and for such other purposes as may be
determined by the said Board.

7. That the said Board of Trustees of
the Roman Catholic Separate Schools for

Russell Raymond is attending the United Church London Conference, which is being held this week at Park Street Church, Chatham.

Marie Atton, nurse-in-training at Grace Hospital, Windsor, is spending her holidays at the home of her parents, Mr. and Mrs. Harry Atton.

Norma McCroery is spending a few days at her home, prior to her graduation from Western University, London, on June 11th.

Rev. Fr. Charles Collins Dies.

Rev. Fr. Charles Collins, C.S.B., aged 73 years, passed away at St. Joseph's Mercy Hospital, Pontiac, Mich., on Monday evening, to where he had been removed from Assumption College, Windsor, on Sunday, for treatment.

Fr. Collins has been a Basillian teacher for near 48 years, having been ordained in August, 1899, after attending Assumption College from 1888 to 1893, then St. Paul's Novitiate.

Deceased was the son of the late Mr. and Mrs. Jeremiah Collins, was born in the village of Maidstone, and resided there until he left to study for the priesthood.

Fr. Collins was one of a family of nine, of which Mary (Mrs. Robert Greenaway), Marion (Mrs. David Barron), Agnes (Sister M. Pauline) of the St. Joseph's Order, Kalamazoo, Mich., predeceased him. Those left to mourn his loss are Kate (Mrs. Patrick Donovan) of Seattle, Wash.; Lottie (Mrs. Stephen Conroy) of Essex; Frank Collins of Portland, Ore.; Henry and Jerry Collins of Maidstone Cross, also several nephews and nieces, two of whom are Fr. Joseph Donovan, S.J., of Pittsburgh, Pa.; Sister Clare Marie, of the Ursuline Order, Chatham, and Sister Marion, of St. Joseph's Order, Toronto.

Fr. Collins was waked in his beloved Assumption College, until Wednesday afternoon, where his remains were moved to Assumption Church to lie in state until his funeral mass at 10 o'clock Thursday morning. Burial was in the Basillian plot in Assumption cemetery. Most Rev. J. C. Cody, Coadjutor, Bishop of London, officiated.

MAIDSTONE CROSS

The banns of marriage were published, for the first time, in St. Mary's Church, on Sunday, for Delbert Quinlan, youngest son of Mrs. James Quinlan and the late Mr. Quinlan, and Miss Marion Turey, daughter of Puce, the wedding to take place the third week of June, at St. Anne's Church, Tecumseh.

Mrs. Russell Collins will entertain on Sunday afternoon at her home, in honor of Miss Joan Huggard, a June bride-elect, who will be married at Holy Name Church, Essex, on Monday, June 27th, to Charles Sexton Jr.

A large class of little boys and girls received their First Holy Communion at 10 o'clock mass on Sunday, at St. Mary's.

Next Sunday, the second Sunday of June, the Holy Name Sunday, the Holy Name Rally will be held at St. Mary's Church at 2 o'clock in the afternoon. The subject of the rally will be "The Father, the Son, and the Holy Spirit." The rally will form a part of the week-end work of the church, and will include a large number of children, who will be confirmed at St. Mary's on Sunday afternoon.

Mr. and Mrs. Frank Kane and Mr. and Mrs. Ed Deehan will attend the wedding, on Saturday morning, at St. Rita's Church, in Detroit, of their niece Miss Rita Brondell, R.N., a graduate of Hotel Dieu, to John Linquell, a graduate of the University of Toronto.

Congratulations to Mrs. J. E. (Ned) Kerr, of London, formerly of the village, announce the arrival of a nine pound boy John David, on May 28th, a brother for Jimmie and Jerry.

Mr. and Mrs. Frank Kane and Mr. and Mrs. Ed Deehan will attend the wedding, on Saturday morning, at St. Rita's Church, in Detroit, of their niece Miss Rita Brondell, R.N., a graduate of Hotel Dieu, to John Linquell, a graduate of the University of Toronto.

PAQUETTE

Representatives of Essener A. Y. P. A. attending the convention in Kitchener, of the Anglican Young People's Association of the Diocese of Huron over the week-end, were Donald Dickson and Clemence Curtis.

There will be no services in the Church of the Redeemer on Sunday next, June 8th.

On Sunday, June 8th, Dean Luxton, of St. Paul's Cathedral, London, will be guest speaker at the Homecoming and Re-union services in St. Stephen's Church, at 11 a.m. The choir, under the direction of the church organist, Mrs. Clyde O'Neil, will render the anthem, "Like as a Father," and Mrs. Harry Pettapiece will be the guest soloist.

Deepest sympathy is extended Mrs. Eugene O'Neil and family and to the brothers and sisters of the late Eugene O'Neil, in their bereavement.

Elmer Renaud is driving a new Oldsmobile.

Leo Conybeare, teacher of S. S. 4, Sandwich South, spent Tuesday and Wednesday in London, writing examinations at Normal School. Mrs. Clifford O'Neil substituted during his absence.

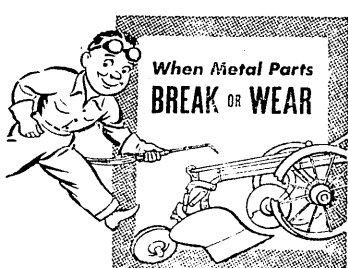

ELM GROVE

The Maple Leaf Women's Institute will meet at the home of Mrs. Ian Ramsay, on Wednesday, June 11th, at 2:30 p.m.

MAIDSTONE

The Maidstone United Church are holding their "at home" service for former members and friends, on Sunday, June 8th, at 11 o'clock. Roy Cox, of Detroit, a former Maidstone boy, will be the speaker. Lunch and social hour will follow church service, in the hall.

Ballot Count Unchanged.

A recheck of votes cast in the election for the legalized sale of beer in the village of Comber and the township of Tilbury North, did not alter the vote count on the three questions submitted

to the electors, according to W. H. Washburn, township clerk and returning officer.

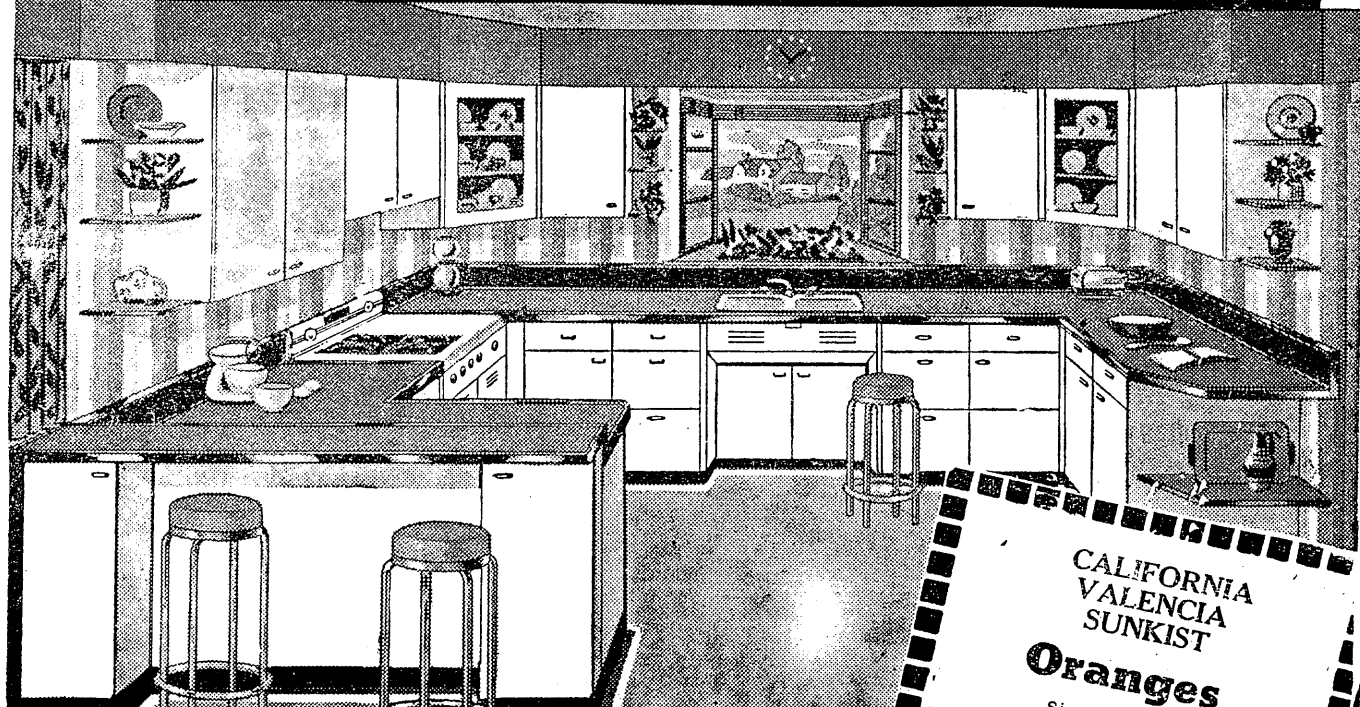

On a percentage basis, the sale of beer in a public house for men only carried with a 60.76 majority. The

other two questions, sale of beer and wine in a dining room with meals failed because it had only a 58 per cent of the majority and the sale of beer in beverage rooms to women almost won with a 59.05 majority.

Future Farm Barn May Be Smaller.

Mechanical engineers have often expressed the opinion that improvements in the design of barns have not kept pace with the advances in the design of farm machinery. This is not exactly true, writes W. B. Denyes in an article on "The Farm Barn" in the Agricultural Institute Review. Through the years, he says, barn designs have improved. If changes seem to have been slow, there are very good reasons for this situation.

The replacement value of farm buildings is close to the sales value of the land and buildings. A farmer cannot "turn in" an obsolete barn for a few one, so he hesitates to scrap a usable barn and build a more modern one. Many of the good barns scattered across the older provinces of Canada never would have been built if the old barn had not burned.

Perhaps a farmer's greatest fear is that of fire originating in a mow full of hay on top of a stable of pure bred accredited cows. Housed in a one-story, metal clad and metal lined, insulated and ventilated stable, cattle are much safer, and if a fire does happen, there is more time to release them. In an emergency, an extra five

Calories and Salaries.

It is a cardinal nutritional fact that the type of food we eat is important to health, and thus to earning power. First of all, say the experts, eat what you should and then, if you wish, round out your meals with the extras. One nutritional authority submits this jingle: "We need large servings to give us calories, but it's what we eat that'll raise our salaries."

minutes may be the difference between letting the cattle out or not.

Considerable work on the advantages of feeding and handling chopped hay has been done in recent years. Field baling is also becoming popular. Much research, too, has been done on mow curing of hay, preferably in chopped form. Either of these methods will reduce the storage space needed and smaller barn lots will suffice. These new methods of hay handling will probably make drive floors obsolete, with a saving to the farmer, because about 25 per cent of the upper storey is now taken up as a drive floor. Greater use of corn silos and ensilage hay will reduce barn sizes.

Obviously the changes in barn design must follow not precede improvements in the mechanization of the farm. Canadian contractors are able to supply suitable barns and good value for money expended.

Millions Lost in Hog Raising for Lack of Sanitation.

Millions of dollars are being lost every year by farmers in Canada by raising pigs under unsanitary conditions. It has been estimated that about 30 per cent of all pigs farrowed die before reaching market weight, but this loss is really small compared with losses sustained by feeding unhealthy, sickly pigs which do not die. Unhealthy hogs do not return market prices for grain, says H. E. Wilson, Dominion Experimental Station, Lacombe, Alta., where hog breeding and feeding is an intensive study.

It is the practice of good farm sanitation, not medicine, that is needed in many cases when the pigs are not doing well. Conditions on many farms are very unsanitary and pigs wallowing in manure cannot be expected to remain healthy. When kept in unsanitary quarters pigs may contract one of the many filth-borne diseases and may die. Many outbreaks of disease would not occur if pens, yards and equipment were kept clean. There is no substitute for rigid swine sanitation for disease control.

Contrary to popular opinion, the pig is an animal which thrives best in clean, dry, comfortable quarters. Many of the troubles common to swine can be traced directly to unclean surroundings such as the old permanent hog lots, filthy hog houses and unsanitary feeding places. During the summer season too many pigs have the run of wallows and yards fouled from many years' use, deep in dust, and depend for water on drainage pools. Keeping pigs healthy is chiefly a matter of good feeding, cleanliness and protection from extremes of weather. It is a better policy for a farmer to direct his efforts towards the prevention of disease rather than the costly and unsatisfactory treatment of preventable diseases.

Pigs are born free of diseases and parasites so that if infection occurs it can be traced directly to contaminated soil, to infected pens, or to direct contact with diseased pigs. The immediate isolation of sick animals from the remainder of the herd will help in preventing the spread of disease. Young growing pigs are more susceptible to worm infestation and the soil-borne diseases than are older pigs. It is, consequently, good business in the interest of healthy, thrifty bacon hogs to give them access to a clean lot or pasture, free from contamination.

At the Experimental Station, Lacombe, every yard and lot in which pigs run to any considerable extent is "bought and seeded" to a temporary pasture crop at least once every year. The strict adoption of this precautionary measure has materially reduced the losses of young pigs and improved their general health during the whole breeding period.

Muscle Meat.

While not suggesting that Canadians should abstain altogether from those juicy steaks and chops which many favour, health authorities issue a reminder on the value of other meats. Such items as liver, kidneys, tongue and heart are quite as nourishing as the "muscle meats," they say.

The "muscle meats"—such as chops and steaks—are definitely second choice among peoples of many lands, and, in these days of high prices, Canadian housewives have the assurance of experts that the cheaper, less popular, meats, are to be preferred.

Sulfa Drugs and Beekeeper.

Many requests have been received by the Bee Division, Central Experimental Station, for instructions on how to feed sulfa drugs, as a prevention or cure for American foulbrood.

In the first place it should be remembered that the control of all bee diseases is under the jurisdiction of the various Provincial Departments of Agriculture, and that each province has developed its own method of control under the administration of its own Provincial Apiarist, says C. B. Gooderham, Dominion Apiarist. If any new method of control is developed or advocated, permission to use such method must be obtained from the Provincial Apiarist, otherwise the method as outlined in the provincial disease act will be applied.

The use of sulfa drugs for the control of American foulbrood is a new method of control, under development but not yet proven as a cure. The Bee Division at Ottawa is experimenting with these drugs and during the summer obtained some highly promising results, which were recently published. No doubt the letters received are from beekeepers who have seen these articles but who did not read them any too carefully. In the majority of the colonies treated in the summer of 1946, the bees succeeded in freeing their broodnest of all signs of the disease, this was no assurance, however, that spores of the disease did not lurk in some other part of the treated colonies. In fact, this very danger was emphasized. It was also pointed out that the results of this work cannot be fully assessed for at least one or two years. A clean broodnest does not necessarily mean a clean colony, spores of the disease may be harboured in the honey and, therefore, constitute a possible source of recurrence of the disease for one or more years following treatment. All colonies treated last summer are being held for future observation. Because there is yet no assurance that the treated colonies are absolutely free of the disease the Bee Division is not yet prepared to recommend the use of sulfa drugs for the control of American foulbrood. Any beekeeper desiring to give this new method a trial must obtain permission to do so from his Provincial Apiarist. Furthermore, any such trials should be under the direct supervision of their Apiarist.

Clover Aids Tobacco.

Clover is generally one of the best soil improvers in use in the rotation for cigar tobacco. The extra nitrogen supplied by the clover adds greater benefit to the high nitrogen required by the cigar tobacco crop but if these benefits are used on fields that previously have indicated the presence of black root-rot a resistant variety should be selected advises the Tobacco Division, Central Experimental Farm, Ottawa.

Food That Pays.

Since food has a direct bearing on health, which, in turn, is reflected directly in earning ability, nutrition authorities urge workers to "eat to earn." Production rates, safety records, quality of output, and, of course, return from labour, are all often in direct relation to the worker's physical condition. Properly nourished people, say the experts, produce more and profit most.

This Is a Time for Decision.

By George W. James.

The people of Canada want sound government under able leadership. To achieve that goal one thing is necessary; a well informed public opinion. These observations are generally admitted. But it will also be agreed that too little is known by the electorate of the situation today in respect of our national government and the alignment of political forces seeking the power to govern.

Political history in Canada clearly shows that little interest is maintained in political affairs between general elections. Only when elections are called do the parties and leaders seek to give emphasis to their programmes and to decry opponents. This sums up to last-minute stampede tactics and an ill-informed public on the eve of voting.

It is in the public interest that this old system be changed. This column therefore is the first of a series to be presented to the people through the press in a manner to examine the leading questions of the day well in advance of a general election. It is proposed that the material presented will be based upon facts as taken from official records and public pronouncements by party leaders.

The articles will be based upon broad general lines rather than the narrow political view in order that a balanced public opinion may be achieved well in advance of the exercise of the franchise.

Conforming with the programme proposed the continuing articles will have in view these main considerations which are taken to be the basic concern of the people of Canada at this time:

1. The regard for and promotion of national unity.
2. High production wider trade general prosperity.
3. Free enterprise vs. State Socialism.
4. Restoration of freedom to everyone.
5. Preservation of stable, responsible government.

Equality.

Within the scope of these main premises will be developed the general picture of the direction in which the leaders of the competing parties are seeking to lead the people today. On balance it is hoped to set out truth in a way that may lead the electorate to choose wisely which political programme is most likely to lead to the desired goal—equality for everyone.

Rural Opinion.

Changes that have taken place in government in this country have generally rested upon decisions of the rural electorate. It is hoped, therefore, that this column will have a particular interest for rural people, who as one leader has concisely stated have "too long occupied an inferior position in respect of the national economy."

As an opening observation in first article it may be of interest to quote the late Sir Richard Cartwright, who in his *Reminiscences*, published in 1912, after 48 years in the House of Commons, gave his opinion on the apathy of the electorate to public questions.

Voice of Experience.

Sir Richard wrote: "No one thing has been made more clear to me during my political experience than the extreme ignorance of a vast number of otherwise intelligent and well-informed professional and businessmen on the political doings of the day."

"Now and then something may occur to startle them out of their apathy but for the most part their opinions are a mere reflection of their party newspaper. Of the actual facts of what is going on in parliament from day to day, they know nothing."

"There is curiously enough a very great deal more interest taken and a great deal more accurate idea of the aims and proceedings of the several political parties, among the better class of farmers than among the so called highly educated classes."

Real Interest.

"I am myself a city man but have always represented agricultural constituencies, and from the very first I was immensely struck with the attention and intelligence shown by farmers at political meetings. They would listen for hours to an analysis of public expenditure and remember what was told. Even after 20 years I found many remembering what was said."

"As a whole, farmers are earnest, thoughtful people, intelligent and well read in Canadian political history. If they have a fault it is in staunch devotion to their respective parties, which sometimes made them condone political conduct of their leaders which in their hearts they really condemned."

Basis for Discussion.

"They are a class of whom any country might be proud and from whom most of our leading public and professional men have sprung. They would study blue-books and even the formidable report of the Auditor General with a zeal seldom shown by members of parliament."

Encouraged by these observations, therefore, it is believed that the articles planned for this column will capture the interest not only of farmers, but the public generally referred to by this old-time, experienced parliamentarian. Points brought out may also serve for informed discussions at Farm Forums and other bodies now showing interest in public questions.

Independent View.

This series is an independent appraisal of the national political picture by the editor of the Canadian Statesman, and is freely available for republication without credit by any other publication.—Canadian Statesman.

To Celebrate 50th Anniversary of W. I.

An ambitious program for the celebration of the 50th anniversary of the Women's Institutes of Ontario at the Ontario Agricultural College at Guelph on June 18th, is rapidly taking shape. It is anticipated that between 5,000 and 6,000 Women's Institute members will be in attendance, many counties having made arrangements for several bus-loads to make the trip to the College for this historic day.

During the forenoon of June 18th, the buildings of the O.A.C. will be open for inspection, and several exhibits and displays of special interest to rural women are being arranged. The program proper, with Mrs. Hugh Summers, of Ponthill, president of the Federated Women's Institutes of Ontario, presiding, will begin at 1.30 p.m., and throughout the afternoon there will be addresses and greetings from distinguished guests and prominent Women's Institute officials from all across Canada. The Honourable Ray Lawson, O.B.E., Lieutenant-Governor of

Ontario, will be present, along with representatives of the Dominion and Provincial governments. Some of the pioneer workers in the Women's Institute movement will also speak to the gathering.

The highlight of the day's proceedings will be the Historical Pageant, "Let There Be Light," produced under the direction of Mr. Brownlow Card, and telling the story of the origin of the Institutes at Stony Creek in 1897, and following its history and its spread to many countries of the world down through the years. The pageant will start at 5.30 p.m., and last until between 7 and 7.30, to bring the general celebration to a close.

In order to take care of those coming from a long distance, arrangements have been made to provide overnight accommodation at the O.A.C. for 800 guests at a nominal rate, and requests for this accommodation should be made at once to Mrs. John H. McCulloch, R. R. 2 Brampton. Arrangements have also been made for reduced railway rates on all railways from Fort William east.

They CAME TO FIND OUT

In 1847 when the Canada Life was founded, few people understood just what life insurance was. Many were opposed to it. Some thought they would be inviting the wrath of Providence by insuring their lives.

So lecturers were sent out to explain life insurance at public meetings. Gradually, as people learned of the benefits

of life insurance, the early hostility gave way to implicit confidence.

Since its beginning 100 years ago, the Canada Life has issued some 800,000 policies; it has paid policyholders and beneficiaries, or accumulated for them, more than \$940 millions — \$100 millions more than the premiums it has received.

Health Army.

Public health officers fight disease mainly in the annuity of civilian attire, and in office, laboratory and clinic, but they make up an elite and well trained army. Front line soldiers of health are the physicians, nurses, dentists and other professional people dealing directly with the public.

Canada is proud of her fighters in the field, and it is admitted that there is no finer corps in the world than that which includes Canadian scientists, engineers, inspectors and administrators, who stand behind the disease strikers and who furnish them with the weapons to war on human ailments.

Ant Nuisance.

Suggestions for defence against ants, annoying summer pests are offered by health authorities at Ottawa. Ants may be discouraged by keeping shelves, tables and floors free of crumbs, say the public health people, by storing food in ant-proof containers, and by plugging holes in floors and walls through which they invade premises.

Pests, as disease spreaders, are natural enemies of those who fight to preserve health.

Disease in Smoke.

Disease lurks in the smoke which contaminates the air of many localities. Canadian health authorities have evidence that differences in certain sickness rates between city and rural areas are attributable, in some degree, to the smoky atmosphere of the cities.

Since pollution of air by smoke and gases from coal in industrial and domestic use thus constitutes a definite health hazard, authorities are asking the cooperation of all concerned in minimizing smoke and fume emission.

Installation of smoke-consuming and proper stoking techniques are expected to improve the situation and civic and public service bodies are organizing to make war on the careless fireman.

Ration Coupon Due Dates.

Coupons now valid are sugar S26 to S 51 and Y1 to Y6, butter B35 to B53. Next canning sugar coupons Y6 to Y10 will become good in July.

PEOPLE ARE ASKING?

Q.—My storekeeper tells me that I must use my canning sugar allowance before the end of May because on that date the Y coupons will expire. Is this correct?

A.—No. There is no expiry date announced on canning sugar coupons. They will be valid until declared otherwise by the Ration Administration.

Q.—I eat my meals at the place where I work. My employer insists upon me giving up my canning coupons to her. Must I do this?

A.—No. Your coupons are your own property. If you and your employer reach a mutual agreement regarding your sharing them you may do so. If you work in an institution you must give written consent.

Q.—My landlord refuses to accept my rent because he wants me to vacate my present home. Must I vacate if he will not take the rent?

A.—This is a matter outside the jurisdiction of the W.P.T.B. You should consult your own lawyer as it depends on the rental arrangement and any variation of same which you made with your landlord.

Q.—May I use my canning sugar coupons to buy canned fruit and preserves?

A.—Yes. The "Y" coupon made valid for canning sugar may be used the same as the "S" coupon.

Q.—Under the two year lease his tenant the right to break his lease on thirty days' notice?

A.—Yes by giving thirty days' notice in writing to his landlord the tenant may legally vacate.

Canada Abroad.

The people who wonder why Canada's growth in population should be so relatively slow should take into consideration the Canada abroad. In 1930 1,250,000 native Canadians were living in New York and Boston, Detroit and Los Angeles, and at the same time there were substantial colonies dotted about the remainder of the world.

Recently there has been some decline in Canada's population abroad, but it is still well over a million. There is hardly a hospital or a clinic, a splint, a laboratory or an engineering project, to say nothing of an industry or a business that does not include among its top-bracket officials some outstanding Canadians. Canada trained them and paid the cost of their unproductive years, and lost them when they became of value.

It is difficult to escape the conclusion that we ourselves are responsible for the drain because we have voluntarily limited the opportunities existing in Canada by stifling the initiative and daring and the incentive that might have provided them. High primary taxation may provide for the basic needs of government, but it doesn't provide jobs. Revenue secured from expanding industry may serve the same purposes while it keeps Canadians at home.

If you would convince a man that he does wrong, do right. Men will believe what they see. Let them see.—Thoreau.

Minerals Essential in Ration For Swine.

In recent years many inquiries have been received at the Dominion Experimental Station, at Kapuskasing, about anaemia, rickets and crippling among growing pigs particularly. These inquiries indicate a lack of iron, of minerals, especially calcium combined with a vitamin "D" deficiency, says J. U. Pilon.

Too many swine breeders still feed no minerals at all to their pigs, consequently there is a much higher mortality during the nursing period or later and also a lower feed efficiency and gain with the pigs saved, hence lower profits.

Past experience in raising pigs and more especially the result of an experiment being conducted at Kapuskasing, would seem to indicate that the feeding of iron to suckling pigs is beneficial in most years and is well worth the small expense involved.

The following mineral supplement, 2 parts by weight of ground limestone, 1 part of bone meal and 1 part of salt, fed at the rate of 2 per cent in the mineral mixture (3 to 4 per cent for brood sows) to over 200 pigs under experiment since 1939, from weaning to slaughter, has given excellent results in preventing rickets in pigs which were all grown indoors in winter time.

Commercial mineral supplements can probably be more easily secured locally and will give equally good results if fed according to instructions given on containers.

A good supply of vitamin "D" is necessary for proper assimilation of minerals. In summer time, with plenty of sunshine, green and leafy pastures or hay, particularly legumes such as alfalfa or clover, there is little danger of a lack of vitamin "D," but in winter time, when these are scarce, it may be a good practice to feed all pigs except those nearing market weight, some cod liver oil. On teaspoonful daily in the feed for a pig under 100 lbs. and twice that for brood sows will usually meet the requirements.

For best results, it should be a regular practice to feed all pigs:

1. IRON—Usually three doses are sufficient. The first to be administered when pigs are 2 to 3 days old and the others at weekly intervals afterward. Each dose per pig to be about equal to a small tablet if reduced iron powder is used and 3 times that if powdered ferrous sulphate of iron is used.

2. MINERAL SUPPLEMENT—It can either be mixed in the meal mixture at the rate of 2 or 3 per cent or fed alone in a separate trough or box where pigs especially the brood sows or the young growing ones can always get it. If milk is available, it will help as it is rich in minerals particularly calcium.

3. VITAMIN "D"—Green, leafy hay, good pasture will not only supply minerals but also vitamin "D," as will cod liver oil and sunshine.

If these three points are kept in mind when balancing the swine ration, and if plenty of clean fresh water, a clean dry place and plenty of exercise are supplied, pigs should not suffer from paralysis or rickets and will make better gains which will more than pay for the little extra labor or expenses.

Pre-Natal Care.

Prospective mothers are reminded by Canadian health experts that proper pre-natal care has an important bearing on the health, and chances of survival, of both mother and infant.

Since a baby is nine months old when born, expert attention is essential from the outset, and the mother who maintains close liaison with the family physician throughout her pregnancy is conceded a far better chance for a successful outcome of her experience, and for a healthier baby.

Medical authorities believe that more general adoption of the facilities for consultation and care arising from pre-natal attention will do much to reduce the infant mortality rate in this country.

Did You Know?

Many people believe that the red-dish brown color of iodized salt blocks is due to their iodine content. This is not true. Potassium iodide, not iodine, is used for iodizing and it is as white as salt itself. A harmless red pigment is, therefore, also added during manufacture, so iodized blocks may be easily distinguished from plain salt blocks.

HE'LL NEED FORESTS TOO!

If you look to the bush country for recreation or business, you'll realize how much it will mean to the youngsters of today if you help to save the forests for tomorrow. Above all, protect the forests from fire.

Ontario has been abundantly blessed with natural resources, which, if not properly protected, can be quickly exhausted. Every year, for example, thousands of acres of trees are destroyed because someone is not careful with fire.

Forests mean much more than a pleasant place to holiday... an attraction for tourists... shelter for game animals and fishing haunts. They mean more than a source of lumber and paper products, and jobs for thousands of people, vital as these are to national welfare.

Climate is tempered—extremes prevented—by forest areas. They store water too—help to keep rivers and streams from dangerous and costly flooding in spring time. They spread the flow of water more evenly through the year. That means they help to ensure a year-round supply of Hydro power for you.

Protect the forests. They serve you well.

SOME WAYS TO BE CAREFUL ABOUT FIRE

- Break each match in two before you throw it away.
- Be sure your discarded cigarette is really out.
- Keep camp fires small, and always in a safe place.
- Before you leave, put the fire DEAD OUT with water.

GOOD CITIZENSHIP
is a lot of little things

DON'T BE A JAY-WALKER

It's time we took a more personal view of jay-walking. We know that many fellow-Canadians each year are killed or injured in this way.

Let's make sure it doesn't happen to us by not crossing in the middle of a block... by waiting for the green light... by walking to face oncoming traffic... and by observing all the other rules of safety. Jay-walking isn't the kind of mistake you live to regret! Obey the traffic rules and you obey the laws of "Good Citizenship".

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

IN MEMORIAM

In loving memory of a dear father, Donald L. McEachern, who passed away 18 years ago, June 29th, 1929.

He had no one a last farewell.

He said goodbye to none.

His loving heart had ceased to beat.

Before we knew he had gone.

He is fondly remembered by his daughter, Florence, and son-in-law Willard Goslin.

IN MEMORIAM

In loving memory of a dear mother, Mary McEachern, who passed away two years ago, June 5th, 1945.

Still in memory you are always with us.

And the one we loved has just gone before us.

Past her suffering, past her pain.

Come to us now for rest and gain.

Gone to heaven with the best.

He is fondly remembered by his daughter, Florence, and son-in-law Willard Goslin.

King 20 Years in Office as Can- adian Premier.

Prime Minister Mackenzie King on
Wednesday completed a record — for
the Dominion — of 20 years' service
in that office and may look forward to
quitting, some 11 months hence, the
Commonwealth record for a Prime
Ministership, established in the 18th
century, by Sir Robert Walpole.

Through happy coincidence, Mr.
King's celebration of the anniversary
came on the same day upon which
President Truman paid his first visit
to the Dominion as the Chief Executive
of the United States.

Mr. King, through three terms as
Prime Minister, have served 7,305 days
— 20 years. Should he continue as
government leader until April 10th
next year, he will equal the record
established by Sir Robert Walpole, the
British Prime Minister, who served
from April 3rd, 1721, to February 11th,
1742 — 7,620 days or 20 years, 10
months and nine days.

Mr. King already has broken the
records of three previous Canadian
and British Prime Ministers — Sir
John A. Macdonald, who held the office
18 years, 11 months and 26 days; Sir
Wilfrid Laurier, who held it 15 years,
two months and 26 days, and William
Pitt, who served 18 years, 11 months
and three days.

The Prime Minister already is dean
of the House of Commons, having held
a seat approximately 30 years since he
first was elected in 1908 as Liberal
member for Waterloo, North, and
through his service as Minister of La-
bour in 1909 to 1911, ranks second only
to Sir Allen Aylesworth, 32-year-old
Toronto Senator, in the seniority list
of Canadian privy councillors.

Mr. King was chosen leader of the
Liberal Party on August 7th, 1919, and
has led the party in six general elec-
tions. He was prime minister from
December 29th, 1921, to June 28th,
1926; returned to that office Septem-
ber 25th of that year until August 7th,
1930, and once again became Prime
Minister October 23rd, 1935, and has
held the post since.

Because of his own statement, fol-
lowing the 1945 general election, that
he would not contest another campaign,
there has been considerable specula-
tion over the months as to just when
Mr. King will retire. However, it is
thought likely, with a Commonwealth
record in sight, he will remain in of-
fice at least until some time next year
and possibly beyond that. In any
event, an election is not due until
about July, 1950.

In mid-February, Mr. King suffered
his first serious illness of his many
years in office, a heavy cold which ap-
proached the pneumonia stage, and for
a brief time it was thought possi-
ble he might have to retire to private
life. However, a three-week's holiday
in the Southern United States follow-
ing convalescence at home, restored
the 72-year-old Prime Minister to
health.

Esse: Moved Out 3-2.

Belle River edged Essex 3-2 in a 10-
inning game, with a walk forcing in
the winning run after both clubs had
put up a good battle.

Belle River scored one run in the
second on a hit and a base on balls,
and one run in the fourth on a hit,
walk and an error.

Essex tied the score in the fifth on
two hits and three runs. Cecilie
In the tenth for Belle River, Cecilie
singled to right. Penner hit a grounder
to Brackell, who threw to R. Ross to
force Cecilie. Ross, however, was off
the bag and his throw was too late to
get Penner at first, Cecilie going to
third. Chaput lined to Ross at second.
Hargrave beat out an infield hit from
to third to load the bases. Parent struck
out, Trudell then walked on four pitch-
es to force in Cecilie with the winning
run.

Meatless Days Will Continue.

Meatless Tuesdays and Fridays will
continue, according to Kenneth W.
Taylor, chairman of the Wartime Prices
and Trade Board.

Mr. Taylor was asked, in view of the
abolition of ceiling prices on restaur-
ant meals and the unrationing of meats
earlier in the year, if the W.P.T.B. was
not contemplating the removal of the
meat saving restrictions on Tuesdays
and Fridays. The answer was that no
such move is contemplated at the pres-
ent time.

Deer Spotted in Essex District

A deer, estimated as weighing in
the neighbourhood of 200 pounds, was
seen Tuesday, at close range, on the
farm of Clifford Wilson, one mile east
of Essex, on the Rear Road.

Mr. Wilson, at first mistaking it for
a jersey cow, was able to get quite
near, before the animal became fright-
ened and fled through a wheat field
into a bush.

End of Butter Rationing.

End of butter rationing, effective on
Monday, was announced in the Com-
mons in the afternoon, by Finance
Minister D. C. Abbott. Honey, jams
and marmalades are also de-rationed.

Concurrently, all price controls are
removed from butter, cheese, evaporat-
ed milk and ice cream, poultry and
poultry products, honey, and certain
other commodities. They remain on
strawberry and raspberry jams.

Price controls on all restaurant
meals have also been lifted.

C. J. Cloutier Passes.

Claude Joseph Cloutier, aged 41,
of 671 Bridge avenue, Windsor, died
at Hotel Dieu Hospital, following a
lengthy illness.

Mr. Cloutier was born in Arnprior,
Ont., but had lived in Windsor for 20
years. He was president of the Holy
Name Society of Holy Name of Mary
Church and was a member of the
church choir.

He is survived by his wife Marg-
aret, and three sons, Claude Jr., Duane
and Gerry, all at home, and four bro-
thers, Henry, of Windsor; Ode, of Ar-
nprior; Ambrose, of Cornwall; and Nova,
of Maidstone, and three sisters, Mrs.
George Woolford, of Windsor; Mrs.
Jack Sutherland, of Kitchener, and
Mrs. Tom Lapierre, of Ottawa.

Funeral services were held from the
chapel of Albeny J. Janisse and Son,
411 Sandwich street east, on Monday
at 9 a.m., with services at Holy Name
of Mary Church at 9.30 p.m. Burial
was in St. Alphonsus Cemetery.

Masons Parade to Church.

More than 300 Masons, represent-
ative of all the lodges in the Windsor
district, paraded to the Essex United
Church Sunday night for the annual
church service sponsored by Central
Lodge, No. 402, of Essex.

Meeting at the lodge hall, the Ma-
sons were placed in parade order by
Parade Marshall J. Shaw and marched
to the church in a body.

Rev. R. H. Parr welcomed the Ma-
sons, delivered the sermon, and told
his audience that as long as Masonry
progressed, the Christian church would
forge ahead. "When Masonry goes,
the church won't be far behind," he
added, saying that he had yet to meet
a Mason who subscribed to atheism.

Following the services, the Masons
assembled in the basement of the
church to honour C. Grover Johnston,
D.D.G.M., of the Windsor district, who
was presented with a travelling bag
and a Bible.

Rev. J. H. Whealen delivered the
presentation address, and H. R. John-
ston made the presentation.

Other speakers at the social includ-
ed Rev. Norman Pick, of Maidstone,
and Rev. Robert Lytle, of Windsor.
Stanley Welsh, who was accompanied
by Marjorie Allen, sang a solo follow-
ing the presentation. Howard Fel-
stead was in charge of the social part
of the evening.

Mrs. L. Graham D.D.G.M. of No. 1 District.

Mrs. Leola Graham, past matron of
Imperial Chapter, Order of the Eastern
Star, of Leamington, was elected dis-
trict deputy grand matron of District
No. 1 for the coming year, at a meet-
ing Friday evening in the Masonic
Temple, Windsor, with more than 200
past and present officers of the Order
of the Eastern Star from Windsor,
Essex, Harrow, Kingsville and Leam-
ington present.

The meeting was presided over by
Mrs. Lena Swan, present D.D.G.M.,
with the following assisting her: Cre-
dentials, Mrs. Laura Moore, P.G.M.;
Mrs. Janet Parsons, P.D.D.G.M.; scruti-
neers, Mrs. Doris Vanless, P.G.M.,
Mrs. Minnie Love, P.D.D.G.M., and Mr.
Rex McLean, P.M., and secretary, Mrs.
Beatrice Whittle, P.D.D.G.M.

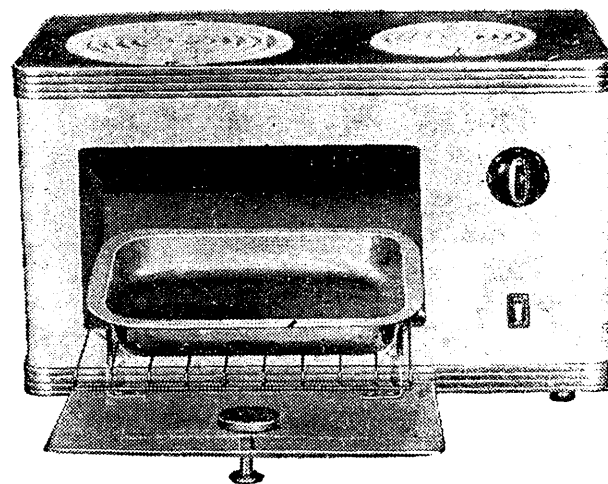

Mrs. Graham was presented with a
gift from Mrs. Swan who, in turn,
was given a gift by the presiding ma-
trons.

Short addresses were given by both
the outgoing and incoming deputy, af-
ter which an excellent musical pro-
gram was enjoyed. Refreshments
were served at the end of the evening.

Coal and Fuel Situation to be Serious.

Essex Farmers Ltd. have received
a most important circular from J. E.
Vanhuskirk, coal administrator for the
Wartime Prices and Trade Board, ex-
cerpts from which follows:

Right Hon. C. D. Howe (Minister of
Reconstruction and Supply): I desire
to make a short statement on the fuel
situation. Hon. members will recall
a recent statement of mine with regard
to the fuel oil situation. It has now
been brought to my attention that
throughout Canada, domestic coal con-
sumers generally appear to be delay-
ing making provisions for their next
winter's supply of coal. Several coal
dealers have stated that coal stocks
are piling up, and it will be impossible
to handle the total tonnage require-
ments unless there is a constant and
active movement of coal into domestic
coal bins.

While the immediate situation would
appear to be somewhat better in re-
spect to United States coal than it was
at this time last year, the situation
in eastern and western Canada is
somewhat worse. The eastern mines
are about to reopen after a prolonged
strike, and it is unlikely that any im-
portant amount of the coal lost during
the shut-down can be recovered. In
Western Canada the mines are operat-
ing on a shorter work week and are
already finding some difficulty in mov-
ing coal into the hands of the distrib-
utors.

Last winter a combination of cir-
cumstances, particularly the bad weath-
er, brought about a serious coal short-
age. This badly hampered movement
of fuel during the winter months. It
is hoped that this condition will not
recur, but in any event I would exhort
all users of coal to exert every effort
to get their supplies in during the
open season.

As the honourable members know,
coal control was discontinued on De-
cember 31st, 1946. It has been the
practice during the existence of the
control for the coal controller to at-
tempt to persuade consumers to buy
their coal early, and to this end he
used advertising and other means. I
believe this job can best be done by
the coal producers and distributors
now, and that the public, in its own
interest, should co-operate fully to en-
sure that adequate supplies shall be
available for next winter.

Just a word about fuel oil. I held a
meeting of the principal refineries in
my office this morning. I found the
situation worse than I had expected.
Not only will the refineries not be able
to take care of the new customers for
fuel oil, either industrially or domes-
tic, but it is doubtful whether they
will be able to take care of the cus-

tomers whom they have served in the
past. The shortage is continent-wide,
in fact almost world-wide. The diffi-
culty is lack of transportation, lack
of refining capacity and lack of oil
easily accessible to markets. There-
fore I should like to warn hon. mem-
bers, and through them the people of
this country, that plans for conversion
from coal to oil should be carried out

only after an assurance has been re-
ceived from a reliable source that a
supply of fuel oil can be furnished.

Essex Junior ball club will play
Roseland Juniors on the Essex
diamond on Sunday afternoon next,
June 16th, at 2.30 p.m. Come out and root for
boys.

Presbytery W. A. Elects Their Officers.

(Crowded out last week)

Mrs. Lyle Collard, of Windsor, was elected president of the Essex Presbytery Woman's Association at the annual meeting held in Elford United Church, on Wednesday of last week.

Mrs. J. C. Pennington, of Windsor, conducted the service and inducted the following: President, Mrs. Collard; 1st vice-president, Mrs. Arnold Wigle, of Ruthven; 2nd vice-president, Mrs. Harold Walsh, of Windsor; 3rd vice-president, Mrs. Milton Cornwall, of Amherstburg; 4th vice-president, Mrs. Asa Braendle, of Windsor; 5th vice-president, Mrs. Orley Bailey, of Kingsville; secretary, Miss Mary Malott, of Leamington; treasurer, Mrs. F. Y. Brown, of Windsor; devotional convenor, Mrs. R. O. Fraser, of Windsor; parsonage convenor, Mrs. Thomas Cooper, of Windsor; finance and literature convenor, Mrs. Jennie Jansen, of Windsor, and press secretary, Mrs. James Daubney, Windsor.

Mrs. W. E. Wallace, of Windsor, retiring president, was in the chair. The theme of the devotional period, conducted by Mrs. J. A. McAvoy, assisted by Mrs. A. V. Begbie, Mrs. Carl Dresser and Miss Mary Malott, all of Windsor, was, "Let the Beauty of Jesus be Seen in Me."

Leads Discussion.

Mrs. Fraser sang, by request, "Bless This House," after "I Shall Not Pass Again This Way." A discussion period centering around methods for increasing attendance was conducted by Mrs. Collard.

Mrs. Brown presented the treasurer's report and was elected to attend the forthcoming Dominion Board Council in Toronto.

The Kingsville Woman's Association, under the direction of Mrs. Homer Arner, Mrs. Roy Allen and Mrs. Bailey, conducted the "In Memoriam" service. Miss Mary Lewis, accompanied by Mrs. Laura Coatsworth, sang "There is No Death." Flowers were placed in a basket for the following deceased members: Mrs. David Young, Mrs. Jessie Giamville, Mrs. Margaret Thornburn, Mrs. James Duncan, Mrs. Maude Cox, Mrs. Charles Pusser, Mrs. Ida May Loucks, Mrs. E. M. Webb, Mrs. Catherine Chance, Mrs. T. E. Mitchell, Mrs. K. D. MacPherson and Miss Mary Swann, all of Windsor; Mrs. J. Cunliffe, Mrs. Colin Wigle, of Amherstburg; Mrs. D. T. Bough, of Essex; Mrs. James Bailey, of Harrow; Mrs. Rouven Arner, of Arner; Mrs. Leonard Allen, Mrs. R. H. Pickard, and Mrs. Thomas Ploverman, of Kingsville; Mrs. Jacob McLean, of Oxley, and Mrs. George Jewitt, of Leamington.

The Elford Woman's Association served lunch to more than 250 guests. Greetings were extended by Mrs. Wesley Mulcaster, president, and responded to by Mrs. A. N. Little, president of Calvary Woman's Association, Windsor.

The guest speaker, Rev. S. R. Johnston, of Cottam, spoke on the subject, "Spiritual Fitness." He said, "Three things are needed, a faith fit to live by, a self fit to live with, and a purpose fit to live for." He then administered the sacrament of Holy Communion.

He that would make real progress in knowledge must dedicate his age as well as youth the latter growth as well as the first fruits at the altar of truth.

—George Berkeley.

Among the manifold soft chimes that will fill the haunted chambers of memory, this is the sweetest: "Thou hast been faithful!" — Mary Baker Eddy.

Gosfield North Council.

Monday, June 2nd.

Council met in regular session, with all members present.

After reading of the minutes of last meeting, which were adopted, the following correspondence was read: From Delmer Bailey, suggesting hunting licenses do not become valid in this district until November 1st, or that Council consider a resolution that until the pheasant season opens, whichever comes first. On motion of Mr. Tully and Mr. Goodburn, this was concurred in, the Clerk to reply accordingly.

From Earl Jones, Amherstburg, re spraying roadsides, and from Shell Oil Co. recommending Shell Weed Killer for roadsides.

Windsor Airport offering for sale a used fire truck, recommended as suitable for rural area. It was decided that Clerk phone the Airport and if the truck was still available some members of Council would go in Wednesday, and inviting the Village Trustees to join them and inspect the outfit.

From Austin Smith, acting for J. W. Kettlewell, giving notice that action may be taken for damages, if Council failed to take prompt action in having the Goodburn Award completed.

Reply from Gosfield South Township advising they had instructed their drain inspector to have all dams and obstructions in the Boose drain removed.

The Clerk reported Walter Scanlon had made complaint about the bank of the McEntee drain caving in at the end of the access bridge and along the lawn.

The Engineer was present and there was a general discussion on different drains.

The Clerk also reported a telephone message from F. R. Gregory insisting the lowering of culverts and completion of the Cameron and Curry drain be proceeded with at as early a date as possible.

Cecil Stobbs and S. Settrington approached Council desiring the usual donation toward the Leamington Fair, and on motion of Mr. Stevenson and Mr. Goodburn, a grant of \$50 was voted, being the same amount as last year.

Mr. Atton discussed with Council the use of the Town Hall by teenagers. It was in use most every day or evening and lately he had been asked for the key for Sunday. The Council objected to the hall being used for games on Sunday, and advised that when any person or group had the key and failed to return same promptly that they be refused the key in future, and on account of the increased use of the hall, it was moved by Mr. Stevenson, seconded by Mr. Dewhurst, that the salary of the janitor be increased \$10 per quarter.—Car.

Complaint being made that Harry Newman had just built a new fence along the rear road and had put same three or four feet out on the road allowance. The Clerk was directed to notify him that he had no authority to erect a fence on the road allowance and request that same be removed to the proper line.

Mr. Goodburn reported one of the wings on the access bridge at Golden Thornton's had collapsed. Moved by Mr. Tully, seconded by Mr. Dewhurst, that Mr. Goodburn look after the removal and repair of same.—Car.

W. J. Flecher presented his reports for the repair of the Loyast drain and the construction of the drain on the line between lots 279 and 280, north of Talbot Road, applied for by M. K. Kovai and others, the date for reading these reports was fixed for Saturday, June 14th, at 8.30 p.m.

Bylaw No. 938, levying the rates for 1947, was given three readings and passed, the county rate being 7.5-10 mills, an increase of one mill over 1946 and the township rate 6 mills, a decrease of one mill; Essex High School rate 3 mills, an increase of one mill, and the township school area 2 mills, an increase of 1-10 mill. Amending bylaws were passed for collecting the amounts due the township on the north town line drain west of Belle River, and the 11th Con. drain east of Belle River, being the cost over the estimate, and on the Hughes drain and Ferry drain, for recent repairs.

Accounts were passed as follows: Voucher for road maintenance No. 5, \$2,095.13; Conklin Planning Mills, \$78.74; Wm. Armstrong, \$7.50; H. Lestienne, \$3.25; Orlin Osborne, \$7.50; Bruce Myles, \$12.50; Wm. McLenon, \$8.25; Wm. Galowaychuk, \$9.50; J. Smolarski, \$8; Cottam Planing Mills, \$39.94; Philpott's Bakery, \$8.71; Hydro for town hall, \$3.24; S. H. Wyatt, bylaw and extra work, Bylaw 2283, \$60; Frank Padovan, to apply on contract, 8th Con. drain, \$1,325.20; Leamington Fair Board, \$50; to make up deficit for entertaining returned men, \$11.19.

Telephone orders — Orpha Stotts, \$61.45; Mae Hill, \$61.46; Mary Hall, \$36.57; H. Sweetman, \$139.00; Broad General, \$7.95; Frank Broke, gas and oil, \$12.80; Northern Electric Co., \$90.32; Docon Telephones, \$400; gas bill for May, \$7.75.

Council adjourned.

Bath Night.

In a day and age when heating water was a chore, the traditional bath only on a Saturday night wasn't as bad as it sounds nowadays, admit the health authorities. But, they point out, there's no excuse for a mere weekly bath in the modern age, when hot water is usually available at a twist of the wrist.

Frequent bathing, say the doctors, does more than ensure cleanliness. It helps tone up the system. As weather is getting warmer, Canadians are advised to make bathing a daily "must" when circumstances permit.

Freshness and appeal in perfect combination. These are the qualities you'll find in Winchester Cigarettes, for they are "Blended Right" from the world's choicest tobaccos, Turkish, Virginia and Burley—Winchesters are consistently tops in taste, aroma and smoking satisfaction.

"In all my years of driving, I have never been so satisfied with a car as I am with this one. The smooth way it pulls away, the ease of handling, the steady sureness of the brakes, combined with the big car appearance of the Fisher body, convinces me that I have again received full value in my Chevrolet."

John H. Jardine,
Toronto, Ontario

"Have just finished a 3600 mile trip from Toronto to New York to Regina in my new 1947 Chevrolet Coach. I like the get-away and believe me, Chevrolet is literally 'out in front' when it comes to acceleration."

Harry Bell,
Regina, Sask.

"The unexcelled riding quality and the ease of control plus the effortless vacuum shift convinces me that Chevrolet is tops in performance."

H. C. Burroughs,
Swift Current, Sask.

"I kept a careful check on all gasoline used which was by means of a credit card and was amazed to find on final check that my Chevrolet averaged 26 miles to the gallon. This mileage included going over the Logan Pass which takes in Glacier Mountains in Idaho, U.S.A."

Horace Thompson,
Vancouver, B.C.

"Chevrolet's brakes are outstanding. You get easy, perfect stops every time with Chevrolet."

TOWN AND VICINITY

—Mr. and Mrs. Fred Hill visited with friends at Wheatley last week.

—Mr. and Mrs. Cecil Parker left last week on a motor trip to Winnipeg, Man.

—Mrs. Al. Mills, of Windsor, spent the week-end with her brother, George Bbblinghaus.

—Ray Allen, of Monctville, underwent an appendix operation at Sudbury Hospital on Saturday last.

—Miss Margaret Myles spent a couple of days this week with her cousin, Billy Arps.

—Mrs. Steve Sadler is attending the graduating exercises of her niece, Miss Peggy Coulter, at Western University, London.

—Mr. and Mrs. Earl Stowe and four daughters, of South Woodlee, were Sunday guests of Mr. and Mrs. Don Cronmiller.

—Mrs. Newton Thomas returned home this week after spending the winter months with her daughter, in Pittsburgh, Pa.

—Mr. and Mrs. John Glichrist, of Owen Sound, and daughter Veda, of Windsor, called on Mr. and Mrs. K. E. Brett on Sunday.

—Prof. and Mrs. Ernest Danilher, of Toronto, who were in Essex last week attending the funeral of the former's brother, Donald Danilher, and also visiting relatives here, left on a trip to British Columbia.

—Mrs. Lena Keown received the sad news on Monday morning of the death, on Sunday, of her brother, Herkiman Tyler, of Concession, Ont.

—Group meetings of the W. A. of Essex United Church will be held on Wednesday, June 18th, at the following homes: Group 1, Mrs. C. Perrin; Group 2, Mrs. Wm. Mills Group 4, Mrs. O. A. Whittall.

—The W. M. S. of Essex United Church met at the home of Mrs. Hugh McDonald, on Tuesday, at 3 o'clock. Mrs. Arthur Plant had charge of the devotional. Mrs. (Dr.) Brien gave an interesting review of the last two chapters of the study book on India. Lunch was served.

—The local lawn bowling club opened their league games on Tuesday evening, with 14 entries, honours going to N. McEntee and Geo. R. Well-er, with 2 wins plus 10, and second to C. Simpson and C. Loucks, with 2 wins and a plus of 9. Next games, Tuesday, June 17th. All players be on hand to start games at 7.30 sharp. Open bowling every night. All welcome.

—Mr. and Mrs. John Mowers and daughter Stephanie, of Detroit, were week-end guests of Mr. and Mrs. K. E. Brett.

—Mr. and Mrs. Glen Cascadden spent Sunday with the latter's sister, Mrs. E. W. Hannan, and family, in Detroit.

—Two young Detroiters narrowly escaped serious injury or death, about 2.30 Sunday morning, when their car went out of control as they tried to take the Talbot street curve at Fair Grounds road, coming into town going better than 60 miles an hour. They just missed hitting two cars parked in front of K. E. Brett's residence, and then skidded sideways, to end up hitting a steel light post in front of T. Saville's, with force enough that it broke the light bracket near the top of the post. The car was badly wrecked, but both boys escaped without a scratch.

—There will be a rally for all Mission Bands of Essex County, on Saturday, June 21st. The time and place at which it is to be held will be announced next week.

A Mean Trick.

—Mrs. Wm. Davis, Thomas Street, has written a letter to the Free Press in which she states someone, about midnight on Saturday, walked onto their property and pulled off all her tulips and before leaving tore off two big bunches of spirea bush. Mrs. Davis says she measured the footprints and judges the young lad to be 15 or 16. She warns she might surprise them by sitting in the front part of her house, with the lights out, so the vandals had better look out if he plans on returning to do more damage.

—Bob Reeves and Bev McFarlane, of Chatham, were Sunday visitors with Jim Myles.

—Jim Whitson has taken his boat home and is overhauling same and giving it a paint and varnish job.

—Mrs. Howard Myles attended a rally for Mission Band leaders, in Westminster United Church on Tuesday.

Clean Up.

"As a chain is as strong only as its weakest link, so, say the public health authorities, sanitation provisions are as effective only as the least scrupulous citizen. The health leaders urge general observance of community rules of hygiene and cleanliness. They remind Canadians that washrooms in restaurants, toilets aboard trains, and lavatories in offices and factories, must be kept tidy and clean if danger of spread of infection is to be avoided. "The golden rule applies in quarters which we must share with others," it is emphasized.

Service of Witness.

Attending as well were Ven. Archdeacon W. A. Townshend, secretary, treasurer of the Diocese of Huron, and Mr. Thomas, the guest speaker.

Plans were laid at the Deanery meeting to hold the annual Service of Witness on the last Sunday in September. In the elections Rev. J. A. Davies was re-elected Rural Dean.

Public Utilities Commission.

Friday, May 30th. A special meeting of the Essex Public Utilities Commission was held in the Town Treasurer's office, with Chairman J. C. Linton and Messrs. Johnston and Hines present.

The secretary reported meeting had been called to act on a resignation letter he had received from the water works' engineer, Wm. Truesdale. The letter stated that unless Commission could see their way clear to give him help at the plant, make the position a job for 12-hour shifts, they could consider the letter as his resignation. He could no longer handle the plant alone, due to heavy increase of water being consumed.

Mr. Truesdale was called, and came to the meeting.

He explained matter fully and stated that he would be willing to stay on as assistant engineer but wanted to move away from the water works plant and get a new man in full charge.

Mr. Truesdale was assured that if Commission couldn't find a man to take over the plant and found that they would have to have two men, he certainly would be chosen as assistant engineer, as they realized the excellent service he had given the town during his 12 years as superintendent. Matter of advertising position was left with Mr. Hines.

HANDS AT WORK...

LEARNING MOTOR VEHICLE REPAIR

ONTARIO'S progress and prosperity are directly dependent on her ability to produce goods in sufficient volume to meet domestic needs and the demands of world markets. To keep production lines moving requires thousands of vehicles, powered by gasoline and diesel engines... and these vehicles must be maintained in first-class condition. Skilled maintenance men and operators are needed to keep a smooth and increasing flow of raw materials moving to industry... to move workers to their jobs... to speed produce to market. For those who master such skilled occupations higher wages, job security and better working conditions are within easier reach.

Today, through the plan sponsored by the Department of Veterans' Affairs and other agencies, thousands of young workers are being trained to meet the needs of motor vehicle trades and other industrial needs of the province. Graduates of these rehabilitation courses are now ready to take their places in Ontario's industry. Available to you are veterans, well started on the road to skilled motor trades such as motor mechanics, service management, service station operation, diesel mechanics and operation. Seek them out with confidence. They are your future craftsmen.

Published by THE BREWING INDUSTRY (ONTARIO)

DIESEL MECHANICS

The Diesel Course offers exceptional opportunity for the average experienced motor mechanic. Shop work, with a combination of theory, covers all phases of operation, and is designed to give the student all essentials for proper diesel engine maintenance. Course available at Hamilton only.

Vocational training courses in the arts, professions, and trades are offered at training centres located in the following cities and towns in Ontario: Toronto, Hamilton, Kitchener, Windsor, Ft. William, Brockville, North Bay, Ottawa.

Eating Pleasure.

Psychological gratifications derived from pleasurable meals are as important to health as are the very vitamins and minerals essential to our diet. This, say the experts, means that eating should not be allowed to become

a "chore, an ordeal nor a race against time."

The authorities on the value of food also stress the importance of clean surroundings where meals are being served. Cleanliness is desirable for its pleasant effect as well as from the point of view of sound hygiene.

GOOD CITIZENSHIP is a lot of little things

HELP KEEP THE TOWN CLEAN

Now that the good old summer time is here again, we all have a responsibility—to help make our town as clean and fresh as the new bed of tulips in your garden. How? By cleaning up the residue of winter... by raking the lawn... by doing those little jobs that give your home that "well-kept" look! Let's get busy and make our street the pride of the neighborhood. Besides being good healthy exercise, it's a satisfying job. Better still, it's "Good Citizenship!"

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

Appeal Dismissed.

The appeal in the damage action brought by Mary J. and Alexander Robinson, against James B. Robson, all of town, which Justice Chevier, in the fall assizes, dismissed with costs, after a jury had brought in a verdict of no negligence, was dismissed by the Ontario Court of Appeal, at Toronto, on Tuesday. The court upheld Mr. Justice Chevier's judgment.

TENDERS FOR COAL AND COKE.

Federal Buildings—Province of Ontario SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Coal," will be received until 3 p.m. (E.D.S.T.), Thursday, June 12th, 1947, for the supply of coal and coke for the Dominion Buildings throughout the Province of Ontario.

Forms of tender with specifications and conditions attached can be obtained from the Purchasing Agent, Department of Public Works, Ottawa, and the Supervising Architect, 35 Adelaide St. East, Toronto, Ont.

Tenders should be made on the forms supplied by the Department and in accordance with departmental specifications and conditions attached thereto. Coal dealers' license numbers must be given when tendering.

The Department reserves the right to demand from any successful tenderer, before awarding the order, a security deposit in the form of a certified cheque on a chartered bank in Canada, payable to the order of the Honourable, the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or by the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque, if required to make up an odd amount.

Such security will serve as a guarantee for the proper fulfilment of the contract.

By order, J. M. SOMERVILLE, Secretary.

Department of Public Works, Ottawa, June 2, 1947.

APPLICATIONS WANTED.

Duties to commence about July 1st. K. E. BRETT, Town Clerk.

Public Utilities Commission.

(Crowded out last issue)

Tuesday, May 27th. The Commission met in regular monthly session, with Chairman J. C. Linton and Messrs. Hines and Johnston present.

Arch Doan addressed Commission re supplying water for a new home his son is having built on the Colchester-Gosfield townline. He stated it was a distance of 720 feet from Talbot.

After a lengthy discussion, during which Mr. Doan offered to pay cost of digging if Commission would supply pipe, it was decided to measure distance from Talbot, near the George Rogers property, to find out how much shorter distance it would be to back end of Doan lot.

There was also a discussion re final plans for proposed reservoir. It was left with Mr. Linton to get in touch with the Engineer, Mr. Armstrong.

Another matter brought up was the purchase of a power filter from the Town of Wheatley. Mr. Linton stated he had been over to see the filter, which now cost over \$4,000, and the Commission could purchase it for \$1,000, not even the cost of the fittings.

The Wheatley filter is practically new, but due to town using lake water, the Department of Health is making them change over to a gravity filter. It was decided the members would drive over to Wheatley and look it over.

Ed. Kennedy Dies.

Ed. Kennedy well-known Essex resi-
dent passed away, quite suddenly, on
Friday morning last, at the home of
his brother John, with whom he had
made his home for years. He was 58
years of age, and had been confined to
home only a few days, although he
had not been in the best of health for
some years.

Deceased was a son of the late Mr.
and Mrs. Thomas Kennedy. He never
married, his only survivor being his
brother John.

Funeral services were held from the
Funeral Home, on Sunday,
with burial in North Ridge cemetery.
Services were conducted by Rev. F.
V. Wakeling, and the pallbearers were
John Chase, Ern Wilson, Wm. Damm,
George Wilson, Roger Purvis and H.
Harrow.

Bondy-Knapp Nuptials.

A very beautiful all-white wedding
was solemnized by Fr. R. Lefave, at
St. Clement's Church, McGregor, on
Saturday, June 14th, at 9.30 o'clock.
When Teresa, daughter of Mr. and Mrs.
Ulric Knapp, of Colechester North, be-
came the bride of Lawrence Bondy,
son of Mr. and Mrs. Evariste Bondy,
of Andover. They were married in
the sanctuary, the bride being a mem-
ber of the Sodality. The altar was
decorated with white flowers. She
was preceded to the altar by sixteen
Sodality girls and they formed a guard
of honor as the bride left the church.

Entering the church on the arm of
her father, who gave her in marriage,
the bride was lovely in a floor-length
white gown. It featured an ivory sat-
in bodice and long sleeves, which end-
ed in points over her hands, also a silk
lace yoke. The skirt had an ap-
plied flower of ivory satin in the
center of it. Her long veil was held
to her head by pearls and blossoms. She
wore a strand of pearls and matching
earrings and she carried a bouquet of
white roses.

Mrs. Joseph Ruston, as her sister's
matron of honour, and Irene, another
sister of the bride, as bridesmaid, wore
identical white gowns. They featured
a bodice of white satin, with a sweet-
heart neckline, short puffed sleeves
and a double net skirt over taffeta.
Their head pieces were a halo of shir-
red net and white flowers. The mat-
ron of honour carried pink roses, and
the bridesmaid carried red roses. The
flower girl was Donna Mae Souigny,
cousin of the groom, who wore a long
white dress of taffeta, trimmed with
white lace and pink rosettes. Her
headdress was a crown of small lilies
and she carried a basket of mixed
flowers. Merton Bondy attended his
cousin as best man.

High mass was sung by the school
children, with Mother St. Gilbert di-
recting. They were aided by Father
Breaugh, who sang with them. During
the ceremony the bride's aunt, Mrs.
Cecil Bell, sang "Ave Maria." "After
Communion" and "On This Day O
Beautiful Mother." Miss Madeline Gir-
ard played the wedding music.

A wedding breakfast was served to
sixty guests, at the groom's home. The
table was centered by the groom's
three-tiered wedding cake with burning
white tapers on either side. The sup-
per and reception was held at Lappan's
Hotel for 70 guests, the table being
centered by the bride's wedding cake.

Mrs. Knapp chose for her daugh-
ter's wedding a dress of printed blue
silk and wore a corsage of white gar-
denias. Mrs. Bondy, the groom's mo-
ther, wore an aqua even dress trim-
med with nail heads and also wore a
corsage of white gardenias.

Mr. and Mrs. Lawrence Bondy left
later on a trip to Niagara Falls and
other eastern points, the bride travel-
ing in a light blue dressmaker suit
and white accessories.

Diemer-Daudelin Nuptials.

At a lovely June ceremony performed
by Father McNabb, the pastor, at
St. Francis Church, Tilbury, on Sat-
urday morning, June 14th, Miss Mad-
eline Daudelin, daughter of Henry
Daudelin, of Tilbury, and the late Mrs.
Daudelin, and Charles A. Diemer, son
of Mr. and Mrs. John H. Diemer, of
Woodslee, were united in marriage.

Given in marriage by her father, the
bride was lovely in Queen Ann lace
over ice blue satin, with a slight train,
and her long sleeves extended into
points over her hands. Her headdress
was trimmed with pearls and her veil
extended into a long train, with lace
inserts to match her dress. She car-
ried a white prayer book topped with
orchids from which hung long satin
streamers.

Mrs. Charles W. Diemer, aunt of the
groom, assisted Miss Daudelin as ma-
tron of honour. Her floor-length gown
was pale pink with a sheer nylon yoke
around the high neckline and a bro-
cade satin bodice, which extended in
points into a full net skirt. Her head-
dress was a pink net frill trimmed with
sequins and pink velvet bows and her
mitts were also of pink net trimmed
in sequins. She carried pink roses. Mrs.
Tony Daudelin was senior bridesmaid,
and Miss Eleanor Paquette was jun-
ior bridesmaid. They were both lovely
in pale blue net and lace gowns. Their
headdresses were white, sweetheart
style and they wore white lace mitts.
They also carried pink roses.

The two little flower girls were Mary
Catherine Diemer and Helen Daudelin.
They were adorable in all white, with
coloured bows in their hair, and a
spray of bridal wreath. They carried
baskets of mixed spring flowers.
Charles W. Diemer assisted his nephew
as best man and Stanley Diemer and
Tony Daudelin were ushers.

After the ceremony a breakfast was
served at the bride's father's. Later
on in the afternoon a delicious dinner
was served to about fifty guests, at the
Diemer residence in Woodslee. The
bride's table was centered with a three-
tiered wedding cake, flanked by white
tapers in crystal candelabra.

Mrs. Diemer chose for her son's wed-
ding a blue and white figured silk jet-
tey dress with black and white acces-
ories and a corsage of pink roses.

Canada Allocated Additional Sugar.

Equivalent of about four more
pounds of sugar per person has been
allocated to Canada by the Interna-
tional Food Council. This is an up-
ward revision of the original allotment
of world sugar supplies made by the
Council last March.

Since that time visible world stocks
of sugar have been improved consid-
erably. The Cuban crop has set a re-
cord, Puerto Rican production is above
earlier expectations and France has
cancelled the delivery of part of her
entitlement.

As a result the International organ-
ization has at its disposal a 445,000
ton windfall, and is dividing it among
the big three members of the pool as
follows: U.S., 550,000 tons; U.K., 75,
000 tons; Canada, 22,000 tons.

Last March Finance Minister Abbott
intimated that if nothing untoward
happened, two or three extra coupons
might be made possible by this new
addition to Canada's allocation.

C. J. Totten Elected D.D.G.M.

Clarence J. Totten, of Essex, will
be installed as District Deputy Grand
Master of the Independent Order of
Odd Fellows, District No. 2, with ju-
risdiction over lodges at Ruthven, Le-
amington, Kingsville, Essex, Woodslee,
Comber, Harrow, Wheatley and Til-
bury, at Hamilton, on Friday of this
week. Mr. Totten will take over the
office immediately following the instal-
lation of J. W. McCarthy, of St. Cath-
arines, as Grand Master for Ontario.

Delegates from 400 subordinate
lodges throughout Ontario, numbering
approximately 1,500, are meeting in
Hamilton this week, at the Royal Con-
naught Hotel, for the 128th annual 4-
day sessions of the Independent Order
of Odd Fellows. More than 1,000 of
them, headed by the Patriarchs Mil-
itant under Major General Dell Cole,
of Ridgetown, took part in a church
parade and memorial service in St.
John's Presbyterian Church last Sun-
day. On Wednesday the delegates
were tendered a civic reception, when
they were welcomed by Mayor Sam
Lawrence at the annual banquet. W.
J. McCulloch, secretary of the Hamil-
ton Chamber of Commerce, was the
principal speaker. Grand Master W.
R. Dean, of Thornhill, also addressed
the gathering.

Miss Ella Plant Passes.

Miss Ella Gertrude Plant, daughter
of the late Mr. and Mrs. Oliver Plant,
passed away at the home of her uncle,
Thomas Plant, with whom she had
made her home since a child, on Sun-
day morning, following years of ill-
health.

Deceased, who was 52 years of age,
was born on the Middle Road, Maid-
stone Township, and had lived in the
township all her life. She never
married.

Surviving are four brothers, Walter,
of Regina, Sask.; Stanley, at home;
Ernest, of Plymouth, Mich.; and Wil-
liam, of South Woodslee.

Funeral services, in charge of Rev.
D. A. Cavers, were held at the E. J.
Hicks Funeral Home, Essex, on Tues-
day, at 2.15, thence to South Woods-
lee United Church, at 3 p.m. Burial
was in Jarrett cemetery, the pallbear-
ers being Stanley Plant, Walter Plant,
Ern Plant, William Plant, Earl Totten
and Andrew McPharlin.

Celebrate Golden Wedding.

Mr. and Mrs. Carson Yorke celebra-
ted 50th wedding anniversary at
their home in Ruscomb, on Sunday.
Mr. and Mrs. Yorke, as you will no-
tice in the 50 years ago items in this
issue, were married in the Ruscomb
Methodist Church, by Rev. Mr. Ayers,
and renewed their vows in the same
church on Sunday, by the giving of a
ring, in a beautiful candle light ser-
vice.

Mr. Yorke was station agent for 40
years and is now the village postmas-
ter. Mrs. Yorke has been church or-
ganist for over fifty years.

During the day members of the
church and people of the community
presented the honoured couple with a
lovely lounge chair, the presentation
address being given by Rev. J. N. See-
mour, of Kintore.

They have one son, Dr. C. W. Yorke,
of Flint, Mich., who was present for
the occasion.

Guests were present from Montreal,
Detroit, Wardsville and other points.

of the groom was also present and was
lovely in a black crepe dress and a
corsage of white roses.

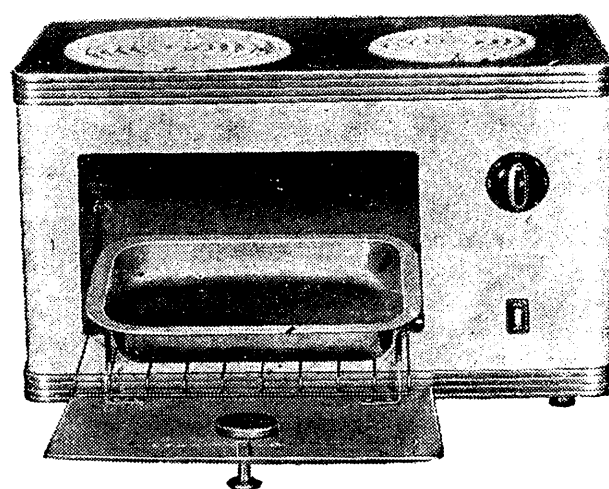

Miss Margaret King, godmother of
the groom, was also present. She was
gowned in a figured crepe dress and
a corsage of pink roses.

Out-of-town guests included Henry
Diemer, of Chatham; Mr. and Mrs.
Frank Vickard; Mr. and Mrs. Joe Diem-
er and Mr. and Mrs. McCallum, of De-
troit; Fred Diemer, Mr. and Mrs. Ed.
Diemer, Robert Diemer and Miss Shil-
ley Innis, of Windsor.

Later, Mr. and Mrs. Diemer left for
Ottawa and points east, the bride trav-
elling in a tailored, tweed suit and
brown accessories. Upon their return
they will reside in Woodslee.

Funeral services were held on Tues-
day from St. Clare's Church, with bur-
ial in Heavenly Rest Cemetery.

Former Essex Resident Passes.

Daniel W. Ellis, aged 79 years,
passed away in Victoria Hospital, Lon-
don, on Thursday morning, June 13th,
following a long illness.

Deceased was born in Alvinston,
Ontario, a son of the late John and
Isabelle Ellis, and farmed for many
years in Essex County prior to moving
to Belmont.

Surviving are two daughters, Beat-
rice (Mrs. Gordon Munro), Laura (Mrs.
Warren Sweetman) of Aylmer, form-
erly of Essex; a sister, Mrs. Lizzie
Oke, of Alvinston; and seven grand-
children, and one great grandchild.
His wife and a daughter Pearl (Mrs.
Jack Lindsay) predeceased him.

Funeral services were held from the
MacIntyre Funeral Home in Belmont,
on Saturday, June 14th, at 2 p.m., with
Rev. Oliver officiating. A solo "Eter-
nity" was sung by Mrs. O. Dawson.

Belle River on Long End 7-6.

Amherstburg club made seven errors behind Joe Penner, who gave up 10 hits, struck out 10 and walked one. The 'Burg tied the count in the ninth frame on a three-base bobbie by Chaput on Pripp's line drive, and a squeeze bunt by Scarlett.

Kingsville Beats Tilbury 2-0.

Kingsville's opening game of the season was a beautifully pitched job by J. Howe, who retired the first 23 men to face him.

In the first and third innings, one man got on base, he was retired trying to steal both times. Only in the eighth and ninth, when Tilbury placed two men on base was Howe in trouble.

The victors scored one in the second on three hits and one in the third on two hits and a sacrifice.

Buscher, at short for the victors, handled seven chances, three of them spectacular.

Essex Still on Losing End.

Tecumseh Indians kept rolling along at Tecumseh Park, outscoring Essex 7 to 3, though Will Greaves club got just as many hits, six, as the victors.

A four-run start in the bottom half of the first frame left Tecumseh in front all the way. Rettig, Essex starting hurler, retired after pitching six consecutive balls.

Jack Fleming replaced him and walked two men after striking out one batter. Then Sawyer hit an easy grounder to Brackell, who fumbled, allowing two runs to score. Savoie doubled to score two more.

Gerry Gouin fanned 11 while Fleming came through with 10 strikeouts. Fleming however, walked six to Gouin's none.

Mother and Infant.

Since a baby is nine months old when born, chances for both mother and infant are greatly enhanced if there has been adequate pre-natal care. The doctors warn prospective mothers. In addition to improving the mother's health, such care, in consultation with the family doctor, will prevent many baby losses at birth.

Harrow Wins 11-1.

A 15-hit offensive paid off 11 to 1, for Harrow over Leamington. The Harrows were able to collect only four hits off Gord Wright, who went six frames, and none off Bob Reese, who pitched the last three.

Elmer Scratch started for the visitors, but gave up five hits. He was relieved by Ashton in the second frame with two men aboard. Ashton was tagged for 10 hits the rest of the way.

Errors gave the visitors their lone marker in the sixth.

Still Time to Plant Tomatoes.

In spite of the delay in planting of tomatoes, caused by the abnormal wet weather it is pointed out by officials of the fruit and vegetable branch of the Ontario Department of Agriculture that there is still plenty of time for setting out tomato plants with every assurance of a good crop. Many of the plants set out earlier have suffered rather severely because of the heavy rains coming after they had been planted, but plants set out within the next two weeks should make excellent progress with the coming of warm weather. Plants which have been grown in greenhouses and hotbeds, in fact, will have benefited from being held back until after the rain, because their growth will not have become stunted, and they should make rapid progress, even with late planting.

Farmers who had planned to use some of their land for tomatoes, can still do so with assurance, it is pointed out, and should be able to harvest good crops if the weather conditions from now on are favourable to rapid development.

The Weed of the Week.

Orange Hawkweed is a perennial, introduced from Europe. Rootstocks are numerous, shallow and creeping. The leaves are broadly lance-shaped, from two to six inches long, and form a rosette around the base of the stem. Flowers are orange red in colour, and are borne in clusters on the top of the stem. Stems are simple, nearly leafless and are from 12 to 18 inches high. Ripse seeds are jet black in colour; unripe seeds are dull red. They are torpedo shaped, about one-twelfth of an inch long and ribbed lengthwise. They have a tuft of hair at the top, but this is usually absent when the seeds are found in clover seed. Flowers appear in June, ripe seed is formed by July.

Hawkweed is a serious pest in unworked pasture fields, along roadsides and on vacant land. It has already seriously reduced the productivity of many permanent pasture fields and is each year becoming more widespread in Ontario.

Control.

This weed succumbs readily to cultivation therefore all pasture lands where hawkweed is found should be included in the rotation if they can be worked. Unworkable pasture lands may be a more difficult problem. A system of pasture management to keep the grass and clovers in a healthy state, and maintain a close turf, will help to prevent weeds becoming established. Good management should include controlled grazing to prevent weakening of the sod, and judicious use of fertilizers.

Good results can be secured in cleaning up this weed by spraying in June with 2-4-D, and this practice is recommended for areas which cannot be worked and where hawkweed is present.

Hawkweed should on no account be allowed to spread from roadside or vacant lands into permanent grazing lands. Prompt attention must be given to all patches if serious losses are to be prevented.

There is as much difference between genuine patience and suffering endurance, as between the smile of love and the malicious gnashing of the teeth.—Plummer.

Sugar Beet Industry.

The purpose of this article is to direct attention to conditions in the sugar beet industry which tend to repute the argument that the sugar beet industry in Ontario is a hothouse plant, thriving only through the warmth of governmental assistance.

At the same time it is admitted that virtually all industry in Canada, the United States or any Western European country is dependent in some degree on protection afforded by means of tariffs, bounties, transportation or other artificial aids.

It has been claimed that the steel industry for instance, might do best on the shores of China, even if ore and coal had to be transported considerable distances. In other words, you take the industry to the area of cheap labor.

The purpose of this article is to show that the beet sugar industry has as legitimate a place in Canadian industry as has, say, steel of manufacturers in general, most of which became established following the election of 1878, when this country established its policy of moderate protection for home industry.

The Ontario sugar beet industry got started at Wallaceburg in 1902. It was so highly regarded by the then Ontario Government that a bounty of a small amount was paid the industry. In spite of this bounty not a great deal of progress was made for several years until the company began to find and bring into this country skilled sugar beet workers from Western Europe. In 1907 the bounty was withdrawn.

Long before there was a sugar beet industry in Ontario there had been a customs duty on raw cane sugar. On the basis of 40% Cuban raw and 60% B.W.I. sugars the average rate of duty is 69 cents per cwt., 100 lbs. of raw sugar makes about 93 lbs. granulated. This protection is sufficient to enable the beet sugar industry to thrive in Southwestern Ontario and in Alberta.

The Manitoba industry theoretically should be best of all since it is about an equal distance from a seaport where cane can be landed cheaply. On the other hand the Quebec Government delivers 17 miles from Montreal cannot deliver in Montreal beet sugar as cheaply as cane sugar can be delivered.

Prior to World War II, the Ontario beet sugar was sold in Toronto in direct competition with sugar from Montreal. To illustrate the importance of the freight situation, Ontario sugar is in a good competitive position on the Prairies as compared with Montreal sugar. The lake freight rate from Wallaceburg, which is a lake port, to Port William is 17 1/2 cents per cwt., whereas the rate from Montreal to Port William is 21 1/2 cents. On the other hand, if the Manitoba Sugar Company ever is as successful as its promoters hope, Eastern sugars would be a distinct disadvantage. The cost of delivery of Manitoba sugar to Winnipeg is probably under 10 cents per cwt., as compared with \$1.14 per cwt. all rail from Montreal to Chatham.

It has become the fashion since the beginning of the war to accuse the sugar industry of living off subsidies. Actually, no subsidies would have been necessary if the sugar administrator and the Wartime Prices and Trade Board had permitted increases in the retail price of sugar to compensate for higher farm and processing costs.

The Ontario industry got along with out any help whatsoever from 1907 until 1942. In the latter year the cost of raw cane had risen to the point where the government had to subsidize in order to prevent piercing of the price ceiling. Similar aid was granted the beet industry because of high cost on farms. In Alberta and Manitoba sugar beets are virtually the only crop alternative to grain. There are numerous competing crops in Southwestern Ontario and during the war years there was also a much greater drain on the labor supply owing to the proximity of industrial centres. It thus became necessary. It thus became necessary for Ontario to have some extra governmental assistance if the industry here was to produce any sugar. In 1943 the Ontario Government granted 55 cents per ton of beets; in '44 and '45 this was increased to \$1.55, and in '46 was reduced to 58 cents. In '47 the sum of \$112,500 is to be divided pro rata among all the beet producers.

One reason for the delay in arriving at a contract satisfactory to both growers and processors this year was that the Beet Growers' Association was of the opinion that the subsidies granted this year by the Dominion Government were less than they would have been if the normal customs duty on raw cane had prevailed and the retail price of sugar had been in line with that of normally produced sugar. The subsidies had been increased to that amount, the farmers by virtue of bidding for labor to produce enough beets to operate both factories this year, but this this of course, is surmise.

A survey among the farmers in Southwestern Ontario, whose land is suitable for the growing of sugar beets, would show that they are anxious to continue this crop. Scientific studies have been made which indicate that the sugar beet crop enriches the soil when planted in the rotation of one crop every five years. Kent County is probably the richest farm county in Ontario and sugar beets have contributed to that wealth.

The German Government under Bismarck actually treated sugar processed from sugar beets as a form of by-product. It is likely that if the subsidies that the planting of sugar beets was enriching the soil of Prussia. A good deal of this subsidized sugar was exported to Britain and it is on the foundation of cheap sugar that the British chocolate industry became so handsomely established.

There is someone in the Dominion Department of Agriculture who contends that sugar beets have no place in Canadian economy but offering that are some studies made by soil experts and economists in the same department. It could be argued, of course, that maize or Indian corn are the only natural products in this country, since wheat, tomatoes, and hundreds of farm products all have been introduced since Jacques Cartier sailed up the St. Lawrence—London Free Press.

Patience is not passive; on the contrary it is active; it is concentrated strength.—Bulwer-Lytton.

It is wise to be willing to wait on God, and to be wiser than serpents; to hate no man, to love one's enemies, and to square accounts with each passing hour.—Mary Baker Eddy.

Method of Control Cucumber Beetle.

The striped cucumber beetle is the most common and destructive insect attacking cucumbers, squash, pumpkins, and melons, says W. G. Matthews, man, Division of Entomology, Dominion Department of Agriculture. The beetle is about a quarter inch in length and yellow in colour, with a black head and three longitudinal black stripes down the back.

The beetles may be found on the plants from May until October, but the main injury takes place from the time the plants break through the soil until they begin to send out runners. During this critical period, the plants should be inspected every second or third day. If the insects appear in numbers, the foliage should be dusted without delay from above and below with calcium arsenate and talc or gypsum, using one part of the arsenate to 15 parts by weight of the talc or gypsum.

Hydrated lime may be substituted for the talc or gypsum, but it tends to stunt the plants at certain seasons. The beetles are persistent, so keep the new growth well covered with the poison. Usually three or four applications at two days apart are all that are required for satisfactory control. Some growers prefer a duster dust to one part arsenate to ten parts talc, mixed with four or five parts of talc. Unlike calcium arsenate, duster kills chiefly by contact, so an effort should be made to actually hit the insects. To do this, because the beetle often feeds on the lower surface of the leaves, a hand duster equipped with a long delivery tube and a curved spoutlike tip which will blow the dust up from underneath.

One of the members, Mrs. Oscar LeMay, who is leaving Ottawa, was presented with a farewell gift.

A donation of \$25 was also voted to the British Rhod B. H. of Mrs. Lyle Petrasovic assisted the hostess in serving refreshments.

PUCE

A bridal shower was given for Miss Marion Tousignant, at the home of her mother, Mrs. N. Tousignant, Thursday evening. A crowd attended and euche and bunco were played. Honours at euche went to: 1st, Mrs. Roland Cote; 2nd, Mrs. Ed. Baker; consolation to Mrs. Edouard Gravel. Honours at bunco went to Miss Betty Jones. After a delicious luncheon the bride-to-be opened her many lovely gifts and thanked her mother and all who contributed to the success of the evening. All enjoyed a delightful time. Mrs. Belle Teal and son Thomas, of Detroit, spent the week-end at their home, on 39 Highway.

Guests at the Elmwood farm during the week-end were Mr. and Mrs. Ed. Ellwood, Miss Irene Casey, Mr. and Mrs. Wm. H. Rogers and family Mr. and Mrs. Clifford Taylor (nee Ellen Rogers) and their children Diane and David, Miss Marjorie Rogers, Jas. Rogers and Miss Shirley McIntyre, of Detroit.

Miss Doris Bryant, of Windsor, visited her parents, Mr. and Mrs. E. H. Bryant, on Wednesday.

REEB—At Grace Hospital, Windsor, on Saturday, June 14th, to Mr. and Mrs. Lloyd Reeb (nee Florence Fairbairn) a son—James Douglas.

REEB—In Grace Hospital, Windsor, on Saturday, June 14th, to Mr. and Mrs. Lloyd Reeb, of Sandwich South, a son.

HOLDEN—In Grace Hospital, Windsor, on Tuesday, June 17th, to Mr. and Mrs. Russell Holden, of Maldstone, a son.

Card of Thanks—Dr. L. G. Hillier wishes to express his most sincere thanks and gratitude to neighbours and friends of his late uncle, Charles Hillier, for the many kindnesses shown him during his prolonged illness. Special thanks to Rev. F. M. Ward and to those who sent flowers and loaned cars.

Card of Thanks—John Kennedy and family wish to thank friends and neighbours for kindness, sympathy, floral tributes and loan of cars in their sad bereavement in the loss of a loving brother and uncle. Special thanks to Rev. F. V. Waddington, Mrs. H. Harrow, Miss Doris Cross, the pallbearers, and E. J. Hicks' Funeral Home.

Card of Thanks—The family of the late Mrs. Edna May Crisp wish to thank friends and neighbours for kindness, sympathy, floral tributes and loan of cars in their recent bereavement in the loss of a loving wife and mother. Special thanks to Rev. F. M. Ward, Miss Nettie, Mrs. Elsie, the pallbearers, flower bearers, S. L. Funeral Chapel and staff, and to those who sent cards and helped in any way.

IN MEMORIAM
In loving memory of a dear husband and father, Arthur Hummer, who passed away two years ago, June 17th, 1945.

Our family circle has been broken. Another link gone from our chain. But though we parted for a while, We know we'll meet again.

The dearest father this world could have.

The cherished smile and heart of gold. To those who knew him all will know How much we lost, two years ago.

Sadly missed by his wife, and daughter, Mrs. Ed. Pettapiece.

IN MEMORIAM
In loving memory of Donald Newman, who passed away three years ago, June 23rd, 1944.

One port, methinks, alike we seek. One purpose hold, where'er we fare— O bounding breeze, O rushing seas! At last, at last, unite us there.

Fondly remembered by parents, brothers and sister.

IN MEMORIAM
In loving memory of Sgt. R. Ronald Law, who was killed in action June 22nd, 1943.

Wide is the rolling ocean, Heartbreakingly wide and deep, It flows between us who love him, And where he lies asleep;

But the soul of a gallant airman Can span the widest wave. Only his body is resting in the shadow of a grave.

A grave is only an empty, though sacred resting place. A boy's young gallant grace; A distant land is honoured with the glory of his clay.

But his spirit is in Canada, His soul with God today. Always remembered by mom, dad, Elvinda and Ira.

—Mrs. Asa Sweetman spent a few days with Mrs. Lura Sweetman and family, in Ayinger, and also attended the funeral of the late Daniel Ellis, on Saturday.

BYLAW NO. 2
A BYLAW of the Board of Trustees of
the Roman Catholic Separate Schools
for the Town of Essex, to raise by
way of loan the sum of \$25,000.00 for
the purposes hereinafter mentioned.

Whereas the Board of Trustees of the
Roman Catholic Separate Schools for
the Town of Essex, do require to borrow
the sum of \$25,000.00 to raise funds for
the purpose of purchasing a site and
building and equipping thereon a new
school and for such purpose to issue de-
bentures bearing interest at the rate of
three and three-quarters per cent
(3 3/4%) per annum, which is the amount
of the debt intended to be created
by this bylaw:

ns for corn syrup and other stores do ask for coupons. Is corn syrup ill rationed?

A—Yes. There seems to be some onfusion regarding rationed preserves and syrups. Corn syrup is not rationed, but molasses is.

Q—Is the rental of summer cabins outlotted?

A—Yes, the rental of summer cab-

Ear Infections.

People with acute or chronic ear trouble should think twice about going in for a swim. Water may get into the middle ear and may allow entrance of infection, which could then spread to the inner ear and mastoid sinuses. Sufferers from ear trouble should ask the family doctor whether it is wise to go swimming and bathing.

Lack of Sugar Beets Keep Wallaceburg Plant Idle.

Failure of the federal government to give enough assistance to the industry to adequately boost sugar prices in 1947, was scored here this week by W. J. McGregor president of the Canada and Dominion Sugar Company.

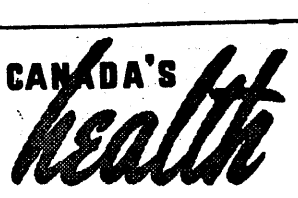

Speaking at the annual meeting of shareholders of the company, Mr. McGregor revealed that acreage contracted to date is only 26,277 acres which even under the best spring conditions possible will only permit operation of the Chatham plant at part-time capacity. Because of the government's failure to encourage the industry, he said, farmers could not compete against other cash crops grown in the area, and the Wallaceburg refinery will be kept idle for another year.

Payments to the growers for the 1946 crop, it was revealed, will total \$3,100,000 (including federal and provincial subsidies). In addition, \$1,500,000 is going out for factory labour, rail and truck freight, packages and miscellaneous supplies. Operating conditions were ideal in '46 and high quality Ontario beets yielded 301 pounds per ton — highest in Canada.

The Ontario government again has come to the rescue of the industry with a 1947 subsidy grant of \$12,500, all of which will be paid to the farmers.

Promised increase of 21 per cent in Canada's sugar allocation for 1947 will increase the volume of production at the Montreal factory.

Net operating profit of the company is up 26 per cent (before provision for federal income taxes) from all divisions of the company's business. Mr. McGregor said that about 68 per cent of this increase was derived through increased revenue from the wholly-owned alcohol distillery.

Take It Easy.

Take it easy. Don't exert yourself — if you would keep fit and have fun. When you take a holiday this year, make it worthwhile.

Medical authorities point out that people who sit at a desk or workbench 50 weeks in the year can't expect to benefit by strenuous exercise during the other two weeks. Stop short of fatigue, is the word from the doctors. Just get mildly and pleasantly tired. And, to make sure just what exercise will benefit you during your leisure, have a medical check-up, and keep on the safe side.

Dental X-Rays.

The value of X-ray examination of teeth is noted by national health authorities. X-rays enable the dentist to find concealed dental cavities while they are still small and are not readily discoverable by other means, thus making possible early treatment.

X-ray may uncover such things as infections around tooth-roots, edged or impacted teeth, unerupted or buried teeth, and injury to bone, due to a tooth striking too hard. Examination by its aid may also disclose bone changes leading to pyorrhea and conditions in children tending to develop irregular teeth, tumours or cysts.

Water Up the Nose.

Water forced up the nostrils can carry infection to the nose, throat and sinuses. So, say medical authorities, care should be taken when swimming to keep the nose free. Diving is the best way of entering the water. Those who have to jump in feet-first, should hold their noses.

Ducks can close their nostrils in the water, but human beings can't. Nor can we protect our eyes under water with special eyeglasses, similar to those possessed by some aquatic birds.

Reduce Safety.

If you are overweight, you must be particularly careful how you exercise or diet to reduce. People past the age of forty have a tendency to put on weight. This may or may not be a healthy sign. That depends upon many factors, and only a trained medical person is competent to judge.

In any event, reducing should always be carried out under strict supervision. It is not safe to start, suddenly to exercise to take off the pounds. If excess weight is due to organic disease, unaccustomed exertion may do one harm.

Holiday Activity.

Don't become idle to violent physical exercise, if you're not used to it — particularly if you've passed the normal "play-time" of life. This warning comes from National Health authorities, who point out that people who normally live sedentary lives can't suddenly become "sports" with safety.

The warning is particularly appropriate at approach of the holiday season. Experts remind Canadians that there are ages, conditions and temperaments, as well as to the particular physical requirements of people. The family physician, after an examination, can advise on how far one should go in taking part in the more boisterous sports.

40th Anniversary of Agricultural Representatives.

The 1947 annual Conference of the Agricultural Representative Service of the Province of Ontario, to be held at the Ontario Agricultural College, Guelph, from June 18th to 20th, marks the 40th anniversary of the founding of the service in Ontario. In 1907, six graduates of the Ontario Agricultural College were appointed in the dual capacity of district Representatives and as specialists in agriculture attached to the High School or College. These pioneers in agricultural extensions, with the county to which each was appointed in 1907, were as follows: W. A. Munro, Dundas County; Angus McKenney, Essex County, where he is still serving; R. S. Hamer, Lanark County; R. E. Mortimer (deceased) Simcoe County; F. H. Reed, Victoria County, and F. C. Hart, Waterloo County.

Today, forty years later, 53 agricultural representatives and 21 assistants are rendering a service which reaches every phase of agricultural activity and is as diversified as agriculture itself, with every county and district in the province covered.

This year, the first two and a half days of the week of the Conference will be devoted to a tour of Southwestern Ontario, to give these representatives a first hand knowledge of the development of newer methods and equipment used in the great cash crop of the Province.

The Conference proper started at 1:30 p.m. on Wednesday, June 18th, in the field husbandry building at the O. A. C. The program is divided into five main sections, dealing with Live Stock, Soils, Junior Farm Work, Agricultural Education and Extension Methods. A half day will be devoted to Agricultural Representatives' problems, and there will be separate sessions for Assistants and Northern Ontario Representatives.

In addition to the Agricultural Representatives who will take part in the program, some outstanding speakers will be heard. W. R. Bowk, Acting President of the O.A.C., gave an official message of welcome at the opening. For the Live Stock session the speakers included W. P. Watson, Assistant director, Ontario Live Stock Branch; Prof. R. G. Knox O.A.C., M. C. McPhail, Principal, Kentville Agricultural School; Dr. F. N. Macdonald, O.A.C., W. W. Neuber, Agricultural Representative for York, and J. D. Moore, Agricultural Representative for Brant.

At the Junior Farmer session on Thursday, June 19th, the special speakers will include T. R. Hilliard, Junior Extension Fieldman for Ontario; Miss Florence P. Eadie, Junior Extension Supervisor, Women's Institute Branch; Wesley Down, President, Junior Farmer Association of Ontario; Frank Webster, George McLaughlin and Kenneth Lantz, assistant agricultural representatives; A. O. Delymple, Agricultural Representative for Hastings, and Miss Orphie Orr, Junior Farmer leader, of Maple, Ontario.

Soil conservation discussions will be headed by Dr. E. S. Archibald, Director, Experimental Farms System, Ottawa; L. R. Webster, Soils Specialist, O.A.C.; E. I. McLoughry, Agricultural Representative for Essex and J. R. Appleton, of Wallaceburg, Ontario. Agricultural education speakers will include Norman Davies, Inspector, Agricultural classes, Ontario Department of Education; Norman C. Lind say, Supervisor of Rural Adult Education for Ontario; W. D. Tolton, Director of Public Relations, O.A.C., and J. C. Steadley, Director, Ridgeway Experimental Farm.

Hon. Thomas L. Kennedy, Ontario Minister of Agriculture, will be the guest speaker at the Conference banquet, which is to be held on Thursday evening, June 19th.

Butter Production Still on the Increase.

Butter production continued to run ahead of that of last year during the month of May, says C. E. Lackner, Dairy Branch Director of the Ontario Department of Agriculture, in his monthly summary of creamery instructors' reports. Practically all cows were on grass by the end of the month, but owing to the late season, it is likely that the peak of production, which usually comes about mid-June, may be a little later this year, but promises to be higher than a year ago.

Butter and cream prices, says Mr. Lackner, have held fairly steady during the month after the announcement of the new ceiling and the removal of the subsidy on butterfat, this in spite of the seasonal increase in production during the month.

Mr. Lackner announces that close to 100 creameries have entered in the Quality Improvement Competitions which started on May 1st, and preliminary returns indicate that these creameries will again lead the way in quality improvement.

Eat to Earn.

You can't be healthier than the food you eat. Say nutritious food has a direct bearing on health, which, in turn, plays an important part in efficiency. The experts remind working people that the state of health influences production rates, safety records and quality of output. Therefore, proper diet is necessary to ensure the best and most satisfying returns from labor.

HORSE PLOWMEN!

Plan to compete for the "SALADA" TEA special award at your local branch plowing match of the Ontario Plowmen's Association. The winner of this award—for the best plowed land in jointer classes using horses—will receive a \$10.00 cash prize and the right to compete in the "SALADA" TEA Trans-Atlantic Class at the International Plowing Match being held this year at Hemlock Park Farms, Kingston, on October 14, 15, 16 and 17.

The winners of the "SALADA" Gold and Silver Medals for this event will also be awarded a trip to the British Isles—all expenses paid. In addition, there are twelve other substantial cash prizes.

For full information on how you may qualify for these awards, please communicate with your own branch of the Ontario Plowmen's Association.

Shadow of the Star Chamber.

By Joseph Lister Rutledge.

A short while ago the Ontario Court of Appeals unanimously quashed the conviction for conspiracy against Henry Harris, optometrist of Toronto. Five months previously he had been found guilty on two counts in connection with espionage activities and sentenced to five years' imprisonment.

Chief Justice Robertson, writing the judgment for himself and his associates, Mr. Justices Roach and Aylesworth, made it clear that if there is a conspiracy everyone involved in it is equally guilty regardless of his degree of participation. The Harris case, he pointed out, rested on the admitted close association between Harris and Sam Carr, one of the accused who had so far escaped arrest and trial, but while the two had been close friends and had even visited Ottawa together on two occasions while the conspiracy was active, there is

not a particle of evidence that the appellant was in any way concerned, in any of these visits in the affairs of the conspiracy.

In view of the quashed conviction another observation of the judgment is of interest and moment. "Naturally," the court pointed out, "there will be much suspicion that there is real substance behind all that appears on the record of this trial, but the court cannot proceed upon suspicion."

In this phase the Appeal Court put a finger on the uneasy fear that has been troubling many Canadians since the espionage trials began. In seeking to protect our liberties against those who from selfish or sinister motives have been whittling them away, have we assured these accused the essential freedom and the even justice that we are striving to protect? Or have we built in suspicion and prejudice?

While ago the writer was discussing the espionage trials with an old-time friend who is also a justice of

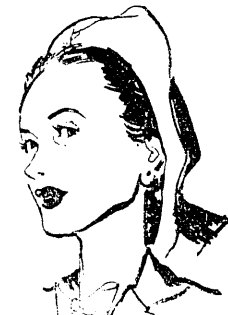

the peace of the courts of our country. He said: "I may as well admit that in my fear of the growing aggression of Russia my personal reaction was one of satisfaction at the conviction for espionage. But with that feeling there was a profound underlying fear that such a personal reaction shared no doubt by a great many people might be far more dangerous in breaking down our belief in a justice beyond fear or prejudice or revenge than the work of any number of disloyal citizens."

When we remove the "state" from the words citizens we have embodied the best citizens of the nation and safe guards that they and their forebears have worked and fought for over countless generations. Let us be slow to substitute any hint of Star Chamber rule for rule of the courts.

Patience does not mean indifference. We may work and trust and wait, but we ought not to be idle or careless while waiting. —Glen Hamilton

It's so easy to handle!

"No masculine muscles needed to drive a Chevrolet! The gear-shift on the steering column lets me shift gears with one finger—without shifting my grip on the wheel. And because every control responds so readily to the lightest touch, I can drive a Chevrolet all day long without strain or effort... park it quickly and conveniently whenever I choose."

It's so beautiful!

"If you're like me—if you value appearance—you'll lose your heart to the winning charms of Chevrolet. You'll love its long, sweet lines, its roomy and luxurious interior, its rich upholstery. It's truly the most beautiful car we've ever owned."

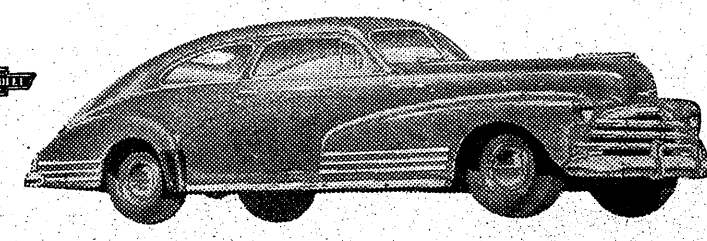

It's so trouble-free!

"I never worry about delays or unexpected breakdowns in inconvenient places... now that I drive a Chevrolet! I wear my smartest, gayest costume, my most frivolous shoes—knowing I can depend on Chevrolet to carry me over good roads and bad, mile after mile, month after month, with never a need for even a minor repair."

It's CHEVROLET!

Yes... it's Chevrolet... the car that offers Big-Car quality at low cost. You'll recognize this Big-Car quality in Chevrolet's Big-Car beauty, Big-Car comfort, Big-Car safety, and in the many vital features found only in Chevrolet and higher-priced cars. And every model brings you the great plus value of Chevrolet's traditional economy of operation and low cost of maintenance.

The growing demand for the new Chevrolet is setting an all-time record. We cannot hope for many months to fill all the orders pouring in. If you are among the many who have set your sights on Chevrolet's Big-Car Quality at Low Cost, we suggest that while you wait, you rely on your Chevrolet Dealer's service to keep your present car running smoothly and safely.

Dewhurst-Stafford Wedding.

Miss Blodwyn Mary Eby Stafford, of Cottam, daughter of Mrs. Albert Stafford and the late Mr. Stafford, became the bride of Warren Clarence Dewhurst of South Woodlee, at a quiet evening ceremony at the South Woodlee United Church parsonage, performed by the Rev. David Cavers, Saturday.

The bride wore an Elizabeth Blue suit with a pink hat and accessories. Mrs. Russell Quick, the bride's only attendant, chose a pale blue suit with a blue hat and accessories. Mr. Quick was best man.

Following the ceremony Mr. and Mrs. Quick entertained at a reception. The table was covered with a three-tiered wedding cake baked by yellow roser and iris.

Mr. and Mrs. Dewhurst will reside near Woodlee.

Mrs. Gourlay Crumb Dies.

Mrs. Edna May Crumb, wife of Gourlay Crumb, well known Gosfield North Farmer, passed away on Saturday, at the family home, on the 11th Concession, Gosfield North. She had been in ill-health for some time and was 56 years of age.

Surviving are her husband, Gourlay and eight children, Mrs. James Lumsberry, of Cottam; Oscar, of Woodley; Lloyd, of Kingsville; Elmer, of Windsor; Dorothy, Nellie, Sarah and Elias, at home; also three sisters, Mrs. Wm. Johnson, of Woodlee; Mrs. Ray Victor, of Windsor, and Miss Addie Allison, of Kingsville, and a brother, Wm. Allison, also of Kingsville.

Funeral services were held from the S. L. Kennedy Funeral Chapel, Essex, on Tuesday, in charge of Rev. P. M. Ward, of Brooklin, Baptist Church. Burial was in North Ridge cemetery. The pallbearers were Percy Birch, Ern Trimble, Wallace Trimble, Harold Newman, Alvin Hedge, Clyde Baker.

Robert T. Pettapiece Dies.

Robert Thomas Pettapiece, well known Gosfield North farmer, died suddenly at his late home on New Highway, at Cottam, on Monday, at the age of 87 years. He farmed all his life. Born at North Gower, Carleton County, February 28th, 1860, he came to Essex County at the age of 19 years. On March 29th, 1888, he married Miss Emma Pettapiece, of Ottawa. Mr. and Mrs. Pettapiece celebrated their gold wedding in 1938.

Surviving are his widow, Emma Pettapiece, and four sons, Aron, of Leamington; Charles, Ivan and Edmund, of Cottam; two daughters, Carrie, Mrs. Alvin Thompson, Lottie (Mrs. Eldon Wigler), both of Gosfield South; also a sister, Mrs. Cyrus Seabie, of Kars, Ont.

Funeral services, in charge of Rev. S. R. Johnston were held from the family home at 2:15 on Wednesday afternoon, thence to Cottam United Church at 3 p.m. Burial was in Cottam cemetery.

Car Accident at Cottam.

Damages totalling \$300 were caused at Cottam, on Sunday, in a three-car accident. Joseph Conrad, of Cottam, was driving east through the village when he was blinded by the lights of an oncoming car. His car collided with a parked car owned by Robert McKibbin, of Windsor. McKibbin's car bounced when struck, and hit another parked car owned by Rymal Nelson, of Smithville.

Plans Church Social.

Mrs. Leonard Noble entertained the members of the North Ridge United Church Evening Auxiliary for their June meeting, when Mrs. Russell Raymont conducted the worship period, the theme of which was "The Hope of the World."

Arrangements were made to sponsor an Ice Cream Social, on the church grounds, on June 27th. Mrs. Russell Raymont and Miss Ethel ede were appointed as a program committee and Mrs. Glen McCreery as refreshments committee.

Mrs. J. H. McQuat, of Cottam, was the guest speaker, and gave a comprehensive report of the London Branch Conference held at Aylmer.

An invitation from the Cottam Women's Missionary Society to attend an evening strawberry and ice cream tea on June 25th, was accepted.

First Baptist Church.

Sunday, June 22nd, Jesus said, "Search the Scriptures." Paul the Apostle likewise said, "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of Truth." Again, Paul said to Timothy, "But continue in the things thou hast known the Holy Scriptures which are able to make thee wise unto Salvation which is in Jesus Christ." We therefore rightly urge all to study the Word of God, the way of Salvation is contained therein for all to read. In this connection, you will find no better place to study the Word of God than in the Spiritual atmosphere of our Bible school. There you will find a company of people, young and old, who love the Book. Spend a passing hour with them and receive a lasting blessing. Immigrants on Job as Thinning Starts.

Canada's newest residents — the 75 Belgian and Netherlands farmers whose migration to Southwestern Ontario this spring was arranged by Canada and Dominion Sugar Company — are already proving their worth. In the short while they have been in the beet producing district, they've worked throughout the day and often until late at night, aiding in the planting and thinning of beets.

The Europeans, all of whom are skilled workers, came to Canada in three main drafts in May and early June. They will be followed by hundreds more throughout the summer, as the company continues with its extensive immigration scheme.

Sandwich South Council

Tuesday, May 27th. Special meeting called by the Reeve to discuss proposed extension of the fire protection area; the matter of the appointment of Brokenshire, Scarff & Co. to make a special audit of all the books, records and transactions of the township from January 1st, 1937, to December 31st, 1946, and the proposed watermain asked for by Miss Lillian Mero and others, at the corner of Howard avenue and Highway No. 3.

No person appeared to advocate the extension or enlargement of the fire protection area.

The matter of the special audit was discussed and the Reeve stated that after considering the estimated cost of \$3,000, submitted by Brokenshire, Scarff & Co. he was of the opinion that the audit might be too expensive and a reflection on the present and past auditors. He asked Council to pass a resolution to rescind the resolution, passed February 3rd, appointing above firm to do the special audit.

The Reeve also explained that Miss Mero and others were very anxious to secure water and have the watermain constructed. Bylaw No. 966 was passed providing for the construction of the watermain.

A letter was received from E. T. O'Neil, Fish and Wildlife Overseer of the Department of Lands and Forests, asking that the opening of the hunting season be postponed to November 1st, or until the opening of the pheasant season.

The respective debts of the watermains, Roseland Street Lights, Roseland Street Lights Extension and Telephone Accounts between Sandwich South and Sandwich West were discussed, but no definite action was taken to arrive at a settlement.

Moved by Messrs. St. Louis and Jobin, that all members waive their right to the required 24 hours notice for this special meeting, called by the Reeve for the 27th day of May, 1947.—Car.

Moved by Messrs. Jobin and O'Neil, that the resolution passed at the meeting held February 3rd, 1947, appointing Brokenshire, Scarff & Co. to make a special audit of all the books, records and transactions of the Township, from January 1st, 1937, to December 31st, 1946, be rescinded, and that they be notified to that effect.—Car.

Moved by Messrs. St. Louis and Jobin, that Leo C. Price be instructed to proceed with the audit of all lots, streets and alleys in Plan 1133 and part of Block "Z" plan 1330, sold by the township.—Car.

Moved by Messrs. Jobin and St. Louis, that this council approves of the draft plan made by C. B. Allison, O.L.S., of parts of lots 306 and 307, S.T.R. (otherwise known as lot 4, Con. 5) subject to the requirements of the Department of Planning and Development.—Car.

Moved by Messrs. St. Louis and O'Neil, that this council approves of the recommendations made by the Department of Lands and Forests, and contained in a letter attached from E. T. O'Neil, Fish and Wildlife Overseer.—Car.

Moved by Messrs. McKee and St. Louis, that the manager of the Telephone System be instructed to take up the matter of the bath room in the telephone office, with Mr. Taylor, the contractor, to have the work completed and report to this council.—Car.

Council adjourned.

ESSEX FAIR GROUNDS.

AMHERSTBURG vs. ESSEX.

2.30 p.m.

Rev. R. H. Parr Re-Elected.

Rev. R. H. Parr was re-elected president of the Essex and Vicinity Ministerial Association at the June meeting held at the parsonage, Woodside. Rev. David Cavers is vice-president and Captain John Carter secretary-treasurer. A feature of the afternoon was the presentation of a china teapot, cream and sugar set to Rev. S. R. and Mrs. Johnston, who are moving to Thamesford in July. Captain Carter made the presentation and Rev. S. R. Johnston made a suitable reply and Rev. J. H. Wheaten expressed the greetings of the association. A dainty lunch was served by the hostess, Mrs. David Cavers, assisted by the ministers' wives.

Rev. William T. Hunt Passes.

Active in the ministry for 44 years, Rev. William T. Hunt, aged 72, retired Baptist minister, died at his home in Toronto, Sunday after a prolonged illness.

Mr. Hunt was born in Downanville. He attended Woodstock College and graduated from McMaster in 1894. He held pastorates in many districts, including Listowel, Essex, Barrie, Welland and Goderich.

Essex Town Council.

Monday, June 23rd
Council met in regular session at 8.30 p.m., with Mayor Linton, Reeve Irwin and Councillors Chase, Francotte, Shaw, Pulleyblank and Maedel present.

A number of ratepayers from Laird avenue, owing property from Laird street to Victor street, were present in regard to proposed surfacing of Laird avenue, from corner of Alice street to Victor street.

Mayor Linton stated that to get a contractor down just for this small piece would cost much more than job was worth, but he thought work could be done when county was having the Trowline to end of present town pavement, resurfaced. He had spoken to Mr. Knister about it.

Mr. Geddes, town solicitor, stated he had spoken to Mr. Knister on the phone in the afternoon and had been advised by Mr. Knister that cost of proposed resurfacing runs about \$2,000 per mile for 20 ft. right of way. This allows for 2 coats. Mr. Knister stated this made a good road and advised putting on a third layer in 1948.

Mr. Geddes also stated that taking the Mayor's proposal of laying under a 50% town, 50% frontage basis, it would cost the owner of a 50 ft. lot abouting on the work, about 25c per lineal foot or an assessment of \$12.50.

The matter was left in abeyance until such time as county gives contract for Naylor Sideroad.

Mr. Cox addressed Council, advising the body he had purchased a lot, part of the old Separate school playground, facing By street, and was building a new home there. He was wondering what drainage there was on the street, also stating lot next to him had been sold and would be built on at an early date.

This matter was left with Mr. Chase to look into.

Mr. Chase reported that laborers working for the town advised him that they would no longer work for 50c an hour, as the work was not steady enough.

After a short discussion, on motion of Messrs. Pulleyblank and Chase, the hourly rate for transient labor for the town was set at 65c per hour.

S. L. Kennedy addressed Council re condition of sidewalk in front of his home on Medora avenue, also the walk in front of Jos. Wolfe's, on opposite side of street.

Mr. Pulleyblank stated these pieces would be looked after as soon as men were available.

The Clerk read a notice from East Windsor Hospital, stating that a child had been admitted to the Hospital as an indigent from the town and thus his care chargeable to the Town through the county. The notice stated he would be hospitalized for at least four years.

After discussion it was moved by Messrs. Shaw and Francotte, that they would not be responsible for the care of the patient and that hospital would have to look to father of child for cost of keep.—Car.

The Clerk read a letter from Stokely-Van Camp Co. re leasing of cement block building at Fair Grounds. The letter stated they had exchanged the use of warehouse they had been using at McGregor with Graham Canning Co. for use of Essex fair grounds building, leased at present to Graham Canning Co.

A discussion followed as to rental and length of lease, if granted, and on motion matter was left with the chairman of the Property Committee and Mr. Geddes to get in touch with the Stokely management, and come to an amicable agreement.

Minutes of last regular meeting was read and passed.

On motion of Messrs. Irwin and Shaw, the following accounts were passed:

W. E. Beaman, balance salary, \$156; Thomas Watson, labor, \$14; Ed. Kennedy, labor, \$22.50; Don Francotte, labor, \$4; Treasurer, postage, \$10; H. W. Mills, gravel, \$68.75; W. Harrow Blanks Tecumseh.

Tecumseh threatened first in the third, when, with two out, Savole walked and Sawyer struck out, making first when Bob Wright let the ball go past him. Savole taking third. Cecile was passed to all the bases and Beaujeu rounded to short to force Cecile at second.

Harrow came back in its half of the third, when McKenzie was safe at first and took second when Sawyer, at third, threw wild to first. Brush then sacrificed McKenzie to third and when Sawyer again threw past first, Brush was safe and McKenzie scored. TECUMSEH.

Green Grass Value.

Investigations at the Range Experiment Station, Manlyberies, Alberta, have shown that growing cattle make daily gains of two to three pounds per day during the spring and early summer when the grass is green. The grass contains a high percentage of protein which rapidly diminishes as the range matures and reaches the dried state. This change in the composition of range feed results in a corresponding change in the gains made by cattle. By early September, daily gains are reduced to less than one pound per day, with a further reduction until cattle may only hold their weight in the late fall months. Example is a lesson that all men can take—Gilbert West.

Kingsville Wins from 'Burg.

A four-run rally in the fifth inning gave Kingsville a 5-4 win over Amherstburg.

With the score tied 1-1, Kingsville came up with three hits for four runs. E. Snively singled to right, Bowles hit a grounder to Nicholson, who threw wild to Jones in an attempt to force Snively. Both runners were safe.

Ruscher singled to center to score Snively, and took second, Bowles going to third on the throw to the plate. Bechard then brought them both in with a single to right.

When Murray threw the ball wide of the plate, Bechard went to third to score when Alice laid down a perfect hunt.

Culpable Neglect.

Only those who do nothing about it, should feel shame at being sick, according to National Health Authorities. Ottawa public health experts point out that illness is nothing to be ashamed of, but neglect to take advantage of facilities for diagnosis and treatment of an ailment is culpable. It is sheer carelessness, which endangers not only the victim of the illness, but all contacts.

Lime deposits in any cooking utensil can be removed by boiling strong vinegar water in it, or water to which cream of tartar has been added—one teaspoon per quart of water.

Not so Good for Tilbury.

After three postponements, Tilbury finally opened its home baseball season, but it still wasn't a gala occasion. The home club lost to Belle River 8-4. Joe Penner pitched a four-hitter and would have had a shut-out but for three errors in the third frame, when Tilbury scored all its runs.

Buck Durocher's home run, Cecile's double to right and Chaput's single in the third gave Belle River its winning runs.

Manager Durocher's homer and two singles in five led the sluggers.

Sandwich South Council.

Monday, June 2nd.
Council met pursuant to adjournment, with all members present. The minutes of the previous meeting read and adopted.

A large delegation was present to express their opinion in regards to a resolution passed at a meeting held May 5th, stating that the Council take the initiative in submitting a vote to the electors on the question of the sale of beer and wine in the Township, and on which resolution all five members of Council voted in favour of.

Rev. Mr. Tully, Rev. Mr. Pick, Chas. Collins, Roy O'Neill and Albert Wood all voiced their protests against Council taking the initiative, and also against any intoxicating liquors being sold in the township.

Also a delegation was present to explain the necessity of a health survey of the schools in the township. Mr. Pierce, public school inspector, and Mr. Payette, separate school inspector, both spoke on the question of appointing a school nurse, to be employed full time for this purpose. They also explained that the school boards no longer had the authority to make such an appointment and no grants were now allowed to help to pay the costs. They requested the Council to take the necessary steps to appoint a full time nurse. It was estimated that the cost for a registered nurse and her expenses would be about \$2,660. As this was considered too great an expense for the township to bear alone, it was suggested that this township join up with some adjoining municipalities or parts of other townships to employ the nurse.

Written notices were received from P. Herdman and S. Watson to repair the Watson drain; from B. R. Bedford to repair part of the 6th Con. drain, and from M. Farough to repair part of the McPherson drain.

A letter was received from G. Collacutt, resigning as trustee of the High School Board of the Windsor Suburban District, as he was being transferred to Toronto, and thanking Council for his appointment.

The Township Solicitor, in a letter, advised that the resolution passed by Council to take the initiative in submitting a vote to the electors on the sale of beer and wine, was incomplete.

The following tenders were received for the construction of a watermain on Ducharme street. Fullerton Construction Co., \$3,220.20; McAlpine Construction Co., \$2,870.25; T. & C. Satori, \$2,637.05.

The following tenders were received for the construction of a closed drain on Howard avenue: Fullerton Construction Co., \$3,000; McAlpine Construction Co., \$2,271.90; T. & C. Satori, \$1,950.

The Drouillard Excavating Co. submitted a tender for \$1,180 for the repair of the 8th Con. and South Talbot drain.

N. Shuttleworth, S.A.O., submitted his report for May.

A complaint was received from Mr. Hope, stating that sewage was being discharged from the gas station, owned by Mr. Malenfant, into the open ditch in front of his residence. No action taken.

Ask Farmers' Help in Helpful Survey.

For the purpose of obtaining statistical information on accidents and loss on farms in Canada, the Dominion Bureau of Statistics began a survey on Monday, June 2nd, in continuation with the Bureau's quarterly labour force survey. This survey includes a scientifically selected cross section of households in every province in Canada and is the largest sample survey of its kind ever undertaken in the Dominion. It is particularly concerned with employment conditions in agriculture, as well as in other industries. About 500 persons will be employed in making the survey. They will make personal calls on about two per cent of the farm households throughout the Dominion to get answers to carefully prepared questions. This part of the work will take about three weeks.

The part of the survey having to do with farm accidents and fires is being made following a request to the Bureau by the Dominion Department of Agriculture. Both the Bureau and the Department intend to publish the results of the survey. The information obtained can be used in an effort to reduce the hazards of farm life at a time when experienced farm labour is difficult to get and when the loss of farm property and equipment handicaps the production of food products which are presently so urgently required.

Every household in the constellation of human greatness, like the stars, comes out in the darkness to shine with the reflected light of God.—Mary Baker Eddy

GOOD CITIZENSHIP is a lot of little things

1867 CANADA'S BIRTHDAY 1947

Growing pains at 80? Sounds impossible, but you must take into consideration the fact that, among the nations, Canada is one of the youngest. Our industrial, agricultural and natural resources are growing! Our influence and our exports are expanding! Our people look back with pride and satisfaction on Canada's development since Confederation. We face the future secure in the knowledge that our opportunities will be matched only by our Country's progress.

Remember, Canada is YOU. It takes "Good Citizenship" to be a real Canadian.

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

Handling DDT.

DDT is classed as a poison, but, says Alan G. Duran, Division of Entomology, Dominion Department of Agriculture, it can be used safely if applied and handled in accordance with the directions on the containers as approved by the Department. DDT preparations should not be applied to plants that are to be used as food, especially shortly before harvest, and oil solutions should not be used on plants at all because the oil will injure the foliage.

Trinity, Cottam — 2 p.m., Sunday School; 3 p.m., Evensong.

First Baptist Church.

Sunday, June 29th. Are you looking for a friendly evangelistic church, in which to worship? Look for the church with the "Lighthouse Sign." You will find a warm welcome here. Sunday school, 10 a.m.; Worship Service, 11 a.m. Gospel service, 7.30 p.m. NOTICE: Sunday school and church picnic July 1st, at Jack Miner's Bird Sanctuary. All welcome.

The Salvation Army.

Meetings this Sunday at 11 a.m. and 7.30 p.m., each preceded by open air meetings commencing at 10.30 a.m. and 7 p.m. respectively. Sunday school, 2.30 p.m., with lesson "Abraham at Prayer." Genesis 18:17-33. Text to learn: Psalm 103:1-11. "He hath not rewarded us according to our iniquities. For as the heaven is high above the earth, so great is His mercy towards them that fear Him." We would be very pleased to see you at any of these gatherings. Next week's activities as usual. Two special announcements: From July 6th to 20th, another series of meetings in the Salvation Army. Tent to be erected on Talbot street, opposite Don Wilson's Service Station, every night, 8 o'clock except Saturdays, Sundays at regular hours. Special speakers. From July 7th to 18th, a Summer Bible School daily, 9 a.m. to 11.30 a.m., for boys and girls of public school age, Mondays to Fridays, inclusive, in the Salvation Army Citadel.

Card of Thanks—The family of the late R. T. Pettapiece wishes to thank neighbours and friends for the many acts of kindness shown them in their time of sorrow. Special thanks to Rev. Johnston, Mrs. Newman, Mrs. Fred Gordie, Mrs. Gordon McDonald, and Hicks' Funeral Home for assistance at the funeral service.

Card of Thanks—I wish to thank the Maple Leaf Women's Institute, the pupils of S. S. No. 11, Maidstone, and all who sent messages of sympathy during my recent bereavement in the loss of my brother. Special thanks to Mrs. Patricia F. Hicks.—Edith Clark.

Essex Juniors Best McGregor.

Essex Junior baseball team journeyed to McGregor and defeated the home team by a score of 14 to 10. It was a free-hitting game, with McGregor getting 9 hits off Talbot, and Essex collecting 11 off the McGregor pitchers. Features of the game were Wes Carroll's single, with the bases loaded, in the 6th, and Leclair's homer in the first inning.

CANADA'S health

Mixed Victuals.

Healthful foods do not create
poisons in the human system
simply because they are mixed. Nutri-
tion authorities at Ottawa brand as
untrue the belief that certain foods,
under ordinary conditions, will "fight"
in the stomach if eaten together.

Even a combination of lobster and
ice cream needn't be shunned entirely
by the healthy person, and most victuals
may be mixed without qualms by
those with robust digestions.

Of course, warn the nutritionists,
any two foods hard to digest, if eaten
together, will cause just that much
extra distress, when they are taken
in large quantities. The key to happy
eating, it seems, is moderation in diet,
as well as in selection of foods.

Ten and Freckles.
A new measure for hastening
tanning and freckles are unwise
and may be hazardous according to
nutrition experts.

There is no safe way of removing
tanning prematurely because they con-
sist of coloring matter, a pigment,
which forms a part of the deeper lay-
ers of the skin. Only time can erase
them, nutrition experts say.

Refrain and prevent as long as
possible from eating a meal of
fried potatoes and meat, say nutri-
tion authorities, say that often
the cause of food poisoning is the
combination of frequent potatoes. People
are themselves into thinking they
are eating a meal of fried potatoes.

So, say the nutritionists, let
your food be plain, at your regular
meals, and then you won't suffer
from food poisoning which a com-
bination of foods can cause.

Summer Appetite.
If you find the appetite is not
coming, nutrition authorities say
that the reason often is an over-
eaten stomach. Whipping up the appetite
is the key.

Tests Made With Package Flowers.

The Dominion Horticulturist, Domi-
on Experimental Farms, reports on a
trial shipment of flowers undertaken
to test different methods of packing.
Two ventilated and two non-ventilated
cartons of flowers were shipped from
Victoria to Edmonton and immediately
back to determine the effect of the two
different treatments under actual ship-
ping conditions. For this purpose
King Alfred Daffodils were cut on a
Monday evening, stood in water over-
night, then packed dry and shipped
in heavy corrugated cardboard cartons

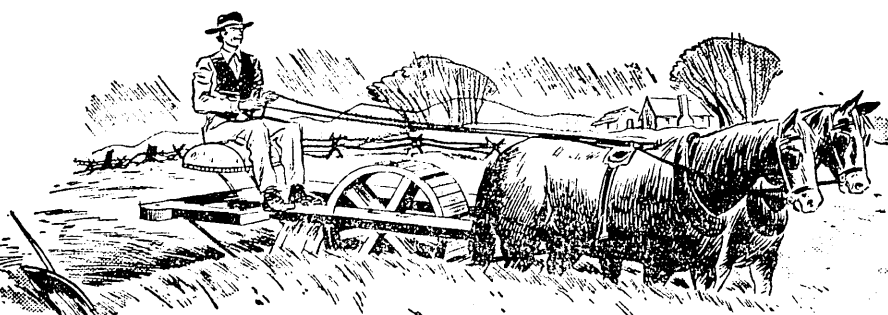

on the following day. The shipment
was received back and examined in
Victoria on Saturday.

Examination of the flowers on ar-
rival disclosed that in one instance
the flowers in the ventilated carton
were in slightly better condition than
the flowers in the corresponding non-
ventilated carton, whereas in the other
instance the reverse was observed.
As the four cartons were shipped in
dependently, it is believed the actual
position they held in the railway car
had a bearing on the opposite results.
No difference was observed in the
length of time the flowers retained
their decorative value under living

room conditions where the temper-
ature ranged between 70 and 82 de-
grees Fahrenheit. The flowers re-
tained their decorative value from 3
to 4 days on the average. A small
percentage of slightly crushed trump-
ets from each treatment failed to fully
recover. Flowers with crushed trump-
ets from non-ventilated cartons were
slightly less satisfactory in this re-
gard.

The study of God's word, for the
purpose of discovering God's will, is
the secret discipline which has formed
the greatest characters.—J. W. Alex-

MAKING BETTER IMPLEMENTS Through 100 Years..

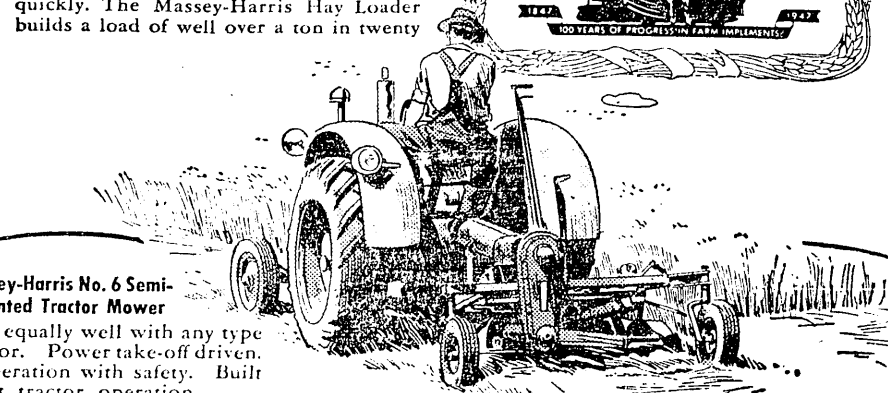

This type of mower
was built at the Massey
works as early as 1852.

ABOUT 1820 a mower was invented with
a circular cutting blade which revolved
against the grain, apparently imitating
the action of the old scythe blade.

A few years later a mower was invented
in the United States which had a sharp
knife with teeth moving sideways in a row
of iron fingers or guards. The first mower
of this type to be made in Canada was
produced in 1852 at the Massey works, the
little plant which has grown into the
Massey-Harris industry of today. And all
through its 100-year history this company
has been a leader in developing labor-saving
farm devices.

The use of modern Massey-Harris farm
machines has brought many benefits to
Canadian farmers. The Massey-Harris Side
Rake and Tedder turns the hay into light,
fluffy windrows, so the air can cure it
quickly. The Massey-Harris Hay Loader
builds a load of well over a ton in twenty

Sure-Grip TRACTOR TIRES

SAVES YOU TIME, FUEL, MONEY

It pays to use the tractor tire that has proved it does more work faster, at lower cost. That's Goodyear's Sure-Grip with self-cleaning O-F-E-N C-E-N-T-R-E tread. It's super-traction has been proved by farmers like yourself!

Super-traction means an end to time and tread-wasting slip trouble. Sure-Grips bite in cleaner, deeper and take a firmer hold on the soil. They grip better... pull more... do more work per hour. And because Goodyear's balanced lug design provides a uniform transmission of power, Sure-Grips pull evenly, ride smoothly, wear longer.

Do as thousands of cost-conscious farmers have done—equip your tractor with longer-lasting, more efficient, money-saving Goodyear Sure-Grips.

To Prevent Spread of Poultry Disease.

As an aid in preventing the possible
spread of serious poultry diseases, and
particularly in the event of the very
serious disease, known as New-
castle disease (pneumocystitis), a Min-
isterial Order has been issued requiring
the cleaning and disinfection of live-
poultry crates before they are permit-
ted to leave the plant at which they
are unloaded.

For the purpose of this Order, the
expression "live-poultry crate" means
any crate, box, receptacle or contain-
er for transporting or conveying live
poultry.

Dr. T. Childs, Veterinary Director
General of Canada, has issued instruc-
tions on the cleaning and disinfection
of live-poultry crates and asks the co-
operation of every owner or operator
of a poultry processing plant or killing
plant, of all connected with the poultry
industry, and transportation companies
comply with the Order which speci-
fies that after each use as a live-poultry
crate, and before leaving the plant, all
crates must be thoroughly cleaned and
disinfected for at least two minutes in a
solution of 2 per cent formalin.
One must remove or permit to be
moved a live-poultry crate which is
not cleaned and disinfected, in a man-
ner satisfactory to an Inspector of the Do-
minion Department of Agriculture.

Wilkinson-Smith Nuptials.

A quiet wedding was solemnized on
Saturday, June 28th, at the United
Church, Leamington, when Mary
Elizabeth, daughter of Mr. and Mrs.
Shirley Howe, only daughter of
Mr. and Mrs. Gerald Wilkinson, of
Mount Carmel, to Wilbur Ernest
Smith, youngest son of Mr. and Mrs.
William Smith, of Cottam.

A reception, for about fifty friends
and relatives, was held at the home of
the bride's parents, after which the
young couple left on a short honey-
moon. On their return they will re-
side with the groom's parents at the
14th Concession of Gosfield North.

Role of Dunphy Dies.

Robert Dunphy passed away in Leam-
ington, on Monday.

Surviving are his widow, nee
Schneider, and several children; also
two brothers, Jack, of Chatham, and
Andrew, of South Woodville, and two
daughters, Miss Weaver and Mrs. Hall,
both of Woodville.

Hickman-Tallent Nuptials.

A very pretty wedding took place re-
cently at Court Street Methodist
Church, Adrian, Mich., when Rev. Dr.
W. O. Abbot officiated in marriage. The
double ring ceremony, Miss June 13,
Edith Tallent, daughter of Mr. and
Mrs. Frank Tallent, of Essex, and John
Hickman, son of Mr. and Mrs. Thomas
Hickman, of Adrian, Mich.

The bride, given in marriage by her
father, wore a gown of ecru-colored
satin, fashioned colonial style, accom-
panied in front a satin-trimmed collar.
A veil was suspended by a chain of
tiny crystals and seed pearls. She
wore a strand of pearls, a ring of the
same, and carried a white orchid sur-
rounded by stephanotis.

The bride's two attendants, Miss
Gladys Lyster, of Windsor, and Miss
Sally Phillips, of Flint, Mich., wore
fashioned gowns of navy blue and white
over a fine tulle. They carried white
orchid bouquets of cap-sleeved. They
wore flowers in their hair and carried
high and dark pink carnations.

The bride's father sang two num-
bers, "Because" and "O Promise Me."
The best man was Charles Hickman,
brother of the groom. Ushers were
Donald McLeod, of Detroit, Andrew
Piper, of Ontario, and George String-
well, of Detroit.

A reception for 150 guests was held
in the parlors of the church. A three-
tiered wedding cake, decorated colonial
style, centered on a lace tablecloth.
Candelabra were used, surrounded
with pink and white sweetpeas.

Mr. and Mrs. Hickman motored to
New York City to spend two weeks.
The bride's trousseau in a green and
white accessories, and she wore an
orchid.

Mr. Hickman is a member of the
Empire Gamma Tau Sorority in Flint,
and Mr. Hickman is a member of Phi
Sigma Phi Fraternity, a graduate of
General Motors Institute, and a gradu-
ate of Yale University, serving as an
Ensign in the United States Navy
in the Japanese area.

The bride's mother wore for her
daughter's wedding a light grey dress
with white accessories and a carriage-
of pink and white sweetpeas. The
bridegroom's mother wore dark print-
ed silk with black accessories, and a
carriage of sweetpeas.

Guests from out-of-town were from
Essex, Detroit, Pontiac, Mount Morris
and Adrian.

Mrs. John A. Beer Passes.

Mrs. Nettie Blanche Beer, aged 67,
of Hall avenue Windsor, passed away
on Friday of last week, at the home
of her daughter, Mrs. Gerald C. Greene,
of 8574 De Sota street, Detroit, follow-
ing a lengthy illness.

Mrs. Beer was the eldest daughter
of Harriet Hankey and Thomas Deacon,
and was born in Colchester North
Township, Essex County, on September
14th, 1879. She and Mr. Beer were
married nearly fifty years ago. They
lived on the Batten Sideroad, Colches-
ter North Township, for 21 years, moving
to Windsor 27 years ago, where
they resided at 1523 Hall avenue.

Before moving to Windsor Mrs. Beer
was an active member of the Elford
United Church and in W. A. work. In
Windsor she was active in Giles Boule-
vard United Church, and also a mem-
ber of Pleasure Rebekah Lodge, Walk-
erville, for the past twenty years. She
will be greatly mourned by her many
friends, both of Elford and Windsor.

Deceased is survived by her hus-
band, John A. Beer; three sons and
one daughter, George A., Fred L., of
Windsor; Darcy R. and Mabel (Mrs.
Gerald C. Greene) of Detroit; three
daughters, Minnie (Mrs. Earl Vickers),
Bessie (Mrs. Gary Best) of Windsor,
and Rosie (Mrs. Gary Richardson) of
Harrow; also by 14 grandchildren and
three great grandchildren.

A special service was held Sunday
evening at 7:30, under the auspices of
Pleasure Rebekah Lodge. Funeral ser-
vices were conducted by Rev. Gordon
L. Butt, at the Morris Funeral Home,
Windsor, at 8 p.m. on Monday. The
palbearers were six grandsons. Bur-
ial was in Windsor Grove cemetery.

Grant-Montgomery Wedding.

A quiet wedding was solemnized by
the Rev. S. R. Johnston, on Saturday,
in Cottam United Church, when Mary
Elizabeth, daughter of Mr. and Mrs.
J. C. Montgomery, of Cottam, was
united in marriage to Evan Ray Grant,
only son of Mr. and Mrs. James T.
Grant, of Cottam.

The bride, who was given in mar-
riage by her father, wore a sky blue
satin suit with brown and white
accessories, and carried Tallisman ro-
ses. Her sister, Miss Isabelle Mont-
gomery, wearing a beige gabardine
suit with brown accessories and car-
rying red roses, was her only attend-
ant.

Howard Thompson, of Windsor, was
best man, and Lloyd Lister, and Mar-
tine Holland were ushers.

During the ceremony Miss Mary
Lewis, of Kingsville, sang "Because"
and "I Love You Truly," accompanied
by Mrs. Fred G. Gordy, who also
played all the wedding music.

A wedding breakfast was served
to 29 guests at "Four Oaks," Leam-
ington.

After the breakfast Mr. and Mrs.
Grant left on a motor trip east. On
their return they will reside in Gos-
field North.

A comprehensive program of co-operative courses in many subjects of vital interest to rural women, and to be offered in cooperation with district and local Women's Institutes through out the Province has been organized by the Women's Institute Branch and Home Economics Service of the Ontario Department of Agriculture for the year 1947-48. It is announced by Miss Anna P. Lewis, Director of the Branch, who has prepared for distribution to all the Institutes of the Province a booklet giving details of the courses, which will be available to the members of the co-operative courses which are being offered are in keeping with the original aims of the Women's Institutes as laid down fifty years ago when the first Institute was formed. They are: (1) to help women acquire sound and improved practices for raising home efficiency; (2) to discover, stimulate and train leadership to develop a more abundant life in rural communities and a deeper appreciation of the things near at hand; (3) to develop better and more useful citizens. The courses involve cooperation between the Branch Institute and the local community in carrying out the course, and cooperation between the Branch Institutes in any district in supporting the district program that is chosen.

This year's program, Miss Lewis points out, is styled to meet the needs of the women in the community. The courses are designed to make a program for those young mothers-to-be and suggests that this may mean that the Institutes should make special arrangements to look after young children while the mothers are attending the course. Miss Lewis also emphasizes the fact that these courses are offered as a service not to Women's Institute members only but to all the women of the communities in which they are held.

The courses are divided into a two-part program. The first part is a District program, and the second part is a Branch program. The District program is designed to meet the needs of the women in the community, and the Branch program is designed to meet the needs of the women in the Branch.

GREEN WHITE OR AMBER BOTTLES ?

TRADITIONALLY, Ale has always been distributed in green bottles but, owing to the present shortage of green glass, some Ale is being bottled in white or amber bottles.

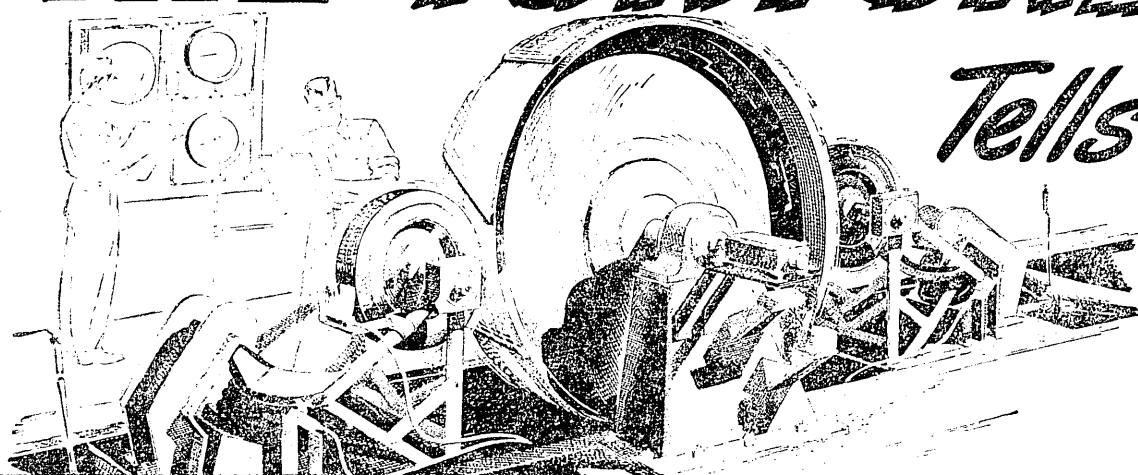

This is a temporary measure—and does not in any way affect the quality of the product.

THE TORTURE TEST

Tells THE TRUTH
ABOUT
TIRES

PROVING THAT Goodyear gives you most for your money

WHAT is the Torture Test? Two tires... a Goodyear... and another make... are clamped in running position against a motor-driven drum. The surface of the drum is studded with thick, steel bars.

The switch is thrown! 'Round and 'round spins the drum... grinding with equal force against both tires... pounding, punching, pummeling... 24 hours a day. Simultaneously, both tires are given the same terrific, smashing punishment.

Finally, one of them gives way. But one rolls on and on! The winner? Test after test discloses the same result: Goodyear

tires are superior in performance to all others!

In addition, Goodyear tires are successfully performance-checked against all others on a huge test fleet of cars and trucks.

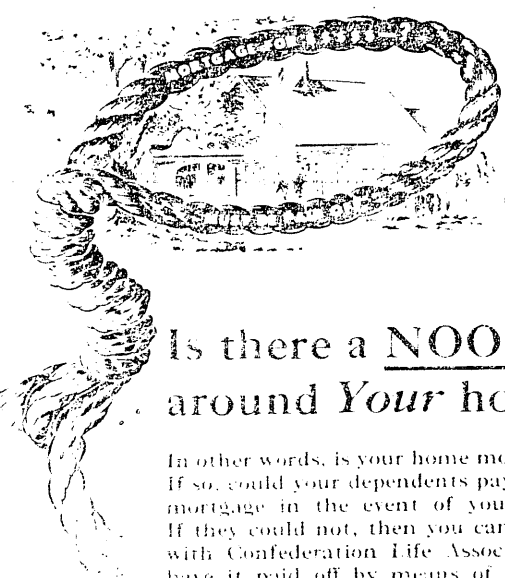

Of course, the final test of Goodyear superiority has been made by millions of motorists like yourself... right on their own cars. The result? For 32 consecutive years, Goodyear has been Canada's first choice tire.

You don't stay first unless you're best!

Put new Goodyear tires on your car. You'll get more mileage... more safety... more value for your money.

NO WONDER—More People Ride On Goodyear Tires Than On Any Other Kind

Attaching tags on people seldom makes for a more understandable and general picture. It makes for confusion and unsound thinking. Our most familiar tags are the tag of capitalist and worker and consumer. We have a mental picture of the capitalist in his opulent office, the worker at his bench or production line, the consumer pushing her shopping buggy. They are distinct pictures but they are not accurate.

The Tobacco of Quality

The same ingredients—rubber, textiles, steel and other materials—are available to *all* tire manufacturers. It's how these raw materials are processed, blended and compounded that make the difference between Goodyears and low-quality tires. The exclusive Goodyear process developed through long experience and constant research—produces a tire unequalled for toughness, resistance to wear and other long-mileage qualities.

Now, as always, your best guide to quality in a tire is the name Goodyear—the greatest name in rubber.

FISHING CAN BE DANGEROUS SPORT

Canada's lakes are teeming with "big ones" but they won't pull you off the dock or out of the boat. Most fishing accidents are caused by taking unnecessary risks—standing up in the boat when you're excited, changing places in the canoe, going out in rough weather. Each year hundreds of Canadians needlessly lose their lives by drowning.

Don't take unnecessary chances. You'll get more enjoyment from your sport—get home safely to your family—and live up to the laws of "Good Citizenship".

Waterloo Band Festival

The following article was written for the Free Press by a member of the Essex Boys' Band.

This story is written for those who were not fortunate enough to attend the Waterloo Music Festival on June 28th. As you read, I hope that you can partly share the wealth of musical talent and display featured at the festival.

Before I left on my trip with the South Essex Associated Band to the Waterloo Festival, I heard numerous people express their desire to attend this event. They had heard so much about it that they wished to see and hear the musical competitions for themselves. And now, after attending my first Waterloo Music Festival, I wish that everyone could have gone to enjoy that great day.

Fifty-four band members and friends were on the two chartered buses that left Kingsville at 4:45 p.m. on Friday. Twelve cars also went down. A continuous flow of friendly talk made the time pass quickly until we reached the Y.M.C.A. and Y.W.C.A. in Kitchener, and then left at 6 in the morning for Waterloo.

The festival was held in scenic Waterloo Park. At different points on these spacious grounds, the competitions of each musical section were held.

The main festival, during the day, included brass bands, brass and woodwind solo and duet classes, violin, viola and cello entries, piano accordion solos and bands, bugle and trumpet bands, individual bugling and drumming, pipe bands, solo dancing and solo piping. My regret is that it is practically impossible to see and enjoy more than one-quarter of the events. There is so much going on in so many places at one time that it is better to make your choice ahead of time and then see the sections that you are interested in.

On Saturday morning, two of the six band classes competed in the band shell. In the first class, the South Essex Associated Band, under Bandmaster, E. L. Robinson, competed against three other bands. The Associated Band, with their contest number "H.M.S. Pinafire," won 2nd place with 83 points. A military band, the Lorne Scots, of Georgetown, won first place with 90 points.

The South Essex Junior Associated Band came through with flying colors. With 82 points out of a possible 100, they placed first in their class. From 7 a.m. to 1 p.m. (EST), the solo and duet classes in brass and woodwind instruments were held in three tents and the position. There were approximately 50 entries from the South Essex Associated Band in these classes.

The competition between bands and the solo and duet classes was very close.

The Mother's Union, of St. Paul's Church, held their annual picnic on the parish hall grounds. Several members and children were present. During the afternoon many games and contests were held, the winners of which are as follows: Kick the slipper, Mrs. W. Philpott; nine pins, Mrs. Wanda DeMeer; darts, Mrs. Wheeler; bean count, Mrs. Gillyver; clothes pin contest, Mrs. Layson; bean counting contest, Mrs. Slovic; door prize, Mrs. R. Smith. The perfect ending was the well-lit table, where all sat down to a delicious meal.

The South Essex Associated Boys' Band attended the band contest featured at the Lions' convention in Windsor, on July 1st. The other bands competing included the Leaside Lions' Band, of Toronto; the Zimmerman Majorette Band, of Windsor; the York Lions' Sea Cadet Band, the H. M. C. S. Hunter Sea Cadet Band, of Windsor, and the Col. Wigle Branch Canadian Legion Band, of Riverside. The H.M.C.S. Hunter Band won the \$100 prize by obtaining 84 marks. The South Essex Associated Band, with 82 points, was second.

IN MEMORIAM

The entire evening program was broadcast over a local Waterloo radio station. E. L. Robinson, bandmaster over the Associated Bands, spoke briefly over the air and was interviewed concerning the band.

During the afternoon I took time off from the brass and woodwind classes to see the solo dancing at the grandstand. And I wished that I could have stayed the rest of the day. The young boys and girls gave colourful exhibitions of the Highland Fling, Sword Dance, Shian Truibhas, Irish Jig, and the Sailors Hornpipe. For the Scottish dances, the bonnie lads and lassies wore the traditional Scottish dress. For the Irish Jig the young people wore green, white and red costumes complete to large buckles on their shoes. All of the dancers were under 18 years old and most were under 10. The bagpipers accompanied each dance.

The colourful and talented dancers and the skill of the pipes captured the hearts of the large and appreciative audience.

Musicians attending the Waterloo Music Festival for the first time, enjoyed themselves thoroughly during the day—they thought. But after attending the evening performance, they knew that the music during the day was only a start.

The evening program was staged in front of the grandstand. In a large area in front of the grandstand, the hillside is terraced to form a natural grandstand. Thus, a large amphitheatre seats the crowd. And at the evening programme, I would say that there were 20,000 people witnessing the colourful spectacle.

At 8:30 p.m. the grand parade and march started. There were 27 bands participating in this parade and many others were present but did not march. A few of the numerous bands were the Petrolia White Rose band, the 2nd Divisional Signals Trumpet Band, of Toronto; Stratford Boys' Band, Acton Boys' and Girls' Band, Chatham Kilie Band, Norwich Band, 121st Squadron Air Cadet Band, of Guelph; Lorne Scots Band, of Georgetown; Elmira Bugle Band, of Elmira; Dundas Junior Band, Squadron Air Cadet Band, of Toronto; Sea Cadet Band, of Weston; South Essex Associated Band, Mount Dennis Sea Cadet Band, St. Thomas Legion Band, Guelph Veterans' Trumpet Band, Brantford Boys' Band, Port St. Canadian Legion Band, of Toronto; Chatham Police Boys' Band, Weston Technical and Commercial School Band, of Toronto; Preston Scout Band, of Chatham; Air Cadet Band, of Waterloo, 22nd Reece Band, Windsor, Piano Accordion Band of Hamilton, St. Mary's Bugle Band, and the Waterloo Musical Society Band. This list of bands will also give a small idea of the magnitude of the festival and of the popularity of band music.

The parade was taking to the avenue as well as to the river. The uniformed bands moved from the smart navy and white of the Sea Cadets to the red tunics, navy trousers with a wide red stripe down the leg, and the white gloves of the 2nd Divisional Signals Trumpet Band of Toronto.

As band music, in turn, started across the parade grounds, it played a spiraling march and then retired to one side of the field amid the applause of the thousands of spectators.

Prof. C. P. Thiele, of Waterloo, spoke during the program. Prof. Thiele is director of the Waterloo Band, founder and honorary member of the Canadian Bandmasters' Association, member of the American Bandmasters' Association, and general manager of the Waterloo Music Company. He was also the general secretary of the festival.

After the grand march the Piano Accordion Band, of Hamilton, entertained with several selections.

Prof. Thiele presented Margaret Sinclair, of Detroit, with a gold medal for acquiring the most points for dancing the Highland Fling during the day. Miss Sinclair was the first American to receive this award.

Drills by the bugle bands were next featured. The bands illustrated unusual marching drills and formations.

Prof. Thiele presented E. L. Robinson with a cup for the band acquiring the most points during the day.

The Waterloo Band and the Chatham Kilie Band entertained the crowd with several selections.

John Conrad Sr. a promising young cornetist from Waterloo, played several solos.

One of the most beautiful solos of the evening was a marching drill by the St. Thomas band. A snail light was attached to the hat of each band member, making a mixture of red, white and blue lights. During the drills all of the park lights were turned out so the display could be clearly seen. The "floating" lights illustrated circles, stars, counter-marching, zig-zag marching and other novelties.

Louise May Smith, of New York City, one of the greatest lady pianists in the world, played her own arrangements of "Scottish Fantasy" and "Au Clair de Lune." Her rendition of "The Flight of the Bumblebee" illustrated her great skill as a pianist.

The bands participated in a final march within a circle of red roses.

The climax of the evening was a brilliant display of fireworks.

At 10:45 p.m. we left Waterloo and started on our long trip home. In the heart of each person that had attended the festival was a deep satisfaction, a great over-coming happiness and a slight reluctance because the great musical day had come to a close.

Eight year old Carol Ann Kennedy, of Amherstburg, won fourth place in her class in solo, with 58 points. Carol Ann has been in the band only three months.

Following are the results of the solos. A complete list is to be published later:

New "air" of Smartness

FOLKS EVERYWHERE are singing the praises of the smart new Oldsmobile. Style alone would make it the smart buy of the year! Long, flowing lines, tasteful trim, beautifully tailored interiors... all combine to give this car a smooth-as-a-melody, "new-as-tomorrow" look. And when you consider that the new Oldsmobile is the lowest-priced car to offer GM Hydra-Matic Drive*, the General Motors Drive—that makes Oldsmobile a smart choice automatically. For Hydra-Matic Drive* is the only fully proved, fully automatic drive. The only drive that shifts gears through four forward speeds without any effort whatsoever on your part. The only drive that eliminates the clutch pedal entirely! Just forget the clutch and gear... all you do is sit and steer. No wonder so many smart people say "It's SMART".

KEEP YOUR CAR "IN TUNE"

To you who are waiting for your new Oldsmobile—our thanks for your patience... our tribute to your wisdom. The demand for Oldsmobile with the new GM Hydra-Matic Drive* is so widespread that it still greatly exceeds the supply. Make sure your present car carries you conveniently and safely through the waiting period by having it serviced regularly by your Oldsmobile dealer.

SOAP TODAY

Isn't it a Fact?

It matters little what you want to buy these days... soap, a shirt, a new car... even electricity (which you don't have to line up for) continues to be scarce in Southern Ontario.

Have you tried to build a home lately?... tried to buy building materials of any kind. What a headache! How would you like to be shopping for what's needed for a new electric power plant? Unimaginable amounts of concrete, steel and other materials, as well as tremendous quantities of electrical equipment, would have to be sought out and purchased.

It takes several months now to get such equipment as transformers and costs are up by more than half. The bigger they are the harder they are to get.

What about the huge generating stations required to supply Ontario with an additional badly needed half-million horsepower? Well, they are being built. They were started years ago. But they cannot all be ready in 1947. Some won't be ready next year.

In the meantime, demand for electricity is growing faster than new power plants. Few people anywhere use as much electricity per person as in Ontario. Few have as much to use. Enjoy your low-cost electric power, but use it wisely. Your Hydro Commission is doing everything possible to increase the supply; but it will still be necessary to conserve electricity this fall and winter.

True Prevention.

Once upon a time the role of the physician was almost exclusively treatment. In modern days, while still engaged much of his time in healing, in tending the sick and curing man's mental practices preventive medicine whenever possible, in an attempt to forestall disease altogether.

Canada's health authorities invite a positive approach to the subject of health. They point out that medical science can do much, if given an opportunity to turn aside disease and to avert illness. It has highly developed means of diagnosis, immunization and preventive treatment at its command. But the doctor can keep people well only if consulted before sickness strikes.

No man can be provident of his time who is not prudent in the choice of his company—Jeremy Taylor.

Smoke Danger.

Pollution of the air by smoke and gases from coal in industrial and domestic use constitutes a definite health hazard. Canadian health authorities have evidence that differences in certain sickness rates between city and rural areas are attributable, in some degree, to the smoky atmosphere of the cities.

Cooperation of all Canadians is asked with civic and other authorities working to control this menace. It is suggested that those using fuels study modern techniques for minimizing smoke emission.

Looking for Trouble.

President Truman, in submitting to Congress his plan for a closer collaboration between the armed forces of the Western Hemisphere, is suggesting a plan that is more revolutionary in appearance than it is in practice. The major units in such a plan are undoubtedly Canada and the United States. There is nothing very revolutionary in this. During the war there was complete collaboration between the two countries, and the Canada-U.S. agreement of February last covered many of the suggestions outlined in the President's message to Congress.

Irreconcilable Jealousies of South and Central America.

The essential factor in this suggestion is the standardization of joint. To see in this any military threat is looking a long way for a plan that is more revolutionary in appearance than it is in practice. The major units in such a plan are undoubtedly Canada and the United States. There is nothing very revolutionary in this. During the war there was complete collaboration between the two countries, and the Canada-U.S. agreement of February last covered many of the suggestions outlined in the President's message to Congress.

AN IMPORTANT MESSAGE TO THE MOTORING PUBLIC

Re: 1947 Amendments to the Ontario Highway Traffic Act

Every motor vehicle owner and driver should become familiar with the new 1947 amendments to the Highway Traffic Act. The purpose of this legislation is to encourage safe driving and to assure the collection of damages awarded by our Courts for personal injuries suffered or property damaged.

On and After July 1st, 1947

On and after July 1st, 1947, your driver's license and all motor vehicle permits registered in your name will be suspended if, following an accident in which any person is injured or any property is damaged, you are convicted of:

- (a) Any violation of a provision of the Highway Traffic Act.
- or
- (b) If, upon conviction for a violation of the Act even though no accident occurred, the penalty imposed by the Magistrate includes suspension or revocation of your driver's license or motor vehicle permit.
- or
- (c) If you are convicted of a criminal offence involving the use of a motor vehicle.

After July 1st, 1947, your driver's license and all motor vehicle permits registered in your name will be suspended if you fail to satisfy a judgment secured against you for damages on account of injury to or death of any person or on account of damage to property. Such judgment must be satisfied at least up to the limits of \$5,000.00 for personal injuries to one person, \$10,000.00 for two or more persons and \$1,000.00 for property damage arising out of any one accident.

Application of Suspensions

Where a suspension is applied following the registration of a conviction, same will remain in effect until proof of financial responsibility is filed.

Where a suspension is applied for failure to satisfy a judgment, same will remain in effect until the judgment has been satisfied or arrangements made for its payment by instalments and proof of financial responsibility is also filed.

Proof of financial responsibility may be filed (a) in the form of an insurance policy certificate; (b) the bond of a guarantee company; (c) the depositing of money or securities to the value of \$11,000.00.

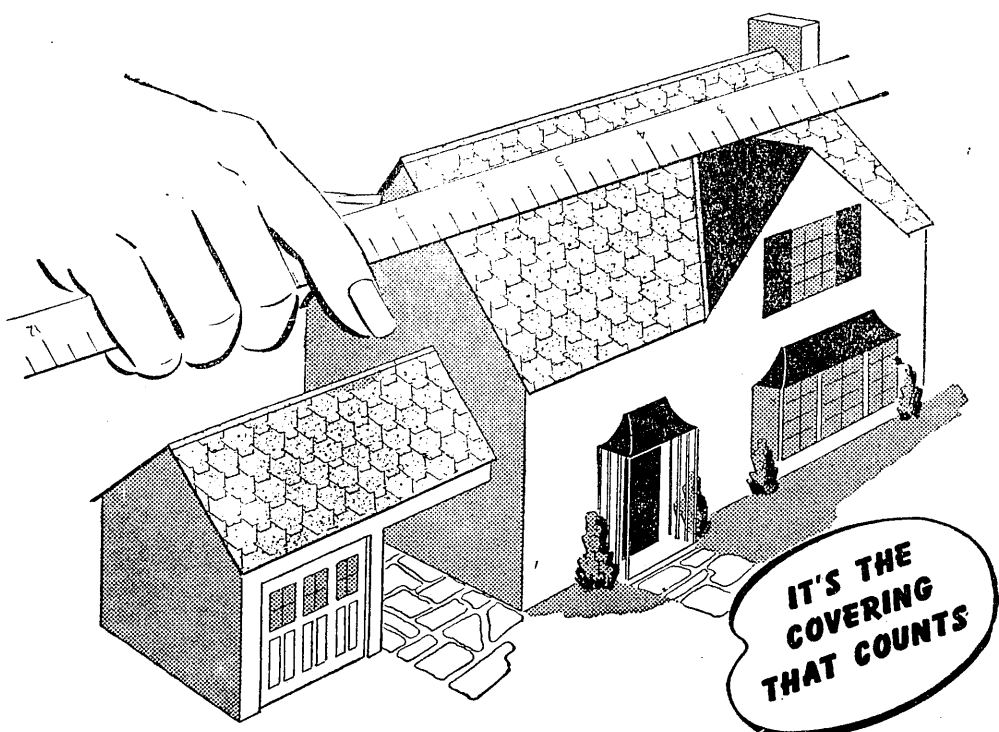

Application of Penalties

The penalties for a person operating a motor vehicle while his license is under suspension include a fine up to \$500.00 and imprisonment up to six months, also the impounding of the motor vehicle operated. The penalty for the operation of a motor vehicle, the permit for which is under suspension includes a fine up to \$500.00, imprisonment for six months and the forfeiture of the vehicle to the Crown.

Community Recreation.

Commending the leaders of civic affairs who participate actively in, and promote, community recreational activities, the Department of National Health and Welfare, Ottawa, points out that Canada counts on such persons of outstanding ability to lead the nation to a higher health standard. Value of programmes in which all will be participants, and not just spectators, is stressed in a health department bulletin.

Huggard-Sexton Nuptials.

A lovely June wedding took place at Holy Name Church, Essex, when Shirley Jean Huggard, second daughter of Mr. and Mrs. John Huggard, was united in marriage to Charles G. Sexton, older son of Mr. and Mrs. Charles Sexton Sr., of Maidstone, Ont. The bride was escorted by Rev. Fr. I. O'Neill officiated at the double-ring ceremony, and sang the nuptial hymn.

The altar was decorated with bouquets of orange blossoms, and baskets of pink and white peonies decorated the sanctuary. The first dance was marked with tulle and pink nosegays.

Miss Violet De Serrano was at the organ, and Mrs. C. Edmondson, of Gesto, sang "Ave Maria" at the offertory and "O Perfect Love" at the signing of the register.

The bride, given in marriage by her father, was attractive in her white gown of broadened organza, falling in a slight train. Her full-length veil of tulle edged in lace, was held in place with a coronet studded with seed pearls. She carried a white prayer book topped with an orchid and satin streamers tied with stephanotis. Her only ornament was a strand of pearls, a gift of the groom.

Her sister, Mrs. Richard Thornton Jr., was attired in seafoam green eyes, two lengths, and wore sweetheart shaped bonnet with long satin streamers, and carried a pale pink colonial bouquet of carnations.

Miss Barbara Huggard, as bride-maid, was in pale peach, styled identically, and carried deep pink colonial bouquet.

The groomsmen were Daniel Sexton, brother of the groom, and Norman Kane, of Detroit. The ushers were Russell Collins and Leo Langlois, of Windsor.

Mrs. Huggard wore for her daughter's wedding, white crepe with navy accessories, and a corsage of red roses.

Mrs. Sexton was attired in a dress of pale pink with green belt and black accessories, and her corsage was of tallman roses.

Mrs. John McCallan, of Windsor, grandmother of the bride, wore navy blue crepe with a hat of navy and white, and a corsage of pink roses.

Dinner for the immediate family was served at Sewell's, and in the evening a reception for 100 guests at the I.O.O.F. hall.

The happy young couple left on a honeymoon trip to Niagara Falls, the bride looking charming in a smart lime-green print dress with grey top, grey accessories and an orchid corsage. They will reside in Maidstone.

Essex County Junior Farmers.

The Essex County Junior Farmers' Association was well represented at the field day held in Ridgetown, on Thursday last, July 3rd. We are very proud of our young organization. Last year Essex County was represented by the Cotten Junior W. L. which, I believe, made 3 points. This year we had our own organization of Junior Farmers, and they lost the cup by only three points, to Kent County. Special praise is in store for the girls' work in the field day. Glenna Rogers won two firsts and one second prize; Evelyn Queen, a first and two seconds; and Yvonne Tully a first. Yvonne set a record in the high jump, increasing it from 4 ft. 4 in. to 4 ft. 4 1/2 in. Pat McCreery won a third prize in the running broad jump.

The boys, who turned out in all enthusiasm, scored 5 points for us.

Both the girls' and boys' ball teams suffered defeat, but it certainly didn't spoil the day, or the evening of dancing. Yes, we were proud of Essex County.

If you are connected with the farm and would like to belong to this organization of the future, come out to our next meeting, to be held at Emery's Park, on Saturday, July 19th, at 8:30 p.m., in the form of a weller roast. Join us, we need you.

Mrs. S. R. Johnston Laid to Rest.

Funeral services for the late Mrs. (Mrs.) Stanley R. Johnston, of Cotten, who died in Grace Hospital, Windsor, on Sunday, was largely attended on Tuesday. A service in the home was conducted by Rev. P. E. James, of Ruthven, and Rev. J. H. Whelan, of Essex, followed by a service in Cotten United Church, of which her husband is pastor, conducted by Rev. C. W. D. Cosens, of Toronto, who described life as an investment, said, "We have the choice of two types of investment, Christ or the world. Time, talent and personality rightly invested pay eternal dividends." In paying tribute to Mrs. Johnston, Mr. Cosens said "she possessed the qualities of Mary and Martha combined, in her love of music, her choice of recreational reading, and her unique ability as a hostess. Death is not the evening of life, but the morning."

Others assisting in the service included Rev. J. T. Flemming of Kingsville; Rev. J. N. Seeley, of Kintore; Rev. L. C. Harrison, of Lapan, and Rev. R. H. Parr, of Essex.

Fred McTavish, of Windsor, sang "No Night There," accompanied by Mrs. F. H. Gordy.

Six of the members of the Official Board of Cotten United Church, Clarence Pettapiece, Clarence Higgins, Robert Jones, James Hughson, Frank Congdon, and James Cowan acted as pallbearers, and burial was in the family plot in Cotten cemetery.

Deceased, whose maiden name was Ethel Becklake, was born in London, England, and came to Canada, as a World War I war bride, joining her husband in his first charge at Barris. Since Rev. and Mrs. Johnston have been stationed at Silham, Courtwright, Lapan and Cotten.

Until her recent illness, Mrs. Johnston was active in church work; for four years she was Presbyterial secretary of the Woman's Missionary Society; for several years a member of the choir of the Matinee Musicale of Windsor, and for seven years choir leader of Cotten United Church. She will be greatly missed throughout the country, where she had made a host of friends.

Surviving, besides her husband, Rev. Stanley R., are one son, Lawrence, of Essex, and one daughter, Mary (Mrs. Albert) Woodley, of Cotten, three brothers, Frank, of Vancouver; Thomas, of Pretoria, South Africa, and Willis, of England; also three sisters, Gertrude and Marion, of England, and Doris, of South Africa.

Barnett-McGorman Wedding.

A lovely wedding was solemnized at the home of Mr. and Mrs. Corwin McGorman, Harrow, when their elder daughter, Miss Dorothy Mae, became the bride of Ivan Edward Barnett, son of Mr. and Mrs. Edward Barnett, of Cotten, at a double-ring ceremony. The service was conducted by the Rev. J. A. Walker, under an arch of orange blossoms.

Given in marriage by her father, the bride wore the traditional white satin gown with a round neckline, a marquisette yoke, a fitted bodice, and a full skirt with a long train, styled with a deep pleat. Her full-length double illusion veil was held in place with a wreath of orange blossoms.

She carried a white satin bible topped with pink roses, from which fell satin streamers. Her only ornament was a double strand of pearls, the gift of the bridegroom.

Miss Donna McGorman, as her sister's bridesmaid, wore ice blue taffeta and marquisette, featuring a round neckline, a marquisette yoke, and a full skirt of nylon marquisette over tulle. Her headpiece of net was halowite, and she carried a nosegay of pink rosebuds and streamers.

Bruce Langlois was best man.

Before the ceremony Miss Inez Barnett, sister of the bridegroom, sang "I'll Walk Beside You," and "O Perfect Love." Mrs. Irwin Peterson, sister of the bridegroom, played the wedding music.

At the reception the bride's table was centred with a three-tiered wedding cake, imbedded in tulle, studded with pink rosebuds, and flanked by white tapers in silver candelabra.

Mrs. McGorman chose a gray crepe dress with black accessories and a corsage of red roses, while the bridegroom's mother wore aquamarine crepe, with black accessories, and red roses.

For travelling, the bride wore a blue gabardine suit with white and pink accessories, and a corsage of pink and white carnations. After a motor trip to Muskoka and Northern Ontario, Mr. and Mrs. Barnett will reside in Kingsville.

Prior to her marriage the bride was entertained at several showers, Mrs. Ray Farris and Mrs. Willard Wigle entertaining at the former's home, while Mrs. Melvin Fox and Miss Margaret Wright were co-hostesses at the home of the former's parents, when they entertained the Girls' Club. Mrs. Irwin Peterson and Miss Inez Barnett were co-hostesses at the home of Mrs. Edward Barnett.

Early Tomato Growers' Field Day.

You are cordially invited to attend the Early Tomato Growers' Field Day at the Dominion Experimental Station, Harrow, on Saturday afternoon, July 19th.

This field day has been arranged so that it will interfere as little as possible with your work.

Programme, 2 p.m.: Short addresses on subjects of particular interest in early tomatoes and early melons, by members of the Station staff; an inspection of the plot work will follow. Among the experiments of interest are:

1. Twelve fertilizer side dressing treatments of the Bounty tomato.

2. A large early tomato variety test.

3. A Bounty strain test.

4. Vermatization — a pre-seeding cold treatment of tomato seed.

5. A large melon variety test.

6. A rotation including tomatoes, potatoes and melons.

7. Other early vegetables.

8. Tomato and melon breeding programmes.

There are many items of interest to early vegetable growers, and you are urged to accompany with your neighbours to attend this Field Day and inspect the experimental work on progress. Please extend this invitation to your friends.

The Fringes of Liberty Are Its Essence.

By Joseph Lister Rutledge.

Continuance of liberty depends on how well and how constantly we defend its fringes. It is too easy to let real issues become obscured by incidental facts and facts arguments.

Many people think to accuse on party to an argument of self-interest is to destroy the argument in toto. Yet few reforms have ever been demanded or secured by wholly disinterested men. The Canadian Association of Broadcasters in protesting the arbitrary powers enjoyed by the Canadian Broadcasting Commission over all radio activities in Canada and asking that an independent governing organization be created are undoubtedly considering their own interests. But they are also presenting the issue of the freedom of the air, that is only another facet of freedom of speech and of assembly and of the press.

There is also the assumption that, because the independent radio interests are arguing against the wide authorities vested in the public system, they are thereby challenging the integrity of the government. Likely nothing was further from the thought of the petitioners. They and everyone must recognize that no liberty is secure that is solely in the hands of one group of people. No one group can combine the duties of legislator, judge and policeman without the possibility that our liberties will suffer thereby. The absolute control exercised by the C.B.C. over the independent stations is a threat to liberty.

The association is not promising any change in operations other than that both C.B.C. and independent stations should both be placed under some independent licensing and regulating body. The issue is freedom, and it is so stated in the brief.

"Whatever appears to be freedom of speech over the radio does not take place as an exercise of free speech on the radio but it is merely in each case, permitted by the government as an individual item of grace. Such instances may constitute some governmentally-permitted freedom of speech on the radio. It most certainly is not the exercise of the right of speech."

Liberty is indeed a right. When it is only conceded, it is already lost.

Smoke Nuisance.

Industrial Health authorities of the Department of National Health and Welfare, Ottawa, have issued a health notice as well as a report on factory smoke. For a number of years, they have been recommending the use of fuel-burning equipment in factories, and a fuel-burning unit in a factory is a health hazard. The report states that a fuel-burning unit in a factory is a health hazard. The report states that a fuel-burning unit in a factory is a health hazard.

Flies and Disease.

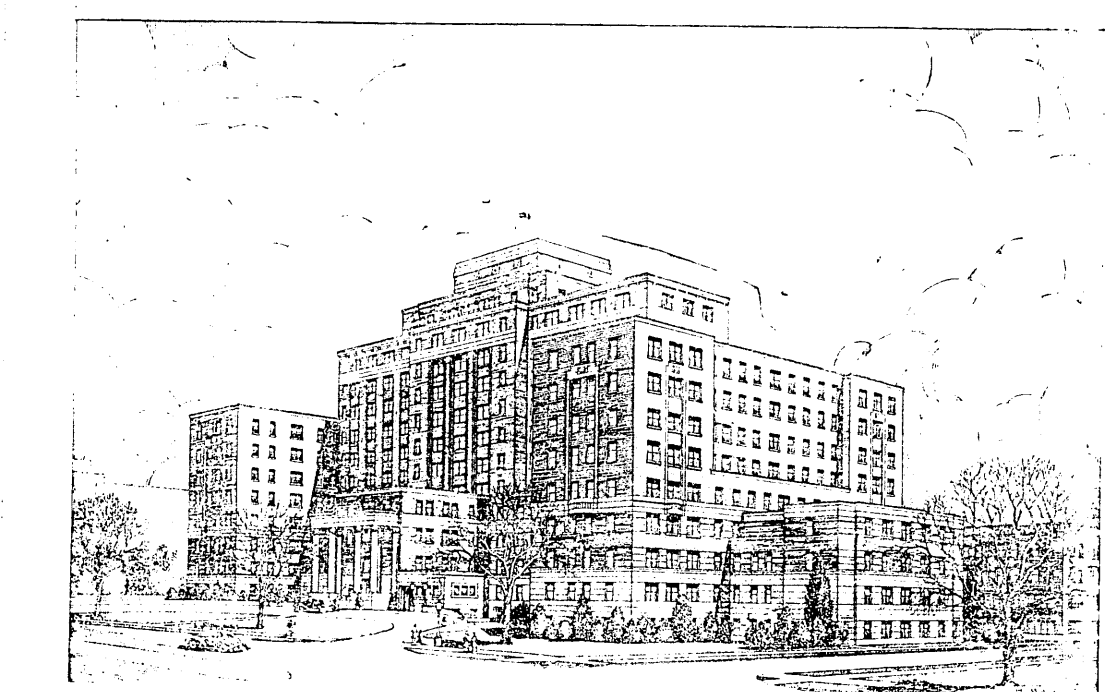

Probably the most dangerous insect in the world is the house fly. It is the most common and most annoying of all insects. It is the most common and most annoying of all insects. It is the most common and most annoying of all insects.

LE AN A-B-C DRIVER—Always Be Careful

Plans for a new 515-bed Hospital for Sick Children in Toronto were announced this week by the Board of Trustees. The new structure will be erected between Gerrard and Elm streets, with a main frontage on University Avenue. The volume of the building will be 5,000,000 cubic feet and will be constructed of concrete and steel with exterior walls faced with brick and stone trimming. The building will contain 11 floors and is expected to be opened in 1949. The hospital will serve all parts of Ontario. Funds for the building were collected during a province-wide appeal two years ago.

Death to Insects in Home by DDT.

The remarkable poisoning effects of DDT make it possible to deal much more effectively with infestations of insects and pests of importance to public health and hygiene than in the past. This is especially true in the case of those all too prevalent species, the house fly and the bed bug, writes C. R. Twinn, Division of Entomology, Dominion Department of Agriculture, in an article in Scientific Agriculture on "The Newer Insecticides, Repellents, and Rodenticides of Value in the Field of Public Health."

The simple but thorough application of DDT in spray or dust form to places where the bed bug hides, or where the house fly breeds, and the use of insecticide, eliminates the pest and prevents reinfestation for many months, and does away with the necessity of expensive, inconvenient, dangerous and only temporarily effective fumigation.

Chloroform is another pest that can be completely eradicated from a building by the efficient use of DDT. Parasitoids containing both DDT and pyrethrum are particularly effective for this purpose. Mosquitoes are even more susceptible to DDT than house flies, and many deposits of the chemical set on their surfaces by touching them with their feet. Mosquitoes may be eradicated by spraying the walls of a room with DDT. A fine spray of DDT will also kill the larvae of mosquitoes. Flies and flies are readily destroyed by DDT.

Green Pastures Acclaimed by Poultrymen.

With the growth of the poultry industry from the small farm flock to the large commercial plants, specialized products are recognizing the importance of pastures as a supplement in the feeding program.

Although chickens are not usually regarded as grazing animals, they consume large quantities of herbage if given the opportunity. Green feed provides an ample supply of growth-producing vitamins not found in ground cereal grains and serves as an excellent source of protein and minerals. From the standpoint of economy, pasturing young chickens during the summer has proven the cheapest method of developing top grade egg producers.

Poultrymen also have discovered that a vigorous pasture plan will help control chicken diseases. The fact that soil will carry germs from diseased fowl for long periods has caused many to rotate annual pasture. When permanent pasturage is used the chickens should be moved periodically from one part of the field to another to give nature a chance to decontaminate the infected areas.

Poultry pastures may be divided into two general types: yearly and permanent. The first usually consists of cereal grains such as wheat. The latter are of a grass-clover mixture. Ladino clover is one of the most promising legumes for this purpose.

In both cases the use of fertilizer is suggested for growing high quality pasture. In all parts of Canada except the Maritimes a 2-16-6 mixture was found highly effective. For the East Coast provinces a 3-15-5 is recommended. Applications up to 500 pounds per acre have given excellent results.

To worry about tomorrow is to fail of devotion to the tasks of today, and so to spoil both days.

Look upon each day as the whole of life, not merely a section; and enjoy and improve the present without wishing through haste to rush on to another.—Ruskin.

New Movement Inaugurated For Farm Labour Camps.

The first Farm Labour Co-operative in the Province of Ontario was organized recently in the village of Clarkson, just west of Toronto, and has received its charter. This marks the beginning of a new movement in connection with the farm labour camps in providing help for fruit and vegetable growers during the war years, and since the end of the war, and it is expected that some fifteen more of this type of co-operative organizations will be chartered this season.

During the war years and up to 1946, the Dominion and Provincial governments carried the entire cost of constructing and operating farm labour camps, under the jurisdiction of the Ontario Farm Service Board.

As a step to bringing this work back to a peace-time basis, a new arrangement has been made this year, and this has brought about the necessity of forming these co-operatives to hold and operate the farm service camps. Under the new agreement, the Dominion and Provincial Governments will contribute one-third of the cost of all construction of new farm service camps, with the co-operative of growers contributing one-third. Where there are camps already in existence, a plan has been worked out for the growers to make payment of a nominal sum for taking over the property. Co-operatives are being organized to take over and hold the properties and operate the camps. Under the agreement, the government equity in the camps is held for three years, at the end of which time the property will belong entirely to the co-operative.

These camps will remain under the supervision of the Ontario Farm Service Board, which will also recruit the workers for them, largely from the ranks of high school students. The Ontario Farm Service Board will be responsible for providing a camp mother and labour secretary, but the other staff expenses and operating costs will be paid by the co-operative, which will collect the board money from the workers in the camps, in order to meet these expenses.

The significance of this new movement is that, whereas, in the past, the governments have taken the entire responsibility for the Farm Service Camps, now the growers are taking over that responsibility. This shows that the growers have found the help of high school students and other volunteer workers so valuable in the last few years that they feel it is worth the investment necessary to keep the camps in operation.

What is meant by redefining time? It is to fill the hours full of the right sort of thought, feeling, action, as they pass.—Clarke.

Some Useful Hints for Sheep Shearing.

With the wool harvest at hand a few hints on how to remove the clip may be helpful:

Some sheep raisers are inclined to view the wool returns from the flock as of little consequence and hardly worth its removal from the sheep. Canada consumed in 1946 approximately 50 million pounds of grease fleece wool, worth about \$23 million dollars. Canada's annual production of grease and pulled wools approximates 18 million pounds, leaving 72 million pounds to be imported from other sheep growing countries of the world. Canada has a market at a world value for the wool of 12,857,142 sheep or practically four times its present sheep population.

As a means of increasing yield or profit from the flock great care should be shown in the removal of the wool clip. In shearing sheep the following points should be observed: Provide an extremely clean place in which to shear. Shear only when wool is dry; never when damp or wet. Keep the holding pen for the sheep clean and free of droppings which may discolour the wool. Be gentle in handling the sheep. Set the sheep on its rump. Begin shearing on brisket, then belly, crutch, right rear leg, left rear leg and over left side of rump. Forehead next, then brisket to jaw, and over back of head. Now clean the left front leg, then lowering the sheep on its back begin at rear left flank and shear to front left flank or lengthwise of the body, carry on this stroke until just over centre of the back. Raise the sheep and finish right side by shearing from the spine to front of neck following down over the right front leg then to belly, rear right leg and finish at the rump. The technique is simple and may be done with comfort to both shearer and sheep. Try and avoid second cuts. Make a smooth job; it adds value to the clip.

Cover Burns.

First-aid treatment of burns consists in covering the affected area and keeping it covered until competent medical attention is obtained. Burns are sterile when sustained, but they may become infected by careless handling immediately afterwards.

National Health authorities advise that do not attempt to alleviate pain by applying an ointment. Only sterilized dressings, such as a doctor will apply, should be used, and first-aiders are urged not to remove clothing or expose the burned surface meanwhile.

Skin Care.

Declaring the improper use of industrial solvents, such as gasoline, turpentine and other substances, one of the most frequent causes of occupational skin diseases, industrial health authorities of the Department of National Health and Welfare warn workers against such solvents, and declare that hot water and a mild soap are the best and safest cleansers.

Sales Tax Must Be Abolished.

Taxes may be levied so as to encourage industry, increase production and lower the cost of living.

All taxes on production do the opposite. They increase the cost of living, lower the demand for the things produced and create unemployment. If the possession of land was taxed and not the use it was put to, no one would keep land idle and there would be no slums.

But the majority of taxes have the contrary effect. They penalize industry, increase the cost of making and exchanging things and the multiplicity of such taxes can destroy civilization.

The worst of all possible taxes is the sales tax, for it is a penalty on exchange, the very basis of our civilization. It is a fine on what is a moral duty, the duty of helping one another by exchanging services and goods. Wherever this tax has been applied, it has resulted in inflation, bad times, and unemployment, increasing poverty, crime and disease.

In the middle ages Spain levied a sales tax. Then she was the most important trader in the world. Her ships were in every port and she was a great naval power. Her noble land lords brought the sales tax into force in order to escape the feudal responsibility of supporting the church, the state and the poor, which was the feudal system. Inside of 50 years she lost her trade and sank to the level of a fifth rate power. The nobles came to poverty and the saying "as poor as a Spanish Grandee" became a proverb.

The Sales Tax increases the cost to the consumer when it is levied on the last purchaser, but when it is levied on a product used in the making or exchanging of anything it is pyramided. In some cases for every dollar the Government gets the consumer may pay two, three or even five dollars.

The two great railway systems are demanding an increase of 30% in freight rates, an increase which is granted, will, of necessity, raise prices and invite similar demands by every group of workers and producers in Canada.

If instead, the Sales Tax is repealed, it will lower prices, increase buying power, and the volume of goods produced, sold and transported, reduce cost while increasing the volume of railway business. It will give a greater boost to Canadian industry than the same amount offered in bonuses.

The cost of the "Sales Tax" to the Government is not limited to the actual expense of the "Sales Tax" department. It seriously reduces the profits from all business so that the Government's returns from the income tax and the excess profits tax in many cases is nil and the total is much reduced. Notwithstanding all the efforts to simplify the collection of the sales tax and avoid duplication, it does pyramid. Advertising is an essential part of the cost of goods sold and the sales tax on advertising adds to the cost of delivering goods to the consumer just as surely as does the sales tax on the finished product. The sales tax on things in common use reduces the purchasing power of the dollar and results inevitably in demands for higher wages.

It is obvious that the immediate repeal of the sales tax will so reduce railway costs and increase freight volume as to make increased freight rates less necessary. It will reduce the cost of living and increase the demand for labor. The loss from strikes will be greatly reduced and other revenues of the government will so increase as to more than offset the loss of the sales tax.

The sales tax is an attack on civilization at its source. The larger the revenue the government gets from it, the worse is its effect on general business and on all other sources of revenue of the government.

The sales tax is immoral. It is a straight violation of the laws of God. It is robbery by force and gives no just equivalent. It is a violation of the command "Love your neighbour" and "As you would that men should do to you do even so unto them."

Rye in Rotation.

Fall rye is a valuable crop to precede flue-cured tobacco in the rotation, particularly where the mature rye straw is disked into the soil. According to the experiments carried out at the Dominion Experimental Station at Delhi, Ont., fall wheat is similar to fall rye in some respects but it has not proved so effective in the flue-cured tobacco rotation.

Arriving in Style

On a tour of the bright lights or a trip to the backwoods, Monarch 8 is always in style, always well behaved. This comfortable, roomy automobile has been winning friends ever since the first Monarch 8 was introduced last year.

The 1947 Monarch (Town Sedan illustrated) offers you a remarkably quiet, restful ride—with road noises hushed by rubber insulation at more than 200 points. It has an easy, mile-consuming pace that makes the holiday seem longer, the trip shorter.

Monarch 8 is a standout in the medium-priced field. Among its extra-value features you'll list the spirited performance of its V-type power plant; its superb riding qualities; the two-tone luxury of its spacious interior.

He's having trouble meeting the demand, but your Ford and Monarch dealer will be glad to give you detailed information on this handsome 1947 Monarch 8.

Institute Ode

A goodly thing it is to meet,
In friendship's circle bright,
Where nothing stains the pleasure sweet
Nor dims the radiant light.
No quondam words our lips shall pass
Nor only sour the mind,
But each shall seek the common good
The good of all mankind.

ette family, in the loss of their father,
Mr. and Mrs. Gerald Casey, Mr. and
Mrs. Leo Ziske and Mr. and Mrs. Am-
brose Smith and Connie, of Detroit,
spent the long week-end with John
McAuliffe.

John E. Sexton's condition shows a
slight improvement. He is under the
care of three special nurses in Hotel
Dieu, Windsor.

Bill Gould spent his week's vaca-
tion at Grand Bend, Ont.

Mr. and Mrs. Mike John motored to
Grand Bend on Saturday and spent
the week-end with their son Michael.
Raymond Kosikowsky is at Camp
Ipewash with the Vocational Cadets.
Michael Collins spent his vacation at
the Pat Donovan Cottage, on Lake
St. Clair.

Mrs. John Chittle entertained de-
lightfully on Sunday, at her home, at
a miscellaneous shower, in honour of
her niece, Miss Patricia Hayes, whose
wedding will take place Saturday
morning, at St. Mary's Church.

Lawn Bowling Results.

—In the lawn bowling league games
on Tuesday evening, Rev. J. H. Wheel-
and and Don Stewart were winners
with 2 wins and a plus of 20, a total
score of 31 points; second, A. G. Cas-
cadden and Garnet Queen, with 2
wins, a plus of 17, and a total score of
29 points. Every man was present,
30 men in all, bowling all evening. An
interested crowd was on hand to
watch the games, and interest is really
being shown at the greens.

—Donna Mae and Doreen McLenon,
daughters of Mr. and Mrs. Herbert
McLenon, received word they had each
passed Grade 1 piano, with honours,
from the Toronto Conservatory of Mu-
sic. They are the pupils of Miss E.
Allison.

Working to Relieve Rural
Housing Problem.

Subsequent to the decision of the
governments of the three Prairie
Provinces and the Central Mortgage
and Housing Corporation a Crown
Company, to organize and finance
jointly a program of research into rural
housing problems, each government
appointed three representatives to a
co-ordinating committee. Represent-
atives of the Dominion Department of
Agriculture and Central Mortgage and
Housing Corporation were also ap-
pointed. At the initial meeting of
the committee at Saskatoon, in May,
it was unanimously agreed that the
committee be called the Prairie Rural
Housing Committee.

It is not the intention of the Prairie
Rural Housing Committee to duplicate
work planned by the National Re-
search Council, but to concentrate in
the main on problems which are dis-
tinctly rural in character. As to the
type of research projects to be under-
taken, the committee adopted the fol-
lowing list of subjects as a basis for
discussion: (1) Farm House Plans;
(2) remodelling; (3) community cen-
tres; (4) improved Water Systems;
(5) Insulation; (6) Electrification;
(7) Sewage Disposal, Septic Tanks;
(8) Fire Protection.

The committee recommended that a
research project into the planning and
design of farm homes be undertaken
at the University of Manitoba. That
at the earliest possible date at least
one or ten farm house plans be pre-
pared and submitted to the Commit-
tee for consideration and approval and
that this project be under the direc-
tion of Prof. J. A. Russell, who will
prepare estimates. Also, on a proposal
that two or preferably three houses
should be constructed on or near the
campus of the University of Saskatch-
ewan, the committee agreed in prin-
ciple that model houses be built, but
that certain research into planning
material and equipment be undertaken
before building any model homes.

The committee also recommended that
studies be undertaken leading to the
early publication of two bulletins,
one on comparative costs of wall con-
struction, the other on selection of
wall materials, insulation, vapour bar-
riers and research thereon. Another
recommendation was that immediate
studies be undertaken into develop-
ing improved methods of installing
running water and sewage disposals
for farm homes.

The planning of farm kitchens as a
part of the research into Farm House
Plans (Project No. 1) was agreed upon.

A bulletin on heating for the farm
house is to be prepared investigation
into problems related to electric light-
ing and appliances, will be made, and
a project to design plans for Commu-
nity centres is to be undertaken at
the University of Manitoba, under Prof.
J. A. Russell.

The representative of the Dominion
Department of Agriculture on the
Prairie Rural Housing Committee is
L. B. Thomson, Superintendent, Domi-
nion Experimental Station, Swift
Current, Sask.

IN MEMORIAM

In loving memory of Millie, dear
wife of Abe Wright, who passed away
two years ago, July 7th, 1945.

Two years have passed and gone,
Since one we loved so well
Was taken from our home on earth.
With Jesus Christ to dwell.
The flowers we place upon her grave
May wither and decay,
But the love for her who sleeps be-
neath,
Shall never fade away.

—Ever remembered by her loving
husband and family.

**Planted Beet Acreage in Can-
Ada 65,700.**

Canadian sugar beet acreage planted
this year is only 70 per cent of that
recommended by the Federal Govern-
ment, a check of Canada's processors
has revealed.
Reports issued today show that with
planting operations almost completed,
the Dominion's acreage stands at 65,
700 as compared with the government's
95,000-acre goal.
Thirty thousand acres have been
seeded in Alberta, 13,200 in Manitoba,
and 2,500 in Quebec. Planting opera-
tions have been completed everywhere
except in Southwestern Ontario where
floods and heavy rains delayed seeding
for over six weeks. Ontario's planted
acreage may reach 20,000 but due to
weather conditions stands are reported to
be spotty, and the final acreage un-
der crop will show considerable shrink-
age from the planted figures.
Thinning is well under way in On-
tario and mechanical cross blocking is
being carried out successfully.

Stop, Look and Listen.

Warnings about the scarcity of fuel
oil by Hon. C. D. Howe, Minister of
Reconstruction, and by the heads of
large oil refining companies have made
the householder who is thinking of
putting in an oil burner, stop, look and
listen. Rapidly rising prices for oil
have made him stop again and wonder
whether it would be wise to switch
from the old reliable coal, which is
now again in good supply and of much
better quality than in the hectic years
of war. The price of furnace oil in
the Toronto area, for example, has
gone up since the end of last year
from 10½ cents to 11½ cents a gal-
lon, and if rumours in oil circles are
correct, autumn will see a further in-
crease of as much or more. Similar
or greater increases have taken place
elsewhere in Canada. In the Middle
Western States, from where a lot of
our oil comes, many dealers are un-
able to fill all orders on hand.

With this sudden scarcity of oil and
this rapid price rise? The answers
are: a big demand — far bigger than
the oil industry ever anticipated —
and a supply situation in which new
wells are failing to more than keep
up with declining old wells. Then,
too, there are shortages of tank ships,
tank cars, casing and piping, as well
as of iron and steel for refining and
storage facilities. Prices of all these,
where supplies are available, have
been soaring.

In this situation Canada finds herself
not very happily placed, for we de-
pend almost entirely on foreign coun-
tries for our oil supply. About 90 per
cent of our crude oil requirements have
to be imported, mainly from the United
States. Our best oil field, Turner
Valley, now petering out, does not even
supply the needs of the prairies. Up
until recent years, nearly all our crude
oil came from the United States, and
still does, though we now get some
from South America. Four increases
in the price of crude since early last
year totalling 70 cents a barrel have
brought the price of that commodity
to the highest levels since 1920.

At the recent annual meeting of
Standard Oil Co. (Indiana) the chair-
man of its board, Dr. Robert E. Wil-
son, told shareholders that the cost
of wildcat wells per barrel of oil dis-
covered has increased seven fold over
10 years ago and it is necessary to
spend three times as much now to
build a refinery measuring up to the
times. Service station costs had gone
up about three times. The oil in-
dustry, he stated, needed to spend
about three billion dollars a year for
years ahead just to keep up with de-
mand.

It is such facts as these that explain
why furnace fuel oil prices are rising
and likely to go still higher. Some oil
authorities expect it will take from two
to three years for the industry to catch
up with fuel oil requirements, even at
the higher prices in prospect. So the
Canadian householder's best bet ap-
pears to be to put the old furnace, and
chimney flues in good working order
and stick with his existing heating
equipment. If he wants so-called auto-
matic heat he might well consider put-
ting in automatic temperature con-
trols or installing an automatic stock-
er. Such equipment has been greatly
improved in recent years and its use
materially cuts down the work of
keeping warm in our bracing winter
climate.

Play at All Ages.

When a person gets over the "play
habit," he or she has started to grow
old. This is the subject of a pro-
gram from Ottawa, by the De-
partment of National Health and Wel-
fare, urging some form of recreation
at all ages. "We never grow old to
play, but we start to grow old when
we give up playing," says a health
authority. The department urges
people of all ages to get out of doors
whenever possible, to enjoy benefits
of Canada's climate, in order to build
up reserve strength for the late years
of life.

**Pamphlet Tells How Farmers
Can Use DDT.**

As a result of exacting tests in the
past few years by agricultural sci-
entists they have found that DDT can
be used effectively in the control of a
wide range of agricultural insect
pests. Recommendations for the use
of DDT against these pests are given
in a pamphlet written by W. A. Ross,
Division of Entomology, Science Ser-
vice, Dominion Department of Agri-
culture.

The new insecticide in spray form
is effective against leaf-hoppers, flea
beetles, Colorado beetles and to some
extent against aphids. DDT in dusts
or sprays can be used with good effect
against the various cabbage worms on
early sweet corn for controlling the
European corn borer. It must not,
however, be used on cucumbers or
squash, because it may injure the
plant, and some varieties of tomatoes
may be injured by DDT.

For some of the most injurious
fruit insects, such as grape leaf-hop-
per, the rose chafer on grapes, the
codling moth, pear thrips and the po-
tato leafhopper on apple nursery
stock, there are specific recommenda-
tions on how to use DDT in dry or
liquid sprays.

Several insect pests that attack
ornamental shrubs and shade trees
can be controlled with DDT, so too,
can several greenhouse insects.

The bulletin gives the formulations
for the use of DDT in the form of
either sprays or dusts. It is available
by writing to the Dominion Depart-
ment of Agriculture.

**Home Garden Seeds Should
be Treated.**

Home gardeners will find they will
get a better stand of plants from the
vegetables and flower seeds they sow
by dusting the seeds with one of sev-
eral prepared chemical compounds for
the purpose, which can be bought at
any seed store, says W. H. Wright,
Chief Seed Analyst, Plant Production
Service, Dominion Department of
Agriculture. Such dusting helps to
prevent attacks of fungi or moulds
that cause seeds to rot or young seed-
lings to die before they come up. Small
packets of seeds can be easily treated
by opening the corner of the packet
then adding as much of the chemical
dust as can be held on the point of
a penknife. Close the packet and
shake well. Care should be taken not
to inhale any of the dust and to wash
the hands with soap and water after
handling the dust.

To treat larger quantities of seeds
a glass jar or other airtight container
should be used. Put enough seeds
in the jar to about half fill it. Then
add the required amount of dust,
close the container tightly shake and
turn for about two minutes. Screen
or sift off the extra dust and the seeds
are ready to plant.

Chemical dusts for treating seeds
are sold under such trade names as
Agosan, Semesan, Spregon, and Cup-
rocid. The last should not be used
to treat seeds of such crops as cabbage
and broccoli or on lima beans. What-
ever dusting compounds are used the
instructions on the container should
be strictly followed.

Effective Spray.

Ordinary tractor distillate has been
found to be the cheapest and an effec-
tive spray material for the control of
weeds in carrots in experiments car-
ried out by the Dominion Experi-
mental Station, Morden, Man.

Whose Will is Free?

The confusion and discord which
arises from the belief that man has
a mind and will of his own and is free
to know and do both good and evil
should warn those who accept it that
there is something amiss with their
belief. It needs but the scantest ac-
quaintance with the life and teaching
of Christ Jesus to see that he thought
very differently.

He taught His disciples to pray (Mat-
thew 6:10) "Thy will be done in earth
as it is in heaven," and his own pray-
er in Gethsemane was (Luke 22:42):
"Father, if thou be willing, remove
this cup from me; nevertheless not
my will, but thine, be done." Obvi-
ously he regarded the will of God as
the only will there is, and he proved
that in obedience to the will of God
is the only true freedom. He rebuked
self-optimism, so-called free will in
no uncertain language when he said
(John 8:44), "Ye are of your father
the devil, and the lusts of your father
ye will do."

Mary Baker Eddy, the Discoverer
and Founder of Christian Science,
writes in "Science and Health with
Key to the Scriptures" (p. 597): "Will,
as a quality of so-called mortal mind,
is a wrongdoer, hence it should not be
confounded with the term as applied
to Mind or to one of God's qualities."

As we forsake the false claim to a
mortal mind and a personal will and
find the divine Mind to be the only
Mind, we gain a freedom of thought
and action undreamed of when in bond-
age to the doctrine of minds many as
the basis of existence. Reflecting God,
man's individuality is already intact
and impregnable. Herein we find our
true identity as sons and daughters of
God, knowing no will but His and de-
siring to know no other. The mortal,
human will, claiming the prerogative
to choose between good and evil, is
seen as a baseless illusion, a counter-
feit, a lie; for to believe that man
has a mind or will apart from God,
contradicts the spiritual fact of God's
allness, and is contrary to Bible teach-
ing.—Christian Science Monitor.

**Now Easy to Freeze Foodstuffs
in Home.**

Freezing farm products in the home
is now being done by many Canadian
householders. Ease of processing, im-
proved quality and food value are the
chief advantages, says W. R. Phillips,
Division of Horticulture, Central Ex-
perimental Farm, Ottawa, Ont.

The first requirement for household
freezing is a freezing compartment of
adequate size and freezing capacity.
The Division of Horticulture, Central
Experimental Farm, Ottawa, has pre-
pared a pamphlet on the subject, en-
titled "Household Freezer and Stor-
age," which describes the method of
construction and operation of two
types of units. One is a combination
freezer, bulk storage and household
storage unit. The other is merely a
combination freezer and household re-
frigerator. Both types have been in
operation under close observation for
several years, and have proven satis-
factory. This pamphlet will be sent
to anyone by writing to Dominion De-
partment of Agriculture, Ottawa.

As well as having a satisfactory
freezing unit, care should be taken
to prepare the food properly before
freezing. Freshness of product is the
main underlying principle.

Leaving fruits or vegetables in a
warm place after harvest will result
in loss of flavour and deterioration.

It is very important to prepare and
place the products in the freezer as
quickly as possible.

Vegetables and fruits have to be
blanched. This is done by exposing
the material to boiling temperatures
for a short interval. The purpose is
to arrest chemical processes that cause
objectionable flavours or discoloration
while in the freezer. After blanching
cooling is done by immersing in cold
water.

Whether blanched or not the prod-
ucts for freezing should be placed in
suitable packages. Ease of processing,
moisture-proofness, and convenience
of filling and storage are the main con-
siderations in selecting a package.

The packaged material should be
frozen solid within fourteen hours.
This can be done if the packages are
small (pint size) and are well spaced
in a freezer operating at 0°F. It is
important, too, that the freezer oper-
ate close to this temperature through-
out the storage period.

If these and some other simple in-
structions given in detail are followed,
high quality frozen fruits and vegeta-
bles can be enjoyed by anyone who
can procure the equipment.

Music resembles poetry; in each

**"Now Watch Me
Win That Ribbon!"**

SANDY SIMPSON has been patiently
improving his dairy herd. He saw his
chance to buy a pure bred bull — and
the manager of his bank lent him the
ready cash to close the deal. Now he's
expecting great things of his new calf;
already he sees her winning her class at
next year's Fall Fair. A few more like
her and he can also see his milk pro-
duction rising — as well as a nice extra
income from selling his surplus stock to
neighbouring farmers.

Large Number Attend Tea.

(Crowded out last issue)

More than 100 women, from 14 churches, attended the annual June Tea held on Wednesday evening of last week, in Cottam United Church.

When Mrs. David Cavers, of Woodlee, guest speaker, chose as her subject, "Life on the Prairies," and gave a graphic description of the life of a minister's wife in the rural West.

Olinda Universalist Church contributed musical trios; duets were sung by Mrs. Roy Allen and Mrs. Thomas Queen of Kingsville with Mrs. George Dawson as accompanist, and vocal solos by Mrs. Albert Elford of Elford.

The school room was attractively decorated with peonies and delphinium. Mrs. Almeron Clark and Mrs. Ernest Clark poured tea while Mrs. D. R. Jones president of Cottam Women's Missionary Society under whose auspices the tea was held was mistress of ceremonies.

Guests were present from Brooklin Baptist, Woodlee Albans, Olinda, North Ridge, Kingsville, Salem, Ruscomb, Ruthven, Elford and Essex United Churches; Olinda Universalist, New Canaan Baptist and Trinity Anglican Churches.

Rotary Hears Safety Rules.

John R. Wiley, Windsor, who has shown great interest in safety in industry, was guest speaker at Cottam Rotary Club, at its regular meeting Friday night. "Accident Prevention in Industry," was the subject of his address.

Emphasizing the tremendous accident toll on streets and highways he said: "Accidents do not happen—the causes must be removed."

The second speaker, Albert H. Watson, also of Windsor, was critical of the carelessness of the average individual in reading warning signs.

"We are losing our standard of values," he said. "Most important in the factory is the man. Take care of the man and he will take care of the machine."

The speakers were introduced by Cpt. Bob Clark, of the Provincial Police, Chatham. He also gave an interpretation of the recent changes in the Highway Traffic Act.

"A school for drivers in each county," he said, "would greatly lessen the number of traffic accidents."

Constable Harold Yule, of Essex, also added to the discussion.

Moving pictures were shown, indicating how traffic accidents may be prevented.

Control of Bacterial Ring Rot.

So as to assist further in the control of bacterial ring rot, and to protect certified seed potatoes from this disease, action to the respective growers is being taken through an amendment to the regulations to require the disinfection of "cotton" or community planters and diggers, the Plant Protection Division, Dominion Department of Agriculture has announced.

In some areas "cotton" or community machines are used for planting and harvesting certified seed potato crops. These machines are also used in the production of table potatoes on other farms, and may readily transfer bacterial ring rot to crops being inspected for seed use. Frequently this infection is not visible the year it takes place.

There is no tolerance whatever for ring rot in certified seed potatoes. If one plant in a field or one tuber in a crop is found infected the entire crop is rejected. The regulations provide that if ring rot is found in one seed crop all other crops planted or harvested with the same machinery shall also be rejected unless the Inspector of the Plant Protection Division is convinced that all precautions have been taken to avoid contamination between crops. Under the circumstances it is the duty and responsibility of every seed grower who uses machinery other than his own to assure himself that such machinery has been thoroughly disinfected before being used on his farm. Furthermore as a precautionary measure, all seed growers in any areas where this disease occurs should thoroughly disinfect their own machines before using them, at least once a year.

The recommended method for disinfecting machinery is as follows: Spray with one pint of formalin in 30 gallons of water.

Change and Rest.

For that tired feeling, a change is recommended by the Department of National Health and Welfare, Ottawa. Declaring that "many tired people need a change as much as a rest," the department states, "With food and fresh air to rebuild the body, and fresh interests and a sense of leisure to relax the mind, fatigue will vanish rapidly. And a walk in the open air helps, too."

Time Yet to Plant Some Vegetables.

The average gardener may be under the impression that when the summer is half gone there is no use in planting more vegetables. He may be looking forward to the crop of later maturing vegetables such as tomatoes, pepper, squash, cucumbers, potatoes, late cabbage, carrots and parsnips.

Even though some part of the summer has gone there is still time to sow and harvest other vegetables which will add to the food supply in the late summer and early autumn, says Wm. Ferguson, Division of Horticulture, Central Experimental Farm, Ottawa. Though early vegetables such as radishes, lettuce, spinach and peas have been harvested when the summer is advanced some of the land used for growing these crops can be used to produce a crop of quick-growing vegetables before damaging frost comes in the fall.

The following varieties can be grown successfully for a fall crop—lettuce, spinach, Chinese cabbage and radish. Before planting the ground should be worked up.

In many cases discing and harrowing will be sufficient. A dressing of 15-10 fertilizer at 300 or 400 lb. per acre before working up the soil should provide sufficient plant food for these crops. In a small garden this application is equivalent to 7 to 10 lbs. per 1,000 square feet.

The seeds should be sown in rows 18 inches apart, or wider if desired, lettuce and radish seed being sown 12 inch deep and spinach and Chinese cabbage 12 inch deep.

If the season is warm and the soil has dried out, watering or irrigation will speed up germination and help to provide a good, early, uniform crop. After the seeds have germinated the young plants should be thinned out as follows: Radish, 1 inch; spinach, 4 to 6 inches; lettuce, 6 to 8 inches; Chinese cabbage, 10 to 12 inches.

Radishes may be sown early in August, the others should be sown during the last half of July.

The following varieties are recommended: Chinese cabbage, Pe-Tsai, Chihili; Lettuce, Grand Rapids; Spinach, Bloomsdale, Nobel, King of Denmark; Radish, French Breakfast, Scarlet Globe, Saxa or Sparkler.

Disease Forestalled.

In olden times, physicians were engaged almost exclusively in healing. Today, while still tending the sick and curing mankind's mental and physical ills, the doctor practices preventive medicine. The modern approach to health lies in forestalling disease.

Pointing out that much can be done to protect, to immunize, to anticipate and to turn aside disease and disability, Canada's health authorities urge consultation with the family doctor to keep well, not merely for the treatment of illness after it has attacked.

Spender's Dollars.

By C. J. HARRIS.

It is difficult for average citizens to understand why there should be so much talk of recession hovering just around the corner. They and the people they know need a seemingly endless series of commodities that have not been available for years past. In most cases there is money in the bank to buy these goods, and a nest egg of bonds that has been set aside for some specific larger need. It is understandable, then, that the talk of "dollar scarcity" as the cause of a coming depression should leave the public puzzled.

The simple fact is that it is not the lack of home dollars that is responsible for the threat to our continued prosperity. We have the dollars to buy the goods we need. But we have also more goods than we need or intend to buy. That is the crux of the situation both here and in the United States. The difficulty is not in finding purchases but in finding purchasers who can pay in our own dollars.

At the present moment American dollars to finance foreign trade are hard to come by throughout the world, and even here in Canada. We are large exporters of raw materials that the United States needs for her industrial economy, but the scarcity of U. S. dollars here is due to the fact that recently we have been buying from Uncle Sam some more than we have sold. This difference in the trade balance is relatively small and does not present an insurmountable problem. In the world at large, however, where all commodities are needed, this situation has grown desperate. In most countries there is no balance between their need for commodities and what they might hope to sell in return. For one thing, war has destroyed the

Healthy Workers.

People physically able to perform the tasks set for them are an industrial firm's best asset, declares an authority in the Department of National Health and Welfare, Ottawa. Healthy workers are the only true key to production, not plant, pay or materials, says the industrial health expert. It is suggested that a plant health program is essential to modern industrial practice.

Immediate productivity of Europe's almost negligible.

We and the United States to maintain our prosperity, must sell our surplus goods. There is no difficulty in disposing of them. But how can we be paid for them? The natural course would be for the needy countries to buy these surplus goods and to export what surplus they might have to build up dollar reserves with which to pay.

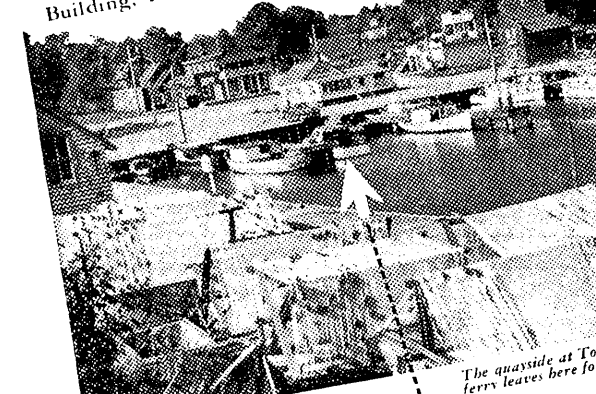

The difficulty is that what these countries have to sell often competes with our own home production. There is the other course: further loans abroad to finance purchases. But in the present situation there is no means of repayment for such loans.

Trading at this disadvantage the tendency is for these countries to trade with whatever countries will accept the purchaser's money. For us this obviously means a decline in exports and so the dollars that other countries haven't got are a major consideration in our continuing prosperity.

The answers might be continuation of a loan policy hoping for some miracle to make the loan good; or an increase in domestic consumption that might be secured for us at least, by increased immigration to provide a new group of home buyers.—Liberty Magazine.

Mrs. Archibald Hartley Dies.

Mrs. Ida May Hartley, aged 71, of
the 6th Concession, Sandwich South,
died Monday at Grace Hospital, Win-
dors, following a lengthy illness. She
was born in Cleveland, Ohio, and lived
in Windsor for one month. She had
lived most of her life in Sandwich
South. Mrs. Hartley was a member
of the Ladies' Guild of St. Stephen's
Anglican Church.

Her only survivors are a cousin,
Mrs. Ida Miner, of Welland, and an
uncle, Arthur White, of Toronto.
Services were conducted Wednes-
day at 1.30 p.m. at the H. S. Anderson
Funeral Home, to St. Stephen's
Church, with Rev. Joseph Tully offici-
ating.

Burial was in the church cemetery.

Fr. Gleeson Transferred.

Bishop John T. Kidd, of London,
has appointed Rev. J. P. Gleeson, of
Maidstone, to the pastorate of St. Pe-
ter's Church, Goderich, to succeed the
late Rev. Charles Nagle.

Father Gleeson is a native London-
er, educated in the public schools
and Central Collegiate of that city;
a graduate of Assumption College,
Laval University, and the Grand Sem-
inary, Montreal. He was ordained by
the late Bishop Fallon in 1912. He
has been a resident of Essex County
for 30 years; six years at Assump-
tion, ten years in Leamington, where
he organized St. Michael's parish and
built the church and rectory, fourteen
years at Maidstone.

His host of friends, of all creeds,
will be sorry to hear of his moving
from Maidstone, but will join in offer-
ing congratulations on his new ap-
pointment.

Fr. Gleeson has been a lover of clean
sports, especially baseball, his Maid-
stone Shamrocks were Essex County
champs in 1942; provincial O.B.A.
champs in 1943 in the thrilling play-off
series with the strong Camp Borden
R.C.A.F. team. Again in 1944 the
Maidstone Rocks successfully defend-
ed the beautiful provincial trophy in
the post-season series with the Col-
lingwood Salliors.

The new pastor at Maidstone will
be Rev. H. Chisholm, of West Lorne.

S. A. Summer Bible School.

For the past two weeks boys and
girls from our town have been enjoy-
ing the Salvation Army's Summer
Bible School being conducted at the
Cottage by Capt. and Mrs. Carter, as-
sisted by Mrs. Ethel Wilson, Misses
Pat Kennedy, Annie and Pearl Price.
The course of study followed is en-
titled "The House of Life," in which the
Christian life is forcefully compared
with a house. For instance a well-
built house must have a sure founda-
tion and so a sound Christian charac-
ter must begin with the coming of
Jesus into the individual heart — "For
other foundation can no man lay, than
that is laid, which is Jesus Christ."
1 Cor. 3:11. Happy singing, scripture
memorizing, recreation, illustrated
missionary stories, and handwork kept
everyone busy. A closing programme
will be held next Monday in the Cit-
adel, at 7.45 p.m., to which everyone
is invited. Your presence will encour-
age the boys and girls as they receive
their awards and show what happens
at Bible School.

Maidstone United Picnic.

Approximately one hundred per-
sons gathered at Seaside Park, Leam-
ington, on Saturday noon for the an-
nual picnic of the Maidstone United
Church Sunday school. Young and
old enjoyed a chicken dinner, served
on long covered tables, and then vied
in races organized by the Sunday
school's picnic committee.

Youngsters came running from all
directions to take part in a scramble
for candy kisses. Each child who ran
in the race for two to six year olds
won a prize. Other prize winners
were:

Running races:
Boys, 6 to 8 — Ray Little, Fred
Libby, Ed. Croft.
Girls, 6 to 8 — Edna Farough, Ethel
Farough, Lois Pomeroy.

Boys, 8 to 14 — Fred Libby, George
Noble, Gary Wright.
Girls, 8 to 14 — Marian Wright, Edna
Farough, Ethel Farough.

Boys, 14 and over — Milton Farough,
George Simpkins, John Greaves.
Girls, 14 and over — Arlene Gunder-
son, Ruth Pearson, Gladys Jean Little.
Sack race — Charles Croft, Roger El-
lis, Frank Ellis.

3-legged race — Ruth Pearson and
Gladys Jean Little, Joyce Croft, Dar-
lene Gundersen, Edna Farough and
Marian Wright.
Cracker eating contest — Donald
Croft, Marvin Little, Fred Wright.
Pop drinking contest — Barbara
Croft, Ruth Pearson, Joyce Croft.

Paper plate race — Red Farough and
Mrs. Margaret King, Mr. and Mrs. Mil-
ton Farough, Howard Dawson and
Mrs. Elsie Thomas.

Swimming, a softball game, swings,
pony rides and merry-go-rounds kept
the boys and girls busy until supper
was served.

Plan now to attend Cottam Rotary
Carnival, on Civic Holiday, Monday,
August 4th.

ible.

MRS. NELLIE BROWN.

Hicks-Dornton Nuptials.

At a quiet ceremony, on Friday eve-
ning of last week, at 8 o'clock, in
Westminster United Church, Windsor,
the Rev. A. E. M. Thomson united in
marriage Miss Elsie Dornton, only
daughter of Mr. and Mrs. Evelyn J.
Dornton, of Windsor, and granddaughter
of Mr. and Mrs. Robert Stothard,
of South Woodlee, and Charles G.
Hicks, son of Mr. and Mrs. Harold O.
Hicks, of Detroit.

Given in marriage by her father,
the bride was smartly gowned in
white crepe, street-length, with a high
neckline, a side drape and cap sleeves.
She wore long white lace mitts, and
white carnations in her hair, her cor-
sage being of white carnations and
pink roses.

Her only attendant was her aunt,
Mrs. C. H. Bolton, who chose aqua-
marine crepe, similarly styled, and wore
black gloves, and yellow carnations
in her hair and in her corsage. Mr.
Bolton was best man, and Miss Thel-
ma Morton played the wedding music.

A reception and dinner at The
Mannor followed, for the immediate
families, the table being arranged
with pink roses and white carnations.

Mrs. Dornton wore for her daugh-
ter's wedding a blue and white printed
silk frock, with a natural straw hat,
and navy accessories, and red roses,
and Mrs. Hicks was in brown crepe
and wore white accessories, and Jeana
Hill roses.

Mr. and Mrs. Hicks left later for a
motor trip east, the bride travelling in
a pale pink wool suit and black shawl
straw hat, and wearing black natu-
ral accessories. They will reside at 1005
Bruce avenue, Windsor.

Special guests at the wedding were
the bride's grandparents, Mrs. Louis
Dornton and, from Woodlee, Mr. and
Mrs. Robert Stothard, and her great-
uncle, Charles Stothard, all of Woods-
lee, and Miss L. Little, of Detroit.

Struck by Lightning.

Fred Gillard, aged 16, son of Mrs.
Bertha Schofield, of LaSalle, was kill-
ed Monday, shortly after 3 p.m., when
a bolt of lightning struck him while
showering under a tree a quarter
of a mile from the Detroit River, on
the front road overlooking LaSalle.
Pauline Gignac, aged 15, daughter
of Leo Gignac, of Windsor, who was
holding the left hand of Gillard when
the lightning struck, was injured but
not critically.

The two young persons had been
swimming in the Detroit River with
four other friends, before a ter-
rific storm suddenly swept the area.
The other members of the swimming
party included Rachael Lucier, aged
15; Neil Mayrand, 17; Ferdinand Mi-
cheau, 15, and Joyce Thornton, 13, all
of the same neighbourhood in LaSalle.

The group started for home, approxi-
mately one mile away, when dark
clouds closed in and a blinding rain
ensued. The first two sheltered under
one tree, the other three under an-
other some 60 feet away, while the
Thornton girl raced for home on her
bicycle.

Soon after the shelters were reached
the three under the one tree saw what
was described as a ball of fire streak
down to the ground. They crouched
and the ball hit alongside the tree un-
der which the other two were stand-
ing.

"The Gillard boy seemed to be hit
directly by the bolt for he spun
around and then fell over on his back,"
Neil Mayrand, one of the three eye-
witnesses to the tragedy, stated. He
said the Gignac girl, who had been
holding Gillard's hand "because of
fear," seemed to fall over backward
near her friend.

The other three dashed out into the
downpour to offer assistance when
they saw their companions fall. The
Mayrand boy showed the other two
how to apply artificial resuscitation
and then ran to his home half a mile
away, for help.

While waiting for an ambulance to
arrive the Mieneault boy and the Luc-
ier girl worked ceaselessly to revive
their companions. Both were uncon-
scious but before the ambulance ar-
rived the Gignac girl showed faint signs
of life while the Gillard boy remain-
ed motionless throughout all attempts
to revive him.

At Grace Hospital the Gignac girl
soon gained consciousness. She re-
turned to the home of Mrs. Lionel An-
tune, her aunt, of LaSalle, Tuesday.
Her injuries, consisting of a scraped
ankle, shock and an injured right eye,
are reported as not critical.

The Gillard boy is survived by his
mother, a brother James, of Sand-
wich West, and four sisters, Mrs.
Thomas Skinner, of LaSalle; Mrs.
Wallace Patrick and Mrs. Geo. Perry,
of Sandwich West, and Miss May Gill-
ard, of Hanover. The funeral was
held Thursday, with burial in
Windsor Grove cemetery.

Fields-Roberts Nuptials.

A double ring ceremony was solemn-
ized at the United parsonage, on
Thursday of last week, when the Rev.
R. H. Parr united in marriage Miss
Doris Jean Roberts, daughter of Mr.
and Mrs. F. J. Roberts, and Stanley
J. Field, son of Mr. and Mrs. Thomas
Field, all of Essex.

The bride chose a white floor-length
gown of broadened satin, styled with a
sweetheart neckline, a long toe, a
long, pointed sleeves and a full double-
skirt. Her fingertip veil was held
in place with a crown of orange
blossoms and she carried a cascade of
white roses, gardenias and stephan-
otis.

Miss Mary Roberts, sister of the
bride, as bridesmaid, was dressed in a
sleeveless aqua floor-length gown
with an overskirt of nylon sheer. In
her hair were pink flowers, and she
wore long pink lace mitts. Her bout-
onnet was of pink roses. (Gill Field,
brother of the groom, was best man,
a reception for 75 guests followed
at the bride's home, where the table
was laid with a lace and cut-work
cloth, and centred with a three-tiered
wedding cake flanked by white lilies.

Presenting tea were the bride's grand-
mothers, Mrs. C. W. Roberts and Mrs.
James Murray. Assisting were Mrs.
Barry Crawford, Miss Mary Levi, Miss
Mary Truesdale and Miss Evelyn Fox,
all dressed in white.

Mr. and Mrs. Field left on a motor
trip east, the bride wearing a white
silk jersey dress, a black and white
topper, and white accessories, with a
corsage of gardenias tinted in pink.
On their return they will reside in
Essex.

Prior to her wedding the bride was
treated to a miscellaneous shower at
the home of Mrs. Wm. Dutoit, by Miss
Marie Levi and Mrs. Dutoit.

Celebrate Anniversary.

Mr. and Mrs. Walter Reynolds, of
Pierre, Quebec, Windsor, celebrated
their silver wedding anniversary on
Tuesday of last week, at Memorial
Baptist Church, with 75 of their
friends present. Mrs. Reynolds' fa-
ther, Arthur H. Moston, acted as mas-
ter of ceremonies, and her brother,
Arthur Moston, who played at their
wedding 25 years ago, played the Wed-
ding March.

The bride, aged 25, was the daughter
of Mrs. Joe McDonald, of De-
troit, as well as the best man, Milton
Fox, of Wheatley, were present. Serv-
ing were Miss Beryl Fox, Miss Jean
Fox and Miss Marjorie McDonald.
Mr. and Mrs. Reynolds were presented
with a silver tray and tea service,
and numerous other gifts. Present
from out-of-town were Mr. and Mrs.
William Fox and their children, Ray,
Jean and Neil, of Wheatley, Mr. Joe
McDonald and daughter, Marjorie, of
Detroit, Mr. and Mrs. Roland Lock-
hart, of Flint, Mich.; Mrs. Mary Lock-
hart, of Vassar, Mich.; and Miss Dor-
othy Adrian, of St. Theresa, Que.

The Moston family will be well re-
membered by the older residents of
town. They resided on Laird avenue
and were bankers by trade, working for
the late Albert Dowdler. A son Har-
old, was killed in World War I.

Boy Drowns in Gravel Pit.

Roland Blais, aged 11, of R. R. 2,
Maidstone, disobeyed his parents' ca-
ution not to go in swimming Monday
afternoon and drowned in a pond on
the farm of Robert Jackson, at Maid-
stone Cross. He is the son of Mr. and
Mrs. William Blais, formerly of Tecumseh.

The youngster smuggled his bathing
trunks out of the house and with En-
neth Blais, aged 12, a brother, and
Thomas Malcolm, aged 11, went on a
berry-picking trip.

The victim's two companions told
Constable Herbert Howe, of the pro-
vincial police, Windsor detachment,
that Roland donned his trunks after
a bit of berry picking and plunged
into the pond. The other two did not
go in swimming.

They said Roland swam a bit and
then went under. He came up and
went under again, and that was the
last they saw of him. They were pow-
erless to help, they said, as he was
about 20 feet from the edge of the
pond. They raced away for help.

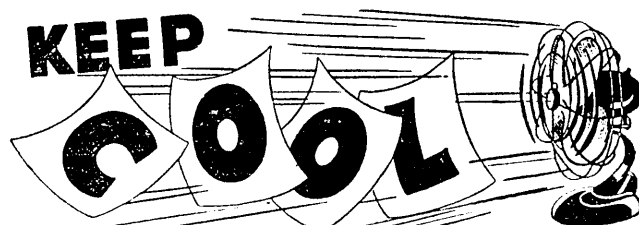

Assisting Constable Howe were
Ernest Drouillard, of Maidstone, and
Ross C. Flood Jr., of Maidstone. The
latter made several futile dives to find
the body.

The boy could swim and must have
suffered a cramp while in the water.
His companions said he ate his dinner
a short time before leaving on the
trip.

The pond was created when No. 3
Highway was built, many years ago.
The boy's body was not recovered
until past 5 p.m. and was found in 10
feet of water. A cultivator fastened
to the end of a shaft and a raft were
used in grappling operations.

He was born in Tecumseh and had
lived in Maidstone for three months.
The brother and a sister, Betty
Jane, both at home, survive him.

Services were conducted at 8 a.m.
Thursday of last week, from the H. S.
Anderson Funeral Home, to St. An-
ne's Church, Tecumseh, at 9 a.m.
Burial was in St. Anne's Ceme-
tery.

Essex Wins Double-header.

SECOND GAME.

The Leafs, by twice beating Tilbury, on Sunday, moved into fourth place in the league standing, with a record of four wins and three losses.

J. Murray's pitching, a well-deserved shut-out, and Art Miller's steady fielding at first base, where he handled 16 chances without an error, and his game-winning double in the first inning, to score Queen from first, were the highlights of the first game.

The second game was even closer than the first, with Essex leading 2 to 1 going into the ninth, when they scored twice, to put the game on ice.

Jack Fleming pitched excellent ball, allowing the visitors only four hits.

Essex—Queen drew a base on balls—Brown singled through short and when J. Rankin threw high over Askin's head both runners shoved up a base; R. Ross struck out; Brackell laid down a perfect squeeze play bunt to score; Queen and send Brown to third; Brackell stole second; with Parent at bat the squeeze signal was again on; Brown broke as F. Markham wound up and when the Tilbury pitcher threw over to third, Brown stole home; Parent walked; Loebach hit to short; Brackell being out going into third; M. Miller struck out—2 runs, 2 hits, 0 error, 1 left.

Tilbury—Roudon struck out; Dalgneau singled through the box; Essex hit an easy double play ball to Queen at short; the ball got through him, but he recovered in time to toss to Brackell, who tagged Dalgneau as he overslid second; P. Markham flied high to Loebach—0 run, 1 hit, 1 error, 1 left.

Third Inning.

Essex—L. Ross walked on four pitched balls; Fleming was called out on strikes; Queen sacrificed; pitcher to first; Brown lined to Benoit in right—0 run, 0 hit, 0 error.

Tilbury—Benoit was called out on strikes; Fletcher popped to L. Ross; J. Rankin flied out to left—0 run, 0 hit, 0 error.

Fourth Inning.

Essex—R. Ross' high fly was taken by Askin in short right; Brackell hit a hopper over Essex's head in short left and moved to second as Parent went out to Fletcher, unassisted; Loebach struck out—0 run, 1 hit, 0 error, 1 left.

Tilbury—D. Markham struck out; Fleming threw out Askin; Roudon drew a base on balls and with Dalgneau at bat, was picked off first; L. Ross hit R. Ross—0 run, 0 hit, 0 error, 1 left.

Fifth Inning.

Essex—R. Ross' high fly was taken by Askin in short right; Brackell hit a hopper over Essex's head in short left and moved to second as Parent went out to Fletcher, unassisted; Loebach struck out—0 run, 1 hit, 0 error, 1 left.

Tilbury—D. Markham struck out; Fleming threw out Askin; Roudon drew a base on balls and with Dalgneau at bat, was picked off first; L. Ross hit R. Ross—0 run, 0 hit, 0 error, 1 left.

Sixth Inning.

Essex—R. Ross' high fly was taken by Askin in short right; Brackell hit a hopper over Essex's head in short left and moved to second as Parent went out to Fletcher, unassisted; Loebach struck out—0 run, 1 hit, 0 error, 1 left.

Tilbury—D. Markham struck out; Fleming threw out Askin; Roudon drew a base on balls and with Dalgneau at bat, was picked off first; L. Ross hit R. Ross—0 run, 0 hit, 0 error, 1 left.

Seventh Inning.

Essex—L. Ross hit to Dalgneau, and when the Tilbury shortstop threw wide to Fletcher, at first, the batter was safe; L. Ross moved up to second and then to third on two passed balls; Fleming struck out; Queen grounded out, second to first—0 run, 0 hit, 1 error, 1 left.

four fly; Fletcher beat out an infield single to R. Ross, who felled the ball in Brackell's territory, and no one covered first; J. Rankin hit to Brown, Fletcher was forced at second; J. Rankin stole second, but D. Markham struck out to end the inning—0 run, 1 hit, 0 error, 1 left.

Eighth Inning.

Essex—Brown was safe when Dalgneau erred on his grounder; R. Ross was safe on a fielder's choice, as Brown was forced at second, Essex to Askin; R. Ross stole second and went to third as Brackell reached first after striking out on a wild pitch, which hit the backstop; this robbed Markham of a strikeout and he was charged with an error for allowing a batter to reach first after being struck out; R. Ross moved over to third, with Parent at bat; Essex again tried the squeeze play, but the Tilbury catcher outgassed the play, called for a pitchout, and R. Ross was an easy out; D. Markham to Essex to Markham to Essex to F. Markham, Brackell moved up to second; Parent hit to Fletcher and when F. Markham failed to touch first after taking the throw on the runner, the batter was safe, but Brackell was trapped off third on a quick throw across the diamond—0 run, 0 hit, 2 errors, 1 left.

Tilbury—Askin walked; Roudon sacrificed; pitcher to first; Dalgneau was thrown out by Fleming; Brown caught Essex's high fly—0 run, 0 hit, 0 error.

Ninth Inning.

Essex—Loebach flied high to Fletcher; M. Miller was hit by a pitched ball; L. Ross singled to center; M. Miller just reaching second in time; Fleming popped to Askin; Queen lined a single off Scott's glove to fill the bases; Brown lined to right; Fletcher nearly caught it but he couldn't; he couldn't hold it and both M. Miller and L. Ross scored; Queen stopped at second; Essex and Brown worked the double steal but R. Ross was called out on strikes—2 runs, 3 hits, 0 errors, 2 left.

Tilbury—F. Markham was thrown out by Fleming; Brown threw out Benoit, and Fletcher ended the game grounding out, short to first—0 run, 0 hit, 0 error.

PAQUETTE

Mr. and Mrs. Russell Pettypiece and Mrs. Sarah Pettypiece are visiting relatives in Petosky Mich.

Mrs. Janie Holden wishes to express her most sincere thanks and gratitude to friends and relatives for cards, flowers, letters and good wishes on her 53rd birthday, July 12th. Mrs. Holden is slowly recovering from her recent illness.

Mrs. Cleve Johnston, Mrs. Thomas Libby, Mrs. Julia O'Neill, Mrs. Clifford O'Neill and daughter Reta, spent a most enjoyable day at the home of Miss Leila Johnston, of Kingsville, on Thursday.

Mrs. Ed. Heaton, of Colchester South, spent Sunday with Paquette relatives.

Plan now to attend Cotnam Rotary Carnival, on Civic Holiday, Monday, August 18th.

Miss Dorothy Shuel, nurse-in-training at Hotel Dieu, Windsor, is spending her vacation with her parents, Mr. and Mrs. John Shuel.

Mr. and Mrs. Walter O'Neill and sons Walter and Brian, are vacationing at Georgian Bay.

Mr. and Mrs. Jim Curtis, Mr. and Mrs. William Miller and son Billy moved to St. Thomas on Saturday to attend the 12th of July celebration.

Deepest sympathy is extended to Mrs. Nelson Curtis, Mrs. Wm. Miller, Mrs. Jim Curtis, Miss Helen Hollinworth and Edmund Hollinworth, on the death of their beloved aunt, the late Mrs. Mary Davison, of Detroit, who passed away on July 11th, following a lengthy illness. Relatives from Paquette attended the funeral services in London, on Tuesday afternoon, July 15th.

Sunday next, being the third Sunday in the month, there will be a celebration of the Holy Communion in the Church of the Redeemer, at 9.45 a.m. Leslie O'Brien still has some No. 1 tulip bulbs for sale at 8c a bulb. These bulbs should be obtained before August.

A representative gathering of the O'Neill family at the home of Mr. and Mrs. Harry O'Neill, on Saturday evening, it was decided to hold the 15th annual reunion at Memorial Park, Windsor, on Saturday afternoon, August 2nd.

Mr. and Mrs. Banford Shuel, Windsor, spent Wednesday and Thursday with Paquette relatives.

Deepest sympathy is extended to relatives of the late Mrs. Ida Hartley, who passed away Monday morning, in Grace Hospital, Windsor, following a lengthy illness.

Round Table Discussion.

A round-table discussion of causes, results and prevention of juvenile delinquency marked the regular meeting of the Bonus Amicus Club, held this past week, at Ruscomb United Church, with Mrs. Donald Brown and Mrs. Garnet Knister as joint hostesses; Mrs. Chas. Mitchell, Mrs. George Wales, Mrs. Lyle Hillier and Mrs. Whitney Scratch taking part. Mrs. Vestor Fenner, Mrs. David Cavens and Mrs. Everett Simon acted as judges.

Mrs. George Brown, president, was in the chair for the meeting. A waiter roast was planned for July 19th, at Belle River Park, when husbands and families of members will be guests. Mrs. Richard Russon read a chapter from the study book on "Family Relationships," and contests were enjoyed, honours going to Mrs. Ernest Ruston, Mrs. Earl Stowe, Mrs. George Brown and Mrs. Scratch, with Mrs. Bert Knight receiving the consolation prize. The next meeting will be held at Mrs. Clifford Dietrich's home in Woodslee.

PUCE

George Motley and family, Mildred and Delbert, and their families, of Pontiac, Mich., formerly of this place, have been making a round of visits here and in other parts of Essex County.

Andrew Rubhman, while fishing in Lake St. Clair, recently hauled in a sturgeon weighing 103 pounds.

During the storm on Monday, between 7.30 and 8 a.m., a freak windstorm followed the north shore of the lake here and broke limbs and branches from the trees, right and left, but no serious damage was reported.

Mr. and Mrs. Wm. Davis and three children, Marie, Billy and Carolyn, of London, were guests of Mr. and Mrs. Stanley Major, on Sunday.

William Allen Sr., and Miss Mary Allen, of Maidstone; Mr. and Mrs. Verna Parent (Loretta Allen) of Detroit, and Mr. and Mrs. Allen Jr., and children, of North Ridge, were guests of Mr. and Mrs. John C. Allen, at the lake shore, recently.

Mrs. Belle Teal and son Thomas, of Detroit, were out at their summer home over the week-end.

Guests at the Ellwood farm during the past week and Sunday, were Miss Cecelia A. Freil, of Detroit; Miss Bernice Stowe, of Tecumseh; Mr. and Mrs. Edwin Ellwood and Bernard Ellwood, of Detroit, and Miss Rita Mailbox, of Tecumseh.

Mr. and Mrs. Donald Dettloff and daughter Linda, and Mr. and Mrs. Joseph Roe and four daughters, Jessie, Jean, Vera and Patricia Ann, and Raymond Lunn, of Dutton, were also guests of Mr. and Mrs. Stanley Major, on Saturday and Sunday.

Mr. and Mrs. Robert Hooper and three daughters, Dore Ann, Mary Joe and Beth, and Mr. and Mrs. George Storer and two children, Sharon Jean and Corrie, of Detroit, and Mr. and Mrs. Wm. H. Ellwood and two daughters, Sharon Ann and Heather Marie, enjoyed a picnic at the lake shore, on Sunday.

Watch for the date of the Woodslee R. C. annual picnic.

Robert McQueen, of Detroit, visited Mr. and Mrs. A. Gangner during the past week.

Dolores Dawe went to London with the Dawes family, for a week's visit with them.

Miss Beatrice Stowe, who has been making a round of visits in Quebec,

—A. G. Cascadden, local real estate broker, on Saturday sold the Almer Doan property on Albert street, in town, to Bradley W. Bell, of Detroit. Notice!
—Mrs. Crozier's Beauty Parlor will be closed for three weeks, beginning August 4th.
—Tuesday lawn bowling results: 1st, Bob Piper and Ron Piper, 2 wins, plus 13, score 23; 2nd, A. G. Cascadden and Garnet Queen, 2 wins, plus 10, score 26. All teams were out but two, and greens were in fine shape.
—Weekend guests of Mr. and Mrs. Asa Sweetman were Mr. and Mrs. Charles Tighe, Mr. and Mrs. Ed. Moore of Toledo, Ohio, and Mel Sweetman, of Chatham.
—R. Charles Brushett is spending his vacation visiting Toronto and attending Masonic Grand Lodge.
—Morley Crowder, accompanied by Ted Ward and Miss Marion Davies, of Windsor, flew to Chatham on a breakfast flight on Sunday morning.
—Douglas J. Wilkie, son of Mr. and Mrs. Fred Wilkie, of St. Luke Road, East Windsor, formerly of this district, and Miss Ethel Johnstone, daughter of Mr. and Mrs. Ernest Johnstone, of Campbell avenue, Windsor, were recently married at the Church of the Ascension, in Windsor.
—The Mother's Union, of St. Paul's Church, held their monthly social, on Tuesday evening, July 15th, in the parish hall. Ten members and two visitors were present. The evening was spent in playing bingo, the winners being Mrs. Stote, Mrs. Smith and Mrs. C. Maedel. The lucky numbers for the door prize was drawn by Mrs. Parsons, Mrs. C. Maedel invited the Mothers' Union to spend the day at her cottage at "Little Essex," next Wednesday, July 23rd. All wishing to go are to meet at the parish hall at 2.30 p.m. An enjoyable evening was spent by all.
Engagement Announced.
—Mr. and Mrs. Loretta Trotteau, of Raymo Road, East Windsor, announce the engagement of their daughter, Dorothy, to Carlton Doan, son of Mr. and Mrs. Archie Doan, of town. The marriage will take place at Our Lady of the Rosary Rectory, on July 25th.
—Mr. and Mrs. Thomas Oliver announce the engagement of their only daughter Helen Elizabeth to Murray Clifton Dibbley son of Mr. and Mrs. Garth Dibbley of Coatsworth the wedding to be solemnized on the evening of Wednesday August 6th at Essex Gospel Tabernacle.
—Essex Chapter, O.E.S., No. 153, closed for the summer with a friendship night. Guests from each chapter took part in the infatulatory work. At the close of the chapter the Past Masters and Patrons of Essex Chapter presented Mr. and Mrs. Carson York with a beautiful lamp, it being their golden anniversary. After a social evening was enjoyed, strawberries and ice cream being served.
—Norma Hill received word recently that she had successfully passed her Associate Solo Performers piano examination from the Western Conservatory of Music, with first class honours, receiving 84 marks.

Softball Schedule.

Monday, July 21st—Stokely's vs. Legion.
Tuesday, July 22nd—Kinsmen vs. General Motors.
Wednesday, July 23rd—Legion vs. Lawn Bowlers.
Thursday, July 24th—Stokely's vs. Kinsmen.
Friday, July 25th—Lawn Bowlers vs. General Motors.
Games on Fair Grounds diamond, to start at 6.45 p.m.

Help to Play the Game.

The town has been talking about creating a little sporting activity within its area, and at least something has been done by the younger members of the community.
A softball league has been formed in town, consisting of five teams—Kinsmen, Legion, Stokely's, Lawn Bowlers and North End—so you can see that the town is well represented and the lads are playing a very fast game of ball, and play it as true sportsmen should.
So come out, folks, and give the lads a little support, as there is a game scheduled for five nights a week, Monday to Friday, at 6.45 p.m.
Just as an example, for an evening show, here's what happened last Tuesday evening—the Kinsmen played the Legion (or visa versa), and for the first four innings it was three up and three away until the Kin team broke into the lead with two runs in the last of the fifth, then in the sixth the Legion sneaked in three runs on an error and a single, and they held that lead to the bitter end.
We don't want Clara to lose his patients, but we hope he can come out again for a pitching session, for he turned in a good do with Chief Hogarth behind the plate to stop them, and opposing them was the Legion battery of Harvey and Hines, who did an equally fine job.

TO WHOM IT MAY CONCERN:

Take notice that my wife, Kathleen Florence Gray, having left my bed and board, I will not be responsible for any debts contracted by her after this date.
Dated July 12th, 1947.
THOMAS GRAY
Taibot Street, Essex

—Lorna Billing is spending three weeks with Patsy and Beverly Savel, at their cottage at Port Stanley.
Engagement Announced.
—The Free Press is in receipt of an engagement of marriage announcement of John Van de Vrede, of town, and Mrs. Art Skinner and children arrived at the home of his parents, Mr. and Mrs. William Skinner, of Coatsworth, on Monday.
—Miss Maria Pieterella Berman, of Gravenhage, Holland. The wedding will take place in Holland on July 24th.
Baptist Sunday School Picnic.
One of the best picnics ever enjoyed by the Essex Baptist Sunday school was held on July 14th at the "Jack Miner Bird Sanctuary," permission having been given by Mrs. Miner to do so.
The spacious grounds were ideal for the occasion and the day was also ideal, and so made the picnic one to be enjoyed by young and old alike.
A splendid program was mapped out by the sports committee, comprising Dean Ferguson, Elizabeth Levitt, Marion Hamm and Howard Killick.
Races.
Children, 1 to 3 years—Elaine Teskey, Davison Lyn, Stanley Barklett.
Children, 4 to 5 years—Phil Valade, Betty Welsh, Allen Teskey.

Plate stepping, married men and women—Mrs. Scamam and Mr. Salig, Mr. and Mrs. Manning, Mr. and Mrs. Killick.
After the races there was a ball game, while the ladies prepared the supper table, at which everyone did justice to the bountiful supply of good things always found at picnics. During the day there was always plenty of orangeade, pop, frost bites, etc., to be had. After supper there followed a free-for-all scramble for oranges and candy kisses, according to classes.
The Fireside group took over for 30 minutes, led by their president, Mrs. McNaughton. Chorus were sung and instrumental music was enjoyed, as was also a short speech by Mr. Rogers, of Tilbury. Mrs. Miner was a visitor during the afternoon and evening and was thanked by Mr. Wakeling on behalf of the Sunday school for allowing them to use her beautiful grounds, to which she replied that she was very glad to have had the picnic there and hoped they might come again next year.
Dusk soon followed and everyone left for their homes, happy that once again they had enjoyed a splendid, well-attended picnic.

First Baptist Church.

Sunday, July 20th: A hearty invitation is given everyone that can possibly come, to fellowship with us in our Sunday services. This will be an outstanding day in the history of our church because for the first time the complete Sunday school will meet in our new Sunday school hall. Also, for a semi-official opening, the morning service will be held in the same hall. We invite you to come to see the great advance in Sunday school facilities that have been made in the past year. You will find this new building delightfully cool on the hottest day. It is a good place to get away from the heat for an hour. This will also be Building Fund Sunday. We know you will do your best to boost our building fund offering. Sunday school, 10 a.m.; morning worship, 11 o'clock. Evening chapel service at 7.30. Look for the church with the "Lighthouse" sign. It is known as "The Home-like Church."

Watch for Signs.
Which comes to dawning, a "stitch"
in the side often can save time, and
when it comes to health maintenance,
a check-up today may keep sickness
away.

Health experts remind Canadian
that sickness rarely comes unannounced. It gives fair warning, usually
with twinges and aches and minor
pains. When such signs are appar-
ent, they should be interpreted at
once by a medical expert, so that
prompt early action may be taken to
offset the troubles they indicate.

Adequate Light.
While it may be effective and suffi-
cient for some purposes, indirect light-
ing in the home is likely to be poor
for reading and study periods. Health
experts specializing in illumination
research declare that semi-direct read-
ing lamps, preferably of the floor
type, should supplement the normal
lighting of a room for any form of
close work.

Where there is a likelihood of sev-
eral members of a family simultane-
ously reading, sewing or engaging
in occupations requiring attention to
detail, floor or table lamps should be
available at their favourite chairs or
tables. The overhead globes won't
give all of them proper illumination
where it is most needed.

Safety at Play.
In view of the considerable num-
ber of accidents which occur around
homes, particularly where there are
young children, national health auth-
orities list a few precautions which,
if taken, may save much suffering
and loss of life.

Care should be taken, they say,
to provide protection at the head
of flights of stairs and at windows.
Play apparatus should be such that
the youngsters cannot hurt themselves
with, or on them, and inside the
house, the tacking down of loose car-
pets and rugs may avert nasty falls.

Food Functions.
Food supplies human beings with
fuel for heat and motion, material
for body building and repair, and sub-
stance for regulating body processes.

Keep Cool.
If you keep healthy, you're more
likely to be cool and collected when
business action counts.

Healthy people, the medical sci-
entists tell us, are better qualified to
keep themselves under control at all
times. They are not so apt as those
in ill-health to let temper or temper-
ament get the upper hand.

If you get rattled or lose your
cool in high-pressure, you place your-
self at a distinct disadvantage. That's
the verdict of Canadian health experts.
That's a serious reason for keeping well and
having yourself "well in hand."

Vegetables, Too.
Such edibles as cucumber and spa-
rghetti are not adequate substitutes in
the diet of vegetables, nutritionists
warn.

Apprehensive of spaghetti and spa-
rghetti as "cucurbit" boosters, the food
specialists endorse their use in com-
bination with nutritious foods such as
cucumbers, tomatoes and cheese, but that
is all. It is also necessary, accord-
ing to the experts, to include real veg-
etables in a meal in order to ensure
sufficient essential vitamins and min-
erals in the diet.

Canada's Health
Vegetables, too.

By Their Fruits Ye Shall
Know Them.

By Joseph Lister Rutledge.

The backbone of our industrial and
business life is the urge to make two
blades of grass grow where one grew
before. The two blades of grass, of
course, take many forms, and the urge
to produce them springs from many
and often composite reasons. It would
be almost too much to believe that
the hope of profit was the least of
them. It would be equally idle to
urge that it is the only, or even the
dominant, reason. Would anyone be-
lieve that Henry Ford, for instance, or
Westinghouse of the airplane, or
Hargreave of the spinning Jenny, or
Patton of the steam engine, or Morgan-
thau of the limousine, or the Wright
Brothers, who pioneered the air, or
any one of a thousand others, had
their eyes on possible profits, or would
have held back and done nothing had
the promise of profit been less? Take
away all profit and there would still
be men driving for achievement, and
finding some measure for it.

The widened horizon of business
and industry, the improved technical
processes that have broadened our
eyes beyond any measure, the expand-
ing labor market that has provided
for vastly expanding populations, and
the increased security of our future
all pay tribute to those growers of the
extra blade of grass.

If in the process some of them have
retained a token payment, on the ad-
vantages that have accrued to all,
it is a tangible witness to daring and
achievement that has meant benefit
to all and loss to none. We are not
saying, of course, that there are not
men who have taken too much for
themselves and yielded too little.
Such matters are under adjustment,
and probably always will be. The one
point we are interested in making is
that the generally accruing benefits
are the measure of the right to profit.
When all people benefit profits cease
to be a public charge.

Unfortunately the legitimate profit
maker is sometimes confused with the
illegitimate. The one makes a profit
out of a sincere and constructive ser-
vice, a service that recognizes that
if profits are to continue, not only
those who are engaged in the under-
taking or in its financing, but every-
one who comes within its orbit must
share in the benefits. The other
skims off a profit that he has done
nothing to create or deserve. These
latter will not make jobs, expand wealth,
or benefit people. They look for quick
and large profits, for these may not
be repeated. What ingenuity they
display is directed primarily to cir-
cumventing the law. They prey on
the selfishness or the impatience of a
segment of the public and they take
whatever the traffic will stand. You
see them clinging to the fringes of
industry trying to capitalize what bet-
ter men have tried to do for others.

We call it all profit, but we don't
wholly confuse ourselves. We know
when real benefit is given. It is given
by the automobile company that sells
an honest product at an honest price,
yet at an honest profit. It isn't given
by men who through deceit, secure a
car to which they are not entitled, and
to sell it for a fabulous price to some-
one who doesn't want to wait for turn.
When we speak of profits it is well to
consider what benefits precede them.
That is the way to keep values
straight.

These needs are called "protective
foods," and we all must have our
share of them if we are to keep
healthy and live well.

The language of tones belongs equally
to all mankind, and melody is the
absolute language in which the
magician speaks to every heart. —
Richard Wagner.

Miss Canada Pageant.
Mountains of mail are arriving in
the "Mountain City" from beautiful
girls across Canada as inquiries pour
in concerning the Miss Canada Page-
ant, set for August 21st and 22nd,
when the lucky "All Canadian" girl
chosen by a group of distinguished
Canadian and American judges, will
be crowned Miss Canada. In addi-
tion, she'll receive a \$1,000 scholarship
and be eligible to enter the great
Miss America pageant in Atlantic
City in September.

Letters are arriving from every
part of the Dominion. Stated S. Red-
cliffe Weaver, executive director of
the pageant which is sponsored by the
Hamilton Police Athletic Association,
"Our first entrant was pretty Miss
Marjorie Graham, crowned Miss Win-
nipeg last spring. If inquiries mean
anything, we should have at least 50
girls entered."

The idea of a scholarship has
"caught on" with lovely Canadian girls
who have aspirations for future ca-
reers in art, music, literature, jour-
nalism, medicine and other fields.
The winner also will have a chance
for \$25,000 in scholarships at the Miss
America show.

From Regina, Miss Thillie Fleming
is the first Prairie flower to enter.
As is the case in many beauty con-
tests, she has also won an all-expense
trip to Hamilton and, according to
word from Regina Police Association,
she may fly down.

Marjorie Hunter, another entrant, was
crowned Miss Central Ontario at the
Dundas Centennial Dominion Day
contest. She stated her \$250 prize as "Queen
of the Centennial" will help in her
third year at McMaster university.

From Peterborough, Radio Station
CHFX telegraphs that three or four
girls from that district will enter
the Miss Canada contest, while on
Wednesday, at Belleville, Mr. Weaver
will place the crown on the head of
a new Miss Eastern Ontario, highlight
of the city's Old Home Week.

Frozen Foods.

The length of time a product may
be stored in a freezer-locker without
loss of quality is determined by tem-
perature. Best results, advise the re-
frigerator authorities are obtained by
storing at zero to 5 degrees F. above.
There is no particular advantage, they
say, in storing at below zero. Micro-
organisms dangerous to health will not
grow below 14 degrees F. and botulin-
us toxin has not been known to de-
velop below 40 degrees F. Pork, fish,
ground meat, and cut poultry keep
longer if packed in tough moisture-re-
sistant material.

Focus the Facts.

Mechanism of the eyes is much like
that of a camera, but Canada's public
health authorities remind us that there
is one important difference: whereas
camera lenses can be replaced, the
human eye cannot. They say — Don't
look at things too long, light objects
for long periods, and don't strain your
eyes. The eye is a delicate organ, and
it is important to keep it healthy. Ay-
n's eye drops are the best protection of the
eye.

cool in high-pressure, you place your-
self at a distinct disadvantage. That's
the verdict of Canadian health experts.
That's a serious reason for keeping well and
having yourself "well in hand."

Watch for Signs.
Which comes to dawning, a "stitch"
in the side often can save time, and
when it comes to health maintenance,
a check-up today may keep sickness
away.

Health experts remind Canadian
that sickness rarely comes unannounced. It gives fair warning, usually
with twinges and aches and minor
pains. When such signs are appar-
ent, they should be interpreted at
once by a medical expert, so that
prompt early action may be taken to
offset the troubles they indicate.

Adequate Light.
While it may be effective and suffi-
cient for some purposes, indirect light-
ing in the home is likely to be poor
for reading and study periods. Health
experts specializing in illumination
research declare that semi-direct read-
ing lamps, preferably of the floor
type, should supplement the normal
lighting of a room for any form of
close work.

Where there is a likelihood of sev-
eral members of a family simultane-
ously reading, sewing or engaging
in occupations requiring attention to
detail, floor or table lamps should be
available at their favourite chairs or
tables. The overhead globes won't
give all of them proper illumination
where it is most needed.

Safety at Play.
In view of the considerable num-
ber of accidents which occur around
homes, particularly where there are
young children, national health auth-
orities list a few precautions which,
if taken, may save much suffering
and loss of life.

Care should be taken, they say,
to provide protection at the head
of flights of stairs and at windows.
Play apparatus should be such that
the youngsters cannot hurt themselves
with, or on them, and inside the
house, the tacking down of loose car-
pets and rugs may avert nasty falls.

Food Functions.
Food supplies human beings with
fuel for heat and motion, material
for body building and repair, and sub-
stance for regulating body processes.
Nutrition authorities tell us that
food also has other special uses for
the human body. Edibles which sup-

The backbone of our industrial and
business life is the urge to make two
blades of grass grow where one grew
before. The two blades of grass, of
course, take many forms, and the urge
to produce them springs from many
and often composite reasons. It would
be almost too much to believe that
the hope of profit was the least of
them. It would be equally idle to
urge that it is the only, or even the
dominant, reason. Would anyone be-
lieve that Henry Ford, for instance, or
Westinghouse of the airplane, or
Hargreave of the spinning Jenny, or
Patton of the steam engine, or Morgan-
thau of the limousine, or the Wright
Brothers, who pioneered the air, or
any one of a thousand others, had
their eyes on possible profits, or would
have held back and done nothing had
the promise of profit been less? Take
away all profit and there would still
be men driving for achievement, and
finding some measure for it.

The widened horizon of business
and industry, the improved technical
processes that have broadened our
eyes beyond any measure, the expand-
ing labor market that has provided
for vastly expanding populations, and
the increased security of our future
all pay tribute to those growers of the
extra blade of grass.

If in the process some of them have
retained a token payment, on the ad-
vantages that have accrued to all,
it is a tangible witness to daring and
achievement that has meant benefit
to all and loss to none. We are not
saying, of course, that there are not
men who have taken too much for
themselves and yielded too little.
Such matters are under adjustment,
and probably always will be. The one
point we are interested in making is
that the generally accruing benefits
are the measure of the right to profit.
When all people benefit profits cease
to be a public charge.

Unfortunately the legitimate profit
maker is sometimes confused with the
illegitimate. The one makes a profit
out of a sincere and constructive ser-
vice, a service that recognizes that
if profits are to continue, not only
those who are engaged in the under-
taking or in its financing, but every-
one who comes within its orbit must
share in the benefits. The other
skims off a profit that he has done
nothing to create or deserve. These
latter will not make jobs, expand wealth,
or benefit people. They look for quick
and large profits, for these may not
be repeated. What ingenuity they
display is directed primarily to cir-
cumventing the law. They prey on
the selfishness or the impatience of a
segment of the public and they take
whatever the traffic will stand. You
see them clinging to the fringes of
industry trying to capitalize what bet-
ter men have tried to do for others.

We call it all profit, but we don't
wholly confuse ourselves. We know
when real benefit is given. It is given
by the automobile company that sells
an honest product at an honest price,
yet at an honest profit. It isn't given
by men who through deceit, secure a
car to which they are not entitled, and
to sell it for a fabulous price to some-
one who doesn't want to wait for turn.
When we speak of profits it is well to
consider what benefits precede them.
That is the way to keep values
straight.

These needs are called "protective
foods," and we all must have our
share of them if we are to keep
healthy and live well.

Miss Canada Pageant.
Mountains of mail are arriving in
the "Mountain City" from beautiful
girls across Canada as inquiries pour
in concerning the Miss Canada Page-
ant, set for August 21st and 22nd,
when the lucky "All Canadian" girl
chosen by a group of distinguished
Canadian and American judges, will
be crowned Miss Canada. In addi-
tion, she'll receive a \$1,000 scholarship
and be eligible to enter the great
Miss America pageant in Atlantic
City in September.

Letters are arriving from every
part of the Dominion. Stated S. Red-
cliffe Weaver, executive director of
the pageant which is sponsored by the
Hamilton Police Athletic Association,
"Our first entrant was pretty Miss
Marjorie Graham, crowned Miss Win-
nipeg last spring. If inquiries mean
anything, we should have at least 50
girls entered."

The idea of a scholarship has
"caught on" with lovely Canadian girls
who have aspirations for future ca-
reers in art, music, literature, jour-
nalism, medicine and other fields.
The winner also will have a chance
for \$25,000 in scholarships at the Miss
America show.

From Regina, Miss Thillie Fleming
is the first Prairie flower to enter.
As is the case in many beauty con-
tests, she has also won an all-expense
trip to Hamilton and, according to
word from Regina Police Association,
she may fly down.

Marjorie Hunter, another entrant, was
crowned Miss Central Ontario at the
Dundas Centennial Dominion Day
contest. She stated her \$250 prize as "Queen
of the Centennial" will help in her
third year at McMaster university.

From Peterborough, Radio Station
CHFX telegraphs that three or four
girls from that district will enter
the Miss Canada contest, while on
Wednesday, at Belleville, Mr. Weaver
will place the crown on the head of
a new Miss Eastern Ontario, highlight
of the city's Old Home Week.

Frozen Egg Law is Boon to
Industry.

With the introduction of grade-
standard for frozen eggs for export,
all poultry products are now under
grade regulations. Covered by the
regulations are frozen whole egg or
mixture, a staple commodity of the
baking trade; frozen egg yolk, used
in commercial preparations of salad
dressings; doughnut and ice cream
mixes; frozen egg whites, used by
bakers and confectioners for merin-
gues and candies.

The chief point in the regulations,
says the Current Review of Agricul-
tural Conditions in Canada, is that
which deals with the percentage of
solids present. To qualify as Grade
A, frozen whole egg must have been at
least 25.8 per cent solids; frozen egg
yolk 43 per cent, and frozen egg
whites, 11.5 per cent solids.

These regulations apply only to
frozen eggs exported, imported or
shipped between provinces. Until the
provinces, by their own legislation,
implement these regulations, grading
is not required for frozen eggs pro-
duced and sold within one province.

The new regulations make it pos-
sible for the egg-breaking plants in
Canada, of which there are approxi-

Wins Scholarship Award.

With an outstanding record as a student, Miss M. G. Carlson, honor graduate in business administration at the University of Western Ontario, has been awarded the J. William Horsey Scholarship, valued at \$3,000, or \$1,500 a year for the years 1947 and 1948, plus travelling expenses. The award is open to graduates in Business Administration, Commerce and Finance at any Canadian University. Announcement of the 1947 winner has been made by Dr. K. P. Neville, Dean of Western.

This is the second award of this fellowship which was established in 1945 by J. William Horsey, President of Dominion Stores Limited.

Miss Carlson attended school at Emo, Ontario, and Fort Frances High and Vocational School, taking her Junior and Senior Matriculation and winning many public speaking awards. As a student at Western, she was secretary and president of the debating society, editor of the Student Handbook, vice-president of the Players' Guild, chairman of the Women's Council and active in other capacities in which she showed marked organizational ability. As winner of the scholarship which was established in 1945 to promote research into food production costs, Miss Carlson will combine post graduate study at a Canadian or United States university with special investigation of every phase of food distribution. She is a resident of London, Ontario.

"Killer Candies."

National Health authorities warn: "Keep medicine where children cannot reach them!" Chocolate-coloured and sugar-coated pills and tablets attract the little ones because they look like "goodies." Such medicines, if not taken according to medical prescription, may be toxic and can be deadly to infants. Public health leaders remind Canadians that many fatalities have occurred because these "killer candies" were left about carelessly by parents.

Safe Breathing.

Holiday swimming and bathing can be made safer, and therefore more enjoyable, if common-sense rules are followed. For instance, authorities suggest that people should not bathe in too secluded spots, where if an accident occurred, there would be no one at hand to render aid. The medical people also say we should not bathe when over-tired, and, of course, not for at least an hour after a meal.

None are too wise to be mistaken, but few are so wisely just as to acknowledge and correct their mistakes, and especially the mistakes of prejudice.—Borrow.

Tecumseh Downs Belle River.

Gerry Gouin gave up five hits as Tecumseh shut out Belle River 2 to 0. He fanned 14 and walked only one man as he showed the form that he had when pitching for Maidstone Slammers.

He was very tough in the few spots he was threatened. In the ninth, with two out, Belle River loaded the bases. Gouin bore down on Parent to retire him on strikes.

Fabby Sawyer provided Gouin with the margin of victory in the second when he blasted a lusty homer over the scoreboard in left, with Moe Boon so-so, who hit three for three, on base.

Amherstburg is Beaten.

Leamington Barons continued to gain lost ground, stopping the Amherstburg crew 9 to 3, behind the eight hit pitching of Ashton.

Four unearned runs in the first inning gave the Barons enough to win the game. Hillier walked and went to second on Gresswell's ground out. He advanced to third on a wild pitch.

Jack Howe walked and stole second. Parker then walked to fill the bases. Suds grounded to G. Murray, who threw wild, Suds going to second and Hillier and Jack Howe scoring. Unrau then doubled to score Parker, who was on third, and Suds.

Harrow Tops Kingsville.

Harrow and Kingsville staged a 16 inning thriller at Harrow, Sunday, with the league-leading Harrow nine coming out on top, behind the six-hit pitching of Reese.

Though Harrow out-hit Kingsville 12 to 6, the game was very much of a mound duel, with Howe, of Kingsville, particularly tough with men on base.

Three of the five runs tallied were unearned.

Kingsville scored one run in the fifth on a hit and two errors. Harrow tied it up in the seventh on three hits and a boot.

In the top of the 10th, Kingsville tallied one run on a hit, a sacrifice, and an error. Harrow came right back in its half of that frame to tie it up on a hit, a sacrifice and a boot.

The game was won in the 16th. Webster led off with a single, Gord Wright singled, sending Webster to second, and when Sinasc struck out, they pulled a double steal. B. Wright was squeezed intentionally. Harrow tried a squeeze play. Graham, Kingsville catcher, interfered with the batter, and Webster came home.

Every boy in this vicinity between the ages of 16 and 25, is invited to attend this camp and permit the Cardinal scouts to appraise his ability. As evidenced by the experience of scores of boys all over the country who were signed to contracts on the basis of their performance in trial camps last year, attending such a camp is one of the quickest and surest ways to get started on a career in professional baseball for those who qualify. All boys should bring their own baseball shoes and gloves. Any player signed to a contract will be reimbursed for any expense incidental to attending the camp.

Drinking Milk.

National Health nutritionists suggest that children should be "encouraged" rather than "forced" to drink milk. If parents insist that the youngsters take the amount of health-giving milk they should have, an aversion will last a lifetime may be developed. "Just have lots of milk about," say the food-wise government people. "Let the children take their time about milk; they'll like it then, and it'll do them the most good. But, since milk is essential to their diet, serve it to them in soups, puddings, sauces, on cereals, with mashed potatoes, and with all the foods with which it mixes so well."

One should watch to know what his errors are; and if this watching destroys his peace in error, should one watch against such a result? He should not.—Mary Baker Eddy.

Current political interest in the capital seems to this observer to be:

1. An anxious eye on European developments with a keen realization of how they affect Canada.
2. Observation of the issues and policies submitted by the three political parties in the Halifax by-election, and 3. The points, and their significance, of Canada's defence policy outlined in the House of Commons last week by Defence Minister Hon. Brooke Claxton.

The Case of Russia.

There is little new or unexpected in the arguments on the reaction of Europe to the "Marshall" plan to rebuild the devastated areas and to bring new hope to that continent's depressed millions. What is noticeable is that Russia is losing even her most blindly devoted and persistent advocates. Practically no one except avowed Communists

Watch for the date of the Woodlee column, on Sunday last, when they defeated Woodlee Juniors by a score of 13 to 12. It was a wild hitting contest, with Loebach allowing the Woodlee batters 15 hits, while the Essex players nipped Diemer for nine. The pitchers received very poor support in the field.

Base Bellemore had a perfect day at bat, getting five for five. A. Fair and Barry each got three for Woodlee. Bob Gray made three nice catches in left to star in the field.

Holstein Breeders Meet.

Several hundred Holstein breeders met Monday night at the farm of F. H. Anderson, Belle River, a meeting sponsored by the Essex County Holstein Association.

The program included a type demonstration by J. E. Terry, fieldman for Western Ontario, followed by the judging competition for calf club members and one for all others present.

F. H. Anderson, proprietor of St. Clair Farm, welcomed those present. The first speaker, Prof. J. C. Good, president of the Holstein-Friesian Association, was introduced by M. C. Leffer, of Kingsville, past president of the Essex County Holstein Breeders' Association.

Mr. Steckley spoke on "Soil Conservation and Agriculture." He reviewed the program of agriculture in Ontario during World War I and II, when crops were grown with the thought of soil conservation — not to keep the good in soil that had been taken out of the crops.

Asks Soil Conservation.

He claimed that the farms of Western Ontario are not producing as much as they could if a program of soil conservation was undertaken. He explained that the two basic components of soil are disintegrated stone and decayed vegetable matter. When corn and other cultivated crops are grown, the organic matter in the soil is burned up, thus much of the needling power of the soil is lost.

Reliable Crops.

To many persons soil conservation means methods of flood control, to others it is drainage systems and reforestation. The most reliable crops for soil conservation are grasses. Such crops are also very important in the raising of cattle, too. However, Mr. Steckley pointed out, farmers in this area do not value grass as a crop, but cattle can utilize such a crop as grass, when soil is laying.

Others present at the meeting were Angus McCloskey, agricultural representative of Essex County; N. R. Matin, director and member of the Dominion Extension Committee, Holstein-Friesian Association, Fairlea Farms, St. Thomas, and George C. Bell, director and member of the Dominion Extension Committee, Holstein-Friesian Association, Sarnia.

Essex Juniors Win.

Corn and Soy Bean Ceilings May Vanish Soon.

Favourable consideration is being given by the Wartime Prices and Trade Board to a request by corn growers of Western Ontario for either an increased price or complete removal of the price ceilings from corn and soy beans. It is reported by the Windsor Daily Star.

Meets Grisdale.

Last week a delegation representing the Essex-Kent Corn Growers' Association, and the Federation of Agriculture met with F. S. Grisdale of the board.

The deputation consisted of R. Forbes, Ruscomb, president of the Essex-Kent Corn Growers; Darrel Jubenville, of Tilbury, vice-president; C. Arner, Tilbury, of the same organization; E. Campbell, of Wallaceburg, of the Federation of Agriculture; and A. D. Wilson, of Chatham, director of the Ontario Milk Board, and of the Cream Producers' Association.

They were accompanied by Hon. Paul Martin, minister of health and welfare, and member for Essex East; Murray Clark, Liberal member for Essex South, and Robert McCubbin, Liberal, Middlesex West.

This meeting was termed "very successful," with the board giving "favourable consideration" to the requests, and the group expecting "favourable action" as a result.

Ask Corn Floor.

The group then met with Gordon Taggart, chairman of the agricultural prices support board, relative to placing a floor under corn prices. If such action should become necessary, it is not an immediate issue, however.

The delegation was assured that action would be taken if or when it should seem necessary.

In connection with this discussion, mention was made of the survey being launched into the economics of agriculture in Southwestern Ontario, to discover the best methods of production, the costs of production, marketing and other kindred subjects. This information will be of value if any action is required to support corn prices.

The third conference of the day was with C. D. Hamilton, of the board of grain commissioners, relative to grading. The board conducts grading in the area, but it is voluntary on the part of growers, the only situation all across Canada where such "voluntary grading" is done by the board.

Arrangements were made for a meeting in the corn belt of Ontario, of the board, of the growers, and of the corn trade.

Mosses, Martin, Clark and McCubbin were in at all the conferences, and the delegation concluded its business with the feeling that their discussions had been productive in respect to each subject discussed.

is with the surface black between these
ridges with small white dots on the
black surface.

This weed is very troublesome in
pastures and in hay fields and is found
in every part of Ontario. Being very
vicious and persistent, it soon chokes
out grasses and clovers. It is a serious
impurity in timothy seed, and it is
practically impossible to separate
Daisy seed from timothy seed, also
from alsike seed. Fields that are kept
for seed must be rogued before har-
vesting. Hand pulling when the in-
festations is not too serious has be-
come a recognized practice. Fields
too heavily infested should not be kept
for seed purposes. A single plant of
Daisy will produce from 5,000 to 8,000
seeds.

Recommendations for the eradica-
tion of this troublesome weed include
the use of clean seed, shallow plowing
with frequent, thorough cultivation,
short rotations, the use of a well cul-
tivated hoe crop, early cutting of
fields before there is any danger of
seed setting. Sheep on rough pas-
ture land will keep Daisy in check,
and finally where land cannot be cul-
tivated, the use of chemicals is re-
commended.

ETTES

FRIDAY, JULY 25, 1947.

Honoured by A. I. C.

J. S. McGowan, director of education and agriculture, Canadian National Railways, who has been elected a fellow of the Agricultural Institute of Canada at the recent annual meeting of that organization at Lethbridge, Alta. The honour was given to Mr. McGowan "in recognition of his outstanding contribution in the fields of agricultural development and home holding in the rural areas."

The Horse Responds to Good Treatment.

There are similarities between horse and tractor power. Both need a thorough overhauling in preparation for heavy work in the spring, and both need a gradual breaking in to heavy work, says J. G. Stothard, Division of Animal Husbandry, Central Experimental Farm, Ottawa.

With the horse it is its general condition, feet, possibly teeth, and harness, that will need attention. It is possible on the general farm to keep the horses in good condition on regular work during the winter, but when horses are not worked, some thought should be given to getting them ready for the heavy work in spring. About two weeks to a month before heavy work starts the feed should be increased. It should be increased gradually to put on some extra flesh as well as tone the horse up generally.

While the horse is regarded as a dumb animal actually it is not dumb at all. It responds tremendously to care and consideration. It should be handled and groomed regularly. Much of the winter coat can be removed by constant grooming and if this is done sweating too much when heavy work starts will be avoided. To improve the pulling power and often avoid later lameness the horse's feet should be trimmed. If a horse does not put on weight with good feed and light work it is possible that its teeth are not right. If this is so the teeth should be filed so that the horse will get the best advantages from the feed.

In addition to overhauling the harness by washing, mending, and oiling it is important that harness be properly fitted. Nothing hinders the best performance of a horse more than an ill-fitting collar. It should be neither too big nor too small, but such that will allow an even distribution of the pull on the shoulders. For the first few days of heavy work the condition of the shoulders should be watched carefully and the face of the collar should be kept clean to avoid grinding dirt into the shoulders. Loss of time through breaks and injury to the horse can often be avoided by the proper care and fitting of the harness.

No Other Power.

"What is man, that thou art mind-
ful of him?" the Psalmist apostrophizes
Deity (Psalms 8). "Thou madest
him to have dominion over the works
of thy hands; thou hast put all things
under his feet."

In Christian Science, the treatment
of disease is based on the promise
present, and ever available. This
Science insists that there is no other
power or presence, no other cause
or creator. Man, God's likeness or
reflection, reflects the spiritual per-
fection of his Maker.

What, then, is disease? And how
is it healed? Disease has its source
in this mortal belief in a power other
than God. Christian Science treats
disease as a something physical to
be cured or changed, but as a be-
lief or illusion, which the understand-
ing of God and of God's goodness de-
stroys. Mary Baker Eddy writes on
page 117 of "Science and Health with
Key to the Scriptures" regarding treat-
ment: "Mortals, the facts of Chris-
tian Science—that Spirit of God
and therefore cannot be sick; that
what is termed matter cannot be sick
that all comes from the mind, acting
through spiritual law. Then hold your
ground with a mistaken understanding
of Truth and Love, and you will win."
There is nothing half way or inde-
cisive about Christian Science healing.
God is All, not some of the time, but
always; and God is always good; God
is all good all of the time, now, and
for ever. "I am the first and I am the
last, and I have no end, there is no God,"
says the Bible (Isaiah 44:6).

God is the mind of man. God's law
controls man. Plato's question
"What is truth?" was answered a
thousand years before he asked it.
The Psalmist knew it when he said
of God (Psalms 119:142). "Thy right-
eousness is an everlasting righteousness,
and thy law is the truth."

God's law is the truth. It governs
man completely, continuously, and har-
moniously. It is universal, irresistible,
ever-present, ever-operative, and eter-
nally good. This is the all-conquering
spiritual law of Christian Science heal-
ing.—Christian Science Monitor.

Cash Awards to Members.

Cash awards to outstanding mem-
bers of Chatham Vocational School
farm courses will be made each year
by the Canada and Dominion Sugar
Company, according to an announce-
ment made here this week.

F. E. Johnston, principal of the C.
V. S., stated that the prizes will be
given to those achieving "pass" stand-
ing in their school work and showing
best results in the handling of summer
holiday projects. He pointed out that
top marks in classroom studies would
be considered in selecting the winners,
but that actual work accomplished on
the farm during the summer recess
would be the deciding factor in allo-
cating the prizes.

Awards of \$12.50 and \$5 will be
given to students in each class. The
summer projects to be carried out are
varied, and are an established feature
of the agricultural instruction.

The Canada and Dominion Sugar
Company prizes are the first of their
kind to be given to the Vocational
School Agricultural Department since
the classes were organized a year ago.
It is expected that the awards will be
an added incentive to the young farm-
ers receiving this unique and valuable
instruction.

Presentation of prizes to the first
winners will be made late this fall at
the school's annual commencement
exercises. In the 1947-48 school year,
three prizes will be offered to each of
the two classes under instruction.

How to Get 25% More Asparagus.

Practical experiments have found
that over-cutting asparagus quickly
reduces yields. While the fertility
of the soil and general cultural prac-
tices are important in obtaining high
yields of asparagus, the length of the
cutting season must be taken into con-
sideration. A 10-year experiment at
the Dominion Experimental Farm,
Agassiz, B.C., has shown that 25 per
cent more asparagus can be obtained
if the cutting period is stopped after
eight weeks rather than allowed to
continue for 12 weeks. During the
first three years plants will yield more
if they are cut for 12 weeks but, after
that, excessive cutting weakens the
plants enormously. In the 10 years
of the experiment the plots cut for
eight weeks averaged 6050 pounds per
acre while those cut for 12 weeks pro-
duced only an average of 5,000 pounds
per acre per year. In the final five
years of the experiment, the eight-
week plots produced 10,145 pounds per
acre more than the 12-week plots—
over five tons in five years.

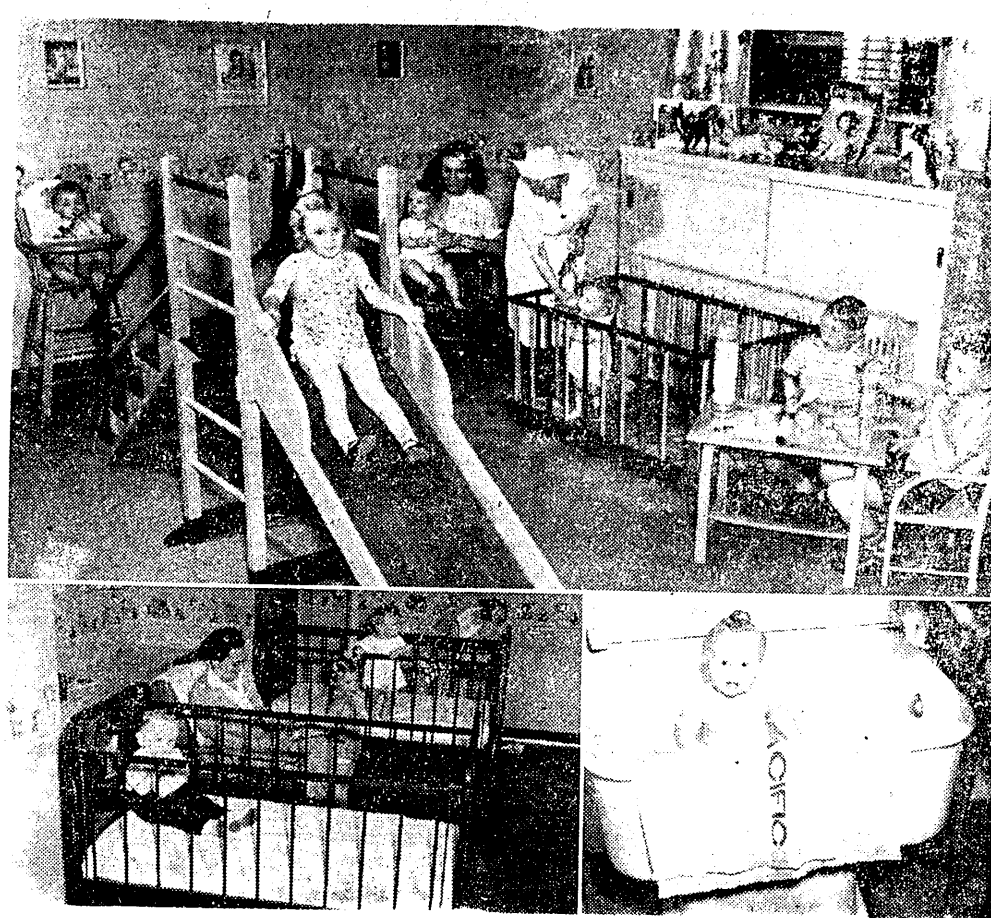

The larger amounts from those plots
cut for only eight weeks were produced
early in the season but as the season
progressed the 12-week plots produced
smaller stalks.

It has been found that young beds
can be quickly spoiled by cutting the
second year after seeding. If one-
year-old plants are set out, a light cut-
ting of about four weeks' duration
may be taken off during the second
year although it is possibly better to
wait until the third year when the beds
may then be cut for eight weeks. If
this procedure is followed and ample
quantities of manure and fertilizer
are used, high production over many
years may be expected.

THE ESSEX FREE PRESS, ESSEX, ONTARIO.

FOR YOUNG TRAVELLERS.

A wait between trains in a strange
city with a couple of children in tow
is a prospect grim enough to appal
the most competent young mother,
but from now on the new three-room
lounge in the Canadian Pacific Rail-
way's Station in Montreal will give
both parents and youngsters a chance
to rest, relax and refresh up before
continuing their journey. The new
lounge is in charge of a trained nurse,
her 14-month-old boy. A lot of
bathrooms and sterilizers are a big
aid for preparing milk and formulae,
and the lounge is all decorated with
pictures and "transfers" of animals
and children. Miss Ethel Alexander,
R.N., the matron-in-charge, who can
be seen in the upper picture, keeps an
eye on the children while mothers ex-
amine errands in the station, or sit
about tickets or having a meal.

Need Every Lamb Possible This Year.

With the alarming reduction in the
number of sheep in Canada and in
other countries, too, combined with
a meat-hungry world, it is obvious that
every lamb born in 1947 has a high
potential value. During springtime
the sheep-fold should be a place of
special interest.

Growth and development of lambs
like other animals depends largely
upon nutrition. This begins with na-
ture's provision of milk. Every good
Shepherd provides the type of feed
best suited for the building up of the
body of the mother sheep previous to
lambing time so that she may be able
to supply an abundance of milk with-
out which no lamb will receive a prop-
er start in life.

With the approach of lambing small
portable pens should be prepared.
They may be made out of hurdles four
to five feet in length and two and one-
half feet in height. Such pens are
useful in holding the ewe and her off-
spring together until the lambs are
sufficiently strong to follow their mo-
ther in the open pen or yard. Pens
of this type are most useful in hold-
ing young ewes or ewes which for
some reason or another care to dis-
cuss their young at time of birth.

Lambs born in early spring, or previ-
ous to pasture time, should be provid-
ed with what is known as a lamb
creep, a separate pen from the ewes,
made with a slatted front similar to a
picket fence but with slats sufficiently
for enough apart to permit the lambs
to pass through but close enough to
prohibit the mother sheep from enter-
ing. Such pens may be placed in the
pasture also and they provide a place
where a special concentrate, such as
whole oats three parts, wheat bran
one part, and oil cake of one part,
and oil cake preferably pea size, one-
half of one part. When the lambs
have reached the age of two months,
one part of cracked corn may be ad-
ded to the mixture.

At ten days of age, the removal of
tails and the unsexing of male lambs
intended for market should be attend-
ed to do. So that the best returns may
be obtained from the market flock, no
ram lamb should be tolerated. The
operation is simple and may be con-
ducted by use of the Burdizzo instru-
ment. Promotion of rapid growth in
lambs may be facilitated by keeping
them free of external parasites. This
may be done by dipping, with use of
any of the standard dips. Lambs can
prove a profitable source of farm in-
come providing they are given proper
care and management. Canada needs
more lambs of high quality and fin-
ish.

Family Feeding.

To assist housewives with the prob-
lem of serving meals which are not
only intriguing to all members of the
family, but which supply the elements
in healthful food elements, a booklet
"Let's Talk Food, Mother" has been
issued by health authorities. Copies
of the booklet may be had free, on
application to provincial health depart-
ments, or to the Nutrition Division,
Department of National Health and
Welfare, Ottawa.

Life and goodness are immortal. Let
us then shape our views of existence
into loveliness, freshness, and con-
tinuity, rather than into age and
blight.—Mary Baker Eddy.

To Keep Garden Free From Slugs.

Slugs are the grey, snail-like crea-
tures which rasp the leaves of tender
vegetables, leaving a shiny trail on
the foliage and on the soil beneath
the plants. They shun daylight and
thrive only where there is an abun-
dant supply of moisture, being most trou-
blesome in damp shady places, and in low lying
areas of heavy loam. Slugs will eat
on almost any vegetable, but are par-
ticularly fond of lettuce, cabbages, and
broccoli. They are also fond of eating
the leaves of ornamental plants, such as
petunias, geraniums, and fuchsias. They
are also fond of eating the leaves of
potatoes, and the tubers of potatoes.
They are also fond of eating the leaves
of beans, and the pods of beans. They

SOUTH WOODSLEE

Plan now to attend Woodslee R. C. Church picnic, on Saturday, August 9th, afternoon and evening.

The Woodslee Memorial Association will hold their annual field day on Labor Day.

Mrs. Member of Rochester Township, is a patient in Hotel Dieu.

Charles Pfahler, who has been hospitalized for some weeks, is improving, and will be able to be brought home next week.

Joseph Monseau, who underwent a major operation some weeks ago, is home.

The local Scout Troop, with their leader, Rev. Chavers, are vacationing at Point Pelee this week.

Almer Rice, of Chatham, spent Sunday with his brother Clifford.

Mrs. R. Ross and children left for their home at Port Dalhousie on Saturday. Mrs. Miller accompanied them and will remain for a few days.

The Leafs, on Sunday, went down to defeat by the score of 2 to 0, to the league leading Harrow team. The game was well played and where Reese outpitched Rettig, allowing the local team only three hits, with no Essex player reaching third base, the game was only won in the 9th and then on hits, well hit balls, but drives that Lawrence Loebach just failed by a step, getting for outs.

Rettig was extremely wild all through the game, and was in trouble nearly every inning, due to his own wildness.

First Inning.

Harrow—Hendershot lined to M. Miller; Chase walked and stole second; Butler struck out; A. Miller took care of Bob Wright unassisted.—0 run, 0 hit, 0 error.

Essex—Queen doubled to left; Brown lined to right; A. Miller and Brackell were both thrown out by Reese.—0 run, 1 hit, 0 error.

Second Inning.

Harrow—Reese walked and moved up to second on a wild pitch; McKenzic struck out; W. Wright went out on a long foul to Loebach in left; Clark singled to short right; Reese stopping at third; Brown threw out Cornwall.—0 run, 1 hit, 0 error.

Essex—Parent filed high to left; Loebach grounded out, short to first, and M. Miller was out, third to first.—0 run, 0 hit, 0 error.

Third Inning.

Harrow—Hendershot was thrown out by Queen; Chase also went out, short to first; Art Miller making a nice pickup of a throw into the dirt; Butler was hit by a pitched ball; Butler struck out; W. Wright went out; Loebach, if, 2 to 1, 0 to 0.

Essex—Parent filed high to left; Loebach grounded out, short to first, and M. Miller was out, third to first.—0 run, 0 hit, 0 error.

Fourth Inning.

Harrow—Brown threw out McKenzic; W. Wright doubled to right center; Clark struck out; Cornwall was thrown out by Brackell.—0 run, 1 hit, 0 error.

Essex—Reese threw out A. Miller; Brackell grounded out, second to first; Parent filed high to left.—0 run, 0 hit, 0 error.

Fifth Inning.

Harrow—Hendershot lined to Queen at short; Chase was thrown out by Queen; Butler singled to center and then stole second, but Bob Wright was thrown out by Brown.—0 run, 1 hit, 0 error.

Essex—Loebach grounded out, short to first; A. Miller and I. Ross struck out.—0 run, 0 hit, 0 error.

Sixth Inning.

Harrow—Reese grounded out to A. Miller; Chase was thrown out by McKenzic; W. Wright singled to short; Reese second; Clark struck out.—0 run, 1 hit, 0 error.

Essex—Rettig popped to second; Hendershot threw out Queen; Brown singled to right and took second when McKenzic hit a ball out through first; A. Miller was thrown out by W. Wright.—0 run, 1 hit, 0 error.

Seventh Inning.

Harrow—Cornwall thrown out first to the plate and was thrown out by I. Ross; Rettig threw out Hendershot; Chase looped a single to right and scored up to second on a wild pitch; Butler hit in front of the plate, the batter fouled the ball hit the batter on the foot and he was automatically out.—0 run, 1 hit, 0 error.

Essex—Brackell grounded out, third to first; Parent and Loebach were both thrown out, short to first.—0 run, 0 hit, 0 error.

Eighth Inning.

Harrow—B. Wright popped to Brackell; Reese was hit by a pitched ball; Webster, batting for McKenzic, singled to center; Reese moving over to third; W. Wright popped to Queen.

and Clark was called out on strikes.—0 run, 1 hit, 0 error.

Essex—M. Miller struck out; Reese threw out I. Ross; Clark took Rettig's high fly.—0 run, 0 hit, 0 error.

Ninth Inning.

Harrow—Queen threw out Cornwall; Hendershot lined a double to left center; Loebach making a fine try; with two strikes, Chase at bat, Hendershot moved over to third on a wild pitch; Chase, then, in spite of having two strikes on him, squeezed Hendershot home on a perfect bunt, which he beat out; Butler filed out to center; Bob Wright lined a double to left center; Loebach again being about a step from making the catch, Chase scoring on the hit; Reese struck out.—2 runs, 2 hits, 0 error.

Essex—Queen filed high to Butler in center; Brown was thrown out on a ground ball to Clark, and A. Miller filed to left to end the game.—0 run, 0 hit, 0 error.

MAIDSTONE CROSS

Watch for the date of the Woodslee R. C. annual picnic.

Mr. and Mrs. Orville Ellis and son, Kenning, of Detroit, spent the week-end with Mr. and Mrs. Thomas Little.

Mr. and Mrs. Raymond Goyvan and family, of Windsor, spent the week-end with Mrs. Goyvan's mother, Mrs. Mary Deam.

St. Mary's parishioners, welcome their newly appointed pastor, Rev. Fr. Henry Chisholm, and his sister, Miss Mary Chisholm, R.N., and wish them happiness and good health.

Sister Mary Adeline, of Chatham, is vacationing at the convent and visiting with her mother, Mrs. Ada McAniff, and brothers.

Departure services will be held at 7:30 p.m., on Sunday, in St. Mary's Church, for Rev. Fr. Timothy (Edmond) Kavanagh, of the Confucian Order, who leaves shortly for missions on Guam. Rev. Fr. Burke will be guest speaker.

Mrs. Ben Koskowsky asked her neighbours ladies in for 4 o'clock tea on Thursday afternoon, to meet her friend, Miss Margaret Flory, of Saskatchewan, who was visiting her.

Sylvester McGuire entertained at a mixed shower on Tuesday evening, at Lappan's, for his future daughter-in-law, Miss Helen McCarthy, of Rosebank, and his son, Clifford, whose wedding will take place at Precious Blood Church, Windsor, on July 25th.

Thomas Brown was pleasantly surprised, on Sunday, when his family all came home on the occasion of his 75th birthday. "Spin" Brown and Mr. and Mrs. Roy Holstein gave him the party at the home of his daughter and son-in-law, Mr. and Mrs. Frank Kane.

Mr. Brown received many lovely gifts and after the family and a few neighbours and friends all sang "Happy Birthday." A delicious buffet supper was enjoyed. His many friends wish him continued good health and many more happy birthdays.

At McPharlin's many friends here wish him "bon voyage" and an enjoyable trip when he sails from New York next week on the Mauretania for England and Europe.

Ed. C. Sexton is convalescing at his home from head and eye injuries and a broken right wrist when he was hit, last Wednesday evening, by a car, at Tecumseh and Ouellette avenue, in Windsor.

Paul Holstein and friend, Bill Gunder, Mr. and Mrs. Roy Holstein, and Mr. and Mrs. Earl Mallett, all of Detroit, spent the week-end with Thomas Brown.

Paul Sexton spent a couple of days in Toronto last week.

The many friends of Mrs. Alex Allen will be sorry to learn she met with an accident, while staying with her daughter, Dora, at Port Elgin, Ont., and injured her right arm, which required several stitches.

Plan now to attend Woodslee R. C. Church picnic, on Saturday, August 9th, afternoon and evening.

To avoid discoloring sinks and basins when a tap is dripping, drape a cloth from the faucet to the drain until the washer can be replaced.

DELIVERED PRICES

OF

GENERAL MOTORS CARS

FROM time to time, as a matter of public information, we have published the Retail Delivered Prices of General Motors Automobiles.

In accordance with this practice and to eliminate any uncertainties or confusion, we are again publishing the present Retail Delivered Prices. These prices include Standard Factory Equipment, Dominion Taxes and spare tire. Provincial and Municipal Taxes where such apply, license fee, and optional equipment are, of course, additional.

We sell these makes and models at the prices shown. You may rest assured, we will distribute them as fairly as possible with proper regard for orders placed with us and dependent upon the availability of models.

Should you be offered, from some other source, a new car, or one with low mileage, we suggest that you pay no more than the prices listed. You will obviously

find it to your advantage to wait a little longer, until we are in a position to deliver a car against your own order.

We are sorry to say that delivery to you may be delayed for some time yet. This is due, in particular, to the shortage of many materials. General Motors has done a splendid production job under the circumstances and expects to steadily increase the rate of production. Meanwhile, these conditions, combined with the wide popularity of General Motors cars, and such an unprecedented demand, mean that delay in some instances is quite inescapable. We entreat your patience and understanding while the shortage exists.

We realize that our success depends upon the confidence and goodwill of our many customers. We will strive at all times, through good business practices, to justify, and therefore retain, this most valuable asset.

Bellevue Veterans' Home is Opened.

First patients for Bellevue Veterans' Home came to Amherstburg from Westminster Hospital, London, on Monday. The patients were brought by bus and had their first meal in their new quarters at noon.

The new Veterans' Home is the former home, King's Highway No. 18, in Malden, a short distance from the southern limits of the Town of Amherstburg. Some months ago it was purchased by the government and converted into a home for disabled soldiers. Adjoining the home are seven acres of land, mostly in gardens. The home commands a fine view over the lower Detroit River and it was because of this view that the builder, Colonel Robert Reynolds, gave it the name of Bellevue. The home is one of the few examples of early Georgian architecture on the continent. It was constructed early in the 1800's when Colonel Reynolds was stationed at Fort Malden.

As yet the date for the formal opening of the House has not been set but Colonel Harris states it would take place later in the summer.

G. A. Greig, formerly of Westminster Hospital, has been named as manager of the new Home. He came to Amherstburg several weeks ago and took up his new duties there.

Considerable changes have been made to the building.

THE SIGN OF A WELL-WIRED HOME

LITTLE HOMES NEED

THE RED SEAL

STANDARD OF WIRING

AS MUCH AS BIG ONES

Electric Ranges, Water Heaters, Grates and the large array of appliances in common use are as much required in small homes as in large ones. Good lighting, which depends on the number of outlets, is necessary in all homes.

The small home requires ample wiring—the smaller the floor area the greater the usefulness of labor-saving electrical equipment. The Red Seal Standard gives small homes all necessary wiring provision for electrical living; in no way is it excessive for small homes.

Getting Tanned.

"Absorb the sun's rays, but don't
overdo it," warns the Department of
National Health and Welfare, in ad-
vice to those getting a sun-tan this
year. The department reminds bask-
ers that the sun should be treated
with the respect which is his due. A
tan may look well, but a burn can be
painful, and even serious. Gradual
tanning is advised.

Healthful Diet.

Pointing out that nutrition is a sci-
ence with daily application to every-
one, the Department of National
Health and Welfare suggests that wise
people will learn all they can about
the proper food and food combinations.
Only by careful study of nutrition, the
department points out, can one be
sure of the best results in money
and health. The study of nutrition is
not a new science, but a very old one.

CHANGES IN 1947 LINE OF MONARCHS.

Avoiding any interruption in the flow of new vehicles to waiting customers, Ford Motor Company of Canada Limited has incorporated a number of exciting changes in its 1947 line of Monarch passenger cars, now in production at Windsor. In addition to a new range of exterior colors, which include two metallics, Blue-Grey and polished metal parts. In pleasing contrast is the new interior color scheme, an instrument panel and door panels in a rich, plain cloth neatly embossed. Especially appealing to the feminine eye are the new bolstered seat coverings of custom-woven, striped broadcloth.

Believe Home-makers! You probably
have one member in your family who
likes to bake. He is not far wrong,
either, if you use the following
recipe and take enough cream from
the top of the milk bottle to whip and
place on the dessert just before serv-
ing. The sure to add to the cream in-
gredients: 1/2 cup brown sugar, a pinch
of salt. (You will likely have to ex-
plain to the family that the speck of
salt is not out but they will
forget about this when they taste it.)

These Large Profits.

A pet story for politicians these days
is that the reason that prices are high
is that capital is making too large
profits. Considering that profits, at
any time, and in any circumstances,
represent a very small fraction of the
cost of goods, it would seem that there
must be something more than profits
keeping prices up.

An illuminating case is that of Housing
Enterprises. This undertaking,
set up by the insurance companies at
the request of the Dominion Govern-
ment, was intended to provide apart-
ments for young married veterans, at
something about \$45 a month. Now,
they announce that, after raising ren-
tals to between \$60 and \$80 a month,
they are still unable to build apart-
ments, so they have announced that
they will build no more, unless costs
go down.

For once, no one can dig up the
profit story in this case. The plan is
one by which a large corporation was
formed, with the Government putting
up 30 per cent of the capital, at 3 per
cent interest, and the insurance com-
panies putting up the other 70 per
cent, on which they were guaranteed
a minimum rate of 2 1/2 per cent, but
were not permitted to make a maxi-
mum profit of more than 5 per cent.

Figure it out. The total return to
capital in this undertaking could only
be a small fraction more than 3 per
cent, little more than the Government
pays on its borrowings. If there were
no return on capital, the apartments
could not be built. The plan is one

Dipping Sheep Helps Keep Them Healthy.
Farmers who raise sheep know that
sheep kept free from ticks and lice
are in better health, are more easily
kept in good condition, eat less, and
grow more wool, all of which means
more profit.
Sheep owners also know that
sheep should be dipped at least once
a year — preferably as soon as possi-
ble after shearing, but many owners
give their flocks a second dipping in
the fall in September or October to
ensure the comfort and the health of
the sheep during the winter.

Where a community dipping tank is
not convenient for small flocks in dis-
trict, an elaborate dipping plant. A
large barrel or trough large enough
to hold sufficient dip to immerse a
sheep will answer the purpose. A
small draining platform can easily
be built so that the dipped sheep may
stand until the dip has drained off.
Most standard dips will produce
effective results, provided the direc-
tions of the manufacturers are care-
fully followed. Dips are sold in two
forms — powder and liquid. The pow-
der form requires a little longer to
prepare and more caution and exacti-
tude in the preparation of the bath.

FRIDAY, JULY 25, 1947.

Belle River Beats Tecumseh.

Bert Lacasse threw his three big pitchers into the battle but was unable to stop Belle River who went good with Joe Penner on the hill. Each team made ten hits and the issue was in doubt until the very end with the winning run coming across the plate in the last half of the ninth inning.

Penner besides pitching masterful ball, won his own game with a single in the last inning, to score Durocher from third base. The contest featured some great fielding on the part of both clubs with Belle River turning in one snappy double play to get Penner out of trouble in the fourth inning.

BACK ON "CIVVIE STREET."

A veteran of nearly five years of service, the Canadian National Steamship son, are the only survivors of that famous "Lady" fleet; the Lady Drake, Lady Hawkins, and Lady Somers being destroyed by enemy action. The Lady Nelson soon will return to her peaceful calling in the sea lanes of the British West Indies route.

Early last December, the Lady Rodney was berthed with the St. John Drydock Company where she was completely overhauled, all accommodation decks being stripped for the replacement of steel deck plating. Following the original plan of the vessel, the cabins and public rooms were rebuilt. The deluxe cabins are shown above, top left, have been painted in pastel shades of blue and rose and refurnished with modern beds, dressing tables and bathrooms. The garden lounge, top right, located on "B" deck aft, is refreshingly informal in light color scheme and ruffian furniture. Below, the famous Lady Rodney, resplendent in a new white dress, restored to her former yachtlike trim.

Tilbury Beats Amherstburg.

The game between Tilbury and Amherstburg was a battle for the league cellar and Tilbury won out on the strength of a flying start. The home-lads scored one run in the first inning and three in the second to take a commanding lead, and they were never headed. Boussey pitched beautiful relief ball for the 'Burg, shutting out Tilbury over the last five innings.

St. Louis Cardinals to Scout Hamilton Stadium.

The world's champion St. Louis Cardinals will dispatch three of their scouts to Hamilton to conduct a try-out camp for aspiring young ball players at Civic Stadium, Thursday, Friday and Saturday, August 7, 8, 9.

Many baseball-minded youths harbor the secret ambition to become professional baseball players, but don't know how to go about it. Of course, they must have the necessary qualifications, and the first thing for boys to do who have these qualifications is to attend a baseball try-out camp, where they will have the opportunity to demonstrate their abilities before experienced baseball men associated with major league baseball clubs.

The St. Louis Cardinal organization will hold over 50 such camps this summer, with an anticipated attendance of nearly 5,000 boys. Of this vast number, if past records are paralleled, 70% of the players signed will be successful in professional baseball.

An opportunity to enter the ranks of professional baseball will be offered qualified players attending the Hamilton camp.

Try-out will begin at 10 o'clock each morning and continue throughout the day. "Pop" Keicher, Joe Cusick and Bennie Borgmann, veteran Red Bird scouts, will be in charge of the camp and put the players through their paces in this three-day event.

India is Canada's third best customer.

THE NATION'S BUSINESS

by ottawa observer

Satisfaction was evident in government circles in Ottawa at the expression of the electorate in Halifax, for it presents the third successive Liberal election victory and it is generally accepted by impartial observers that it reflects the preference of the average person for a party with a forward-looking program that avoids extreme positions.

The Conservative Failure.

The most significant feature of the by-election was the poor results obtained by the Conservative candidate. Returns from 55 out of 250 polls gave the following votes: Liberals 27,587; C.P.P. 15,821; Progressive Conservative 13,522. Observers are generally agreed that lack of any real issues on which to attack the government was the chief cause of the P.C. failure, expressed in terms of a loss of nearly 6,000 supporters. Besides, Nova Scotia Conservatives have no provincial leader; they hold no seats in the legislature. Their condition reflects the general deterioration evident in their party.

The considerable increase in the C.C.P. vote is largely attributed by most observers to the ability of that party to get more of its supporters to the polls than the other two, a phenomenon sometimes observed in new political groups. The aversion of many voters to centralization together with the current ominous trends in socialist Britain are generally agreed to have precluded a C.C.P. chance of victory.

Government Upheld.

The victory of John Dickey, Liberal standard bearer, with a favourable margin of over 8,000 votes, indicates continued popular approval of government policies. While local issues play a substantial part in all by-elections, the Liberal campaign was strongly based on the government's record wartime anti-inflation measures, social security legislation and expanded foreign trade, and the benefits these have entailed for the Maritimes.

Total vote in the last six by-elections is as follows (final Halifax returns may change these figures slightly): Liberals, 67,793; Conservatives, 35,901; C.C.P., 27,107; Social Credit, 17,556; Independent, 8,504; I.P.P., 7,151.

A Difference in Outlook.

Decentralized industry has been strongly advocated as a means of bringing greater prosperity to the Maritimes and counterbalancing the effects of industrial concentration in other regions of Canada. A significant difference appeared in party attitudes to this question during the Halifax by-election. While Conservatives and C.C.P.'ers talked in terms of redistributing industry, Liberals emphasized rather the need for creating conditions and opportunities for new enterprises.

Signs of the Times.

Dun and Bradstreet have issued a chart surveying volume and trends in business and industry during the period 1915-1946, which includes the periods immediately after both world wars. National income was \$4,588 millions in 1920, \$9,212 millions in 1946. In 1923 retail sales totaled only \$2,179 millions, but in 1946 they totalled \$5,236 millions. The wholesale price index stood at 155.9 in 1920, and at 108.6 in 1946 (1926 = 100). The failure rate among business concerns was 73 per 10,000 in 1920, 7 per 10,000 in 1946. These figures reveal a much brighter picture now than in the years immediately following World War 1 when runaway inflation (indicated by wholesale price index) played havoc with business.

Left-wingers who stubbornly talk in terms of depression show a lack of realism and only further the communistic plan of destroying confidence in free enterprise by bringing about depressions in the U. S. and Canada. Observers believe this strategy is at the bottom of Russia's refusal to co-operate in the Marshall plan.

Simplified Income Tax Law.

Finance Minister Douglas Abbott has introduced a bill in the House of Commons simplifying the wording of income tax legislation. The measure is purely non-political, the Minister stated, its only purpose being to simplify wording on such matters as rules for computing income tax, taxable incomes, categories of persons required to make payments, etc. The purpose is to eliminate as much legalistic and technical language as possible for the benefit of the average taxpayer.

Green Manure.

Results of a long term project on the use of red and sweet clovers for green manure at the Dominion Experimental Station, Kapuskasing, Ont., show that sweet clover gives slightly greater returns than red clover, but that neither can be compared with the application of barnyard manure and that their use would not be economical.

Prevent, not Cure, Plant Diseases.

There is no such thing as a cure for disease of field crops, so we must rely entirely on prevention, said Dr. J. H. Craigie, Dominion Botanist, Canada Experimental Farm, Ottawa, in an address to the recent annual convention, Canadian Seed Growers' Association, held at Macdonald College, Que. Preventive measures must be taken, not only against diseases that are now causing damage in this country, but against others to keep them from entering Canada, he said. The cheapest and most effective method of disease prevention is growing varieties that are resistant to disease. Plant breeders have made considerable progress in producing disease-resistant varieties of many crops, but it is a complicated task requiring the cooperation of plant breeders, plant pathologists and others with specialized training.

When we have no disease-resistant varieties of a crop, disease-free seed should be used. Any seed stock multiplying for one of the higher classes should not be a source of infection. When disease does appear, preventive measures should be taken immediately. Such measures include sanitation, rotation and isolation, said Dr. Craigie.

HOLIDAY... without cash!

"Yes, that's right! We're having a really grand holiday... and I'm carrying hardly any money with me! Instead I use Travellers' Cheques which I bought from the bank... cashing them in a jiffy along the way at railway offices, hotels, gas stations, large stores and so on. If they are lost or stolen I get my money back."

"It's a great feeling to know I'm protected like this... gives me peace of mind and helps me relax and have a more enjoyable trip!"

Your bank is constantly issuing Travellers' Cheques, Letters of Credit, Money Orders, Bank Drafts. Other convenient services are also available to you.

Holstein Breeders Meet.

A group of 250 Essex Holstein breeders gathered for an educational and social evening at the St. Clair farms of F. H. Anderson, Belle River, on the evening of July 14th.

The meeting was sponsored by the Essex Holstein Club and the vice-president, Russell Simon, Rensselaer, presided in the absence through illness of President Raymond Benetou, Amherstburg. Speakers were J. C. Steckley, principal of the Ridgetown Agricultural School; N. R. Martin, St. Thomas, and George C. Bell, Sarnia, directors of the Holstein-Friesian Association of Canada, and Agricultural Representative Angus McKenney.

Following a demonstration of type by Holstein Fieldman J. E. Terry, a judging contest was held with George C. Bell making the official placings. In the senior class three ladies and five men had perfect scores — Mrs. E. Greaves, Mrs. Edward Simon, Mrs. Freda Reanne, Clarence Haggins, Richard Anzer, Kenneth Baldwin, L. Phillips and Harvey Balkwill. Marlene Mallow was the leader in the junior contest, she too, having a perfect score. She was followed in this order by George Pith, Jim Reanne, Robert Newman, Don Simon, Bill A. John, Lloyd Lockwood and Ilona Ford.

Lunch was served by the ladies with Mr. Anderson supplying ice cream, chocolate drinks and coffee.

On behalf of the group, Clarence Ford of Colmer, thanked Mr. Anderson for his hospitality and in particular, Henry Reanne, farm manager for Mr. Anderson who had made the arrangements, and the speakers for their part in the program.

FRIDAY, AUGUST 1, 1947.

Penner Blanks Leamington.

Joe Penner gave up only four scattered hits as Belle River shut out Leamington. Elmer Scratch, Leamington hurler, who pitched a no-hit game last Sunday, was hit hard by the Belle River lads, who picked up an even dozen hits, including a pair of doubles by Durocher. Penner's fielding support was very good, with Rose and Hargreaves turning in sensational plays.

Approved Bread.

An explanation of the term "Canada Approved Bread," often used by nutritionists in urging healthful dietary comes from Ottawa. It means bread made from flour so milled that much of the vitamins and minerals are retained, instead of getting lost in the "shorts."

The experts on food for health say that it is necessary for us to eat at least four slices of genuine whole-grain brown or white "Canada Approved" bread daily for well being.

Tecumseh Breaks Even with Kingsville.

Tecumseh won its first game against Kingsville, with ease, as Gerry Gouin pitched fine eight-hit ball. There wasn't a doubt in the world as to the outcome of this fray as the Indians batted six runs in the second inning and were never headed.

In the second game it was not so easy, and both teams battled it out for ten innings.

In the tenth inning for Kingsville, there were two out and a runner on third as Snively doubled and went to third on an infield out. In attempting to give Bechard, heavy Kingsville hitter, an intentional pass, Baillargeon uncorked a wild pitch. Snively bopped for the plate and scored the winning run before Seguin could retrieve the ball.

Must Observe Price Ceilings in Corn Deals.

Truckers and farmers buying corn for resale must obey price ceiling regulations, the Wartime Prices and Trade Board warned last week, contradicting statements that such buyers were not forced to sell at ceiling prices or less.

The clarification of the regulations governing the price of corn was made following publicity regarding sales in Kent County. Accounts of a recent meeting held by the Kent Federation of Agriculture quoted one director as stating that "there is no ceiling on one individual farmer selling to another, or to truckers who wished to buy corn on the grounds for resale at points east of there."

Board officials point out this is not the case. Regulations governing the sale of corn are that any primary producer who sells corn to a trucker or another farmer for resale must take no more than ceiling prices. The only exemption is the case where a farmer buys from another farmer and uses the corn for feeding and other purposes on his own land.

Harrow Beats Tilbury.

Harrow had a tough time with Tilbury, falling behind by three runs in the first three innings. The league leaders got stanzas, however, and took over the lead. Gordie Wright took over the pitching for Harrow in the third inning after Fox started. He fanned 12 batters over the last six innings.

Mushroom Flies Killed by DDT.

Bigger and better mushrooms are in store for the lovers of this delicacy with the discovery that DDT can be used to destroy the troublesome mushroom fly which has plagued this expanding industry for some years.

Recent experiments showed that a solution consisting of one pound of 50 per cent wettable DDT to 1½ gallons of water, applied as a coarse spray on boards, posts and under bed surfaces, gives the best results.

The entire house may be sprayed before filling, but as the heat and ammonia produced by the manure offset the residual effect, it is just as well to spray immediately prior to spawning the beds. In this case care should be taken to see that DDT does not fall on the compost. Three applications of the insecticide on walls, doors and ventilators are usually enough for the entire season.

Canadian Holstein Sets Record

A purebred Holstein, owned by James R. Henderson, Portsmouth, Ontario, has given a total of 201,392 lbs. of milk containing 6,966 lbs. fat during her lifetime on record of performance test. She is Supreme Ruby Echo, and has completed her records on twice-a-day milking. Only two cows in the world have ever completed official lifetime records of over 200,000 lbs. milk on twice-a-day milking. Both are Canadian Holsteins, the other being Meadowbrae Echo Rosebud, owned by Q. D. Whale, Alma, Ontario, with a total of 203,810 lbs. milk containing 6,364 lbs. fat.

Ruby is again on test and has milked up to 78 lbs. daily so that it all goes well she will substantially add to her lifetime production in her current lactation.

Last year 60,000 furnaces were manufactured in Canada.

Loose Your Brakes.

What would you say of a man who tried to drive his automobile with the brakes on? Naturally, you would say that this was about as sensible as using sand instead of oil to lubricate the motor. Yet in human experience do we not try to drive with our brakes on most of the time, and constantly sprinkle sand in the machinery of our everyday living?

Everyone can see the folly of trying to drive an automobile with the brakes on. It is not quite so easy, however, to see how we often impede our spiritual growth by not releasing the brakes, that is we cling to the fears and frailties of mortal existence, instead of, and believe in the power of sin, sickness, and death as able to destroy men.

A man known to the writer suddenly awakened to the realization that the brakes of his thinking were firmly set, and that his mental machinery, filled with the sand of mortal beliefs, was grinding painfully and fruitlessly. Examining his thoughts, he began to see that he had come to have a strong possessive sense about his beliefs, prejudices, and limitations, that he was constantly thinking in terms of "my" fear of losing a job, "my" failure to earn an increase, "my" headaches, and "my" frequent sick spells.

On page 221 of "Science and Health with Key to the Scriptures," Mary Baker Eddy, the Discoverer and Founder of Christian Science, tells of the healing of a case of dyspepsia of many years standing. Describing the experiences of the sufferer, she writes: "He passed many weary years in hunger and weakness, almost in starvation, and finally made up his mind to die, having exhausted the skill of the doctors, who kindly informed him that death was indeed his only alternative. At this point Christian Science saved him, and he is now in perfect health without a vestige of the old complaint. He learned that suffering and disease were the self-imposed beliefs of mortals, and not the facts of being; that God never decreed disease — never ordained a law that fasting should be a means of health."

What an opportunity we all have to loose the brakes of mortal sense, to cleanse the sands of materiality from our mental machinery with the oil of faith and consecration.—Christian Science Monitor.

Labor has been considerably misunderstood, and has been the subject of much criticism. It is not the fault of the United States, but of the workers themselves. It is not the fault of the United States, but of the workers themselves. It is not the fault of the United States, but of the workers themselves.

In such circumstances, governments may have no alternative but to proceed to resist and deny the rights of one group that so definitely and so dangerously infringe the rights of all.

It is not primarily the antagonism of governments that labor has to fear. Organized labor is too potent a force for governments to

Departure Ceremony.

At an impressive departure ceremony in St. Mary's Church at 7:30 p.m. on Sunday the parishioners, friends and relatives of Rev. Fr. Timothy Kavanagh, O.P.M., Cap., bid him farewell.

His pastor, Rev. Fr. H. Chisholm, after boys and girls' tests, escorted Fr. Timothy to the sanctuary and Fr. Chisholm, speaking for a few minutes before introducing the guest speaker, Rev. Fr. Bernard Burke, of the Order of Friars Minor Capuchin, of Detroit, eulogized the late Father Charles Collins, C.S.B., who 18 years ago said his first holy mass in his beloved St. Mary's. Now Father Timothy, another of St. Mary's, will go to the foreign missions.

Flying from Detroit to San Francisco, Father Timothy will board a boat for Guam, Guam, M.I., where he will engage in missionary work.

Fr. Burke presented Fr. Timothy with his mission crucifix.

After Fr. Bernard Burke's sermon, from the text "Go forth and teach all nations," the parishioners gave Fr. Timothy a donation, and the ceremony ended with solemn benediction of the Blessed Sacrament.

Many of Fr. Timothy's relatives from Detroit, Grosse Ile and Windsor attended the service.

U. S. Sugar Rationing Ends.

Sugar rationing has ended in the United States. A department of Agriculture announcement released today marked the close of ration controls which were introduced in wartime and which continued for more than two years after V.E. Day.

Rationing of sugar to householders was ended several weeks ago but industrial users were still required to submit coupons for their quotas. Today's order gives industries free access to rapidly increasing world sugar supplies.

It also provides for the replacement of inventory controls which permit industrial users to keep sixty or ninety day stocks. Price controls are to continue.

All employees of the U. S. Sugar Rationing Administration were placed on leave at noon today when the rationing controls were lifted.

The department also announced that it will be in a position to supply sugar to all users at a price of 10 cents a pound.

McGuire-McCarthy Nuptials.

At the first wedding ceremony ever performed in Our Lady of Perpetual Help Church, Windsor, the Rev. Chas. Carigan united in marriage Miss Helen McCarthy, daughter of Mr. and Mrs. Joseph McCarthy, of Roseland, and Clifford McGuire, son of Sylvester McGuire, of Maidstone, and the late Mrs. McGuire. The service was solemnized at 9 o'clock Saturday morning, the bride's father singing "O Lord, I Am Not Worthy, Sylvester McGuire, Jr., the bridegroom's brother, singing "On This Day, O Beautiful Mother," and "Mother Dear, O Pray for Me," and Mrs. Frank Bell singing "Ave Maria" during the ceremony.

Tall standards of red roses and white blooms graced the altar of the church for the occasion.

Given in marriage by her father, the bride was lovely in a gown of white, broadened nylon, fashioned with a fitted bodice, a sheer yoke, a sweetheart neckline outlined with a ruffle and a full skirt extending into a train marked with insets of shimmering ruffles, and caught up in front with pale blue bows to reveal the satin petticoat beneath, ruffled and lace-trimmed. Her double veil, which she had worn at her first communion, was elbow-length, and was held to her head with a tiara of seed pearls, and she carried a nother of pearl prayer book topped with white roses.

Miss Doris McCarthy, her sister, as maid of honour, and Miss Helen McGuire, the bridegroom's sister, as bridesmaid, were attired identically, in pale blue tulle, the frocks featuring matched bolero collars of matching lace, beaming cap sleeves, draped penguins with bows at the sides, and full skirts. They wore matching tulle ruffles in their hair, and carried colonial bouquets of blue and white carnations.

Stanley McGuire was his brother's best man, and Paul McCarthy, brother of the bride, was groomsmen. Two bridesmaids of the bridegroom, Sylvester McGuire, Jr., and Robert McGuire, were also in the party.

A wedding breakfast and dinner and reception were held at the hotel, and the bride and groom were accompanied by their families.

Farmers are requested to pick off the flowers of the Sow Thistle. This is important as this is what the Township spray is for. This will be rigidly enforced.

SECTION 4 of The Weed Control Act states: "Every occupant of land or if the land is unoccupied the owner shall destroy all weeds designated noxious by the Regulations as often in every year as is sufficient to prevent the ripening of their seed."

Occupants and owners of land are advised to exercise great care in destroying all noxious weeds before they mature seed. If these precautions are not taken, the Weed Inspector may exercise his authority and may enter on property for the purpose of destroying noxious weeds.

THE CO-OPERATION OF EVERYONE IS SOLICITED IN A GENERAL CLEAN-UP OF NOXIOUS WEEDS.

NOTICE!

Mrs. Crozier's Beauty Parlor will be closed for three weeks, starting August 4th.

We're At It Again.

Frankly, I don't know whether to hit the high spots or just begin where I left off. On Wednesday last the Legion and Lawn Bowlers met face to face, the bowler's face being the red der to the tune of 17 to 5 for the Legion.

On Thursday the Kinsmen and Stokely's tangled in a free-for-all hitting spree, with the Kinsmen making most of the errors, which resulted in a tie at the end of the seventh, and in the next inning Stokely's stole the show, and the game, on a sensational catch by Shortstop Reynolds, leaving the score 12 to 11 for Stokely's.

On Friday General Motors teed off on the Bowlers, and the game was on. Which one of the five Piper boys on the Bowlers' team pitched, I'll never know. They just swarmed over the place. After the air cooled down the G. M.'s walked away with a 11-4 victory.

On Monday this week, Stokelys and the Bowlers locked horns. And by the time the dust had settled and the bowlers caught onto the ball, Stokelys had piled up 14 runs as against 8 for the Bowlers.

The batteries for Stokelys was Inky Ross and Wild Francotte, and for the Bowlers, Bullard and Brockman.

And, oh brother, how I hate to go on. The Legion was out for blood, but they didn't have to take all the Kinsmen had. I'm telling you it was rugged. The Kinsmen got off to a bad start, and were still having trouble with a start when the game ended. They tell me they're going to take up a collection to buy a glue pot for the Kinsmen. Anyway, after the deluge, the Legion won with an off-size score of 18 to 2.

Batteries: McPherson and Hines for the Legion, and Wes Clare and Gord Brown and Chief Hogarth for the Kinsmen.

THE ESSEX FREE PRESS, ESSEX, ONTARIO.

Essex Town Council.

Monday, July 28th.

Council met in regular session, in the Council Chamber, at 8 p.m., with Mayor Linton, Reeve Irwin and Councilors Chase, Shaw, Francotte and Pulleyblank present.

Rev. Fr. O'Neill addressed Council re proposed outlet for the new school property, all the land of which is inside town limits. The proposal is to lay the outlet tile under the Colchester-Gosfield Townline pavement and empty into ditch on South side of pavement.

After a short discussion matter was left with Mr. Francotte, with power to act.

Fr. O'Neill also spoke of resurfacing the sidewalk along the front of the Kendrick Tourist Home property. This walk is very low and is always under water after a heavy rain. This should be done before next winter.

This matter was referred to Charles Maclell Jr., to look after, in the absence of Mr. Lee, chairman of Ward 2B.

Fr. O'Neill tabled a blue print of the land on which new separate school is being built, showing a small pore 60 ft. x 75 ft., owned by the town, which jets into the school land. He would like to either buy, rent or lease this small piece of land, so same can be included in the playgrounds for the children.

On motion of Messrs. Irwin and Shaw, request was left with the Property Committee, with power to act.

A delegation of property owners owning property on the extreme west end of Victoria street, waited on Council.

In addressing Council Art Bowden stated that the west end of Victoria street, from end of pavement to Rear Road, was one of the worst in the county, and that there had been no Calcium Chloride put on it to lay the dust. He also complained that they were not having their garbage collected as often as they should.

Mr. Francotte stated that last spring the Reeve and Road Superintendent of Colchester North had written on Essex Council and as he understood the agreement reached, Colchester Road if Essex Council would supply the gravel, and he had already spent \$200 for gravel on this short stretch of road.

Mayor Linton thought this piece of road should be resurfaced and promised the delegation that same would be resurfaced before fall, at the same time the eastern end of Maidstone Townline and part of Laird avenue is being done.

Mr. Bowden also spoke of the stretch from the town dump.

Mr. Francotte stated he had had the Fuller Construction Co., of Windsor, on the dump with their large bulldozer, and that the dump was now in best condition in its history and that enough that it could now be driven over. He hoped people using the ground would see that their rubbish was put in the proper place.

Frank Tallent stated that bridge in his property is in bad state of repair, also that he had put out his tin cans and rubbish on day advertised for clean-up and that they were still there. He also stated he had never had his garbage collected since he had been there in nearly a year.

Mr. Rounding, who owns the Percy Scanlon property on Intersection Road, addressed Council re condition of his bridge and driveway over the McEater drain. He also said he had never had his garbage collected.

On motion of Messrs. Shaw and Chase, above requests were left with Mr. Francotte, with power to act.

John Thomas presented a petition, signed by himself and Mr. Mills, to have a silex walk laid on the west side of Day street, from Laird avenue to join present sidewalk from Center missioner for Ward 2A.

W. G. Hughes requested a few loads of gravel, both for a walk and on the roadway to his property on Brock street. Left with Mr. Francotte.

Mayor Linton reported that Mr. Page had spoken to him about gravel on Forest avenue. Also referred to Mr. Francotte.

In referring back to condition of town dump, Mr. Francotte stated he thought that the roadway to the Essex Farmers' gasoline tanks, which is over the right of way of the M. C. R. Co., should be blocked off just past the tanks so that nobody can use it to get into the dump ground. He advised the members that he proposed seeing that town be given permission to block this private right-of-way just past the gas tanks. He had already spoken to Essex Farmers and they were agreeable to the blockade.

Mr. Pulleyblank reported meeting Mr. Bear, of Stokely-Van Camp re rental of Fair Grounds building, and that the Silex concern thought a rental of \$400 per year was too high. He had proposed a rental of \$200 per year, the Company to repair the buildings. No agreement had, as yet, been made, and he wanted advice of Council.

After a lengthy discussion it was moved by Messrs. Francotte and Shaw that Mr. Pulleyblank make an offer to the Canning Company of a year lease at \$300 per year, with no expense to town.

Mr. Francotte stated Mr. Affleck had spoken to him about having the Arthur avenue tile gone over with the root cutting machine before tomato pack starts.

Frank Brown, building inspector, gave a brief report on building going on in town. He stated property to the

Essex Juniors Lose.

On Sunday last the Essex Juniors travelled to Leamington and were defeated by a score of 8 to 1. It was a very good game, except for the last of the sixth, when Talbot tired and allowed 7 runs on 5 hits, a walk, a hit batter, a fielder's choice and two errors. Leamington's other run came in the fourth, on a single, a double, an error and a fielder's choice.

Essex scored their run in the fourth inning on their only hit, a single by Hartley, 2 stolen bases and an error.

Wes Garrod played a good game at third and Milt Hartley made a very good catch of H. Rose's fly in right centre, in the fourth.

FRIDAY, AUGUST 1, 1947.

Background of Police Village of Comber Told on Radio.

The Police Village of Comber is the principal centre of population in the Township of Tilbury West, County of Essex. The main line of the New York Central System cuts through the northern end of the village and King's Highway No. 98 (the old Middle Tailor Road) through its southern end. It was along these transportation axes that the Village of Comber developed in two distinct phases which account for its present attenuated two-ended appearance. The principal street in Comber is the section of the Comber Road between the railway and the highway. Along this main street are business and residential buildings, including the police station, the post office, the agricultural industry of the neighbouring countryside, a situation which the highway emphasizes the fact that Comber makes important connections by rail. The branch line of the New York Central System from Comber connects with the main line at Comber, and over this branch line large quantities of grain products are shipped through the transfer point of Comber. King's Highway No. 2 has replaced No. 98 as the main route through the northern section of Essex County, but the Eastern Canadian Greyhound Lines Limited from Windsor to London, and intermediate points, continue to use No. 98 which passes through the southern end of Comber.

The population of Comber today is approximately 600, a slight increase over the figures of a few years back, but not much more than half the population of the 1890's and 1900. The change in population decline and industry change in Comber is typical of what has happened in many smaller centres of Ontario during recent decades. The record of Comber will be better understood by going back to the beginnings of settlement.

By the 1840's land patents had affected the site of the future Comber. Following the survey of the Middle Road a few years earlier. According to the late A. W. Marsh, of Amherstburg, the original Comber post office was located about two miles east of the present village on the farm of John Gracey, who bestowed the name Comber upon it after his native place in Ireland. The first post office in 1852 to the intersection of the Middle Road and the Comber Road. The road started the development of a village at that point. This was interrupted in the early 1870's when the Canada Southern Railway (now part of the New York Central System) constructed its line about half a mile to the north of the highway. The Amherstburg branch line along the highway and the village grew northward. Its present scattered appearance gives evidence of its two-fold origin.

The lumbering days of the 1850's were a time of rapid growth for Comber following which it held about even during the 1890's and diminished considerably thereafter. At or about its peak in the middle 1890's, Comber warranted the following description: "Comber, a prosperous post village and station of the Michigan Central Railway in Essex County, Ontario. It contains three churches, Presbyterian, Methodist and Anglican, and one Salvation Army barracks, ten stores, three hotels, one saw and stove mill, one planing mill and one grist mill, one sash and door factory, one bank, one newspaper, one brickyard, and telegraph and express office. Population 1,000." It had also a charcoal industry and three blacksmiths and included carriage and harness making among its activities. The family name of Hatcher, prominent in the old-time carriage making industry of Comber is continued in the Hughes & Hatcher men's furnishing store in De Wolf. The Leamington and St. Clair Railway opened in 1887, gave Comber direct rail connections with Leamington, and plans were even under consideration for extending the line north to Stoney Point on the Grand Trunk Railway, now part of the Canadian National Railways. Nothing came of this proposed extension.

A perusal of the old newspaper files makes one feel the vibrant life of the period. Busy lumber mills and charcoal kilns, indications of oil and gas, real estate transactions, building booms, drainage and agricultural development make vivid reading. The importance of the Ainslie lumber mill industry may be gauged by the fact that on one occasion in the exceedingly wintry early part of 1895, 81 teams were reported hauling logs to that mill. At about the same time Niebergall's mill was said to look "like a fair with teams and men." Perhaps even more illuminating is the following relating to Comber from the files of the Amherstburg Echo for February 3rd, 1886: "The streets were literally crowded last week with teams hauling in logs and timber to the different mills here every day, which gives the town quite a lively appearance. The yards are rapidly filling up and it is expected the mills will soon be running." The charcoal kilns also made news to the effect that in September 1887, they were turning out 50 tons a week for their Detroit owner. A second significant item relative to the charcoal industry was the following dated June 28th, 1889: "Owing to the trade depression in the iron industries in Detroit and the States generally, the charcoal kiln owners

have been obliged to shut down operations for a few weeks."

Extensive developments along agricultural lines were also taking place in Comber and vicinity by the last quarter of the 19th century. In the surrounding countryside these included drainage operations and increasing emphasis on grain crops and livestock. In Comber itself a flour and grist mill and a cheese factory were opened. Newspaper items refer to the meetings of the Tilbury West Agricultural Society at Comber, which was also a centre of operations for W. Welch & Son, who are reported as buying up and shipping out grain and stock.

Other activities of the period should not be overlooked. The telephone appears to have arrived in Comber during the early 1890's, but for some years the number of subscribers was very small. As late as October, 1895, installation of three telephones in Comber was an item of interest, as was the arrival of the Woodstock branch of the same power in the summer of 1897, which was well attended. The Comber Corn Band was a very early success. Following the concert "Some months ago on May 24th, 1888, the Corn Band, composed of Wharfley, to help celebrate the Queen's birthday at that point. The following number of December 10th, 1887, also sheds light upon the social life of nearly sixty years ago: "On Thursday evening of last week, the officials of the Leamington and St. Clair Railway with a number of friends about 30 in all, came from Leamington and assembled at the Harner House, where an excellent dinner was spread and enjoyed by all. After supper, specific s. entertainments and songs were given and the evening's amusement closed in time for the party to return by the night train."

Closing the pages of the 19th century and opening those of the 20th, one sees a Comber that is considerably different. Lumbering operations continued in diminished form during the first quarter of the new century. The Ainslie mill was, in fact, the last large saw mill in the county until about 1925, utilizing hundreds of scores of neighbouring bush land owned by its proprietor. It supplied a demand for staves and basket material (produced by slicing and lumber for farm bridges, barns, stables, board fences for stock, etc. This mill was destroyed by fire about twenty years ago. The Comber Planing Mill is now the sole survivor of lumber milling activities in Comber.

Comber never realized its hopes of becoming the centre of an important oil and gas industry which seemed possible about half a century ago. The Leamington & St. Clair Railway, its rail connection with Leamington, many years ago passed into the hands of the Michigan Central (now the New York Central), and in our day provide freight service only. It is the general farming economy common to the heavy clay lands of North Essex, which has become the dominant feature of the country near Comber and its chief support during recent decades. The Comber Farmers' Cooperative Incorporated makes a great contribution toward serving the needs of the agricultural community; its activities include elevator operation and flour mill produces pastry flour for the Windsor market. No less than three agricultural agencies in Comber and an egg grading station provide service to the farmers. An active brick and tile plant using local clay, operates just south of King's Highway No. 98. A similar plant on the railway spur on the northern part of the village has been idle for some years. Good stores, machine shops, garage and service station facilities, a bank, and a weekly newspaper, The Comber Herald, help make up the business life of modern Comber. There are three churches (Anglican, United, and a Roman Catholic mission), two schools (public and continuation) and fraternal organizations. The Comber branch of the Canadian Legion is an active organization and there is a recently organized Chamber of Commerce.

Yet in the midst of present-day Comber there continues in business a man who also represents the picturesque past in the person of Harry Brandle, the village blacksmith. Mr. Brandle's strenuous daily labour and active bicycling activities belie his fourscore years. There is, however, no person apprentice to him, to carry on the industry when he retires. Visitors to Comber will note his blacksmith shop on the west side of the main street just north of King's Highway No. 98.

Inland, and therefore away from the resort industry, beyond the range of suburban development on the highways leading out of Windsor, its forest industries gone, the importance of its position as a railway junction lessened by the development of the motor car, and left off the main highway when the present King's Highway No. 2 replaced No. 98 as the principal route out of Windsor, circumstances have not particularly favoured Comber in recent years. Nor have any new industries of consequence come to its rescue as at Belle River and Tecumseh. It is, however, in an excellent general farming area which produces corn, soybeans, wheat, other small grains and sugar beets, and

Short Open Season for Ducks is Forecast.

Due to a serious depletion in the duck population of Canada, hunters are facing the prospects of a short open season with greatly reduced bag limits this year, Mr. Hon. C. D. Howe, acting minister of mines and resources, announced in Commons last week.

"Unless the harvest of waterfowl in 1947 is greatly curtailed, this season may witness the collapse of this great sport," he warned.

"For the past two years, various adverse natural factors operating in Canada and the United States have decimated the waterfowl to such an extent that increasing numbers of hunters have killed more ducks than were produced," he said.

Some authorities, Mr. Howe pointed out, have recommended a completely closed season until improved conditions permit restoration of a normal duck population.

Hay Fever Note.

Sufferers from hay-fever and so-called "rose colds" should avoid swimming during seasons when they are most subject to those unpleasant afflictions. Those who suffer severely from hay-fever are advised to think twice before they go swimming at all. Chronic inflammation of the nose and throat make this advisable.

While rapid population growth for Comber appears unlikely, a reasonably prosperous future seems to be assured.

Uniform Education.

Interested persons have recently raised a cry in the press for standardization of history books in this Dominion.

It is apt to come as a surprise to most of us that a subject as important as history should be taught in varying ways in one country. The thought that a student in British Columbia should have a different conception of an historical event than that held by a student in Quebec is unsettling to say the least.

We have long since been accustomed to the disquieting fact that the different countries of the world teach history in a way which justifies their own actions and their own heroes, frequently taking liberties with the true facts of any given incident. It is highly unlikely that this method will be changed until, in the dim future, some world government should assume the responsibility for bringing such books into proper focus. However, we can applaud any effort made by educationalists in our own country to see that all Canadians study from texts which contribute to a uniform viewpoint concerning the facts of history.

This problem is simply an outgrowth of an even greater question, the lack of common standards of education throughout the Dominion. When a student has attained a certain standard of proficiency in one province applies for admission to an educational institution in another, not infrequently he finds that the authorities question his scholastic attainments in the light of their own requirements.

Any movement for the standardization of educational requirements is the target for attack on the grounds that control of the educational system of the country must be localized and must be kept from the hands of educational dictators who conceivably might use such control unwisely. But this argument cannot be used against the free exchange of information concerning the educational plans of the provinces or the informal pursuit of a common goal among the heads of the nine departments of education. Indeed, great good might come of regular normal meetings of the heads of the educational systems of all our provinces for the above-mentioned purposes.

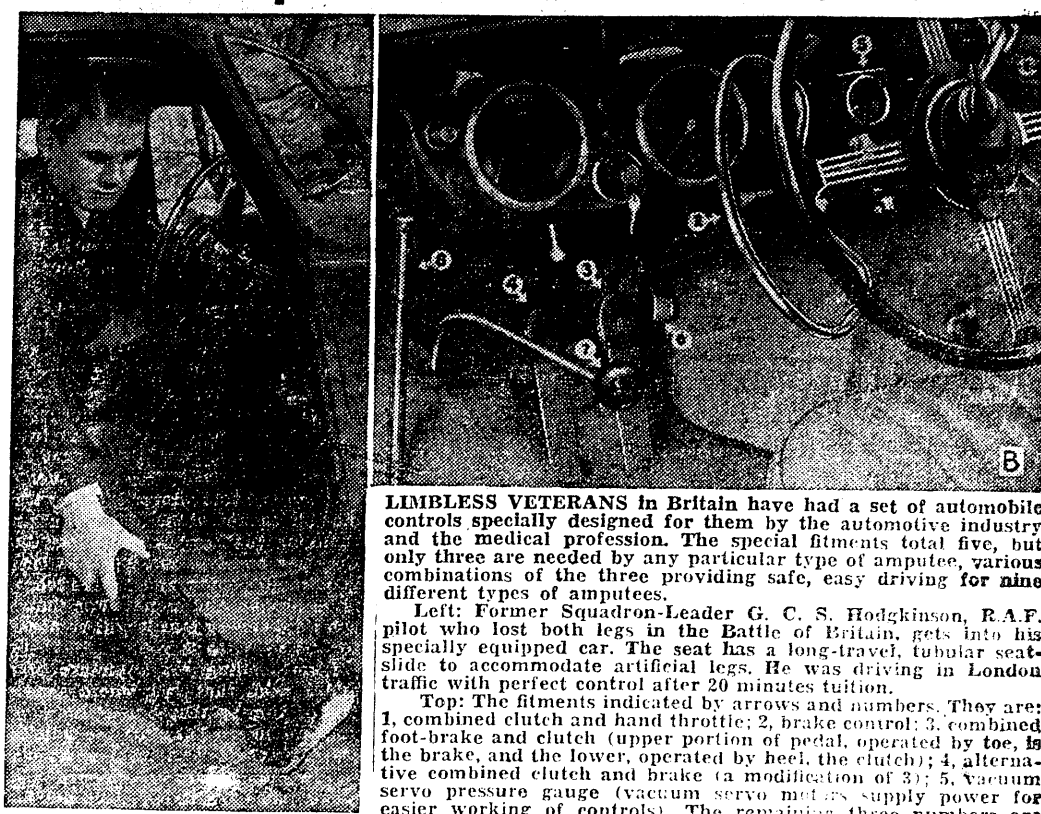

Until the time arrives when the whole matter of uniformity of standards of education throughout Canada is considered of vital import and approached on that basis, there is little hope that agitation for uniformity of history teaching will be more than a well-meant gesture on the part of persons who are more vitally concerned in education than is the average Canadian today.—Liberty Magazine.

DDT Curbs Codling Moth.

Remarkable results have been obtained by using DDT in the control of codling moth, it was reported recently by several field investigators. Codling moth have been most costly insect apple growers have had to contend with.

The investigators warned that while DDT eliminated the moth, it may be indirectly responsible for the outbreak of other orchard pests such as the European red mite because of its toxicity to their predators. Orchardists who intend using this insecticide for moth control are cautioned to follow the recommendations of their local entomological authority.

War Amputees Have Own Car Controls

Left: Former Squadron Leader G. C. S. Hodgkinson, R.A.F., pilot who lost both legs in the Battle of Britain, gets into his specially equipped car. The seat has a long-travel tubular slide to accommodate artificial legs. He was driving in London traffic with perfect control after 20 minutes tuition.

Top: The fittings indicated by arrows and numbers. They are: 1, combined clutch and hand throttle; 2, brake control; 3, combined foot-brake and clutch (upper portion of pedal, operated by toe, is the brake, and the lower, operated by heel, the clutch); 4, alternative combined clutch and brake (a modification of 3); 5, vacuum servo pressure gauge (vacuum servo motor supply power for easier working of controls). The remaining three numbers are normal British controls, as follows: 6, accelerator; 7, gear lever; 8, hand-brake. It was recently stated that Britain had one in seven of her working population suffering from some disability or another. Women and children, besides men on foreign fighting fronts, were maimed when bombs and V-weapons struck them in their homes.

CANADA'S health

Strained Eyes.

Intensive study can cause serious eye-strain, with consequent harm to the nervous system. This is particularly a hazard of school days, and public health authorities remind parents that children's sight should be checked carefully during the year when they are concentrating on their books.

The quest for book-learning can lead to the wearing of a young life. If a careful watch is not kept to avoid undue strain, it is declared, "Better to have your children grow up to enter the world of affairs with a healthy, progressive scholastic record than to find them in classes as neurasthenics." as one medical man puts it. The authorities point out that the family physician is competent to advise on care of children's sight.

Favouring the Feet.

People who are afflicted with unhappy feet, particularly in hot weather, are advised by health authorities to give more attention to bathing the feet, to exercising them, and to the type of footwear used.

Both tepid and alternating hot and cold foot baths are approved, but the medical people warn that the feet must be dried thoroughly, particularly between the toes.

To help relieve that burning feeling, talcum may be applied to the soles or between the toes, and the use of a little witch hazel is also beneficial.

Catching a Cold.

It is not always possible to avoid catching a cold, but there are several ways in which the risk can be reduced.

The first is to avoid contact with people who are known to be suffering from colds. This is particularly important in the case of children, who are very susceptible to colds. The second is to avoid going to crowded places, such as schools, churches, and public houses, where colds are often spread.

Health Without Price.

Good health without cost is a thing to be desired, but it is not always possible to achieve it. There are several things which can be done to improve health without cost, such as getting plenty of sleep, eating a healthy diet, and exercising regularly.

Laugh to Live.

Laughter is infectious, but this is one type of contagion which medical authorities welcome. They say that, to live best, laugh most.

There is a warning, stimulating and uplifting quality about mirth and cheerfulness, just as there is a sense of coldness and depression in gloom.

"Sweating" Pipes.

It is not always possible to avoid sweating pipes, but there are several ways in which the risk can be reduced.

The first is to avoid contact with people who are known to be suffering from colds. This is particularly important in the case of children, who are very susceptible to colds. The second is to avoid going to crowded places, such as schools, churches, and public houses, where colds are often spread.

Safe Water Supplies.

No matter how sparkling and seemingly clear water may be contaminated and health authorities warn against drinking it, and others not to use water sources until they are certain of their safety.

Safe Water Supplies.

When some distance from a community water supply which is known to be healthy, a camper should boil all water. If possible, advice on the quality of the water found locally should be obtained from health authorities, who will test it and certify it, if it is not fouled and is safe for use.

GREEN WHITE OR AMBER BOTTLES ?

TRADITIONALLY, Ale has always been distributed in green bottles but, owing to the present shortage of green glass, some Ale is being bottled in white or amber bottles.

This is a temporary measure—and does not in any way affect the quality of the product.

Charles Maedel Laid to Rest.

Funeral services for the late Charles Maedel were held in Grace United Church, on Friday afternoon, with over 500 people from all walks of life and from all parts of Essex County, in attendance.

Present in a body were the members of the Associated Boys' Band of South Essex; the Essex Boy Scouts; the Essex Rotary Club, the Chamber of Commerce, the Town Council, and the employees of Maedel Beverages.

Rev. R. H. Parr conducted the services, while six grandsons were the pallbearers, carrying the casket through a guard of honour formed by four members of the Windsor police force, the Scouts, members of the Chamber of Commerce and Rotarians.

Burial was in Greenhill cemetery, Kingsville.

Sweetman Reunion.

The twentieth annual Sweetman reunion was held at Lakeside Park, Kingsville, on August 2nd, with 75 relatives and friends in attendance.

The honour guests were Mrs. Ida Menzel, from Virginia; Mr. and Mrs. Alvin Johnston, of Lindsay; Miss Morella Johnston and Miss Margaret Johnston, of Toronto.

Mrs. Ida Menzel received the prize for being the oldest lady present, also the prize for being the farthest away.

Michael Abbott received the prize for the oldest man present.

Mrs. Milford Dalton won the bean guessing contest. Sports were enjoyed by the young folk.

Officers for the coming year are as follows: President, Michael Abbott; vice-president, John Nelson; 2nd vice-president, Orley Ulich; secretary, Mrs. Hanley Keyes; treasurer, Mrs. Harold Timney; sports, Milford Dalton; Phil Abbott, Harold Timney; lunch, Mrs. M. Abbott, Mrs. Moody and Mrs. Asa Sweetman.

Fatality in Windsor Woodway.

Arthur O'Neill, aged 21, of 787 Glenary avenue, Windsor, was killed instantly when his new motorcycle skidded on wet pavement in the Wyandotte-Drouillard subway early Thursday morning of last week. The motorcycle rolled over, crushing the life out of the driver, after he had tried to stop it for a red traffic light.

Young O'Neill had just had the motorcycle a week. The bike was not damaged, with hardly a scratch on it to indicate that it had been involved in a fatal accident.

Born in Windsor, Arthur attended public schools there and later joined the Royal Canadian Navy in which he spent three years on active service during the war.

Since his discharge from the service he started on a watch making course in Chatham, and pending his return to this course he has been employed at the Ford Motor Company of Canada.

He is survived by his parents, Mr. and Mrs. Earl O'Neill, and two grandfathers, Arthur O'Neill, of Dufferin street, Windsor, and Eli Parent, of Sandwich East Township.

15th Annual O'Neill Reunion.

The 15th annual O'Neill reunion was held at Memorial Park, Windsor, on Saturday, August 2nd, with an attendance of one hundred and eleven. Members were present from Detroit, Windsor, Roseland, Essex, Cottam, Old castle, Paquette, Auld and Leamington. It was a great honour to have Mrs. Nora O'Neill Bromley, from Durban, South Africa, present.

The oldest man present was Alex O'Neill, of Windsor, the oldest lady, Mrs. Jessie Rocheleau, of Auld, the youngest child, Barbara Dawn Mitchell, of Windsor.

A well-organized program of softball and track events for guests of all ages, was enjoyed during the afternoon.

The married men defeated the single men in an exciting game of softball, by a score of 15 to 14. Ed Lounsbrough was the umpire.

Winners of races were as follows:

Girls 5 years and under—Mary Lou Banwell.

Boys, 5 and under—Gaye Queen, Paul Mitchell.

Girls, 6 to 8 years—Francette Cody, Joan Banwell.

Boys, 6 to 8 years—Frankie O'Neill, Leslie Scott.

Girls, 9 to 11 years—Margaret Banwell, Janet Banwell.

Boys, 11 years and under—Frankie O'Neill, Hugh James O'Neill.

Slipper race—Pauline O'Neill.

Three-legged race—Pauline O'Neill and Marilyn Caughill.

Necktie race—Margaret Shuel and Bill O'Neill.

Putting clothes pin in milk bottle—Pauline O'Neill.

Bean guessing contest—Mrs. Justus O'Neill.

Six o'clock found the group reunited for supper. The election of officers and business meeting followed.

The officers for next year are: President, Bruce O'Neill, of Paquette; vice-president, Herbert Banwell, of Windsor; secretary-treasurer, Mrs. Clifford O'Neill.

Loyal Shuel, Roy O'Neill, John Shuel, and Mrs. Nora Bromley, of South Africa, addressed the gathering.

London's new taxis can do 80 miles per hour.

Edward J. Norton Passes.

Edward John Norton, aged 69, of North Ridge, died Saturday at Grace Hospital, Windsor, after a long illness. He was a retired C. N. R. railway carman, a member of the Jehovah Witnesses and of Tuscan Masonic Lodge.

Mr. Norton is survived by his widow, Olive; one son, John, of North Ridge; two daughters, Mrs. Glen Parado (Susan) of Blenheim, and Mrs. G. Badgely (Dorothy) of Windsor; six grandchildren, and one sister, Mrs. Jack Spencer, of Windsor.

The funeral service was conducted Monday at 3:30 p.m. from the Morris Funeral Home, Brother Wilmer Drager, officiating.

Burial was in Windsor Grove cemetery.

Mrs. Lloyd Ford Laid to Rest.

Funeral services for the late Lena Merle Ford, wife of Lloyd Ford, who died in her 38th year, at her home on the third concession, Gosfield South, on Wednesday evening, July 30th, following several months' illness, were held on Saturday from the Crawford & Son Funeral Home, with Rev. J. T. Flomming, of Epworth United Church, officiating. Interment took place in Greenhill Cemetery, Kingsville.

Deceased was the daughter of the late Mr. and Mrs. J. E. Barnett, and was born in Kingsville, February 27th, 1910.

Surviving are her husband, three daughters and one son, all at home; one sister Gladys (Mrs. Earl Leslie) of Kingsville, and one brother, Earl Barnett, of Essex.

Thomas Henderson Passes.

Thomas Henderson, of North Ridge, passed away at the home of his daughter, Mrs. Arthur Davies, London, Ont., on Tuesday. He was in his 75th year. Born in the Sheldahl Isles, Mr. Henderson came to Canada in 1921. His wife predeceased him in 1943. He attended Brooker Baptist Church.

Surviving are five daughters, Mrs. Arthur Davies, of London; Verna, of West Lorne; Mrs. D. Burling, of North Ridge; Mrs. W. Spinks, of Leamington; Mrs. J. W. Jordan, of Hanover; three sons, Andrew, North Ridge; Robert, of Essex, and William, of Woodlee.

The body is resting at the Kennedy Funeral Chapel, where services will be held on Friday, August 8th, at 2 p.m., with interment in Greenhill Cemetery, Kingsville. Rev. John Hunter will officiate.

Essex Explosion.

It was just 40 years ago — at 16:15 on Saturday morning, August 10th, 1907 — when the dynamite explosion occurred on the M. C. Railway tracks almost in front of the railway station in town, in which two men were killed; four others seriously injured and several others slightly hurt, and property damage to the extent of hundreds of thousands of dollars. Those of us who resided in Essex, or were in town that morning, will remember the scenes following the catastrophe, the report from which was heard clearly in Detroit. The explosive, a ton of dynamite, was in a box car, enroute to Amherstburg, where it was to be used in connection with dredging operations in the river, and the car was being switched around the yard to the Amherstburg siding when the explosion occurred. The train crew were David Cottrell, engineer; John Madigan, fireman, both in their engine; Joseph McNary and Leo Conlin, brakemen, and Thomas Barry conductor. McNary and Conlin were both killed, McNary being killed by shock and his body thrown under the bed of the car of coal, where it was burned to a crisp, while Conlin was blown to pieces, part of his body and pieces of his limbs and body being found in the trees and on the ground on Cameron avenue.

Messrs. Cottrell and Madigan were thrown out of their cab and both badly injured.

A. O. Stimers, who was talking to Mr. Cottrell at the time, received serious injuries and lacerations, besides losing his hearing. Conductor Barry and M. C. R. operator J. A. Abbott were in the station and both injured. The depot was badly damaged, the Laing-Ritchie planing mill completely wrecked, and several of their employees slightly hurt; S. B. Green's warehouses were wrecked; J. MacDougall's building was badly damaged, front every pane of plate glass on front street was broken and nearly every house and building in town more or less damaged. Wm. Trimble's house north of the track, was wrecked, while several houses in that section were damaged. A two-foot piece of steel rail was thrown over 1,500 feet, while many good sized pieces were hurled over 2,500 feet.

It will also be remembered that Dr. James Brien, ex-M.P. died that day, less than two hours after the explosion. The M. C. Ry. Co. at first disputed liability, but shortly changed their minds and lost no time settling for property as well as personal damages sustained. The courts later fined the company heavily for negligence in handling explosives.

Child Dies.

Little Joseph Andrew McFarland, 2½-year-old son of Mrs. Ruby McFarland, of Maidstone, and the late Joe McFarland, died on Friday, having been in ill-health since birth.

Funeral services were held on Monday, with burial in St. Mary's cemetery, Maidstone.

Mrs. Orpha Warren Dies.

Mrs. Orpha Warren, widow of the late J. P. Warren, former well-known carriage maker of town, passed away at the home of her daughter Hazel (Mrs. Holmes Bryan) of 18611 Goulburn avenue, Detroit, on Monday. She was 81 years of age, and had lived in town for over 60 years.

Surviving are three sons, Howard, hotel postmaster, James, superintendent of the local Hydro System, and Chester, of Windsor, and a daughter, Hazel (Mrs. Holmes Bryan) of Detroit, also a brother Thomas Watterworth of Empress, Alta.

Funeral services were being held this (Thursday) afternoon from the E. J. Hicks Funeral Home, at 1:30 p.m. in charge of Rev. John Hunter, of Detroit, formerly of Essex, and burial will be in Greenwood cemetery, Ridge town.

Hicks-Crozier Reunion.

A Hicks-Crozier Reunion celebration was held on Sunday, August 3rd, at the home of Mrs. John Crozier, at Puce. Seventy members received invitations, but owing to illness and vacations only 45 were able to attend.

Those present were Rev. and Mrs. A. B. Ransom, of Puce; Mrs. Margaret Paschall and son Warren, Mr. and Mrs. Bob Hinecman and sons Kirk and Louis, of Baltimore; Mrs. Marion Nickels, Detroit; Mrs. Ken Kramer and children; Nick and Carolyn, of Grosse Pointe; Mr. and Mrs. Adrian Hesman, Mr. and Mrs. Douglas Warren, Mr. and Mrs. Charles Warren, of Windsor; Mr. and Mrs. Gerald Trimble and daughter Louise, Mr. and Mrs. Wilfred Wigle and daughter Leona, of Windsor; Mr. and Mrs. Henry Hicks and son Raymond, of Maidstone; Mr. and Mrs. Mary Crozier and son Douglas, Miss Margaret Crozier and Bob Crozier, of Berkley, Mich.; Mr. and Mrs. Emerson Hicks and grandchildren, Jean and Douglas; Zack, Mr. and Mrs. Clifford MacKenzie and daughter Lynda, of Maidstone; Charles Miller, Harold Hicks and Marvin Crozier, of Puce.

Mrs. Charles Taylor Laid to Rest.

Funeral services were held, on Thursday last, for the late Mrs. Charles Taylor, who passed away on Monday, July 28th, in her 82nd year. Services were held in Essex United Church, with Rev. R. H. Parr officiating.

Deceased was born at Milhaven, near Kingston, a daughter of the late Mr. and Mrs. Thomas Galloway, who moved to Essex County in 1881. She was married to the late Charles Taylor, and three children were born to their union, Percy, who passed away in 1921; Violet (Mrs. Earl Wilcox) of Leamington, and Wilbur, with whom she lived, of Essex.

Mrs. Taylor, before moving to Essex, lived at Olinda for many years, moving there from Woodlee.

She was a member of Essex United Church, and in past years was a great church worker, always ready to lend a hand when needed.

Deceased was a sister of the late William Galloway, and of the late Mrs. James McMurren, of Woodlee.

Penrose-Pierce Nuptials.

In a beautiful setting of white glad-toll and sprigging daisies, at St. Mary's Anglican Church, Windsor, the Rev. H. M. Lang-Ford recently united in marriage Miss Valda June Pierce, younger daughter of Mr. and Mrs. Stanley Pierce, of Parent avenue, and Lloyd A. Penrose, son of Mr. and Mrs. Clarence Penrose, of Bruce avenue, all of Windsor.

The bride, given in marriage by her father, wore a gown of lace and tulle fashioned with long sleeves and a sweetheart neckline, the lace bodice extending low over her hips. Her three-quarter length veil was caught in a coronet of seed pearls and she carried a bouquet of white roses.

Mrs. Clarence I. Penrose, as matron of honour, and Miss Eve Kozma, as bridesmaid, wore matching gowns of coral and green, cut on princess lines. Each carried identical nosegays of yellow roses and sweetpeas.

The best man was Clarence I. Penrose, and Raymond Austin was groomsmen. The ushers were George White and Bill Taylor.

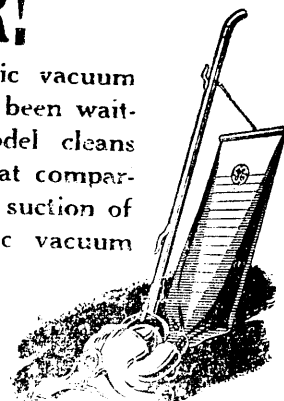

Four members of St. Mary's boys' choir sang, "Because" at the beginning of the ceremony, and "I Love You Truly," during the signing of the register.

Mrs. Pierce chose for her daughter's wedding a dress of grey crepe, a fuschia hat and gloves, and a corsage of Joanna Hill roses. Mrs. Penrose, mother of the bridegroom, wore printed aquamarine crepe with white accessories, and a corsage of Briarcliff roses.

A reception followed the ceremony, the bride's table being centred with a wedding cake flanked with tall white tapers.

WITH THE BOY SCOUTS

Named Scout Patrons.

Hon. Ray Lawson, Lieutenant-Governor of Ontario, and Hon. C. A. Banks, C.M.G., Lieutenant-Governor of British Columbia, have been named Boy Scout Patrons in their respective provinces, with the approval of His Excellency, Viscount Alexander of Tunis, Chief Scout for Canada.

Cub Calm and Capable.

After discovering a fire in his home, Billy Taylor, an 11-year-old Toronto Wolf Cub, carried his two-year-old sister, Leona, to the street, assisted his other two sisters, Catherine, eight and Margaret, seven to the street, then turned in an alarm. Said the Cub: "I hope my Cubmaster will be proud of me."

Head Manitoba Scouting.

W. D. Watson, K.C. of Winnipeg, is the new president of the Manitoba Boy Scout Council, while C. H. P. Killick, also of Winnipeg, is the new Scout Provincial Commissioner. They succeed Horace Everett and T. E. Saul respectively, both of whom have retired.

Quebec's First Lone Scout.

To Bill Ewart, of Otterburn Park, Quebec, goes the honour of being the first recognized Lone Scout for that Province, which is now organized to develop this branch of Scouting for boys in rural areas. Under the direction of Thurston Archibald, a well-known Scout Leader in Montreal, the Quebec Lone Scouts will have their own monthly publication called Scouting Trails.

Former Scout Heads College.

Dr. M. M. MacDermid, M.A., Ph.D. newly appointed president of Carleton College, Ottawa, is a former Boy Scout and proud of it. He began his Scouting with St. John's Presbyterian Church Troop at Moncton, N.B.; later he was a Patrol Leader in the Calvin Presbyterian Church Troop at Pembroke, Ontario, and in Halifax, N.S. He became Scoutmaster of one of Canada's first kilted Scout Troops, sponsored by the North British Society in that city. While in Sydney, N.S., Dr. MacDermid served as a Scout Group Committeeman. "Scouting did a lot for me as a boy and I shall always regard the Movement as very worthwhile," said the new president of Carleton College in reviewing his associations with the Boy Scout Movement in Canada.

Hay Fever Relief Promised.

At the end of August and early in September thousands of Canadians will be sneezing their heads off. Some have tried escaping from the hay fever plague by retreating to northern lake areas. Others have used injections. A few have built air-conditioned rooms where they lock themselves up during the late summer season when the off-fending ragweed pollen permeates the outdoor atmosphere.

But the woes of these perennial sufferers may soon come to an end. According to R. E. Cudmore, development manager of the agricultural chemicals division of Canadian Industries Limited, pollen production of ragweed can be reduced or entirely eliminated by proper spraying of the weed with the selective weed killer 2, 4-D.

If this herbicide is applied at the appropriate stage before the pollen-bearing parts of the flower open and begin to ripen, results should be gratifying, Mr. Cudmore said.

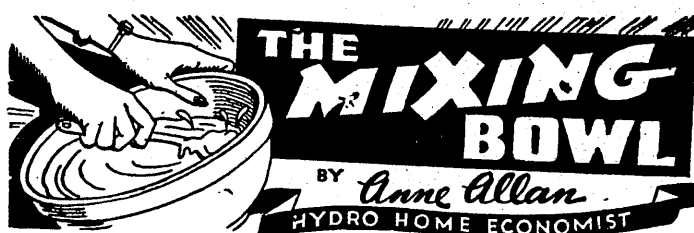

While in some areas ragweed has been killed by a single application of 2, 4-D at a concentration of 1,000 parts per million, the complete destruction of the weed was not desirable in certain sections where it has some value in preventing soil erosion. In such instances spraying with 250 parts per million 2, 4-D was sufficient to halt pollen formation.

Mr. Cudmore cautioned that while 2, 4-D was relatively harmless to grasses, it is injurious to many economic and ornamental plants and must be used with care in their vicinity.

Noise Hazards.

Output of an industrial establishment may fall as low as 40 percent of normal due to the noise hazard, declare industrial health experts. The Department of National Health and Welfare points out that noise is more than a mere nuisance—it has a detrimental effect on health, particularly of workers in noisy industries. Sound, proofing and noise control measures, outlined in a new departmental publication now on issue, are recommended to employers and employees.

It is difficult to say which may be most mischievous to the human heart, the praise or the dispraise of men.—Mary Baker Eddy.

THE MIXING BOWL

BY Anne Allan

HYDRO HOME ECONOMIST

Hello, Homemakers! "Cook" and be cool with a refrigerator! Take short cuts to cool summer cooking by storing in your electric refrigerator an adequate supply of crisp vegetables and flavourful fruits, chilled fruit juices and even dough and batter to be baked on short notice. Frozen desserts and gelatine dishes are increasingly popular and for this reason the refrigerator is taking its rightful place in the kitchen alongside the range. We think your family will enthusiastically demand entrees when you serve the following well-tested recipes:

VANILLA ICE CREAM.

- 1 1/2 cups top milk
- 2 eggs
- 1/2 cup sugar
- 1 tablespoon corn starch
- 1/2 teaspoon salt
- 1/2 pint (1 cup) cream
- 2 teaspoons vanilla.

Scald milk. Beat egg yolks, adding sugar and cornstarch. Combine with hot milk and cook over water 20 to 25 minutes, stirring occasionally. Cool. Beat egg whites until stiff. Add salt and fold into custard; add vanilla. Pour into tray and freeze to a heavy mush. Remove from electric refrigerator and beat until fluffy. Fold in whipped cream and return to freezing tray to finish freezing.

VARIATIONS.

Peach Ice Cream: Flavor vanilla ice cream with 1/2 teaspoon vanilla and 1/2 cups almond extract, and add 1 1/2 cups crushed and sweetened peaches. **Peanut Brittle Ice Cream:** Add 1/2 cup crushed (rolled) peanut brittle to vanilla ice cream when folding in whipped cream.

Macaroni Bisque: Flavor vanilla ice cream with sherry flavouring and add 1/2 cup almond macaroni crumbs when folding in whipped cream.

ORANGE FLUFF.

- 1/2 cup granulated sugar
- 1/2 cup cold water
- grated rind of 2 oranges,
- 1 cup orange juice
- 1/2 teaspoon granulated gelatin
- 1 tablespoon cold water
- 2 cups whipping cream.

Cook together the sugar and the cold water in a saucepan on low heat until a little of the mixture drops from cold water forms a soft ball. Remove from the heat and add the grated orange rind, 1/2 cup orange juice and the gelatin which has been sprinkled over 1 tablespoon of the cold water. Cool thoroughly. Whip the cream with a hand beater or an electric mixer at high speed until stiff, then add the orange mixture. Pour 1/2 cup orange juice into the bottom of a freezing tray of an electric refrigerator. Pour the orange cream mixture on top.

True Prayers.

"Pray for one another," admonishes James (5:16) "that ye may be healed." The effectual fervent prayer of a righteous man availeth much," Christ Jesus, our Lord, has taught us how to pray. His disciples how to pray effectively, and today righteous prayer still heals the sick.

Christian Science reveals and makes available to all mankind the essentials of true prayer. It explains what constitutes effectual and healing prayer, and how such prayer purifies and spiritually enlightens thought.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, writes in "Science and Health With Key to the Scriptures" (p. 9): "The test of all prayer lies in the answer to these questions: Do we love our neighbour better because of this asking? Do we pursue the old selfishness, satisfied with having prayed for something better, though we give no evidence of the sincerity of our requests by living consistently with our prayer?"

Are we earnestly seeking the solution to some problem, perhaps release from physical illness? Do our prayers seem as yet unanswered? How fully are we "living consistently with our prayer?" Perhaps a little more love and patience needs to be expressed toward a member of the household or a co-worker. Perhaps a kindly and unselfish deed needs to be done for another. It may need only a little more love consistently expressed here and there, a little more understanding given them, to break the confusion and mesmerism of mortal sense testimony and reveal the solution to our problem.

Proportionately as we identify ourselves with the source of all good, with universal Love, with the all-knowing Mind, all-governing Principle, more good is revealed to us, and we express such spiritual qualities as love, mercy, wisdom, purity, satisfaction and the like in our daily living.

The recognition and grateful acknowledgement of these Godlike qualities as natural to man, and the demonstration of them in daily living is effectual prayer which heals and blesses all.—Christian Science Monitor.

REFRIGERATOR ROLLS.

- 1 cup boiling water
- 1 cup shortening
- 1/2 cup sugar
- 1 1/2 cups bran
- 1 1/2 teaspoons salt
- 2 eggs
- 2 cakes compressed yeast
- 1 cup lukewarm water
- 7 to 8 cups flour

Pour boiling water over the shortening and stir until melted. Add sugar, bran and salt and mix well. When cool add beaten eggs, yeast cakes dissolved in the lukewarm water. Add salt, 1 to the lukewarm water. Put flour and knead until smooth. Put dough into a bowl and spread with a little melted shortening and cover with wax paper. Set in the refrigerator until ready to use. Cut off small amounts of the dough and shape in balls and place in greased muffin pan. Cover and let rise in a warm place until double in bulk, about 1 hour. Bake in pre-heated electric oven (400 degrees) for about 20 minutes. Makes 3 1/2 dozen rolls.

TAKE A TIP.

1. Wet the bottom of a freezing tray containing cream mix to make freezing quicker.

2. Beat ice cream mix as soon as it is frozen to a mush; then return to refrigerator.

3. Excessive sugar or syrup prevents freezing.

4. If the refrigerator needs defrosting, freezing will be slow.

5. If ice cubes have an unpleasant taste, the trays and freezing unit should be thoroughly cleaned. Lemons and oranges should be placed lower in the cabinet if the aroma is of the oily citric nature.

6. As soon as the ice mixture is frozen firm, move the indicator half way back to normal.

THE QUESTION BOX.

Mrs. T. H. asks: How do you pasteurize milk?

Answer: Heat milk in double boiler to 143 degrees and keep it at that temperature for 30 minutes; or bring the milk to full rolling boil, then take off stove instantly. Heat as soon as froth subsides heat again to boiling point and repeat once more. The milk in either case should be cooled quickly in another pan surrounded by ice or running water.

Mrs. M. M. asks: How do you suggest storing bread at the cottage to prevent moulding.

Answer: Keep bread in loosely wrapped wax paper and place in a ventilated, clean tin. A tiny glass of baking soda left in one corner of the box absorbs any aromas.

Mrs. J. B. asks: How to prevent cloudy cranberry juice to clear jelly and help it set quickly.

THE WEED OF THE WEEK

Chicory. Chicory, sometimes referred to as "Blue Devil," is a noxious perennial weed with a long, thick, tap root, found growing usually along roadsides, fence lines, in old pasture fields and vacant lots. It may sometimes appear in a grain field, particularly where plowing or cultivation has not been thorough. Chicory grows from one to three feet high, and the stems are almost leafless, slightly hairy, with numerous flowers along the stem. Flowers are bright blue in color, about 1 1/2 inches in diameter, and are usually closed by noon.

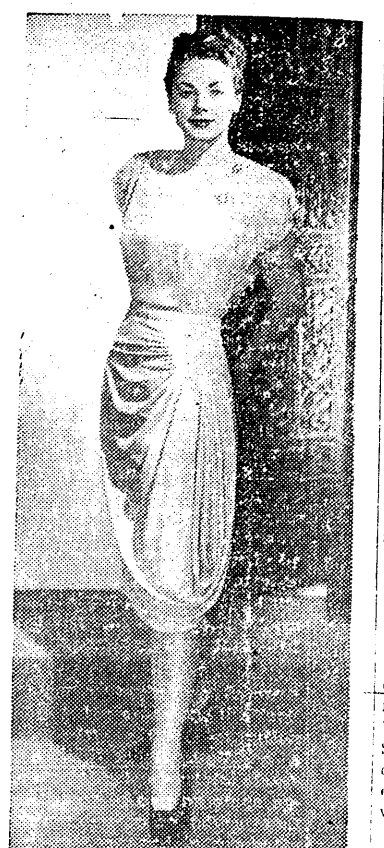

This weed begins to flower during July and continues until frost. It has the unfortunate ability to send up new shoots quickly after it has been cut off, and in two or three weeks time will again be in bloom. An average plant will produce 3,000 seeds, and these are frequently found as an impurity in clover and grass seeds.

Chicory is spreading rapidly over the Province of Ontario, and is classified as a noxious weed under the regulations of both the Weed Control Act and the Seeds Act.

Action should be taken to destroy this weed whenever it is found. In cultivated fields, a short rotation of crops, including deep, thorough after-harvest and fall cultivation, will soon cause it to disappear. Since the seed of Chicory is a common impurity in clover and grass seeds, it is important to sow clean, graded seed. On roadsides and other places where cultivation is impractical, and where chicory has become established, the best and most effective control method is spraying with a chemical weed killer. Atacide, Stephen weed killer, or a 2-4-D weed killer will all do an excellent job of controlling chicory. Spraying should be done before seeds mature, and the recommendations contained in the circular, "Chemical Weed Control," should be followed carefully. This circular may be obtained on request from the Crops, Seeds and Weeds Branch, Ontario Department of Agriculture, Parliament Buildings, Toronto.

To be able to bear provocation is an argument of great reason, and to forgive it of a great mind.—Tillotson.

Another War to Fight.

Canada is fighting again... fighting a war against a grim killer that takes the lives of 14,000 Canadians every year... men, women and children.

The killer is cancer. During World War II, 40,000 Canadians gave their lives in the cause of freedom, and yet, over the same period, 82,000 Canadians died of cancer! Cancer is no respecter of persons, of age or sex. It invades the homes of the wealthy and poor alike. Striking down the breadwinner, the mother, the child, young and old are victims. Cancer kills 39 Canadians every day.

Let us face the facts. One out of every three persons with cancer may be saved if treated in time. Fear keeps many people away from their doctor until it is too late; ignorance plays its vicious part too, in the mounting toll of cancer victims.

The Ontario Branch of the Canadian Cancer Society is fighting ignorance and fear of cancer by conducting a membership drive from April 1st to 30th inclusive. Memberships are a dollar each. The Society's objective is "A Member in Every Home in Ontario." Send in your dollar to the Canadian Cancer Society, 280 Bloor Street West, Toronto, and a membership card will be mailed directly to you. It will entitle you to receive up-to-date information about treatments for cancer, with instructions about symptoms of the dread disease. Be on the alert. Protect your family and yourself by joining now.

The Australian and Philippine climates are similar.

Supper in a Casserole.

It is a joy to have the family come into the kitchen stamping the snow from their overshoes and sniffing the aroma of the kitchen as they say "O boy," that smells good, or "O mother that makes me hungry. What is it?"

When the table is set and the casserole makes its appearance, it is equally comforting to see its contents disappear with sighs of complete satisfaction.

The casserole meal has several advantages. It may be prepared ahead of time and set aside ready for reheating. It may be a combination of raw and cooked foods; it may utilize small amounts of left-overs in combination with fillers—foods such as macaroni, bread crumbs or potatoes. It needs no attention during cooking and if the kitchen stove burns coal the oven is already hot.

There are several invariable rules for casserole cookers. The sauce should be flavourful; the mixture should be substantial. It should be topped with something "crispable" such as bread or cracker crumbs, cereal flakes, potatoes or bacon.

While casserole dishes made by the "what have you—hit or miss" rule cannot go as far wrong as some other mixtures it is better to follow a recipe. The home economists of the Consumer Section, Dominion Department of Agriculture have suggested several interesting casserole combinations for winter suppers.

Navy Bean Royal

- 1 cup white navy beans
- 3 cups cold water
- 1/2 teaspoon salt
- 3 tablespoons mild flavoured fat
- 3 tablespoons flour
- 1 cup milk
- 1/2 cup grated cheese
- 2 tablespoons chopped onion
- 1 egg
- 2 cups soft bread crumbs
- 1 tablespoon chopped parsley (optional)

Pick over, wash and soak beans overnight in cold water to cover. Drain. Simmer in salted water until tender about two hours. Drain and wash. Melt fat in a saucepan blend in flour, add milk gradually stirring until thickened. Add onion and all but two tablespoons of cheese and stir until cheese is melted. Stir in beaten yolk, bread crumbs, parsley and beans. Fold in stiffly beaten egg white. Turn into greased casserole and sprinkle the remaining 2 tablespoons of cheese on top. Set in a pan of hot water and openproof at a moderate oven, 350 F. for 30 minutes. Six servings.

CABBAGE WITH SAUSAGE.

- 8 cups shredded cabbage
 - (1 medium cabbage)
 - 1 teaspoon salt
 - 1 cup boiling water
 - 1 pound sausage
 - 1/2 teaspoon caraway seeds
 - 1 cup boiling water
- Cook cabbage with salt in 1 cup boiling water, 5 minutes. Brown sausage in frying pan. Place in a casserole, cover with cooked cabbage. Pour off all but two tablespoons of fat from the frying pan. Add 1 cup boiling water to the pan and bring to boil. Pour over cabbage and sprinkle with caraway seeds. Bake uncovered, in a hot oven, 425 F. for 10 minutes. Six servings.

NOTE: Weiners may be substituted for sausage.

The Australian and Philippine climates are similar.

Bus and Truck Drivers Aid Warble Fight.

Some bus and truck drivers in Canada have put the finger on the Dominion Department of Agriculture. And all because of the Department's warble fly campaign.

For years the Department has conducted an extermination campaign against the warble fly. As a result, this fly has been practically wiped out in some farming areas. Regrettably, it still continues its costly damage in most parts of Canada.

The grubs of the warble fly burrow through the bodies of cattle, emerging on the back, where they bore holes through the hide. In addition to spoiling leather, the fly also robs the farmer of the herd's milk, for when it approaches the cow to lay eggs on the animal's heels the fly terrifies the cow, causing her to run wildly, tail aloft, and losing her output of milk.

It was to illustrate the costliness of failing to control the warble fly that the Department last year issued a warning poster. On it, L. B. Jameson, artist of the Department Division of Entomology drew a cartoon of a lean and hungry cow in full night with warble flies hot on her heels. Along this frantic creature were the words, "Fast, ain't she?" and below, "But you can't keep meat on a warble."

Illustrating its point perfectly, it poster caught the attention of cattle producers so impressively that they stepped up their purchases of warble wash.

Not only farmers took to this poster, bus and truck drivers did, too. The drivers pasted the picture of the speeding cow and the query, "Fast, ain't she?" to the side of their vehicles. And as they drove their buses and trucks along the highway the racing cow speeded along with them.

But as the cow was drawn running toward the left side of the poster, the drivers could paste her only on the right side, should be facing backward. The drivers say the Department now has to help them.

So what they are now asking is that the Department on its 1947 warble fly poster depict a postered cow heading for the right. And they'll probably get what they want.

Artist L. B. Jameson says he can draw a cow running right as easily as running left and he adds, "While the Department isn't primarily in the business of decorating trucks and buses, it does welcome any means of spreading warnings against the warble fly. And more farmers will see the poster on the curb side of the vehicle."

It is easier for the generous to forgive than for the offender to ask for forgiveness.—Edward Thomsen.

—Sunday visitors of Mrs. Middleton's, Alice street, were Mr. and Mrs. Kenneth Wills and two children, and Miss Elliott, of Vancouver, B.C.; Mr. and Mrs. Webb, of Windsor. Mr. Wills and party were enroute to Buffalo, N.Y., to attend the World Convention of Disciple Church. Mr. and Mrs. Gordon Middleton, of Windsor, visited at Mrs. Middleton's on Thursday evening last.

—Mr. and Mrs. William Wardle left on Thursday for an extended trip through the Canadian West to Vancouver and California. Mrs. Grace Kerr accompanied them as far as Vancouver.

—Mr. and Mrs. Wm. A. Jackson and son Billie, and Mrs. Ida Maedel visited friends the past week at Peterborough, Toronto and Goderich, where they found Mr. and Mrs. Ray Jackson in good health.

—Mr. and Mrs. Asa Shepley wish to announce the engagement of their youngest daughter, Ruby Maxine, to George Arnold Greenham, son of Mr. Greenham, of Harrow, who will marry on August 9th, at Harrow United parsonage.

—Mr. and Mrs. G. F. Butts, of Essex, announce the engagement of their younger daughter, Barbara Ruth, to Edgar Thomas Huggard, son of Mr. and Mrs. Thomas Huggard, the marriage to be solemnized August 16th, at 3 p.m. at St. Paul's Church, Essex.

—Card of Thanks—Friends of the community of Cottam. Your kind expressions of sympathy are gratefully acknowledged and deeply appreciated.—William Crossley and family.

—Card of Thanks—The family of the late Mrs. Charles Taylor wish to express their most sincere thanks and gratitude to friends and neighbours for their many acts of kindness and expressions of sympathy shown them in their recent bereavement. Special thanks to Rev. R. H. Parr, Mrs. Elsie and Mrs. Brown, and to those who acted as pallbearers, sent flowers or loaned cars.

—Card of Thanks—Mrs. Charles Maedel and family wish to express their heartfelt thanks to their many friends and relatives for sympathy, floral tributes and loan of cars, in their recent bereavement in the loss of a loving husband and father. Special thanks to Rev. R. H. Parr and members of Essex United Church, and to Nelson Shuttleworth, soloist, and to members of Ambassador Rebekah Lodge, Essex, and to E. J. Hicks and staff.

The Holiday is Over.

We hope everybody had a very enjoyable time over the last long week-end — even the league took a holiday on the 4th, but the game will be played off after the regular schedule is over. I'm sorry the ball schedule wasn't in the paper last week, my intentions were good but I didn't know that illo-tyrists just don't look on the back of pages and that's where it was.

This week I have only three games to re-vent and put forth. I think you heard last week of the drubbing the Kinsmen received from the Legion, so we let that stay under the counter.

On July 30th Stokely's tangled with the G. M.'s and with typical Oldsmobile flash they sped out in front and took the Dealers to the call of 8 to 2. Art Milne pitched for Stokely's (you wanna game of marbles, Art) and was charged with the loss, and then Ches Ganger took over to finish off the game.

The Thursday game between the Bowlers and Kinsmen was postponed in due respect for Mr. Maedel, who had been such an ardent sports enthusiast as anyone on the ball team will readily agree.

On Friday, August 1st, the Legion took the field against the G. M.'s (Moe's recruits) and I hear it was a superb game and a tight one, as the score of 4 to 3 would indicate. The G. M.'s took the tilt behind the fine pitching performance of Damm, the pitcher (Jr.). It's the first time the Legion has been beaten this year, but it's no disgrace with such a score.

On August 5th, the Legion played Stokely's and started on another winning streak, by taking Stokely-Van (into) Camp by a score of 11 to 9. Our Wyeth pill traveller pitching for Stokely and Wid Traveller receiving; Moe's and Hines the upholding battery for the Legion.

Next Week's Schedule.

Friday, August 8th — Bowlers vs. Legion.

Monday, August 11th — Bowlers vs. Stokely's.

Tuesday, August 12th — G. M.'s vs. Kinsmen.

Wednesday, August 13th — Kinsmen vs. Bowlers.

Thursday, August 14th — Stokely's vs. Legion.

Friday, August 15th — Legion vs. G. M.'s.

All games start at 6.45 each night, so how about a little moral support?

Lt.-Col. G. H. Wilkinson Dies.

Lt.-Col. George H. Wilkinson, aged 68 years, of 1319 Douglass avenue, Windsor, prominent Windsor social merchant, and original organizer of the Essex Scottish Regiment, died suddenly from a heart attack, early Sunday morning.

Deceased was born in Essex and moved to Windsor 58 years ago, with his parents.

He was a member of Great Western Lodge, No. 47, A. F. & A. M., a member of Windsor Rotary Club, the Windsor Chamber of Commerce, and the Windsor Retail Merchants' Association. He was also a veteran of World War I, in which he suffered severe wounds in battle.

The late Colonel came from an old Essex County family, a family that has been military in its tradition from as far back as it can be traced.

Parents Born in Barracks.
His father, Robert James Wilkinson, a son of Sgt. and Mrs. James Wilkinson, was born in the barracks at old Fort Malden, at Amherstburg, 107 years ago. His mother was born in the barracks at old Fort Niagara.

Col. Wilkinson's father died 23 years ago, and his mother 13 years ago — both at the age of 84.

Shoes Made in Essex.
Robert James Wilkinson had a flourishing shoe business in Essex, in the building now occupied by Norman Prince, Jeweller, and Ward's Meat Market, employing a number of shoemakers who made shoes to measure, about the only way they were available in those days.

Col. Wilkinson went to school in Essex and, at Windsor, attended the old Central School (the present City Hall) and the old Windsor Collegiate Institute (now Patterson Collegiate).

Col. Wilkinson entered the shoe business with his father, this business was located at several addresses on Sandwich street west, before it moved to Ouellette avenue.

In 1903 Col. Wilkinson married Edna Fletcher, daughter of the late Mr. and Mrs. John Fletcher, of Windsor, who survives, with two sons, George and Fred, both of Windsor; one brother, Arthur J., of Kingsville and one sister, Mrs. Mary Brinsden, of Windsor, and Mrs. W. G. (Edith) Wiloughby, of Miami, Fla.

Funeral services were held on Wednesday and burial, with full military honours, took place in Windsor Grove cemetery.

of endeavour. Indeed it is a source of much regret that Canadians fail to realize that within our own borders lie opportunities which are the envy of the nations.

The physical resources of this Canada are limitless. We have the space for the thousands throughout the world who are looking for new homes. Their skills, added to our own and leavened with energy, courage and ambition, together with the realization that no goals are too distant to be attained, will lead us on to achievements in peace equal if not greater than those much better publicized in other lands.

This change, from a country suffering from a condition popularly described by that misleading term, "inferiority complex," to one which takes a healthy pride in the achievements of our citizens and which is populated by men and women confident in their own abilities — cannot take place overnight. It will not take place at all unless each one of us decides that in our day to day existence we will do all things necessary to make this country fulfill her promise.—Liberty Magazine.

Dangerous Fuel.

Need for care in using makeshift substitutes for recognized types of fuel, noted by the Department of National Health and Welfare. Commenting upon U. S. reports of persons suffering from lead poisoning due to burning of old leaded battery cases during a cold snap, the health authorities advise against putting on the fire anything not specifically designated for burning, because of the possible emission of noxious fumes, or even of an explosion.

New Bulletin on Home Can- ning Free.

With the canning and preserving season in full swing, a timely publication is now available from the Dominion Department of Agriculture. It is entitled "Home Canning of Fruits and Vegetables," and was prepared by the Consumer Service of the Department. It answers most of the questions likely to arise when canning fruits or vegetables, or making jams and jellies, pickles and relishes.

The section on canning indicates the equipment required, and explains every step to take until the fruit or vegetable is processed, sealed in the containers and ready to be stored for future use. The chance of error is reduced to a minimum by the inclusion of a processing time table giving full instructions for the preparation of each kind of fruit and vegetable and the time required for processing.

The sections dealing with the preparation of jams and preserves, jellies, pickles and relishes, are dealt with in similar way, and the reader can tell at a glance how to go about preparing and processing the product required. Recipes, which have been carefully tested, are also given for a number of jams and jellies made from a combination of different fruits, such as cantaloupe and peach jam, grape and pear jam, choke cherry and apple jelly, and several recipes appear for pickles and relishes.

Many of the problems which arise in canning and preserving are answered in the final section under the caption "Questions and Answers." A glance through this section before starting would well repay the housewife for it contains suggestions which help in producing a first-class long-keeping product and one of which the housewife can be justly proud, and of which the members of the household will doubtless show their approval.

A copy of the bulletin may be obtained on request to the Dominion Department of Agriculture, Ottawa. Ask for Publication 7889.

PEOPLE ARE ASKING?

Q.—I am a farmer buying corn from a neighbouring farmer. Is there a price ceiling on corn?

A.—If you are buying the corn for your own use there is no price ceiling. If you are buying it to resell you must obey price ceiling regulations.

Q.—Our church group intends selling some homemade jams and jellies at a fair. Must we have the prices approved?

A.—Since regulations vary for different fairs and you have not mentioned the name of the fair at which your group intends making the sale we cannot give you complete information. Will you please consult the nearest office of the Wartime Prices and Trade Board office giving all details.

Q.—I operate a small booth on a highway. May I sell hot dogs on Tuesdays and Fridays?

A.—No, you may not. Board regulations prohibit all public eating places from selling wieners or frankfurters to the general public on meatless days.

Q.—Where should I write to obtain priorities on construction materials?

A.—Write to the office of the priorities officer, 11 Jordan street, Toronto.

Beet Farmers Swinging to Mechanization.

Extent of the Ontario sugar beet industry's trend toward mechanization is evidenced by the report of farmers of this district have agreed to purchase every harvester and loader available for use during the 1947 season.

As a result of the serious post-war steel shortage supplies of labor-saving machinery are still limited but advance indications point to vastly increased production of both harvesters and loaders in 1948 when demand is expected to be heaviest.

While only nine loaders were in use in southwestern Ontario last fall, a new shipment of 24 machines was recently received. All of these will be in use when the beet-harvesting season opens in October.

Two types of harvesters are particularly popular this year and will do much to speed up the gathering of the beet crop. Machines of other makes have also been introduced to the province and will be used this fall on an experimental basis.

A number of the harvesters and loaders will be used by custom workers who will go from field to field as the season progresses. Individual farmers who have purchased loaders, have indicated that they will pool some of their machinery with neighbours until deliveries of equipment from the U. S. A. are speeded up.

Mechanical cross-blockers also won favour in Ontario this year and growers anticipate that more will be used next spring.

In line with the swing towards mechanization of the industry, the Company has completed arrangements for mechanical unloading of the entire beet harvest delivered to the factories.

Reports that farmers have already purchased about \$100,000 worth of new equipment for handling sugar beets and that they are planning to make even larger investments next year, are regarded as an indication that heavy increases in acreage are being planned for 1948.

Houses, Please.

It is a source of considerable regret that the Parliament prorogued without some concrete major action being taken to deal with the deplorable shortage of homes.

One needs no official figures to bring home the urgency of the matter. There are people in this country today existing in hovels; over-crowding is commonplace.

Governments — federal, provincial and municipal — have been juggling this hot potato from one to the other. They are distinguished only by their common desire to do nothing in a situation which calls for action.

Apparently the private building industry has no solution for the problem, and even those whose homes which are being constructed are priced well outside the range of those who have the greatest need for them.

It is to be hoped that the legislators who should do something to bring order out of chaos will speedily make plans to build houses in place of political castles in the air.—Liberty Magazine.

Praise, like gold and diamonds, owes its value only to its scarcity. If becomes cheap as it becomes vulgar, and will no longer raise expectation or anti-mate enterprise.—Samuel Johnson.

Harvest Apple Sprays.

Rarely have laboratory researches been adopted commercially so quickly and so widely as the harvest spray for apples. Tests carried out by the Bureau of Plant Industry, United States Department of Agriculture, in 1939, showed that two plant growth substances, naphthalene acetic acid and naphthalene acetamide, when sprayed on apple trees were generally effective in reducing the drop. This discovery stimulated widespread interest among fruit research workers and in 1940 a great deal of experimental work was conducted in the United States and Canada. Several manufacturers responded to the demand for these in use when the beet-harvesting season opens in October.

Investigations conducted from 1940-46 by the Horticultural Division in Ontario, have established that harvest sprays offer promise to apple growers in Ontario and Quebec in controlling the pre-harvest drop of Grimsen Beauty, Melba, Yellow Transparent, Wealthy and McIntosh apples. As in all spraying operations the effectiveness of harvest spray is dependent upon good coverage. In the trials at Ottawa the entire tree was sprayed with a very important role in the effectiveness of this spray. The spray material was noticeably more effective when the temperatures were relatively high, particularly with the McIntosh variety. Disappointing results were mostly obtained when sprays were applied during cool weather.

The spray was most effective on the summer than on the fall varieties. The relatively high temperatures generally prevailing when the summer apples reach maturity was considered to be the main contributing factor. It was observed that the sprays were quite effective on trees suffering from leaf scorch and winter injury. Moreover, that the sprays were not as effective in years in which rainfall was low as when it was average. In other words, the physiological condition of the trees is very important in determining the amount of control that may result from the use of hormone sprays. The commercial preparations used in these experiments gave essentially the same results and it is apparent that the commercial products are well standardized.

No had effect of the spray on the foliage and fruit has been observed in the investigations to date. The effect on the fruit is merely that of delaying its dropping by slowing down the processes taking place in the abscission by slowing down the process, thereby allowing for better colour development. This improved colour and longer picking season is perhaps an even more important feature of the spray than preventing fruit drop since the extra fancy grades are becoming more and more in demand. The grower must exercise extreme care in the use of this spray to obtain a better finish as the mistake may be made of allowing the fruit to remain on the tree for too long, thus becoming too mature for the best keeping quality, particularly in cold storage. In the 1946 trials on Melba it was observed that these hormone sprays directly advanced the maturity of the fruit. This may effect a considerable saving in picking the summer apples. These sprays should prove highly valuable not only in protecting apple growers in Canada from losses resulting from heavy fruit drop in summer varieties and the McIntosh but also in improving the quality of these apples.

Hints on Dairy Herd Management.

At this season of the year the problem of controlling flies becomes a pertinent factor in dairy herd management. A heavy infestation of flies, not only has a detrimental effect on milk production but necessitates added precautions in maintaining sanitary conditions.

With the development of DDT (dichloro-diphenyl-trichloroethane) cattle owners have acquired a new and powerful weapon to assist in solving the problem of fly control. Its usefulness as an insecticide has been demonstrated by the Dominion Entomological officials at the Animal Husbandry Division, Ottawa, with excellent results, says V. S. Logan, of that Division.

Pure DDT is never used as an insecticide, but always is mixed or combined with other ingredients to make it useful for certain definite purposes. The most satisfactory form for use on cattle is water-dispersible DDT, that is, mixed with a wetting agent. In this form the fine particles of DDT are held in suspension similar to clay in water. When cattle are sprayed with such a liquid, the DDT particles are left clinging to the hair and skin where the flies come in contact with them. DDT in this form is not absorbed through the skin and can be used with safety.

A spray that is being used at the Central Experimental Farm, Ottawa, on dairy cows is made up as follows: Mix one pound of 50 per cent DDT wettable powder in 2½ to 5 gallons of water. This gives a concentration of from one per cent to two per cent spray. This has proved satisfactory for controlling cattle flies.

In addition to its use on dairy cows to control cattle flies, DDT may be used in and about dairies and stables.

Winter Wheat in Ontario.

Statistics show that there has been a gradual improvement in the yields per acre of winter wheat in Ontario say officials of the Cereal Division, Central Experimental Farm, Ottawa.

This has been attributed largely to better cultural practices and to the more common use of fertilizer. Growing winter wheat offers many advantages. It is seeded in the fall and is ready to resume growth in the early spring. This is especially valuable in wet years such as the present one when the seeding of spring cereals has been seriously delayed. Perhaps one of its chief advantages is that it helps appreciably in the distribution of labour. In addition it has a ready market as a cash crop as well as being valuable as feed.

Winter wheat may follow sod, fallow, inter-tilled crops or peas. If soil is ploughed down, it must be done early, and the field must be thoroughly cultivated for several weeks before seeding time in order to reduce the competition for grasses. Many a crop of winter wheat has been reduced by heavy stands of volunteer grass. Only fields that provide good natural drainage should be sown to winter wheat.

Many soil types are seeded to this crop. On land which has been manured or which has grown legumes, superphosphate at 250 to 300 lbs. per acre should be beneficial. Otherwise, 250 to 300 lbs. should be applied. On light soils, more potash in the fertilizer mixture is advisable.

Winter wheat seed should be thoroughly cleaned before planting. Seeding blights and stem smut are controlled with mercurial dusts applied at the rate of ½ ounce per bushel. Loose smut, however, is not controlled by this treatment. When this disease is troublesome, secure seed from a crop free from this disease. If this is not possible, a portion of the seed should be hot water treated, and sown on a field, isolated from other wheat crops, to provide smut free seed for next year's crop.

Winter wheat is seeded at 1½ to 2 bushels per acre at the end of August or the first week of September throughout the greater part of Ontario but this date may be advanced to the second week in Southern Ontario. For Eastern Ontario, Rideau is the recommended variety because of its greater winter hardiness. Dawson's Golden Chaff and the recently licensed variety, Cornell 595, are recommended for areas further west in the province. The bearded variety called Genesee, Reliable has yielded well in certain areas in Southern Ontario and for this reason is included among the recommended varieties.

When it is sprayed on the walls and ceilings of the stable or dairy, DDT kills houseflies, stable flies and mosquitoes that alight on the sprayed areas. It is also effective against cockroaches when the spray is directed into the cracks and crevices. Where the residue on surfaces is not affected by weather it will continue to kill flies, four or more weeks after application. The liquid should be applied as a fine wet spray (not a mist) in sufficient quantity to wet the surface without undue runoff.

When DDT is used for fly control in buildings the spray concentration may be stronger. One pound of 50 per cent DDT wettable powder in one gallon of water is satisfactory. Another suitable spray for application to building surfaces consists of 5 per cent by weight of DDT in a refined kerosene (coal oil) base, i.e. approximately one pound DDT to 2 gallons kerosene. Care should be exercised in seeing that all food or drinking vessels are covered before spraying as like most other insecticides DDT is poisonous to livestock when swallowed in large amounts.

Divide Bee Colonies Before End of July.

Whether the intention of the beekeeper is to increase the number of colonies, the method is by division of colonies. It is important that any division of colonies should be made during the main honey flow, not later than the last week of July, so that the new colonies may have ample time to become strong before winter. Where honey production is the main consideration, the colony should be divided only once. Where the increase of colonies is the desired object, the following methods may be used, advises C. D. Gooderham, Dominion Apiarist.

At the beginning of the main honey flow when the colony has reached full strength, move all brood to an upper super, above a queen excluder, leaving the queen below on empty combs. If the queen has occupied two chambers, place all brood possible in the upper one. Nine days later, split the brood that is in the supers into two frame nuclei, leaving one queen cell in each nucleus — or, better still, destroy all queen cells and introduce a young laying queen to each.

As soon as the colony becomes strong at the beginning of the main honey flow, remove two combs of emerging brood with adhering bees and one comb of honey; place these in a new hive; lay up with drawn comb and introduce a laying queen. Replace the combs taken from the parent colony with empty drawn combs. This can be repeated four or five times during the honey flow.

Make the division in the evening and do not disturb them for at least seven days. Assist weak nuclei with brood from very strong colonies and keep them well supplied with food. When the first brood is raised to the super the beekeeper should rear a few queens from his best stock in order to have young queens when the divisions are made, using the super containing brood for finishing the cells.

Important Factors in Insect Study.

"In the study of forest insects and their control, there is much more involved than merely the study of insects. The study of these alone, without reference to other factors in their environment, will not give much insight into the role of insects in the forest or the factors which tend to increase or decrease their numbers. Rather, forests must be regarded as plant and animal communities and an attempt made to evaluate and understand all of the interrelationships of the organisms which live within such communities." G. R. Hopping, Division of Entomology, Science Service, Dominion Department of Agriculture, told the members of the National Parks Warden Convention in a recent address on forest insect control.

On the one hand, he said, there is the plant association made up of the various tree species, shrubs, and smaller plants. On the other hand, there is the animal community consisting of insects and near relatives of insects, game animals, fur bearers, predators, and birds. All of these are closely inter-related and the disappearance of one factor may mean the dislocation and sometimes the disappearance of a whole series of organisms.

One may well ask what relationship exists between a bark-beetle, for instance, and fur bearers and game animals. Take Kootenay Park as an example, from 85 to 90 per cent of the lodgepole pine has been killed over large areas in this park by the mountain pine bark beetle. This relatively sudden change in the character of the forest has perhaps deprived much of the squirrel population of its natural food, and so the squirrels move out. This, in turn, deprives certain predators in the birds and fur bearers of their food, and they move out. The

The Quality Tea "SALADA" ORANGE PEKOE

species of game animals which prefer denser types of forest also move out. Eventually, dead trees fall, making a great tangle of debris with consequent great fire hazard.

Perhaps a huge fire sweeps the park. In place of dense forest there is, at least for a time, bare hills. The fur gone, and the game animals are and insect populations has changed. Then there is the change in the behaviour of the tourist. Where he used to tarry at the various camps, fishing and enjoying the scenery, he would travel as fast as his car would take him, intent on getting through that desolate strip as soon as possible to more pleasant surroundings.

In 100 years another forest may have covered the desolation, but man cannot wait for 100 years. That is why when the bark-beetle threatened the Bow Valley in the Banff region that entomologists were in a hurry to do something about it.

Think not those faithful who praise all thy words and actions but those who kindly reprove thy faults.—Socrates

Women's Place in Canada.

To thresh out the pros and cons of women's place in an intelligent Canada, a two-day Women's Forum will take place in the theatre of the Women's World, West Annex, Coliseum, August 30th and September 1st.

Miss Mabel Stokley will supervise the forum. Acting as chairman of the various discussion sections will be: Dr. Marion Hilliard, Mrs. R. J. Marshall, president National Council of Women, Mrs. Roy Whitehead, president, Women's Committee, Toronto Symphony Orchestra; Mrs. J. G. Althouse, president, University Women's Club.

Guest speakers in the forum will talk over women's responsibilities in the home, the community, the nation and the world, Kate Aitken, C.N.E. Women's Director, explained. The forum is open to members of women's organizations and all others who would like to attend the discussions.

It takes a great deal of grace to be able to bear praise. Censure seldom does as much hurt.—Spurgeon.

Cottam Rotary Carnival.

The annual carnival, sponsored by the Cottam Rotary Club, and held at Ridgeview Park, on Civic Holiday, was once again a decided success.

The day was extremely hot, but after sundown it turned nice and cool.

The drawing match, as usual, was closely contested, and lasted for a good three hours.

Drawing Match.
1st, Jeff Thompson; 2nd, Ernest Laporte; 3rd, G. Bieks; 4th, Alfred Mailoux.

Drawing for the pig and the Pressure Cooker on small radio, on which chances were sold all day, as well as gate prizes, took place at 11 o'clock. The lucky winner of the pig was Pearl Huggard; of the pressure cooker or radio, Miss Phyllis Congdon; and the gate prizes: 1st, an end table, No. 3452, no name on stub; 2nd, table lamp, No. 2017, Robert Kelly; 3rd, electric tea kettle, No. 127, Miss Orpha Stotts; 4th, No. 1374, no name on stub; 5th, smoke stand, No. 426, Dan Morgan, of the 200.

Detroit Junior Team Outclasses Tecumseh

The hard ball game was between Joe Gentile's CKLW junior club, of Detroit, and a make-shift team from Tecumseh, who even arrived without four of their best regular players.

Those in charge of the ball game should in the future get two more evenly matched teams and not make a game of one of their best drawing.

The Detroit team merely toyed with Tecumseh. Mosakowski, their star pitcher, striking out ten men in the first four innings.

This bunch of juniors are the pick of a city of two million, are all 18 years old and under, and have won 17 straight games in league competition in their city as well as six exhibition games.

A total of 22, without a defeat, of them from the shortstop, Deacon, the catcher, Scarpa, the starting first base man and Mosakowski, the starting pitcher, have all been approached by big league scouts.

These boys just naturally had to come up to keep the scene within reasonable figures.

We would like to see this same team play a real good team another year.

Mike O'Halloran Improving.

Mike O'Halloran, of town, an em-
ployee of Neuhauer's, who has been
a patient in Hotel Dieu, Windsor,
since early Friday morning of last
week, to where he was removed, by am-
bulance, following being pinned under
a Neuhauer truck he was driving, is
improving nicely.

Mike, at the wheel, was driving to-
wards Leamington, on No. 3 Highway,
when the Essex Motor Sales wrecker,
taking a car in tow which had hit a
light post near the Fred Butts' home,
suddenly loomed in front of him. He
turned so sharply his truck overturn-
ed and the door on his side threw open,
with the result that the truck landed
squarely on him. In turning he just
missed striking Ward Steed, driver
of the wrecker, in fact he did hit
Ward enough to knock him over, how-
ever with no injuries. Mike has sev-
eral fractures of the pelvic bone and
will be hospitalized for several weeks.

Greenham-Shepley Nuptials.

A quiet wedding was solemnized, at
Harrow United parsonage, on Satur-
day, August 9th, at 2:30 p.m., when
Rev. Walker united in marriage Ruby
Maxine, youngest daughter of Mr. and
Mrs. Asa Shepley, of Colchester North,
to George Arnold, son of Mr. and Mrs.
Samuel Greenham, of Harrow.

The bride wore a floor-length gown
of pale pink jersey. She wore a match-
ing hairdress and carried a white Bible
topped with pink rosebuds and stream-
ers of sweet peas. She wore pearls
that belonged to her grandmother and
earrings, a gift of the groom.

Miss Jeannie Elford, as bridesmaid,
wore a blue tulle dress, carried a nosegay
of pink roses and white asters, and
wore a matching hairdress. Stewart
Greenham, brother of the groom, was
best man.

A reception was held at the bride's
home for the immediate families. The
bride's table was centred with wedding
cake and tall pink tapers, and flower
decorations were pink and white snap-
dragons. Supper was served by the
bride's sister-in-law, Mrs. Claude
Shepley and Mrs. Kenneth Shepley.

The bride's mother chose a printed
two-piece dress, and the groom's mother
chose blue, street-length. Both
wore corsages of sweet peas.

The bride chose for travelling a
white street-length dress and white
accessories, and wore a corsage of
gladioli.

On their return they will reside in
Harrow.

Wins Farm Scholarship.

John W. Aylesworth, of Essex, officer
in charge of the new Dominion experi-
mental sub-station on No. 48 Highway,
it Woodlee, has been awarded a
scholarship for post-graduate study in
plant science, according to an an-
nouncement from the Agriculture In-
stitute of Canada.

O.A.C. and R.C.A.F.

Mr. Aylesworth graduated from the
Ontario College of Agriculture, in 1942,
and enlisted in the R.C.A.F., in which
he served as a fighter pilot until 1945.
It was following his discharge from
the R.C.A.F. that he took up full time
employment with the Department of
Agriculture, specializing in the study
of inbred lines of corn, an important
cash crop grown by many Western
Ontario farmers. He worked under
the department at the experimental
farm at Harrow until April of this year
when he was placed in charge of the
Woodlee sub-station which is pre-
sently engaged in soil improvement
work.

During the winter months since his
discharge from the service, Mr. Ayles-
worth has been attending post gradu-
ate classes in plant breeding at the
University of Minnesota.

The scholarship will enable him to
complete his post-graduate studies at
the university this fall and winter,
entitling him to his master degree in
science upon completion of the final
term next March.

Along with the Institute's announce-
ment of Mr. Aylesworth's scholarship,
came word of 19 other similar awards
to scientists throughout the country.
The scholarships are valued at \$800
and were started by the Institute last
year to encourage graduates to advance
their studies in the agriculture field at
American universities.

Mr. Aylesworth, who was born in
Windsor, where he completed his high
school training, is the first agriculture
graduate from this district to qualify
for a scholarship of this kind.

Keenly interested in the study of
plant breeding, the young agriculture
scientist is preparing a thesis on "corn
genetics" to submit to the University
of Minnesota, upon completion of his
post-graduate course. The thesis will
deal with work in breeding hybrid corn
so commonly grown in this district,
which he has been concerned with
at the Harrow Experimental Farm.

Upon completion of the course next
March, Mr. Aylesworth plans to return
to the sub-station at Woodlee, where
he will take up where his studies left
off in the practical end of plant breed-
ing.

Essex Juniors Defeat Harrow.

The Essex Juniors trounced the
Harrow nine, at Essex Fair Grounds,
on Sunday, by a 9 to 1 score. The Es-
sex team jumped on MacDonnell for
five runs in the first inning, to give
Loebach a good lead to work on.

Loebach did a good job of pitching,
allowing no earned runs and only four
hits, and walked none. The Harrow
pitchers allowed four hits, but were
wild and received poor support in the
field. Frank Kokoval pitched a good
game at second, for Essex, accepting
six chances without an error. Mill
Harley, Essex centre fielder, singled
in the first inning, with the bases load-
ed, driving in the winning runs.

Batteries—McDonnell, C. Fox, Bondy
and Bondy; Loebach and Fair.

Mrs. Malcolm G. Moore Dies.

Mrs. Ida Mae Moore, aged 48, of 1571
Bruce avenue, Windsor, widow of Mal-
colm Gerald Moore, who passed away
her June 21st of this year, died Sat-
urday in Metropolitan General Hospi-
tal, after an illness which lasted a
year.

Mrs. Moore was born in Gesto, a
daughter of the late Mr. and Mrs. John
Roadhouse, but had lived in Windsor
for 25 years. She had been a member
of Westminster Church and the Wo-
men's Association of that church.

Surviving are two daughters, Shir-
ley Irene and Vida Irene; one son, Mur-
ray W., at home; four brothers, James
Roadhouse, Essex; Charles and Del-
bert, of Amherstburg; and Mahlon, of
Windsor; also a sister, Mrs. Harold
Barney, of Hamlet, Ohio.

Funeral services were held from
Westminster United Church, on Tues-
day, in charge of Rev. A. J. Smale and
burial was in Victoria Memorial Ceme-
tery.

Who Said It's Hot?

If you don't think so, just come out
and see the lads roll up the perspi-
ration as they through their paces
on the softball field. As it now stands,
Legion holds first place, with G. M.'s
covering a hot second spot, Stokelys
and Bowlers are wrestling around for
third and fourth spot, while the Kins-
men have nothing to worry about, as
they hold last spot all by themselves,
with a perfect record of no wins, but
the season isn't finished yet, neither
are the Kin.

Now, for last week's activities. On
Wednesday last G. M.'s and Bowlers
met for a tussle, and the G. M.'s ran
amuck and bowled over the Bowlers.
I won't tell the score because it sounds
more like a Kinsmen score. On Thurs-
day last the Kin folk took on Stokelys
and, as usual, the Kin couldn't catch
(on with a glue pot) and after one bad
inning, in which Devereux got one bad
ies, pounded out a home run bringing
in two ahead of him, the game settled
down and ended 12-6 for the Cannors.
Inky Ross and W. J. Francotte batter-
ing for Stokelys, and Brown and "Casey"
hogarth for the Kin. On Friday the
Bowlers turned, and swallowed the bird.
The Bowlers took the field against the
youngsters (Legion) in red, and the
kids just couldn't pound Piper's slow
ball past the Bowlers, with a result-
ing score of 11 to 9 for the Bowlers.

Then again, on Monday, the Bowlers
still running hot, turned on the Bear-
ers and beat them up resoundingly to
back in the 7-2 — that put Stokelys
Bowlers, is now sporting a beautiful
black eye — you should see it with
your wife, Al, she's got a wicked left.
And Tuesday, well, why go on, the old
story, G. M. and Kinsmen, and Butts'
brutes were really on and the Kin
didn't want to spoil their record (no
wins). It was a good game except for
the odd error on the Kin club — at
the wrong time. The pitching was
good on both teams, and it was a fight-
ing game to the very end. Danm and
Barnewall for G. M. and Brown and
Hogarth for the Kin.

Next week's schedule (just look at
it): August 15th, Legion vs. G. M.
(good muds); August 18th, Kins-
men vs. Bowlers; August 19th, G. M.
vs. Stokelys; August 20th, Kin vs. G.
M.; August 21st, Bowlers vs. Kin;
August 22nd, G. M. vs. Kin.

That's all for now, but please, play-
ers, get the game going at 6:30 — you
can play your own game after dark.

Facing Life.

Posture — "facing up" to life — it
is important, say the doctors. Holding
the body erect, with chest thrown for-
ward, not only makes possible better
breathing, with more oxygen for pur-
suing the blood, but also provides
constant mild exercise for the muscles
of the trunk.

The authorities suggest that by put-
ting a little snap and vim into the
ordinary activities of daily life, one
provides a wholesome stimulation to
certain bodily muscles, too.

Wallace R. Campbell Dies.

Wallace R. Campbell, who rose from
a timekeeper's position to head of the
Ford Motor Company of Canada Ltd.,
largest automotive firm in the British
Empire, died at his home in Windsor
early Sunday.

Mr. Campbell, aged 65, had been ill
for some time. He served as Canadian
president for 17 years before resign-
ing last year. He immediately was ap-
pointed chairman of the board of di-
rectors.

His death followed within 17 days
of his brother, Malcolm G. Campbell,
of Windsor, president of the Kelsey
Wheel Co. of Canada, Ltd.

Mr. Campbell joined the Ford firm
in 1905, one year after its founding
in Canada, as timekeeper. He be-
came a bookkeeper and advanced rap-
idly until in 1911 he was made a di-
rector.

Four years later he became assist-
ant secretary. In 1922, he was elected
vice president and treasurer, a post
he held until 1929, when he became
president and treasurer.

He relinquished the treasurer's post
in 1932 to devote full time to the presi-
dency during the Dominion Day hon-
ours last year, he was made a com-
mander of the British Empire for his
work on the War Supply Board.

Mr. Campbell was honoured last year
for his services to the Boy Scout move-
ment by being presented the Silver
Acorn, highest scouting award in Can-
ada.

He was a board member of the Poly-
mer Corp., Ltd., of Sarnia, one of the
world's largest synthetic rubber pro-
ducing plants.

Services were held on Tuesday, and
burial was in St. Mary's Churchyard,
Windsor.

Long long years ago when the City of Jerusalem was left isolated, its walls destroyed and upon the enemy, its people thought, as they thought today, in the face of a threat beyond our understanding. But there is an answer, and the prophet found it. Let each man build that portion of the wall over against his own house. Not the whole problem, but the problem immediately at hand. WITH THE BOY SCOUTS

Sea Scouts on Royal Tour.
Two English Sea Scouts, Troop Leader Dennis Genders and Patrol Leader Anthony Millar, recently stepped ashore from H. M. S. Vanguard after having served as personal messengers to the Royal Family on their trip to South Africa.

This Modern Age.
A Scout parade controlled by radio! Yes, it's come at last. It happened in Malta at this year's St. George's Day parade. The Scouts of Malta have eight transmitting sets and ten of the Scouts are being trained in radio-telephony. One set was kept near the sailing base and another was carried at the back of the parade. By this method, perfect co-ordination and timing was assured and H. E. the Governor who was taking the salute was in position at exactly the right time.

Sea Scout Boat Returns to France.
The "Minotaur," a 45-foot ex-naval motor boat belonging to the Maritime Sea Scouts, has a gallant history. The last time she sailed across the channel with a crew of Sea Scouts in June, 1940, when she took part in the evacuation from the beach at Dunkirk. This month she will cross to France again, this time on a mission of peace. She is to carry six Sea Scouts across the channel and a hundred miles up the river Seine to Moisson for the World Jamboree.

Jamboree Scouts Assemble.
The Canadian Jamboree Contingent to the World Jamboree of Peace at Moisson, France, is now in camp at Miller's Lake, Nova Scotia. During this period of last-minute training, Colonel Henri Mesnet, of the French Foussey, visited the Contingent to tell the boys about some of the things they would see in France. Major-General D. C. Spry, C.B.E., D.S.O., Chief Executive Commissioner of the Boy Scouts of Canada, inspected the Jamboree Troop and also plans to visit several Scouting camps while in the Maritime. From Miller's Lake the Jamboree Scouts go to M.M.C.S. Stadium, Halifax, on August 18, before heading H.M.C.S. Warrior.

Burning Feet.
Bathing, exercise and adoption of correct footwear are recommended for those who suffer from burning feet in summer time. It is suggested that, whether one uses a tepid or an alternating hot and cold foot bath, the feet must be dried thoroughly. Taken on the soles and between the toes, and a little witch hazel will help relieve the burning itch.

Polio Precautions.

Warning to treat suspicious symptoms at this season as though it is "Polio," comes from health authorities at the national capital. Stomach flu, "summer complaint," dysentery or any infection of the bowels, may predispose to Infantile Paralysis. If any suspicious symptoms are encountered, and whenever symptoms are in doubt, the official advice is to "call your family doctor at once." It is better to be safe than sorry.

Harrow Edges Leamington.

A four-run rally in the second frame gave Harrow its victory. Brush swung at a wild pitch to make first base on his third strike. Clarke singled him to third and Hendershot singled to score Brush. Clarke scoring on an error to the pitcher, while Hendershot took second, going to third on a wild pitch. Bill Wright, singled to score Hendershot, went to second on a hit by Chase and scored on Bob Wright's double.

Prepare Now for Fall Wheat.

Because of the extremely wet spring in parts of Eastern Canada, many farmers will find it profitable to increase their acreage of fall wheat. By observation of a few recognized practices the chances of harvesting a good crop in 1948 can be greatly increased.

After preparing a good seed bed, attention should be directed towards the selection of a fertilizer mixture that will best serve the needs of the soil and crop. In most instances this will mean the use of 2-16-6 or similar mixture at rates of 200 to 400 pounds per acre. When in doubt as to the fertilizer requirements, a sample of soil should be sent to a recognized soil testing service laboratory and advice sought from the local agricultural authority.

As a precaution against possible losses from stinking smut, treatment with mercurial seed disinfectant is important. In the case of Ceresian, ½ ounce per bushel is all that is required to give satisfactory protection. The selection of high quality seed and the observation of the above precautions will go a long way towards guaranteeing a bumper crop of wheat in 1948.

Penner Beats Amherstburg.

Joe Penner scattered six hits and was never in trouble as Belle River beat Amherstburg 7 to 1.

Belle River scored one run in the first and another in the second, then came through with three runs in the third inning on two hits, two bases on balls and two errors.

Tilbury on Short End, 7-4.

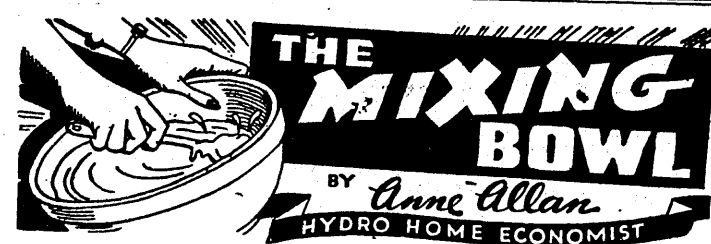

Fitz Markham, slim right hander for Tilbury, retired the third man in the third inning on a strike-out, when he took over from Don Rankin against Kingsville Sunday. From that point on he gave up three hits, struck out 14 men and walked five, and still lost the game, 7-4, mostly due to two hit batsmen.

Tom Howe was credited with the victory. He gave up eight hits, fanned seven and walked three. Markham hit Ruscher to open the fifth frame, Bechard singled and went to second on a play of Ruscher. Alice struck out. Cull walked, filling the bases. E. Snively was hit, forcing Ruscher over the plate with the fifth run.

THE MIXING BOWL

BY Anne Allan
HYDRO HOME ECONOMIST

Hello Homemakers! Are you serving your fresh fruits just as they come? So many of them—blueberries, raspberries, peaches and apricots—need no sugar at all.

Prepare, wash and chill. An hour in the refrigerator will make a fresh fruit extra luscious or set a dish of fruit in a larger bowl of crushed ice. Sweeten the cream if necessary to suit the "sweet-tooth."

IDEAS FOR FRESH FRUIT.
1. Fresh pears stuffed with cottage cheese mixed with a little minced onion can be served on crisp lettuce and topped with mayonnaise.
2. Cantaloupe sliced in short pencil-sized pieces is attractive mixed with apple cubes which have been dipped in lemon juice.

HONEY RASPBERRY DELIGHT.
2 tablespoons gelatin
½ cup cold water
1½ tablespoons lemon juice
1½ cups red raspberries
1 cup whipping cream
Soak gelatin in cold water for 5 minutes. Scald milk and pour it over the gelatin. Stir until the gelatin is dissolved. Cool. Mix honey and lemon juice and stir in the milk mixture. Chill and when it begins to set add the whipping cream and raspberries. Pour into 8 custard cups. Place in a refrigerator until very cold. Serve in the custard cups.

ORANGE CANTALOUPE COCKTAIL.
2 medium cantaloupes (3 cups cantaloupe balls) mint sprigs, 1 cup orange juice, 2 tablespoons lemon juice.
Cut cantaloupe into ball shaped pieces with a French ball cutter. Mix together orange and lemon juice. Pour over the cantaloupe balls. Place in six dishes. Chill. Serve in the glass cups and garnish with sprigs of mint. Serves 6.

FLUFFY PUDDING.
1½ cups milk
½ teaspoon salt
½ cup light corn syrup
¾ cup quick-cooking wheat cereal
1 egg separated
¾ teaspoon almond extract
2 tablespoons sugar
Scald milk; gradually add cereal and salt; cook over boiling water 20 min.

Clean the Stables.
Clean stables have much to do with keeping live stock healthy. With stock out on pasture comes an opportunity to do a little extra cleaning up. After the stables have been thoroughly cleaned they may be sprayed with a lime wash containing a suitable disinfectant. Flies and mosquitoes around farm buildings are a source of annoyance to both humans and to live stock apart from being possible carriers of disease. The new chemical DDT is effective in helping to keep stables and other farm buildings free of these pests. Any of the commercially prepared barn sprays containing five per cent DDT may be used for this purpose, and the first actions of the manure should be followed.

One gallon of spray will cover 1,000 square feet and sufficient DDT will be deposited on the surface to last for some months, though the longer it takes the spray will remain effective. The purpose of the spray is to destroy the atmosphere of stables, the changeless, sprayed, exposure to sunlight and weather, dust and dirt which may cause the deposit, the effect of rubbing or sweeping the surface when cleaning or in contact with the bodies of animals or other objects. In addition to spraying the interior of stables and other buildings, the outside around doors and windows should also be treated.

"SALADA" TEA

Delicious Flavour

Cocoons. Fence Turkeys in and Save Losses.

A man noticed that his sons needed to learn to restrain impetuosity with patience, and to respect the individuality of others. He found a cocoon and brought it into the house. He explained the wondrous change that was taking place within the cocoon, how the caterpillar which it covered was being transformed into a colorful butterfly. In the spring the boys could not contain their eagerness. They must break open the cocoon and release the butterfly. We know the result. The butterfly looked beautiful, but it never flew. It soon withered away.

It seems so logical for us to do the same things in our human affairs. Not content to await the fulfillment of divine wisdom, we peer into the future, attempt to tear open the plan of the infinite, and succeed only in gaining our empty hands, filled with the smoke of frustration. Too often we think we are playing when we are only prying.

Our perfect model, Christ Jesus, did not do this. Always his prayer was, "Not My will, but Thine, be done" (Luke 22:42). Doing God's will does not mean informing God, or advising him, as to the right course to pursue. The teachings of Christian Science are emphatic on this point.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, writes: "Great mischief comes from attempts to steady other people's affairs, venturing on valor without discretion, which is virtually no discretion. Even your sincere and noble convictions regarding what is best for others may be mistaken; you must be demonstratively right yourself, and work out the greatest good to the greatest number before you are sure of being a fit counselor" (Miscellaneous Writings, pp. 287, 288).

When we work from this standpoint, we are impelled to think rightly, to speak wisely and kindly, to do good to all, impartially. We have no personal wishes to intrude upon the plans of God. We wait upon God for direction and rest peacefully in the divine decrees of wisdom. Let us sincerely rest in God's great love, and He will send continuous growth spiritually, until our aspirations are strengthened by our inspirations, and we are ready to emerge in the full radiance of Soul, the purpose of the nature of the surface, the atmosphere of Spirit, the changeless, sprayed, exposure to sunlight and weather, dust and dirt which may cause the deposit, the effect of rubbing or sweeping the surface when cleaning or in contact with the bodies of animals or other objects. In addition to spraying the interior of stables and other buildings, the outside around doors and windows should also be treated.

No greater help have we than in the blessing of fertility, courage, patience and grace.—Mary Baker Eddy.

GOOD CITIZENSHIP is a lot of little things

HELP MAKE OUR VISITORS FEEL AT HOME

Do you realize that each year some \$223,000,000 is spent in Canada by visitors? This is Big Business—it ranks high among our largest industries and provides a livelihood for thousands of Canadians. It helps to balance our foreign trade—it affects the economic life of all of us. We can do our share to help build Canada's tourist trade by greeting these visitors in a neighborly way, by treating them as welcome friends and making them feel at home. That's "Good Citizenship!"

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

Threats to Normalcy.
At the present time the government
is bending every effort towards stabil-
izing economic conditions in Canada
for the purpose of maintaining our
high level of prosperity. It is becom-
ing evident that various left-wing fore-
ces are simultaneously acting as a de-
terrent to this effort and threatening
the basis of our welfare.

Canada is a free enterprise country
and the policy of the government is
based on a recognition of this fact.
The boundless resources of the nation
and the vast opportunities for individ-
ual initiative make this policy self-
evident.

But in Canada's left-wing camp, com-
munists and socialists continue to
work by different methods, for a sys-
tem based on state domination. The
communist, equally speaking, are a
negligible factor in the political field.
In fourteen large labour unions in Can-
ada, involving more than 120,000 mem-
bers, their power is great and their
strategy single tracked — the weaken-
ing of industry by constant strikes.
They may yet cause a tie-up in Great
Lake shipping and halt grain ship-
ments to Europe. The long-availed ef-
fects of labour leaders to purge their
ranks is only partially successful. In
the light of the fact that many of them
are as zealous in favour of the so-
cialist states as the communists.

The C.C.F. Socialist party uses a
different method of weakening the
foundations of Canada's economy. In
the political field it disparages free en-
terprise and pumps for "social plan-
ning," meaning domination by small
groups of socialist bureaucrats. Party
leaders must have been against when
a New York professor told a recent
C.C.F. conference that the government
had taken hardly all the steps needed
to avert a serious depression. In the
August issue of "The Canadian For-
eigner" the editor challenges his
party to consider the consequences
involved in sacrificing enterprise and
initiative for a despotic centralism.

Encouraging Omens.
The fact that Canada is able to fill
shortages with a labour shortage
shows that she is making nearly
steady progress. Trade deals at current
rates and foreign prices for accounts
show that the up-bid show
that the public, which is fairly
well informed, is ready to do its
part.

Despite the fact that the left wing
forces are active, the Canadian
economy is showing signs of strength.
The fact that the government is able
to maintain a high level of production
and to meet the needs of the public
is a sign of the strength of the
Canadian economy.

Trade Fair to Advertise Canada.
The extensive advertising campaign
for the Department of Trade and Com-
merce is the first of its kind in the
history of the Canadian International
Trade Fair to be held
in Toronto from May 1st to June 12th,
1948. It demonstrates the importance at-
tached by the government to restoring
normal world trade conditions.
With a third of every Canadian dollar
conservatively estimated to be the pro-
portion derived from foreign trade,
practical-minded Canadians can feel
hopeful that the Fair will succeed
fully in further extending Canada's
trade relations with the world.

Living Costs.
Canadians continue to exhibit con-
fidence in the government's policy of
control of various recent price increases.
Removal of controls was inevitable to
permit a return to normal conditions
with the expectation that temporary
fluctuations would be stabilized when
the law of supply and demand began
to fully operate. As it is, wise govern-
mental measures have prevented any-
thing like the extreme dislocations felt
in the United States. However, a halt-
ing of the decontrol process would
probably be the answer to any serious
threat to the welfare of the average
Canadian.

Political or professional reputation
cannot last forever, but a conscience
void of offence before God and man is
an inheritance for eternity.—Daniel
Webster.
Fidelity is simply daring to be true
in small things as well as great.—
Henry van Dyke.

Country-wide Check Being Made.

At the request of the Foreign Ex-
change Control Board, the R.C.M.P.
have commenced a country-wide check
of the way in which storekeepers, ser-
vice stations, hotels and others are
handling U. S. currency received from
tourists.

The U. S. dollar expenditures of tour-
ists in Canada are one of the main
sources of foreign exchange needed
to pay for Canadian imports and other
normal expenditures in the United
States. So that the U. S. dollars spent
by tourists will be available for these
purposes, the Foreign Exchange Con-
trol Regulations require that Cana-
dian merchants and other turn the U.
S. currency they receive into their
banks.

Officials of the Board said that re-
ports they have received indicate that
many merchants are not turning in
their U. S. Dollar receipts but are pay-
ing them out freely in change and in
members of the public in exchange for Can-
adian currency. This has led to the
check-up now being made and where
breaches of the Regulations are found,
prosecutions under the Foreign Ex-
change Control Act will be commenced.

Under the regulations a merchant,
hotelkeeper or other person engaged in
a business serving tourists may ac-
cept U. S. currency at par and may
make change in U. S. currency for a
tourist in payment for purchases.
For this purpose a merchant may keep
on hand a reasonable amount of U. S.
currency, but, with this one exception,
U. S. currency he receives.

In no circumstances is a merchant,
hotelkeeper, etc., entitled under the
Regulations to pay out U. S. currency
in exchange for Canadian currency or
in change to a Canadian resident, even
though the latter may have tendered
U. S. currency in payment for a pur-
chase.

Tooth Brush Needs.

Some people need only regular use
of a small, standard-size tooth-brush,
but others should have a specially
shaped brush with a certain type of
bristles. Others again may need to
clean between the teeth with dental
floss. Health authorities suggest that
the dentist be asked what particular
type of brush should be used.

The Right Pickle.

The right pickle adds greatly to al-
most all supper dishes as well as to
both hot and cold meats. Pickles are
mentioned in Pliny's Writings, as
"spiced and preserved cucumbers" and
Cleopatra is said to have been very
fond of spicy pickles, so the liking
for fruit and vegetables preserved in
vinegar is not a recently acquired
taste.

Peter Piper was more fortunate than
the home-maker. He is supposed to
have picked his peck of peppers al-
ready pickled. Pickling, however, does
not need to be a heavy task, nor does
it present much difficulty if a few rules
are observed.

The home economist of the Consum-
er Section, Dominion Department of
Agriculture, has definite suggestions
to offer for overcoming some of the
common difficulties in pickle making.
Following cucumbers may result from al-
lowing cucumbers to stand too long
after picking. For success in pickling
only fresh, good quality vegetables
and fruits should be used. Cucumbers
and green tomatoes are best if put into
brine with twenty-four hours of pick-
ing.

Soaking in brine helps to keep the
vegetables firm during the succeeding
pickling process. Common bag or
dairy salt should be used. Salt which
has been treated to make it free run-
ning causes cloudiness in the brine.
Iodized salt will cause a brownish
seum or sediment to form.

1 cup salt to 2 quarts (10 cups) water
makes a good brine. If not enough
salt is used pickles will be soft or
slippery. If too much salt is used they
may shrivel or become tough.

Good quality, clear vinegar is es-
sential if pickles are to have good
flavour. Both cider and blended vine-
gars have good flavour but while spir-
it vinegar gives better colour where
light coloured vegetables such as on-
ions or cauliflower or years are used.
For uncooked pickles the vinegar is
used full strength. If vinegar is too
weak the pickles will be soft.

Spices should be used with discre-
tion. A dark colour or bitter flavour
may result from too much spice. Whole
spices are preferable but should be
loosely in a cheesecloth bag.

Most pickles are best if allowed to
stand at least a month before using
in order that flavours will be well
blended.

Here are two good recipes for pick-
les. Many others are given in the bu-

letin Home Canning of Fruits and Veg-
etables which may be obtained free of
charge by writing the Dominion De-
partment of Agriculture, Ottawa, Ont.

NINE DAY PICKLES.

Cut up 5 quarts cucumbers. Place in
brine (1 cup salt to 2 quarts water) to
cover, for 3 days.

Put in cold water for three days,
changing water each day.

Put in weak vinegar solution, 5 cups
water to 1 cup vinegar; add 1 table-
spoon alum.

Boil cucumbers in this mixture 5
minutes; remove, drain and put in
crocks.

Boil 3 pints vinegar, 3 cups brown
sugar, 1 ounce allspice, 1 ounce cinna-
mon (powdered or sticks), 1 ounce cel-
ery seed and pour hot over pickles.
Drain, reheat and pour hot over cucum-
bers each morning for 3 additional
mornings. Bottle and seal. Yield:
about 5 quarts.

BARBEQUE SAUCE.

2 quarts tomatoes, cut in pieces
2 large onions, chopped
2 large cloves garlic, chopped
2 tablespoons Worcestershire sauce
1 cup sugar
1 cup vinegar
2 tablespoons horseradish
1 tablespoon salt
1 teaspoon paprika
2 teaspoons dry mustard
Mix all ingredients thoroughly. Sim-
mer over low heat for about 30 min-
utes. Pour into hot sterilized jars
and seal. Yield: about 3 pints.

CANNING CORNER.

When a quick dessert is called for,
there is nothing better than canned
fruit. Served plain with cake or cook-
ies, it is always satisfying. On the
other hand, if something a little more
elaborate is needed, canned fruit forms
the base of delicious pies, puddings and
sauces. So if one has the storage
space, the home economist of the Con-
sumer Section, Dominion Department
of Agriculture, suggest "canning what
you can."

Following are their directions for
canning one of the favourite fruits —
peaches. Being a sweet fruit, peaches
need only a thin or moderately thin
syrup. This syrup is made in the pro-
portion of 1 cup of sugar to 2 cups wa-
ter (yield, 2½ cups syrup); moder-
ately thin syrup 1 cup sugar to 1½ cups
water (yield, 2 cups syrup).

HOT PACK PEACHES.

Blanch peaches 15 to 60 seconds in
hot water to loosen skins. Cold din-

Victory Today.

The fourteenth day of August,
Has been proclaimed victory day,
Not a day for empty celebrating
But is one day we should pray
For those brave young soldiers
Who in foreign lands now lay.

They have sacrificed their lives,
Did far more than their share,
How soon they've been forgotten,
We, at home, don't seem to care.
That God grant them eternal rest
Should be our constant prayer.

And those boys in our hospitals,
Who are suffering untold pain,
What they are going through
Would drive most of us insane.
Should be foremost in our thoughts
Prayers for them should never wane.
—Ed. Byrne.

Cut in half, remove skin and pit. Drop
peaches into brine (1 teaspoon salt to
1 quart water) as they are prepared,
to prevent discoloration. Drain, leave
peaches in halves or slice and drop
into hot syrup, bring to boil and sim-
mer 3 minutes. Pack hot (placing
peach halves cups down) in clean, hot
sealers. Cover with the hot syrup
leaving ½ inch headspace. Adjust
rubber rings and tops. Process in the
boiling water bath 15 minutes for pints
and quarts, or in an oven with an auto-
matic heat control, for 25 minutes, at
275° F. for pints and quarts.

COLD PACK PEACHES.

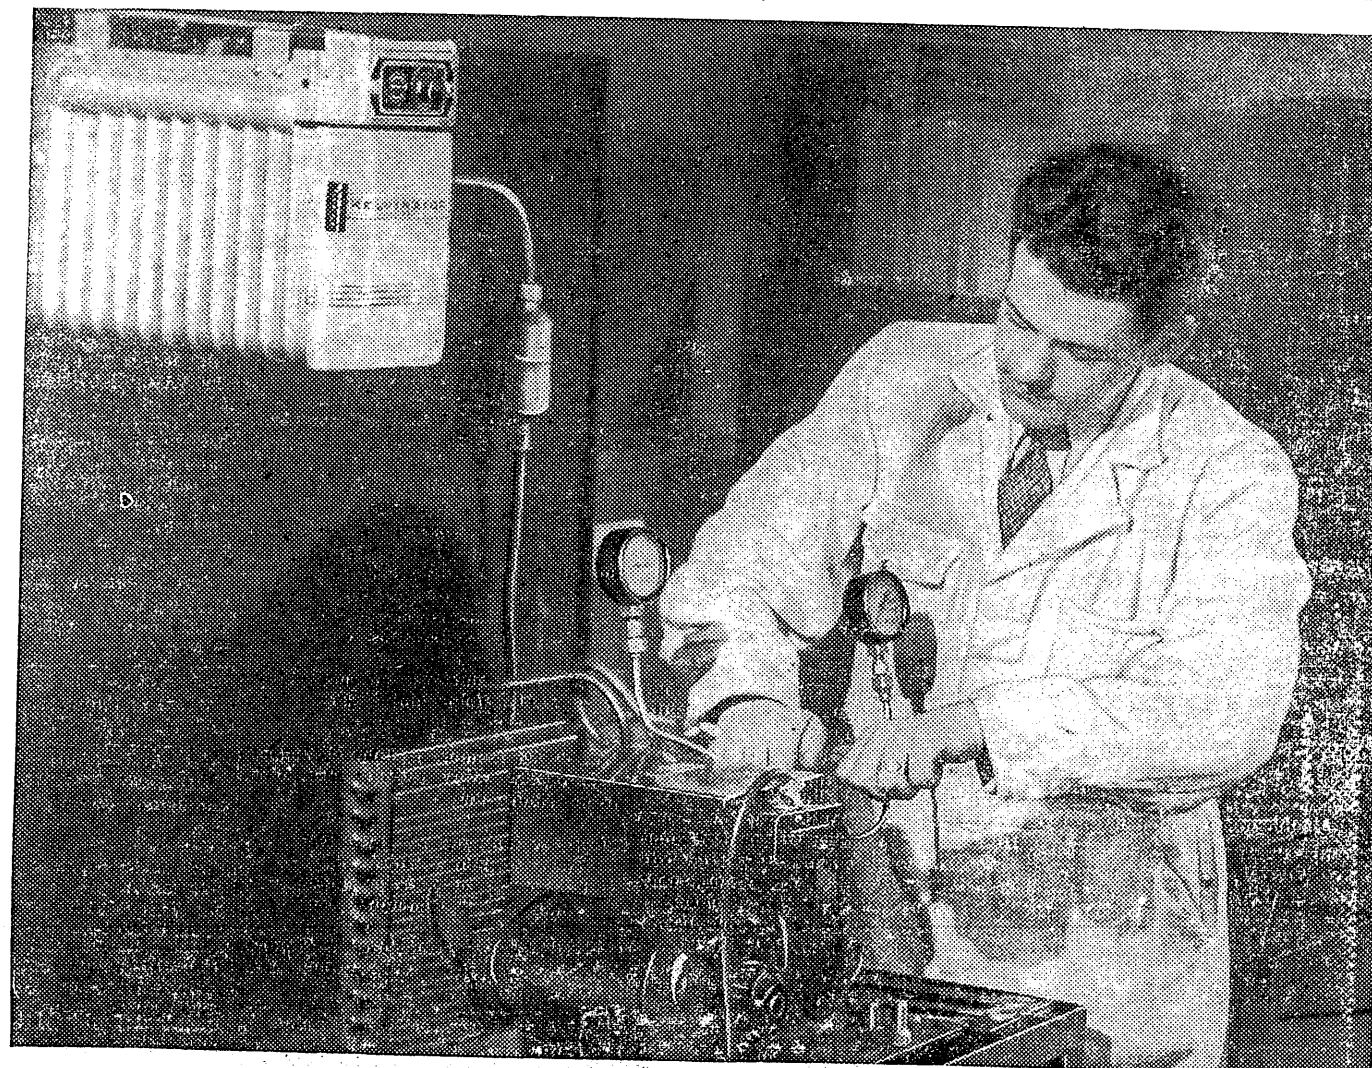

Blanch peaches 15 to 60 seconds in
hot water to loosen skins. Cold dip.
Cut in half and remove skin and pit.
Drop peaches in brine (1 teaspoon salt
to 1 quart water) as they are prepared,
to prevent discoloration.

Drain, leave in halves and pack cups
down, or slice and pack in clean hot
sealers leaving ½ inch headspace. Ad-
just rubber rings and tops. Process in
the boiling water bath 20 minutes for
pints and 25 minutes for quarts. The
oven is not recommended for Cold
Pack Peaches.

Consistency to truth and principle

calls inconsistency in conduct.—Tryon
Edwards.

The talents of success is nothing
more than doing what you can do well,

HANDS AT WORK...

LEARNING REFRIGERATION

ONTARIO'S productive capacity is the measure of her future
prosperity. To assure this province a prominent place in domestic and
foreign trade markets, skilled hands are needed. Increased production
of refrigeration units will mean a greater need for skilled servicing.
Veterans, basically trained in schools and ON THE JOB, will fill this
need as they are absorbed into industry. For those who have mastered
skilled occupations, higher wages, job security and better working con-
ditions are within easier reach.

Through plans sponsored by the Department of Veterans Affairs and
other agencies, hundreds of young workers are being trained for refrigera-
tion servicing. Graduates of training schools are ready now to take
their places in industry. Craftsmen of the future, they will have a share
in Ontario's progress—an important part to play in her industrial de-
velopment.

Huggard-Butts Nuptials.

Before an altar banked with pink and white gladioli, at 3 o'clock, a wedding ceremony was held in the Rev. J. H. Whealen united in marriage Miss Barbara Ruth Butts, daughter of Mr. and Mrs. Fred G. Butts, and Edgar Thomas Huggard, son of Mr. and Mrs. Thomas Huggard, all of Essex.

The bride, who was given in marriage by her father, was crowned with a floor-length white nylon sheer with Alencon lace trimming. Double ruffles at the illusion-yoked neckline extended down the centre of the gown and lined the bottom of the very full skirt. Lace gauntlets with points over the hands complemented the short cape-leaves. Her illusion finger-tip veil was caught to her head with a scalloped Alencon Dutch cap and she carried white gladioli with stephanotis.

Miss Mary Butts, sister of the bride, as maid of honour, was lovely in a style similar to the bride's. Her picture hat was of illusion topped by tiny petals of flowers of matching net. Miss Helen Martin and Miss Lou Huggard, sister of the bridegroom, were bridesmaids, were similarly gowned in blue, with blue picture hats and carried yellow gladioli.

Dick Larkin was best man and the ushers were Murray Butts, brother of the bride, and Olin Huggard, brother of the groom.

The soloist was Miss Adrienne Brown, of Windsor, who before the ceremony sang "The Wedding Hymn" and "Through the Years," and during the signing of the register she sang "Because." Mrs. J. A. Nightingale was at the organ.

A reception for 80 guests followed at the bride's home which was decorated with gladioli and pink and white asters. The bride's table was covered with a hand crocheted lace cloth and centred with the three-tiered wedding cake flanked by white tapers in crystal candelabra. Girl friends of the bride who helped serve were the Misses Jean Leslie, Virginia Drennan, Georgina Lickman, Amy Affleck, Laura and Pat Howe, while Dick Larkin entertained the bridal party at a dinner at his home in Riverside.

Mrs. Butts chose for her daughter's wedding an aquamarine mesh dress with black accessories. Mrs. Huggard's mother wore a flowered crepe dress with black accessories. They wore identical corsages of sweetpeas with rosebuds in the centre.

Later Mr. and Mrs. Huggard left on a wedding trip North the bride travelling in a bridal pink gabardine corsage with black accessories and a dress of pink gladioli.

Prior to her marriage, the bride-elect was entertained at a linen shower at the home of Mrs. Ray Reed, and at a kitchen shower at the home of Mrs. Garth Brown.

Dibbley-Oliver Nuptials.

At the Essex Gospel Tabernacle, which was decorated with large baskets of gladioli for the occasion, the Rev. Earl C. Williams officiated at the marriage of Miss Helen Elizabeth Oliver, only daughter of Mr. and Mrs. Thomas Oliver, of Essex, and Murray Dibbley, eldest son of Mr. and Mrs. Garth Dibbley, of Coatsworth.

Given in marriage by her father, the bride wore a gown of white French lace, styled with a net ruffled yoke and long sleeves coming to points over her hands. Her double veil was caught in a halo of gardenias, and she carried a bouquet of red roses.

The maid of honour, Miss Jean Cook, of Harrow, wore pink net with matching headpiece, and carried a bouquet of white asters and pink gladioli. Miss Margaret Cook, of Harrow, in blue net and a matching headpiece, carrying a bouquet of pink asters and pink gladioli, and Miss Kathleen Dibbley, of Coatsworth, in yellow net with a matching headpiece, and carrying a bouquet of orchid asters and yellow roses, were bridesmaids.

The best man was Bill Pearson, of Comber, and the ushers were Walter Gonnell, of Thamesville, and David Skinner, of Coatsworth. During the signing of the register Mrs. Earl C. Williams sang "Day of the Lord Promise" and during the service Arthur Oliver, uncle of the bride, sang "O Perfect Love" and "The Wedding Prayer." The accompanist was Mrs. Arthur Oliver.

A reception was held at the Anglican Parish Hall, for 150 guests. The bride's mother wore a two-piece suit, with a white sheer blouse, white accessories, and a corsage of pink asters. The bridegroom's mother wore a two-piece navy blue crepe dress with white accessories and a corsage of pink asters.

On their return from their wedding trip, Mr. and Mrs. Dibbley will live in Wheatley.

Burley Tobacco Growers' Field Day.

A cordial invitation is extended to all to attend the Burley Tobacco Growers' Field Day, at the Dominion Experimental Station, at Harrow, on Wednesday, August 27th. An interesting program has been arranged for the benefit of all tobacco growers and those interested in the tobacco industry.

Programme.
2 p.m. Brief addresses by J. Fred Thomas, director of Burley Tobacco Marketing Association, "Burley Tobacco Production"; Dr. L. W. Koch, officer-in-charge, Laboratory of Plant Pathology, Harrow, "Tobacco Diseases"; R. J. Haslam, assistant superintendent of Dominion Experimental Station, Harrow, "Tobacco Work at Harrow."

3 p.m.—Inspection tour of Experimental Plots. Among the points of interest are the following: Breeding and selection for resistance to black root rot; burley, dark, and flue-cured tobacco; variety tests — burley and dark tobacco; burley varieties following corn to demonstrate brown root resistance; Levels and sources of nitrogen fertilizer on burley tobacco following corn; Distance of planting with light and heavy burley varieties; Side-dressing fertilizer experiments; Crop rotations; Seed production. Ice cold lemonade will be served.

Smith-Lamarsh Nuptials.

An impressive double-ring ceremony, a setting of white gladioli, Holy Trinity Anglican Church, Chatham, the Rev. J. Billingsley officiated at the marriage of Miss Margaret E. Smith, daughter of Mr. and Mrs. Robert Smith, 330 St. Clair street, Chatham, and Ronald H. Lamarsh, son of Mr. and Mrs. William LaMarsh, also of Chatham.

Given in marriage by her father, the bride wore a beautiful gown of broad-satin with finger-tip veil and carried a bouquet of American Beauty Roses.

Miss Bertha Smith, sister of the bride, as bridesmaid, wore blue tulle dress with matching hat and carried a bouquet of pink roses. Ronald Piper, of Essex, was best man.

The wedding music was played by Mrs. Stuart McDonald. The bride's mother was dressed in gray, with black accessories and wore a corsage of yellow roses. The bridegroom's mother chose a gray flowered dress with black accessories and a corsage of pink roses.

The wedding dinner was served at the Rankin Hotel, with a reception following at the bride's home. Later, Mr. and Mrs. LaMarsh left on their wedding trip to points east, the bride travelling in a pink silk jersey suit with white accessories. They will reside in Selkirk street, Chatham.

Guests were present from Woodstock, Wallaceburg, Sarnia, Toronto and Essex.

Gibbs-Doan Nuptials.

At a lovely ceremony at the home of the bride's brother-in-law and sister, Mr. and Mrs. Ward Steed, Mary Elizabeth Doan, R.N., daughter of Rev. and Mrs. A. E. Doan, of Merlin, and Thomas Woodrow Gibbs, of Windsor, son of William Gibbs, of Amherstburg and the late Mrs. Gibbs, were united in marriage, the Rev. Mr. Doan officiating.

The bride was gowned in rose figured silk jersey, a street-length style with black accessories and a corsage of sweetheart roses and sweetpeas. She wore matching flowers in her hair. Mrs. Steed, as her sister's only attendant, wore a blue figured jersey dress with black accessories. Her corsage was of pink carnations and she wore rosebuds in her hair. Mr. Steed was best man.

Following the ceremony, a wedding dinner was served to the immediate families, the bride's table being centred with the wedding cake in a bed of pastel summer flowers.

Mrs. Doan wore for her daughter's wedding a printed orchid crepe dress, with white accessories and Tullman roses and orchid sweetpeas. Mr. and Mrs. Gibbs left on a short wedding trip. They will reside in Windsor.

Ed. Dunn Passes.

Edward Patrick Dunn, well-known Woodstock farmer, passed away at his farm home, on the 3rd Concession of Rochester, on Tuesday.

Deceased, a son of the late Patrick Dunn and Miss Kennedy, was born in Rochester Township, on May 20th, 1880, and had farmed in the township all his life.

Surviving are his widow, the former Mary Mullins, and seven children, Mrs. W. J. Collins, of Schenectady, N.Y.; Wm. Dunn, of Woodstock; Mrs. N. P. Niklas, of Windsor; Miss Mary Agnes Dunn, of Sarnia; Gerald, John and Veronica, at home; also three sisters, Miss Mary Dunn, of Toledo, Ohio; Mrs. Pat Murphy, and Mrs. Richard Byrne, both of Windsor.

Funeral services were held this (Thursday) morning from the family home, at 8:30 to St. John's Evangelical Church, Woodstock, at 9 o'clock. Burial was in the church cemetery.

For Best Returns Use Best
Rams.

Leading breeders of quality live
stock place great reliance upon the
kind of sire they use, claiming that
the type of progeny, be it good or bad,
reflects that of the sire. Exceptional
care is exercised in the selection of
stallions, bulls and boars and, in many
cases, of rams.

Yet, it must be acknowledged that
far too many cases any sort of ram
is used to serve the purpose. J. A. Tel-
fer, Sheep Specialist, Dominion Depart-
ment of Agriculture, describes such
carelessness in selection of a flock
leader as regrettable and warns that
it practised continually can end only
in failure and further decline of the
industry.

Successful sheep raisers claim the
ram is at least 50 per cent of the flock
while others claim 75 per cent and
some, 100 per cent. Mr. Telfer says
it is a known fact, however, that high
grade pure bred rams will improve the
quality of the lambs sired and increase
the net returns from the flock.

Lambs marketed on either the car-
case or on a basis are valued according
to conformation, finish of flesh and
color of meat. Conformation plays a
big part in general appearance of the
finished carcass, in its fleshing and
yield, and finally, in its disposal over
the counter in the retail store. Flock
owners would be well advised to use
selected rams of high grade with out-
standing conformation and possessing
development in the parts of the body
which mean most in the carcass of
finished lambs.

While oats seeded alone are com-
monly used for pasture, it is often
more desirable to seed them in a mix-
ture of oats at 2 bushels plus Sudan
grass at 20 pounds per acre. This mix-
ture, however, should not be seeded
as early as oats alone nor until the
ground is warm. This is usually about
the time corn is normally planted. The
oats grow quickly and provide early
pasture, while Sudan grass makes its
best growth later and usually after the
oats have been grazed off once.

Sudan grass alone may be seeded at
25 to 30 pounds per acre on any soil
adapted for corn, but should be seed-
ed as late as Empire millet which may
be seeded until the first week in July.
In moist conditions are good. Millet
may be seeded alone at 30 pounds
or in a mixture with oats at 20 pounds
per acre.

Rape seeded at 3 to 5 pounds per
acre from early spring to July pro-
vides very good pasturage in 8 to 10
weeks after seeding and is particu-
larly suitable for late fall for sheep,
hogs and beef cattle.

The practice of grazing off the nurse
crop used in seeding down new mead-
ows has been followed with good re-
sults at the Central Experimental Farm.
Good catches have been ob-
tained by putting the rate of seeding
the animals such as cattle or oats plus
Sudan grass provided extra is given
to the preparation of the soil and man-
agement of the grazing animals. The
soil should be well prepared but firm
and cattle should never be turned out
on such fields when the ground is soft
after a rain.

For further information on the use
of different annuals for pasture, write
the Division of Forage Plants, Central
Experimental Farm, Ottawa.

there is no appreciable difference in
the growth of capons and chickens up

Capons are more docile and less
active than normal males, which pos-
sibly accounts for greater deposits of
fat dispersing throughout the muscles,
providing a superior quality of meat.
Another advantage gained by caponi-
zing is that, because the flesh of the
capon does not get hard and tough like
that of the normal male, it is possible
to raise capons late in the season
where the price justifies it, thus extend-
ing the marketing period for fresh-
frozen roasters.

Any breed of fowl may be caponi-
zed, but on account of the commercial de-
mand for large capons and the fact
that the capon becomes superior to
the cock only after the greater
part of a superior quality.

Supplementary or Emergency
Pasture.

Under conditions prevailing in East-
ern Canada, permanent pastures and
pastures in a crop rotation are subject
to a period of low production in July
and August. This shortage of pastur-
age in mid-summer may be even more
serious in the event that last year's
seedings of perennial grasses and
legumes have failed to "catch" or if
there has been severe winter-killing.
In view of these conditions it is nec-
essary to provide supplementary or
emergency pasture by seeding some
annual crop or a mixture of annuals
adapted to the local soil and climatic
conditions, says F. S. Nowosad, Divi-
sion of Forage Plants, Central Experi-
mental Farm, Ottawa.

Spring Ryeseed at 2 bushels per
acre will give the earliest pasture. It
is ready to be grazed in about 4 weeks
from the date of seeding. Oats seeded
alone at 3 bushels per acre are more
productive and may be grazed in about
five weeks after seeding. This crop
may be seeded any time the land is
ready, but not later than June 10th
or 15th.

This May Be Year for Potato
Blight.

This may be a potato blight year,
says R. E. Goodin, Fieldman for the
Crops, Seeds and Weeds Branch, On-
tario Department of Agriculture. Wet,
warm weather conditions, so prevalent
throughout Ontario, are favourable for
the increase and development of the
fungus causing late blight of potatoes,
already reported in the Southern United
States as now travelling to more
northern sections. Therefore, says
Mr. Goodin, potato growers would be
well advised to give particular atten-
tion this year to efficient spraying or
dusting of their growing potatoes for
the prevention of blight and rot dis-
eases.

After the plants are 8 to 10 inches
high, plenty of spray or dust material
should be used every 7 to 10 days and
continued as long as the tops are
green. Various materials may be used.
For spraying, a Bordeaux mixture
known as 4-4-40 is recommended. This
material can be purchased in readily
available form. Picked coppers such
as C.O.C.S., Consoil, Cupro-K, Copper
Compound, Basicon, Bordeaux, Cup-
rocid or Perenox may be used, accord-
ing to directions. Dithane, Fernate,
Karbam, Matheson and Zerlate are also
available for spraying.

In either spraying or dusting a ma-
chine with high pressure is essential,
covering both surfaces of the leaves
with the material. Forty or fifty gal-
lons per acre may be sufficient when
the plants are small, but 80 to 100 gal-
lons or more may be required when
the plants are large. Likewise, 20 to
25 pounds of dust per acre should be
used in the first application, and in-
creased by at least five pounds for each
later application. Fixed copper dusts
may be applied during the day when
the air is still, using an apron in the
case of power machines.

Winter Killing Can be Avoided by Fertilizers.

much of the winter killing of wheat is not so much to severe weather as to starving on the wheat plants failure to build up the proper food reserves in the roots for winter protection. Prof. G. M. Ruhnke, head of the D.A.C. Department of Soils, speaks of members of the Ontario Crop Improvement Association.

According to Prof. Ruhnke, the importance of phosphate fertilizer in wheat production cannot be emphasized. In this connection, he says "The wheat plant must obtain from the soil and store in its root system all the necessary minerals (phosphorus, potassium, calcium, etc.) and reserves from which it can draw for early and vigorous growth in spring. In the first six weeks of growth, the wheat plant takes up phosphorus requirements for complete growth of the plant to maturity in succeeding summer. If phosphorus is not present in the soil at critical period it cannot be utilized by the crop later on. It is insurance to fertilize winter wheat with a fertilizer high in phosphate at such a rate as to apply at least 20 pounds of available phosphoric acid per acre. Some soils are low in nitrogen and potash as well as in available phosphate. Properly-made fertilizers, correlated with the history of the land, manuring and fertilizing succeeding crops, can take the work out of deciding on the fertilizer treatment for a given

fall wheat. 2126 fertilizer ap- ples at the rate of 250 pounds per acre has been found satisfactory under range of conditions, according to recommendations of the Advisory Board for Ontario.

It is right, you can afford to keep winter wheat. When wrong, you can't lose it.—Frank E. Polk.

ELM GROVE

To keep you posted on our W. I. activities, here is a resume of happenings since June: On June 11th, a large crowd attended the June meeting of Maple Leaf Institute, at the home of Mrs. Jan Boushey.

Reports of the District annual meeting, held in Conber, were given. The finished Honour Roll, designed and painted by Mrs. Frank Hicks Jr., was presented to the Institute as a gift from Mrs. Hicks.

The roll was placed in S. S. H. Maidstone. Also in June, a meeting of the executive was held at the home of Mrs. John Gann, Essex, and the year's program was prepared.

In July, a birthday party and ice cream and cake social evening was held at the home of Mrs. Allen Davison. All who attended report a splendid time.

Personally, we never saw such a small group out so much ice cream before.

The evening was such a success that tentative plans were made for another such evening in August. Watch the paper for further news about this.

The September meeting, as usual, honoring "Grandmother," is planned for the second week in September. The place will be announced later.

MAIDSTONE

Leamington Defeats Essex.

First Inning. Essex—1. Ross walked; Brown attempted to sacrifice, popped a foul to Jack Howe; M. Miller singled to left; 1. Ross moving over to third; M. Miller took second on the first pitch to Brackell; Brackell hit a scorcher to Hillier, who threw him out at first, and when 1. Ross tried to score he was an easy out; Parker to Jack Howe—0 run, 1 hit, 0 error.

Second Inning. Leamington—Heaney singled to left; Hillier sacrificed; Murray to Art Miller; Gresswell lined a single just inside third base bag, to score Heaney, and he moved up to second on Loebach's throw to the plate which had it been good, would have had Heaney by at least ten feet; Jack Howe grounded out, second to first; Gresswell moving over to third; Parker lined a triple to deep left center, to score Gresswell; with the count two strikes on Suds, 1. Ross threw high over Murray's head on a return throw and Parker scored; Suds died out to Parent—3 runs, 3 hits, 1 error.

Third Inning. Essex—A. Miller grounded out, second to first; Parent hit a high fly to Gresswell in right; R. Ross lined to Urnan—4 run, 0 hit, 0 error.

Leamington—Brown threw out Urnan; McVicar hit a ground rule double to left and moved over to third on a passed ball; Ashton fanned; Heaney singled to left, to score McVicar; Hillier singled to right; Heaney moving over to third, from where he scored; when R. Ross error on Gresswell's grounder; Hillier reached third and Gresswell second on the play; Jack Howe doubled to score Hillier and Gresswell. Fleming replaced Murray, and Parker grounded out, second to first—1 runs, 4 hits, 1 error.

Fourth Inning. Essex—Loebach and Fleming struck out; 1. Ross lined high to Urnan—0 run, 0 hit, 0 error.

Leamington—Martin replaced 1. Ross behind the plate for Essex. Suds struck out; Urnan walked, stole second and scored as R. Ross was throwing out McVicar; Art Miller saved the Essex shortstop an error on a bunt throw; Ashton fanned; Martin assumed the third strike, but threw him out at first—1 run, 0 hit, 0 error.

Fifth Inning. Essex—Brown walked on four pitched balls; M. Miller was hit by a pitched ball on the fourth straight ball pitched to him; Brackell hit to Urnan, forcing M. Miller at second; Brown moving over to third on the play; Brackell moved to second with no play being made; Art Miller hit to Heaney, and was safe at first on a fielder's choice when the Leamington second baseman tried unsuccessfully to get Brown at the plate; Brackell moved over to third on the play; A. Miller broke for second on the first pitch to Urnan; Jack Howe's throw to Urnan beat Art Miller at the collision with the Carson shortstop; he dropped the throw; Miller being safe, and Brackell scored; the game was held up for a few minutes while the two players got their wind, both remaining in the game; A. Miller moved over to third as Heaney threw out Parent, and scored when Ashton dropped R. Ross' easy pop fly.

R. Ross being safe at first; Loebach moved to left—3 runs, 9 hits, 2 errors.

Leamington—Heaney drew a base on balls; Hillier singled to right to send Heaney to third; Hillier moved to second, with no play being made on him; Gresswell lined to Loebach in left; Heaney holding third; Jack Howe fanned, and Fleming threw out Parker—0 run, 1 hit, 0 error.

Sixth Inning. Essex—Fleming lined to McVicar in left, who dropped the ball; Martin was called out on strikes; Brown topped a ball toward third and beat Hillier's throw for an infield single; M. Miller hit to Urnan and the bases were loaded when the Leamington shortstop erred on the play; Urnan, who stole, been badly hurt in the fourth inning, left the game; Gresswell moved over to play short while Joe Howe went into right; Brackell hit a wicked grounder to Hillier, on the first pitch, for a double play, third to catcher to first—0 run, 1 hit, 1 error.

Leamington—Suds walked on four pitched balls; Joe Howe fanned; McVicar hit to Brown, who threw to second trying for Suds; Suds beat the throw and McVicar was safe at first on a fielder's choice; Ashton struck out; Heaney looped a single into right to score Suds; Hillier hit an easy pop fly near second, R. Ross hardly got his hands on the ball, McVicar scored; Heaney reached third and Hillier second on the play; Gresswell lined a single to left to score Heaney, but Hillier was out to Loebach to Martin—3 runs, 2 hits 1 error.

Seventh Inning. Essex—Urnan and Hines struck out; Brown grounded out to Parker, unassisted—0 run, 0 hit, 0 error.

Leamington—McVicar walked; Ashton sacrificed; Brown to A. Miller; Heaney singled off third base bag;

Hillier struck out; Gresswell hit to Brackell, to score McVicar as Heaney interfered with the Essex third baseman, and Gresswell beat his throw to first; Jack Howe grounded out, short to first—1 run, 1 hit, 1 error.

Eighth Inning. Essex—M. Miller was thrown out by Hillier; Brackell was safe on Gresswell's error; A. Miller singled to center; Brackell moving over to third; Parent doubled to right to score Brackell; A. Miller holding third; Queen singled to score A. Miller; Gresswell took Loebach's foul fly back of third; Heaney threw out Inson—2 runs, 3 hits, 1 error.

Leamington—Parker beat out a hit to deep short and stole second, and moved over to third as Roy, plate umpire, called a balk on Inson; Suds died to Parent in center; Parker scoring after the catch; Joe Howe walked; McVicar hit to Brackell, who threw to deep left center, to score Gresswell; Hines to force Joe Howe; McVicar stole second and went to third when Brown threw badly; Ashton died to Loebach in left—1 run, 1 hit, 1 error.

Ninth Inning. Essex—Bill Howe replaced McVicar in left. Hines walked; Brown singled to short; M. Miller singled off Gresswell's glove to lead the bases; Hillier and Gresswell here exchanged positions; Brackell singled to left to score Hines and Brown, and when Gresswell threw badly to Jack Howe, M. Miller took third and Brackell second; Art Miller really tagged one, but it went straight at Heaney for an out; Parent singled to center to score M. Miller and Brackell, and took second as Suds threw to the plate; Queen died out to Gresswell and Loebach grounded out Hillier to Parker, to end the game—4 runs, 4 hits, 1 error.

Provincial Police Take Over
Sandwich West.

The Township of Sandwich West
will enter into an agreement with
the Ontario Provincial Police for that
organization to take over the police
duties in the municipality.
Decision to take this step was made
at the July meeting of the Sandwich

PUCE

Mrs. A. Gaugnier entertained at a picnic last Monday for Mr. and Mrs. Morley, who left Wednesday on a motor trip east. Among those present were, besides the honorees, Mrs. Wm. Mero, of Windsor; Mrs. Clarence Miner, Mrs. June McGee and daughter Diane, all of Detroit; Mrs. Stanley Major and others.

Mr. and Mrs. Edward Baker have returned from their two weeks' vacation, spent at Georgian Bay.

Mrs. Clarence Miner, of Detroit, entertained her "500" club at her summer home here, Thursday afternoon. Besides the eight members of the club, Mrs. Lola Hauser, of Detroit; Mrs. Mac Clapp, of Riverside Drive, Tecumseh; Mrs. Stanley Major and Mrs. Peggy Gaugnier, of this place, were present. All enjoyed a fine afternoon.

Miss Eleanor Little, of Elm Grove, is visiting her aunt, Mrs. Carmen Patillo.

Miss Ruth Martin, of Toledo, Ohio, spent the weekend with her mother and brother, Mrs. Mary Martin and Daniel Martin.

Guests of Mr. and Mrs. Stanley Major, on Sunday, were Mr. and Mrs. James Anguish, Mr. and Mrs. Edward Hemmingsway and Mr. and Mrs. Frank Milligan, all of Detroit.

Born—On Friday, August 8th, to Mr. and Mrs. Reginald Blanchard (nee Bertha Gerrier, of Summerside, P.E.I.) at Hotel Dieu, Windsor, a daughter, sister for Barbara and Bruce.

Mr. and Mrs. H. Axford, Mr. and Mrs. Wm. Ellwood and the Misses Betty Jones and Greaves, went on a boat trip to Chatham, on Sunday. Miss Joanne Ruhlman, of Detroit, is visiting her grandparents, Mr. and Mrs. George E. Ruhlman, on the lake shore.

On Friday evening Mrs. Clarence Miner, Mrs. Stanley Major and daughter, Mrs. A. Gaugnier, went to Detroit to attend a wedding shower for Miss Gloria Ann Beard, whose coming marriage to Robert Leland Kennedy will take place September 6th at Grosse Pointe Memorial Church.

L. G. Roach Passes.

Funeral services were held on Wednesday afternoon of last week for Leonard Gordon Roach, well-known Leamington resident, who passed away at his home on Monday, August 11th. The late Mr. Roach, who was 71 years of age, had been in ailing health for four years.

He was born in Mersea township, on Talbot Road east, a son of the late Mr. and Mrs. John Roach, and farmed in Mersea township for many years, moving to Leamington five years ago. He was a member of the Oddfellows Lodge and the United Church.

Surviving besides his wife are two daughters, Mrs. Eric Leamon and Mrs. Wilfred Latam, of Mersea township. Two brothers, Dolph and Sylvester Roach, and two sisters, Mrs. Arthur Liddle and Mrs. Oliver Setterington, of Leamington, also survive.

Interment was in Evergreen Memorial cemetery, Leamington.

We Had Another Short One.

Too true, too true, this has been a short week for the softball league, after all we did need the rain, the rain makes everyone feel better, and then maybe everyone will come out and give the teams just a wee bit more support. Hows about it?

Well, here goes for last week. On Wednesday, the 18th, the Kins took the field (the pikers) full of vim, vigour and vitality, against the slow rolling Lawn Bowlers. The heat took away the vitality, errors snapped the Kin vim, old age took our vim and to top it all, the Bowlers took the game 15 to 7. It was a good game, well fought, except for the devastating error on the Kin club. Thrasher, Habkirk and Coulter were the battery for Kin, and Bullard and Donnie Roy for the Rock-tossers.

On Thursday the clouds upset over Essex and did it ever feel good, and on Friday it was still plain mud. Again on Monday the Kin and Bowl-ers had a return engagement. What a game, what a sensation, could you guess it? The Kinsmen were a rarin' to go, and the Bowlers were a rarin' to go. A game well fought by both sides, with the Kin on top all the way, instead of on the bottom. Habkirk pitched a good game, with the Kin team giving top-rate support. The Bowlers never gave up fighting behind George Piper's tossing slow ball, but it was just their off night.

On Tuesday night the G. M. team was there, but most of Stokely's failed to show up and the game was forfeited, although a good game was played with a makeshift team.

And now next week's G. M. vs. Kinsmen (oh boy); Monday, August 25, Bowlers vs. Kinsmen; Tuesday, August 26, G. M. vs. Wednesday, Legion vs. Legion; Thursday, Stokelys vs. 4th team; Friday, playoffs, Legion vs. G. M.'s (I think).

It gets dark mighty early, so players please be there to start the game at 6.30. Thank you. The bench jockey.

IN MEMORIAM.
In loving memory of our dear mother, Mrs. J. J. Vance, who departed this life 16 years ago, August 21st, 1931.

We think how you sat at the window with the lights turned low, Waiting and watching for us to come home Before to bed you would go.

Though now you are absent, mother, dear, We always feel you very near. Still watching and guarding us all the while, Just like when here with the same sweet smile.

—Lovingly remembered by her family.

THE WEED OF THE WEEK

POISON IVY.
Poison Ivy, sometimes called Poison K, Poison Vine and Three-leaved, is a native perennial. It grows all types of soil, and especially places that cannot be cultivated. The plant is a low shrub, sometimes growing to the ground and at other times from six to 18 inches in height. It spreads from underground roots and m. seeds. Flowers, usually found under the leaves, are green and white. The leaves are green and white, and stay on the plant even after the leaves have fallen. The plant can be recognized by its three leaves on one stem, the middle leaf being larger than the two side leaves. The leaves are often glossy green, with white, toothed on one side, pointed and shaped. It can be distinguished in the Virginia Creeper, which has five leaves.

Poison Ivy has a very harmful toxic on the skin. Most people do not recognize the plant, but all may suffer from its contact. Everyone is able to identify this plant. There are several cures from contact, and a sole precaution is to wash the parts affected with a good strong, warm solution. When anyone becomes it, it is always best to consult a physician.

Poison Ivy can be eradicated by cutting. Usually it is found in large quantities in the woods. Small plants can be grubbed out, but rubbers and boots should be used, wash them after use. Spraying has been tried, but owing to the extensive ground root system, repeated applications may be necessary. Such killers as Stephen and Atlatia, also Amate, have given good results. The new 2, 4-D weed killers are also useful. The usual precautions at time and weather conditions when using any type weed killer destroy Poison Ivy.

Poison Ivy is a noxious weed under Ontario Weed Control Act. The co-operation of all citizens is necessary to eradicate this menace to health and pleasure of the people of Ontario. All weed inspectors must see that Poison Ivy is eradicated from their territories.

FRIDAY, AUGUST 22, 1947.

Tecumseh Blanks Harrow.

Rollie Gouin, lean right-hander for Tecumseh, tossed a six-hit shutout, blanking Harrow, 7-0, at Tecumseh.

The Indians tallied their first run in the opening frame, when Robinet led off with a single, went to second on Savole's sacrifice, to third on Gerry Cecile's infield out, and scored on Sawyer's single.

Two runs came in the fourth on a double, passed ball, walk, wild pitch, infield out, and another double.

Gerry Cecile got on through a fielder's choice and scored on Sawyer's double, to make it 4-0 in the fifth.

Three more runs came in the eighth on three singles, two bases on balls, a fielder's choice and wild pitch.

Kingsville Loses to 'Burg.

Amherstburg won its third game of the season, beating Kingsville 11-3.

Howe started on the mound for the losers but was hit hard. He received poor support from his mates, who batted six times. While giving up eight hits, he struck out an even dozen and walked two. Bechard relieved him in the sixth frame and only gave up one hit the rest of the route.

Jones tossed the first five innings for the victors, allowing four hits, fanning five and walking two. He tossed one hit ball until the top of the sixth, when Kingsville got three successive singles. Bussey relieved him and allowed four hits over the rest of the route.

Amherstburg won the game in the second, scoring four times on a hit batsman, a walk, an error and two hits.

Kingsville scored all three runs in the sixth on five hits.

Primeau and Robinson had two for four, including homers; G. Murray, two for two, and Bowdy, two for three. W. Snively, with two for three, and Bechard and two for four, were best for the losers.

Scarlett started afield, handling nine chances.

Belle River Tops Tilbury 4-1.

Although outplayed 10-0, Belle River took advantage of Tilbury's errors and free bases to boost its standing in the loop. Penner, meanwhile, was tough with men on bases.

Three walks and a single accounted for two runs for the winners. Penner walked, and after Parent struck out and Labadie fled out to Askin, Cascadden and Cecile walked, and Chaput singled to score two men.

An error to Fritz Markham, a single by Parent and walks to Labadie and Cascadden again forced in another run in the fourth. Two errors and a double brought in the fourth run.

Tilbury's lone counter was scored on singles to Fletcher and Rankin and a fielder's choice.

Dresden—Brackell threw out Brewer; Devriese drew a base on balls; Morris Smith lined a double to right center to score Devriese; Churchill walked on four pitched balls; Campion singled, I. Ross to Art Miller, both runners, fanning; Mart Smith grounded out, second to first.—1 run, 1 hit, 0 error.

Essex—1. Ross popped to Devriese. Bedell threw out Queen; Brown struck out.—0 run, 0 hit, 0 error.

Second Inning.
Dresden—Hystead was called out on strikes; McCorkle popped out to Rettig, and Brown threw out Bedell.—0 run, 0 hit, 0 error.

Essex—Brackell hit a terrific line drive right at Campion in center; M. Miller grounded out, third to first; Loebach struck out.—0 run, 0 hit, 0 error.

Third Inning.
Dresden—Brewer was safe on Brackell's error, and stole second; Devriese bunted toward third; I. Ross fielded the ball and didn't get either batter or runner; Brewer and Devriese worked the double steal, Brewer scoring; Morris Smith popped to I. Ross in front of the plate; Churchill's fly fell safe in short center for a two base hit; Devriese scoring; Campion singled to center to score Churchill, and he took second when R. Ross let the ball get through him; Queen threw out Mart Smith; Campion moving over to third; Hystead grounded out to Art Miller, unassisted.—3 runs, 3 hits, 1 error.

Essex—Hystead threw out R. Ross; Art Miller grounded out, second to first; Rettig struck out.—0 run, 0 hit, 0 error.

Fourth Inning.
Dresden—McCorkle was thrown out by Brown; Bedell hit toward Brown and when the ball took a bad hop, got credit for a base hit; Brewer hit to Brown, the ball going through his legs into left; Bedell stopping at second; Devriese singled to right; Bedell scoring and Brewer moving over to third; Devriese and Brewer tried the double steal, Devriese was run down, but Brewer scored; Rettig threw out Morris Smith—2 runs, 2 hits, 1 error.

Essex—1. Ross singled to left center but was forced at second by Queen. Bedell to Hystead; Queen moved up to second when a balk was called on Bedell; Brown's pop foul fly behind the plate was taken by Brewer; Brackell singled to left to score Queen; M. Miller walked and when Brewer tried to trap him off first, Brackell moved over to third as Brewer's throw got away from McCorkle; Loebach doubled to center to score Brackell, M. Miller moving over to third; R. Ross struck out.—2 runs, 3 hits, 0 error.

Fifth Inning.
Dresden—Loebach took Churchill's fly in center field; Brown threw out Campion and Mart Smith.—0 run, 0 hit, 0 error.

Essex—Art Miller singled to center; Hystead caught Rettig's foul fly back of third; A. Miller moved up to second on a wild pitch; I. Ross grounded out, second to first, and Bedell threw out Queen.—0 run, 1 hit, 0 error.

Sixth Inning.
Dresden—Brown threw out Hystead; McCorkle went out, second to first and Queen threw out Bedell.—0 run, 0 hit, 0 error.

Essex—Brown hit sharply to Devriese and was thrown out at first; Brackell fouled out to Brewer; M. Miller singled to left center, but Loebach fied out to end the inning and the game, as the umpires called the game, and later called the game because of rain.

THE NATION'S BUSINESS

The hot days in the nation's capital last week reduced political speculation and argument to a minimum. The shock of the sudden death of two notable figures, Hon. Frank Bridges and Senator "Gerry" McCreery, is keenly felt. Both were recognized as hard working and exceptionally able public men whose inspiration was their deep love for loyalty to Canada.

Eyes on Britain.
There is interest, and some outspoken disappointment at the new economic plans put into force by Britain's socialist government. No one denies that it will have a serious effect on both Canada's foreign trade and monetary position with respect to other countries. Our department of Trade and Commerce has convinced us that 13 of our income comes from external trade and that the loss would be felt by all whether our income comes directly from external sources or indirectly. Under these conditions it is not difficult to understand the intense concern felt in all circles here about our external relations. Britain's statement at Geneva that she could not sign the multilateral tariff agreement as now drafted, for at least another year is a blow to Canada's hopes and efforts for freer world trade.

How Much is Socialism to Blame.

World Britain's position have progressively worsened if its government had been less concerned about "socialism" in the question in many minds. The decision of the British government to postpone the "socialization" of the steel industry until the economic crisis is over would indicate that even the socialists believe that their policy has been detrimental to the reconstruction of the old land.

Our Hope—the United Nations.
This observer is convinced that Canadians are more and more coming to the conclusion—perhaps reluctantly—that our greatest hope, if not our single hope, for happiness and prosperity comes only from a strengthening of the United Nations. It is becoming clear that a high level of multilateral trade will not come except through united action. Few have illusions about the difficulties and dangers in the way with Soviet Russia challenging every move, and with socialist "planning" on a national basis threatening every attempt at the freer trade which is necessary if the unfortunate millions of the world are to obtain food. Exaggerated "nationalism" is a luxury we cannot afford.

Mr. Howe in Europe.
Many are watching the news of Rt. Hon. C. D. Howe's activities in Europe where he is representing the government and people of Canada and as business as acting minister of the department which handles immigration. Regardless of party Canadians have come to expect his things from Mr. Howe, in whatever capacity he acts. No one has forgotten the vision, forth-

WILLIAM J. MCCULLOCH

Alastair Conacher, Secretary, Treasurer of the Ontario Association of Boards of Trade and Commerce, announced the appointment of Mr. William J. McCulloch as a Director.

Mr. McCulloch is widely known throughout Ontario, particularly in Board of Trade and Commerce circles, for his outstanding leadership and ability in promoting the cultural, business and commercial life of the Province.

Recently Mr. McCulloch was elected Director of Sales for the "Petter, Browder" Company, Hamilton, Ontario.

Should Plan Now for Bees in Spring.

As established beekeepers prepare to plan for the coming year, they should start planning in the fall, says C. P. Gooderham, Dominion Apiarist General Experimental Farm, Ottawa.

Those who already keep bees must take steps to protect their colonies for the coming winter so as to ensure their continuity as living colonies into the spring. It is assumed that the first step in this direction has been taken, and that beekeepers are now up to full strength for safe wintering. If not, all the work now should be done. A few strong colonies are much safer than many weak ones, as the latter may die before spring. The next step is to see that every colony has a ample supply of wholesome food to carry it well into next spring or early summer. Most colonies that die of starvation do so during March or April simply because the food given in the fall is not quite enough to last until new supplies are available. Forty pounds is the minimum amount for a colony.

Those who are planning to start keeping bees next spring, they should begin by noting that unless the sugar shift is made before the winter, they are not entitled to extra sugar to feed the bees when they get home. Too many beekeepers have been misled by the fact that sugar can be obtained in the winter, but it is not the same as the sugar that bees can use in the spring. The new year should be a time when all the equipment is ready for use, and care for the bees when they arrive is at hand. Feed and protect all bees on hand for the winter, and plan for new colonies for next spring as soon as possible.

The adhesive stamp was invented at the Bee Research Station.

GOOD CITIZENSHIP
is a lot of little things

THE COMMON FLY—A COMMUNITY ENEMY

The common house fly is the worst disease carrier known to science—Public Enemy No. 1 in your community! Help control this pest. Wrap garbage and keep the lid on the container... clean up all refuse... repair those holes in your screens... and see that food is always covered! Kill every fly you see. By making your community a healthier place to live in, you'll be demonstrating your "Good Citizenship".

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

This series of advertisements is planned to help make your community the best place to live in; sponsored by

Make Your Pullets Pay Off Early

You can't get all your eggs in one basket — not when your laying flock is laying up to the mark, and paying a profitable dividend over the cost of their care.

Your laying flock is dependent upon you for their feed, and upon your choice of a proper laying feed depends the success or failure of your birds in paying their way with a profitable margin for you.

You will be greatly surprised to find how quickly your flock responds to the extra proteins, minerals and vitamins that help to balance the ingredients of your own home grown feed, when your feed is properly balanced by the addition of SHUR-GAIN Poultry Concentrate.

Get a few ounces of this finer quality laying concentrate today, and watch your profits soar.

Essex Town Council.

Monday, August 25th.
Council met in regular session, in the Council Chamber, with Mayor Linton, Reeve Irwin and Councillors Chase, Shaw, Maedel, Francotte and Pulleyblank present.
J. A. Nightingale, as representative of the Essex Boys' Band Committee, presented the following petition, signed by 129 duly certified property owners of the Town of Essex, viz.:
To His Worship, the Mayor, and members of Council for the Town of Essex:
The humble petition of the undersigned electors of the Town of Essex qualified to vote on money bylaws, sheweth that:
WHEREAS it has been shown during the past nine years that the presence of a Boys' Band organization in our town has proven of great value in the cultural training of our youth in providing all citizens with excellent musical entertainment and in establishing the fame of our Town as a musical centre, and thereby advertising our town, its institutions and enterprises;
AND WHEREAS we, and each of us, take great pride in our Boys' Band organization and are desirous that adequate provision be made for its support, preservation and continuance;
AND WHEREAS we realize that adequate financial provision should be made annually for the proper maintenance of the said band;
We, your suppliants, individually and collectively pray that:
1. Under and by virtue of the powers vested in this Honourable Body by Section 405, sub-section 65, The Municipal Act, Chap. 266, R.S.O. 1937 and amendments thereto, you submit at the next ensuing municipal elections a bylaw for the assent of the electors qualified to vote on money by-laws;
2. That the said Bylaw be for the purpose of establishment and maintenance of a fund for the support and aid of the Essex Boys Band organization;
3. And that the Bylaw provide for the annual levy of one-half of one mill of the rateable assessment of the Town of Essex for the sustenance of the said fund;
4. And that the Bylaw further provide that the said fund be granted annually to, and to be administered by, the officers and committee of the Essex Boys' Band to be used for the financing, equipping and aid of the said Essex Boys' Band.
Dated at Essex, Ontario, this 20th day of August, A.D., 1947.
The Mayor advised Council he had seen the Town Solicitor and the status of the petition.

Former Essex Resident Passes.

A former resident of Essex, in the person of Samuel McFarlane, passed away on August 18th, at the home of his daughter, Mrs. Fred Jackson, London.
Mr. McFarlane was in his 81st year. He was born in Wallacetown. As a young man he came to Camp Palmer, now Barretville, to work in the sawmill. He was married to Evelyn McKenzie, of Elford.
Deceased was a veteran of the First World War. Ten years ago Mr. and Mrs. McFarlane returned to the Town of Essex, residing on Laird avenue, across from the public school. Since then they have lived in Tillsonburg and Lucan.
Besides his widow, he is survived by six children, Archie McFarlane, Mrs. Fred Jackson, Mrs. Arthur Kilby, of London, Ont.; Mrs. Evelyn Newton, of Nebraska; Francis S. McFarlane, of St. Thomas; and Kenneth McFarlane, of Winnipeg; also by seven grandchildren and one great grandchild.
Funeral services were held from the Willard George Funeral Home, London, on Wednesday, August 20th, with Rev. A. F. Gardner, of Lucan, officiating. Interment was in Woodland cemetery. The pallbearers were two friends and four nephews, Locke E. Hot and Mr. Jackson, of London; John Patton, of Toronto; Corry McFarlane, of St. Thomas; Oscar Elford, of Palmyra, and Albert Elford, of Elford.

Gets Letter from Son's Buddy.

The following letter was received by Mrs. W. P. Davis, from the wife of Quentin Lockwood, navigator on the plane in which Karl Davis was killed, and written from Ashland, Ky.:
Dear Mrs. Davis: First, I want to tell you that I'm Alene Lockwood, the wife of Quentin Lockwood, navigator on the plane in which Karl was killed.
I'm ashamed I haven't written sooner, but life has been so full and fast for the last year, I've actually neglected putting first things first. Quentin has thought of you so often, but you have no idea the period of remorse he spends when thinking of that unfortunate day. Perhaps he will write you someday, but don't feel too bad at him now, because he finds it so difficult to try to tell you about Karl. I've asked him several times about it, and I'll try to tell you what he told me. If it comes to you with something someone else wrote you, please remember that it's unintentional or because Quentin might have forgotten.
He said the day Karl was killed they had gone on a mission to North of Rome, called Vitorbo Air Field. They had already been over the target and got hit by flak. They were flying in a bad position in the back of the flight. They jumped them and the first time they got Karl. He fell over on the ball turret and they laid him down. He was killed instantly by a bullet, through the head. Quentin crawled back to him and tried to help him, but he was already gone. Two other men were hurt, but not too seriously. They made a crash landing at Capodanno (Sp2) air field just outside of Naples, where Karl was buried. The other men were taken back to their headquarters and were not able to see Karl again.
Quentin was in another crash landing on the Adriatic Sea, June 13th, 1944. All got out alive, but Quentin was injured, a broken leg and his 41st mission. He floated six hours before being rescued. God just miraculously saved his life. He was in the hospital at Bari, Italy, about 60 miles from Corinzo, and 20 miles east of Foggia, where he was stationed and where Karl was, too. He was there when he saw the ship where Karl was buried. He was sent to a hospital ship after our little son was born, which was September 3rd. From Charleston, S.C., he was sent to Nashville, Tenn., and from there was sent to Ft. Thomas, Ky., in January, that's about 150 miles from Ashland. He was in the hospital there until May, when he was sent to Miami, Fla., and discharged. He went to work at an Oil Refining Co., when he felt God tugging at his heart, calling him into the ministry. He finished up his college at Georgetown Baptist College here in Kentucky, and is going to the Southern Baptist Theological Seminary in Louisville, this fall. He has been pastor of two small churches and we have been doing missionary work this summer. He is ordained and is a full-fledged minister, but will take further training. We now have a little daughter too (Susan Carol) 14 months old, and Chippy (Quentin Jr.) our little boy, will be 3 years old in September.
Mrs. Davis, I wish I knew what to tell you to make you understand the tragedy which came to you. All I can ever say is that God takes the good and the bad, the young and the old, the rich and the poor. We just have to be resigned to His will. If you have trusted in Christ, I know you will be able to stand whatever your sorrow may be. We will pray for you and hope that God will shelter you with His love.
We don't know much about the other crew members, but if you answer my letter and have any information concerning them, please tell us.
ALENE LOCKWOOD.

Parents, Take Notice.

At the regular meeting of the Essex High School Board, on Wednesday night, the Board decided to discontinue the practice of carrying pupils to other schools on High School buses. Only pupils attending Essex High School or persons employed by the Board, will be carried this year. Parents will be wise to make private arrangements for transportation of children who were so accommodated last year.

Mrs. Charles Bannister Passes.

Mrs. Ellen Bannister, widow of the late Charles Bannister, passed away at her late residence, North Road Road, in Gosfield North, on Tuesday, at the age of 93 years.
Surviving are a son James, and two daughters or Mrs. Arthur Noble and Mrs. Earl Dastie.
Funeral services were held this (Thursday) afternoon, at 2 o'clock, with Rev. G. K. Tyler officiating. Burial was in Greenlawn Memorial Park.

Leaving Essex.

John A. Naylor, who has been connected with the Naylor Lumber Co. and managed the Naylor Feed Mill for many years, before this part of the firm's business was sold to Essex Farm Ltd., has purchased a feed business in Staffordville, Ontario, a village about the size of Cottam, only a few miles from Tillsonburg. He will sell his home in town and move his family there shortly.

Celebrates Anniversary.

Mr. and Mrs. Arthur Mills celebrated at Earl's Place, in town, on Saturday evening, the occasion being their 25th wedding anniversary. They had as their guests Mr. and Mrs. John Struthers, of Leamington; Mr. and Mrs. Fred Breen, of Colmer; Mr. and Mrs. Stanley Nussey, of Tilbury; Mr. and Mrs. Emerson Wigle, of Leamington; Mr. and Mrs. Jack Coulter, of Essex; Mr. and Mrs. Clayton Mills and son Gerald.
Following dinner games were played till midnight, when ice cream and cake were served. Mr. and Mrs. Mills received many lovely gifts, among which was a chest of silver, a gift to Mrs. Mills from her husband.

Sokol-Tweedale Nuptials.

Before an altar banked in red and white gladioli, at 6.30 p.m., at Essex United Church, Rev. R. H. Parr united in marriage, at a double ring ceremony, Miss Ethel Ellen Tweedale, youngest daughter of Mrs. Edna Tweedale, of Essex, and the late Archie Tweedale, and Michael Thomas Sokol, oldest son of Mr. and Mrs. Sokol, of Windsor.
The bride, given in marriage by her brother, was attired in a floor-length dress of nylon bordered in lilacs of the valley, trimmed in tiny buttons, with a sweetheart neckline and sleeves extending to a point over the hand. Her fingertip veil was caught to her head with a crown of seeded pearls. She carried a bouquet of red roses and Stephanotis.
Miss Phyllis Cherry, of Windsor, as bridesmaid, wore a floor-length gown of daffodil-yellow satin, wearing head and mitts to match, and carried yellow gladioli. Miss Joanne Riedewer, of Detroit, as junior bridesmaid, wore a floor-length gown of pink nylon trimmed in lace, and wearing a head band with mitts to match, and carried pink gladioli. Miss Joan Tweedale, of Roseland, as flower girl, was dressed in a floor-length dress of pale blue net over pink, with headband filled with white gardenias and pink gladioli. Andrew Sokol, brother of the groom, acted as best man. The ushers were Edward Shepherd, of Windsor, and Edward Cline, of Detroit. The soloist was George Riedewer, of Detroit, who sang "I Love You Truly" during the signing of the register, with Mrs. J. W. Elsiey at the organ.

The bride's mother chose for her daughter's wedding, a gray showered silk dress with white accessories, and wore a corsage of pink roses and sweetpeas, while the groom's mother wore pale blue silk and navy accessories, with a corsage of pink roses and sweetpeas.
Following the wedding a reception was held at the Capt. Brian Legion rooms, where a lunch was served to about ninety guests, the table being centred with a four-tiered wedding cake, and tapered candles trimmed in pink. The best man gave a toast to the bride and groom and they were then presented with a 4-tiered wedding cake made of ice cream, a gift of the bride's uncle, Duff Haskell, of Detroit. Dancing followed until midnight. The bridal couple then left for a trip north, as far as the Manitoulin Island, the bride travelling in powder blue silk dress with white accessories, and wearing a corsage of red roses.
Lunch was served by Mrs. W. Philpott, Mrs. H. Warren, Mrs. Doris Blackberry, Mrs. H. Tweedale, Mrs. J. Whittall, of Essex; Mrs. J. Riedewer, Mrs. F. Cline, Mrs. W. Parsons, of Detroit.

Prior to her marriage the bride-elect was entertained at a shower, in Essex, given by Mrs. L. Whittall and Mrs. H. Tweedale, also a shower on Wednesday, given by Miss Mildred Jackson and Miss Phyllis Cherry, of Windsor.

Ferriss-Mitton Wedding.

A double-ring wedding of wide interest was solemnized at 2 p.m. on Monday, August 18th, in The First Baptist Church, Leamington, when Miss Muriel Margaret Mitton, only daughter of Mr. and Mrs. Frank Mitton, of Leamington, formerly of Essex, was united in marriage to Herbert Arnold Ferriss, only son of Mr. and Mrs. Philip Ferriss, of Leamington. Rev. G. K. Tyler officiated at the ceremony which was performed before an altar decorated with white lilies and large baskets of gladioli. Guest pews were marked with pink and white gladioli.
Given in marriage by her father, the bride was beautifully gowned in ivory tulle featuring a shirred bodice, sweetheart neckline, puffed sleeves, and a fingertip veil was held to her head with crystallized orange blossoms. Her only ornament was a double strand pearl necklace, the gift of the groom. She carried a white Bible adorned with red roses and showered with white streamers.
Miss Ellen Meston, of London, as maid of honour, wore a lemon shaded silk jersey with matching mitts and carried a bouquet of mauve asters. As bridesmaid, Miss Alta Ferriss, sister of the bridegroom, wore a pink taffeta gown styled with a boat neckline, shirred bodice, puffed sleeves and trimmed with gold sequins. She wore mitts to match her gown and carried a bouquet of pink asters.
As junior bridesmaid, Miss Jean Fraser, of Ridgeway, a cousin of the bride, wore a blue tulle gown of similar style with matching mitts and also carried pink asters. Mary Lynne Moran made a winsome little flower girl in a floor length gown of white embroidered organza over yellow, with yellow rosettes in her hair. She carried a colonial bouquet of mauve asters.
John Hansford was best man. The ushers were Alfred Mitton and Robert Mitton, brothers of the bride.
Previous to the ceremony Miss Margaret Morgan sang "The Lord's Prayer". During the signing of the register she sang "O Perfect Love". The accompanying was Miss Lenore Hubbeck, the church organist.

For her daughter's wedding, Mrs. Mitton wore navy crepe with black accessories and a corsage of pink roses.
Mrs. Ferriss, mother of the bridegroom, wore upon blue tulle a crop with black accessories and a corsage of pink roses.
A reception for a hundred guests followed in the St. James school hall of the church. The bride's table was centred with a three-tiered wedding cake and adorned with white tapers and the bouquets of the bride and attendants.
For travelling the bride chose a navy suit with fish-tail peplum. She wore black and pink accessories and a corsage of pink roses.
Following a motor trip through northern Michigan, Mr. and Mrs. Ferriss will reside in Leamington.

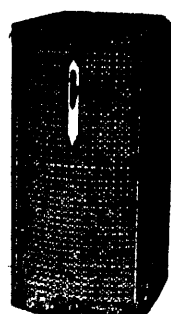

We're Ready for Play-Offs.

And who said the worm wouldn't turn? Yup, the Kinsmen did it. On Wednesday last, mid rain and mud, the Kinsmen tangled with G. M.'s and did the Kin ever throw mud in their eyes. It was a hard-fought game, but the G. M.'s lost 8 to 1 when the Kin took advantage of a batting spree and a few G. M. errors. Hubkirk and Hogarth for Kin. Damm and Barnewall for G. M.
On Thursday, a new story — rained out, but the next night, on Friday, G. M. and Kinsmen tangled for one of their rain-out games. It, too, was a very good game. Kin ran up two in their half of the first inning and then the G. M.'s came back with three. So the score held for three innings, as they came 2 up and 3 away, then the Kin loaded the bases in the fifth, but they died on the bags. The Kinsmen won 4 to 3.
On Monday, August 25th, the Kin and Bowlers game was rained out, to be played Thursday, August 28th.
On Tuesday the Legion and G. M.'s were on for a tussle, and I hear it was quite a game. I haven't been able to gather any details as yet, but the young Legionnaires were too much for the Oldsmobiles, to the tune of 5 to 4. There was a good gathering to cheer both sides after the baseball game with Belle River was finished. I think the Kinsmen soft ball team should pass the glue pot on to the baseball team, if that would help them.
Here's the team standing so far: Legion, 1st; G. M.'s, 2nd; Stokely's, 3rd; with Bowlers and Kin tied for 4th.
Next week's schedule: Friday, Aug. 29, Stokelys vs. Kin; Monday, Sept. 1, 2nd and 3rd teams; Wed., Sept. 2, Playoffs, 1st and 2nd teams; Thurs., Sept. 4, playoffs, 2nd and 4th teams; Friday, Sept. 5, playoffs, 1st and 3rd teams.
Come on out folks, the evenings are cooler and the players are getting hotter. You should see a good game worth the money I chisel from you.

People sometimes ask us what we are doing about providing more electricity for Ontario. Many know how close we are now to using up all our present supply.

Since the end of the war, Hydrex's back load demand has increased approximately 500,000 horsepower or more than 25% of the highest wartime demand, and is still mounting.

Mousseau-Smith Nuptials.

St. Francis Church, Tilbury, was the scene of a very pretty all-white wedding recently, when the Rev. Fr. McNabb officiated in marriage Mary Lillian Smith, daughter of Mrs. Lenore Smith, of Tilbury, and the late John Smith, and Max Mousseau, son of Mr. and Mrs. A. Mousseau, of Woodslee.

Given in marriage by her brother, Harry Smith, the bride wore a full length gown of white tulle, featuring a high neckline and long sleeves extending to points over her hands, her double no finger-tip veil was caught in a halo of orange blossoms, and she carried a bouquet of white roses and bouvardia with long white streamers.

The bridesmaid, Mrs. Brady Henneghan, as patron of honour, was dressed in white jersey, a very full skirt, white lambs-ear complemented the short cap sleeves. She wore pale blue feathers in her hair and carried a spray of white gladioli with blue streamers.

Mrs. Maurice Marchand, also a sister of the bride, in Swiss organdy, eyelid, and Miss Patricia King, of Tilbury, in nylon and net, acted as bridesmaids. They wore similar white net picture hats, crowns, and with wide pale blue satin streamers falling to the shoulders, and carried nosegays of white gladioli. Wilfred Mousseau, cousin of the groom, was best man, and Dick Smith and Maurice Marchand were ushers. Alphonse Fourth sang the wedding mass.

A breakfast was served to the immediate families, at the King Edward Hotel, Tilbury, and in the afternoon a reception was held at the home of the bride's mother.

Mrs. Smith was for her daughter's wedding a navy blue two-piece dress with navy accessories, and a corsage of tea roses, while Mrs. Mousseau, the groom's mother, chose a black and white jersey dress with white accessories, and wore a corsage of white roses.

Later, Mr. and Mrs. Mousseau left on a motor trip to Muskoka, the bride wearing for travelling a pale blue sabardine suit with navy accessories, and on their return will reside in Toronto.

George W. Holden Passes.

George Washington Holden, aged 81, died Sunday at the residence of his daughter, Mrs. Ross Riddell, 354 Patricia Road, Windsor. He was born in Piquette, and had lived in Windsor for 25 years. He was a retired farmer and was a member of St. Stephen's Anglican Church.

Mr. Holden is survived by two sons, Gordon Holden, of Toronto, and Arthur Holden, of London, and four daughters, Mrs. Herbert Schellert, of St. Catharines, Mrs. Lloyd Morrow (Clarke), of Detroit, and Mrs. Ross Riddell, of Windsor. He is also survived by 12 grandchildren, and 15 great-grandchildren.

Funeral services will be held Wednesday afternoon at 2 p.m. in St. Stephen's Anglican Church, 2 p.m. Rev. Fr. McNabb officiating.

Interment will be in the church cemetery.

Belle River 5, Essex 1.

Joe Penner outpitched Rettig in a twilight game, at the local Fair Grounds, on Tuesday evening, and his Belle River team came out on the long end of a 5 to 1 score. Essex made four errors, but not one figured in the scoring, while the visitor's only error was directly responsible for the Leafs' only run. Brown, although making three errors, made several fine stops on the field for either team, having eleven chances all told. He stopped two particularly hard hit balls to force a Belle River man at third each time. The Leafs finish out their scheduled playing Kingsville, at Collam, this (Thursday) afternoon, and if victorious, will cause a three-way tie with Kingsville and Leamington for fourth place in the league standing, the last play-off berth.

First Inning.

Belle River—Brown singled; Durocher threw out Trudell; Cascaden reached out and lined a single to right to score R. Parent, and when Miller threw home Cascaden moved to score Cascaden; Loebach made a safe running catch of Chaput's fly in short left center; Hargraves was called out on strikes.—2 runs, 3 hits, 0 error.

Essex—Queen hit the first pitch, a single to right; Penner threw out Brown; Queen taking second; Art Miller hit a terrific line drive at Cascaden, who doubled Queen off second.—0 run, 1 hit, 0 error.

Second Inning.

Belle River—Brown singled; Durocher's pop fly; Durocher stole second; Rose flied out to Ted Parent; Penner singled to left; Durocher holding third; R. Parent struck out; and Brown threw out Trudell.—0 run, 1 hit, 1 error.

Essex—Miller fanned; Ted Parent grounded out to Rose, unassisted; Martin hit by a pitched ball, but Loebach struck out.—0 run, 0 hit, 0 error.

Third Inning.

Belle River—Brown singled; Durocher's pop fly; Durocher stole second; Rose flied out to Ted Parent; Penner singled to left; Durocher holding third; R. Parent struck out; and Brown threw out Trudell.—0 run, 1 hit, 1 error.

Essex—Miller fanned; Ted Parent grounded out to Rose, unassisted; Martin hit by a pitched ball, but Loebach struck out.—0 run, 0 hit, 0 error.

Fourth Inning.

Belle River—Rettig threw out Durocher; Queen made a fine play on Rose's grounder, holding the ball over second; Durocher, the batter out, struck out; but R. Parent struck out.—0 run, 0 hit, 0 error.

Essex—Brown was safe at second when Chaput dropped his fly ball after a long run; A. Miller lined to Durocher in center; A. Miller went out; Rose flied out; Brown moving over to third; Ted Parent lined a single to right to score Brown; Martin struck out.—1 run, 1 hit, 1 error.

Fifth Inning.

Belle River—Trudell popped a ball in front of the plate and when the ball took a back spin away from 1. Rose, he got credit for a single; Trudell moved up to second on a wild pitch; Cascaden popped to Queen; Cecil singled to left to score Trudell; Chaput flied out; Hargraves flied out to Ted Parent; 1 run, 2 hits, 0 error.

Essex—Loebach fouled out to Rose; 1. Rose lined to Durocher in center; Rettig singled to short, but Queen fanned.—0 run, 1 hit, 0 error.

Sixth Inning.

Belle River—Durocher singled over third base bag; Rose sacrificed, Rettig flied out; Durocher moved over to third on a wild pitch; Penner walked and stole second; Durocher scored as Martin threw out R. Parent; Penner moving over to third; Trudell singled to center to score Penner; Rettig threw out Cascaden.—2 runs, 2 hits, 0 error.

Essex—Brown singled to left; Art Miller lined deep to Durocher in center; M. Miller popped to Cascaden; Ted Parent drew a base on balls, but Martin fanned.—0 run, 1 hit, 0 error.

Seventh Inning.

Belle River—Queen threw out Cecil and Chaput; Hargraves was safe on Brown's error; Durocher singled to left; Hargraves stopping at second; Rose hit to Brown, who stepped on third to force Hargraves.—0 run, 1 hit, 1 error.

Essex—Loebach was called out on strikes; Penner threw out I. Rose, and Rettig flied to right.—0 run, 0 hit, 0 error.

Eighth Inning.

Belle River—Hines took over second base duties, and Martin replaced Ted Parent in center. Brown threw out Penner; R. Parent was safe on Brown's error; Trudell singled to deep short; Rettig made a swell catch of Cascaden's pop fly; Cecil hit to Brown, who stepped on third to force R. Parent.—0 run, 1 hit, 1 error.

Essex—Queen and Art Miller went out to Rose, unassisted, and Cascaden threw out Brown.—0 run, 0 hit, 0 error.

Ninth Inning.

Belle River—Chaput popped to Queen; Hargraves drew a base on balls, and was forced at second when Durocher hit to Brown; Brown threw out Rose.—0 run, 0 hit, 0 error.

Mrs. Ernest Goward received word from Scotland advising her of the death of her father, Mr. Graham. Sincere sympathy is extended to her.

The banns of marriage were published for the first time, in St. Mary's Church, on Sunday, for John Hayes, son of Roy Hayes and Lillian Chittle, and Miss Ella Jacksonville, of St. Clara's parish, Windsor.

Mrs. James Quinn Sr., is seriously ill at her home on the Taylor Sideroad. The St. Mary's picnic fund this year was again a most gratifying amount. The drawing will take place on August 21st.

Clare McLean is vacationing from her work at J. T. Wing's, Windsor. Congratulations to Mr. and Mrs. Bill Gould (Rose John) on the arrival of a baby daughter (Judith Catherine) at Hotel Dieu, Windsor, on August 20th. Seven pounds, eight ounces.

Mrs. James Walker, of Detroit, spent a few days with the Nova Cloutiers and the J. B. and George Walkers, who had been hospitalized for some time, is feeling some better.

Miss Lorraine Pray, of Windsor, a granddaughter of Mr. and Mrs. James B. Walker, and a frequent visitor here, will be married next Saturday evening, at 7 o'clock, in Temple Bethel Church with reception at 8 o'clock in the Smith auditorium.

Mr. and Mrs. Albert, of Detroit, brought her brother, Charles Smith, who is a patient at the Sanatorium, home on Sunday to visit with their mother, Mrs. Marcella Smith.

We are sorry to report that Mrs. Clarence Fields, of Detroit, suffered a broken ankle while vacationing at Millard, Ont. Mr. and Mrs. Blake Eastabrooke and sons, Gary and Jimmie, of Montreal, are spending some time with Mr. and Mrs. John E. Sexton.

Mr. and Mrs. Leonard Trotter and children, of Windsor, and Miss Edna Deehan, of Detroit, spent the week-end with Mr. and Mrs. Edward Deehan.

Wolf-Dumouchelle Nuptials.

Before an altar banked with salmon pink gladioli, on Wednesday morning, August 20th, at 9 o'clock, at Our Lady of Perpetual Help Church, Windsor, the Rev. Charles Carrigan united in marriage Miss Lillian Mary Dumouchelle, daughter of Mr. and Mrs. Edward J. Dumouchelle, of Roseland, and Lee Andrew Wolf, son of Mr. and Mrs. Harold Wolf, also of Roseland.

Given in marriage by her father, the bride was gown in white satin and net, the bodice of satin fastened down the back with tiny matching buttons and featuring a sheer yoke edged with net ruffing. The long sleeves formed points over the hands and the full skirt, falling from a long satin inserted pleat, was of points despit. Her fingertip veil was edged with lace and caught in a crown of lace and she carried a white prayer book showered with streamers, knotted with roses.

Miss Marjorie Dumouchelle, sister of the bride, and Miss Mary Wolf, sister of the bridegroom, as bridesmaids, wore identically gowned in blue organza styled with sweetheart necklines with a single ruffle outlining the yoke. Their gowns were fashioned with short sleeves and full skirts. They wore matching sweetheart headresses and carried blush pink roses.

Sylvester McGuire and Carl Esping were groomsmen and the ushers were Lorne Eyraud and Doran McCarthy. During the ceremony the choir sang "Ave Maria."

A wedding dinner was held at Lapan's Hotel, followed by a reception at the bride's home. Mrs. Dumouchelle chose for her daughter's wedding a blue dress with black accessories, and Mrs. Wolf, mother of the bridegroom, wore a black ensemble. They both wore pink roses.

Later Mr. and Mrs. Wolf left on a wedding trip, the bride travelling in a white jersey dress printed in a pink floral pattern, with black accessories. They will reside in Detroit.

In loving memory of Mrs. Gertrude Dupont, who passed away one year ago, August 27th, 1946.

Though you have passed to the far beyond,
We sadly miss you here on earth with us.

—Fondly remembered by husband and family.

In loving memory of a dear husband, Arthur L. Quick, who passed away six months ago, March 4th, 1947.

The blow was great, the shock severe,
I little thought the end was near.
And only those who lost can tell
The pain of parting without farewell.

More each day I miss you, Art,
Friends may think the wound is healed
But they little know the sorrow
That lies within the heart concealed.

—Lovingly remembered by his wife Ann.

In loving memory of a brother and son, Wilfred R. Pick, who passed away six months ago, March 4th, 1947.

A beautiful memory, dearer than gold,
Of a son and brother, whose worth can never be told.
Alone, unseen, he stands by our side
And whispers "Don't grieve, death can never divide."

Deep in our hearts a memory is kept
Of one we loved, and will never forget,
And though the months be many or few
We'll always be thinking, dear Wilfred, of you.

—Always remembered by mother, dad, Ann and Donald.

In loving memory of a dear son and brother, Sgt. Harold A. Queen, who lost his life in action, in the R.C.A.F., four years ago, August 1st, 1943, and lies buried in the Canadian Permanent Cemetery at Nymegen, Holland.

Though a river's course may change
And then be lost to us from view,
We know it still flows on amid
Surroundings that are new.

So life is like the river,
And death is not the end,
But a lover and clear view
Beyond the river bend.

—Greatly loved and missed by dad, mother, sisters and brothers.

In loving memory of our son-in-law and brother-in-law, Arthur L. Quick, who passed away six months ago, March 4th, 1947.

A loving friend, true and kind,
No one on earth like him we'll find,
For all of us he did his best,
And God gave him eternal rest.

In our hearts his memory lingers,
Sweetly, tender, fond, and true,
There is not a day, dear Art
That we do not think of you.

—Always remembered by mother, dad, and Donald Pick.

In memory of a dear and loving mother, Ella Mae Eldridge, who passed away three years ago, August 25th, 1944.

When your beautiful soul took its flight
From the earth,
And was born anew, in the spiritual birth,
You left behind, on the records of time,
Sweet memories, mother, of your joys and mine.

And I know when you reached that other estate,
Where the soul takes its rise, the Master to meet,
I know that you asked to wait at the gate,
To wait at the gate, "Mother" mine.

Sweet memories "Mother" are clinging today,
Sweet memories of your joys and mine,
And I know at the gate you'll be waiting for me,
We will meet at the gate "Mother" mine.

—Sadly missed by her husband and all of the family.

RECENT GRADUATES ENTHUSE ABOUT COURSE.

Recent graduates of the Nursing As-
sistants' course, which is held at the
Nursing Assistants Centre for Training,
are pictured in a group photo. The
course is a full-time program lasting
for six months, during which time
the students receive both classroom in-
struction and practical training in the
hospitals. The graduates are now em-
ployed in various capacities in the
hospitals, and are highly satisfied with
the course.

Transportation costs to the Train-
ing Centre are paid by the Depart-
ment. Free uniforms, including stock-
ings, are provided. The course lasts
for six months, three of which are
given over to classroom instruction,
and the balance being spent in one
hospital experience. The instruc-
tors are experienced registered nur-
ses with special qualifications. Upon
completion the student receives a cer-
tificate from the Department of Health
as a Certified Nursing Assistant.

Entrants require Grade 8 education
must be in good health and be between
the ages of 18 and 40. The fifth course
commences September 2nd.
Information and application forms
can be obtained from the Director, Di-
vision of Nurses' Registration, Depart-
ment of Health, 435 Spadina Avenue,
Toronto.

They Read and Were Healed.

A friend of the writer had been ill
for twenty years. She had been at-
tended by many physicians who were
not successful. She was a devout
Christian and faithful. She finally
told her husband, however, that she
suffered from a complication of incur-
able diseases and that material medi-
cine could do no more for her.
When she was in this helpless and
hopeless state, she received a visit
from a friend who asked if she would
like to read a book which made God
understandable and knowable. She
accepted the offer, saying that she
had tried everything else and had failed.

The Tobacco Habit.

Smoking is a dirty habit.
Chewing is a whole lot worse.
Some think smoking a pleasure.
While some think it is a curse.
'Twas an old Indian custom,
Now it's spread over the universe.
Some say smoking makes you fat.
Some say it makes you thin.
Some folks smoke continually.
Some smoke only now and then.
Some consider tobacco a blessing.
Some consider it an awful sin.
If I chewed the dirty stuff
The ill wife would have a fit.
I smoked cigarettes for years.
They haven't hurt me a bit.
I think I'll smoke until I die.
'Twould be too hard to quit.

Before World War I, the women
with a few would not be seen.
But since World War II
They start smoking at fifteen.
By the time they reach thirty
They're full of nicotine.
— Ed Byrne.

Urgent Need of Workers in
Farm Service Camps.

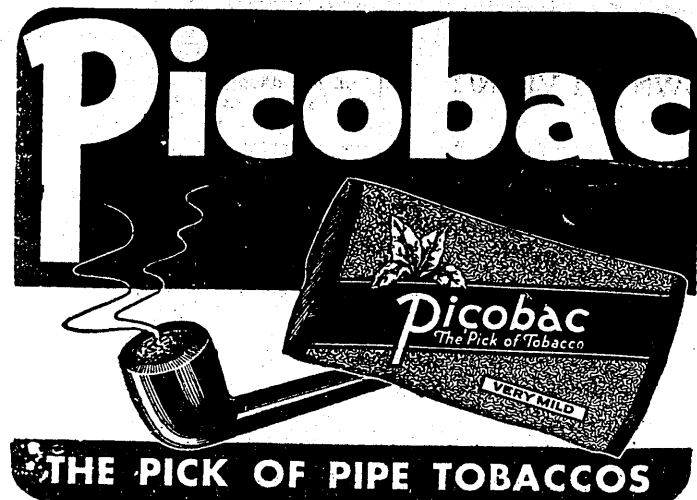

With the resumption of the Ontario
Secondary Schools at the beginning of
September, an urgent need of addi-
tional workers to fill up the Ontario
Farm Service Force Camps for the
harvest season has been
created. The problem, says Alex
MacLaren, Director of the Ontario
Farm Service Force, is that these camps,
from which workers go out into the
harvest fields in their immediate vic-
inity, are essential to provide a pool
of labour to bring in the crops as they
mature, and the next two months will
be critical in this respect, especially
in the fruit and vegetable areas.
With the secondary school students
leaving the camps at the beginning of
September, there will be an immediate
need for young men and young women
to replace them. Mr. MacLaren esti-
mates that within the next few weeks,
100 young women and 250 young men
will be required, and many of these
will be taken into the camps early on.
There will be a particularly urgent
need of young men to start work in
the camps between September 5th
and 15th.

Mr. MacLaren throws out the sug-
gestion that possibly a large number
of sons and daughters of farmers might
be available to go into these farm ser-
vice camps as soon as their own har-
vest requirements are ended, and he
believes this might be a fruitful source
of assistance. Farm young people,
with experience in harvesting work,
would be a godsend to those short of
help, and they can very readily be
placed in one of the camps which are
now short of workers.

Young men and women from the
towns and cities who can spare a
month or more of their time to work
in the harvest fields have an oppor-
tunity of earning good wages while
at this work, and of living in the com-
fortable and healthy atmosphere of
the Farm Service Force Camps. Their
services were never needed more ur-
gently than at the present time, and
volunteers for this work will be wel-
comed.

Application should be made at once
to Alex MacLaren, Ontario Farm Ser-
vice Force, 9 Richmond Street East, To-
ronto, or by telephone to Adelaide
5461.

Always use a cutting board when

slicing fruit on the drainboard or sink

Nearly all the homes in Canada
still use wood as heating fuel.

Just Routine.
Information on how to keep healthy,
as well as how to avoid disease, should
be obtained only from persons qual-
ified by training and experience to ad-
vise in such an important field. It is
as necessary to understand the posi-
tive truths on which genuine health
is built as it is to realize how false
are some of the ideas which have
grown up about physical and mental
matters.
Public health authorities warn
against trifling with one's well-being
by practising self-medication or by ac-
cepting unprofessional guidance. Can-
ada's colleges and hospitals are turn-
ing out people of high attainment in
the medical and associated fields to
lead us to higher standards along
sound scientific lines.

...so Mary
will take up
nursing
after all

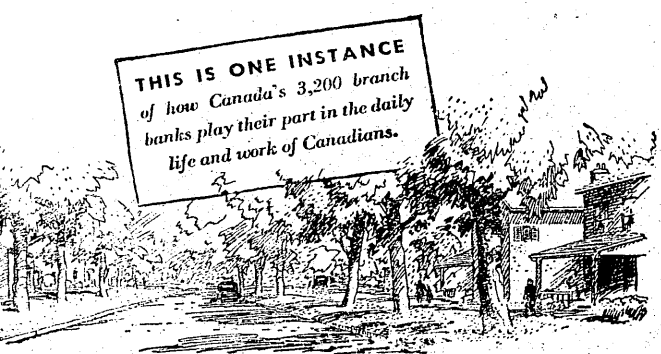

It looked for a while as if a tem-
porary financial problem in the family
might keep Mary from finishing "High".
If she had to quit school to help the
family income that would have meant
good-bye to her hopes of becoming a
nurse.

But here she is, starting her final
year. Did her Dad suddenly come into
some money?

No... and yes. He consulted his bank
manager, who told him how the bank,
through personal loans, often helped
people to meet just such situations.
Arrangements were made, and now Mary
will take up nursing after all.

In 1946 Canada's banks made half a
million personal loans to Canadian men
and women.

Domestic-Province Relations Again.
Observers here are watching closely
the developing and crystallizing of
public opinion with respect to the need
for a new approach of all provinces in the
tax arrangements necessary to ensure
the full program proposed by the fed-
eral government for social security
and public welfare. The recent meet-
ing of the Canadian Institute of Pub-
lic Opinion, a non-partisan organiza-
tion, showed that a large organiza-
tion of the people of Ontario believe that
an agreement with the federal govern-
ment is essential for the prosperity of
the province. A divided Canada will be
greatly handicapped in its effort to
cope with the difficulties in the dis-
torted world.

Labour and Industry.
Many eyes are turned to British Co-
lumbia, where a laundry labour union
at Nanaimo, Vancouver Island, is be-
ing prosecuted, as a responsible en-
tity, for violation of labour laws. It is
likely that the case will go eventually
to the Supreme Court and, if appeals
to that body are still permitted, to
the Privy Council. The Socialist (C.
F.) leader in B. C. has urged that
it is right and proper to defy and to
break the law.

Both economic and political liberty
are necessary if we are to continue our
progress to prosperity and happiness.

Two Approaches.
The first - socialization - is easy to
state and has many superficial argu-
ments. In practice in many places it
has not only failed to correct abuses
but has created new ones and has fail-
ed in the production of goods required
for a better standard of living.
The better way is to take away power
to exploit in price and to function
against the economic liberty of the
individual. Under the combines in-
made in Canada and new laws must be
passed to meet new threats as they
arise. International combines can best
be controlled by action through the
United Nations.

Facts of Interest.
Beef to Britain - Further investiga-
tion shows that 14,561,000 lbs. of beef
have been exported from Canada up
to August 9th. Further heavy ship-
ments are expected.

Child Dies.

Patrick Angus Dozier, 5-week-old son of Mr. and Mrs. Joseph Dozier, of Colchester North, died at Metropolitan Hospital, Windsor, on Wednesday night.

Services were held at the S. L. Kennedy Funeral Chapel, at 4 p.m. today (Thursday) with Rev. R. H. Parr in charge.

Provincial Police to Settle in Essex.

Commissioner W. H. Stringer, of the Ontario Provincial Police, states that it was possible that no provincials would be stationed in Windsor when the new police radio system goes into effect.

No Decision.
The commissioner said that no definite decision had been made yet, but he thought it quite probable that the men at present in Windsor would be located in the town of Essex when the switch-over to the radio system was made. He said that it was contemplated that Essex would be the headquarters for Essex County police under the radio set-up.

If so, a 60-watt transmitter would be located there which would handle all local transmission. The office would be under district headquarters at Chatham, where a 250-watt transmitter is being erected.

No Duties Here.
Mr. Stringer added that he didn't believe that transferring the present detachment to Essex would have any effect on policing in the Windsor area. The provincials have practically no police duties in the city itself, and for the rural areas they would be as readily available in Essex as in Windsor. The reorganization won't affect detachments in Amherstburg, and townships in the county which the provincials police under contract. They will remain as they are now, Windsor Daily Star.

William Belesky Passes.

William Belesky, well known shoe repair man, of Essex, passed away in Grace Hospital, Windsor, on Saturday, August 30th, at the age of 60 years. He had been in failing health for some months.

Born in Russia, deceased came to Canada 33 years ago.
Surviving are his widow, Mary; a daughter Nina, of Detroit, and a son Ed, at home; also a brother, Steve, of Tilbury.

Funeral services were held from the S. L. Kennedy Funeral Chapel, on Monday, September 1st, in charge of Rev. R. H. Parr, and burial was in Green-lawn cemetery.

Mr. and Mrs. Ennis are residing in Detroit.

Red Shield Appeal Starts Next Monday.

R. L. Black, chairman of the Essex Red Shield Appeal Committee, announces that the Essex Red Shield Army's annual appeal for financial support will commence next Monday, September 15th, and continuing to September 27th, at the same time as hundreds of communities all over the Dominion carry on a similar effort.

"The quota for Essex and district is only \$1,200," says Mr. Black, "which should readily be raised for such a worthy cause. I appeal to all volunteer workers to make your calls early next week. The people of Essex will be expecting you." C. A. Simpson, manager of the Imperial Bank, has again offered his services as camp treasurer. Air Marshall Wm. A. Bishop, V.C., D.S.O., M.C., D.F.C., L.L.D., chairman of the Salvation Army's National Advisory Board, writes: "The Salvation Army is the only true international army in the world. Due entirely to its great and unselfish work, sacrifice, and hardship, The Army has never failed in its duty, in its belief in God, or in its faith."

Members of the Cottam Rotary Club voted, at the last meeting, to lend their help in canvassing Cottam and district on behalf of the Red Shield Appeal. John C. Montgomery accepted the chairmanship of the Red Shield committee and Earl Gamble, of the Cottam Imperial Bank, agreed to be treasurer. Quota for Cottam and district is \$400.

The Ottawa Evening Citizen says, editorially, "To most people not usually burdened with material or spiritual cares, The Salvation Army connotes street corner bands, hymn singing and somewhat earnest-faced men and women, the latter in old-fashioned bonnets. But it is safe to say that even those who tend to smile at the picture feel in their hearts that the Salvation Army is, to use the old-fashioned word: good; good through and through; and that these same earnest-faced men and women are performing a noble and necessary work which calls for every support that can be given them."

Ennis-New Nuptials.
Before an altar banked with palms and pink and white gladioli, in Giles Boulevard United Church, Windsor, the marriage of Miss Mary June New, daughter of Mr. and Mrs. Percy New, of Elsmere avenue, Windsor, to Paul O. Ennis, son of Mr. and Mrs. C. E. Ennis, of Maidstone, was solemnized at a double-ring ceremony, with the Rev. Gordon Butt officiating.

The bride, entering the church on the arm of her father, was crowned in white jersey, featuring a deep yoke of Chantilly lace. The bride's dress was fitted, forming a point, and the full, shirred skirt fell into a short train. The sleeves formed points over her hands. For something old, deep lace from her mother's wedding gown edged the yoke and was caught in front with a mother-of-pearl brooch. Her length veil of illusion was shirred to a cap of matching Chantilly lace, with orange blossoms and seed pearls at either side, and she carried a cascade of Joanna Hill roses.

Miss Dorothy New attended her sister as maid of honour and was crowned in blue jersey styled the same as the bride's gown, but with cap sleeves. Her hairpiece was a fuschia plume and she wore fuschia gloves and carried fuschia gladioli.

Little Diane Ennis, the bridegroom's niece, was flower girl. Her blue jersey dress featured a shallow yoke with a deep frill edged in pink velvet ribbon which fell in streamers to the hem of her shirred skirt. She wore a mother-of-pearl brooch. Her length veil of illusion was shirred to a cap of matching Chantilly lace, with orange blossoms and seed pearls at either side, and she carried a cascade of Joanna Hill roses.

Miss Dorothy New, sister of the bridegroom, was bridesmaid. Their gowns were identical to the maid of honour's, their accessories being of salmon pink, and they carried salmon gladioli.

Douglas Sadler, of Essex, was best man, and Foster New, brother of the bride, and Ivan Ennis, brother of the bridegroom, were ushers.

Before the ceremony Mrs. Ray Thompson sang "I'll Walk Beside You", and during the signing of the register, she sang "Because." Miss Lois Moorehouse played the wedding music.

For her daughter's wedding, Mrs. New chose powder blue tulle for the bride's gown, and a corsage of pink roses. The bridegroom's mother wore green crepe with black accessories, and a corsage of red roses.

A reception was held in the church hall, which was decorated with pink gladioli. The table was centred with a pair of love birds surrounded with white tulle. Mrs. G. N. Bowman, grand-mother of the bride, and Mrs. O. P. Rannebarger, great-aunt of the bridegroom, poured tea. Miss Mable Ritchie, Miss Marilyn Moore, Miss Donna Lamb, Miss Gloria Heath, Miss Carol Lawhead and Mrs. Ellwood Derbyshire served the guests.

Following the reception the bride and groom left for a trip east, the bride travelling in a blue gabardine suit with black accessories, and wearing a neck-piece of gray squirrel, the gift of the groom. She wore a corsage of Joanna Hill roses.

Mr. and Mrs. Ennis are residing in Detroit.

Bank of Commerce Opening in Essex.

The Canadian Bank of Commerce will open a branch in the old Royal Bank Building, in town, now owned by Dr. A. E. Benson, on or about October 1st. The lease has been put through by the Lorne Murray Realty Co., of Windsor.

Ellsworth-Andrew Nuptials.

At the Stone Church, Independence, Mo., at half after eight o'clock, on Saturday evening, August 16th, Gloria Helen, eldest daughter of Mr. and Mrs. William Andrew, of Independence, Mo., came the bride of Arnold E. Ellsworth, son of Mr. and Mrs. Bernard Ellsworth, of Kansas City. Apostle C. George Mesley performed the double-ring ceremony.

The church was decorated with baskets of pink gladioli and palms. Mrs. Irene Wolfe was organist and William Pyper sang "I Love Thee" and "The Lord Bless You and Keep You" was sung by the Cantantina Chorus.

The bride chose a gown of marquisette and Chantilly lace. Her veil was of tulle with lace coronet and orange blossoms. She carried a fan of white roses. The bride's sister, June, as maid of honour, was crowned in white sheer over pink tulle. She wore lace coronet and gloves and carried a bouquet of pink glomellias.

Miss Margaret Lillie McKevitt, cousin of the bride, and Miss Charlene Thompson, were bridesmaids. They wore dresses alike in pink organza, wearing matching coronet and gloves. William J. Vernon, of Independence, acted as best man. Ushers were Clay Brown, Ernest Rauh, Richard Kraft, Clarence Sinclair, Kenneth Savage and Oliver L. McKevitt.

The young couple are making their home in Topeka, Kans.

Public School Field Day.

The Essex Public School field day will be held on Friday, September 19th, from 2 to 5 p.m. The usual program of games, novelty events and jumping will be put on. Every pupil is expected to take part in a race, less than two events, but prospective champions should participate in all events available to them.

Every pupil taking part receives a treat at the conclusion of his first event, and the winners will receive cash prizes, donated by the Public School Board.

The events will be run according to heights, measured in stocking feet. Juniors are 54 inches and less; Intermediates, 54 to 59 inches, and Seniors are 60 inches and over. This classification is used to determine the champion.

Refreshments will be available at the booth for young and old. The students and staff invite parents and taxpayers to reserve the afternoon of Friday, September 19th, for a good afternoon with the pupils of Essex public school.

Essex Public School.

The Essex public school re-opened for the fall term on Tuesday, September 2nd. There was only one change in the regular staff. Harold Sweetman, of London, follows Ed. Gray in Grade 1, the latter having been appointed principal of Alvinston public school.

Of the 50 applicants to begin school, 41 were admitted since they will be six years of age before March next. The enrolment now is 267. Grades 1, 2 and 4 are large classes, numbering 47, 41 and 38 respectively. The Ennis class is barely two-thirds the size of last year's class, all of whom passed into High School at the June examination.

Advanced pupils admitted were Anne Margaret Hughes, to grade V, from England; Patsy Blaine, to Grade IV, from Pond Mills; Evelyn Jane Wright, to Grade IV, from Colchester North; Leslie-Eileen Sinclair, to Grade IV, from No. 5, Maidstone; Marjorie Mae Hill, to Grade V, from Windsor; Edwin R. Taylor, to Grade V, from Cottam; Harold Butcher, to Grade IV, from Sandwich East; Allan Blaine, to Grade II, from Pond Mills; Donald Costin, to Grade II, from Hamilton; Alfred Taylor, to Grade II, from Cottam; Vanessa Scratch, to Grade III, from Comber.

Of the 47 in the Primary, the six from last year's class will attend all day, the remaining 41 being divided according to age, into two groups. The older group will attend in the morning and the younger and smaller group in the afternoon. This plan was tried three years ago, with very satisfactory results. Indeed, some parents prefer this arrangement to the all-day plan.

The morning class of beginners: David Agnew, John Eakwin, Margaret Cunningham, Georgina Devere, Stephen Fielding, Jill Geddes, Mary Gilbert, James Gray, Sandra Helkie, Betty Kennedy, Bobby Maedel, Dorothy Malott, Anne McKague, Lorna McLellan, Alice Reid, Patricia Savill, Linda Shepley, Jimmy Steel, Edward Stiles, Bruce Taylor, Albert Walker, Betty Welsh, Margaret Vriesacker.

The afternoon class: Karen Baltzer, Carol Bourne, Bobby Bridgen, Arthur Brown, Douglas Dennis, Gary Gurlin, Beverly Habkir, Carolyn Laramie, Maureen McLaughlin, Caryl Pulley, blank, Samuel Smith, Philip Stotts, Marilyn Street, Garnet Taylor, Wanda Wales, Joanne Yule.

Ward-Davis Nuptials.

At a lovely wedding, in the home of the bride's parents, Roseland, on Monday evening, September 8th, Rev. R. H. Parr, of Essex, united in marriage Miss Marion Davis, daughter of Mr. and Mrs. J. W. Davis, of Roseland, and William Edward Ward, son of Mr. and Mrs. Art Ward, of Essex.

The bride, given in marriage by her father, was dressed in a grey street-length suit and wore a corsage of red roses. They were attended by William Ward, cousin of the groom, and Miss Kathleen Davis, sister of the bride. The young couple will reside in the Allen Apartments, Arthur avenue, Essex.

Reeb-Boos Nuptials.

Multi-hued gladioli banked the altar at St. Paul's Anglican Church, for the marriage of Una Lillian Boos, daughter of Mr. and Mrs. Joseph Boos, of Essex, to Ivan Lee Reeb, son of Mrs. Ed. Reeb and the late Mr. Reeb. Rev. J. H. Whelan officiated at the double-ring ceremony.

The bride, given in marriage by her father, wore a white satin gown, the bodice styled with a yoke of Irish lace with long intra sleeves forming points over her hands. The full skirt had insets of Irish lace. Her full-length embroidered veil was held to her head with a pearl studded crown. She carried a cascade of red roses and stephanotis.

Mrs. Cecil Abbott, as her sister's maid of honour, wore a pale peach tulle with an overskirt of net. Her heart-shaped bonnet was of matching net. She carried a bouquet of roses and asters.

Misses Mary Butts and Mary Mitchell, friends of the bride, were similarly crowned in nylon marquisette of yellow and blue green. They wore matching heart-shaped bonnets and carried colonial bouquets of roses and asters.

George Reeb, his brother's best man, Donald Boos, brother of the bride, and James Kendrick, friend of the groom, were ushers.

Mrs. Gordon Brown sang "The Lord's Prayer" preceding the ceremony, and during the signing of the register "I'll Walk Beside You Through the Years." Mrs. J. A. Nightingale was the organist.

A reception for seventy-five guests followed in the parish hall, which was decorated with gladioli. The bride's table was centred with a four-tiered wedding cake. Girl friends who served were Misses Jane Nightingale, Grace Colmuth, Gladys Simpson and Phyllis Congdon.

Late Mr. and Mrs. Reeb left on a wedding trip, the bride travelling in a grey catardine suit with black accessories, and wore a corsage of red roses.

McLean-Elford Nuptials.

At Gesto United Church, on Saturday, August 30th, at 2 o'clock, the Rev. J. D. Woolfall united in marriage Miss Doris Irene, only daughter of Mr. and Mrs. Wilfred Elford, of Essex, to Leonard Charles McLean, son of Mr. and Mrs. Ian McLean, of Harnett.

The bride was lovely in a powder blue gabardine suit with black and white accessories, and wearing a corsage of red roses.

Miss Gwen McLean, sister of the groom, the bride's only attendant, chose a grey suit with pink accessories and corsage of pink roses.

Murray Elford, brother of the bride, acted as best man.

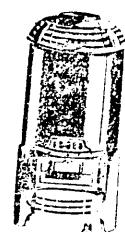

Following the ceremony, a wedding dinner was served at the bride's home by the Misses Jean Leslie and Grace Colmuth, assisted by Mrs. G. Quick, to the immediate families and grandparents of the young couple, the table being decorated with gladioli and a three-tiered wedding cake.

Following a short honeymoon the couple will reside in Colchester South.

Mrs. Catherine Quinlan Dies.

Mrs. Catherine Quinlan passed away at 5 o'clock on Monday morning, September 1st, at her home on Naylor Sideroad, after a lengthy illness. Deceased was the daughter of the late Daniel Costigan and Mary McCloskey, and was born on the Middle Road, Maidstone Township, on October 10th, 1872. She married James Quinlan, who predeceased her in 1934, and is survived by three daughters, Elizabeth (Mrs. Roland Cote), Gertrude (Mrs. Ray Rouillier) both of Puce, and Kathleen (Mrs. Mike Mitchell) of Riverside; four sons, James and Wilbert, at home; Everett, of Riverside, and Dell of Puce; also eight grandchildren and two sisters, Mrs. Mary Hogan and Mrs. Agnes Cote, both of Detroit. A son, Eugene, died in 1935.

Mrs. Quinlan was a faithful parishioner of St. Mary's Church, and was a member of the Altar Society, League of the Sacred Heart and Catholic Women's League, who all formed a guard of honour at the funeral, that was held morning at 9 o'clock, to St. Mary's Church, with Rev. Fr. J. H. Chisholm officiating. The pallbearers were five nephews, Delmont Hogan, of Detroit; Ted Costigan, of Windsor; James O'Connell, Edward and Emmett Quinlan and a neighbour, Percy Fitch, of Maidstone Township.

Apology for Ice Shortage

TO OUR CUSTOMERS:

Kindly bear with us through this unseasonable hot spell. Our own storage of ice is used up; our daily requirements are in the neighbourhood of 25 tons. We can manufacture only 5 1/2 tons every 24 hours. Due to shortage of ice in Windsor, where we usually get balance we need, we are not able to supply all our deserving customers.

BUT

It won't happen another year, as we already have made connections whereby we will have plenty for all in 1948.

The big question for every young man to answer...

WHAT WILL YOU BE WORTH IN 1977?

Any spirited young man has no fear for the future. He's determined to "get some place" and earn a good income.

That's as it should be. But experience shows that the men who have built up estates on the firmest foundation are those who steadily invested part of each year's earnings in life insurance.

For years they and their dependents have enjoyed the peace of mind that comes from financial security. Mortgages have been paid off and children educated. Now these men are taking life easy.

What of yourself? What do you plan to be worth in 1977?

Write for our booklet "Retiring in Comfort". It tells how much you need to invest each year to get the retirement income you desire.

Child Injured.

Elaine, four-year-old daughter of Mr. and Mrs. Millard Lawhead, of Maidstone Township, is a patient in Grace Hospital, Windsor, suffering from head injuries received when struck by an auto on Sunday, while running across McEwan avenue, between Wyandotte and Union streets, in Windsor.

The driver of the car, James Henshaw, of Detroit, states the child ran into the path of his car, from behind a parked car.

MAIDSTONE

Mr. and Mrs. Charles Little and family spent Sunday evening with Mr. and Mrs. Russell Leitch.

On Tuesday evening Mr. and Mrs. Kenneth Cole, Susan and Diane, called on Mr. and Mrs. Charles Little.

The regular meeting of the W. A. and W. M. S. met in the church basement for September. H. M. S. president, Mrs. Nelson McKenzie, was in charge. The meeting opened with the hymn, "We Have an Anchor," followed by responsive scripture reading, led by Mrs. Doug Watson.

Prayers were given by Mrs. Charles Little. Mrs. Ray and Mrs. Wm. MacKenzie. Roll call was answered by 15 members.

Hymn, "O That Will be Glory for Me" was sung, then Mrs. Will Libby, W. A. president, took charge of the meeting, opening with a W. A. theme song. A very busy business session followed.

Plans were made to hold Harvest Home services on October 19th and to hold a food supper on Tuesday, the 21st. Mrs. Libby closed the meeting with prayer.

Glen Lawhead and Mr. and Mrs. Joe Phillips returned home from a visit to the Falls and the Exhibition. From there they motored to Sudbury and came home by way of Lake Huron.

Mr. and Mrs. John D. Walker took a motor trip to Kewville and Halifax, N.S., to visit their parents, Mr. and Mrs. N. J. Hiltz, and family. Her many friends here wish her a pleasant and enjoyable trip.

PAQUETTE

Mrs. Blake Toftemire held a very lovely birthday party on Sunday last in honour of Blake's birthday. A very delicious pink and white cake centered the table. Those present were Mr. and Mrs. Curtis Toftemire, of Leamington, Mr. and Mrs. Anson Toftemire, Roberta and Stephen, Mr. and Mrs. James Toftemire and Charles, Mr. and Mrs. Charles Little, David and Larry. They all departed, wishing Blake many happy returns of the day.

If all the newspaper and envelopes issued free to Canadian forces during the war by the Salvation Army's Red Shield War Services were piled together they would reach a height of 12 miles—twice as high as Mount Vesuvius.

Belle River—Queen threw out Trudell and Labadie; Cascadden was hit by a pitched ball, and stole second; Cecilie singled to right to score Cas-cadden, and when Miller threw to the plate, Cecilie moved up to second; Hargraves lined to Queen—1 run, 1 hit, 0 error.

Leafs Win Two Games.

When the Essex Maple Leafs defeated Kingsville, in a postponed game, played on Thursday, August 28th, at the Cottam Legion Field Day, by the score of 9 to 5, they caused a three-way tie for fourth place in the league standing which position is the last to be eligible for the play-offs. This tie necessitated a double-header, between Essex, Kingsville and Leamington, games which were played at Harrow, on August 31st. The local boys played their two best games of the whole season, easily defeating Kingsville in the first game, 8 to 1, behind the four-hit pitching of Jack Fleming, and then defeating the heavily-favoured Leamington Braves by the score of 3 to 1, behind the five-hit pitching of Stimie Rettig, two of which came in the 9th inning.

Field Day.

Parents and friends of the Essex public school are cordially invited to attend the Annual Field Day, at the Fair Grounds, on this Friday. The pupils will march in order of height, from the public school, via Laird avenue and Talbot street, and will be ready to start a program of dashes, novelty races, by all the pupils, and high and broad jumping by the intermediates (54" to 59") and the seniors (60" and over). The chief item of the novelty races is the relay race, which proves exciting to the participants and interesting to the spectators.

Refreshments will be found in the booth, where each contestant will receive a Dixie cup of ice cream after his initial race.

Softball vs. Hardball.

So sorry, but the evenings get so dark so early that it's impossible to play other than Sunday afternoon, and that's what happened last Sunday. The Legion and Stokely's met to fill the remaining iron out of the fire, as each had one game to their credit in the playoff playdowns. The game started even, and that's the way it went all the way, both sides playing the best they had. I didn't see the first part but at the end of the sixth it was tied up, 3 all. Stokes battled hard behind Chas Garinger's pitching, to break the deadlock, but the Legion line held and in the last half of the ninth the red-shirts put the winning run across the plate. It was a good game to lose or win. Harvey and Hines for Legion and Garinger and Francotte for the Stokes.

And now, this Sunday, General Motors and the Legion tangle for the final honours and winners for this year's session. Come along and help them out.

And this is where the baseball comes in. Most of the townspeople missed a good game of baseball last Sunday, even if, to our sorrow, Belle River did win. Now we are proposing to make up a baseball team from the softball teams, to play an exhibition game with the regulars.

It will be lots of fun and the softball gang think they can beat the baseballers (likewise vice versa) and the proceeds to go into a kitty towards putting up lights for night softball next year.

We hope to play on Sunday, September 28th at 2:30 p.m. at the Fair Grounds so help yourself and help us to improve the Fair Grounds.

Phillips-Rounding Wedding.

A lovely wedding was solemnized at Bethel Parsonage, Maidstone, when Miss Gloria Alberta Rounding, daughter of Mr. and Mrs. F. E. Rounding, became the bride of Robert Phillips, son of Mr. and Mrs. Percy Phillips, of Maidstone. Rev. N. Pick officiated.

The bride chose a floor-length gown of white net, the bodice being styled of double net with a sweetheart neckline and short puff sleeves. She wore long net mitts. Her finger-tip veil was shirred to a cap of orange blossoms. She carried an arm bouquet of red gladioli with white calla lilies and wore a single strand of pearls.

Miss Catherine McCallum, niece of the bride as her only attendant, chose a yellow tulle gown with lace insertions. She wore a matching headpiece and long lace mitts. She carried yellow gladioli and blue delphiniums.

For her daughter's wedding, Mrs. Rounding chose a grey crepe dress with black accessories and wore a corsage of white roses. The bridegroom's mother chose a printed silk jersey dress with black accessories and wore a corsage of red roses.

A wedding dinner, for 60 guests, followed at Poplar Inn, which was decorated with pink streamers and gladioli. The bride's table was centred with a three-tiered wedding cake, topped with miniature bride and groom. A reception was held later at the home of Mrs. Dick Eldridge.

Following the reception the couple left for Ottawa and other points East.

Will be 95 on Monday.

Ezra Pickett, who is making his home with his daughter, Mrs. Forest Sweetman, will celebrate his 95th birthday on Monday. He moved to Colchester North, from Uxbridge, over 50 years ago.

Gerry Billing Wins Air Trophy

Sweeping low over a 25-mile course, Gerry Billing, flying instructor of Windsor Flying Club, son of Mr. and Mrs. Joseph Billing, of Essex, took the coveted Essex County Air Derby trophy, Sunday, in the concluding international race of Windsor Annual Air show.

20-Minute Victory.

Billing covered the course in 20 minutes and 15 seconds, followed by Syd Hutnick, an engineer at the airport, who breezed in 40 seconds later to take second position. Both pilots flying a P-51 Mustang.

In this race, a handicap event, both Inter-Provincial aircraft faced the heaviest handicaps. Gung was the second-last to leave the ground, followed by Shepherd, who gained on him late in the race.

Red Shield Appeal.

Receipts in the 1947 Red Shield Appeal are just beginning to come in. The quota for Essex Town, of \$1,200 is still a long way up the thermometer. If you are a donor and have given already, we thank you now. If you are planning to give, please do not hesitate — do it right away. Contributions will be accepted at the Imperial Bank, Essex, by C. E. Simpson, campaign treasurer.

The old adage says: Strike while the iron is hot. Applied in this case — contact the people while the Red Shield appeal is being advertised and talked about, when the people expect you. Let's get the job done before September 27th. A message from Commissioner Baugh, leader of the Salvation Army in Canada, will be broadcast over CKLW, Windsor, this Friday, September 19th, between 9:15 and 9:30.

Annual Service of Witness.

The annual Service of Witness for all Anglicans will be held at the Cathedral Theatre, Windsor, on Sunday evening, September 21st, at 7:30 p.m., under the auspices of the Essex Diocesan Chapter and the Essex Laymen's Association.

The preacher for this occasion is to be the Reverend R. S. K. Seely, D.D., LL.D., Provost and Vice-Chancellor of Trinity College, Toronto.

The theme is "Saved to Serve." Christ in man, the hope of man. Musical selections rendered will be "The Heavens are Telling" from "The Creation" (Haydn), and the "Hallelujah Chorus" from "The Messiah" (G. F. Handel).

I.O.O.F. Dinner.

The musical activities of Enterprise Lodge, No. 218 I.O.O.F., will culminate in a community chicken dinner on Thursday, October 2nd, from 6 to 8 p.m. Under the leadership of the late Charles Maedel, the three floors of the Imperial Building have been renovated and decorated, with the result that the building is now an asset to the Town of Essex and surrounding country. In addition to \$2,000 worth of work donated, over half the members have made voluntary cash gifts, now making a total in excess of \$1,500, all of which is no small accomplishment. This enabled the lodge to redeem an existing mortgage in full, in addition to making a substantial payment on the cost of renovation. Some method of liquidating the entire cost in the near future is necessary, since the fees in this particular fraternity are comparatively meagre.

And since the community feels the need of such accommodation as the Town Hall affords, it is believed a large number of citizens would not hesitate to attend this unusual function.

The dinner will be followed by an excellent program in the auditorium, with Past Grand Master Albert Bruner, of Olinda, in the chair. An impressive feature of the program will be the burning of the mortgage by three grandsons of the late Charles Maedel.

The guest speaker will be N. J. M. Lockhart, M.P., Grand Treasurer of I.O.O.F., St. Catharines. It may be added that these arrangements were made before the sudden and lamentable death of Bro. Charles Maedel.

There is only one real failure in life that is possible, and that is, not to be true to the best one knows. — Farrar.

Rev. Albert Robinson Dies.

Rev. Albert Robinson, a former Essex boy, passed away at his late home in Azalia, Mich., on Tuesday, September 2nd, from a heart condition from which he suffered for some years.

Deceased, a son of the late William and Henrietta Robinson, was born in Essex, on April 30th, 1882, and after attending Essex public school, went in partnership with Gordon Robinson in the painting and decorating business, at the age of 18. In 1905 they left Essex and settled in Vancouver, B.C., where they worked at their trade for some years, when he returned to Detroit and in 1915 married Margaret Melbeth, of Toronto.

He and his brother Cooper then went

into evangelistic work in Michigan, Good passing on in September, 1925. In 1925, Albert was ordained a Baptist minister, being pastor at Ionia and Tipton, Mich., where Mrs. Robinson died in 1931. Shortly after his wife's death he suffered a stroke and had to give up his church, but when his health permitted he carried on evangelistic work and supplied in the ministry.

In 1935 he married a second time, to Mrs. Lucy Court, of Azalia, who survives, as well as three sisters, Mrs. Charles Dent, of Onondaga, N.Y.; Mrs. Roy Ellis and Mrs. S. Denny, of Essex.

Funeral services conducted by Rev. Seth Hoshington, were held on September 5th, from the Stevens and Bush Funeral Home, Milan, Mich.

Those to attend the funeral from town were Mr. and Mrs. S. Denny and sons Merle and Wallace (of Dunnville); Mr. and Mrs. Roy Ellis and Sterling, and Mrs. Arthur Croteau.

Rotary Field Day.

With approval of the public and separate school inspectors, the Essex Rotary Club is sponsoring a Field Day, to be held on the Essex Fair Grounds, on Thursday, September 25th, at 1 p.m. The pupils of some 30 public and separate schools to the number of some 1,000 pupils will participate. Transportation from the school will be arranged for those requiring it if application is made by the teacher by Monday, September 22nd, to H. R. Johnston, phone 159W Essex.

If the teacher and pupils of your school plan to attend this Rotary Field Day, you are entitled, as authorized by the inspectors, to credit the children with their attendance for the afternoon of September 25th. Only children now attending Elementary Schools will be allowed to compete.

A parade, led by the Essex Boys' Land, will proceed to the Fair Grounds at 11 a.m. sharp. Refreshment booths will be on the grounds. The program will consist of running and novelty races and jumping events. Cash prizes will be given for all events and special prizes for six champions — 3 for girls, and 3 for boys.

Note the following instructions:

1. The teacher will provide the pupil with a tag bearing his name, his school and his height to the nearest inch. He will wear this on his left shoulder.
2. The starter will address the contestants as follows: "On your mark" (2 seconds) "Get set" (2 seconds) "Go."
3. The prizes are 25c, 15c, 10c. All non-winners will receive a ticket which will entitle them to a free treat at the booth. The winners will receive a ribbon, indicating 1st, 2nd or 3rd position.
4. The jumping events are measured from the front of the plate to the heel of the shoe. Each school may have one junior, one intermediate, and one senior contestant in each jumping event and he may have a limit of two attempts. In the high jumps, two attempts at any one height. Barks do not count.
5. Juniors are 53 inches or less. Intermediates are 54 to 59 inches, and Seniors are 60 inches and over. This classification is made to determine the 3 champion boys and 3 champion girls.
6. All pupils must be lined up on the Essex public school grounds by 1 p.m., ready to march to the Essex Fair Grounds.

Leafs Lose Tough One.

The Leafs, on Sunday, deserved a better fate, but were eliminated from the County League playoffs when they lost the second straight game to Belle River, a team they haven't defeated all season, by the score of 4 to 2.

Murray had the game well in hand until the seventh inning, when he had to retire after walking two men and pitching the first three balls to Rose, because of an injured third finger of his pitching hand.

As will be noted by reading the play by play account of the game, the visitors scored their four runs on only one hit, and that while a hard hit ball, it would have been an easy out had the Leafs been playing in any kind of luck.

The best heads-up ball of the game was when Garney Queen scored the first Essex run. He never had the chance to go from first to third on Brown's single to left, however, he rounded second far enough to draw a throw from Chaput, who made the mistake of throwing to the shortstop and Garney immediately dashed for third and scored on Labadie's wild throw.

Liberals Will Honour Oliver.

Liberals from all parts of Essex County will gather at the Rendezvous Hotel, Riverside, on September 24th, to honour the Honourable Farquhar Oliver, Ontario Liberal Leader, who will address a dinner meeting there, sponsored by the Liberal Association executives of Essex County.

Mr. and Mrs. Farquhar Oliver will arrive in Windsor on the 23rd, where a reception committee under the chairmanship of Gordon W. Thomson, will meet them at the train. Other distinguished visitors coming from Toronto to attend the dinner are Alfred J. C. O'Marra, president of the Ontario Young Liberal Association, and Claude Sanagan, editor of The Liberal News.

On Wednesday, the 24th, Mr. Oliver will make a tour of Essex County. Owner of a 550-acre farm, of which his wife is the manager — "and a good one, too," Mr. Oliver declares, he is particularly anxious to meet the Essex County farmers. Mr. and Mrs. Oliver have both been and fairly cattle raisers. Mrs. Oliver is the former Annie Mabel Crutchley, of Durham.

Mr. Oliver's tour of the county will conclude with a visit of the Ford and Chrysler companies.

Charles G. Fletcher, K.C., of Leamington, former member of the Provincial Legislature, will be chairman of the dinner, which will start at 7 p.m.

Included on the list of speakers are Hon. Paul Martin, minister of National Health and Welfare, and federal member for Essex East; Don F. Brown, member for Essex West, and S. Murray Clark, member for Essex South.

"Tickets for the dinner are now available and may be procured from T. O. Odette Jr., of Leamington; Mrs. Alice Shanahan, of Maidstone; Adrian Teller, of Woodlee, and Raoul Chauvin, of Stoney Point.

There will be a meeting of the organizing committee on Monday, September 22nd, at 7:00 p.m., Security Building, Windsor, beginning at 8 p.m., under the chairmanship of Cpl. Lawrence A. Dexel, M.B.E.

Woodslee Defeats Busy Bee.

Woodslee defeated Busy Bee in a play-off game, on their home diamond, on Sunday, by the score of 3 to 0.

Bohe Dunn was in the old-time form that made him one of the best pitchers in the county a few years ago, when he held the Busy Bee nine to one in the seventh inning, while striking out 18 men.

Wigle, first up for Busy Bee, in the seventh, singled, moved to second and then to third, on passed balls, but Dunn struck out the next three batters.

Woodslee's first and winning run came in the sixth, Gaughan singled, stopped at second on Chevalier's single, moved over to third as Dunn was thrown out, and then stole home. They got two more in the eighth, when Gaughan again singled, stopped at second on Chevalier's single; both runners moved up as Dunn grounded out, and scored on Vicker's timely single.

How Do You Rate as a Driver?

At the Canadian National Exhibition

nearly 6,000 people were given free

tests under the supervision of Lieut.

Col. W. A. Bryce, Director of the Divi-

sion of Public Safety and trained ex-

aminers from John Labatt Limited.

Any person over the age of 16 years

is invited to take these tests which

are the same as those used by large

motor fleet operators in Canada and

United States, in selecting and testing

their drivers, and for driver training

in high schools in the United States.

Since 1940 the United States Army

and Navy have used the tests for train-

ing military personnel in the safe op-

eration of motor vehicles.

The appearance of this special trailer

is another feature attraction for the

Leamington Fair. Scheduled to

visit all the larger fall fairs in the

province, the Labatt Safe Driving Dem-

onstration has aroused widespread op-

portunity to have their physical capac-

ity for driving analyzed. No charge is

made for the tests.

Early Chicks Now Paying

Producers.

Poultry raisers were urged early

this year by Poultry Services, Do-

minion Department of Agriculture, to

buy or hatch chicks a month to two

months earlier than usually so as to

make eggs available in the fall and

winter for export to Great Britain.

They are now benefitting by the pay-

off. Two cars of new crop eggs were

offered to the Special Products Board

on August 22nd, for shipment to Great

Britain against the British egg con-

tract. This was a full month earlier

than in 1946, and the 1947 early hatch-

ed pullets should enable producers

to continue egg deliveries throughout

the fall and winter, when Britain

wants them most and pays a premium

for them, say officials of the Depart-

ment.

Announcement has been made offi-

cially, through the British Food Mis-

sion, that the agreement with Canada

for the sale of eggs and egg products

extending to the end of January, 1949,

will not be affected by measures being

taken by Britain to strengthen her

economic position.

PUCE

(Crowded out last week)
Mr. and Mrs. Martin Gallagher, their daughter and granddaughter, Mrs. Rosemary Hill and baby girl, recently returned from a motor trip to London, Toronto and other points east.

Misses Betty and Eleanor Little, of Elm Grove, were recent guests of their aunt, Mrs. Carmen Patillo.
Mr. and Mrs. Stanley Major enjoyed a motor trip to Listowel, Toronto and other eastern points, over the Labor Day week-end.

William Wallace returned Monday from a few days' visit in Toronto, with his brother, Prof. Malcolm Wallace, who is ill.

Miss Ruth Martin, of Toledo, Ohio, spent the week-end with her mother, Mrs. Mary Martin.

The sympathy of the community is extended to Mrs. Imelda Hand in the recent loss of her brother, D. J. Bechard, of Windsor, to the Dahl family, formerly of Maidstone Township, in the loss of their father, Frederick Dahl, of Belle River, to Mrs. Roland Cote, Mrs. Ray Roullier, and other members of the Quilman family, in the loss of their mother, Mrs. Catherine Quilman.

Mrs. Mary Wyatt and family, of Port Bruce, have purchased Mrs. Mac Clapp's brick residence, the late P. M. Major home, on Highway 39 and the Puce River.

Mrs. Harry Coutts and three of her aunts, Mrs. Mary Bond, Miss Frances Frost, both of Chicago, and Mrs. Anna Shifler, of Striker, Ohio, were guests of Mr. and Mrs. Stanley Major, Monday of this week.

The marriage of Miss Evelyn Mary Benoit, daughter of Mr. and Mrs. Levi Benoit, to William Russell Ellis, son of Mr. and Mrs. R. Ellis, took place at the Puce Presbyterian Church, on Friday evening, Rev. Major Ransom officiating. There was a reception and shower later in the evening at Anton's (Emery's) Hotel.

Everyone is complaining about the dampness and mildew everywhere. These conditions are much worse since the last rains than after the incessant rains of the spring. However, since the invention of the atomic bomb one never knows what to expect and find.

Mr. and Mrs. Liddle, of Detroit, recently spent a week with their daughter and son-in-law, Mr. and Mrs. H. Axford.

"End of Devil's Isle"

The CBC presents, from coast to coast, "End of Devil's Isle," a thrilling dramatization of the life and work of Brigadier Charles Pean, Saturday, September 20th, at 8 p.m. local time. CFCO, Chatham, will carry this program. This stirring story appeared in the March, 1947, issue of the Reader's Digest, under the title "The Man Who Conquered Devil's Island."

Plan to be at your radio to hear how a Salvation Army Officer, filled with the Spirit of Christ, reached into the lives of the worst criminals this world has known and gave them hope and opportunity.

Lad Pinned Under Auto.

Thomas LeBoeuf, aged 19, of Essex, was injured in an accident at Ontario street and Devonshire Road, Windsor, on Sunday afternoon. He was removed to Metropolitan Hospital, where the youth's injuries were not serious, it was reported.

The police report said that Albert Feldman, 1292 Victoria street, was driving west on Ontario street, that he saw the other car but thought he could make it across Devonshire.

The car driven by the injured man tipped over after striking that of Mr. Feldman. The youth was pinned under the car and at first it was thought he was more seriously injured.

Riding with LeBoeuf were Roger Masse, aged 17, 2923 Walker Road, who was cut on the right hand; Darlene, 17, and Jerry Masse, 9, same address, both were cut on the left arm. Diana Potvin, 2929 Walker Road, the other passenger, was not injured.

Damage to the Feldman car was estimated by police to be \$400, to the LeBoeuf car \$200.

Miss Betty Jones is visiting her grandparents, Mr. and Mrs. Liddle, in Detroit.

During the past ten days the following visited at the Ellwood farm: Mr. and Mrs. B. Bolak, of Chicago; Mrs. Emily Balbague, of Los Angeles and De George and Donald Balbague, of Detroit; Miss Beatrice Stowe, of Tecumseh, and Messrs. Lawrence F. and Robert F. Ellwood, of Detroit.

Every failure is a step to success; every detection of what is false directs us toward what is true; every trial exhausts some tempting form of error.—William Whewell.

Tecumseh Takes Harrow 6-5.

Tecumseh and Harrow played a tight game at Tecumseh, with the Indians scoring two runs in each of the first, third and sixth frames to win 6 to 5. Savoie's single to center followed by Lappan's home run to deep left field won the game for the Indians.

Previously, Harrow opened the scoring in the first inning when W. Wright was safe on Baillargeon's error, went to second on a wild pitch, to third when Lappan threw the ball into center field and scored on Butler's bunt.

The Indians tallied two on hits by Savoie, Lappan and Jackson, to go ahead in the bottom of the first.

Three hits in the second tied the score. The losers added two more in the third on two hits and an error to go ahead, but the Indians tied it up on hits by Lappan and Sawyer, a perfect bunt by Gerry Cecile and one error.

Harrow threatened in the ninth when the first two men singled, but a quick double play, Gerry Cecile to Tommy Cecile to Hal Jackson, stopped the rally.

Bobby Sawyer broke his right collar bone in the seventh inning when he made a diving attempt to stop Brush's single.

Memorial Edition of Jack Miner's Book.

All followers of the life of the late Jack Miner and his career as a bird lover, naturalist, conversationalist and humanitarian will be interested to learn that the Jack Miner Foundation has recently persuaded the Reilly-Lee Publishing Co., of Chicago, and the Copp-Clark Co., of Toronto, to bring out for the public's interest a new edition of "Jack Miner and the Birds." They have combined his two books entitled "Jack Miner and the Birds" and "Jack Miner on Current Topics," with twenty of Jack Miner's most famous magazine and newspaper articles sandwiched in between, making it a very large edition of several hundred pages. It is quite appropriate that it be called the memorial edition.

Orders have flooded the publishers' offices before the book was actually off the press, which is only evidence of how popular Jack Miner's writings and life work was as he lived among his fellowmen of his generation. The late Jack Miner was not considered a naturalist from a scientific standpoint, interested so much in the number of spots on a woodpecker's tail as he was in saving that and other species from extermination.

The late Governor Alfred Smith of the State of New York always introduced Jack Miner "as the Billy Sunday for the bird family." The late Irvin S. Cobb always referred to Jack Miner "as the greatest practical naturalist on the planet," while Edgar A. Guest, the Detroit poet, always spoke of him as the best loved Christian in America. Thousands of such tributes have been made about the world famous naturalist both while he was living and since he passed on. His own personal writings now contained in the new enlarged memorial edition of Jack Miner and the Birds tells why he gained the respect and honour of the men and women of not only this continent but the entire world.

These Women.

When they get up in the morning.
Some women are a mess,
But us men love the darlings
We must truthfully confess.

We love them in the morning.
Love them the whole day through.
If it wasn't for the women
What would us poor men do?

If we are the kind of guys
That don't appreciate our wives,
Let's give them a month's vacation
We'll try leading bachelor's lives.

The first week will be mad
The second week will be worse.
The third week we'll go daffy
And start in writing verse.

When the month is over,
Each of us will be a wreck.
If they go on another vacation
We'll all go along, by heck.

When they finally do get home,
We'll feel so much at ease
We will treat them as ladies,
Let them do just as they please.

They can put their hair in curlers,
And put their faces up in clay.
But we'll go right on loving them
Until our dying day.

LEARNING TAILORING

ONTARIO'S productive capacity is the measure of her future prosperity. To assure the important tailoring industry a prominent place in the industrial life of the Province, trained hands are needed. Skill is important in the cutting, sewing, finishing and other branches of the industry. That is why veterans are being taught its various requirements ON THE JOB, by experts. The transition from apprenticeship to permanent employment means higher wages, job security and better working conditions.

Through plans sponsored by the Department of Veterans' Affairs and other agencies, hundreds of veterans have been trained in schools and ON THE JOB. They will acquire greater skill with further training and experience. Craftsmen of the future, they will have a share in Ontario's progress—an important part to play in her industrial development.

THE BREWING INDUSTRY (ONTARIO)

TAILORING

Leo P. Halloran, 26, of St. Thomas, a veteran of 4 1/2 years' service with the Royal Canadian Navy, is shown here gaining practical experience in the alterations department of a large Toronto tailoring firm.

Basic training in various departments of the industry gives the veteran a background knowledge, essential to sales promotion and executive work within the industry.

Harrow Resident Passes.

Arthur T. Munger, aged 94, oldest resident of the Harrow district, died Sunday night at his home.
Mr. Munger was born in Harrow and lived there all his life.
The Harrow nonagenarian knew Harrow when it was known as "Munger's Corners," and when a little boy used to watch Indians go through Harrow on their way to Amherstburg to collect their presents of blankets and materials that the government gave them annually.
During his lifetime, Mr. Munger had served as a trustee on both high and public school boards, drain inspector, weed inspector, and assessor of the town and township. He was a member of the Harrow Fair Board since it started and assisted with the first Fair, nearly 62 years ago.
In 1937 he was awarded a membership to the Association of Ontario Agricultural Societies.
He is survived by two sons, Fred and John; five daughters, Mrs. Fred Wright (Jenima), Mrs. Abner Ferris (Mabel), Mrs. Oliver Hubbel (Lottie), Mrs. Allen Collie (Vera) and Mrs. Ray White (Ellen).
Funeral services were conducted at 2:30 on Wednesday, from the J. H. Madill Funeral Home, Harrow, and burial was in Erie cemetery.

O'Neil-Pigeon Nuptials.

Before the altar of Christ Anglican Church, Colchester, adorned with white gladioli, Miss Ethel Isabelle Pigeon, daughter of Mr. and Mrs. Godfrey Pigeon, of Colchester South, and Jas. Douglas O'Neil, son of Mr. and Mrs. Harry O'Neil, of Paquette, recently spoke their marriage vows to the Rev. J. H. Smith. Pastel gladioli completed the decorations of the body of the church.

Given in marriage by her brother, David Pigeon, the bride was dressed in a princess-styled gown of white imported Alencon lace over satin, the skirt extending into a slight train and a double satin ruffle accented the neckline, her long sleeves ending in points over her hands. A lace Dutch cap held her three-quarter-length veil to her head and white chrysanthemums and pink roses formed her bouquet.

Mrs. John Darby, as matron of honour, chose a floor-length gown of gold moire, which was styled with a bustle, a sweetheart neckline and cap sleeves. Her bridesmaid and groomsman wore matching moire, and she carried an arm bouquet of bronze chrysanthemums and yellow roses.

Miss Kathryn McLeod, of Cottam, the junior bridesmaid, wore aquamarine moire fashioned with short, puffed sleeves. Her Dutch cap and groomsman were also of matching moire, and she carried white baby chrysanthemums and roses.

William O'Neil was his brother's best man, and Howard Bondy and Roy O'Neil were ushers.

Miss Eleanor Clark presided at the organ, and Miss Pauline Brookland sang "O Perfect Love" before the ceremony and "Because" during the signing of the register.

For her daughter's wedding Mrs. Pigeon chose a navy blue dress with a corsage of red roses, while the bride, groom's mother wore deep mauve with a Joanna Hill rose corsage. Mrs. Ellis Wright, the bride's grandmother, wore a figured black dress and Tallman roses.

The bride's parents entertained a few members of the immediate families and friends at a reception at their home following the ceremony. The bride's table was centred with the wedding cake in a bed of gladioli and tapers in silver holders.

Assisting were Mrs. Glen Mortimore, Mrs. William Murray, Mrs. Douglas Murray, Mrs. Charles Ashton, Jackie McLeod, Joyce Pigeon and Doris Brookland.

For a honeymoon through Northern Ontario, Mrs. O'Neil wore a beige gabardine suit with black accessories and her flowers were Tallman roses. On their return Mr. and Mrs. O'Neil will reside in their new home in Kingsville.

Leamington Passes Grant to Hospital.

Residents of Leamington and the township of Mersea, gave approval to the township Monday which will complete the financing of the proposed Leamington District Memorial Hospital.

In Leamington, 710 property owners voted for the granting of \$169,000 to the Leamington District Memorial Hospital Association, while 527 property owners turned it down, giving the by-law a majority of 183.

In Mersea Township, 335 property owners approved a similar grant for \$75,000 while 185 voted against it, giving the by-law a majority of 150 votes in the township.

Dr. E. K. Lyon, chairman of the hospital's board of directors, stated, after the voting, that the board would meet at once and that the building committee would more than likely request the permission of the board to ask for tenders on the new hospital immediately.

The board expects to secure tenders for the completion of the building for \$450,000. It received similar bids for the construction of the hospital last December, when it had only \$210,000 available for the completion of the structure.

The money voted Monday will enable the board to proceed.

Local Field Meet.

On Friday, September 26th, the Essex High School will hold its annual Field Meet, at the Fair Grounds, Essex. Winners of this meet will be chosen to represent the High School at the County Meet in Harrow, on October 2nd. Refreshments will be under the supervision of Audrey Gould and Margaret Ransom.

Parents and friends are warmly invited to attend this meet and to encourage the efforts of E. H. S. students. We would be pleased to see a good number at Harrow on October 2nd, where competition will be keen, with Amherstburg, Kingsville, Harrow, St. Rose, Leamington and Essex competing.

S. A. Youth Week-end.

Brigadier and Mrs. Tom Mundy, Dominion Youth organizers for the Salvation Army, will conduct meetings especially for young people, this Saturday and Sunday, at the Salvation Army, Essex. District youth people's workers will meet the Brigadier at a luncheon conference Saturday evening here.

The March of Witness and open air meeting, A Youth Rally will be held in the Citadel, from 8:30 to 9:30 p.m. Saturday night for everyone; a happy, vital meeting with the subject "If You Pay the Price You'll Get the Goods."

Sunday meetings at the regular hours, 11 a.m. and 7:30 p.m., with a special Sunday school rally in the afternoon at 2:30. Young folks of other churches are specially invited to share this afternoon meeting with us.

Brigadier and Mrs. Mundy, our visiting leaders, are energetic champions of Canadian youth, seeking wherever they are to win young people to the Lord Jesus Christ. Note sure you meet them at the Salvation Army this Saturday and Sunday.

Celebrate Golden Wedding.

The following item, taken from the Stratford Beacon-Herald, of Monday, September 22nd, will, we are sure, be of interest to many of our readers:

Today is an occasion of jubilation for Mr. and Mrs. Peter Hutchison, 19 Wood street, marking the 50th anniversary of their wedding, which took place in Windsor, September 22nd, 1897. The festivities of the anniversary occasion began yesterday, when the entire family of the celebrants, and a number of other relatives, gathered at dinner at the club room of the Army, Navy and Air Force Veterans' Association, 61 St. Andrew street.

The members of the Ladies' Auxiliary to the Association served the dinner. Mrs. Robert Dawson, Essex, a sister of Mrs. Hutchison, who was bridesmaid at the wedding 50 years ago, and the best man on that occasion, Mr. Charles Eaver, were among the guests.

Mr. and Mrs. Hutchison are holding a reception for friends and neighbours at their home today.

The celebrants have happy memories of the September day in 1897 when Margaret Heil, daughter of the late Mr. and Mrs. Adam Heil, of Essex, Ont., was united in marriage to Mr. Peter Hutchison, son of the late Mr. and Mrs. William Hutchison.

The bride of half a century ago was born in Essex County, township of Maidstone, while Mr. Hutchison, who is of Scottish descent, is a native of Aikenhead, Scotland. He came to Canada with his parents, the late Mr. and Mrs. William Hutchison, at the age of nine years.

The family settled in Stratford on their arrival in this country.

Resided Here 38 Years.

Following their marriage, Mr. and Mrs. Hutchison were engaged in farming in Maidstone township for 12 years prior to coming to Stratford where they have resided since that time. Mr. Hutchison was employed as a boilermaker in the motive power shops of the Grand Trunk Railway (Now Canadian National) for 29 years and was retired on pension in 1938. He returned to this work for two years during the Second Great War. In fraternal circles he is a member of Court Good Intent Lodge of the Ancient Order of Foresters and holds the position of secretary-treasurer of the lodge. He is also a member of the Boilermakers' Union, 297. Presbyterians in religion, Mr. and Mrs. Hutchison are members of St. Andrew's Church.

They have a family of one son and six daughters, and take much pride in their 18 grandchildren. The sons and daughters are: Robert, London; (Susan) Mrs. John Scheerer, Detroit; (Lillian) Mrs. Wilfred Montgomery, 325 Church street; Jean, at home; (Mabel) Mrs. W. McEwen, 20 Henson street; (Edith) Mrs. Victor Teal, St. Catharines; (Margaret) Mrs. Fred Crew, Mr. Hutchison has four brothers, William, Bancroft; Robert, St. Thomas; Walter, 110 Nelson street, and Thomas, Ottawa. His wife has three brothers and four sisters, Tobias and George Heil, Essex; James Heil, 27 Nelson street; Mrs. Robert Dawson, Mrs. Geo. King, Essex; Mrs. Robert Logan and Mrs. Fred Dell, Windsor.

Mr. and Mrs. Hutchison received a number of lovely gifts, and messages of congratulations in honour of their anniversary.

Returns Home After 45 Years.

George Cowan, now living retired in Edmonton, Alta., is making his first visit home since leaving Essex 45 years ago to take up a homestead in Alberta. He is visiting his brother William, and a sister, Mrs. Ben Pierce.

He dropped into the Free Press office for a lengthy chat, talking of his school days, his public school principal was Mr. McQueen and the late C. H. Fuller, while Mr. Crussweller was the High School principal. He spoke of selling wheat as low as 19c delivered at the elevator, in the dark depression days when it cost around 70c to grow it. Last year they this son received \$1.08 a bushel. His advice to the young man is still "go west."

Dodge-Mandell Nuptials.

Archbishop C. A. Seager, assisted by Canon T. G. Wallace and Dean G. N. Lutton, officiated at St. Paul's Cathedral, London, on Saturday afternoon, for the wedding of Hilda Elizabeth, daughter of Mr. and Mrs. Charles E. Mandell, New Liskeard, to Rev. John N. Dodge, of Tillsonburg, elder son of Mr. and Mrs. W. D. Dodge, Stanley street, London.

The stately church was decorated with white gladioli for the event and ferns and candleabra flanked the chancel steps. Both the bride and groom are graduates of the University of Western Ontario. Mr. Dodge is the former assistant at St. Paul's Cathedral.

Entering the church on the arm of her father, the charming bride wore ivory satin, simply styled with a modest sweetheart neckline and a full peplum flaring to form a bustle at the back. The graceful skirt dipped to a slight train. A headpiece of ostrich tips held her fingertip veil.

She carried a prayer book in rich red velvet with gold clasp with a book mark of white velvet ribbon caught with gardenias. The heirloom over 100 years old, was given the bride by her paternal grandmother, who received it at her confirmation.

The bride's two sisters proceeded her in the procession. Miss Louise Mandell wore American Beauty taffeta and Miss Pat Mandell wore dove blue. The gowns were styled alike with low, square-cut necklines and a shirred tier below the waist to which the full skirt was gathered. They wore matching bow-trimmed taffeta headpieces and carried flowers in tones complementing the color of the gown.

Mr. George Leithbridge played the traditional wedding music and James L. Auld sang "The Lord's Prayer" during the signing of the register.

William Dodge was best man and the ushers were Rev. A. H. Jared, of Wallaceburg, and Rev. Lionel Nelles.

The wedding reception followed at Kappa Alpha Theta sorority of which the bride is a member. Mrs. Mandell received in a gray frock with black trimmings and a soft gray feather. She wore yellow roses. Mrs. Dodge, mother of the groom, chose aquamarine with black accessories and a corsage of yellow roses.

Leaving on a wedding trip north the bride wore a powder blue wool dress with black accessories and a corsage in yellow tones. Rev. and Mrs. J. N. Dodge will reside in Tillsonburg, where the groom is rector of St. John's Church.

Heaton-Clarke Nuptials.

A lovely wedding was solemnized at Birchlea Villa, Kingsville, when Miss Peggy Helen Ruth Clarke, daughter of Fred P. Clarke, of Harrow, became the bride of Francis William Wayne Heaton, son of Mr. and Mrs. Charles Heaton, of Essex.

The Rev. J. A. Walker, pastor of Harrow United Church, officiated, before a fireplace banked with palms, wild clematis and baskets of pink and white gladioli.

Given in marriage by her father, the bride wore a street-length dress of pale blue wool made with a high neckline, black accessories and a corsage of red-rosebuds and tiny white baby chrysanthemums.

Miss Barbara Louise Clarke, sister of the bride, as bridesmaid, wore gray wool, made similarly to the bride's gown, with black accessories and a corsage of pink roses.

Melvin Campbell, of Essex, was best man.

The wedding music was played by Virginia Slaughter, of Detroit, cousin of the bride. Before the ceremony and during the signing of the register, Mrs. James Slaughter, of Detroit, aunt of the bride, sang "Because" and "I Love You Truly."

Mrs. Keith Buchanan, of Harrow, chose for her niece's wedding a cream wool suit, black accessories, and a corsage of lavender gladioli. The bridegroom's mother wore pale blue and dotted crepe, black accessories, and a corsage of white baby mums, and pink rosebuds.

A reception for 60 guests followed, at "Birchlea," where the bride's table was arranged with an Irish lace cloth, centred with a four-tiered wedding cake, wild clematis and tapers in crystal holders. Assisting were the Misses Mary Martha Heaton, Dorothy Waters, Shirley Martin and Janet Wright.

Mrs. Thomas Fox Passes.

Mrs. Mary Ann Fox died at the home of Angus C. Fox, her son, in Leamington, Sunday afternoon. She was in her 94th year and had been ill since the first of the year.

Born in Mersea Township, Mrs. Fox had been a resident of Leamington for the past 70 years. Her husband, Thomas Stevenson Fox, died 15 years ago. Mrs. Fox was a member of the Leamington United Church.

Surviving are two sons, Angus, of Leamington, and W. S. Fox, of Detroit; two daughters, Miss Ruby Fox, of Detroit, and Mrs. E. W. Cascadden, of Leamington. Seventeen grandchildren, among whom is A. G. Cascadden, of Essex; 21 great-grandchildren and one great, great-grandchild, also survive.

Funeral services were held from the Smith Funeral Home, with Rev. Sidnew Davidson officiating, Wednesday afternoon, at 2 o'clock, with interment taking place in Lakeview cemetery.

Mr. and Mrs. Heaton left later for a wedding trip in Michigan, the bride wearing a pink wool dressmaker suit, black accessories and a corsage of roses. They will reside at 207 Oak Park avenue, Toronto.

Harry E. Malott Passes.

Funeral services were held recently for the late Harry E. Malott, aged 64, who passed away at his home, in Kingsville, following a lengthy illness. Burial was in Lakeview cemetery, Leamington.

Mr. Malott was a son of the late Mr. and Mrs. Edwin Malott and had resided in Leamington 20 years prior to moving to Kingsville four years ago. He was a member of Windfall Orange Lodge.

Surviving are his widow, formerly Nettie Alderton, of Mersea; three daughters, Mrs. Dora Wright and Mrs. Vera Hasson, of Leamington; Mrs. Dolly Stevens, of Windsor; seven sons, Maxwell, Lloyd and Owen, of Leamington; Joseph, of Essex; Fred, of Wheatley; Leonard and Donald, of Amherstburg; Gordon and William, of Ridgetown; Marshall, of Blenheim; Perry, of Chatham; George, of Windsor; and Thomas, of Harrow.

Two sisters, Mrs. G. A. G. Malott, of Ridgetown, and Mrs. E. Malott, of Leamington.

Registered No. 1 grade is the highest standard on the market. Demands for Registered No. 1 seed are increasing, largely due to the fact that it is a highly satisfactory seed. For many specialized seed growers, it is the only seed prepared to supply prospect-ors with high quality seed of red No. 1 standard. Orders for seed should be placed in the order in which they are filled.

Lists of seed growers, quantities available and prices, obtained from offices of agricultural representatives, agricultural agents or from the Crops, Seeds and Seedlings Branch, Ontario Department of Agriculture, Parliament Building, Toronto.

Don't Sell that Good Ewe Lamb.

Now that lambs are going to market and prices are good, the tendency with too many sheep breeders is to sell all lambs regardless of sex as soon as they reach market weight and finish, says S. B. Williams, Animal Husbandry Division, Central Experimental Farm, Ottawa. If this is done, the replacement ewe lambs must be chosen from what is left of the lamb crop. Since one of the principal reasons that there are lambs are late and undeveloped is that their mother lacked sufficient milk to feed them properly, such a policy will

BY-LAW NO. 1981.

A BY-LAW to provide for Drainage Work in the Township of Malden, in the County of Essex, Ontario, and to amend the By-Law No. 1980, passed on the 22nd day of September, 1946.

Whereas, Alex Jacyzyn, whose lands have been assessed for the original construction of the Eighth Concession Drain, served written notice on the Municipal Council of the Township of Malden, that the Eighth Concession Drain was out of repair, and that he required same to be repaired;

And whereas, thereupon the said Council has procured an examination to be made by C. R. Allison, O.L.S., being a person competent for such purpose, of the said area proposed to be drained and the means suggested for the drainage thereof, and of other lands and roads liable to assessment under this Act, and has also caused to be made, and estimates of the drainage work to be made by the said C. R. Allison, and an assessment to be made by him of the lands and roads to be benefited by such drainage, and of other lands and roads liable for contribution thereto, stating as nearly as he can, the proportion of benefit, liability and injury, which, in his opinion, will be derived or incurred in consequence of such drainage work by every road and lot or portion of lot, the said assessment to be made using the assessment hereinafter by this by-law enacted, and levied upon the roads and lots or parts of lots hereinafter in that behalf specified, set forth and described, and the report of the said C. R. Allison, in respect thereof, and the said drainage work being as follows:

To the Municipal Council of the Township of Malden.

Gentlemen:—In accordance with your instructions I have made an examination and taken levels on the north end of the Eighth Concession Drain in the Township of Malden, beginning at Pike Creek and following up the old drain to the line between lots 15, as requested by the ratepayers. I now beg to submit for your consideration the following report.

I find that this portion of the Eighth Concession Drain requires widening and deepening in order to prevent overflow on farm lands in times of heavy rains as the old drain is partially filled in with sediment and a growth of vegetation. I also find that due to this required improvement it will be necessary to enlarge farm bridges. In making my above report, the ratepayers have not built their farm bridges and I am not providing for repairs of these in this report.

I do, therefore, recommend the said Eighth Concession Drain be repaired, deepened, widened and otherwise improved from the East Pike Creek Road to the line between lots 14 and 15, Concession 8, in accordance with the Plans and Specifications attached hereto, and that the cost of the work, as detailed in the estimates below, be taxed against the lots and parts of lots and roads and portions of roads in the accompanying schedule of Assessment.

My estimate of the value of necessary repairs at this time is as follows:

Excavation—Stake 3 to 5 rods, stake 10 to 20 rods, at \$3.50 per rod, \$69.50; stake 10 to 20 rods, at \$4.50 per rod, \$90.00; stake 20 to 40 rods, at \$5.50 per rod, \$110.00; stake 40 to 60 rods, at \$6.50 per rod, \$130.00; THE ESSEX FREE PRESS, ESSEX, ONTARIO.

FRIDAY, SEPTEMBER 26, 1947.

TOWN and VICINITY

—Mrs. Loretta Price was in London
business last week.
—Mrs. George King was removed to
Grace Hospital, Windsor, last week,
for treatment.

—Mr. and Mrs. Grady Kaitz, who
have lived in town the past few years,
have moved to Windsor.

—Mrs. J. P. Wallace and children, of
Gadsden, Ala., are visiting with her
parents, Mr. and Mrs. A. Sweetman.

—Misses Beverley and Judy and
baby Michael O'Halloran are spending
a week in Detroit, with their aunt,
Mrs. C. Cline.

—Mrs. H. Hazell and Mrs. G. Doan
were hostesses at a miscellaneous
shower recently, in honour of Miss
Lila Leifer.

—Mrs. Asa Sweetman held a miscel-
laneous shower, at her home, in hon-
our of Miss Lila Leifer, bride-elect of
this month.

—Mrs. Morley Crowder underwent
a major operation in Grace Hospital,
Windsor, on Monday, from which she
is making a satisfactory recovery.

An Oddity.
—Joseph Calhoun brought into the
Free Press office, on Tuesday, an apple
blossom picked off a tree which is al-
ready bearing fruit. He says the top
of the tree was a mass of blossoms un-
til the big wind storm of Sunday.

Engagement Announced.
—Mr. and Mrs. William Howe, of
Essex, announce the engagement of
their daughter, Laura Ellen, to Wil-
liam, only son of Mr. and Mrs. William
Hall of Windsor, the marriage to take
place on Saturday, October 4th, at 3
p.m. in Grace United Church, Essex.

—Mr. and Mrs. A. G. Cascarden and
Bill attended the funeral of the late
Mrs. Mary Ann Fox, the former's
grandmother, in Leamington, on
Wednesday.

Attention, Ladies' Guild.
—The meeting next Wednesday will
be held at the home of Mrs. Bob Well-
er, on Wellington avenue. Don't forget
the handkerchief shower for the ba-
zard.

Lawn Bowling Results.
—Herb Piper and George Piper, 2
wins, plus 18, total score 34; 2nd, Bryce
Buckman and Roger Workman, 2 wins,
plus 17, total 33 points. We have only
four more nights of play.

R. F. Taylor celebrated his 80th
birthday, at his home, on Sunday, the
family dinner being served at Earl's
Place. Present were Sandy Taylor,
Mrs. Essie Detwiler, of Essex; Mr.
and Mrs. Wm. Beno and Harriet Dixon,
of Cottam; Mr. and Mrs. Bert F. Tay-
lor, of St. Thomas; Mr. and Mrs. Er-
nest Taylor, of Harrow; Mr. and Mrs.
Percy Randall, of Mio, Mich.; Mr. and
Mrs. Clarence Taylor, Mrs. Claude
Shepley and sons Ernie and Wilfred, of
Essex.

St. Paul's Ladies' Guild.
While in Cottam, on Wednesday af-
ternoon, your editor was presented
with a stalk or vine of soy beans, by
George Newman, taken from his field
on the Belle River Road, in the village,
on which were 123 pods, fully filled.
We were told, however, of a report
from Pelee Island, of a vine with over
270 pods.

—Mr. and Mrs. Louis D. Serrano, of
St. Williams, Ontario, formerly of Es-
sex, announce the engagement of their
daughter, Miss Lillian DeSerrano, to
Essex, to Peter J. McCloskey, son of
Mrs. Leo McCloskey, of Essex, the mar-
riage to take place Saturday morning,
October 18th, at 10 o'clock, at Holy Name
Church, Essex.

—Mr. and Mrs. H. R. Johnston and
Mrs. J. A. Nightingale attended the
Dodge-Mandell wedding in London, on
Saturday.

Red Shield Tag Day.

This Saturday, September 27th, the
Salvation Army lassies will greet you
on the main street with a smile and
offer you a Red Shield Tag. Of course
you could pass by unmoved or with a
frown and a grunt, but we suggest that
you smile in return and accept the tag
dropping in a dime or a quarter, or
whatever you have, into the little box.
But, you inwardly object, "I gave ten
dollars to the Red Shield Appeal just
the other day. This is too much of a
good thing." Well, if you really feel
you have done your share, we appreci-
ate your help and we don't want to
bother you any more. Perhaps you need
that nickel or dime for something
more important.

Our real purpose in having the tag
day is to give an opportunity to people
who haven't been canvassed, mostly
from rural districts, to contribute finan-
cially to the work of the Salvation
Army. However, you can be sure the
smiling taggers won't refuse a tag to
anyone.

Every nickel or dime that jingles in
the boxes on Saturday will help carry
on the work of the Army wherever the
needs arise.

A full report will be made in next
week's paper, of the Red Shield Appeal
in Essex and district.

Canvassers, please turn in your re-
ceipts right away to the treasurer, at
the Imperial Bank.

—Miss Helen Brown and Bill Balk-
will, of London, were guests of Mrs.
William Mason and family, on Sunday.

—The Wilson-Russell Evening Aux-
iliary will meet at the home of Mrs.
Jack Coulter, Medora avenue, on Wed-
nesday evening, October 1st, at 8 o'clock.

—The Ladies Mission Circle of the
Essex Baptist Church will meet Tues-
day, September 30th, at 3 o'clock, Mrs.
Bell, of Campbell avenue Baptist
Church, will be our guest speaker. As
this is our last meeting of the church
year, a good attendance is requested.

—The W. A. of Essex United Church
will hold their fall rally at the par-
sonage, on Wednesday, October 1st, at
3 p.m. All the ladies of the congrega-
tion are invited to attend.

—Mrs. Wanda Pizer will be assist-
ing her mother, Mrs. Oliver Smith, in
her beauty parlor, through the month
of October.

—St. Paul's annual Harvest Home
chicken supper will be held in the
Parish Hall, on Tuesday, October 7th.
Adults \$1.25, children under 12 years
60c.

—Mr. and Mrs. Louis D. Serrano, of
St. Williams, Ontario, formerly of Es-
sex, announce the engagement of their
daughter, Miss Lillian DeSerrano, to
Essex, to Peter J. McCloskey, son of
Mrs. Leo McCloskey, of Essex, the mar-
riage to take place Saturday morning,
October 18th, at 10 o'clock, at Holy Name
Church, Essex.

—Mr. and Mrs. H. R. Johnston and
Mrs. J. A. Nightingale attended the
Dodge-Mandell wedding in London, on
Saturday.

The End is Near.

Just one game this week, that was
last Sunday, not very many were there
—just plain no support, except the
wives and gal friends. Anyway, G. M.
and Legion went to it, with the Legion
taking the edge, for one reason, be-
cause the G. M.'s lost their first string
pitcher for that game. Let's hope that
Dick Graham doesn't get a call before
the next game. G. M.'s put up a good
fight but the Legion out-hit them with
the resulting score of 12 to 6.

But that's not the end. This Sun-
day a return match is scheduled, to
start at 1 p.m. sharp. So, fellows,
please be there for a warm-up at 12.30.
And then, to top the afternoon off, the
softballers are playing the baseball
team, at 2.30, in an exhibition game,
at the Fair Grounds. The proceeds will
go toward lights for the diamond next
year. So, let's all give the lads a
show and let them know that the town
is behind the project.

It's all up to you.

Essex Gospel Tabernacle.

REVIVAL SERVICES.

Never has the congregation at the
Essex Gospel Tabernacle been under
such a burden of prayer. We realize
the importance of these days. Grow-
ing world unrest. Rumblings of war
with Russia. Do you know that Christ-
ians of many denominations are FAST-
ING and PRAYING as never before?

Do you know as a result revivals are
breaking out and spiritual gifts are
coming into manifestation? Do you
know that recently in Winnipeg, in an-
swer to prayer, the lame walked, the
blind eyes were opened and growths
vanished, as in the days of Christ?

Many Christians realize the weakness
of the Church and the tremendous
need of spiritual visitation in Essex.
The Tabernacle will be open for prayer
daily at 2 p.m. Evangelist J. V. New-
dham-Bachle will minister Thurs-
day evenings, 8 p.m., on Divine Healing
and pray for all requesting prayer.

Friday evening, Evangelistic service at
8 p.m. Sunday school at 10 a.m., when the
Evangelist will give an illustrated talk.
Worship at 11 a.m. Revival Service at
7.30 p.m. The importance of these
services make it necessary that they
continue through this coming week,
every day, with the exception of Mon-
day and Saturday, at 8 p.m. The reviv-
al continues. Pastor E. C. Williams!

Essex United Church.

10.30 a.m., Rally Day Services. Spe-
cial numbers by the Sunday school.
Let us rally back to the church. A

from: Darkness to Light, Slavery to
Sunship; Death to Life." Monday, 8.15
p.m., the Young People's Group; Tues-
day, 7.15 p.m., C.G.I.T.; Wednesday,
3 p.m., Rally of the Women's Associa-
tion, at the parsonage; Friday, 8 p.m.,
choir rehearsal; Sunday, October 5th,
10.30 a.m., World-wide Communion
Service. Sunday, October 19th, Anniv-
ersary and home-coming services,
Rev. George Kersey guest speaker.
October 21st, Anniversary supper.

First Baptist Church.

Sunday, September 28th; Rally Day.
A special service, with the Sunday
school and church combined, has been
planned, meeting at 10.30. Baptismal
service in the morning, and a group
picture of the Sunday School and con-
gregation will be taken during the
service. Let's make this the biggest
Rally Day yet.

The Salvation Army.

Brigadier and Mrs. Mundy, of To-
ronto, Territorial Young People's Asso-
ciates, will conduct special meetings
at the Citadel, Essex. See details on
front page. Next week's activities as
usual. Tuesday, 8 p.m., prayer meet-
ing at the home of Mrs. George Swit-
zer, postponed from last week. COM-
ING: Wednesday, October 8th, 8 p.m.,
Bilder Morton and his choir, from Wind-
sor. Public praise meeting.

Fire destroyed the horse barn, 60 x 100 ft., and the cattle barn, 30 x 100 ft., at the Essex Fair Grounds, at a loss of over \$5,000.

Julius Ebbinghaus exchanged his farm on the Renaud Line, in Midstone, for Earl Vicker's property in Vimy Court, in town.

J. Homer Johnston, of Peace River, Alta., formerly of Cottam, was appointed inspecting Engineer for Alberta and councillor to the Association of Engineers at Ottawa.

Miss Frances Hillebrand left to attend Ontario College of Education, at the University of Toronto.

Misses Elsie Beaman and Evelyn Hicks enrolled at the University of Toronto.

Gene Tunney, heavyweight champion, defeated Jack Dempsey in 10 rounds, at Chicago. Gate receipts were \$2,658,660, with 140,000 in attendance. Tunney received one million dollars and Dempsey \$450,000.

R. Diana Middleton left to resume his studies at the University of Minnesota.

Tomato picking and tobacco harvesting was over in the Paquette district.

Births—In Essex, on September 26th, to Mr. and Mrs. Harvey Thompson (nee Edith Adams, a daughter; in Tilbury East, on September 2nd, to Mr. and Mrs. E. L. Cook, of Essex, a son; in Essex, on September 25th, to Mr. and Mrs. Ernest Taylor, a son; in Midstone, on September 28th, to Mr. and Mrs. Harry Hayes, a son; in Midstone, on September 25th, to Mr. and Mrs. Albert Stedman, a daughter.

Real Coin.

By Joseph Lister Rutledge.

The Wall Street Journal, in a rather petulant aside, protests the incessant nature of questions that run like this:

"We spent hundreds of billions on war, why can't we spend a few millions for this or that?" Brought down to everyday experience the question, says the Journal, "seems akin to this:

"We spent \$1,500 to have the hospital cure mother, why can't sister have \$250 for a fur coat?" The answer is the same in both cases: the more you take from your purse the less remains."

You see, it isn't as simple as saying that if Canada can spend fifteen or sixteen billion for war, she can spend as much for this or that. And the reason for that isn't only that we have already spent our fifteen billion. It's because there is nothing else that we are as certain about as we were of our war aims. Sure, peace is a good thing but there are almost as many views of how to achieve it as there are persons. So, before we go on with the — "if you can do this, you can do that" argument, we had better begin counting noses. They are closer to the nub of the argument than are the dollars. We can't spend as much money for cancer research as we can for whisky because there are more people who like to drink than there are afraid of cancer. Maybe it doesn't make sense, and yet it does, for options are the real coin.

When enough people think one way the coin will always be available

THE BELL TELEPHONE
COMPANY OF CANADAReed Canary Grass for Hay
Pasture.

Very few native grasses have found a place in Canadian cultivated hay and pasture fields. Reed Canary grass is one of the few that has been accepted and has gained rapidly in popularity during recent years.

This species is usually referred to as a lowland grass because it thrives on low land that is poorly drained and where water lies for several weeks during the spring season, says Dr. T. M. Stevenson, Dominion Agrostologist, Central Experimental Farm, Ottawa. That it is well suited to such areas has been clearly demonstrated by tests conducted by the Division of Forage Crops. In fact, tests have shown that Reed Canary grass will thrive and yield well on soils so wet that no other cultivated grass can survive. But it is not adapted only to swampy or wet areas. Tests on well drained average farm soils have demonstrated its value for both hay and pasture. In one three-year grazing test, on well drained clay soil, it yielded twenty-eight per cent more herbage than timothy; in another test it yielded eleven per cent more than timothy. On sandy land of reasonably good fertility and where moisture conditions were favourable, it has also done well.

In feed value Reed Canary grass has proved to be quite equal to timothy when grazed and only slightly inferior when used as hay. Live stock, both cattle and sheep, find it quite palatable.

Monday, September 8th. Council met as Court of Revision on the Benetueau drain.

Reeve Neice was appointed chairman.

The necessary declarations were made and subscribed to.

The clerk reported the following appeals:

Raymond Benetueau, as being assessed too high and Garnet McKee should be assessed for 50 acres.

Ell Rocheleau as being assessed too high and Garnet McKee should be assessed for 50 acres.

Mulcaster-Paquette, that appeals be granted, and Court left open till October 6th at 9 o'clock p.m.—Car.

Court adjourned.

Doubling Up.

During the current housing shortage, and when educational institutions will be more than normally crowded, health officials see a need for special safeguards to ensure healthful conditions.

In boarding school dormitories, as well as in rooms and apartments which are "shared," they say that attention should be given to the adequate accommodation requirements so that sleepers have plenty of ventilation.

For health, as well as for comfort, the more space a person can be assigned, the better.

William Bosse Dies.

William Bosse, aged 62, of 485 Bruce avenue, Windsor, died Thursday Sept. 11th, at Grace Hospital, Windsor. He was born in St. Helena, Que., and had lived in Windsor four years. He had been an employee of the Ford Motor Company of Canada.

Surviving are his widow, Ethel; three sons, Philip, of Muskegon, Mich.; Louis, of Cottam, and Ernest, of Shawmere, Ont.; two step-daughters, Edna, of London, and Fern, of Windsor.

Services were held Saturday from the Marcotte Funeral Home, 870 Vyandotte street east, at 2 p.m., with Rev. Henry Mick, D.D., officiating. Burial was in Victoria Memorial cemetery.

Attention, Sportsmen!

Dates for open season on pheasants and squirrels, announced by Hon. H. R. Scott, Ontario minister of lands and forests, have nearly all been set a week later than last year.

The season for ring-necked pheasants is October 31st and November 1st, in all of the counties of Haldimand, Halton, Kent, Lambton, Lincoln, Peel, Wellington and Wentworth, and in Essex County, except for Pelee Island.

The bag in these areas is three cock birds a day. Another day's shooting, November 5th, is allowed in Lincoln County and in Pelee Township the season will be November 6th and 7th.

The total bag in Pelee is eight birds, which may be killed at any time during the two days. This is a slight change over last year when the bag was four a day.

The season for gray or black squirrels in any part of Ontario is November 14th and 15th, with a bag limit of five a day.

The Essex Juniors lost its first playoff game, at Tilbury, on Sept. 14th, by a score of 5 to 3. It was a good game, with Moore and Paquette besting Loebach on the mound for Essex.

Hayley and Fair each got 2 hits in 4 times at bat for Essex, while Dorion, Brown and Beselair each got 2 hits for Tilbury.

The same teams will play their second game of the semi-final series, on the Essex diamond, Sunday next.

Living Quarters.

With the boarding schools and universities more than usually crowded this year, health authorities are urging particular care in quartering young people to ensure healthful conditions. It is pointed out that students do their best work and are generally more comfortable in congenial surroundings.

Wise pupils will give special care, the doctors hope, to proper food, sleep and healthful recreation. For co-eds who may be using a grill, they suggest reading of the government's nutrition publication, "It's good business, girls, to eat well." This book is obtainable, without charge, from provincial and municipal health departments.

Study-Wise.

Continuous eye-strain can undermine general health, and may be the cause of a loss of standing in studies. Health authorities at Ottawa issue a special warning, at this time, against abuse of the eyes.

The experts declare that artificial light in itself is not harmful. It is detrimental only when it is too weak or when it creates glare.

Those who suffer from hot or tired eyes, blurred vision or dull headaches are urged to consult the family doctor, or, if at school, to report these symptoms to the school health authorities. Steps can be taken to make corrections. Modern developments in the field of ocular science afford easy relief for most eye troubles.

Aids for Eyes.

Warning against casual adoption of reading glasses comes from the Canadian public health authorities. In getting a pair of glasses, don't just pick them up from a store-counter, they warn. Such glasses may be cheap, but it's false economy to buy glasses which may only add to eye-strain.

It is noted that many laymen prescribe for their own eye needs. But a layman, the authorities insist, is not qualified to decide for himself what type of lenses his eyes need. They may be too strong or too weak. The only safe way of adopting aids to sight is to have the eyes examined by a medical eye specialist or qualified optometrist.

Extra Eats.

To keep up with their rapid development, young people need extra food, and the authorities say that it is quite all right for them to have in-between meals snacks, as long as these consist of the right kinds of food.

Nutrition experts say that such "snacks" may consist of fresh or dried fruit, raw vegetables, crackers and milk or bread, with butter or peanut butter.

Of course, such casual eating should not take the form of full meals. Discretion should be used, to ensure that one does not blunt the appetite for good healthful meals at regular hours.

Tiny Teeth.

Tooth troubles almost invariably start in babyhood. Irregular teeth, which ruin the appearance, have their "roots" in childhood, say the dental experts. These unsightly teeth may have begun as the result of neglect of baby teeth, or have started from childhood habits, such as thumb-sucking or lip-biting. They may have been due to mouth breathing due to adenoids or other nasal obstruction, or to retaining baby teeth longer than normal. Another possible start for poor teeth may have been neglect and loss of the first molar on the second set.

The only sure way of laying the foundation for good healthy teeth is to have a regular twice-yearly check-up by the dentist and, say the experts, these examinations cannot start too early in life.

It is the temper of the highest hearts to strive most upwards when they are most burdened.—Sir Philip Sidney.

Plant for Fall Colours.

Canada, particularly in the Eastern section, is one of the few countries in the world where nature creates a blaze of colour as a farewell to the growing season. If Canadian gardens are to be typical of the country there should be plantings of trees and shrubs which will produce in the fall the brilliant picture that is so typical of Canadian landscape paintings, says R. W. Oliver of the Horticultural Division, Central Experimental Farm, Ottawa.

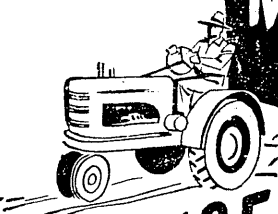

The gold and scarlet of the hard or sugar maple in the fall is familiar. It is so much more attractive in late September and October than the Norway maple, which turns yellow, or the silver maple, the leaves of which simply turn dull and fall off. The last two are planted because they grow more quickly. Another native, the red maple, superior to these two, will grow very quickly and produce brilliant crimson foliage.

Few of the best known flowering shrubs produce much fall colour. They rise to glory in June, but in autumn are outdone by their less known garden companions. One of the exceptions is the wayfaring tree, which has large flattened domes of small white flowers in June and deep purplish foliage in fall. Dogwoods too have fairly showy heads of white flowers and good crimson and gold foliage. They also have brilliant red bark in winter.

The scarlet fall foliage of dwarf or Japanese barberry is a familiar sight, because it is used so often as a low hedge. But less familiar thought is given to the equally beautiful blaze of sumac on rocky hillsides, the gold and scarlet of amur maples in the park, or the rosy red foliage of the winged spindle tree.

Fruited shrubs, too, add colour in autumn; mountain ash, European red elderberry, and the highbrush cranberry with their cluster of crimson, the brilliant scarlet of barberry and many of the cotoneasters, and the purplish-black of our native elders, viburnums and dogwoods. All contrast well with the white berries of snow berry.

A touch of autumn color comes with the familiar rose and orange fruits of pittersweet, a common native vine in Canadian woods. Somewhat similar fruits are borne by the commonly known spindle or strawberry tree, which have inconspicuous flowers but in fall they are well worth having in the larger garden.

Fair Grounds Park.

Have you been down to the Fair
Grounds lately? Would you be inter-
ested in making it into something that
would be a credit to Essex and its
people? Tilbury has done it. Belle
River has done it, even Cottam has
done it — and why haven't we? Any
parent has to admit, reluctantly, that
there is nowhere for the youth to go
to vent his interest and energy, and
what do we do about it? Just plain
nothing. And what do the youth do?
They go out of town. Can you blame
them? But our Fair Grounds has ev-
ery possibility that any sports park
ever had, and there it lies. Now, you
may have a chance to help out. Strong
rumours are about that an Athletic As-
sociation is to be formed for the pre-
cise purpose of making the Fair
Grounds a centre of activity for the
town.

Talk it over and be ready with your
full support when the meeting is cal-
led.

Glen Beattie Dies.

Glen C. Beattie, well known former
resident of town, passed away in Grace
Hospital, Windsor, on Thursday of
last week, September 25th, at the age
of 57 years.
Deceased, after graduating from Es-
sex public school and Essex high
school, took over the Beattie farm, now
owned by Neil Knight, and farmed un-
til a few years ago, when he had to re-
tire on account of ill health. He came
into town and worked for some time
for the Stokely-Van Camp Co. He
had been in failing health the past
three years or so.
Glen, who was a son of the late Mr.
and Mrs. W. D. Beattie, never mar-
ried. Surviving are a brother Ezra, of
Detroit, and a sister, Margaret (Mrs.
C. E. Sweetland) of Lansing, Mich.
Funeral services were held from the
E. J. Hicks Funeral Home, Essex, on
Saturday, with Rev. J. H. Wheaton of-
ficiating. Burial was in Cottam ceme-
tery.

Rotary Field Day.

The Field Day, sponsored by the
Essex Rotary Club, was, as last year,
a huge success, there being 30 differ-
ent schools represented, with a total
of over 1,000 children in attendance.
The day was without a hitch, the first
one starting at 2 o'clock and the last
of over 80 events, finishing just shortly
after four.

CHAMPIONS.

Boys.
Junior boy—Jim Elford, E.P.S., 13
points; Lynn Davis, E.P.S., 9 points.
Intermediate boy — Dave Cunning-
ham, E.P.S., 11 points; Jim Lippert,
E.P.S., Eugene O'Hara, E.P.S., and
Lawrence Devesu, Cot., tie, 6 points.
Senior boy—Don Curley, E.P.S., 12
points; Ron Kerr, E.P.S., 9 points.

CHAMPIONS.

Girls.
Junior girls—Freda Walls, S. S. 9,
Maid, 9 points, however 1 point was
earned for 3rd place in the intermedi-
ate high jump, but 8 points in junior
competition, still leaves her champion;
Dorothy Armstrong, E.P.S., 7 points.
Intermediate girls—Lyla Walls, S.
S. 9, Maid, 9 points, however she earned
3 of these points while competing in
senior 3-legged race. She really
earned only 6 points in her class; June
Harrison, E.P.S., 9 points.

Senior girls—Patricia McDermott,
Essex Sep., 9 points; Elsie Totten, E.
P. S., 9 points.
As noted above, intermediate girls
and senior girls finished in a tie and
as a silver cup went to the winner,
the committee in charge decided to
have the four girls get together to
break their tie. None of the four had
earned a point in "Kick the Slipper,"
so this was used, the winner being
Lyla Walls, intermediate, and Pa-
tricia McDermott, senior.

Red Shield Appeal

As this issue goes to press, the am-
ount subscribed by the people of Es-
sex and district, to the Red Shield
Appeal, has reached over \$1,050, within
\$150 of our target.
We say "thank you" to every one
who has contributed financially and
particularly to those who volunteered
time and effort to carry on the can-
vass.

Last Saturday almost one hundred
boxes were given into the taggers'
boxes in exchange for Red Shield tags.
All this says that you folks are
aware of the needs of less fortunate
people in our Canada and that you
trust the "Army" to apply your money
to these needs where they are greatest.
You have put the tools in our hands
and with the love of Jesus Christ in
our hearts and in His strength we
will not fail.

Thomas Page Dies.

Thomas D. Page, a resident of town
since 1941, when he purchased the
Agnos McGhie farm, passed away in
Metropolitan Hospital, Windsor, this
(Thursday) morning, following a long
illness.

Born in Lewis, England, in 1896, de-
ceased came to Canada with his par-
ents, as a child of 11 years, settling at
Duart, Ont.
He was a veteran of World War I,
joining His Majesty's forces in 1917.
He was severely wounded in the
Battle of Vimy, in 1917, receiving his
honourable discharge the same year,
and on his return to Canada settled in
Windsor.

The late Mr. Page was an active
member and worker of Grace United
Church, Essex; a member of Cap-
tlen Branch, Canadian Legion; and
member of Walkerville L.O.O.F. Lodge,
officers of which will hold a service in
the Kennedy Funeral Chapel this (Fri-
day) evening at 8.30.
Surviving, besides his widow, Lillian,
are three children, Shirley, Arthur and
Alex, all at home.

A semi-military service will be held
on Saturday, October 4th, at 4 p.m.,
from the S. L. Kennedy Funeral Chap-
el, in charge of Rev. H. H. Parr. Bur-
ial will be in Victoria Memorial Park.

Gross-Croft Nuptials.

The marriage of Miss Lois Croft and
Harold Gross was an event of Septem-
ber 20th, at St. Mark's Lutheran
Church, Kitchener, performed before a
background of white and yellow glad-
ioli. The bride is a daughter of Mrs.
Bertha Croft, of Maitland, and the
late Mr. Croft, and the bridegroom, of
Kitchener, a son of the late Mr. and
Mrs. Charles Gross. Rev. A. G. Jacob
officiated.

Fred Lincke played the wedding
music, and "The Lord's Prayer" was
sung by the bride's sister, Mrs. John
Londry, and during the signing of the
register she sang "Because."
The bride, given in marriage by her
brother, Edward Croft, was dressed in
a floor length gown of white satin
jersey, designed with long wing sleeves,
pointed at the wrist. A braided head-
dress of self material caught her fan-
ger-tip veil. She carried a white prayer
book with a shower of Stephanotis on
streamers.

The two senior attendants, both sis-
ters of the bride, were Mrs. Earl Ut-
ley, matron of honour, in mauve silk
jersey, and Mrs. Roy Remmer, brides-
maid, in yellow silk jersey. Their
gowns were styled like the bride's and
they were veiled jersey headresses
matching their gowns. Mrs. Utley car-
ried Gloria roses, and Mrs. Remmer
Biarcliffe roses, both arranged in
colonial bouquets.

A niece of the bride, Miss Beverly
Shuttleworth, was flower girl, wearing
an orchid silk jersey gown with match-
ing braided headdress. Her colonial
bouquet was of dream roses.
Jack Gross, of London, brother of the
groom, was best man. Ushers were
Earl Utley, of Kitchener, and Arthur
Gross, of Toronto, brother of the
groom.

Welcoming guests at the reception,
held at Nicholson's Inn, Blair, the
bride's mother wore a two-piece grey
crepe frock with black accessories
and a corsage of dream roses.
Mr. and Mrs. Gross left for points
north, the bride travelling in a soft
grey suit with darker grey and green
accessories, and orchid corsage. On
their return they will reside in Kitch-
ener.

Learn to Relax.

Stress is the most common cause of physical and mental illness. It is the result of a constant state of tension, which is caused by a number of factors, such as overwork, worry, and lack of sleep. The result is a state of physical and mental exhaustion, which can lead to a variety of ailments, including high blood pressure, heart disease, and nervous disorders. The only way to avoid these ailments is to learn to relax. This can be done by a number of methods, including deep breathing, progressive muscle relaxation, and visualization. The result is a state of physical and mental calmness, which is essential for good health.

Stooped Shoulders.

Stooped shoulders are a common ailment, caused by a number of factors, such as poor posture, lack of exercise, and old age. The result is a hunched back, which can lead to a variety of ailments, including back pain, neck pain, and difficulty breathing. The only way to avoid these ailments is to correct the posture. This can be done by a number of methods, including physical therapy, exercise, and posture training. The result is a straight back, which is essential for good health.

Pulling Stumps with Dynamite

One of the quickest and most reliable ways of pulling stumps from a field is by the use of dynamite. This method is simple and effective, and can be used for a variety of purposes, such as clearing land for farming or building. The only thing to be careful of is the use of dynamite, which should be done by a professional. The result is a stump-free field, which is ready for use.

Creeping Red Fescue for Turf and Pasture.

Creeping red fescue is a long-lived, perennial grass, native to many parts of Canada. It is a fine-leaved species which excels most other grasses in shade-tolerance and in durability. It is persistent under conditions of excessive wear. For that reason it is highly regarded for use in turf grass mixtures on playgrounds, parks, air-dromes and other areas where the turf is in constant use. It is also used extensively as a bottom-grass in pasture mixtures, says T. M. Stevenson, Dominion Agronomist, Central Experimental Farm, Ottawa.

Because of the common name "creeping red fescue," persons who are not acquainted with the species, at once are reminded of couchgrass or other common creeping-rooted species which are difficult to eradicate. Growers need have no fears of similar difficulties with this species. In fact, while underground stems or rhizomes are produced they are so short and grow

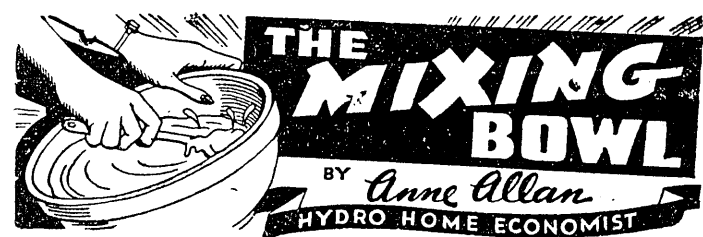

Uses for Jack Pine

Twenty-four years ago the communications department of the Canadian Pacific Railway, more or less as an experiment, installed a new type of telegraph pole along 21 miles of track of the Algonia district in Northern Ontario. The poles were made from the lowly jack pine, long considered the comparatively useless poor relation of the Canadian forest, treated with creosote—the first installation of any consequence in Canada.

In order to provide increased clearances for new automatic block signal wires, 495 of the poles in this section were to be replaced with longer poles this year. But so successful was the "experiment" of 1923 that many of the shorter poles are to be used elsewhere on the system, and not a single pole has had to be replaced since that time due to rotting.

In the top picture some of the poles can be seen, still as good as new, along a stretch of the main line just west of Ramsey, Ont., with a standing jack pine snow break, effective and economical, on the right hand side of the track. At lower left Canadian Pacific officials test two of the poles to discover the penetration of creosote as forestry experts look on, and the out-er rings on the pole sections in the third picture show the 100% penetration of the creosote.

Hello Home-makers! A cool atmosphere in a home is a relief on hot, muggy days. Better yet a tall, cool drink is certain to make one feel fine. Finiteness, stale cooking odors, wilted flowers all seem to add to the intensity of the heat. Picture instead a truly airy living room with cool colors, bowls of fresh garden flowers and clean, crisp curtains. Now if some one drops in you are ready to serve a summer drink in attractive glasses with lots of ice. Don't spend too much time on the preparation of refreshing beverages, but make one to drink and it is good policy to always have one on hand chilled and ready to serve. Here are just some tempters.

TEA TINKLE.
1/2 cup water
1/2 cup granulated sugar
12 spears mint, chopped
1/2 cup grapefruit juice
1/2 cup fresh-made tea
1/2 teaspoon salt
Combine water and sugar; simmer 5 minutes. Pour over the chopped mint leaves. Cool, stir into fruit juice, salt and tea. Pour over ice in 4 tall glasses and stir. Serves 4. For extra flavour add 1 teaspoon currant jelly to each glass of Tea Tinkle.

PINK PARTY PUNCH.
1 cup grapefruit juice
1/2 cup apple juice
2 tablespoons maraschino juice
1 cup gingerale
Combine all ingredients; mix thoroughly and add 1/2 tray ice cubes. Chill until frosty. Serve with a cherry for each glass.

PRUNE PICK-UP.
1 cup prune juice
2 tablespoons lemon juice
1 tablespoon honey syrup
Few grains cinnamon
Chill thoroughly in electric refrigerator. Serve over crushed ice in fruit glass.

THE QUESTION BOX.
Mrs. H. C. asks: Can raspberry vinegar be used for boiled salad dressing or just beverages?
Answer: It should have some mother vinegar added and then aged for four months to make it good vinegar. It can be used in French salad dressing. Raspberry vinegar may also be used in quantities of 1 cup juice with one cup water for beverage.

Mrs. T. C. asks: Can gelatin mould be allowed to set again if they become liquid in a warm place?
Answer: Yes, gelatin mixtures lose their little nutritive value.

Mrs. M. J. asks: Would you wax a highly polished table to prevent plastic tablecloth from sticking to it?
Answer: Yes, although a cotton silicone cloth is the ideal covering with the plastic over it.

Mrs. T. E. asks: If milk is purchased from an over-cold herd, is it necessary to pasteurize it and if so, at what temperature?
Answer: Yes, pasteurization of milk is cheap insurance on the farm. A thermometer reading of 138 degrees should be used for 3 minutes.

so slowly that a casual observation is difficult to distinguish from a bunch-grass. Eradication of this grass presents no problems.

Creeping red fescue is grown for seed production in some sections of Canada. Yields varying from 100 to 600 lbs. of seed per acre have been reported from some areas, while attempts to produce seed in other areas have met with complete failure. In seed production studies conducted by the Dominion Experimental Farms Service, a new variety, Duraturf, which was developed at the Division of Forage Plants, Central Experimental Farm, Ottawa, has led all others in yield of seed per acre. This new variety has also proved very satisfactory for turf and pasture.

What an absurd thing it is to pass over all the valuable parts of a man, and fix our attention on his infirmities. Great men are very apt to have great faults; and the faults appear the greater by their contrast with their excellencies.—Charles Simmons.

Wheat Excellent as Livestock Feed.

It is not many years since wheat was considered unsuitable as a livestock feed. It was branded as a starchy "hot" feed, too concentrated to be fed with safety. Gradually experimental evidence has reversed this opinion and now wheat is accepted as an excellent feed when properly handled.

Wheat compares favourably in chemical analysis with the other feed grains, being lower in fibre and higher in protein than either barley or oats. It is, like these other grains, low in minerals, vitamins and too low in protein to serve as a complete feed. Proper supplementation is essential if full efficiency is to be obtained. The nutritive excellence of wheat has been borne out in exacting feeding trials conducted at the Dominion Experimental Station, Lacombe, Alberta, and at other experimental stations, says H. T. Fredson of the Lacombe Station. When single grains were fed, pigs made the fastest and most efficient gains on wheat, while barley ranked second and oats third. The most economical gains, however, were obtained by feeding a mixture of the three grains, which emphasizes the importance of "feeding a properly balanced ration."

Wheat also proved more palatable than these other grains, and in various "free choice" experiments pigs demonstrated a decided preference for wheat. However, in carcass quality, wheat-fed hogs were slightly over-finished as compared with barley-fed hogs. This, too, is overcome by feeding a proper mixture of grain and by adequate supplementation.

What is proper supplementation? For swine, skim milk or buttermilk, fed along with the grain at the rate of two to three pounds of milk per pound of grain or a commercial supplement fed at the rate recommended by the manufacturer, will supply the necessary protein, while 1/2 pound of salt and 1 pound of ground limestone per hundred pounds of grain will supply the necessary mineral. Vitamins in the form of pилchard oil or well cured alfalfa must be supplied if the pigs are fed indoors.

The best results with wheat have been obtained when mixed with other grains for swine it is not recommended that wheat should constitute more than three-quarters of the total grain in the ration, the other quarter being made up by oats. Wheat being a heavy grain must be fed by weight rather than volume, to avoid over-feeding. Degree of fineness of grinding is also important. If ground too fine it tends to pastiness and may cause digestive disorders.

For swine, wheat should be coarsely to medium ground; for cattle, coarsely ground or rolled, while for sheep no grinding is necessary.

Wheat can also serve a useful place in the rations of cattle, sheep and horses. The same precautions—feeding by weight rather than volume, adequate supplementation and close attention to fineness of grinding must be observed. With present prices, it is not economical to feed high quality wheat, but large quantities of feed grains are produced annually which are suitable for live-stock feeding. Indeed, shrunken or frozen wheat has proved in many experiments to be superior in feeding quality, due to the somewhat greater fibre content, which makes these feed grains a less concentrated and safer feed.

Does Your House Leak Dollars?

Will you burn up tons of coal or oil to heat the winter winds? The Canadian Institute of Plumbing and Heating points out that the first consideration in keeping your fuel bill to a minimum this winter is an efficient heating system, but to obtain full benefit from such a system, the house must be effectively insulated.

Insulation of a house may save more than one-third of the cost of fuel, the Institute points out. Heat loss in a home may result from heat transmission through the walls and windows, and by infiltration of cold air through walls and cracks around doors and windows.

Storm windows will reduce heat transmission through the glass, although they do not reduce infiltration of air around fitting sashes.

The cracks around windows and doors provide a constant leakage of cold air into the home, and escape of warm air. The way in which doors and windows close and fit will have a considerable influence on the leakage.

The leakage will be high if the sashes of the window are warped, or if the meeting rail members are warped, or if the frame and sash are not fitted squarely to each other. Locking a window generally decreases its leakage, but in some cases may push the meeting rail members apart and increase the leakage, particularly with wood casement windows. Storm sashes do not reduce

Baby Teeth.

Irregular teeth, which ruin the appearance, literally have their roots in childhood. They may be due to neglect of baby teeth, to such child habits as thumb-sucking or lip-biting, or to mouth breathing due to adenoids or other nasal obstruction, to retaining baby teeth longer than normal or to neglect and loss of the first molar on the second set.

Dental officials at Ottawa advise regular twice yearly examinations to enable dentists to set-off such conditions.

Infiltration of air unless the windows fit very poorly.

Doors vary greatly in fit because of their large size and tendency to warp. Constant opening and closing of a door will increase the heat loss.

Air leakage around windows and doors can be reduced greatly by weatherstripping. Even on a well-fitting window, weatherstripping may reduce the heat loss through it by one-third. Houses of one or more stories will suffer a great heat loss from air leakage due to the "chimney effect" of the structure. The warm air indoors will tend to rise within the house and escape from upstairs windows, and the cold air will infiltrate into the downstairs rooms from out of doors. Even without any wind, therefore, a tall house will suffer rapid loss of heat unless windows and doors are properly sealed.

GUEST ARTIST

Charles Jordan, outstanding young baritone of Montreal, will be the guest artist on the Northern Electric Hour which returns to the air with a new "Forward with Canada" series beginning Monday, October 6. The program is heard over the CBC's Trans-Canada and Quebec Regional networks.

CANADA'S Health

Tired Toes.

Unhappy feet are always a problem. Never are they more bothersome and detrimental, however, than when one has to concentrate. Young people, absorbed in study, know the distracting and distressing effect of tired toes and generally uncomfortable feet.

So, say the medical authorities, care of the feet is important during study days. A little attention can make the pedal extremities behave, even under the stress and activity of school programs, so that they won't add to the difficulties of absorbing knowledge. Health publications are available for free distribution; all over Canada on care of the feet. They are worth-while additions to a student's kit.

Eye Care.

The eyes should not tire sooner than other parts of our physical machine. Doctors tell us that, during waking hours, there should be no undue eye discomfort. Used under good lighting conditions, the eyes should not develop strain. If they do, the eye specialist should be consulted, since there is obviously something wrong—something which requires correction.

Of course, the health authorities point out, it is normal for us to tire, and the eyes are not an exception. They need rest at the end of a busy day, too.

Chilled Knees.

During damp weather, parents should insist on small children wearing stockings which at least cover the knees. It is quite right to dress the youngsters in short socks when the weather is fine and warm. That is healthful. But it is not in the child's best interest to allow him to sit around a classroom in damp weather with chilled legs. The authorities suggest that children be made to put on rubbers, too, in wet weather, as a further measure of health conservation.

Fit Faces.

Many men who are young in years are old physically because of bad teeth, according to dental authorities at Ottawa. They quote statistics showing that, in the first year of the last World War, no fewer than 22 per cent of Canada's volunteers were found unfit for service because of bad teeth and diseased gums.

These men rejected for service had mouths which were old and crippled by tooth decay and pyorrhea, examinations revealed. The dental experts insist that twice-yearly consultation with the family dentist is essential to maintenance of dental fitness.

Mending Minds.

Pointing out that Canadian mental hospitals discharge 60 per cent of their patients within one year of admission, and that many patients require only a few weeks of attention, public health experts at Ottawa want the people to know that illnesses of the mind can be cured in the great majority of cases. Mental upset is as definitely an illness as any other type of ailment and, say the doctors, like other troubles, it responds best to early treatment.

Defects in Childhood.

Medical and public health authorities are urging parents to have their children examined by the doctor before being sent to school. It is noted that approximately 60 per cent of children entering schools in Canada nowadays show one or more physical defects. Many of these troubles could be corrected easily if given proper and early attention.

"Be sure to give your child a chance for success in studies and in sport," the public health officers ask. "Have the family doctor examine the child, now, to detect and correct any minor troubles."

Prize Winners at Western Ontario Guernsey Show

The Guernsey breeders of Essex and Kent Counties made the regional show at Leamington, Friday, September 19th, the best Guernsey show ever held in that area, when ten exhibitors turned out with 88 head of cattle.

The Grand Champion Bull, Allan-Be Shamrock's Frolic, proved that he was more than just a show bull himself, when his get placed first in the senior, get-of-faire, second in the junior-get-of-faire, and first in a number of the individual classes. In addition, his daughters are milking well and his sons are finding favour among many breeders. "Frolic" was shown by Alvin Stevenson & Son, Ruthven.

The Reserve Grand Champion Bull went to the richly bred Senior Calf, Curtis Candy Levity Prophet, imported and shown by Arthur Bengie, Merlin. Roscoe Daisy, 1st prize aged cow in milk, also shown by Mr. Bengie, was Grand Champion Female and Elmwood Frolic's Trixie, a daughter of "Frolic," 1st prize dry cow, was reserve. These two cows will look very well at the Royal Winter Fair.

Adam H. Calder, Glanford Station, judge of the show, made a good job of judging the many close classes. Those exhibiting were Alvin Stevenson & Son, Ruthven; Arthur Bengie, Merlin; P. M. Hooker, Wheatley; Wilbur Haggins, Ruthven; Percy McGorman, Maidstone; Jarvis Ross, Ruthven; E. Sutton, Amherstburg; G. H. Huggison & Son, Essex; Earl Willan, Staples, and L. Joyce, Ruthven.

The results of the judging were as follows:

A kitten nearly stole the show from the Beaverco when the brand new Canadian Pacific cargo liner arrived at Montreal from Liverpool on her maiden voyage. The pussy, becoming excited, opened the dock and fell into the harbor just as the ship was coming alongside. The kitten is shown, lower right, with eight of its nine lives still intact but very wet after longshoremen succeeded in pulling it to safety on a rope to which it clung after falling overboard. Up-aiden voyage. The pussy, becoming excited, opened the dock and fell into the harbor just as the ship was coming alongside. Joseph Chevalier is critically ill. The Woodslee Memorial Association will hold a meeting in the Union Hall on Tuesday, October 14th, at 8:30 p.m. to discuss the funeral of the late Joseph Chevalier.

Charles Smith, of Detroit, whose father the late J. A. Smith operated a cabinet shop in the village 50 years ago, visited his parents' graves at Lakeside cemetery on Wednesday, and removed a few boyhood acquaintances. Mr. and Mrs. J. H. Smith, of Windsor, visited this past week with Mrs. Anne Allison.

A miscellaneous shower, honouring Mr. and Mrs. James Wolz, was held in the L.O.O.F. hall on Tuesday evening. Bills Weaver underwent a tonsil operation on Saturday, while Gerald Bickel had his tonsils removed on Tuesday.

United Church Notes.
The Church School executive meeting at the parsonage, on Sunday evening, decided to hold Promotion Day on the first Sunday in October and set Monday, December 22nd as the date for the Christmas concert. An official board meeting was held on Monday, at which Charles Roberts was appointed lay delegate to the Essex Presbytery. It was decided also to take up a special collection for the Building Fund of Victoria University and Emmanuel College on a Sunday in November or to make the annual canvass of the latter part of that month. World Wide Communion Sunday will be observed at the Woodslee and Lakeside churches, October 6th. Through the kindness of the Ladies, First Woodslee Troop Boy Scouts has secured the use of a hall at the school for Friday evening meetings. The Research House of the service and supper will be held on October 12th and 13th. The church conference will be held at 8 p.m. on October 17th.

Jos. Tully Retires as Rector.

In appreciation of 18 years of faithful service, the people of St. Stephens and Church of the Redeemer gathered in St. Stephens' parish Hall on Tuesday evening, September 23rd, to honour Rev. and Mrs. Jos. Tully, before they left to take up residence in Amherstburg.

The occasion was Rev. Tully's 71st birthday. The clergy of the Deanery were well represented. Fred Holden was an ideal chairman. The program opened by singing "For Thy Love, O Lord, Follow Us" with Miss Margaret Fawcett at the piano. Rev. Charles Brown, of All Saints' Church, Windsor, was the speaker of the evening. The solos by Mrs. Harry Pettypiece and Nelson Shuttlesworth, with Mrs. Clyde O'Neil as accompanist, were much enjoyed. A quartette of four boys, Kenneth Bennett, Gary O'Neil, Gary Epping and Kenneth Fawcett, sang the following song, composed in honour of Rev. and Mrs. Tully by Mrs. Elta Bennett, to the tune of "The Olden Oak":

Eighteen years ago now,
The Tullys did join us.
To do God's service
Sincerely and well.
They baptized the young ones,
They married the loved ones,
They called on the sick ones
Too numerous to tell.

The old ones have grown,
And now are the parents
Of families, 'tis true.
The O'Neils and the Holdens,
The Pettypieces and the Shells,
The McKees and the Jessops,
Just mentioning a few.

Eighteen years of good friendship,
We'll never forget it,
And they have left thoughts
That will lead us along,
Ready to help us
To cheer and forgive us,
In minutes that would happen
And things we did wrong.

We remain the fact
We thank you for the hour
We spent with you,
And we are proud to turn
To you in our thinking.
We'll work as brothers
And sisters, for our duties
To God and to our country.

Mr. and Mrs. Tully, who have been married for 40 years, have four children, three sons and one daughter. They have been members of the Church of the Redeemer for 18 years.

Miss A. Couch Dies.

Miss Annie Couch, daughter of Mr. and Mrs. Wm. Couch, of the 9th Con. Colchester North, passed away in Grace Hospital, Windsor on Sunday, following a lengthy illness. She was born in Leamington, September 27th, 1913.

Surviving, besides her parents, are three brothers, Albert, George and Robert, and a sister Irene, all at home. Funeral services were held from the E. J. Hicks Funeral Home, Essex, on Tuesday, with Rev. J. D. Woollatt officiating, and burial was in Greenhill cemetery, Kingsville.

Ure-Taylor Nuptials.

A double-ring ceremony in Bethel United Church, before an altar decorated with asters and gladioli, united in marriage Miss Grace Pearl Taylor, daughter of Mr. and Mrs. Alex Taylor, of Royal Oak, Mich., and Donald A. Ure, son of Mr. and Mrs. Raymond D. Ure, of Madison, the Rev. Norman Pick officiating.

The bride was lovely in a gown of traditional ivory satin, fashioned on princess lines, and carried white gladioli in a cascade. Miss Shirley Taylor, as her sister's maid of honour, wore pink faille, while Miss Audrey Brown and Miss Doreen Irving, as bridesmaids, wore in anna and gold faille, respectively. They all wore matching beaded dresses and carried cascades of gladioli.

James Ure assisted his brother as best man, and the ushers were Jack Taylor and Robert Shuttlesworth, a cousin of the groom.

A reception was held in the Women's Institute Hall in Rowland, Mrs. William Sales assisting in serving. Mrs. Taylor the bride's mother, was groomed for the occasion in royal blue crepe, and wore grey accessories, and Mrs. Ure, the groom's mother, was in white blue crepe, and wore brown accessories. Their corsages were of Joanne Hill roses.

Mr. and Mrs. Ure left later for a wedding trip, the bride travelling in a dark grey suit and wearing matching accessories. They will reside in Guelph, where the bridegroom will resume his studies at Ontario Agricultural College.

MAIDSTONE CROSS

The regular monthly meeting and dessert tea will be held next Wednesday afternoon, October 8th, at 2 p.m., at the home of Mrs. Thomas Chittle.

Mr. and Mrs. Thomas Little had as their Sunday guests, Mrs. Gertrude Groat, of Dearborn, Mich.; Mr. and Mrs. Otto Ellis and son Kenneth, of Detroit; and Mr. and Mrs. Wallace Little and family, of Detroit.

It is their girl for Mr. and Mrs. Benoit Collins, born at Hotel Dieu, on Wednesday evening, September 30th. Benoit would be much happier with a boy.

Congratulations to Mr. and Mrs. Harry Collins on the arrival of a baby daughter, Bonnie Marie, born Saturday for Billy at Hotel Dieu, on September 28th. Mother and baby are doing well and Harry is wearing a big smile.

Mr. and Mrs. John D. Walker went to Windsor on Thursday to the wedding of their niece, William Whalen, who had suddenly while at the Rodney Hotel. Burial was in Port Colborne, on Saturday. Mr. Whalen was connected with the Richardson's funeral service 20 years ago in Essex.

Mrs. Norman Hesley (Marion McHugh) renewed acquaintances at St. Mary's Church, on Sunday. The Hesleys, who formerly lived in Alameda, Calif., are now making their home in Detroit.

Mr. and Mrs. Mike John entertained at Sunday dinner, having as their guests Mr. and Mrs. George John and daughter Bonnie, of Leamington; Mr. and Mrs. Joseph John and children Jane and Keith, of Chatham; Mr. and Mrs. Peter John, of Windsor; Michael John and Misses Barbara and Delores Gilbert, of Parkhill, Ont., and Mr. and Mrs. George Walpor, of Grand Bend, Ont.

PAQUETTE

Mrs. Fred Berl was hostess to the Redeemer Guild at their regular meeting, September 25th, with an attendance of ten, and Mrs. G. Webster presiding. The meeting opened by singing "Blest Be the Tie That Binds," and the president led in prayer. After the disposal of routine business plans were made for a chicken supper to be served in the Orange Hall, on Wednesday evening, October 22nd. A busy afternoon was spent in sewing. Mrs. Clifford O'Neil closed the meeting with prayer and the hostess served a delicious lunch.

Come one, come all, to the Essex Annual Rally, on October 3rd, at Rose Hall, at 8:15 p.m. Dancing and refreshments.

There will be services in St. Stephens' Church on Sunday next, October 5th. The congregation will worship at Harvest Thanksgiving services at the Church of the Redeemer.

The Ladies' Guild of the Church of the Redeemer will hold an all-day meeting at the home of Mrs. Glen Webster, on Thursday, October 9th. Mrs. Wm. Miller and Mrs. Clifford O'Neil will be the hostesses for the luncheon.

The Redeemer Ladies' Guild will serve their annual chicken supper, in the Orange Hall, on Wednesday evening, October 22nd. St. Stephens' Guild's chicken supper will be held in the parish hall on Wednesday evening, November 5th.

Members of the Essex Women's Institute were guests at the regular meeting of the Maidstone Women's Institute, held at the home of Mrs. Keith Howard, on Wednesday afternoon, September 10th. The meeting was called to order by the president, Mrs. Howard, who, in her usual friendly manner, extended a warm welcome to the guests and also expressed her pleasure at the large turnout of members of the Maidstone Branch. After a brief business session the ladies were entertained to a fine program, including two musical numbers by Mrs. H. Harrow and a humorous skit with Mrs. Shepley and Mrs. A. Hill, all of Essex, taking the parts. Mrs. H. Harrow read two interesting papers. A delicious lunch was served at the close of the meeting.

Boy Drowns in New Ditch.

Three year old Roger Rivet, son of Mr. and Mrs. Victor Rivet, of Purvis Beach, about one mile west of Belle River, on Lake St. Clair, drowned in 3½ feet of water less than 50 yards from his home, on Saturday afternoon.

Watermain Trench.

The child drowned in a trench for a new water main Maidstone Township Council are putting in north of the Canadian National Railway tracks in that area.

The trench had been dug and the water main put in, but the trench had not been filled in. A recent storm had filled it with water.

It appears that the child, playing with Robert Purvis, five year old son of Mr. and Mrs. Henry Purvis, strayed to the ditch and disappeared shortly afterward.

The Purvis child returned home and when asked what had happened to Roger said he did not know, he guessed he was hiding somewhere from him for he couldn't find him.

The youngster is survived by his parents, Mr. and Mrs. Victor Rivet, and a brother and sister, Kenneth and Patricia.

Funeral services were held Monday afternoon at 2:30, from the Albany J. Janisse chapel, at Our Lady of the Rosary Church at 3 p.m., with burial taking place in Our Lady of the Lake Cemetery.

William Harvey Passes.

William Harvey, a former resident of town, passed away at the home of his daughter, Mrs. Harry Hind, Windsor, on Thursday of last week, following months of ill-health. He was 80 years of age.

The late Mr. Harvey will be remembered in town, having owned and operated a tailor shop here for twenty years or more, as well as owning a couple of farms near the southern limits of town. Prior to moving to Essex he operated a gent's tailoring shop, on Ouellette avenue, on which now is located part of the C. H. Smith store.

Surviving are his widow, Ruth, 922 Church street, Windsor; a son, Tom, at home, and two daughters, Mrs. J. P. Tuttle and Mrs. Harry Hind, both of Windsor.

Funeral services were held on Saturday, from the Marcotte Funeral Home, with interment in the Howell, Mich., cemetery.

Softball vs. Hardball.

We readily admit that last Sunday wasn't a very warm day for watching a ball game, but even then there was a goodly gang of interested folk present, and we hope they enjoyed it as much as the gang did playing it. I would like to thank Mr. Butts for arranging the gang and getting the gang together — it's no picnic. However, we weren't disappointed — we expected a trouncing instead of only losing by 10 to 4. The regular team took up the spirit of the game and really enjoyed the feeling off on the rusty softballs. Maybe we can play them a game of softball — if Indian summer ever gets here.

And now for softball. Last Sunday was the last game for the season. Legion vs. G. M. got the game under way, and a hustle it was for the first made at the beginning. The game was forfeited to the Legion. But all must admit the Legion has had the edge over the rest of the teams — so all hail this year's champs — The Legionaires.

No charge. "Freely ye have received freely give." Friday, 8 p.m., another splendid evangelistic service; Sunday school at 10 a.m., and an illustrated talk the children will enjoy. Evangelist Ludlum-Bachle will be speaking at both services Sunday, at 11 a.m. and 7:30 p.m. Monday, 2:30 p.m., District Fellowship Rally and the evangelist will speak. Monday night, 7:45 p.m., town hall, Rev. and Mrs. E. T. Quannabush and their radio group of singers and musicians, heard twice a week over WEKL, Detroit. This will be an unusual service, plan to come. Everyone welcome.

First Baptist Church.

Sunday, October 5th: First Baptist Church is a church home where none are ever strangers. All are invited to worship within its walls. We believe the Spiritual life within our fellowship will do your soul good, as we seek to serve for the mutual help of one another and for the furtherance of the gospel of Jesus Christ. Therefore, we invite you to worship with us this Lord's Day. Services as follows: Sunday school at 10 a.m.; morning service at 11; evening service, with communion at 7:30, and reception of those who have been saved and baptized into the Fellowship of the church at their request. Remember that Sunday, October 12th will be our 71st anniversary, and the Van Impe's, of Detroit, will be with us, with their acrobatics, and Rev. E. C. Wood, of Chatham, will be the guest speaker. Plan to attend these services with your friends.

IN MEMORIAM

In loving memory of my mother, Mrs. Warren Richardson (formerly Mrs. Alex Myers, of New Canada), who passed away three years ago, October 1st, 1944.

Dear mother, you are not forgotten, Though on earth you are no more, Still in memory you are with me, As you always were before. You often said I'd miss you, Those words have proved too true, I lost my best, my dearest friend, Dear mom when I lost you. Three years have passed since you have gone, To your eternal rest, I wanted you to stay with me, But God He knew the best, So mother dear, you left me here, Some day we'll meet up there. And then, in gladness, clasp our hands And both be in God's care.

—Sadly missed by son Earl, daughter-in-law Grace, and grandsons Donnie and Bobby.

Archie Pierce Dies.

Archie Pierce, senior Public School
Inspector for Essex County, died in
Grace Hospital, Windsor, on Wednes-
day afternoon, from injuries suffered
in an auto accident early Monday
evening.

The late Mr. Pierce was returning
home via the Middle Side Road, in An-
derson Township, after inspecting at
Amherstburg Public School. From in-
formation gathered, he was driving
east toward Essex, when he noticed a
car travelling north on the 5th Con-
cession, which crosses the Middle
Side Road at right angles. Evidently
he thought they were going to reach
the intersection at the same time and
apparently he put on his brakes, for
his car went out of control, plunged
to the left, crossed a 7 ft. ditch and
landed against the far bank with such
a heavy impact that he suffered at
least seven broken and crushed ribs,
a punctured lung, a dislocated hip,
a shoulder and head injuries.

Deceased, who was born near Embro,
in Oxford County, on June 23rd, 1903,
had made a host of friends through-
out the county during his short stay of
less than three years. In our midst
he was a member of Essex United
Church, of Essex Rotary Club and of
Central Lodge, A. F. & A. M., and had
been instrumental in consolidating
the several township public school
areas throughout his inspectorate.
Prior to coming to Essex County he
had been Public School administrator
for York County East.

Surviving are his widow, the former
Katherine MacDonald. His parents
both predeceased him.

Funeral services, in charge of Rev.
R. H. Parr, are being held in Essex
United Church, at 8 p.m. tonight
(Thursday) with his body lying in
state in the church from 4 p.m. Bur-
ial will be in the Ripley, Ontario, cem-
etery, on Friday.

Injured in Auto Accident.

Mrs. Arthur Oliver and Mrs. Rob-
ert Hamilton, both of Gesto, are pa-
tients in Grace Hospital, Windsor, to
where they were removed, by ambu-
lance early Tuesday evening, follow-
ing an auto accident on the Gesto Side
Road, in Colchester North Township.

Mrs. Oliver, who was driving, struck
some loose gravel and lost control of
her car, which turned over in the
ditch.

Mrs. Oliver has a fractured collar
bone, while Mrs. Hamilton is more seri-
ously injured, with a crushed pelvis.

Wanted—100 Interested Men.

The Athletic Association is becom-
ing very close to a reality instead of
just a rumour. However, the basic
idea or the basis of this association
is to centre around a hundred men
who are willing to pledge themselves
for the improving and building up of
our now desolate fair grounds prop-
erty. Don't get us wrong, the figure is
not set at 100 — that is our goal —
and actually the more the stronger,
provided each one pulls his share of
the load.

And please don't take the name
Athletic Association wrongly. That
is just a temporary name and, regard-
less of name, our aims are the same
— the betterment of our fair grounds.
What are your ideas toward it and its
future? No one in this town can af-
ford to say he is not interested, as
everyone will benefit from it in some
way, especially if there is a family.

The first step in the upbuilding of
the fair grounds park is proper drain-
age and grading, and tree planting,
and that will have to be done this fall
if our ideas are to be realized within
a year's span.

And what are our proposed activi-
ties? Next year the baseball team will
operate as usual, and we hope a soft-
ball league, bigger and better, will be
playing nights under lights and
what else? That's up to you and your
own voiced opinions — tennis Courts,
playgrounds for teen agers, swimming
pool, roller skating rink, horse shoe
pitching, volley ball courts — dreams
of the future, but they can be a real-
ity if you will help.

So be prepared with your full-voiced
support in the very near future.

Instructions to a Chicago baby sit-
ter's group cautions against holding
baby over gas to dry diapers.

Base Ball.

There will be a baseball game at
the fair grounds, this Sunday, start-
ing at 2.30, with the Leafs taking on
the Lappan's Aces.

Kin Komer and Keno.

Last Tuesday night the Kinsmen had
their first regular meeting of the
month, and the final plans for the keno,
on Friday night, October 10th, were
laid, and I can tell you you'll be sorry
if you miss it — 15 rounds — mean-
ing 15 turkeys (big ones, too) and 15
chickens — very nice door prize that
they will win just for coming along and
enjoying yourself. So, ladies, mark
it on your shopping list and bring the
husband with you, drag him if you
have to, but get him there dead or
alive, at 8 o'clock.

New Greyhound Station.

An informal council meeting was
held, in the Council Chambers, on
Monday afternoon, at 2 o'clock, with
Mayor Linton, Reeve Irwin, Council-
lors Shaw and Francotte, Chief of Po-
lice Norm Hogarth, and Mr. Petoskey,
of the Canadian Greyhound Lines, pres-
ent.

Mr. Linton, without malice, told Mr.
Petoskey that he thought that the least
he and the Greyhound officials could
have done, when they decided to move
their office in town from the S. H. Sad-
ler Drug Store, where it had been lo-
cated the 18 years Greyhound had had
a franchise in Canada, to the Es-
quire Grill (Workman's Restaurant)
was to come before Council and find
out if Council had any objection to
their new site.

Mr. Petoskey replied that the May-
or and Reeve had been delegated some
months ago to visit him at his office,
requesting that a change be made in
Essex, so that people would have a
waiting room, especially in rough weath-
er, and not have to stand on street
corner and wait for bus. He had had
three or four from town seeking the
new office and had recommended Mur-
ray Kennedy's place of business on
Fox street, but the traffic manager of
the lines had turned down the proposi-
tion, stating they would not go off
Talbott street even if they had to es-
tablish an office at the end of town,
as they would be establishing a prece-
dent, for at present the Town of Til-
sonburg is the only stop between Wind-
sor and Toronto, not on their through
highway, and in this case it could not
be avoided.

Mr. Linton advised Mr. Petoskey
that Kingsville and Leamington offices
are on the highway, but he was in-
formed both these offices were on the
highway used by the Greyhound Lines.

Mr. Petoskey stated his firm was
only asking for a restricted parking
space of 40 feet on each side of Tal-
bot street for their buses to load and
unload, whereas the Council seemed
willing to do away with parking on
part of Gordon avenue, the angle park-
ing on Fox street, at the post office,
and parking on both sides of Wilson
avenue, from Talbot to Fox street. B.
Simon had been spoken to in regard
to having space in front of his store
restricted for Greyhound parking, and
he was perfectly willing that if he
done, No one has been approached in
regard to the eastbound traffic.

Mr. Petoskey also assured those
present that in case there were two
or three buses to handle traffic at
certain hours, that only one would be
parked at a time, the other drivers
would have orders to lay back at edge
of town until first bus was again on
its way. He considered the restaurant
a perfect spot as they will be open
seven days a week, both early and late.

Mr. Francotte stated he was not
in favour of a ticket office and wait-
ing room in the business section.

The Clerk reported that Mr. Pulley-
blank had told him to advise the meet-
ing that he was not in favour of again
shifting the Greyhound office in the
business section from M. C. R. tracks
to Martin's Drug Store.

Mr. Irwin spoke in favour of the
new site, stating he thought proper
place for the office was in the business
section. He spoke of coming out of
Windsor recently on the bus which had
to go out Drouillard Road and he saw
how difficult with traffic, and Drouil-
lard Road was far narrower than Tal-
bot.

Mr. Linton, in again speaking, said,
as a member of Council, he didn't
know why they should antagonize the
business people of town, who pay taxes,
for a concern who pays no direct
tax to the town.

Chief Hogarth stated that from a
standpoint of traffic hazard, both Tal-
bot and Fox streets had their prob-
lems, but if and when town put up
their traffic light at Center street in-
tersection, he would advise that re-
stricted area for eastbound traffic, if
Talbot street is used, be in front of the
present Imperial Bank Building and
the Malott Hardware, or in other
words, on the easterly side of traffic
light, as westbound would be on the
westerly side of the light.

Near the end of the meeting, Mr.
Linton finally told Mr. Petoskey that
if the Greyhound Lines could get per-
mission to use their new site for a
bus station, from the Department of
Highways, in Toronto, over the town's
protest, it would be o. k. with Council.
Mr. Petoskey, in closing, stated his

Brownies' First Meeting.

The local Brownie pack had their
first meeting of the fall season, at the
Salvation Army, last Tuesday, with
their leaders, Brown Owl Elaine Cox,
and Tawney Owl Ethel Wilson. Miss
M. Haller, of Windsor, Brownie organ-
izer, brought some splendid ideas and
suggestions.

The little girls in brown are looking
forward to an exciting year, with lots
of fun learning new things and doing
good turns for other people. Such
arts as making a cup of tea, darning
socks, knitting, setting a table, plant-
ing a garden, knot tying, semaphore
signalling are taught in interesting
ways. The leaders are looking to the
parents again for their fullest coop-
eration in whatever way possible.

"A Brownie gives in to older people;
a Brownie DOES NOT give in to her
self."

Member Honoured by W. A.

Mrs. J. A. Naylor, who has been a
worker in the group for many years,
was honoured at a farewell party at
the fall rally meeting of the Woman's
Association of Essex United Church,
held in the parsonage. Mrs. Naylor
is leaving Essex shortly.

Mrs. J. W. Trien read the present-
ation address and Mrs. Hugh McDon-
ald, on behalf of the W. A., gave Mrs.
Naylor a silk umbrella.

Announcement was made of the
"home-coming" service Sunday, Oc-
tober 19th, and plans were completed
for the anniversary supper to be held
on the following Tuesday.

A devotional period was conducted
by Mrs. George Kendrick and Miss
Maxine Price played two piano selec-
tions.

The treasurer reported \$519.69 in

Ball-Howe Nuptials.

In a lovely red and white setting of
fall flowers, at Grace United Church,
Essex, Rev. R. H. Parr united in mar-
riage Miss Laura Ellen Howe, daugh-
ter of Mr. and Mrs. William Howe,
of Essex, to William Urban Ball, only
son of Mr. and Mrs. William Ball, of
Howard avenue, Windsor.

The bride, entering the church on
the arm of her father, was convey-
ed in cloud white slipper satin, the fitted
bodice, having a round drop-shoulder
neckline framed with two rows of shir-
red satin, forming points over her
wrists. The very full poplin tapered
into a full skirt featuring a cathedral
train. Her fingertip veil was held
in a braided satin halo, and she car-
ried a bouquet of red roses and white chrys-
anthemums showered with streamers.
Her only ornament was a three-strand
of pearls, a gift from the groom.

Miss Patricia Jean Howe, as her sis-
ter's maid-of-honour, was gown-
ed in fuchsia taffeta, the rounded drop shoul-
der neckline ending in a double puffed
Bertha collar. A parachute poplin
emphasized the very full skirt and
she wore fuchsia taffeta mitts. Her
headdress of matching taffeta was ar-
ranged in flower-like petals and caught
with tiny combs, and she carried blue
tinted chrysanthemums with accents of
white.

Miss Dorothy Alexander, of Wind-
sor, and Miss Louise Smith, of Essex,
as bridesmaids, were gown-
ed identically to the maid-of-honour, the form-
er in silver grey and the latter in royal
blue taffeta. They carried cascade
bouquets of white chrysanthemums and
pink gladioli.

James McKinnon, of Detroit, cousin
of the bridegroom, was best man and
the ushers were Kenneth Linton and
Allan Belinger, of Windsor.

Miss Amy Atfield, gown-
ed in mauve
taffeta, wearing a corsage of pink
mums, sang "I'll Walk Beside You,"
"At Dawning" and "Because." Miss
Marjorie Allen played the wedding mu-
sic.

A reception followed at the Poplar
Inn, Cottam, where the bride's table
was centred with a three-tiered wed-
ding cake in a red and white floral
setting, flanked by burning tapers.

Mrs. Howe wore for her daughter's
wedding a moss green gabardine suit,
with Burgundy accessories and white
chrysanthemums. Mrs. Ball, mother
of the bridegroom, wore a grey dress-
maker suit with black accessories
and yellow chrysanthemums.

Later, Mr. and Mrs. Ball left on a
trip East, the bride travelling in a
mink brown dressmaker suit, with vic-
tory green accessories, and wore a
corsage of yellow roses. Upon their re-
turn they will reside on Moy avenue,
Windsor.

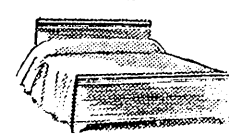

arm only wanted to give service, they
already had over doubled the of the
the local system since the 19th east
war, and now had 38 busses through town
every 24 hours.

It was finally decided to call a spe-
cial meeting of Council for next
Tuesday, at 7.30, when Mr. Petoskey
would again be present.

FRIDAY, OCTOBER 10, 1947.

Now is the Time to Clean Up Gardens.

At this season of the year many insects are looking around for suitable spots in which to spend the winter. Practically every garden offers many opportunities for the insects to hibernate. Garden plots should be made as uninteresting to hibernating insects as possible.

Many of the most injurious species of insects pass the winter adhering to the plants on which they were feeding when cold weather overtook them. Others crawl beneath piles of plant refuse and hibernate at the base or in the centre of the piles. A few work their way down into the layer of dead organic matter. All such may be looked upon as a definite menace, because a large proportion of the insects will survive the winter to attack growing plants the following spring.

Therefore, every effort should be made to discourage insects from hibernating in and around the garden. This can be done in a number of ways. All standing crop remnants should be pulled and burned. Crop refuse lying on the ground should be raked up and destroyed. It is advisable, also, to burn over waste land surrounding the garden, and headlands in particular, to kill any eggs or hibernating insects.

It is sound practice to collect and burn all insect egg masses or cocoons. These are frequently found on shrubs and low trees, on fences, or garden furniture or even deposited on houses and outbuildings. Cleaning these up in the autumn will prevent them causing trouble next spring.

Where possible, plough or dig up the garden in the fall, so as to expose many of the insects in the soil to be killed by the severe cold in the winter.

Foreign Contracts Stall Beet Growers.

Study of the sugar situation in Canada is made difficult by the fact that there is insufficient information on details of the government's policy in acquiring raw cane sugar for the Canadian consumer. It is known, of course, that the U. K. and Canadian governments have worked together in the acquisition of a raw cane sugar. What is not known is Canada's share of the commitments through purchase of the 1948 San Domingo crop (450,000 tons) and purchase of 215,000 tons of 1948 Cuban sugar, both at \$5.00 f.o.b. the islands. The quantities and prices for Empire sugars coming to Canada from the 1948 crops have not been given out.

The Canadian sugar beet industry, including the farmer growers, is seriously concerned with the average laid-down cost in Canada of raw cane sugar imported from Empire and other sources. The Beet Growers' Association has been contending that the beet sugar returns should be restored to the long-time pre-control parity with refined cane sugar. This parity is based on the average laid-down cost of raws, plus statutory duty and refiners' spread.

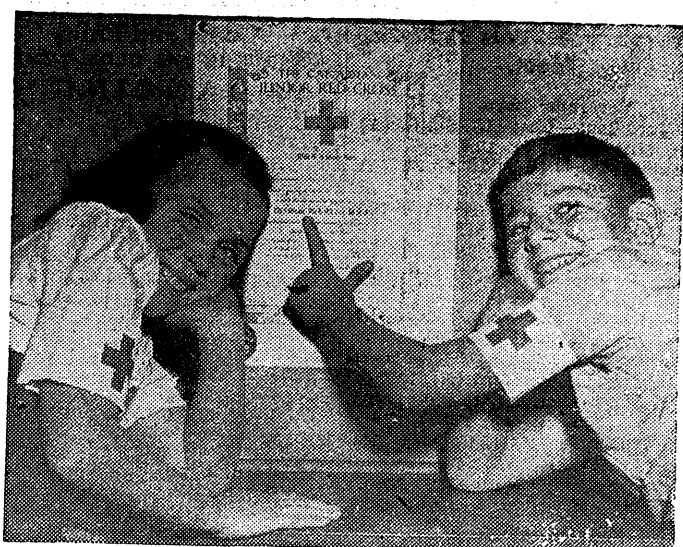

Growers who should be planning now for next year's beet crop, are at present unable to decide what they will do.

The 1947 Ontario Crop is about 18,000 acres, which is half what was hoped for last January. Adverse weather conditions accounted for considerable decline from the contracted acreage last spring, but it is believed that the government's insistence on a price lower than the true parity with refined cane sugar was the chief reason for decrease in the beet acreage.

Tecumseh is Defeated 7-5.

Playing before one of the largest crowds in Belle River's history, the locals captured the championship of the Essex County Baseball League Sunday afternoon, when it edged Tecumseh Indians 7 to 5, to capture the best-of-three final series in two straight games.

Victors Outthit.
Joe Penner pitched for Belle River, while the Indians shoved Gerry Gouin and Lucien Baillargeon to the mound in an attempt to even the series. The winners were outthit, 13-11, and trailed most of the way until the seventh inning, when they scored four runs to tuck the issue away.

Belle River opened the scoring in the third inning, when H. Durocher singled to center and went to third when Savoie let the ball get past him for an error. Penner singled to short left center, scoring Durocher. Tecumseh forged into the lead with three runs to open the fourth inning on hits by Lappan, Robinet, Beausoliel, Renaud, and Seguin.

Two in Fifth.
Belle River tied the score in the sixth inning with a pair of runs. Cascadden beat out a slow roller down the third base line for a single. He was sacrificed to second by C. Durocher. Cecile hit an easy grounder to first, permitting Cascadden to score, and Cecile to take second. Cecile raced to third when Chaput grounded out to short. With the count two strikes and one ball on Rose, Cecile stole home when Gouin forgot himself and used a full windup on the fourth pitch.

Six hits and an error won the game in the seventh, producing four runs. Parent singled to left and stole second. H. Durocher doubled to left center, scoring Parent. Penner hit to Tecumseh second baseman T. Cecile and all runners were safe when he hesitated before throwing to first. Trudell also hit to C. Cecile and the bases became loaded when he again threw to first too late to get the runner after taking too much time in deciding whether to throw to first or not.

Single Scores Two.
Cascadden singled to center, scoring H. Durocher and Penner. Trudell was thrown out trying for third base on the play. Savoie to Beausoliel, with Cascadden taking second. He went to third on a wild pitch and scored when Baillargeon, Gouin's relief pitcher, dropped Cecile's easy pop-fly. Tecumseh scored one run in the eighth and ninth innings, but couldn't pull the game out of the fire.

Woodslee Defeats Roseland.

Bebe Dunn again came through with a fine pitching chore. He allowed ten hits, walked one, and struck out 11. M. Jessop relieved S. Jessop in the fifth inning, and from there on didn't allow a run to score. Both teams played fine ball, each team having but one error.

Fourth was the hitting star for Woodslee with three out of four. Loebach had a double and a single. For the losers M. Jessop, with 3 out of 4, and L. Soullier and Mush Jessop with two each were best for Roseland.

The next game will be played at Woodslee, on Sunday next, game starting at 2:30 p.m.

Ploughing Match.

The 21st International Ploughing Match and Farm Machinery Demonstration under the auspices of the Ontario Plowmen's Association, will be held this year from October 14th to 17th, at Heylock Park Farms, located five and a half miles northeast of Kingston. The site of this big event is in a section of Frontenac county. Apart from the main events, the ploughing matches, the horse shows, and horse shoeing competitions—the machinery demonstration is a full-time exhibition in itself, showing as it does the latest and most improved types of farm machinery and equipment, including labour-saving devices in the home.

The Law to Know.

A young man working on a hillside looked out over a lake and saw trees and houses apparently floating in the sky. He stopped his work for a few moments and gazed at the strange sight. He did not accept the appearance as real for two reasons: he knew that it was impossible for trees and houses to be in that position because it would be an infraction of natural law; and he understood the natural processes which caused the illusion.

Since becoming a student of Christ's Science he has applied much the same reasoning when confronted with disease and discord. Christian Science teaches that God is infinite divine Mind, Life, Truth, and Love. Because God is All-in-all, His law must be the only law, and there can be no infraction of His law. Sin, disease, and death are devoid of reality, because they are contrary to God's law.

In Science and Health with Key to the Scriptures, Mary Baker Eddy writes (p. 411): "Disease is always induced by a false sense mentally on-

tertained, not destroyed. Disease is an image of thought externalized. The mental state is called a material state. Whatever is cherished in immortal mind as the physical condition is imaged forth on the body." To cherish anything means to foster it, to nourish it. We nourish the false beliefs of imperfection when we cherish thoughts of fear, anger, jealousy, lust, or hate. Instead of fostering error and cherishing its beliefs, we should cast them out through the power of Christ, Truth.

How the law of God casts out erroneous beliefs and fear is illustrated in the healing of the nobleman's son by Christ Jesus, as related in the fourth chapter of John. The nobleman asked Jesus to come and heal his son, who was at the point of death. Instead of going home with him, Jesus said to him compassionately, "Go thy way, thy son liveth." As the man returned homeward his servants came to meet him and told him, "Thy son liveth."—Christian Science Monitor.

GOOD CITIZENSHIP is a lot of little things

A TIME FOR THANKSGIVING

Thanksgiving is a brief pause in our busy lives which provides an opportunity to take stock of our good fortune! Family—friends—good health... these are among the many blessings for which we should be grateful. We can be thankful, too, that as Canadians, we share more privileges and greater opportunities than the people of any other country in the world. To think of these things, to realize their importance in our individual lives, to appreciate them—these are essentials of "Good Citizenship".

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

—The W. A. of Essex United Church met at the parsonage for their fall rally, on Wednesday, October 1st, with Mrs. Shipway, president, and Mrs. J. R. Linton, vice-president, in charge. The devotional period was conducted by Mrs. Bertha Kendrick. Roll call of groups showed that there was thirty-five present. A committee was appointed to plan the shipping of a box to England, which will contain food and clothing. The president called for a meeting of the executive, to be held in the church vestry the following Tuesday. Plans for a Sunday afternoon hour, on anniversary Sunday, was discussed, also the Teachers' Convention dinner Mrs. J. A. Naylor, second vice-president, who is leaving town in the near future, was presented with an umbrella as a gift of remembrance.

Rev. H. Parr, closed the meeting with prayer and refreshments were served by several of the members.

Ferguson-Parker Nuptials.

In a setting of dahlias and gladioli, a lovely double-ring ceremony was solemnized at the Essex Baptist Church, when Margaret Jane Parker became the bride of Dean C. Ferguson, son of Mr. and Mrs. Hugh Ferguson, of Cottam. Rev. F. V. Wakeling, of Essex, and Rev. Earl Linderholm, of Harrow, officiated.
The bride, given in marriage by her father, wore a gown of white slipper satin, styled with a sweetheart neckline, and the full skirt extending in a long train. The fitted sleeves formed points over the wrists. Her fingertip veil was held in a halo of satin and lace, and she carried red roses.
Miss Kathryn Reid, of Windsor, cousin of the bride, as maid of honour, wore a blue taffeta gown styled with a fitted bodice and short puffed sleeves, she wore tiny blue plumes in her hair and blue mitts and carried a bouquet of gladioli.

Mrs. Murray Ferguson and Miss Ruth Ferguson, bridesmaids, were gownned alike. The former in dusty rose taffeta, each one wearing plumes and mitts to match their gowns and carried bouquets of gladioli.
Little Sharon Ulich, cousin of the bride, as flower girl, was gownned in white taffeta and carried a tiny basket of roses.
Herbert Ferguson, brother of the groom, was best man, and the ushers were Murray Ferguson and Paul Palenkas.

During the ceremony Murray Kennedy sang "At Dawning" and "I Love You Truly." The wedding music was played by Mrs. Harold Ulich, aunt of the bride.

A reception for 100 guests was held at the parish hall, where the bride's table was centred with a three-tiered cake set in white tulle and white and pink baby mums, and flanked by white tapers.

Seven of the bride's friends, gownned in pastel colors, served the guests.
Mrs. Parker, mother of the bride, wore a grey crepe dress and wine accessories, and a corsage of wine mums. Mrs. Ferguson, mother of the groom, wore a brown and white crepe dress, brown accessories and corsage of yellow mums.

Later, Mr. and Mrs. Ferguson left on a honeymoon trip to Toronto and Northern Ontario, the bride travelling in a grey wool gaberdine suit and black accessories, and a fox fur, the gift of the groom. On their return they will take up residence on the groom's farm.

Circle No. 1 of the North Ridge W. A. will hold a rummage sale on October 18th, at the Public Library, Essex.

Home Insulation Aids Indoor Comfort.

It is well known that the home is a place where comfort and convenience are essential. One of the most important factors in achieving this is the insulation of the home. Proper insulation helps to keep the heat in during the winter and the cool air in during the summer, thus saving money on heating and cooling bills. It also helps to reduce noise and drafts, making the home more comfortable and healthy.

Home insulation is a simple and effective way to improve your home's energy efficiency. It can be done in many ways, including adding insulation to the walls, ceiling, and floor, and sealing air leaks. The result is a more comfortable and cost-effective home.

For more information on home insulation, contact S. L. Kennedy at Phone 135, Essex.

Life's Milky Way.

The "Milky Way" isn't all in the sky, say the nutritionists. In fact, the milky way of life is the way of good health. It's the way, too, of beauty, of white teeth, bright eyes, straight figures and lovely skins. Milk contains calcium, and is, in fact, the best all-round source of this essential ingredient. So, say the experts, adults should drink from half a pint to a full pint of milk daily, and children should have between a pint and a quart of milk each day.

Storage on Winter Vegetables.

Farmers and others who have vegetables for household use in the winter, and have suitable storage space in the cellar, should check on their storage facilities to see that everything is in order. There is no secret to the proper winter storage of vegetables, says C. E. Ste. Marie, Dominion Experimental Station, L'Assomption, Que., all that is required is plain common sense and the observance of a few simple rules.

Storage space must be adequate, with proper ventilation, and fairly high humidity. If these conditions are lacking, or are faulty, they should be corrected before storing is begun. "Whether the vegetables to be stored are bought or are home grown, only products of good quality are worth storing — those that are sufficiently matured, free from insect or other injuries and diseases.

As a general rule vegetables will keep better and for a longer period if stored in slatted crates or slatted bins to provide ventilation. Losses will be reduced considerably if moisture can be kept at a rather high level, particularly for potatoes, beets and carrots. The walls and ceiling of the root cellar should be well insulated to prevent fluctuating temperatures and loss of moisture. If these requirements are not met much of the produce will be lost.

Vegetables which are to be stored over winter should not be brought directly from the fields into the storage. The sorting and grading and also the cooling, should be done before storage so that the temperature in the root cellar will not be changed seriously. The nearest Experimental Station will gladly give any information concerning the storing of vegetables.

Belle River Tops Indians. 2-0.

(Crowded out last issue)

Belle River scored the best of three series for the championship of the Essex County Baseball League Sunday afternoon, by blanking Tecumseh Indians 2-0 before a large crowd, at Tecumseh.

The second game of the series will be played in Belle River next Sunday. Veteran Joe Penner bested youthful Rolfe Gouin in a pitcher's battle. Penner struck out six men, walked one and gave up six hits. He allowed only one man to pass second base. That came in the fifth, when Harold Jackson doubled down the right field line with two men out. "Tick" Cecil, then singled to center. Jackson was thrown out at the plate, trying to score. Durocher, centre-fielder, threw to Penner, who relayed the ball to Catcher Cecil.

Gouin gave up eight hits, struck out six and walked two. Belle River scored one run in the second inning, when Benny Cecil led off with a single to left, and took second when Renaud fumbled. Chaput struck out; Rose tied to out; Hargreaves hit to short and when the throw to first was high, Cecil scored and Hargreaves took second; Buck Durocher singled to center, but Hargreaves was out at the plate; Renaud to Gouin to lap out.

In the eighth, a single to center by Parent, a base on balls to Cecil, Chaput's fielder's choice, and a single to right by Rose scored Belle River's final run.

In the fifth, Belle River loaded the bases with none out but couldn't score. Trudell lined into a double-play, Gerry Cecil to Beausoliel, Cascaden then popped up to pull Gouin out of a bad hole.

FRIDAY, OCTOBER 10, 1947.

For late summer wear is this smart back suit that features a long torso with deep hip pockets; collars and cuffs are detachable. The timely styling of the skirt has three gored pleats at back and deep centre pleat at front. The fabric is a light durable pre-tested rayon crepe that is hand washable. Sizes 12 to 20.

My Sore Back.

My back was awful sore, so I went to a chiropractor. Don't know what he used on me, but he must have used a tractor. When sent me to be X-rayed, to see if I had a fracture.

Then he gave me an adjustment to straighten out my spine, think he tied a knot in this poor back of mine. He said in a month or so I would be feeling fine.

He said I was in bad shape, and some twisted vertebrae, they must be crooked now. For he twisted me forty ways, said I should come back again after I rested a couple of days.

He threw me on the table, and I was an old wet sack, he laid me on my stomach, then flopped me on my back; he pulled and twisted me till my bones began to crack.

He then told me to stand up, though I didn't think I could. Last I got up and walked though I thought I never would. After walking around a while, really felt pretty good.

—Ed Byrne.

Pte. Canuck imbibed no fewer than forty million cups of coffee at The Salvation Army Red Shield Canteens. Add beverages consumed at teas in leave centres, etc., and the total goes up to 65 million cups — about four million gallons of beverages. This quantity, suddenly dumped into one of the Great Lakes, would cause disastrous floods at many points.

THE ESSEX FREE PRESS, ESSEX, ONTARIO. NEW ILLUSTRATED VACATION MAP.

An illustrated vacation map of Southwestern Ontario has been prepared by the British American Brewing Company of Windsor, for next summer.
The map illustrates the main points of historical interest, the fish and game areas and resort sections. Also indicated are the main highways, rivers and lakes, ferries and international bridges. They are available at Tourist and Convention Bureaus, Travel Information Desks, Restaurant Service Stations and Chambers of Commerce.

Fall Renovation of Lawns.

There is still time to do a considerable amount of work to improve the appearance of poor lawns, says J. H. Boyce, Division of Forage Plants, Central Experimental Farm, Ottawa.
The best time, however, for seeding lawns in Eastern Ontario is during the last two weeks in August and the first two weeks in September. There is good chance of success from seedings made between September 15th and October 1st. Plantings made later than October 1st rarely succeed.
Fertilization, which is one of the most important operations in lawn establishment and maintenance may be done at any time during September, the earlier the better. Top dressing with rich topsoil or compost can also be done to good advantage during this period.
Spraying with 2-4-D to eliminate broad leaved lawn weeds may be continued as long as the weather is warm and the weeds are making active growth. Best results may be expected if the spraying is done during periods of bright sunshine.
Circulars on the construction and care of lawns may be secured from the Division of Forage Plants, Central Experimental Farm, Ottawa.

Personal War.

By Joseph Lister Rutledge.
"It is a good thing that war is so terrible or we might come to love it too much." So said General Robert E. Lee as he watched the tragic and useless gallantry of General Burnside's attack at Fredericksburg. They are words that bear remembering. The terrible toll of war is distant and too easily forgotten; its superficial benefits are immediate. Our minds can reject the one and remember the other. And we can speak of the "next war" as if it were something that we might contemplate without horror and loathing.
Looking back on the war years we remember their full and easy employment, their fat pay envelopes, their crying demand for workers that permitted whole families to troop into factories. So the home budget grew swollen beyond imagination. Prices didn't matter, for money was plentiful. Jobs didn't matter, they were plentiful, too. Now, when the bounty has gone out of many things it is tragically easy to say: "What we need is another war."
It is not easy to visualize fifteen billion dollars of added debt, or to estimate the work loss of the hundreds of thousands who as soldiers or civilians devoted all their energies to the tasks of war. It is not easy to determine the enormous waste and political destructiveness of bureaucratic direction. It is not easy to establish the total dollar cost of the sudden conversion and expansion of industry to meet the imperative demands of war, or the still greater loss when all this was discarded, and industry had to be reconverted and equipped for peace. It is not easy to estimate the economic costs or the social implications of new demands by which men hope to save themselves from facing the economic results of war. It is not easy because there is no stop-loss order on these costs. They range on into the yet undreamed future.
There are people who have paid so great a price in personal bereavement, or in the personal handicap of their maimed bodies that they cannot readily forget. But for most of us the times were not too tough. War was a passing fancy that we might easily come to love, because for us the benefits were seen and the costs were hidden and impersonal.
What does fifteen billion dollars mean to us? To most of us even millions mean less than nothing. We have to get it down to costs of daily spending. Very well, then this is the cost, as part of the cost, not for the relatively few who suffered the most, but for all of us. Fifteen billion dollars saved could have provided every single family in Canada with these minimum benefits: a \$7,000 home, a \$1,700 car and \$500 in the bank for an emergency. Forgetting its terrible as, and all the long years of suffering and misery and heartache, and thinking only of material things, how many Canadians got this much out of the war?
To talk of another war is unthinkable. But it is well to remember that the lowest possible terms, it was your house, your car, your bank account that were at stake in this war. Should the next war ever come the cost of it will be as vastly greater as was the cost of this war compared to the cost of the first great war, and those who must pay them, then and always are you and me.
To have what we want is riches, but to be able to do without is power.—George MacDonald.

Doctor's Fees.

Fees charged by Canadian doctors are fair, in the opinion of the majority of Financial Post readers answering a questionnaire on the subject. Most approved the principle of adjusting charges according to the patient's financial means; and voiced the view that the average doctor might be entitled to a higher return, in view of the cost of his education, and of the responsibility of the service he renders to the community. Some suggested that wider health insurance might help to scale down general medical costs.

THE WEED OF THE WEEK.

COMMON RAGWEED.

Common ragweed is an annual weed which depends entirely on its seed, which is produced abundantly, for survival from year to year. This weed has two kinds of flowers on two quite separate portions of the plant. The stamens which contain the pollen are found along the spike topping the plant and its branches. The other kind which produce the seed are fewer in number and may be found in the axils of the leaves lower down on the plant.

It has been estimated that twenty percent of all hay fever cases are caused by Common Ragweed and its allies. Pollen grains are produced abundantly from August to frost and being light in weight, the slightest breeze pollutes the atmosphere, making it an easy matter to inhale the offending particles, much to the discomfort of hay fever sufferers.

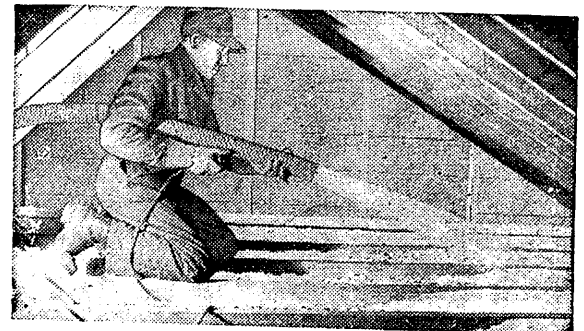

An average plant may produce 5,000 seeds. These have great vitality and will remain in the soil for several years without injury. It can thus be seen that the prevention of seed production is of vital importance if this menace to health is going to be removed.

When growing in areas which can be cultivated, hand pulling, mowing to prevent seeding and after harvest cultivation are recommended as control measures. When growing in areas which cannot be cultivated, hand pulling, hand mowing and the use of chemical weed killers are recommended. This method of control is practical, effective and cheap. Spray as directed in Extension Circular No. 755 "Chemical Weed Control," obtainable from Agricultural Representatives, County Weed Inspectors, or the Crops, Seeds and Weeds Branch, Parliament Buildings, Toronto.

Ragweed is a noxious weed under The Weed Control Act. The legislation states that it must be destroyed before seeds mature. Due to the fact that the pollen may be carried long distances by the wind, it is of vital importance that everyone co-operate in cleaning up.

ELECTRICITY

Maintains Employment...

Keeps Pay Envelopes Full

PLEASE DON'T WASTE IT!

Electric power is vital to industry, and Ontario is experiencing an era of high production, unparalleled in its history. Contrary to expectations, the demand for electric power did not drop sharply following the war. More electric power is actually being used today for production of peacetime goods than was required at any time to forge weapons for Victory. This demand is constantly increasing and, during the next six months, Hydro facilities will be strained to the utmost.

New Hydro developments, planned to keep pace with Ontario's growth, were halted during the war years. They have since been hampered by shortages of men, materials and equipment. However many new stations to deliver electric power are being rushed to completion. Some are already in operation. But the need for saving electric power in your own home, during the Fall and Winter months, is urgent if the needs of Industry and Agriculture are to be fully served and employment maintained at peak levels.

Won't you please play your part? Remember—even a little bit of electricity, conserved by hundreds of thousands, helps a lot. It's your Hydro. Use it wisely so that Hydro facilities can more adequately meet the demands of all consumers.

Save ELECTRICITY

Turn off all unnecessary lights. Don't forget about burning lights in empty rooms, halls, basement, attic, porch and garage. Eliminate all colored bulbs.
Keep lamps, reflectors and shades clean. Dusty fixtures waste as much as 25% of your light.
When kettle sings, turn off switch. Stored heat will bring it to a full boil. Keep kettle free from lime.
When cooking, use "High" heat for as little time as possible. Then turn to "Low" and use stored heat.
Use oven for cooking complete meals, rather than the cooking surface. Only one element is required for the oven process while three or four elements are needed for the cooking surface.
Use the correct size of cooking utensil on the proper size element.
When cooking vegetables, use a minimum amount of water.
Defrost refrigerator regularly, when 1/2 inch of frost has accumulated on the evaporator.
Where water is electrically heated, please use it sparingly. A drop a second from a leaking hot water tap can waste as much as 175 gallons a month.
Fill washing machine to water line only and keep lid on tub when washing. Do not overfill.
Wherever possible, use the wringer at same time as clothes are being washed in the tub.
Please do not use portable electric heaters as they place a heavy strain on your Hydro System.
Your toaster, iron, dryer, etc., should not be used any longer than required.

Mrs. Galipeau Sr., Passes.

Mrs. Angel Galipeau, relict of the late Egile Galipeau, passed away at her late residence, McGregor on Tuesday, following a lengthy illness.

Surviving are five daughters, Mrs. Adele Colombe, of McGregor; Clara (Mrs. Arsene Tousignant), Bernadette (Mrs. Denis Girard), Hedwidge (Mrs. Fred Girard), of McGregor; Alice (Mrs. Alderic Tousignant) of Windsor; four sons, Eusebe, Leo, Oliver, McGregor; Wilfred, of North Ridge; also a sister, Mrs. Minnie Lesperance, of Windsor; and a brother, Edmond Drouillard. Forty-six grandchildren and 36 great-grandchildren also survive.

Funeral services will be held Saturday at 9 a.m., from her son Leo's home to St. Clement Church. Burial will be in the church cemetery.

Hurt in Auto Accident.

Miss Mary Ashton, daughter of Mr. and Mrs. A. J. Ashton, of town, suffered severe facial lacerations and bruises, on Saturday evening, when the car in which she was a passenger, driven by a friend, Erie Woltz, son of Mr. and Mrs. W. Woltz, of Woodilee, was in collision with a Windsor car, at the intersection of Walker Road and Highway 98. Erie also received several cuts and bruises. Both cars were badly damaged.

R. A. Pierce Laid to Rest.

Impressive funeral services for the late Inspector R. A. Pierce, at 8 p.m. Thursday, in the Essex United Church, were attended by a capacity crowd of fellow inspectors from Essex and Kent, teachers from all parts of Essex County, associates from the Masonic Order, the Rotary and Klansmen Service clubs, and friends.

Beautiful floral offerings paid their silent tribute to a personality which had, in two short years, contributed so much to the welfare of Essex County youth, and in no less a degree expressed the sympathy to Mrs. Pierce who was so suddenly bereaved.

The service was conducted by his minister, Rev. R. H. Parr, who was assisted by Rev. J. H. Whealen. Murray Kennedy sang "Rock of Ages," while the choir led in the hymns. The bearers were W. J. McCordie, W. J. Brundage, J. R. Linton, A. Burrell, C. A. Simpson, and Alger Naylor.

Among relatives from a distance were a brother, William Pierce, of Stratford, and two of Mrs. Pierce's brothers, Dr. J. A. McDonald and wife, of Ripley, and Mr. and Mrs. Murdoch McDonald, of Toronto.

On Friday the body was taken to the McDonald home, near Ripley, where the last rites were conducted at 2 p.m. on Saturday, by Rev. R. H. Parr. A large crowd of neighbours and educationalists filling the lawn, heard the service over a public address system. The Department of Education was represented by C. R. Cannon, superintendent of Elementary Education; R. J. Routhy, Chief Inspector of Western Ontario, and G. L. Duffin, of the Department. Many inspectors from Western Ontario were present and all principals of East York, with one exception, were in attendance.

Among those who were present from Essex County were Mr. and Mrs. J. R. Linton, Mr. and Mrs. Geo. Weller, Mr. and Mrs. W. J. Brundage, Mr. and Mrs. Sid Liddle, and J. A. Dowsell.

The many beautiful wreaths, the comforting messages, and the large concourse of friends attending the obsequies at Essex and Ripley, constitute a testimonial to the appreciation of a most worthy citizen.

Shuttleworth-MacKenzie Nuptials.

At a lovely ceremony, at Bethel United Church, Miss Marian MacKenzie, daughter of Mr. and Mrs. Nelson MacKenzie, became the bride of Arthur Shuttleworth, son of Mrs. Edna Shuttleworth and the late Mr. Shuttleworth. Rev. Norman Pick officiated.

The bride, given in marriage by her father, was lovely in her dress of white chiffon velvet, made on simple lines, and her finger-tip veil was of embroidered silk net with a halo, headpiece, and she carried American Beauty roses and baby mums.

Her sister, Miss Helen MacKenzie, as maid of honour, and Miss Margaret MacLaughlin, as bridesmaid, wore gowns made of same lines, of gold, mauve and blue respectively, featuring low necklines and bustle back effects. They carried roses and baby mums in matching colours. Robert Shuttleworth, uncle of the groom, sang "O Promise Me" and "At Dawning."

The bride's mother chose for her daughter's wedding, fuchsia silk velvet in draped effect with black accessories and corsage of roses and mums, and the groom's mother chose grey crepe on fitted lines and wore black accessories and corsage of pink roses and mums. A reception followed at the bride's home for over 100 guests.

The bride chose for travelling a wool dress of royal blue with high neckline and bustle effect back, and her accessories were black, with a corsage of white gardenias and mums.

Mr. and Mrs. Shuttleworth left for Niagara Falls and Buffalo, and will reside in Sandwich South on their return.

Essex Town Council.

Tuesday, October 14th. Council met in special session in the Council Chamber at 8 p.m. with Mayor J. C. Linton, Reeve F. Irwin and Councillors Chase, Shaw, Francotte and Maedel present, as well as Mr. Petoskey, of the Canadian Greyhound Lines and several business men.

The Mayor stated the meeting had been called to again consider parking restrictions on Talbot street, to allow Greyhound busses to load and unload passengers.

J. W. Elsiey, the first to be asked his opinion, stated he was not in favour of restricting parking in front of his store, but would like to hear the matter discussed.

B. Simon, whose store is next to the restaurant, where ticket office is temporarily situated, spoke in favour of a 40 ft. restricted area, which would take the space in front of restaurant and his place. He stated that the busses have been stopping at the worst corner in town for the past 15 years and, in his opinion, now proposed stopping in the best place possible in the business section and that is where the ticket office should be. Passengers coming into town to shop didn't want to be let out two or three blocks from the stores where they wished to deal.

Cecil Parker, speaking as landlord for Murray Kennedy, stated that should the Greyhound Lines decide to appoint Mr. Kennedy as their agent in town, and stop at his place on Fox street, he would renounce Mr. Kennedy's side of the building, making it into a modern waiting room.

Mr. Elsiey reported to Council that S. L. Kennedy had asked him to voice his disapproval of parking restrictions on Talbot east of Center street, due to inconvenience caused when he was conducting a funeral from his chapel.

Archie Loucks spoke of asking a bus driver to move up and not block the driveway to his station, but the driver refused.

Ted Richardson, for R. S. Malott, spoke against restricting parking in front of their store.

The Mayor asked each Councillor for his opinion.

Francotte spoke very strongly against parking restrictions in the business section. Messrs. Shaw, Chase and Maedel were also opposed, while Reeve Irwin again spoke in favour of the present site, with parking restrictions for westbound in front of restaurant and B. Simon's store, and eastbound could nose in at curb in front of Talbot street.

Mr. Petoskey stated they wanted to give their customers good service but would have to abide by Council's ruling, however, as he had stated at previous meeting they would not go off Talbot.

The Mayor asked Chief N. Hogarth if he would like to express his opinion. The Chief stated he had given much serious thought, from the traffic hazard and side only, and had even taken it upon himself to see Mr. Belesky to see if he would consider taking over the Greyhound Agency in town, but later had said he was too busy with his own shoe repair business. It was a case of the lesser of two evils. If office was placed on Fox street, the left turn from Talbot street onto Wilson would be very dangerous. He had spoken to both Mr. Stotts and Dr. Benson and they were very much opposed to making Wilson avenue a "No Parking" zone from Talbot street to Fox street.

Mr. Linton said he thought present location no better than before and that if Council and Greyhound people couldn't come to an agreement he was in favour of leaving matter to Department of Highway officials.

On being asked how they would pick up westbound passengers on 7.30 bus which turns at Gordon and delivers mail to post office, Mr. Petoskey stated they would have to load on Wilson at Aberdeen corner.

Mr. Buchanan, the newly-appointed agent, advised Council that business had not been too brisk since he came to town and when approached by Mr. Petoskey, for Greyhound, he had thought it over and decided it would fit in fine with his business. He had plenty of room and always considered a bus stop brought business. He would open at 6 a.m. when weather gets rough and remain open for the 1 a.m. bus. He personally had spoken to a lot of local Townspeople and had not had one of them opposed to present location in his restaurant.

After further lengthy discussion Mr. Francotte moved the following motion: "That the busses of Greyhound Bus Lines be restricted from loading or unloading passengers from the M. C. R. tracks easterly to building now occupied by S. L. Kennedy as a furniture store." Mr. Shaw seconded the motion.

Mr. Irwin moved in amendment that Council concur in ticket office being in present location and approve of restricted areas for parking busses only.

There was no seconder for the amendment. The motion was put with the following vote: Yeas—Francotte, Shaw, Chase, Maedel, Mayor Linton. Nays—Irvine. Council adjourned.

John W. Field Passes

John W. Field, of town, passed away at Hotel Dieu, Windsor, early Saturday morning of last week, aged 72 years. He had been ailing for some time past. Born in Kent County, he was the son of the late John and Mary Field and had resided in Essex County most of his life.

He leaves to mourn his loss three brothers, Dan, of Montana; Charles, of Kingsville, and Thomas, of Essex.

Funeral services were held at the S. L. Kennedy Funeral Chapel at 2 p.m., on Monday, with Rev. J. H. Whealen officiating and interment taking place in North Ridge cemetery. The pallbearers were John Kennedy, Hunter Harrow, Joseph Wolfe, John Scalfie, William Edgington and Albert Gulliver.

Archie Millen Killed by Train.

Archibald M. Millen, postmaster at Woodilee, was killed instantly, about 5.30 Saturday evening, when the car he was driving, was struck by the Wolverine, a New York Central passenger train, at the Woodilee railway crossing. He was alone in the car, a 1934 sedan. In the crash he was thrown out of his car and the vehicle itself was wrecked.

Provincial Constables Harold Yule and James Denver, Essex detachment, investigated.

The Millen home is next to the railway tracks. He came out of the house, got in his car to get some chicken feed at the Ruston Chop Mill, and started to drive across the tracks, which is quite an incline from his driveway. The two eyewitnesses state the wig-wag signal was going when deceased started to drive his car across the tracks.

Mr. Millen, who was born in Elgin County, June 5th, 1877, and farmed until moving into the village 31 years ago, is survived by his wife and two daughters, Mrs. V. Finner, of Ruscumb, and Mrs. William Henderson, of Woodilee; two brothers, Robert, of Temaneh, Neb., and Dr. S. F. Millen, well-known physician, of Woodilee. Funeral services were held on Tuesday afternoon, at Woodilee United Church, Rev. D. Cavers officiating, and burial was in Cottam cemetery.

Mrs. Dennis Donovan Dies.

Mrs. Theresa Donovan, 77 years old, wife of Dennis Donovan, of Windsor, passed away at her home in Windsor, on Thanksgiving Day.

Deceased was the daughter of the late Mr. and Mrs. William Kane, was born in Maidstone Cross, and resided there until her husband retired about 25 years ago, when they sold their farm to Thomas Mulcaister and moved to Windsor. They celebrated their Golden Wedding Anniversary two years ago.

Deceased is survived, besides her husband by one daughter, Agnes (Mrs. Al. McPharlin), and three sons, Patrick, William and Leo, all of Windsor. A son Walter, predeceased her. A sister Agnes (Mrs. Edward Deehan), of Maidstone Cross, and a brother, Bernard Kane, of Detroit, also survive.

The funeral was held from the MacCotte Funeral Home, on Wyandott street, Windsor, to Sacred Heart church, and interment was in St. Mary's cemetery, Maidstone.

County Teachers Meet at Essex.

(Crowded out last week)

Greater interest in education is evident today than ever before, C. F. Cannon, superintendent of elementary education for Ontario, told 250 members of the Essex County Teachers' Institute at their annual banquet held in the Essex United Church Thursday night of last week.

Mr. Cannon reminded his audience that there is a greater school population in Ontario today than ever before, that more children and adults are seeking education and instruction and that the Ontario Department of Education's new grant system is working out to give equality of opportunity in education to rural schools and smaller centres.

Mr. Cannon recalled that 200 separate briefs were presented to the last Royal Commission on education and that 21 summer courses this year for teachers had a total enrolment of 3,464 teachers.

500 Have Transport.
He also pointed to the 500 secondary school transportation systems in operation in Ontario today to bring rural high school students to high schools, to the 484 township school areas which have been formed and the 500 low enrolment public schools which have been closed as a result.

Mr. Cannon said there is no simple job and that anyone thinking it so, is simple. "Teachers can't do the job which is to be done all alone and the parents can't do the job all by themselves," Mr. Cannon declared.

While a great improvement in physical things has been apparent during the last decade, the speaker continued, social harmony still remains the most desirable and most essential necessity of life in our modern age.

Must Wage War.

"The emphasis in education today is the express purpose of preparing children to live in a democratic society based on the principles of Christian idealism," Mr. Cannon asserted. "For this reason, teachers must continue to wage war on ignorance and intolerance."

In order to do this, Mr. Cannon believes teachers have a need for proper philosophy for their calling. They must have an objective interest in their profession rather than a personal interest and must be prepared to accept the consequences of their duties. Also they must be prepared to do something about the problems they encounter rather than do nothing about them.

Impressed With County.

Mr. Cannon, who was making his first official visit to this part of Ontario, said he had been greatly impressed with Essex County and complimented the teachers for their splendid work and the fact that they had gotten into the spirit of teaching.

Miss Audrey Kent of Windsor, Ontario, Public School Inspector, R. A. Poirer, Assistant Public School Inspector, W. J. McCordie, Mrs. Oliver R. Macdonald, J. A. Brown, principal of Essex Public School, and Rev. J. H. Whelan, rector of St. Paul's Anglican Church, also spoke briefly.

Simpson Speaks.

The afternoon session opened with an address by Institute President Donald L. Simpson, in which the members were reminded that only an enlightened and good will can hope to build a better Canada by being able to meet issues squarely and objectively.

"Education is essential to the realization of the seven freedoms—freedom of religion, freedom of speech, freedom from fear, freedom of want, freedom to choose one's calling, freedom for leisure and rest, and freedom," Mr. Simpson asserted. "The early settlers of Canada knew that education was an essential for a free people and their first civic undertaking was the building of schools."

"Education is probably the only compulsory obligation imposed on youth today. Why? Because it is recognized that there can be no freedom or liberty without knowledge," Mr. Simpson added.

More than "R's"

Pointing out that Canadians need more than the "three R's" of academic reality, Mr. Simpson reminded the assembled teachers that academic knowledge or an understanding of such virtues as kindness are not enough to make good citizens.

"Learning," Mr. Simpson continued, "must be applied to the everyday setting in which the student finds himself or herself. Kindness, in order to be effective, must be lived and practiced in everyday life."

"If the facts we teach in school do not meet the needs the child will encounter in adult life, some adjustment must be made, because a new deal is coming for the pupil of today. This is a quickly changing world and as teachers we must be prepared to train children to meet changes in life," he continued.

Individual Attention.
The individual pupil, Mr. Simpson declared, and not the class as a whole, must be the teacher's first concern, because the chief task of the teacher is the all-around development of the personality of the child.

Not only must children be equipped to live in an adult world of tomorrow but they must be given an interest in the finer things of life, such as art and music, Mr. Simpson maintained. "The mother who said that teaching Johnny to play the piano or blow a horn might keep him from learning how to blow a safe was dealing with

Moving and Storing to Cost More.

Canadians moving or storing their household goods would do well to add substantially to cost estimates made before last week, when the furniture moving and storage business was freed of federal price control.

In most of the larger cities, charges for local and intercity moving, packing and storage have been or are about to be increased 10% to 35%. The Financial Post learns in a Vancouver-Halifax eight-city survey.

Says Big Danger in More Wage Increases.

Canada is in for very serious trouble if prices continue to climb. Our only hope for averting disaster is if Canadians will exercise some discipline, stop forcing wages higher.

So Gilbert Jackson, consulting economist, told a press conference which he called recently.

Very real danger that Canada's standard of living will be permanently reduced because of the price situation here and international trade conditions exist, he said.

The third bout in the upward wage spiral which now appears to be starting in the United States, together with the explosion of a similar kind which apparently is being set off by the latest decontrol order in Canada, has grave implications for the Canadian cost of living.

(The Dominion Bureau of Statistics cost of living index is now 26.6% of its 1938 level.)

A new round of wage increases at this time will have extremely serious consequences, he said. The plight of the white collar and fixed incomes generally, he pointed out will be worse than ever.

The fundamental point, Mr. Jackson points out, is: "Each income payment to someone is a cost to someone else. When each income payment rises so does the cost rise somewhere in our economy."

Increase Not Shared Equally.

Workers today are not facing a lower standard of living than pre-war, Mr. Jackson says, but only a lowering of the higher standards of living to which they became accustomed as a result of the war. The total payments to employed persons rose from \$12.10 billions for the first six months of 1947 to \$14.55 billions for the first six months of 1947 or about 19.5%. The rise in the cost of living was only 29.7% in the same period.

One trouble is that this great increase in income was shared inequally, Mr. Jackson points out. For example, the general wage rate is up 55% since 1939, according to the Department of Labour index.

"There is great 'permissive' inflationary potential in the 1947 increase in the total means of payment held by the Canadians in the last eight years," Mr. Jackson points out. Though this in itself would not necessitate a rise in the Canadian cost of living, it would prevent a rise in the D.B.S. index of up to 20% of its pre-war level as against a rise of 20% at present, other things being equal. "And we can't exclude the possibility that it might go to 100%," he adds.

"In a really hectic inflation, the rate of circulation of money, now lower than pre-war, could be stepped up considerably which would increase the amount of inflation."

The immediate fear is that the natural impulse of a lot of people who can bring pressure to bear will cause an increase in wages and so raise costs and so prices and so the cost of living. "If we were all people of variable incomes, we could go on indefinitely but never get anywhere," Mr. Jackson counts out. However, on the sidelines are people of fixed incomes who will get it in the neck.

World Trade Problem.

An international trade condition through which Canadians might be forced to accept permanently a lower standard of living is "clearly within the realm of possibility," Mr. Jackson declared. If Canada could not convert the cash surplus from exports to other countries to pay its deficit in balance of trade to the United States (as was the case pre-war) then it would be necessary to remake the Canadian economy to make it independent not only of the United Kingdom but also of the United States.

Pointing to the British situation, Mr. Jackson said: "I think the British have handicapped themselves most frightfully because they have never made the workingman realize that the dollar crisis really resolves itself into the question of 'Do we continue to eat?' If they had, the British people would be taking the crisis much more seriously."

a profound truth because few criminals are recruited in a musical community. Following the evening program, the Essex Public School Board held a reception for school inspectors from Essex and Kent, at the Essex Public School. Some 50 guests were welcomed by Perry Vanstone, chairman of the Essex Public School Board.

On Friday the teachers visited the Detroit Public Schools, as guests of the City Board of Education.

Officers elected were: Hon. president, R. A. Pierce and W. J. McCordie; president, Sidney Liddle, Amherstburg; vice-president, Miss Edith Wallace, Sandwich West Twp.

In the Women Teachers' Association of Essex County, officers-elect are: President, Miss Louise Phillips, Harrow; 1st vice-president, Miss Ruby McLean, Leamington; 2nd vice-president, Miss Catherine Beckett, Belle River; secretary, Miss Bertha Balkwill, Harrow, and treasurer, Mrs. H. F. Smithendoff, Essex.

POPULAR TENOR

One of the most popular tenors in Canadian radio, Jimmie Shields, will appear as guest singer on Monday evening, October 20, on the Northern Electric Hour. The program is heard weekly over the Trans-Canada network of the CBC.

Immunization.

Although disease is less likely to strike the healthy person than one who is in poor condition, more than mere good health is needed to be quite sure of safety at all times.

Medical authorities advise, particularly that the extra protection afforded by inoculation, vaccination and other forms of immunization be afforded to children. Before they are sent back to school this fall, it is suggested that family doctors be consulted about the advisability of giving the youngsters all the special scientific safeguards — just in case.

Mature Workers.

Far from being "washed up" in middle age, Canada's workers over 45 years of age are the best of all at a disadvantage.

Actually, surveys indicate that the older worker is less likely to be addicted to unnecessary absenteeism, has greater general stability and pride in his work, and is far less prone to accident than the younger man at the same type of job. And, too, he has the advantage of experience and mature judgment.

In view of estimates that Canada will have more than five million people over 45 years old by 1971, the results of the survey are most reassuring.

Protective Skin.

A healthy skin is an armour against many enemies, say the medical people. A break in the skin is definitely "bad business."

Among perils to this protective covering are listed, burns, abrasions, cuts and exposure to extreme heat or cold. These injure the skin and may open the way to infection.

Workers in industries using potentially-toxic substances, or involving exposures to radiation, are particularly warned to protect their skins, making use of all the modern devices to prevent acids and other substances from making contact with the body.

Help the Dentist.

"Let the dentist do the talking. His advice, and his professional services, are what you are paying for." This is part of the advice extended by Canadian public health authorities to parents when they take their children for oral work.

"Leave the child to the dentist," the experts ask, "Stay in the waiting room, unless you are asked to remain in the inner office, and if you are invited in, offer no advice nor comment to the child unless the doctor has previously requested it."

Taking children to the dentist should not be made a momentous and ominous occasion, either. It should be treated as a routine matter bearing directly on the child's comfort and health.

"Cold Kisses."

To kiss or not to kiss — that is the question — during a period when epidemics occur. Better, say the medical men, to "break a heart" by seeming to be "cold" than to flirt with infection, if one of you has a cold.

Medical science warns that flu germs are definitely communicable by contact, such as osculation, can easily be transmitted in a caress. They suggest to sweethearts that, when one has a cold, the partner "play coy, and be careful."

Signs of Flu.

No race, nor colour, and neither sex, is exempt from possibility of having pneumonia at some time between adolescence and old age. Pneumonia can occur in any climate and in all seasons. It is most common in winter and in spring, and in regions where cold, windy, changeable and inclement weather prevails.

Canadians are warned that any onset of chill, followed by fever, or by pain in the chest, is the signal to see the doctor.

Fashion Show

The fall Fashion Promenade, staged in the Roseland Women's Institute Hall, by the United Neighbours' Club, with the spotlight on Fashions from the Style Shop, Chez Suzanne and Brown's Silk Shop, was a huge success. From the first note of the salon music, which supplied a delightful background for the models, until the last notes of the bridal chorus, the crowd was held breathless. The numbers shown extended from leisure to the formal wear, from the teen ages to the mature woman.

The commentator for the show was Miss Myrtle Kennedy, who described the costumes, pointing out the highlights of the various styles. Miss Kennedy chose for the occasion stunning navy blue, one-piece dress, with a white dicky front. She wore an attractive navy blue hat to match and the wide brim trimmed with light blue ostrich plumes.

Nelson Shuttleworth opened the show with a solo, "Alice Blue Gown," after which Mrs. Wilbert Snyder, the convener of the affair, began the promenade, wearing a lovely black cocktail dress, carrying long black gloves and wearing a very smart black felt hat with a pink plume. Other models were Mrs. Harvey Washbrook, Mrs. Jack Herdman, Mrs. Sam MacKenzie, Miss Shirley Sales, Miss Marion McKenzie, Miss Jean McLennan, Mrs. Wm. Sales, Mrs. Roy Jewell, Mrs. Valerie Quick, Mrs. Elmer Ure, Mrs. George Law, Miss Janet Wilson and Mrs. Kenneth MacKenzie. Mrs. Stanley Collins then rendered a vocal solo.

To climax the whole show was a bridal party. Nelson Shuttleworth sang "Because."

Janet Wilson wore a lovely steel grey dress with full skirt and square cut neckline, with allover multi-colored sequin trim and pink accessories. The bride, Miss Betty Ayres, was gown in snow-white slipper satin with a high round neckline, featuring a Peter Pan collar framed with Irish point lace, medallions applied on the bodice, very full leg-o-mutton sleeves ending in points over her waist line, twin peplums over the hips, extending into the voluminous skirt and train of her gown. The chapeau was a head of embroidered illusion was caught to her head with a pearl embroidered Dutch cap of lace to match the trim of her gown.

Jim Shuttleworth was the bride's father.

The bridesmaids were gown in ident-

ically in four shades of satin — Miss Lorna Libby, in blue pink, Miss Winnifred Frith in seafoam green, Miss Geraldine Ure in cathedral rose and Miss Clara Campbell in hyacinth blue with matched ostrich plume headpieces. The gown sleeves with very full skirts and powder puff bustles at the back waists.

The flower girl, little Shelly Jewell, wore white nylon marquisette over candy pink satin, hooped petticoat, the gown being styled in a Victorian trend, a square neckline and cape sleeves edged was a feature of the bodice ending in a five tiered very full skirt. Her headpiece was matching nylon marquisette in a bonnet styled with pink satin streamers.

"Comedy Among the Girls," by Mrs. Roy Jewell, Mrs. Elmer Ure, Mrs. Valerie Quick, Mrs. Wilbert Snyder and Janet Wilson, with Mrs. Kenneth MacKenzie directing, was greatly enjoyed. Officiating at the drawing of the door prizes was the chairman, Kenneth MacKenzie, with Shelle Jewell drawing the lucky numbers.

Ushers for the affair were Emerson Butterby and Max MacKenzie.

After the drawing, Mrs. Wm. Hill invited the crowd to stay for lunch.

FRIDAY, OCTOBER 17, 1947.

Colchester North Council.

Monday, October 6th.
Council met in regular meeting, with
all members present.

Minutes of last regular meeting and
special meetings of September 13th
and 20th, were read and approved on
motion of Mr. Stevenson and Mr.
Tully.

The following correspondence was
read:

From J. E. Caughey, showing amount
of subsidy passed on expenditures
on roads, up to August 31st, the amount
being \$3,339.10, the treasurer re-
ported this had been received.

From Department of Public Welfare,
advising that winter fuel for Mothers'
Allowance cases will be taken care of
for this winter through their own of-
fice.

From W. D. Conklin, mayor of Kings-
ville, saying he will be pleased to
attend any meeting of the Council on
consumers, if he could be of any as-
sistance in explaining the details of
the report of the Natural Gas Advisory
Committee.

Notice from Hotel Dieu of admit-
tance of Mrs. Charlotte Lamotte from
Gosfield North.

Copy of report of the Natural Gas
Advisory Committee on the gas situa-
tion in southern Ontario.

The Clerk reported the Windsor
Flying Club had delivered the fire
truck and equipment on October 1st,
as agreed, the equipment was listed
with the agreement was all on the
truck. At present the truck is housed
in C. Scratch & Son's garage. C.
Scratch was present and advised there
was some further equipment needed
on the truck, and a new battery. He
was authorized to put in a new battery
and procure such equipment as he
and the Reeve should find was needed.

D. R. Jones presented a liability policy
including fire and theft, on the
truck and equipment, the premium on
same being \$117.30, which was ap-
proved. He was asked to procure a
policy against liability of the town-
ship or Flying Club for any damage
caused by any of the firemen while
operating at a fire.

Alex Fischer complained of dogs
destroying his turkeys, he had lost
nearly a hundred, and asked if Council
could not compensate him some from
the funds collected by dog taxes. As
the township had not passed a bylaw
including poultry under that act, they
did not at present have any authority
to pay claims for poultry destroyed
by dogs.

Account from the Physicians and
Dentists Bureau, for services rendered
to a resident of Gosfield North. The
Clerk was directed to reply, stating
the account could not be entertained.

Moved by Mr. Stevenson, seconded
by Mr. Goodburn, that the assessor
be given authority to summon any per-
son or persons before a magistrate
for keeping or harboring a dog or
dogs without paying the tax and pro-
ducing a tag.—Car.

The Reeve received a request from
the Junior Farmers' Association for a
donation. Moved by Mr. Stephenson,
seconded by Mr. Tully, that they be
given \$25.—Car.

Tenders for repair of the Graham
Sideroad drain were as follows: Frank
Padovan, at the estimate \$1,205; Ev-
erett Cowan, \$1,205; Ivan Holden and
Charles Armstrong, \$1,400; Everett
Cowan stated he could not do the work
this year, Frank Padovan did not
state when he could do the work. Left
with the Clerk to find out if
Frank Padovan can do the work this
fall. If so, his tender to be accepted,
on motion of Mr. Tully and Mr. Ste-
venson.

Mr. Goodburn asked what progress
had been made on the Goodburn Awar-
d drain, as the work had not been com-
pleted. It was moved by Mr. Steven-
son, seconded by Mr. Tully, that Mr.
Goodburn be given authority to get
the balance of this drain completed,
with the permission of the engineer.—
Car.

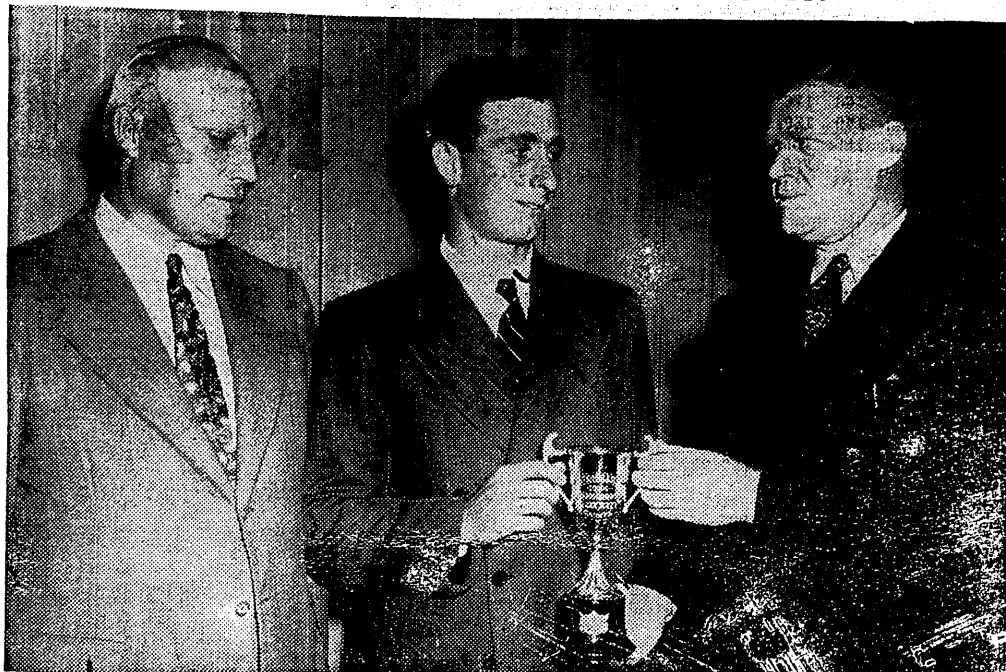

At the Court of Revision on the
Graham Sideroad drain, Bylaw 287, ap-
peals were received from Herbert
Rosa for Mrs. Mrs. Jacob Dick and
Bert Taylor, the appeals each citing
the same reason, assessment excess-
ive and lands south of the 8th conces-
sion road had been omitted. Moved by
Mr. Stevenson, seconded by Mr. Dew-
hurst, that \$524 of the assessment be
charged to the Orton drain and the as-
sessment on the lands assessed in By-
law 287 be reduced by that amount.
—Car.

The lands assessed in bylaw 287, as
amended, being as follows: Mrs. Arps
\$30, Hugh Ferguson \$184, Claude Brun-
er \$128.50, Mrs. Stevenson \$55, Jacob
Dick \$165, Ed. Pettaplebe \$184, Bert
Taylor \$400, Gosfield North, on roads,
\$207. Moved by Mr. Dewhurst, second-
ed by Mr. Tully, that assessments in
Bylaw 287, as amended, be confirm-
ed, and Court of Revision close.—Car.

"SUGAR BEET KING" RECEIVES TROPHY.

Peter Gillier, of Northwood, was crowned King of Ontario Sugar Beet Growers recently, in Chatham, when he received the Canada and Dominion Sugar Company annual trophy. Mr. Gillier's 1946 harvest from 3.62 acres totalled 78.32 tons for which he received \$290.90 per acre. Presentation was delayed until last week when the company mailed final payment cheques for the 1946 harvest for which growers received a total of \$3,012,302.44. R. E. Easton, chief of the Company's field men is seen at the right making the presentation, while W. E. Herriman, company field man for Mr. Gillier's district, is seen looking on at the left.

U. S. Population 142,673,000.

In the greatest one-year population
spurt of its history, the United States
gained 2,270,000 residents in 1946 to
bringing total to 142,673,000, the Cen-
sus Bureau estimated.

The new figure represents an in-
crease of about 11,000,000 or 8.4 per
cent, since the last census on April
1st, 1940. This compares with a
growth of less than 9,000,000 or 7.2 per
cent, in the entire decade prior to
1940.

The seven-year increase was attrib-
uted almost entirely to an excess of
births over deaths, with net immigra-
tion accounting for less than 900,000,
or 8 per cent.

The striking growth in 1946 was
accounted for by a large rise in the
birth rate following demobilization,
continuation of the death rate at a
low level and about 251,000 in net
immigration.

Winter Protection for Straw- berries.

Strawberry plantations should be
mulched in the autumn to protect
against severe winter temperatures or
intermittent freezing and thawing.
While it is true that some years the
plants will come through the winter
without injury, experience has shown
that when mulching has been neglect-
ed, or the covering removed by strong
winds, the rows have been killed out-
right or quite severely injured, says
R. C. White, Dominion Experimental
Station, Fredericton, N.B.

Suitable materials for the purpose
are clean wheat or rye straw, marsh
hay, long cut straw or even evergreen
boughs. Materials that contain seeds
should be avoided as the seeds ger-
minate and produce plants which com-
pete with the strawberries for light,
moisture and moisture.

The mulch should be applied after
the plants have become dormant, pre-
ferably after the first severe frost but
before the temperature falls below 21
degrees F. At this temperature and
lower, injury to the crowns may oc-
cur. Mulching too early prevents the
plants from becoming hardened off by
the light frosts that occur in the au-
tumn. They may continue to grow un-
der the mulch, become bleached and
may be severely injured or killed out-
right at temperatures only a few de-
grees below freezing. Such plants are
less hardy than plants in the early
stages of growth, in sunlight in the
spring.

The material is spread evenly over
the rows to the depth of two or three
inches. A heavier mulch may smother
the plants or cause heating in the
spring before it is removed. An acre
of strawberries requires from three
to three and one-half tons of material
for adequate coverage.

Evergreen boughs have been used
successfully as they catch and hold
whatever snow is present. It is be-
lieved, however, that the success with
boughs is largely due to the presence
of the snow which they hold and to
not too extreme temperatures. Ice
apparently causes no serious injury
to dormant strawberry plants and the
mulch commonly becomes filled with
ice during winter in northern locali-
ties.

The mulch should not be removed
until the frosty weather of early spring
is over as it should remain as long as
the plants are dormant. The appear-
ance of new leaf growth and a slightly
yellowed foliage color indicates that
it is time to remove the covering. De-
laying beyond this period may result
in unhealthy weak plants that do not
develop normally.

When the plants are uncovered, only
partially remove the straw to the
pathway between the rows. A light
scattering should be left to mingle
among the plants to conserve moisture.
Any short shaffy straw should be care-
fully stirred up as such material gen-
erally mats over the reviving straw-
berries causing considerable stunting
and bleaching if left untouched.

Don't be afraid of opposition. Re-
member a kite flies against, not with
the wind.—Hamilton W. Mabie.

In Terms of Cows.

People who imagine that the cow is
indigenous to Canada are in error.
When Jacques Cartier sailed up the
St. Lawrence to the head of anybody's
knowledge there wasn't a cow any-
where on the continent. On his third
voyage Cartier brought a few cows
with him. Champlain brought milk
cows from France in 1610 and the
first dairy farm was started a little
outside Quebec City. But immigration
both human and cattle, was slow in
those early days. It was the U. E. Loy-
alists, who gave the real boost to dairy
and livestock farming. When they
came to Canada they brought their
herds with them. From that date the
cattle population has pretty well kept
pace with the human population. In
1944, according to the Dominion Bur-
eau of Statistics, there was almost one
cow per person or a total of 10,346,000
cattle.—J.L.R.

New National Policy.

Detailed plans involving virtually a
new "National policy" for Canada are
under consideration at Ottawa for pre-
sentation to the cabinet when Hon.
Douglas Abbott returns from Europe,
says Kenneth R. Wilson, in the Finan-
cial Post. What these plans do include
may be stated briefly as follows:
(a) Very drastic restrictions by way
of higher taxes, embargoes, etc., on a
very wide range of U. S. goods and ser-
vices.
(b) A possible U. S. loan to be used
only for emergency purposes or as in-
surance against deterioration in the
Canadian position.

(c) Long-range plans: (a) for closer
integration of Canadian-U. S. industry;
and (b) for extensive development of
Canadian national resources with a
view to supplementing raw materials and
goods now procurable from the United
States.

A failure establishes only this, that
our determination to succeed was not
strong enough.—Bovee.

BASEBALL.

Likely the final game of the season will be played this Sunday, on the Belle River diamond, when Woodslee and Roseland meet for the championship of the North and South Essex League. Each have won a game in their play-off series.

SOUTH WOODSLEE

Announcement.
Mr. and Mrs. Russell Mitchell, of Woodslee wish to announce the engagement of their daughter, Dorothy May, to James Rupert, son of Mr. and Mrs. Stewart Rupert, of Essex, the wedding to take place on October 24th in St. Paul's Church, Essex.

Mr. and Mrs. George Anderson and children, of Detroit, spent Thanksgiving with Mrs. M. Fair.

Stanley Vitor and wife, of Tecumseh, were Sunday guests of the formers' parents, Mr. and Mrs. A. Vitor.

Mr. and Mrs. Thomas Boden and Mr. and Mrs. Cliff Murphy, of Hamilton, were week end guests at Mrs. Corey's.

Mrs. A. McCaulay, of Windsor, is visiting with friends in the village.

Mrs. P. Paisley and Mrs. G. Marchand, of Windsor, left on Tuesday for Amherst Park, Cal., where they will spend some time with the formers' son, Leonard Paisley, and his family.

The Woodslee Memorial Association will hold their postponed meeting in the Union Hall, on Monday next, October 20th, at 8:30 p.m.

Mrs. R. Ross of Port Huron, and Mrs. Don Walker, of Thorold, spent a few days this week with their parents, Dr. and Mrs. Miller, and attended the funeral of their uncle.

Leonard Monseau, of the I.C.A.F., returned to his unit at Camp Borden on Tuesday, being accompanied as far as London by his mother, Mrs. Ed. Monseau, and Mrs. A. Monseau, and Mrs. Leonard Puerth, who returned home on Wednesday.

The Woodslee Sportsmen's Association will meet in the Union Hall, on Friday, October 25th, at 8:30 p.m. All members are requested to be present as there will be a valuable door prize given away.

Robert Millon, of Temaran, Neb., was here for his late brother Archie's funeral.

United Church Notes.
The First Woodslee Boy Scout Troop wishes to thank those who made such generous donations to the Annual Apple Day Sale.

A Y. P. C. meeting held Tuesday, it was decided to decorate the church for the Harvest Home service. This will be done on Friday evening, following choir practice. The program was in charge of Miss Ethel Allison, who spoke briefly on Exhortations in the Bible and conducted an interesting quiz. The next meeting, on Tuesday, will feature the topic, "So This is Missions."

Woodslee Harvest Home services at 11 a.m. and 7:30 p.m. Sunday. The guest preacher will be the Rev. J. T. Clarke, of Ironsby. Special music by the choir.

The October meeting of the Women's Association was held at the church, October 2nd. The devotional was in charge of Mrs. D. Cavers, assisted by Mrs. J. Wilcox and Mrs. A. Hedges. It was decided, due to high prices, that we dispense with their annual Harvest Home supper. A can was will be made October 20th and 21st. Next meeting will be held at the home of Mrs. J. Wilcox, at which time we expect a special speaker, with Rumscomb ladies and the Bonus Amicus Club as our guests.

The Woodslee Credit Union has recently opened an additional office in order to better serve its members. Raymond Bissnette has been appointed assistant treasurer and his office is open during store hours. Members or anyone desiring to become a member are welcome to call on Raymond Bissnette or at the home of Charles A. Diemer, at their convenience, to learn what the Credit Union has to offer, to deposit savings or secure a loan.

The directors and staff of the Comber Farmers Cooperative and the Comber Credit Union, recently were hosts to 30 fellow co-operators from different parts of Ontario. Among those travelling through to Indiana were Leonard Harmon, secretary of the United Farmers Cooperative; W. G. Nicholson, president of Ontario Cooperative Union; V. S. Milburn, secretary of Ontario Federation of Agriculture; and Frank E. Ellis, poultry farmer and writer for the Family Herald.

Alphonse Diemer, of Woodslee, was also among the guests. The Comber Women's Institute served the banquet.

Mr. and Mrs. John H. Diemer, Mr. and Mrs. Gerald Diemer and Henry Diemer have arrived home from a week's stay in Niagara Falls and Buffalo, N.Y. They had the pleasure of celebrating with Mr. and Mrs. William Oliver (J. H. Diemer's aunt and uncle) their 50th wedding anniversary while in Niagara Falls.

MAIDSTONE CROSS

Congratulations to Milton Holstein and his lovely bride, who were married at St. Agnes' Church, Detroit, on Saturday morning.

Mr. and Mrs. Frank Kane spent Thanksgiving with Frank's father, Bernard Kane, and other relatives, in Detroit.

The many friends of Hiram Dunn, of Windsor, are hoping for a speedy recovery from his illness, when he was removed to Hotel Dieu last week.

The writer of this column has always reported the news items of this vicinity with the expressed purpose of hurting no one and if some too personal items have done that, please accept apologies as no notice was intended, and in the future anyone desiring news items to appear, please contact the writer. Old timers often write that it's like getting a letter from home when they receive their copy of the Free Press.

Mr. and Mrs. Dan J. McLean, son of Mr. and Mrs. Mary McLean, spent Thanksgiving with the A. C. McPharlin family, in Detroit.

Mr. and Mrs. Owen P. Hamlin, of Detroit, sent out announcements of the marriage of their only daughter, Miss Mildred Julia Hamlin, to Leo Joseph McPharlin, of Detroit, son of the late Mr. and Mrs. Thomas McPharlin, of Windsor, which took place on Saturday morning, at 10 o'clock at St. Catharines' chapel, on Jefferson Avenue, in Detroit. Mrs. Frank Stone and Malcolm Hamlin were the attendants. A wedding breakfast was held for 50 members of the immediate families at the Detroit Yacht Club. Later the happy couple left for a three weeks honeymoon trip through the Southern States and to a lodge in Colorado. Heartily congratulations are extended to Leo and Mildred.

Mr. and Mrs. Frank Beliveau and Mr. and Mrs. George Markham and Gerry spent Sunday with Mr. and Mrs. Don Bellon, at Comber. George and Edna Mac acted as sponsors at the christening of Mary Carol Ann. Later Mrs. Beliveau's parents, Mr. and Mrs. Deshpande of Stony Point, entertained with the christening dinner.

Mr. and Mrs. Thomas Little moved into their new home last Thursday and Mr. and Mrs. Wallace Little moved their family from Point Pelee for the winter to their home here. Wallace Little and Gladys Jean have enrolled at Windsor Technical School.

Mr. and Mrs. Wallace Little left on Monday in their station wagon, for a trip to Monroville.

Mrs. Thomas Chittle entertained the St. Mary's Altar Society, last Wednesday. Six tables played euchre after the meeting, and prizes were won by Mrs. John Chittle, president of St. Mary's Altar Society; Mrs. Albert Hunn, president of the League; Mrs. Thomas Shanahan, president of the East Essex Liberal Association; Mrs. Andrew McCarthy, vice-president of the Cemetery Board won the lovely prize. Visiting guests were Mrs. James Sexton and Mrs. Robert A. Haldor Jr., of Windsor, it being the latter's birthday, and Mrs. Chittle served a birthday cake in her honour, and all sang "Happy Birthday to You, Viola."

The lucky piece of birthday cake was received by Mrs. James Quinlan, who was awarded a beautiful vanity set, comb brush and mirror, donated by Mrs. Ralph Sexton. Mrs. Quinlan, by the way, is president of the Sacred Heart League, so it seemed it was "Lucky President Day."

Leafs Beat Lappan's Aces.

The Leafs, on Sunday, in perfect baseball weather, defeated Lappan's aces by the score of 6 to 0. The local boys put the game on ice in the first inning, when they scored six runs on an error, three hits and four walks. Fleming pitched well all the way, allowing the visitors only four hits, three of which were by Morrison.

First Inning.
Lappan—Fleming tossed out Dakin; Pegg fanned; Morrison tripped to right center; Fitzpatrick struck out—0 run, 1 hit, 0 error.

Second Inning.
Essex—Queen beat out an infield single to third; Tofflemire's throw got through him into right; Queen reached third and Brackell second on the error; Art Miller walked on four pitched balls; with M. Miller at bat, Queen scored on a passed ball, Brackell moving over to third and Art Miller to second; M. Miller also walked on four pitched balls to again fill the bases; Scratch worked Fitzpatrick struck out—0 run, 1 hit, 0 error.

Third Inning.
Lappan—Maxim beat out an infield single to third; Tofflemire's throw got through him into right; Queen reached third and Brackell second on the error; Art Miller walked on four pitched balls; with M. Miller at bat, Queen scored on a passed ball, Brackell moving over to third and Art Miller to second; M. Miller also walked on four pitched balls to again fill the bases; Scratch worked Fitzpatrick struck out—0 run, 1 hit, 0 error.

Fourth Inning.
Lappan—M. Miller took Pilon's fly to right; Fleming again threw out Dakin and Pegg fanned to Parent—0 run, 0 hit, 0 error.

Fifth Inning.
Essex—Queen easily beat out a bunt toward third; Pegg laid down a perfect sacrifice, being out; Maxim to Morrison; I. Ross moved over to third as Dakin threw out Parent; Fleming was called out on strikes—0 run, 1 hit, 0 error.

Sixth Inning.
Lappan's—Pillon walked, but was forced at second, Queen to Art Miller, Dakin, the batter, being safe on a fielders choice; Dakin, trying to steal, was safe when A. Miller dropped Ross' perfect throw; Pegg was thrown out by Brackell, Dakin holding second; Morrison struck out—0 run, 0 hit, 1 error.

Seventh Inning.
Lappan's—Art Miller threw out Fitzpatrick and Maxim; Fleming tossed out Tofflemire—0 run, 0 hit, 0 error.

Eighth Inning.
Essex—M. Miller was called out on strikes; Scratch tied high to Pegg in short right; Ross walked but was out stealing; Maxim to Pegg—0 run, 0 hit, 0 error.

Ninth Inning.
Lappan's—Dakin fanned; Pegg went out, short to first; Morrison doubled to left and moved over to third on a passed ball; Fitzpatrick fanned to left—0 run, 1 hit, 0 error.

FRIDAY, OCTOBER 17, 1947.

TOWN AND VICINITY

—Boy Scout Apple Day on Saturday. Don't let the boys down. Buy an apple. It's for a worthy cause.

—R. F. Taylor, of town, picked a box of raspberries off his small plot, on Monday.

—Mr. and Mrs. Jim McDonald spent the Thanksgiving holiday with friends in Flint, Mich.

—Mrs. Annie Abbs, of Natia and Bob, of Toledo, Ohio, called on her nephew, Joe Billing, over the week-end.

—Mr. and Mrs. Stewart Rupert and the latter's brother, Fred Baldwin, spent the holiday week-end with their brother, John, and his family, in Orillia.

—Larry Whitall attended the International Flowering Matches held at Kingston, on Wednesday and Thursday of this week.

—Fred Billing brought into the Free Press Office blossoms of a honey-suckle vine blooming for the second time this year.

—Special meeting of Town Council will be held on Friday evening at 8 o'clock.

—Mr. and Mrs. John Roberts and daughter Suzanne, of London, spent Thanksgiving with their aunt, Mrs. Hugh McDonald.

—Lorna Billing has started back to school after having had an appendix operation about four weeks ago.

—Miss Pat Craig, of Glasgow, Scotland, is a guest this week of Miss Helen Sadler. Mrs. Wensley and son Robin, of Calne, Wiltshire, Eng., was a recent guest of Helen.

—Misses Donna Clark, of Blenheim; Barbara Wild and Margaret Crawford, of Cedar Springs, spent the Thanksgiving week-end with Janet Wilson.

—Little Danny Houf, and his parents, from Windsor, spent the Thanksgiving holiday with his grandparents, Mr. and Mrs. Joe Billing.

—Here is a bit of simple arithmetic for married people, showing how mysterious is the figure 3894. First put down year of your birth, and add your age in years, then add year of marriage and number of years married. Total will be 3894.

—Don Billing, who is employed in Essex with the Canada Bread Co., was home for Thanksgiving.

Announcement.

Mr. and Mrs. Russell Mitchell, of Woodlee wish to announce the engagement of their daughter, Dorothy May, to James Rupert, son of Mr. and Mrs. Stewart Rupert, of Essex, the wedding to take place on October 24th in St. Paul's Church, Essex.

—Mr. and Mrs. Ed. Hines and son Neil spent the holiday week-end with their parents, Mr. and Mrs. Ed. Hines, in Lindsay.

—The W. M. S. of Essex Presbyterian will hold a sectional meeting in North Ridge United Church, on Friday, October 24th, commencing at 10 a.m. A full and varied program of educational and inspirational value has been planned, concluding with an open forum of the Society's work and problems.

—Mr. and Mrs. J. D. Mahoney and son, of Detroit; Mrs. Margaret Mahoney, of Detroit; Mrs. Janet Johnston, of Highland Park, Mich.; Mrs. Jack Pizer and Barbara Lynn, and Roy Pizer, of Windsor, were visitors over the week-end at Mr. and Mrs. Stan Pizer's.

PAQUETTE

Thomas Libby is on the sick list. Mr. and Mrs. Wm. Carroll and family spent Thanksgiving with relatives in Aylmer.

Miss Marjorie O'Neill, nurse-in-training at St. Joseph's Hospital, London, spent the week-end with her parents, Mr. and Mrs. Roy V. O'Neill.

Miss Dorothy Lounsbrough was home from Western University, London, for the Thanksgiving week-end. Murray O'Neill, medical student at the University of Western Ontario, spent the Thanksgiving week-end with his parents, Mr. and Mrs. Roy V. O'Neill.

Sunday next, October 19th, will be observed as Children's Day, in the Church of the Redeemer and St. Stephen's. The children will take an active part in the service. Plans were made and the children have been busy practicing the children and all the parents and others interested are cordially invited to attend the service. Let us show our appreciation to our Sunday school workers by attending the service on Children's Day, in the Church of the Redeemer, at 9.45 a.m., and in St. Stephen's, at 11 a.m. Rev. Joseph Tully will address the parents and children.

The annual chicken supper of the Church of the Redeemer will be served in the Orange Hall, on Wednesday evening, October 22nd, from 5.30 p.m. to 8 p.m. Following supper, Mr. and Mrs. Clarence Fields, of Detroit, will provide the music for dancing. The public is cordially invited.

St. Stephen's chicken supper will be held in the parish hall on Wednesday evening, November 5th.

The Ladies' Guild of the Church of the Redeemer held an all-day work meeting at the home of Mrs. Glen Webster, on Thursday, October 9th, with 14 ladies present. Plans were completed for the chicken supper on Wednesday, October 22nd, in the Orange Hall. Mrs. Otto Boos is the kitchen convener, Mrs. Royner and Mrs. Pettypiece will be in charge of the sewing. Mrs. Glen Webster and Mrs. Julia O'Neill in charge of the tables, Mrs. Annet Tynjams the decorating of the hall and Miss Lena Shud will look after the Touch-and-Take Table.

Albuna Chicken Supper Monday evening, October 20th.

—Mr. and Mrs. M. R. Brett, of Niagara Falls, N.Y.; Mr. and Mrs. William McDonald, of Niagara Falls, Ont.; and Mr. and Mrs. Johnny Mowers and baby daughter Stephanie, of Detroit, were holiday week-end guests of Mr. and Mrs. K. E. Brett. Mrs. Mowers and Stephanie are remaining for a short visit prior to joining her husband, who will manage the Indianapolis Hockey team this winter.

—Jack Sadler, who is attending the College of Pharmacy, in Toronto, spent the holiday with his family.

—Fred Lesperance, Woodlee, spent the week-end with his daughter, Mrs. Joe Billing.

Sunday visitors at the home of Mr. and Mrs. Hugh Pastorius were Mr. and Mrs. Leonard Mulcaster and daughter Sharon, Mr. and Mrs. Harold Mulcaster and son Garnet, Mr. and Mrs. Hartley Miller and daughters Janet, Dorothy and Donna, Mr. and Mrs. Murray Hall and daughters Martha and Linda, of Gesto; and Miss Faye Mulcaster and Ray Mulcaster, of Elford; Miss Jean Pastorius, of Leamington, and Mr. and Mrs. Lloyd Griffin, Galt and Lyle, and Roy Pastorius, of Cottam.

—The W. M. S. Sectional meeting will be held in the North Ridge United Church on Friday, October 24th, at 10 a.m.

HENRICKS—In Grace Hospital, Windsor, on Thursday, October 16th, to Mr. and Mrs. Robert Henricks, of Maidstone, a son.

BEAUGRAND—In Rochester, on Saturday, October 11th, to Mr. and Mrs. Walter Beaugrand, a daughter.

MARRIED—McGORMAN-ROGERS—At Puce, on Saturday, October 11th, by Rev. A. B. Ransom, Wayne Ellis McGorman, of Maidstone, to Miss Mildred Patricia Rogers, of Tilbury.

IN MEMORIAM

In loving memory of our dear mother, Mrs. Eliza Laramie, who passed away ten years ago, October 17th, 1937.

Deep in the heart of the sunset,
Where the loveliness never dies,
She lies in the land of glory,
'Neath the gold and blue of the sky.
We who have known and loved her,
Whose parting has brought many tears,
Will treasure her memories always,
To brighten the changing years.
—Ever remembered by her family.

IN MEMORIAM

In loving memory of our dear mother, Mrs. Ida McMurren, who passed away three years ago, October 17th, 1944.

It's hard to write what I'd like to say,
About our mother who has gone God's way,
So fine, so true, and always a friend,
She had friendship that will never end.
Always a pal, a mother so true, of education and inspiration value has been planned, concluding with an open forum of the Society's work and problems.

—Mr. and Mrs. J. D. Mahoney and son, of Detroit; Mrs. Margaret Mahoney, of Detroit; Mrs. Janet Johnston, of Highland Park, Mich.; Mrs. Jack Pizer and Barbara Lynn, and Roy Pizer, of Windsor, were visitors over the week-end at Mr. and Mrs. Stan Pizer's.

IN MEMORIAM

In proud and loving memory of W.O. Wesley B. Croft, and his crew, who lost their lives in action, in England, on October 14th, 1942.

Come into my garden, see in perfect bloom
The flowers you loved so dearly,
But thought I plucked too soon;
Then shall you know the reason,
Though you know it not today,
Why in their sweet young manhood,
I took your dear boys away.
—Lovingly remembered by his mother, sisters and brothers.

IN MEMORIAM

In loving memory of my dear mother, Martha Ellen Croft, who passed away October 15th, 1942.

Treasured thoughts of one so dear,
Often brings a silent tear.
Thoughts return to scenes long past,
Years roll on, but memories last.
Time takes away the edge of grief,
But memory turns back every leaf.

—Sadly missed and fondly remembered by daughter Jennie.

Card of Thanks—The brothers of the late John W. Field wish to express their most sincere thanks and gratitude to friends and neighbours for their many acts of kindness and expressions of sympathy shown them in their recent bereavement. Special thanks to Rev. J. H. Wheaton, Mrs. J. W. Easley, Murray Kennedy, S. L. Kennedy and to those who acted as pallbearers, and all who sent flowers and leaned cars.

Card of Thanks—Mr. and Mrs. Russell Queen and Leo J. Kaiser Jr., wish to extend their most sincere thanks to friends and relatives for their many acts of kindness and expressions of sympathy and to all who sent floral tributes, in their recent sad bereavement.

Card of Thanks—Mrs. R. A. Pierce desires to express her heartfelt thanks for the many expressions of sympathy, floral tributes and use of cars, in the sudden passing of her loving husband, the late Robert Archibald Pierce. Special appreciation is extended to the help given at the scene of the accident, to the doctors and nurses at Grace Hospital, to S. L. Kennedy, funeral director, to the Session of Essex United Church, to Central Lodge, No. 402; to the Rotary and Kiwanis Clubs, public school principals and all blood donors.

Special Features at Royal Winter Fair.

Diversified rural enterprises related to Canadian agriculture are to be featured at the Royal Winter Fair to be held at Toronto November 18-20, the nineteenth of the series since 1922. Apart from enlarged classes and bigger prizes in major live stock, cattle (beef and dairy breeds), sheep and swine, the fruit and vegetable sections are being extended and brightened. Valuable trophies are being offered for the first time to top winners in wheat, barley and oats. This is part of plans to make the Royal Seed and Grain Show independently Canadian in tone and merit. There has been an enthusiastic response among farmers in Canada to this new move.

Honey and other bee products, maple sugar and syrup, farm preserves and perhaps even nuts, are to be classified for competition. Egg-raising methods and devices for large and small poultry flocks will be prominent at the Royal Poultry Show.

A new standard of farm stock exhibiting is to be encouraged by having men's contests. Points will be counted, not on the quality of the animals but solely on the neat and orderly way in which stalls and aisles are kept to the working staffs.

Extensive modern refrigeration is being installed in conjunction with the Dominion Department of Agriculture so that farm products in finished form as desired by wholesale and retail trades at home and overseas may be shown at their best.

Publication, No. 69. Copies may be obtained by applying to the Division of Entomology, Dominion Department of Agriculture, Ottawa.

CABINET MAKING

Geddes, 26, of Parry Sound, a 4 years' service with the Canadian Navy, is shown here the base of a Grandfather's clock. The quality of workmanship is high. Expert instructors in the furniture trade give the student a basic knowledge of period and custom built furniture, wood finishing and upholstery. A thorough study of every type of wood, Canadian and imported, is also included.

Habit Forming.

Since their very futures will depend on wise guidance, children should be given a good set of living habits from earliest years, the authorities at Canada's capital remind parents. Habits which last a lifetime are formed in childhood. It is then that environment, example and training mould personality and create character. Health experts suggest that parents consult family physicians to ensure that their children are being taught sound health habits.

Ford Raises Wages, Then Up Goes Price of Cars.

The Ford Motor Co., after giving an hourly increase in wages to their employees, immediately announced increases up to 10% on their cars and trucks.

Douglas B. Greig, president of Ford of Canada, has issued the following statement:

"Effective at once, the Canadian retail delivered prices of Ford Mercury and Monarch passenger cars and Ford and Mercury trucks will be increased. The increases on passenger cars range from 6 to 10 per cent; on light trucks from 3 to 5 per cent; on heavy trucks from 2 to 3 per cent, and on panel trucks from 5 to 10 per cent.

"Ford of Canada is the last among major automobile companies in Canada and the United States to announce price increases. We have done our level best to hold the price line, but the spread between costs and selling prices has steadily widened. This trend is continuing, with the result that we are reluctantly compelled to revise our prices.

"On March 22nd last Ford of Canada reduced the retail delivered prices of all Ford, Mercury and Monarch passenger cars and Ford and Mercury trucks by \$35. We did so in the hope that our example might stimulate a trend toward price stabilization, but within a matter of weeks a new wave of wage increases, particularly in the United States, sent costs soaring higher than ever.

"Cites Increases. "In 1939 one of our most popular models, the Ford Super Deluxe Fordor, sold at retail in Windsor for \$945, plus excise and sales taxes amounting to \$63. With the increase effective last week, the comparable 1947 model will sell in Windsor for \$1,429.50, plus excise and sales taxes amounting to \$201.

"In the eight year period, taxes on the car have gone up 219 per cent, the company's average wage rates 57 per cent, and the price of the car 50 per cent.

"Loves a little more. Be faithful a little more. Serve a little more. And then watch God reveal Himself to you in a larger and lovelier way.—Robert Norwood.

The Dangers We Face.

The dangers which face Canada of loss of foreign trade, from which we get one-third of our income, is shown in a letter from Canada's Trade Commissioner in China. He states that:

"Three hundred and fifty-six inquiries for assistance in the sale and distribution in China of Canadian products have been received by his office during the last seven months. The articles include canned food, confectionery, costume jewelry, toilet articles, toys, shoes, furniture, electric stoves and plastics.

The Chinese government will not consider issuing permits for the importation of these items under any circumstances. The importation of most of these commodities is prohibited, even when foreign exchange is supplied from abroad. In fact, the office luxury items will not be lifted in all probability for the next two or three years, and not even then if the financial state of China fails to show considerable improvement."

The canned foods include fish, meat and vegetables and affects the markets for Canadian farm products.

Pesticides Applied With Fertilizer.

A new and almost revolutionary approach is now being made towards the control of soil-borne fungus diseases, soil insects and weeds by mixing fungicides, insecticides and weed killers with the fertilizer. Striking results have already been obtained in preliminary tests, the success of which may mean a substantial saving in time and equipment for farmers plagued by weeds and soil inhabiting pests.

Experiments using benzene hexachloride as an insecticide in fertilizer mixtures to control wireworms, are among the extensive tests being conducted by the agricultural chemicals division of Canadian Industries Limited. The cutworm, another highly destructive soil inhabiting insect, may be killed by the same treatment. Several fungicides are also being tested in fertilizer mixtures to determine their value in controlling root and seedling diseases of vegetable crops. Arasan, an effective seed treating product for corn and vegetables, is one of the many fungicides under experiment.

Already 2, 4-D has been mixed with fertilizer for the production of grass seed. Full applications of this mixture has resulted in a marked reduction in the number of weed seeds in the grass seed harvested the following season. This treatment would not be satisfactory on clovers because of the killing effect of 2, 4-D on such crops.

Agricultural workers can suggest many applications for a fertilizer-pesticide mixture. Each proposed use, however, must be subjected to careful and exhaustive testing before being recommended as general farm practice.

Mrs. Alida Bailey Dies.

Mrs. Alida Bailey, widow of the late John C. Bailey, passed away at her late home, in Cottam, on Friday last, following months of ill health.

Deceased, who had been a resident of Cottam district 42 years, was born in the Township of Malden, a daughter of the late Simon Peter Hutchins and Josephine Jeffery.

She was married to Mr. Bailey in 1889, he predeceasing her in 1928. Deceased was very active in social life, being a charter member of the O. E. S. No. 153, Essex; a life member of Cottam Women's Institute, an honour bestowed upon her in 1933; a member of Cottam United Church and a member of the United W. M. S. of which she was made a life member in 1939.

Surviving are a daughter Gladys (Mrs. J. F. Haskell), of Highland Park, Mich.; two granddaughters, Alice and Sue Williston; also four brothers, Edwin Hutchins, Birmingham, Mich.; Matthew, of Gosfield North; Arthur, of Bowness, Alta.; and Earl of Blytheswood. A daughter Eunice (Mrs. Bill Hodgins) and a son Clarence, predeceased her.

Following an O. E. S. service in the E. J. Hicks Funeral Home, on Sunday evening, funeral services were held on Monday afternoon, in charge of Rev. C. E. Taylor, with Mrs. Ward Steed as soloist. Burial was in Cottam cemetery, the pallbearers being six nephews, Roy Bailey, of Windsor; Beecher Hutchins, of North Goshen; Stuart Raymond and Allan Hutchins, of Birmingham, Mich.

Friends and relatives from Windsor, Ruthven, Kingsville, Leamington, Amherstburg, Detroit and St. John's, Mich., attended the funeral.

Anniversary

The Anniversary services, held in Essex United Church, on Sunday and Tuesday, were successful in every respect. Thoughtful and timely messages were given by a former minister, Rev. George Kersey, B.A., now of Hespeler, who was greeted by a large congregation, especially in the morning, when some 500 were present. Special music was provided by the choir, under the leadership of Miss M. Allen, and by a male quartette composed of Messrs. Hopgood, Allison, Toffen and Dawsell, who were more or less favourably known two decades ago. Miss Mary Walker, of Windsor, was the guest soloist in the evening.

During the afternoon a reception was held for many former members who now reside at distant points. This gave an opportunity for renewing acquaintances which was not afforded at the regular services.

The anniversary dinner, held on Tuesday, was well patronized by a host of people. The ladies heard many expressions of commendation both on the menu and on the manner in which it was served.

An excellent program followed, with the minister, Rev. R. H. Parr, acting as chairman. Those who contributed to the pleasure and profit of the evening were a Colored quartette from Windsor, who gave several Negro spirituals; Miss White, a clever reader, from Windsor; Cliff Williams, a skilled trumpeter, accompanied by Mr. Harding; and a most timely address by Rev. Charles Lewis, of Windsor.

J. A. Dowsell assured all who contributed in any way to the success of the anniversary, of the gratitude of the Official Board.

LT.-COL. WILLIAM DRAY, O.B.E., of Toronto, who will be the anniversary speaker at the Salvation Army (this Sunday, October 26th) regular meetings at 11 a.m. and 7:30 p.m. (Cottam's) fully at 3 p.m., when Colonel Dray will speak on subject, "Around the World With the Red Shield." Special music by Windsor Citadel Young People's Band.

A Letter to Teachers of Essex County Public Schools.

Cornwall, Ont., October 18th.

Dear Teachers:

My wife and I desire to thank you, sincerely for the very valuable gift of a chest of silver sent to us following your recent Teachers' Convention. My transfer from Essex inspectorate to Stornoway inspectorate came at a time during the summer holidays, when there was no opportunity of saying farewell to you teachers. It came as a surprise to me that you should think of sending me a gift, but I can assure you that it will recall often the very pleasant experiences of the last two years in Essex County.

Wishing you much happiness and success in the years that lie ahead, and thanking you for this wonderful present, I am,

Most sincerely yours,
C. E. McMULLEN, I.P.S.
Cornwall, Ontario.

George Dennis Passes.

George Dennis passed away at his late residence, Cornbar, on Wednesday of last week, following a lengthy illness. He was 75 years of age.

Surviving are his widow Annie, and four children, Agnes (Mrs. L. Gill-mouth), of Corpus Christi, Tex.; Russell, of Essex; Louise (Mrs. John Lee), and Corby Dennis, both of Cornbar.

Funeral services were held from his late home, Cornbar, in charge of Rev. C. Farquharson, and the members of Staples L.O.L. No. 617. Burial was in the McDowell cemetery.

Mrs. Mary Fuller Passes.

Mrs. Lavina Fuller, widow of the late Charles Henry Fuller, who died seven years ago, passed away Thursday of last week, at the home of her son, Dr. Carl L. Fuller, 803 Victoria avenue, Windsor.

Mrs. Fuller, who was 86 years of age, was a native of Madoc, Ont., but lived at Union-on-the-Lake most of her life. Mr. and Mrs. Fuller had eight children, six of whom are still alive. Besides Dr. Fuller, there are four sons and a daughter surviving: Cecil J., of Kingsville; Glen Minto, of Windsor; Harold, of New York; Ferguson, of London; and Maribelle (Mrs. John A. Murray) of Detroit. Three sisters and a brother, Mrs. Florence Farquharson, of New Westminster, B.C.; Mrs. A. E. Johnston, of Vancouver; Mrs. Ethel Dunlop, of Moore Park, Man., and Harry Elliott, of Saskatoon.

Funeral services, in charge of Rev. Dr. Paulin, were held from the Sutton Funeral Home on Saturday, with burial in Greenhill cemetery, Kingsville.

The older residents of town will remember when the Fuller family resided on Brien avenue west, in town.

Howard Girty Laid to Rest.

Funeral services were held Monday for Howard Edsel Girty, 30-year-old resident of Kingsville, who died Saturday at Grace Hospital, Windsor.

Rev. J. T. Fleming officiated at the rites held at the Crawford & Son Funeral Home. Interment was in Greenhill cemetery, Kingsville.

A son of Edsel Girty, well known local insurance agent, he was born in Kingsville in 1917, and received both his public school and high school education in his home town. He served his printer's apprenticeship at the office of the Essex County Reporter, leaving his work to enlist in the R.C.A.F. in 1941. He served 18 months overseas.

On his return, he became a member of the International Typographic Union and, at the time of his death, was enrolled at the veterans school in Toronto. In addition to an active interest in sports, he was a member of the choir of Epworth United Church and also belonged to the Canadian Legion, Branch 138. He was a former member of the Kinsmen Club.

Surviving him are his parents, one brother, Dwight, of Windsor; and three sisters, Jean, Lucille and Loraine, at home. A brother Lloyd, was killed overseas four years ago.

Burley Classifier South Woodlee Man.

M. A. Drew, chairman of the Burley Tobacco Marketing Association of Ontario, announced Monday that Jack Wilcox, of South Woodlee, had been appointed chief classifier for the board.

Mr. Wilcox will replace W. F. Malott, of Cottam, who retired recently. It was announced that classification of the 1947 burley crop will commence October 27th.

Shepley-Abbott Nuptials.

The recent marriage of Miss Nelda Abbott, daughter of Mr. and Mrs. Michael Abbott, to Manley Shepley, son of Mr. and Mrs. James Shepley, of New Canaan, was solemnized at the United Church parsonage, Kingsville.

The bride wore a floor-length gown of white silk jersey gathered at the shoulders and waist. Her veil was held in place with a garland of white roses, and she carried a bouquet of white baby chrysanthemums.

Her sister, Miss Neah Abbott, as bridesmaid, chose a pink gown and a shoulder-length veil caught with a blue flower headress. She carried pink chrysanthemums.

The bridegroom was attended by William Campbell, of New Canaan. A reception for the immediate families was held at the home of the bride's sister, Mrs. Ernest Finch, in Leamington.

The bride's mother was dressed in a flowered dress with a corsage of bronze baby chrysanthemums, and the bridegroom's mother wore black figured crepe and a corsage of bronze baby chrysanthemums.

The bride and groom left for Niagara Falls and Atwood, the bride wearing a light blue suit with black accessories, and a corsage of pink baby chrysanthemums. Mr. and Mrs. Shepley will reside in Harrow.

Memorial Park !!!

On Thursday, October 17th, a group of town citizens gathered together for a general discussion on the merits of a Memorial Park. All to the last man were unanimously in favour of the idea — and why shouldn't we all? We are the only town in Essex County that hasn't a lovely park for the people to enjoy, and what would make a more fitting memorial to commemorate those of our friends and comrades that did not come back — a park — to build the type of youth and country that these lads had fought for. So, don't forget them as we help ourselves to attain better things for our town of Essex.

First off, if you don't realize it, this project will take the time and energy of all to put it across. No real definite plans are laid as yet, but at the meeting on Thursday, the 23rd inst., we hope some definite plan is established and then, it will be your turn to help out. So inquire of your friends, discuss these possibilities and plan to become a member of the Memorial Park Athletic Association.

We can help you, if you help us.

O'Neil-Patterson Wedding.

Bronze and yellow chrysanthemums decorated All Saints' Anglican Church, Windsor, for the marriage recently of Miss Margaret Anna Grace Patterson, daughter of Mr. and Mrs. A. V. Patterson, of Howard avenue, Windsor, and Byron Nelson O'Neil, son of Mrs. Ernest O'Neil, of Campbell avenue, Windsor, and the late Mr. O'Neil.

Given in marriage by her father, the bride wore a white chiffon velvet gown styled with a high neckline, long sleeves coming to points over her wrists, a basque waist, a bustle back and a skirt extending into a train. Her long veil, which extended beyond the train of her gown, was embroidered in white silk, and caught into a Juliet cap. She carried a white prayer book, topped with baby chrysanthemums and showered with ribbon streamers.

The maid of honour, Miss Frances Carter, wore tangerine chiffon velvet, styled with a square neck, draped sleeves, a low-cut back, and skirt extending into a slight train. She wore a matching headress and carried an arm bouquet of white baby chrysanthemums.

The bridesmaids, Miss Doreen Smith and Miss Anne Hall, wore royal blue chiffon velvet, and carried bouquets of bronze and yellow chrysanthemums.

The best man was William Porter, and the ushers were John Richards and Leonard Brooks.

Miss Mary Duck sang "Because," "I Love Thee," and, during communion, "The Lord's Prayer."

A reception for 130 guests was held at Smith's Auditorium, Windsor, the bride's table being covered with a lace cloth, and centred with a four-tiered wedding cake set in tulle and white chrysanthemums.

Receiving the guests were the bride's mother, in salmon pink crepe made with a draped neckline and three-quarter-length sleeves. Her cocoa brown hat was trimmed with a pink plume, and she wore Tallman roses.

Assisting was the bridegroom's mother, in a fuchsia, two-piece crepe dress with beaded trimming on the bodice and at the neckline. She wore a matching fuchsia feathered hat and Joanna Hill roses.

Following the wedding trip to Sherwood Inn, Muskoka, Mr. and Mrs. O'Neil will take up residence on Windermere Road, Windsor.

George Gerard Dies.

George Gerard, aged 77 years, well known Sandwich South farmer, passed away on Friday of last week, while on a visit to Detroit. He had farmed all his life, and had been a rural mail carrier for years.

Surviving are a son, Llewellyn, at home, and a daughter Marguerite (Mrs. Thornton) of Windsor; also a brother James, of Windsor, formerly of Essex, and a sister, Miss Nellie Gerard, also of Windsor. His wife, the former Melena Collins, predeceased him in 1944.

Funeral services were held from the E. J. Hicks Funeral Home, Essex, on Monday, in charge of Rev. Joseph Tully, and burial was in North Ridge cemetery.

Mrs. Annie Dresser Passes.

Miss Annie Dresser, aged 77 years, widow of the late Christopher Dresser, passed away at her late residence, 9th Concession of Gosfield North township, on Friday, following an illness of five days.

She was born in Middlesex County, October 19th, 1869, a daughter of the late Harvey Dairs and Annie Cook.

Surviving are five children, Burdette, of London; Ida (Mrs. Tyler Humbert) and Albert, of Leamington; William and Carl, of Gosfield North; and a brother, William J. Davis, of Lambeth, Ont.

Funeral services were held from the family home on Sunday, in charge of Rev. C. E. Taylor, with burial in Arbuna cemetery.

Westlake-Malott Nuptials.

White tapers and white baby chrysanthemums decorated Essex United Church for the marriage of Miss Mildred Alice Malott, daughter of Mr. and Mrs. M. J. Malott, and Maxwell Ernest Westlake, son of the late Mr. and Mrs. L. Westlake and the nephew of Mr. and Mrs. R. H. Plato, of Cornbar.

Given in marriage by her father, the bride wore a gown of white slipper satin, styled with a sheer nylon yoke, a bouffant skirt of pointed de esprit and long sleeves coming to points over the hands. Her floor-length veil was caught in a halo of white velvet roses, and she carried a Testament topped with white roses. Her only ornament was a string of pearls, gift of the groom.

The bride's only attendant was her sister, Mrs. Burton Primeau, of Windsor, who wore a gown of blue satin, styled with a sweetheart neckline, puffed sleeves and a tiered skirt. Her shoulder-length veil was caught into a blue satin Dutch cap, and she carried Joanna Hill roses.

Burton Primeau was best man, and the ushers were Lorne Badman and Albert Wright, both of Cornbar.

Miss Helen Martin and Miss Amy Atfield, of Essex, sang as duets, "Because" and "At Dawning," and the accompanist was Miss Marjorie Allen, of Kingsville.

A reception for 65 guests was held in the church basement, the bride's mother receiving in a black dress with gold sequin trimming, and black accessories. The bridegroom's aunt, Mrs. Plato, wore a gray checked suit and cerise accessories.

Mr. and Mrs. Westlake left on a trip to Niagara Falls, the bride travelling in a powder blue suit with black accessories.

Remembrance Sunday Union Service.

Plan now to attend a Union Service of Witness on Remembrance Sunday, November 8th, at 8 p.m., in Essex Town Hall. Ministers of the Anglican, Baptist, Pentecostal, Salvation Army and United have co-operated to make plans for this gathering. All these congregations will meet at the Town Hall for this occasion. Special music will be provided by visiting talent. By unanimous request of the clergy a Salvationist speaker will be coming from Toronto. Every able bodied citizen of Essex who claims faith in God should be at this service.

Auto Accidents.

Leaving the highway at the Old Oaken Bucket curve, on Highway No. 3, between Essex and North Ridge, a truck owned by Ray Pitman, aged 21, of Lincoln Park, Mich., was damaged to the extent of \$500 when it crashed into a telephone pole.

No one was seriously injured. Another accident happened Saturday when two trucks collided on the McGregor Road. A Lyons transport truck, driven by Russell Ducharme, 1480 Howard avenue, Windsor, struck a truck owned by the Harrow Farmers Co-operative, driven by Edward Tremblay, of Harrow. Tremblay slowed down to make a left hand turn into a driveway and Ducharme, travelling in the same direction, failed to see him in time. The front end of his truck crashed into the Harrow truck, causing some \$200 damage to the transport.

There was another accident, on the Graham Sideroad, Saturday, resulting in severe injuries to a horse which later had to be destroyed. The accident occurred when Dolphis Lafreniere's car crashed into a wagon and team owned and driven by Archie Harbort, R. R. 1, Cottam.

IN MEMORIAM
In loving memory of William Harrison, who passed away 7 years ago, October 23rd, 1940.
His smiling ways and pleasant face
Are a pleasure to recall;
He had a kindly word for each,
And died beloved by all.
Some day we hope to meet him,
Some day, we know not when,
To clasp his hand in the better land
Never to part again.
—Fondly remembered by his wife and family.

IN MEMORIAM
In loving memory of a dear husband and father, Thomas Davison, who passed away 3 years ago, October 23rd, 1944.
The rolling stream of life rolls on,
But still the vacant chair
Recalls the love, the voice, the smile,
Of the loved one who once sat there.
—Fondly remembered by his wife Anna, and daughter Dorothy.

IN MEMORIAM
In memory of our dear mother, Mrs. Thomas Henderson, who passed away October 24th, 1943.
Not now, but in the coming years,
It may be in the better land,
We'll read the meaning of our tears
And then someday we'll understand.
—Sadly missed by her family.

IN MEMORIAM
In loving memory of a dear husband and father, Howard Coneybeare, who passed away three years ago, October 25th, 1944.
Thoughts return to scenes long past;
Years roll on, but memory lasts.
Time takes away the edge of grief,
But memory turns back every leaf.
—Fondly remembered by his wife and family.

IN MEMORIAM
In cherished and honoured memory of my dear son, Cpl. Bruce Taylor, who was killed in Holland three years ago, October 23rd, 1944.
There is a mother who misses you sadly,
And finds the time long since you went
And I think of you daily and hourly,
And try to be brave and content.
But the tears that I shed in silence,
And I breathe a sigh of regret,
For you were mine, and I remember,
Though all the world forget.
—Ever remembered by his lonely mother.

IN MEMORIAM
Henderson — In loving memory of our dear mother, who passed away four years ago, October 24th, 1943.
It's lonesome at home without you,
Yumas,
And so the weary way,
For life is not the same to us
Since you were called away.
If we had all the world to give,
We'd give it, yes, and more,
To hear your voice, to see your smile,
And you to greet us at the door.
So you who have a mother,
Cherish her with care;
You'll never know a heartache,
'Till you see her empty chair.
—Fondly remembered by her son Bill, daughter-in-law Madeline, and family.

Card of Thanks—Mrs. A. Millen and family wish to express their sincere thanks and gratitude to friends and neighbours for their many acts of kindness and expressions of sympathy shown them in their recent bereavement. Farm Machinery.

For the past few years, the machinery industry has been in a state of transition. The demand for new machinery has been high, and the supply has been limited. This has led to a shortage of new machinery, and many farmers have been forced to use old machinery. However, the situation is changing. The demand for new machinery is still high, but the supply is now increasing. This is due to a number of factors, including the fact that many manufacturers are now producing more machinery than they were in the past. This means that farmers can now get new machinery more easily than they could in the past. This is good news for farmers, as it means they can now get the machinery they need to keep their farms running smoothly.

IT'S EASY AS 1-2-3!

WE CAN CHANGE OVER YOUR STEEL WHEELS TO GOOD YEAR Sure-Grips

and give your tractor **Super TRACTION!**

The Goodyear change-over method makes it easy to switch from sluggish steel wheels to hard-working Sure-Grips. With Sure-Grips your tractor will do more work... in less time... on less fuel... Sure-Grips pull better in any soil... give super-traction.

GEM'S FOR YOUR

Truth-Telling.
Truth never hurts the teller.—Robert Browning.

Speaking truth is like writing fair, and only comes by practice.—John Ruskin.

He that speaks the truth executes no private functions of an individual will, but the world utters a sound by his lips.—Emerson.

Though all the winds of doctrine were let loose to play upon the earth, so Truth be in the field, we do not indignously, by licensing and prohibiting, to mislead her strength.—Sir John Suckling.

Once to every man and nation comes the moment to decide, in the strife of Truth with Falsehood, for the good or evil side.

—James Russell Lowell.

A lie left to itself is not so soon destroyed as it is with the help of truth-telling.—Mary Baker Eddy.

Since it is normal to feel tired at the end of the day, our eyes need rest as much as our bodily functions. But, authorities tell us that the eyes should not feel unduly uncomfortable during waking hours. Normal eyes, need not develop strain. If they do, the doctor should be asked to examine them to determine whether glasses are needed or whatever corrective measures should be taken.

Mr. Abbott Talks.
Interest continues in the address delivered last week on prices and taxes by Canada's Minister of Finance, Hon. D. C. Abbott. Few other subjects could have made the greatest impression was that, if Canada is to remain a trading nation, it cannot entirely isolate its economy or price structure from the rest of the world. "Most Canadians are realistic," we have realized that it is not practical to attempt to keep Canadian prices indefinitely far below world levels.

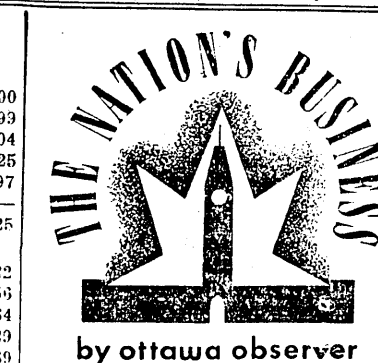

Both agriculture and industry in Canada are well aware that one-third of our income is derived from external or "foreign" trade. If we lose that third of our income by maintaining an artificial price structure we would not be able to buy all our needs or wants even at low prices.

Accomplishments Real.
Mr. Abbott outlined the real accomplishments of the "control and orderly decontrol" policies of the government. Price control was a war emergency measure (carried out under special emergency powers acts of parliament) which prevented the war shortages from unduly raising prices particularly of consumer goods. Once the state of emergency ceases to exist the government's emergency powers lapse. Controls on rents, and a few other things which remain in an "emergency" condition, are retained. Or, "emergency" condition, are retained. Or, "emergency" condition, are retained.

Mr. Abbott compared prices today with prices after World War I under conservative administration, when there was \$9 a barrel and sugar 25¢ a pound.

Economics and Propaganda.
The publisher of Time Magazine, speaking in Montreal last week, challenged the proposal that the Marshall plan for economic aid to Europe would effectively block aggressive communism and socialism on the continent.

"Canada and the United States must be prepared to battle with Russia in the field of ideas and propaganda," the speaker charged. "The Marshall plan is a tool of propaganda, not of economics. It is a tool to disguise the obvious and continue to disparage everything Canada does."

Economics and Propaganda.
The publisher of Time Magazine, speaking in Montreal last week, challenged the proposal that the Marshall plan for economic aid to Europe would effectively block aggressive communism and socialism on the continent.

"Canada and the United States must be prepared to battle with Russia in the field of ideas and propaganda," the speaker charged. "The Marshall plan is a tool of propaganda, not of economics. It is a tool to disguise the obvious and continue to disparage everything Canada does."

Mr. Abbott compared prices today with prices after World War I under conservative administration, when there was \$9 a barrel and sugar 25¢ a pound.

Shrine Holds Ceremony Rites.

Sixteen hundred Nobles, members of the Ancient Arabic Order of the Nobles of the Mystic Shrine, long known as the playground of Masonry, made merry Friday, in London, at the fall ceremonial of Mocha Temple, A. M. N. O. S.

The gathering, beckoning members from all parts of Ontario and from several shrines of the order in Michigan and New York, was the largest gathering of shriners ever to be held in London.

Initial ceremonies which highlighted festivities held in the London Arena, saw the induction of nearly 100 members to Mocha Shrine in that city.

Among the candidates were William Vass, Horace Clements, Art Bowden, Earl Pulleyblank, of Essex, and Gordon Clickner, of Belle River.

Ceremonies were conducted by celebrants of Elit Khurafah Temple, Saginaw, Mich., the first full unit of a shrine ever to appear in London.

More than \$16,000 in checks was presented to the Shriner's Crippled Children's Hospital during the course of the evening's activities.

The greater part of this came from proceeds of the Shriner's K. of C. baseball game held in London recently.

Highlights of the evening at the Arena was the presentation of a check for \$12,655 by the London Knights of Columbus jointly with the Mocha Temple to the Shriner's Crippled Children's Hospital, at Montreal.

John Cox, Grand Knight of the K. of C., gave the check to governors of the hospital and introduced members of the K. of C. committee to cheering nobles of the shrine.

Travelling with the Nobility were Nobles J. Roy Johnston, Ed. Hines, Charles Brumshett, Elgin Anderson and Don Wilson, of Essex.

Court of Revision on Assessment Roll.

Friday, October 24th.

The members of the Court of Revision for the town, viz., Dr. A. E. Benson, L. W. Allison and S. Francotte, met in the Council Chamber, at 8 p.m., and passed judgment on appeals of assessments on the 1947 assessment roll.

All subscribed to their oath of office, as Dr. Benson was appointed chairman.

Wilfred Bauer appeared personally to appeal. His assessment was \$200 on garage, \$600 on house and \$400 on land. After discussion Court reduced assessment on buildings by \$200, thus reducing total assessment from \$1,200 to \$1,000.

P. Birch, neighbour of Mr. Bauer, also was present. His assessment was same as Mr. Bauer's as to buildings, \$200 on garage, \$600 on house. Assessment on buildings reduced \$200 to \$600, with \$284 on land, making total assessment \$884.

Lloyd Linton told Court the assessment on his property had nearly doubled since he purchased same. He considered himself over-assessed in comparison to other nearby properties. Court reduced his assessment on buildings from \$1,600 to \$1,100, leaving land same at \$200, making total assessment \$1,300.

Ted Richardson appealed on his assessment of \$400 on land and \$1,100 on buildings, as being too high for condition and age of house. Buildings reduced by \$100.

Vic Miller appealed on the partial assessment of his new home under construction, of \$100 on land and \$1,460 on building.

This brought on a lengthy discussion on assessing of partially finished new homes and when the members were assured by the assessor that the figures would stand as assessment on which 1948 taxes would be computed and assessment not revised on his supplementary roll, the original assessment was confirmed.

N. Boldin appealed on his assessment of \$150 on land and \$700 on buildings. He stated assessor had again raised him \$50, the amount the Court had decreased him in 1946.

The assessor stated Mr. Boldin had made some improvements during the year, so Court confirmed assessment.

Wm. Truettale's assessment, marked partial by assessor, of new home he is building, of land \$50, building \$1,200 was reduced to \$1,000 on building with same understanding with assessor as to Vic Miller's, viz., that the reduced total assessment of \$1,050 would stand for taxes for 1948.

A. Michael appealed on added assessment of \$200 on small building erected at rear of building used by A. Puhler, lot 24, plan 176.

Chairman Dr. Benson said he had personally looked into this and considered that the \$200 should be struck off, but the additional \$60 on 1946 assessment be confirmed.

The final appeals of A. Michael and Jack Ellis, on lots 1, 3, 4, 5, Plan 303, and lot 2, plan 303 respectively on land values, were confirmed by the Court when assessor explained method used in reaching the figures of \$504 and \$193 respectively. Building assessment of J. Ellis of \$1,800 was also confirmed. Court adjourned.

During the sittings Assessor E. Richardson presented the following notes, asking same to be published with the minutes of the Court of Revision:

Town of Essex Assessment — September 30th, 1947.

The reason for making the assessment each year at this time, is to lay a foundation of property values on which to finance the town for the year that lies ahead.

The Assessment Act lays down the principles upon which assessments are made. As property-owners, we are individually called upon to assume a share of what is sometimes called the burden. This should not be a burden, if as good citizens, we take pride in the building up of our town. We should share willingly, as individuals, in the cost of building up the community for the benefit of all its citizens.

Our tax dollars pay for cost of management and extension of services to property owners. The cost of these services has greatly increased. Town labourers are now paid 65c per hour instead of 50c as last year, supplies required in extending drains and other services are much more costly.

The increasing demand for these services, coupled with the shrinking value of our tax dollars, as compared to their cost, has forced a revision of property values.

It has been stated that new properties will usually provide sufficient revenue for the increased services, but due to high cost of construction, the majority of buildings being erected are smaller with low assessment. Even so larger assessments of older properties require revision, in order that both bear their share of extra costs, due to the general depreciation of our tax dollars.

The town must have revenue sufficient to finance services required by its citizens.

Spiritual force is stronger than material; thoughts rule the world.—Emerson.

Remembrance Sunday Union Service.

As announced last week, all the churches of the Town of Essex are uniting, on Sunday, November 9th, at 11 a.m., for a Remembrance Sunday Service in the town hall. The guest speaker will be Adj. Arnold Brown, of Toronto, outstanding preacher and musician. Come and hear his message. Details will be given later regarding special music for the occasion.

Open Night.

The week of November 2nd to 9th is known as Educational Week throughout Canada. Accordingly, the staff of the Essex Public School and the members of the School Board announce an Open Night on Tuesday, November 4th, at 7:45 p.m., when parents and friends of the students may have an opportunity of visiting and inspecting the school and the work of the pupils. In addition a short program, by the pupils of several grades will be put on over the Public Address Systems at 8:15, an entertainment which may be heard equally well in any part of the building. The general public is, therefore, asked to reserve next Tuesday evening for a visit to the Essex Public School.

Hill-Jefferson Wedding.

At a lovely ceremony at St. Paul's Anglican Church, Miss Iris Jefferson, daughter of Mr. and Mrs. George Jefferson, of Cottam, was united in marriage to Calvin Hill, son of Mr. and Mrs. Marvin Hill, of Maidstone, the Rev. J. H. Whelan officiating.

Given in marriage by her father, the bride wore a gown of white lace, the yoke of net edged with a lace-trimmed and long sleeves pointed over into a train. Her fingertip veil was held in a tangle of small flowers, and she carried a bouquet of red roses.

Mrs. J. J. Trimble, as matron of honour, was gown in pink lace, and Miss Isobel Simpson, as bridesmaid, was in blue sheer. They wore shoulder-length veils held with small flowers and carried bronze chrysanthemums.

Rosmary Drenth, as flower girl, wore a pale green net frock and carried a nosegay of yellow baby chrysanthemums.

Mr. Trimble was best man and the ushers were Roy Leng and Marvin Hill.

A reception was held at the home of the bride's parents following the ceremony and in the parish hall in the evening.

Mrs. Jefferson wore for her daughter's wedding, a black dress, sequined, and Mrs. Hill, mother of the bridegroom, wore a blue-flowered dress. They wore pink shoes.

Mr. and Mrs. Hill will reside in Leamington.

Ambassador Lodge Officers Installed.

At the regular meeting of Ambassador Lodge, held on Wednesday evening, Mrs. Elizabeth Thornton, of Comber, District Deputy President, and her staff, installed the following officers:

Junior Past Noble Grand, Mrs. L. Lee; Noble Grand, Mrs. Grace Cousins; Vice-Grand, Mrs. Orpha Gull-Steed; recording secretary, Mrs. Lillian Steele; treasurer, Mrs. Emma Gunn; financial secretary, Mrs. Florence Tolson; right support to N.G., Mrs. Maude Billing; left support to N.G., Mrs. Maude Harold; right support to V.G., Mrs. Ida Maedel; left support to V.G., Mrs. Ruth Jackson; warden, Mrs. Olive Arter; conductor, Mrs. Irene Rounding; outside guardian, Mrs. Grace Mole; inside guardian, Mrs. Elizabeth Russell; chaplain, Mrs. Bertha Kendrick; musician Mrs. Florence McPherson.

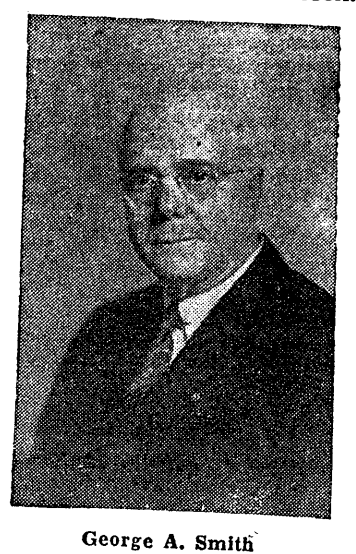

Our Essex Boys' Band

Too few of our citizens realize the value of the Boys' Band to our town, yet we have a band, under Bandmaster Robinson, that meets every Wednesday evening in the concert room for practice. Every month this band is called upon to play at some particular function or to give a band concert in one of the towns in South Essex. The name Essex on the base drum gives to our town a place of distinction.

The Essex band is the envy of towns much larger than ours. This is said to effect a still greater appreciation on the part of our people. In a few weeks a concert is being planned for the citizens. It will be lamentable if the hall is not packed to capacity for this evening's entertainment. Possibly, no more than a hand selection, so this is an opportunity for the people of Essex to show our appreciation for the work of our band.

Further, an appeal is being made to parents to encourage their boy and girl to join our band and then see they attend practice regularly. There is an instrument for your son and daughter to play. Lessons are given by the bandmaster, and when sufficient progress is made, the pupil becomes an active member of the band. "A boy who blows a horn never blows a safe."

Pays Official Visit to Essex.

George A. Smith

"If you don't go out of a Rotary meeting and do a better job, there's either something wrong with Rotary, or with you," George A. Smith, district governor, told the local club, Monday evening.

Mr. Smith reviewed the San Francisco convention, in a brief talk to the club. He defined Rotary as "an organization of men who care for fellowship, fun, and affiliation in a group."

Six men were admitted as new members, Norman Affleck, James Cordery, Vincent Hoy, Howard Myles, Elmer Queen and Dick Sweet.

Mrs. Ruby Belcher Dies.

Mrs. Ruby Belcher, widow of the late Fred W. Belcher, passed away at her late residence, Victoria street, Essex, on Tuesday, at the age of 84 years.

Deceased had been a resident of Essex and North Ridge all her life, and her husband having worked the farm at North Ridge now owned by E. Kettlewell, until they retired and moved into town. She was a member of Essex United Church.

Surviving are four daughters, Ora (Mrs. Wm. Brown), of San Antonio, Tex.; Olla (Mrs. S. H. Sadler), of town; Stella (Mrs. B. A. Holbeck), of Aylmer; and Bertha (Mrs. J. S. Coulter), of Windsor; two sons, Darius, of town, and Jason, of Woodstock; also a sister, Mrs. Kenneth Forries, of Harrow; 19 grandchildren and 22 great grandchildren.

Resting at the E. J. Hicks Funeral Home, where services will be held Friday at 2 p.m., in charge of Rev. R. H. Durr. Burial will be in Greenhill cemetery, Kingsville.

Canadian Bank of Commerce Opens Branch in Essex.

On Monday next, the Town of Essex will welcome a new bank to its ever enlarging business section. The Canadian Bank of Commerce will commence business in the completely renovated bank premises at the corner of Talbot street and Wilson avenue.

Essex has been chosen as the first location in Essex County, outside the City of Windsor, for this progressive bank to establish a new branch.

R. B. Robertson, who has been appointed manager of the branch, has had wide experience in the entire banking field with special training in personal loan work, having served as a special representative in this connection for several years at the Head Office of the bank in Toronto. Mr. Robertson is extremely pleased with his transfer to Essex and hopes to move his wife and family here in the very near future.

Assisting Mr. Robertson in establishing this new branch, in serving in the capacity of accountant will be William Iveson, a veteran of the R.C.A.F. In the last war, who, until recently, has been associated with the bank at Drouillard Road Branch, Windsor.

The branch will open with a staff of four, but additions to its personnel will be made as business demands.

The Canadian Bank of Commerce will offer a complete banking service to the citizens of Essex and surrounding district and they take pleasure in inviting the public to make use of these facilities for all their banking requirements. In addition to this branch banking departments, this bank will introduce the well-established Personal Loan Plan of the Canadian Bank of Commerce, which caters especially to wage earners and salaried employees. Also full attention will be given to Farmers' Loans, Veterans' Loans, Business Loans and during the current campaign the sale of Canada Savings Bonds will be foremost in the bank's routine. It will be the intention of Mr. Robertson and his staff to give efficient and courteous service at all times and they assure the people of the district that all transactions entered into with the branch will be handled in a considerate and friendly manner.

The manager and staff extend a warm invitation to all citizens to drop in and look around the new premises on Saturday afternoon and evening when open house will be held from 2 until 9 p.m.

Y. P. A. Notes.

—As the lure of Hallowe'en con-
fronts us all memories of this event
makes us turn to thoughts of grem-
lins, witches, pumpkins and costumes.
On Monday last the Essex Young
Peoples joined with Elford, in the base-
ment of Grace United Church, for an
evening of real fun. Costumes were
judged and Amy Affleck and Lorne
Hankinson took the prizes for the best
costumes of the evening. The people
were divided into four groups, and
games, led by Jean McIlwain, Dorothy
McKenzie and Lloyd Harrow, decided
on the winning team, which was num-
ber four. These games were followed
by a light lunch, and this, in turn, by a
very moving worship service by Bob
Naylor, on music appreciation. At
this point the party came to an end
and everyone went home with smiles
and memories of an evening of fun.
Six members joined our group and
there is room for many more. Remem-
ber, any Monday night. Next Monday,
November 3rd, our Young Peoples are
going to Windsor to a musical even-
ing there.

IN LEGION BANQUET HALL.
Help Yourself to a Memorial Park.

Your Memorial Park.

Now has come the time when it is
your turn to act — you and every com-
munity spirited person in this town.
This is not a project for a few it has
to be backed by every member of our
community if it is to be accomplished.
Don't forget it will be your park,
and your support will make it look
the way we all would like to see it.
We all know that it is a horrible mess
now, but with your effort and support
the Memorial Park will be a dream
come true.

Come out to the meeting on Thurs-
day, November 6th, in the Legion room,
at 8.30 p.m., and give the project your
support by your presence.

IN MEMORIAM
In loving memory of a dear wife
and mother, Edith Bennett, who pass-
ed away November 2nd, 1939.

Not just today, but every day,
In silence we remember.

—Ever remembered by her husband
and family.

IN MEMORIAM
In loving memory of our dear mo-
ther and grandmother, Mrs. Martha
Boggs, who passed away two years ago,
November 2nd, 1945.

You always were so good to us,
Much more we cannot say,
But this we know, that no one else
Could ever be like you.
Nor could we, if we searched the world
Find anyone more true.

Ever remembered by her son Joe,
and family.

IN MEMORIAM
In loving memory of Benjamin Jos-
eph Deveau who passed away one year
ago, November 2nd, 1946

A loving friend, true and kind,
No one on earth like him we'll find.
For all of us he did his best,
And God gave him eternal rest.
In our hearts his memory lingers,
Sweetly, tender, fond and true.
There is not a day, dear father,
That we do not think of you.

—Always remembered by wife and
family.

"WHAT A GAME!"
... say our friends from the U.S. Hundreds every year come to Ontario to cheer their favourites. We can't always give them "blue-line seats," but let's be sure—in all our dealings with them—they get the best we have to offer. In short, let's see they have a really swell time!

IT'S EVERYBODY'S BUSINESS
... it's good business!
Ontario profits almost as much from tourist business as from gold mining. It's up to each of us to keep this business growing.

Canadians Breed World's Best Holsteins, Says Argentinian.

Speaking at the Brantford Championship Holstein Show, C. Alberto Lozano, editor of *Holando Argentino*, South America's leading Holstein paper, published in Buenos Aires, said, "I have inspected the herds in the leading dairy countries of the world and I can tell you in all sincerity that Canadians are a very friendly people and I can assure you that on my return home I will be an ambassador of goodwill between our two countries."

Some months ago Mr. Lozano visited Europe to inspect the Holstein herds of Holland and is currently touring Canada and the United States to inspect the Holsteins of this continent. He has visited the major breeding institutions in Canada and a number in the United States and has had an opportunity to study both United States and Canadian Holsteins at the leading shows of the two countries. On his return to Argentina he plans to publish a special issue of *Holando Argentino* describing by word and picture his visit here. In addition he has taken extensive moving pictures which will be shown to agricultural audiences in Latin America.

Canadians Breed World's Best Holsteins, Says Argentinian.

Speaking at the Brantford Championship Holstein Show, C. Alberto Lozano, editor of *Holando Argentino*, South America's leading Holstein paper, published in Buenos Aires, said, "I have inspected the herds in the leading dairy countries of the world and I can tell you in all sincerity that Canadians are a very friendly people and I can assure you that on my return home I will be an ambassador of goodwill between our two countries."

Some months ago Mr. Lozano visited Europe to inspect the Holstein herds of Holland and is currently touring Canada and the United States to inspect the Holsteins of this continent. He has visited the major breeding institutions in Canada and a number in the United States and has had an opportunity to study both United States and Canadian Holsteins at the leading shows of the two countries. On his return to Argentina he plans to publish a special issue of *Holando Argentino* describing by word and picture his visit here. In addition he has taken extensive moving pictures which will be shown to agricultural audiences in Latin America.

FARMERS WIN OVERSEAS TRIP.

Glen McFadden, of Millbank, Ontario, seated on the tractor which won him a free trip to B. B. Hare, of the International Plowing Match at Kingston, and with it the trip and a gold medal, both provided by Imperial Oil Ltd., which sponsored the class. Silver medalist Hare also gets a free trip and both boys to take part in British plowing matches early next year.

Modern Methods Demonstrated at Plowing Match.

Modern methods of preparing grain and seed for seeding were demonstrated daily at the International Plowing Match which was held near Kingston recently, by the Crops, Seeds and Woods branch, Ontario Department of Agriculture. The machinery on display included a sower for the removal of weeds, this, etc., from oats and barley before cleaning; a power seed and grading of grain and forage seeds; a Carter disc separator for removing impurities and making various separations of grains; a seed treater for the treatment of seed for control of seed-borne diseases; a portable seed cleaning plant; two farm fanning mills and a display of recommended screens.

Seed provided by local farmers will be sown, cleaned, graded, separated and treated in one operation. As farmers should be making their plans now for their 1948 seed requirements this display and demonstration of particular value and interest at this time. Farmers and seed cleaning plant operators were invited to bring their seed problems to this exhibit for attention.

It is in man and not in his circumstances that the secret of his destiny resides. Carlyle.

Raising Good Dairy Calves.
As the cost of raising a poor calf is almost as great as raising a good calf, the successful dairyman replaces his herd with calves from his best cows that have been bred to the highest quality bull obtainable.

Raising the dairy calf begins with the pregnant cow which has had proper feeding and care, particularly before freshening. At the Central Experimental Farm, Ottawa, says V. S. Logan, of the Animal Husbandry Division, the calf is removed from the dam immediately. The dam's first milk is fed for the first few days. The importance of feeding this colostrum is most important as it contains both laxative and disease-resisting qualities.

Whole milk is fed for the first four to eight weeks and is gradually changed to skim milk over a two week period. Less robust calves are kept on whole milk for a longer period than the healthier calves. Care is given to the health of calves, about one pound of milk for each ten pounds of body weight. As the change-over from whole milk to skim milk is made, the butterfat is replaced by scalded flax seed meal which forms a jelly. As the calves develop, a mixture of three parts of ground oats and two parts of peas are added to two parts of flax seed meal, scalded, making a porridge to be added to the milk. The feeding of this porridge is increased gradually until at three to four months of age the calves are receiving a cupful of skim milk. At four weeks the calves are encouraged to eat a dry grain mix, one part malt sprouts, one part alfalfa or fine clover carefully cut, should eat up to two pounds per day.

Only the best quality hay available should be fed to calves. Second cut alfalfa or fine clover carefully cut, makes a very good roughage. This is made available at about three weeks of age and fed in quantities that the calves will clean up. Succulent feeds such as silage or roots are fed, starting at about six months of age. Fresh clean water should be available at all times.

The feeding of vitamins to calves is recommended by some authorities. At the Experimental Farm no vitamin supplement is added, as it is considered that sufficient vitamin content is supplied in the ration. Under certain circumstances of apparent vitamin deficiency, the addition of vitamin capsules will alleviate scours and other types of unthriftiness.

To get the maximum returns from a dairy herd it must consist of well-grown healthy cows. Careful attention paid to the type of calves raised and their early feeding is the best insurance toward this goal.

Right thoughts and deeds are the sovereign remedies for all earthly woes.—Mary Baker Eddy.

"In Canada, the selection of an appropriate fertilizer is nearly as important as the choice of a field for successful commercial production."

Warren Lee Passes.

We don't know when the people of
Essex were more shocked than they
were on Friday morning, when they
learned of the sudden death of Warren
Lee, the previous evening, at his new
home at Centreview, Missouri.

Warren, son of Mr. and Mrs. Percy
W. Lee, of town, had just closed the
gate of an electric fence, and was
apparently standing against same,
when it was struck somewhere by a
bolt of lightning, the shock knocking
him down. Two lads, who were about
40 feet away, heard his cry and rushed
to him; Warren raised on his el-
bow and attempted to speak, but fell
back. While the one lad tried arti-
ficial respiration the other one rushed
for a doctor. An ambulance and two
doctors were soon at the scene, but
following several minutes of artificial
respiration the doctors pronounced
him dead, and the body was removed
to Canada & Ropp Funeral Home, in
Holden, Mo., where a service was
held, in charge of Elder Ward Hon-
zas, and the body was shipped to E. J.
Hicks, Funeral Director, at Essex.

A coroner's inquest findings were
that he came to his death due to an el-
ectric shock received during an elec-
tric storm while opening a gate of
an electric fence.

Deceased, who was born in Essex,
July 25th, 1924, resided in town all his
life, except from October, 1944 to Feb-
ruary 1946, time he spent in the R. C.
N. Y. R. After graduating from Essex
High School he worked for Maedel's
Beverages, until moving to Centre-
view on August 29th last. He was one
of the first to join the Essex Boys'
Band on its formation.

Surviving are his widow, the former
Lella Kendrick, daughter of Mr. and
Mrs. John Kendrick, now of Centre-
view, formerly of Maidstone Town-
ship; his parents; a brother David, and
his grandparents, Mrs. Eva Maedel.

Funeral services, in charge of Rev.
R. H. Parr and Elder Kettlewell, were
held from the E. J. Hicks Funeral
Home on Monday, with burial in Green-
hill cemetery, Kingsville. Mrs. (Dr.)
Brown was soloist and the pallbearers
were Maxwell Roberts, Bob Billing,
Dr. Charles Benson, Willis Ransom,
Roger Lansing, of Essex, and Ronald
Reise, of Harrow.

The funeral cortege was led by the
Associated Boys' Band, of South Es-
sex, who played to the tune of town
and again at the graveside at the
cemetery.

Our Band.

These little articles are written for
a certain purpose, to arouse greater in-
terest in this organization. Few citi-
zens really appreciate what the band
means to our town.

If the band were to become disor-
ganized, steps would immediately be
taken by interested persons to see
the meaning of this act. But, so long
as we have a strong committee, the in-
terest of the citizens and our band
leader, this could not happen. Except
for one cause our band will carry on.
This cause is necessarily the lack of
financial support.

In the past our band has been sup-
ported by voluntary aid. This is a
very weak link, depending on the sac-
rifice and good will of the few. This
method has already proven faulty
in the lack of transportation and meals
while our boys and girls are away
from home. We do not believe the
members should be responsible for this
cost.

A plan has been proposed to the
Council for the coming year. A bylaw
permitting a 1/2 mill assessment, in the
interest of the band, will be brought
before the people at the municipal el-
ection. This increased assessment will
only cost the ratepayers fifty cents on
the thousand dollar assessment. Not
very much considering the service
rendered by the band.

Should this bylaw become effective
the worries of the support of our band
will be over. By voting yes, you can
show your appreciation to the band
and encourage character-building in
our youth. Long live the band!

Mrs Alex Dawson Dies.

Mrs. Josephine Dawson, aged 77
years, wife of Alex Dawson, well
known Sandwich South farmer, passed
away at the family home, on Tuesday
evening, following a lengthy illness.

Deceased, a daughter of the late
George Higgins and Minnie Halford,
was a lifelong resident of the Maid-
stone district. She was a member of
the C. W. L. and the Altar Society of
St. Mary's Church.

Surviving, besides her husband, are
three sons, Milford, of Woodstock;
Thomas, of Tecumseh, and George, of
Maidstone Cross; two daughters, Al-
ma, at home and Mary, of Detroit; also
a brother, Ahe Higgins, of Amherst-
burg.

Funeral services will be held this
(Friday) morning at 8.30 a.m. at the
home of her son George, to St. Mary's
Church at 9. Burial will be in the
church cemetery.

Open Night.

Education work was observed in the
Essex Public School on Tuesday even-
ing, in the form of Open House. In-
structions were issued to ratepayers,
parents and friends, of whom some
hundred were present to meet
the teachers, see the work of the pu-
pils and hear a good program of vocal
and instrumental music over the pu-
blic address system, under the di-
rection of Alex Dubis, supervisor of music.

Much interest was evidenced in the
new type of art, initiated by Miss Edith
Atkinson, supervisor of art. Each
grade specialized in some particular
activity of educational value to the
pupils, which was not only revealing
but interesting to their parents. Sev-
eral short addresses followed. Prin-
cipal J. A. Dowsell recalled the gift
from the Collin Weston Estate which
provided the means for the purchase
of the Public Address System, after
which he presented thirty-one certi-
ficates to successful entrance pupils
last June.

Mayor J. C. Linton expressed his
delight with the condition of the build-
ing and with the evidence of activity
on the part of the pupils.

Hunter Harrow was pleased with the
invitation of so many in attending the
invitation to the Open House, and
thought it should be repeated next
year.

Inspector Wm McCordie congrat-
ulated the pupils on their work, and
complimented the Board on equipment
and supplies provided.

Inspector Craig, of Hamilton, who
is giving temporary assistance in visit-
ing Essex County Schools, was pleased
to see the product of an Essex
County school.

The evening closed with a ten-min-
ute pep-show based on "The Pied
Piper from Hamelin," by some pupils
from Grade VI.

Old Essex Resident Dies.

Injured internally when he fell over
a fence while shooting pheasants, on
Saturday of last week, Fred Hyatt,
aged 82, of Leamington, died early
Monday morning, in Hopewell Hospi-
tal.

Mr. Hyatt was born in Romney
Township and had been for years
a resident of Leamington, moving there
from Essex 25 or 40 years ago. He
was retired and was an active member
of the Leamington United Church.

Besides his wife, he is survived by
three sons, Elgie, Nelson and Man-
shall, all of Leamington; two daugh-

Base Ball Notes.

A special meeting of the North and
South Essex League has been called
for 2.30 p.m. Sunday, in the Aberdeen
Hotel, Essex. Managers of the teams
in the league are requested to bring
in scores of each game played and list
of games won by each pitcher, so
trophies to winners may be awarded at
annual banquet, to be held in St.
John's Church basement, Woodlee, on
Tuesday evening, November 18th. Rev.
Fr. John Murphy will be guest speaker
at the banquet, which will be followed
by a social evening in the parish hall.

Stewart-Tuite Nuptials.

On Saturday, November 1st, St. An-
drew's Presbyterian manse, Victoria
avenue, Windsor, was the scene of the
marriage of Catherine Tuite, daughter
of Mr. and Mrs. J. P. Tuite, and Don-
ald Stewart, son of Mrs. Helen Corson,
of Detroit, and A. G. Stewart, of Peter-
borough.

Rev. H. M. Paulin officiated at the
doubbling ceremony, when the bride
was given away by her father. Follow-
ing a reception for the immediate fam-
ily, at the home of the bride's parents,
the couple left by plane for a honey-
moon in Montreal, and upon their re-
turn will make their home at 17
Willis E. Apt. 16, Detroit.

Memorial Park Advancement.

Interest in the Memorial Park is
spreading fast and rightly so, when
everyone understands that it is going
to be something they have never had
and something that is sorely needed
in this town of ours.

You can remember the last time you
were down at the Fair Grounds when
you remarked "What an unsightly
place." Too true, now just let's do
something about it. Don't sit back in
your comfortable shell — let's all go
out and help ourselves to a new and
better Memorial Park and recreational
centre.

Show that you are all interested by
coming out on Thursday, November
7th, at 8.30 p.m., to the Legion banquet
room.

Remembrance Sunday Union Service.

This Sunday at 8 p.m. in the Town
Hall, all the churches of the town of
Essex are uniting for a special Remem-
brance Sunday service. Adjt. Arnold
Brown, outstanding preacher, from To-
ronto, will be the guest speaker. Spe-
cial music will be provided by a girl's
vocal trio from Windsor. Ministers of
the Anglican, First Baptist and United
Churches, Pentecostal Tabernacle and
Salvation Army will take part in the
gathering. Every God-fearing man and
woman in Essex should be at this ser-
vice. At 7.30 there will be a prayer
meeting at the St. of Parkhill, Ont.,
by Rev. C. E. Williams, to seek God's spe-
cial blessing on the service in the
town hall.

Samuel Siverns Dies.

Funeral services for the late Sam-
uel Siverns, aged 79, who died in a
Windsor Hospital, Thursday of last
week, following a lengthy illness, were
conducted Sunday at the Crawford Fu-
neral Home, Kingsville, with Rev. J.
A. Davies officiating.

Mr. Siverns had been in the shoe
repair business in Kingsville since
1912. He was a member of the Church
of Epiphany. His wife predeceased
him a year ago.

Surviving are four sons, Sam, of
Windsor; Arthur, of Kingsville; Harry,
of Essex, and Ernest, of Parkhill, Ont.;
also a daughter, Mrs. Simpson, Leam-
ington.

Burial was in Greenhill cemetery,
Kingsville.

Geese Arrive at Sanctuary.

The sons of the late Jack Miner —
Ted, Jasper and Manly — are doing all
in their power to see that the activities
of the Jack Miner Bird Sanctuary are
carried on greater than ever. Not only
does the public realize and appreciate
it, but the birds seem to know it be-
cause the last few days thousands of
geese have arrived, several wearing

Saturday, Nov. 8 - Poppy Day

In view of the fact that November 8th is Poppy Day, it is my
hope that the citizens of this town on that day join in this trib-
ute to our hero dead by wearing one of these memorial flowers.

No one of us need be reminded that these small scarlet
blossoms are more than merely flowers to wear on our lapels.
They have a significance which reached deep into our hearts.
They are symbols of courage.

The poppies worn on this day, which means so much, brings
back the thought of those who sacrificed so greatly. They bring
a consciousness of those disabled veterans "to whom we owe
infinitely more than gratitude can ever repay, though in our
hearts that gratitude is deep and will ever abide."

Each year the Canadian Legion conducts its poppy sale to
raise funds for relief work. The poppies are made by disabled
service men who are physically unfit to work elsewhere. Those
whose patriotic heroism we remember on this occasion are far
beyond the need for our help. But we who are sincerely grateful
to our war heroes have an opportunity to repay the debt we owe
them in a way that they themselves would approve. It is in
recognition of this debt that the Canadian Legion conducts their
distribution of Poppies.

Let us all join to "Honour the Dead by Helping
the Living."

In these days of Canada's remembrance, the poppy carries
an added significance in its appeal "to care for him who has borne
the battle and for his widow and orphans."

Wear a Poppy on Poppy Day and "Keep the Faith."

REV. E. C. WILLIAMS.

FRIDAY, NOVEMBER 7, 1947.

Essex Town Council.

Monday, October 27th.

Council met in regular session, in the Council Chamber, at 8 p.m., with Mayor Linton, Reeve Irwin and Councilors Chase, Shaw, Macleod, Pulleyblank and Francotte present.

A. Messers, Clerk, and Walter McMurrian, Reeve of Malden Township, and Aaron Hill, Councilor of Malden Township, and the H. H. M. C. R. crossings.

Mr. Messers, spokesman for the delegation, explained to Council, correspondence from M. C. R. received by the Council, in July, stating that the M. C. R. were applying to close the Hill crossing. In the correspondence it was stated that they were also negotiating the Township of Colchester North, which should have been the Township of Essex, in fact, both crossings are within the town limits, but they left in touch with railway officials as to the fact, the interested party, who also was notified, is a resident of Malden Township.

Mr. Hill has made a proposition of closing the bridge, crossing and his crossing and replacing same with a right angle crossing about 100 feet east of the present Townline crossing, in direct line with the end of the Colchester Road. Mr. Hill agreed to give all the land required to build a new crossing. The speaker stated he had a railway engineer to see him a few days previous and he was quite in favour of Mr. Hill's proposal, stating that it would be a very necessary land for right of way for the new railway, his company would do the work. He had spoken to Mr. Cockey and he, Mr. Cockey, stated that while the small piece of land required belonged to his son-in-law, he was sure Council could have same. It would also require a narrow strip of the J. Gals farm to make it into a legal bit of roadway. The cost of both of these pieces of land would be very small to the town.

Thomas Oliver, as a ratepayer, spoke in favour of the dangerous crossing, stating that only those living close by know the many narrow escapes. He also spoke of the nuisance caused by the widening signal light running at times for two hours or more when trains are being made up in the Essex yards.

As M. C. R. authorities had been in touch with the town, the Clerk was notified to write M. C. R. officials and ask them to meet Council.

Mr. Potrosky, of the Highway Lines, advised Council that they had not been able to find another satisfactory spot for a ticket office and waiting room, and asked Council to reconsider the plan to be imposed on them, or not allowing their buses to take on or off passengers from M. C. R. tracks to S. L. Kennedy's furniture store and allow them to permanently use present location.

On being asked if Art Ward had been to see him, he stated that he had, and that Mr. Ward had asked him to let the Council consider the plan to be imposed on them, or not allowing their buses to take on or off passengers from M. C. R. tracks to S. L. Kennedy's furniture store and allow them to permanently use present location.

ed Council to renew old lease, allowed to drop of \$1 per year for use of back end of his property as an alley and part of the town parking lot. He stated he had been approached by an adjoining owner to fence same off but he didn't want to do this.

Mr. Goldes advised Council and Mr. Sadler that he (Mr. Sadler) couldn't look that part used for years as an alley, but he could stop people from parking their vehicles on his property.

After further discussion, matter was referred to Mr. Goldes for opinion, on motion of Messrs. Francotte and Chase.

Bylaw No. 1139 re elections, was read three times and passed.

Bylaw No. 1140 re proposal to make a grant to the Essex Boys' Band of \$2,000 was read a first and second time.

Bylaw No. 1141, re taking vote of people on grant of \$2,000 to Essex Boys' Band was read three times and passed.

Bylaw No. 1142, re local municipal election was read and passed. The following places will be same as in previous years, with some D. R. O.'s and Local Clerks as last year.

The Clerk read the following report of E. W. Johnston, of the Ontario Department of Health, made following a visit to the dump on September 16th:

Municipal Garbage Dump.
An inspection of the above was made and reported upon under date of June 24th last. It was stated that after that time a bulldozer had been used to consolidate and cover the garbage dump. This it was reported, had the effect of correcting the adverse conditions at the time, but the condition of the dump was unsatisfactory and offensive.

Indiscriminate dumping takes place and no effort is made to properly cover the garbage with earth or suitable material. Flies were present in myriads and the stench was most offensive.

This garbage dump will continue to be a nuisance until a proper method of operation is instituted. An outline of the requirements for the operation of a garbage dump was given in the previous report, as follows:

Requirements for Operation of a Garbage Dump.
There are certain requirements necessary for the proper operation of a dump for disposal of garbage and refuse in order to keep it in reasonably satisfactory condition. These include:

1. Indiscriminate dumping should not be permitted. Dumping should start at one point and continue from there.

2. Garbage should be placed in layers and consolidated and then covered with earth, ashes or other suitable material after each day's operations.

3. Garbage should be placed in layers and consolidated and then covered with earth, ashes or other suitable material after each day's operations.

4. Control of flies should be instituted by the use of D.D.T. spray solutions.

5. Rat control should be instituted by using anti-rat poison.

6. A separate place should be provided for the disposal of night soil, toilet tank contents, etc. A trench should be dug and the material deposited in the trench. Each trench should be covered with chlorine of lime and a layer of earth.

7. A responsible person be placed in charge of the dump.

8. The dump be enclosed by suitable fence.

Recommendations.
It is recommended that:

1. Consideration be given to the installation of a garbage incinerator for the disposal of garbage and refuse, or sanitary fill be adopted.

2. The existing site be abandoned and a new suitable location be provided.

3. The garbage dump be operated along the lines suggested above.

Hybrid Corn Has Advantages.

Plant scientists are constantly engaged in developing new varieties of seed which will aid farmers to produce better crops. An example of this is found in the extensive use in Ontario of the open-pollinated varieties of husking corn.

In 1939, only 10 per cent of the total corn acreage in Ontario was planted with the hybrid seed variety, but by 1944, all but 55 per cent was planted with this variety. Average yields were 38.9 bushels for the period 1934-40, and 45.8 bushels for the period 1941-45. In addition to greater yields per acre, hybrid corn reduces the labour required for harvesting.

Because of the stronger stalks and roots it does not lodge. The ears are at a more uniform height on the standing stalks, which makes husking easier whether done with a mechanical picker or by hand.

Hallowe'en.

On the last night of October, Us old folks will rant and rave. Will tell the parents of today How to make their kids behave: 'Twill be the same old lecture Our own grandparents gave.

The windows of the family bus Will be full of soap and wax. And the patience of us oldsters The youngsters will sorely tax. Lecturing will do no good, So we may as well relax.

We can lecture all we want, As Hallowe'en draws near, Youngsters will have their fun. Of that we may have no fear. Calm yourself with the fact Hallowe'en comes but once a year.

Of course we were little angels Never made a bit of noise. Stayed inside on Hallowe'en Played with our dolls and toys: At least that is what we preach To our own young girls and boys.

Everyone would work for "the Party" or else there would not be any food coupons handed out to live on.

There would be no such thing as free press, truth would be stifled, our literature abolished and in a general way our perspective considerably changed.

Our children would grow up in a school chanting the praises of Der Fuehrer who would be their God. Children thus indoctrinated would eventually turn even against their parents.

No automobile would drive unless a Party sticker was on the windshield. Our free churches would be closed. We would listen to music only by so-called Aryan composers.

The Legion Adds Up the Score

After the remembrance day ceremonies last year editorial comment came from scores of justifiably indignant editors regarding the lack of attention given to this statutory holiday by government bodies and industry alike.

With Remembrance Day again approaching and thousands of citizens across Canada preparing to attend memorial services, the Canadian Legion reminds many to add up the score.

It is just over two short years ago that the final shot in the recent conflict was fired. It is well for all to stop and think what would be our position today had we been on the short end of the Armistice terms.

We wouldn't have any labour troubles today. There just wouldn't be any existing unions with the right to strike or bargain.

Everyone would work for "the Party" or else there would not be any food coupons handed out to live on.

SOUTH WOODSLEE

Mr. and Mrs. John H. Diemer, Henry Diemer and Alphonse Diemer were guests of Mr. and Mrs. Joseph Shille, of Woodlee, on Sunday, November 2nd. Woodlee sport lovers took advantage of the hunting season that opened last Friday. They return home in the evening very tired but happily displaying their quota for the day.

Mrs. Earl Montgomery and daughter Patricia Marion, have left for Swift Current, Saskatchewan, to visit her mother and family.

The directors and committees of the Woodlee Credit Union met at the home of Charles A. Diemer, treasurer, to discuss plans for their first annual social evening to be held November 14th, in the school hall. The evening's entertainment opens with a card party. Prizes and lunch followed by modern and old-time dancing.

The Holy Name Society social committee held a meeting in the church club room, on October 27th. Ernest Charvin, the chairman, is being assisted by a committee in planning the Holy Name annual "kono." The date was set for December 5th in the school hall.

Farmers especially, will be interested to hear other farmers' opinions discussed on Ontario Farm Radio Forum, heard every Monday evening at 8:30 over Station CKLW, Windsor. November 10th program is entitled "The Farmer Takes a Wife."

St. John's School Credit Union made a very successful beginning last Friday, October 24th. These pupils are to be highly complimented upon their ability to save.

Make plans now for St. John's school graduation exercises to be held on Friday, November 28th. A graduation dance will be held on Saturday, November 29th.

In the final game of the football playoffs, played on the local grounds, on Sunday, October 27th, the home team, the Essex, defeated the away team, the Windsor, 19 to 6. It was reported that D. Morris, of the Essex team, injured in a game a couple of weeks ago, was able to leave the hospital and is improving nicely.

St. John's Tennis Club held a very successful tennis and dance last Friday evening, in the school hall.

Major-McKeegan Nuptials.

At a lovely ceremony, in a setting of colorful chrysanthemums, in Holy Name of Mary Church, Essex, on Tuesday morning, at 9:30 o'clock, the Rev. Ignatius O'Neil united in marriage Miss Margaret Jane McKeegan, daughter of Mr. and Mrs. Hugh McKeegan, of Woodlee, and Stanley Morris Major, son of Mr. and Mrs. Stanley Major, of Puce.

The bride, given in marriage by her father, wore a small double-breasted suit of gray broadcloth collared and cuffed in gray squirrel, with a blue blouse and a lighter gray hat trimmed with ribbons and veiling. Her corsage was of pink roses.

Her sister, Miss Jane McKeegan, who was her only attendant, wore a lighter gray dressmaker suit, with a burgundy hat, and red roses.

Albert Joseph Ganguier assisted his brother-in-law as best man, and the ushers were Richard McGee and the bride's brother, Patrick McKeegan. A wedding breakfast at the Norton-Palmer Hotel, followed.

A reception was held in the evening at the Major home, the bride's table being centred with the wedding cake, flanked by burning tapers in silver candleabra.

Mr. and Mrs. Major left later on a motor trip in the States, on their return from which they will take up residence in Riverside.

MAIDSTONE CROSS

Sincere sympathy to the O'Brien family in the loss of their oldest sister, Sister Mary Precious Blood (Joseph O'Brien) who died on All Saints' Day, November 1st, at Cincinnati, Ohio, after suffering a heart ailment for some time. Deceased was the daughter of the late James O'Brien and Martha (Katie) Mother St. Peter, of Precious Blood Monastery, Hamilton, Ont., and (Mary) Mrs. Joseph Kenny, of Detroit. Four brothers, Frank, of Windsor, William, of Roseland, Austin, of Amherstburg, and Albert, of Woodlee. Another brother, Charles, of Roseland, died in September, 1946. A number of relatives from here attended the funeral on Tuesday morning in Cincinnati.

A. M. Botterill (Aggie) aged 47 years, died suddenly from a heart attack while sitting in a chair in his living room at 10 o'clock Tuesday evening, October 28th, in Windsor. Deceased was born on the Henry Arnold farm in Maidstone, and resided here until he was 16 years of age. Thirty years ago he accepted a position in the office of the New York Central Railway and held a position as Chief Clerk until his sudden death. He was held in high esteem by his fellow workers and his funeral, from the Anderson Funeral Home, was largely attended. Sincere sympathy to his family and sisters is extended in their bereavement.

This Friday evening, November 7th, in St. Mary's Hall, is the big annual chicken keno, given by the cemetery board. Fifteen rounds for 50c. A good crowd is expected.

St. Paul's Hallowe'en Party.

The Sunday School of St. Paul's Church held their annual Hallowe'en Party on Wednesday evening, October 29th, at 7.30 p.m. The ghosts, clowns, witches, tramps, aunt Jemimas, little ho-peeps, Chinamen, shepherds, and what have you, began to arrive, in many costumes too numerous to mention. About 8 p.m. the Grand March began, with several prizes being awarded. The judges were not envied, it being a hard task, with so many good costumes. Every child received a gift. After the judging the girls and boys bobbed for apples, which proved very amusing. Several games of musical chairs were played. Some of the older boys and girls gathered around the piano for a sing-song. Refreshments were then served by the grownups, consisting of pop, sugared doughnuts, and large cookies. Photographs were surprisingly taken of different groups. A good many of the one of the most successful Hallowe'en parties held, there being over a hundred present.

IN MEMORIAM

In loving memory of Charles Scarlett, who passed away one year ago November 7th, 1946.
 The sorrow we feel, words cannot explain.
 The ache in our hearts will always remain.
 We loved him in life, and love him yet, He is ours to remember with wife and son Roy.

IN MEMORIAM

In loving memory of a dear wife and mother, Anna Kettels, who passed away six years ago, November 6th, 1941.
 Your gentle face and patient smile,
 With sadness we recall;
 You had a kindly word for each,
 And died beloved by all.
 The voice is mute, and stilled the heart,
 That loved us well and true,
 O bitter was the trial to part,
 From one so good as you.
 Nor will you ever be,
 As long as life and memory lasts,
 We will remember thee,
 We miss you now, our hearts are sore,
 As time goes by we miss you more,
 Your loving smile, your gentle face,
 No one can fill your vacant place.
 Lovingly remembered by husband and family.

The Corporation of the Town of Essex.

Bylaw No. 1140.

A BYLAW to provide by means of taxation for the establishment and Maintenance of a fund for the support and aid of a civilian band or bands of music and for making annual or other grants from such fund for any civilian band or bands of music or to the members thereof.

WHEREAS the Corporation of the Town of Essex is authorized and empowered by Section 405, Paragraph 65 of the Municipal Act, to provide by means of taxation for the establishment and maintenance of a fund for the support and aid of a civilian band or bands of music and for making annual or other grants from such fund to any civilian band or bands or to the members thereof upon obtaining the assent thereof of the electors qualified to vote on money bylaws.

AND WHEREAS a band of music known as the Essex Boys' Band is an asset to the community, having at all times given full co-operation in patriotic, charitable, cultural and other worthy local activities and has won distinction in musical competitions, and it is desirable that the Town of Essex should provide annually by means of taxation for the establishment and maintenance of a fund for the support and aid of the said band or other civilian band or bands of music and for making annual or other grants from such fund to the said band or other civilian band or bands or to the members thereof.

NOW THEREFORE the Municipal Council of the Corporation of the Town of Essex, enacts as follows:

1. That a fund be established and maintained by means of taxation annually at one-half mill on the rateable property of the municipality from the date of the final passing hereof, for the support and aid of the Essex boys' Band or other civilian band or bands of music and for the making of annual or other grants from such fund to the said band or other civilian band or bands of music or to the members thereof.

2. That such annual or other grants be made from such fund to the Essex Boys' Band or other civilian band or bands or to the members thereof, as may be authorized from time to time by resolution of the council.

Read and passed a first time in open Council, this 27th day of October A.D. 1947.

Read and passed a second time in open Council, this 27th day of October A.D. 1947.

K. E. BRETT, J. C. LINTON
 Clerk Mayor

NOTICE!

TAKE NOTICE that the above is a true copy of a proposed Bylaw, which, if the assent of the electors is obtained thereto, will be taken into consideration by the Municipal Council of the Town of Essex after the expiration of one month from the date of the first publication thereof, which is the 7th day of November, 1947, and that a vote of the duly qualified electors of the Town of Essex will be taken upon the said Bylaw for their assent, at the same time as the annual election, namely on Monday, the 1st day of December, 1947, at the hour of nine o'clock in the forenoon and continue until seven o'clock in the afternoon of the same day, and no longer.

On Monday, the 24th day of November, 1947, at the hour of 7.30 o'clock in the afternoon, the Mayor of the said town will attend at the Council Chamber, in the town hall, for the purpose of appointing persons to attend at the various polling places and at the final summing up of the votes by the Clerk, respectively, on behalf of the persons interested in and promoting or opposing the passing of this Bylaw.

The Clerk of the Town of Essex will attend at the said Council Chamber on Tuesday, the 2nd day of December, 1947, at the hour of twelve o'clock noon, at which time and place the said Clerk will sum up the number of votes given for and against the said Bylaw.

A tenant who desires to vote must deliver to the Clerk of the Town of Essex, not later than the tenth day before the date appointed for taking the vote, the declaration provided for by subsection 3 of section 233 of the Municipal Act, Chapter 266, R.S.O. 1937.

Dated at Essex, Ontario, this 27th day of October, 1947.

K. E. BRETT, Clerk.
 Town of Essex.

It is often asked: "Is electricity in the home dangerous?" To answer this question, we are now going to give you the facts. The real danger is not the electricity itself, but the way it is used. If you use it properly, it is perfectly safe. If you use it carelessly, it is dangerous. The following are some of the things you can do to keep your home safe:

1. Do not leave lights on in rooms not in use.
2. Keep light bulbs and reflectors clean.
3. Place lamps to best advantage to avoid shadows.
4. Do not use colored light bulbs in places where color is important.
5. Use white lamp shades to reflect as much light as possible.
6. Turn all lights on range to low or off when food begins to sizzle.
7. Make use of all stored heat in stoves and ovens.
8. Cook as many foods as possible in one sitting.
9. Use flat bottomed, tight covered utensils that fit the element.
10. Use small quantities of water for cooking and cook with pressure cooker often.
11. Do not use your electric range to heat your kitchen.
12. Defrost your refrigerator regularly—once a week.
13. Do not open refrigerator door more than necessary.
14. Do not waste hot water if you have an electric water heater.
15. Do not run your washing machine too long—not over 12 minutes per wash.
16. Do not dampen clothes too much for ironing.
17. Do not operate radio unless you are listening.
18. Do not leave appliances "on" when not in use.

Community Fire Loss \$1,554 in 1946.

Essex suffered a total property loss of \$1,554 in 1946, according to latest figures issued by the Dominion Fire Commissioners in Ottawa. A further breakdown of figures puts the per capita fire loss for 1946 at 3.78. Total fire loss for 1945 was \$29,866. Property loss for the whole Dominion amounted to nearly \$50,000,000, with 166 men, 78 women and 161 children dead as a result of fires in 1946.

Smokers' carelessness accounted for the largest percentage of fires, with defective stoves and furnaces, electric wiring and appliances, and overheated flues and chimneys following next in line.

Sparks falling on flammable roofs caused the loss of roughly 1,500 homes, approximately three a day. Lightning, spontaneous ignition and incendiaries increased the total by another 1,600.

**Moisture Content of Air im-
portant in Indoor Comfort.**

Uncomfortable sensations of warmth
or cold which which will occur to oc-
cupants of homes this winter in all
probability can be blamed on the im-
proper moisture conditions of the air
within the home, according to the In-
door Comfort Educational Bureau,
which advises that the temperature of
air surrounding the body is just one
of the seven factors in attaining com-
plete indoor comfort.

Occupants of homes feel cooler in
dry air with a temperature reading of
80 degrees than they do in moist air
of the same temperature. The drier
the air the faster the body is cooled
by evaporation of perspiration. For
this reason occupants of homes feel
more comfortable during the winter
when moisture has been added to the
heated air.

Maintaining a reasonable humidity
level should serve drying out of the
mucous membranes which protect the
throat and nasal passages, and increas-
es resistance to colds and infections
and thus aids in bringing about im-
proved indoor comfort conditions.

Give work rather than aims to the
poor. The former drives out indolence,
the latter industry.—Tryon Edwards.

OLDEST SCHOOL HOUSE NEARS CENTENARY.

On a narrow salt water inlet three
miles from the centre of Saanich, a
municipality of Greater Victoria, one
of British Columbia's historic land-
marks still stands as a tribute to the
sturdy construction of those far-dis-
tant days when Vancouver Island was
a Crown Colony and notable mainly as
a chief post of fur-trading on the Pa-
cific.

Now a centre of tourist interest, the
old Craigflower schoolhouse is the old-
est school building in Western Canada
and the third oldest building in all
British Columbia. When its doors were
first opened in 1855, the famous James
Douglas, later Sir James, was Govern-
or of the Crown Colony of Vancouver
Island. School examinations were con-
ducted orally in those days, and the
children of Craigflower always wore

their best on examination day for it
was the custom of Sir James to visit
their school and conduct the examina-
tions in person.

Craigflower was settled by the Puget
Sound Agricultural Company, a sub-
sidiary of the Hudson Bay Company,
and the old schoolhouse was built for
children of the company's employees.
The first schoolmaster was a Mr. Clark,
of whom little appears to be known
today, except that he was appointed by
the legislature of the Colony. The
settlement of Craigflower has now
quite disappeared, except for the
schoolhouse. It has been swallowed up
by the growing town of Saanich.

Preservation of the historic land-
mark in its good state of repair was
ensured by the Native Sons and
daughters' Association of British Co-

lumbia who in 1929 had the building
raised and a cement foundation put in.
At the same time the building was
whitewashed and maroon colored
shingles were laid over the an-
cient hand hewn cedar shakes which
had done service since the building
was built. The old schoolhouse's fine
condition today is a credit not only to
the sturdiness of its timbers but to
the fine materials and construction
used in its renovation in 1929.

Ownership of the building is vested
in the Saanich School Board, from
whom the native sons and daughters
have leased it as a historic site. The
building contains a dairy which re-
veals much of the history of the set-
tlement, and also houses many inter-
esting relics of pioneer days.

Contagion.

Particularly strict adherence to the
cardinal rules of reference against dis-
ease is urged by medical authorities
at seasons when there is possibility
of catching such infections as flu.
Frequent and thorough washing of
hands is essential, as is use of clean
eating utensils and sanitary drinking
vessels. It is also wise to avoid such
possible disease carriers as common
towels in public washrooms.

**Seed Growers Urged to Show
at Royal Winter Fair.**

The Crops, Seeds and Weeds Branch
Ontario Department of Agriculture
has sent out circulars to some 2,000
farmers in Ontario, urging them to
enter their products in the grain and
seed show at the Royal Winter Fair.
Last year, Ontario entries were very
light in the classes for field peas,
field beans, soy beans, spring wheat,
spring and winter rye, flax, corn, al-
falfa, clover and sweet clover. Mr.
MacLeod, Director of the Branch,
points out that, judging from last
year's entries, exhibitors from Ontario
will have excellent possibilities for
winning in the prize money in these
classes. This year the prize money
has been increased, and valuable tro-
phies are being offered to the winners
of grand championships in wheat, oats,
barley and peas.

"If you have grain or seed of high
quality," says Mr. MacLeod's circular,
"we suggest that you make immediate
plans to become an exhibitor at the
Royal. A grand championship will es-
tablish you as a seed grower. It is
worth while aiming at and is within
the reach of any grower with high
quality seed."

In order to assist prospective exhib-
itors, the branch has prepared a cir-
cular on "How to prepare grain, clover
and grass seed for seed shows." Cop-
ies of this will be sent to any farmer
on request to the Crops, Seeds and
Weeds Branch, Department of Agri-
culture, Parliament Buildings, Tor-
onto.

Board indicates that the largest amount
of cargo passing through Mon-
treal, Three Rivers and Vancouver
was handled in peacetime. The fol-
lowing table shows the most active

Facts of Interest.
The Financial Post reports that
prices for houses in 8 key cities of Can-

Second Look.

"I got off a street car this morning,"
said a doctor, "and being in no hurry,
I began moralizing on the actions and
probable character of three men who
had alighted just before me. The first
one was already half way down the
block. There, I thought, goes a hus-
tler, a man bound to succeed. The
second man was walking slowly but
with an air of purpose. He might, I
thought, do fairly well perhaps. But
the last fellow was just dawdling
along in a shiftless sort of way. That
man, I thought is no account. Just
then the startling thought flashed
through my mind. All three were
ahead of me.—R. and R. Magazine.

A Few Don'ts.

Householders who want to meet the
emergencies of cold weather in the
most economical manner are offered a
few "don'ts" by the Canadian Insti-
tute of Plumbing and Heating. The
Institute cautions that amateur plumb-
ing may be an interesting hobby, but
it can also be expensive.

The following advice is given:
1. Don't try to thaw out frozen wa-
ter pipes with an open flame. The
only way is to use hot clothes. Master
plumbers and heating contractors have
equipment which will thaw pipes out
with an electric current.

2. Don't use a plumber's torch to
thaw pipes. In inexperienced hands,
the torch may be a dangerous instru-
ment. It may cause fire or explosion.
3. Don't use lye, potash or drain
solvents to thaw out frozen water
pipes. You risk serious injury to your-
self or to workmen who may try to
undo damage you have done.

4. Don't assume that frozen pipes
will thaw unaided as the weather gets
warmer. When pipes freeze, call a
plumbing contractor at once. The
damage caused by a frozen pipe which
bursts may far exceed the cost
of having it thawed out by a plumber.
5. Don't pour boiling water into the
toilet bowls. A sudden and extreme
change in temperature is very likely to
crack the vitreous china bowl.

6. Don't draw water from the "draw-
off" faucet of the domestic hot water
boiler if the water pipes are frozen.
The boiler might collapse under the
vacuum created.

7. Don't let the water run low in
the boiler of a steam heating plant.
Instead of trying to watch the water
line, better have the boiler equipped
with a device which automatically
keeps it supplied with the right amount
of water and cuts off if the water
is dangerously low.

8. Don't neglect to have worn or
obsolete air valves replaced on radi-
ators of steam heating plants. Poor
air valves are one of the most com-
mon causes of complaints about poor
heating. It is a complaint that can
be avoided if air valves are checked
by a heating contractor once a year.

9. Don't neglect to vent radiators of
hot water heating plants occasionally,
by opening windows wide during ex-
tremely cold nights. Leave shut-off
valves open a little bit to permit cir-
culation of water during cold nights.

10. Don't expose hot water radiators
in bedrooms to freezing temperatures
by opening windows wide during ex-
tremely cold nights. Leave shut-off
valves open a little bit to permit cir-
culation of water during cold nights.

kind.—Mary Baker Eddy.

**CANADA'S
Health**

Eat More Fruit.

Just because summer is ended, there
is no justification for cutting down
on fruit. Those fruit and fruit
juices which have become such an im-
portant factor in our diet. Fruit is
needed all the year round.

Nutritionists have a tip, too, for
those who have to "eat out." Keep a
small quantity of fruit or fruit juices
at home, even if you have only a
room, they suggest. Taken first thing
in the morning, before starting out
for work or study, it's refreshing and
healthful.

Time at Table.

Children are likely to have more
appetite for breakfast if they do not
eat too soon after rising. Youngsters
who have stayed up too late at night,
and, consequently, are tardy at table
in the morning, are tempted to rush
through breakfast.

Authorities on healthful eating point
out that it isn't so good to rush through
meals. They insist that breakfast
should be eaten early enough so that every
member of the family has a chance
to eat slowly — and enough.

Waste Disposal.

Such notorious carriers of disease
as rats, can have a field-day with a
garbage can, unless it is kept cov-
ered properly. Health officials warn
that scavengers are a menace to pub-
lic health and they call on household-
ers, restaurant operators and hotel
staffs, among others to deposit their
discards of food and filth in substan-
tial containers which are rat-proof and
don't encourage flies.

The practice of leaving waste in
paper parcels, or even in cardboard
cartons, is also to be discouraged,
since these receptacles are no protec-
tion against marauders.

Study Sight.

Low standing in studies does not
necessarily indicate low mental rating,
and medical authorities advise parents
that poor eye-sight may account for
poor grades of some school children.

To give a child a fair chance at
book-work, as well as in play and
other activities, parents are advised
to have their children's eyes check-
ed by an eye specialist, particularly
if there is any such indication as an
unfavourable teacher's report to point
to a need for such a check-up.

Corrections can be made which will
ensure avoidance of eye-strain and
general improvement in the child's
health and comfort.

Hygiene Hints.

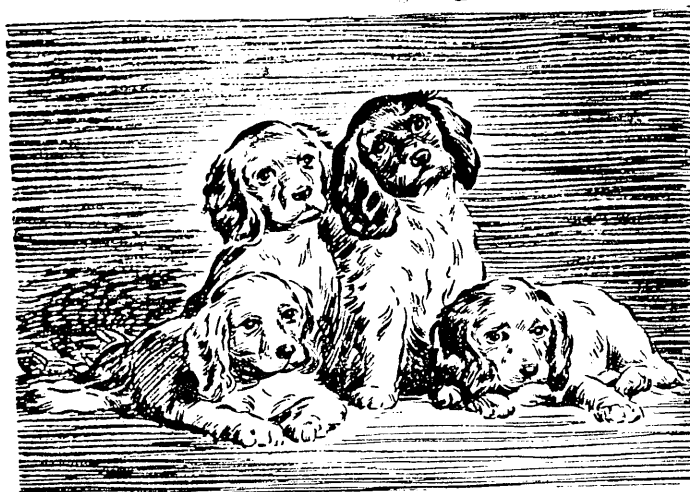

Some of the cardinal principles of
hygiene ought to be plain to everyone,
the doctors believe. It should be com-
mon knowledge, for instance, that ir-
ritation and inflammation in any part
of the body demand protection and
rest. Also that the body must expel
all irritative, toxic and infectious
agents.

Common-sense, of course, dictates
that, if the body is not functioning
properly, advice and instruction should
be sought from the only person qual-
ified to give such service — the physi-
cian.

The greatest and sublimest power is
often simple patience.—Horace Bush-
nell.

Losses Brother.

Robert Frederick Miller, aged 69
years, of 1377 Martin street, Wind-
sor, passed away in Grace Hospital
Windsor, on Thursday of last week,
following a lengthy illness.

Deceased, who was born in the Town-
ship of Maidstone, had lived in Wind-
sor the past 28 years. He was an em-
ployee of the Gairing Tool Co., in De-
troit, a member of Temple Baptist
Church, and of the Canadian Order
of Foresters.

Surviving are his widow, Adah; four
sons, Harry, Leonard and Nelles, of
Windsor, and Arthur, of St. Thomas;
two daughters, Helen (Mrs. Maynard
Wilson) of Detroit, and Norma (Mrs.
Jack Dobson) of Hamilton; also two
brothers, Alex. of Leamington, and
Francis, well-known barber, of Essex;
and four sisters, Mrs. E. Dunphy, of
Leamington; Mrs. S. Allen, of Wind-
sor; Mrs. C. Fox, of Olinda, and Mrs.
Ben Spinlove, of Detroit.

Funeral services were held on Sun-
day from the Charles J. Ellison Fu-
neral Home, in charge of Rev. H. R.
Nobles. Burial was in Victoria Mem-
orial Park.

Remembrance Service.

Essex citizens of all denominations
packed the town hall to capacity last
Sunday evening for the annual Re-
membrance Service. Ministers of the
local churches led in prayer, respon-
sible scripture reading and singing of
old favourite gospel hymns. Several
vocal numbers were rendered by a
young ladies' trio from the Christian
Missionary Alliance Church, Windsor.
Adjutant Arnold Brown, of Toronto,
challenged his listeners with the ques-
tion that has gone from many broken
hearts, "Where is He?" Where is
God? Where is the Christ of love who
is the Prince of Peace.

Following the benediction the crowd
quietly streamed from the building
with the final challenging application
of the question echoing in their hearts:
"Where is He in your life?"

Everyone who had any part in this
gathering please accept the sincere
thanks of those responsible.

About fifteen dollars which remained
from the offering, after expenses were
taken out, will be sent to the British
and Foreign Bible Society.

MacKenzie-Vetor Nuptials.

At a lovely candle-light, double-ring
ceremony, in a setting of white and
pink chrysanthemums and ferns, at
Bethel United Church, the Rev. Nor-
man Pick united in marriage Miss
Jean MacKenzie, youngest daughter of
Mr. and Mrs. William MacKenzie, and
Oris Vetor, only son of Trysman Vetor,
of Windsor and the late Mrs. Vetor.

The bride, given in marriage by her
father, looked lovely in her gown of
white satin, with bodice of Alecon
lace, with illusion yoke, edged with
two ruffles of lace, and her long
sleeves of lace ending in pointed
her hands, and tiny satin covered
bust, fastening fitted bodice in back.
The full skirt, with fishtail peplum,
ended in a slight train. Her veil of
illusion was held to her head with a
transparent lace dutch cap, and she
wore a single strand of pearls, the gift
of the groom. She carried a cascade
of white mums and red roses.

Miss Dorothy MacKenzie, as her sis-
ter's maid of honour, wore royal blue
taille with very full Bertha collar, cut
low, with fishtail peplum over a bout-
nant skirt, and she wore a picture hat
with long velvet streamers down the
back and mits to match, and carried
a cascade of fuchsia mums.

Miss Jean Leslie and Miss Jean Wor-
ley, as bridesmaids, were gowned just
like the maid of honour, only in Am-
erican Beauty fault with picture hats
and mits and carrying a cascade of
blue mums.

Vic Heathcote was groomsman, and
the ushers were Jack Kigar, and James
Ure. Jon Graham played the wedding
music and Mrs. Charles Holman, aunt
of the groom, sang "Because" and "O
Promise Me."

A reception followed in the church
basement for over 100 guests, the
hall being tastefully decorated in pink
and white, and varicoloured mums.
The bride's table was centred with a
three-tiered wedding cake, topped with
miniature bride and groom, in a set-
ting of pink tulle and mums, with
burning pink and white tapers on
either side.

Mrs. MacKenzie chose for her daugh-
ter's wedding a green suit with brown
hat trimmed with orange plumes and
brown accessories, and wore a corsage
of yellow mums. Mrs. Heathcote, grand-
mother of the groom, chose grey crepe
with grey hat with fuchsia feather
trim and black accessories, and a cor-
sage of red roses.

Later, Mr. and Mrs. Vetor left by
motor for Niagara Falls and Ohio, the
bride travelling in a grey coupe fitted
dress, purple trimmed, with wide grey
satin and cap sleeves of satin, topped
with melon shortie coat and black
accessories with corsage of yellow ro-
ses. They will reside in Windsor on
their return.

New Imperial Bank Completed

The new home for the Imperial Bank
is completed except for some fixtures,
and it is hoped that it will open to
the public on Monday, November 24th,
when I. K. Johnston, first assistant to
the General Manager of the Imperial
Bank, and a former manager of the Es-
sex branch, will be present.

The building, the cost of which will
be in the neighbourhood of \$75,000, is
one of the finest bank buildings in
Canada.

James R. Linton Injured.

James R. Linton, manager of Es-
sex Farmers Ltd., was critically injur-
ed shortly after 6 p.m. on Monday.

Jim was crossing Talbot street, after
being at the post office, and was about
in front of Elsie's store, when he
apparently failed to see a vehicle ap-
proaching from his right and stepped
into the side of a truck driven by
Harold Sweet of town. The rear view
mirror on the side of the truck appar-
ently hit him at the back of the head.

Dr. G. W. Rogers was immediately
at his side and he was rushed by am-
bulance to Grace Hospital Windsor.
Report as we go to press is that
while he still has not regained con-
sciousness his condition is quite sat-
isfactory. X-rays will be taken as
soon as safe to learn the extent of
his injuries all of which are in the
head.

Tecumseh Youth Signed by Pirates.

Robert Seguin, 19-year-old catcher of
the Tecumseh team, has signed a con-
tract with Pittsburgh Pirates and will
report to their Florida training camp
next March, it was announced this
week.

Seguin is the third Tecumseh player
to be given a tryout with major league
teams. Gene Goyeau now is with
the Chicago Cub chain, and Rolfe Gon-
had a trial with Brooklyn Dodgers
but returned home.

Jemima Grace Farough Dies.

More than three hundred persons
attended the funeral services on Sun-
day afternoon, for the late Mrs. Jen-
ima Grace Farough, of Sandwich
South, who died Friday morning, No-
vember 7th, after a short illness.

Mrs. Farough, widow of the late John
B. Farough, was in her 92nd year. She
and her husband were among the pi-
oneer farmers of Essex County, settling
on an unincorporated farm on the 11th Con-
cession, Sandwich South, after their
marriage, May 27th, 1873, and there
raised a family of eleven children,
nine of whom survive. She was the
grandmother of 35 grandchildren, 63
great grandchildren and one great
great grandchild.

Rev. Norman Pick, pastor of Maid-
stone United Church, where Mrs. Far-
ough was an active member, officiated
at the service, which was held at the
S. L. Kennedy Funeral Chapel, Essex.
Murray Kennedy, a grandson, sang
"Rock of Ages" and Miss Mary Lewis,
a great granddaughter, sang "All the
Way My Saviour Leads Me." Mrs. Far-
ough's favourite hymn, "Six Grand-
sons, Harvey Ellis, George Farough,
Milton Farough, Russell Forester, Cecil
Kennedy and Emerson Notice, were
pallbearers, and interment was in
North Ridge cemetery.

Mrs. Farough's parents, Mr. and Mrs.
Charles Collins, were married in Had-
ley, England, in 1848, and immediately
embarked on a six weeks' journey, by
sailboat, to Canada. They settled on a
farm in Maidstone Township, on what
was then known as the Talbot road.
Mrs. Farough, the fourth of their sev-
en children, was born October 10th,
1856. After 16 years Mr. and Mrs.
Collins moved to a farm on the Mal-
den road, in Sandwich South.

From the time of their marriage un-
til their deaths, Mr. and Mrs. Farough
lived on the 11th concession farm, in
view of the Collins' homestead. To
their union were born eleven chil-
dren, Elizabeth (Mrs. T. A. Kennedy),
of Essex; Grace (Mrs. Henry Ellis),
of Essex; Grace (Mrs. William Thom-
as) of Maidstone; Lily (Mrs. Harold
Neice) of Colchester North; Len
(Mrs. Arthur Robinson); Stephen, Al-
bert and Walter, of Sandwich South;
and George and Estella, who are de-
ceased.

Mr. Farough died September 9th,
1928, in his 82nd year. Since that time
Mrs. Farough kept house for herself in
a four-room bungalow next to the
large brick dwelling where she brought
up her family. She tended a garden,
did her own canning and always knew
what farm work was being done. With
the aid of a reading glass she kept up
with the news of her community and
the world.

An active church worker Mrs. Far-
ough was given a life membership in
the Maidstone United Church Women's
Association and was a member of the
Women's Missionary Society. The Je-
mima Farough Mission Circle, an or-
ganization of young women in the
Maidstone Church, was named in her
honour. Mrs. Farough's regular church
and Sunday school attendance was a
byword in the community. Two Sun-
days before her death she attended
Maidstone's Harvest Home service.

Laymen's Association Fall Banquet.

The annual fall banquet of the
Deanery of Essex Laymen's Associa-
tion will be held in All Saints' Church
parish hall, Windsor, on Monday ev-
ening, November 17th, at 7 p.m. The
dinner will be preceded by a short
church service, commencing at 6.30
p.m.

Rev. Richard S. M. Emrich, Ph.D.
Suffragan Bishop of the Diocese of
Michigan, has been secured as guest
speaker. Lasse Pohjola will render
violin music and will be accompanied
on the piano by Mrs. Pohjola.

All Anglican men are urged to at-
tend. Tickets are available from the
parish chairman.

Essex County Library Association to Meet.

There will be a general meeting of
the Essex County Library Association,
in the Essex Public Library, at 8.15
p.m. on Wednesday, November 19th.

The meeting will be presided over by
C. A. McAlpine, of Harrow, president,
and Angus Mowat, Director of Library
Service for Ontario will be present.

The most important topic for dis-
cussion will be the change from a
County Library Association to a
County Library Co-operative as out-
lined in the amendment to the library act.
All members of the association are
urged to attend, and the meeting is
also open to all others who are inter-
ested.

The Band.

These articles, written on the Free
Press, are purely propaganda — to
make you see the necessity of giving
your support to a worthy organization
of youth. You will travel far before
you see a finer group of young people.
Everyone of our band is loyal to the
group and to their genial bandmaster,
Mr. Robinson. Each one has learn-
ed the meaning of harmony, not only
in playing their instruments but in
daily living.

If a boy or girl does wrong, the pub-
lic is astounded and shocked. Yet
these same youngsters are the prod-
uct of our day and age. We must all
bear the responsibility of their mis-
takes. Sometimes these are costly
to society, and we seek a remedy af-
ter a life has been spoiled.

There is still room in the Essex sec-
tion of the band for new recruits. To
give added support to our band the
citizens are asked to give assent to a
bylaw of assessment the one-half mill
monies so little to the rate-payers and
yet it means so much to the band.
A vote "Yes" will give the needed
support. The band looks to you.

Cattle Breeders' Association Purchase Four Bulls.

M. C. Dalton, Kingsville; Charles
Collins, Maidstone, and W. P. Watson,
of the Ontario Live Stock Branch, the
committee appointed to purchase sires
for the Essex Cattle Breeding Associa-
tion, report the purchase of four out-
standing bulls. The pedigrees out-
lined below indicate that these sires
should be a definite influence for the
improvement of milk production in
Essex County.

The Corporation of the Town of Essex.

Bylaw No. 1140.

A BYLAW to provide by means of taxation for the establishment and Maintenance of a fund for the support and aid of a civilian band or bands of music and for making annual or other grants from such fund for any civilian band or bands of music or to the members thereof.

WHEREAS the Corporation of the Town of Essex is authorized and empowered by Section 405, Paragraph 65 of the Municipal Act, to provide by means of taxation for the establishment and maintenance of a fund for the support and aid of a civilian band or bands of music and for making annual or other grants from such fund to any civilian band or bands or to the members thereof upon obtaining the assent thereof of the electors qualified to vote on money bylaws.

AND WHEREAS a band of music known as the Essex Boys' Band is an asset to the community, having at all times given full co-operation in patriotic, charitable, cultural and other worthy local activities and has won distinction in musical competitions, and it is desirable that the Town of Essex should provide annually by means of taxation at one-half mill from the date of the final passing hereof, for the establishment and maintenance of a fund for the support and aid of the said band or other civilian band or bands of music and for making annual or other grants from such fund to the said band or other civilian band or bands or to the members thereof.

NOW THEREFORE the Municipal Council of the Corporation of the Town of Essex, enacts as follows:

1. That a fund be established and maintained by means of taxation annually at one-half mill on the rateable property of the municipality from the date of the final passing hereof, for the support and aid of the Essex Boys' Band or other civilian band or bands of music and for the making of annual or other grants from such fund to the said band or other civilian band or bands of music or to the members thereof.

2. That such annual or other grants be made from such fund to the said Essex Boys' Band or other civilian band or bands or to the members thereof, as may be authorized from time to time by resolution of the Council.

Read and passed a first time in open Council, this 27th day of October A.D., 1947.

Read and passed a second time in open Council, this 27th day of October, A.D., 1947.

PUCE

Mr. and Mrs. Anthony Colonnello, of Michels, B.C., are expected to arrive soon for an extended visit with Mrs. Colonnello's sister, Mrs. John Perlin, and Mr. Perlin.

A number from here attended the McKee-Major wedding at Holy Name Church, Essex, at 9.30 Tuesday morning. At a lovely ceremony, in a setting of colorful chrysanthemums, Rev. P. M. L. O'Neill united in marriage Miss Margaret Jane McKee, daughter of Mr. and Mrs. Hugh McKee, of Woodsee, and Stanley Morris Major, son of Mr. and Mrs. Stanley Major, of Puce. The bride, given in marriage by her father, wore a smart double-breasted suit of gray broadcloth, colored and cuffed in gray squirrel, with trimmed with rhinestones and veil. Her carriage was of pink roses. Her sister, Miss Jane McKee, an, who was her only attendant, wore a lighter gray dressmaker suit, a gray hat trimmed in Burgundy and her carriage was of red roses. Albert Joseph Ganger assisted his brother-in-law as best man, and the ushers were another brother-in-law, Richard McGee, of Detroit, and the bride's brother, Patrick. A wedding breakfast followed at the Norton-Palmer Hotel. A reception was held from 7 until midnight at the Major home. The bride's table was centred with the wedding cake, flanked by burning tapers, in silver candelabra. The bride's mother, who for the occasion a black gown and a corsage of pink roses. The groom's mother was attired in a fuchsia gown, trimmed with sequins and wore a corsage of darker roses. The reception was very largely attended. Detroit, Grosse Pointe and environs and many places in Western Ontario being represented. Mr. and Mrs. Major left later on a motor trip into the States, and upon their return will take up residence in Riverside.

The Essex County Sportsmen's Association, Puce Branch, plan a dinner for the near future. The date hasn't been set but a good time is promised, as there will be sport pictures, a speaker, and dancing. The time and place will be announced later.

Harold Hicks suffered severe injuries on Monday last, while working around a clover huller, on the farm of his sister, Mrs. John Crozier. In some way he became entangled in a revolving belt. Two fractures in the right arm, and face lacerations resulted. He went unconscious and Dr. Dupuis, of Belle River, was called and had him removed to Grace Hospital, Windsor. Mr. Hicks was brought home Friday night, and his many friends wish him a speedy recovery from his injuries, which might have been more serious had not the prompt action of those working near him.

Herbert Rotenber, of Detroit, formerly of Philadelphia, was the guest of Edward Stowe, of the week-end. Little Sharon Ann Elwood was received to Holy Day, Windsor, on Friday evening, for an emergency operation. She is continuing to improve and hopes to be home in ten days. Her birthday, on November 14th.

Mr. Earl Stohard was brought back from Ford Hospital, Detroit, and though somewhat better, has a nurse in constant attendance.

Mrs. D. McNeill Sr. is recovering from a serious heart ailment suffered the past two weeks.

Chas. Patillo is able to be about again after a two weeks' illness.

Daniel Blanchette is on the sick list, but seems to be improving.

Mrs. Charles Warren, of Windsor, spent Sunday with Mrs. Jane Crozier. A miscellaneous shower was held at the home of Mrs. Gordon Chapman, in honour of Miss Bernice Pfahler, daughter of Mr. and Mrs. Wm. Pfahler, of Maidstone Township, on Wednesday, November 5th. Present were Mrs. Geo. Derby, Mrs. Bill Derby, Mrs. Stanley Shura, Mrs. Maynard Cline, Mrs. E. Bauer, Mrs. A. Bauer, Mildred Bauer, Mrs. Clarence Market, Mrs. Joe Lachance, Mrs. Ed. Clickner, Mrs. C. Hall, Mrs. Minnie Price, Mrs. John Pfahler, Joyce Pfahler, Mrs. James Begbie, Mrs. C. Randall, Shirley Pfahler, Mrs. Wm. Pfahler, Mrs. Maurice Laliberte, Mrs. V. Preston, Mrs. B. Pfahler, Mrs. Leslie Price and Miss Ruth Price. The bride, Price and Miss Ruth Price. The bride, Price and Miss Ruth Price. The bride, Price and Miss Ruth Price.

After talking things over, the producers of milk distributors can agree upon a price for milk to the farmer or disagree. If they disagree, producers are of the opinion that each side name a representative and that the Ontario Milk Control Board names a third. The price is then arrived at by arbitration.

Interpretations Vary.

There are various interpretations of the new act, but the most recent one is that the Ontario Milk Control Board will establish a maximum price to the consumer after the distributor.

producers have been agreed on or arbitrated.

Distributors have already indicated that they wouldn't be able to say what they could pay for milk until they knew what they would be able to get for it.

This isn't likely to have much bearing on the Windsor negotiations. In all likelihood the producer price for the whole province will be established before Windsor negotiations are completed. Producers for the Essex County area may then take the price-wide price approved by the Ontario Government and bargain for whatever additional price they feel they should get by virtue of being in a higher cost-producing area. On former occasions this differential in price has varied between a nickel and a dime a hundredweight. How much more Essex County producers want than the rest of the Ontario producers they haven't said as yet.

GESTO

L.O.O.F. Card Party and Dance, Essex Town Hall, Friday, November 14th. Mrs. Peterson's orchestra. Admission 50c.

The W. A. of Gesto United Church will meet in the Ladies' Hall, next Thursday, November 20th, at 10.30 a.m. Quilting will be done. All ladies welcome.

Mrs. W. Buhler and son Raymond, Misses Grace Colonnell and Madeline Mole, spent the week-end in Ann Arbor, Mich., as guests of Mr. and Mrs. Bert Taylor.

Bill Harris, of Windsor, spent Sunday at the home of Mr. and Mrs. Thos. Libby.

\$4.96 Cwt. Will be Asked From Dairies.

Directors of the Essex County Milk Producers' Association meeting in Essex, on Friday of last week, agreed on a price of \$4.96 per hundredweight for milk they supply to Windsor milk distributors.

Current price is \$3.55 per hundredweight and the new "asking" price of \$4.96 is roughly equivalent to three and a half cents more per quart than dairies are now paying.

The directors named themselves a negotiating committee unanimously voted for negotiating a local contract rather than bargain on the province-wide level. The bargaining committee named included: Milford Dohm, Kingsville, president of the E.C.M.P.A.; Achille Moussau, Woodsee, secretary of the producers' organization; John Walstedt, vice-president of the E.C.M.P.A.; John R. Shuel, a director and the association's first president.

The farmers arrived at the new price by taking the price established by the Royal Commission investigating the milk industry, namely \$2.45 set last fall when Canadian government milk subsidies were scrapped.

On that basis of \$3.45, the association's directors have added increased costs for feed which came about when the Canadian government removed subsidies and price controls on western feed grains.

On a comparative basis feed prices of 1946 and 1947 are as follows, with 1946 prices listed first in each case: calf meal, \$4—\$5.20; 16 per cent dairy ration, \$2.25—\$3.20; bran, \$1.60—\$2.10; shorts, \$1.70—\$2.15; distillers' grains, \$1.75—\$3.75; oil cake meal, \$3—\$4.75; soy bean meal, \$3.25—\$5; 32 per cent dairy concentrates, \$3.25—\$4.50; oats, \$1.95 to \$2.25; which \$1.70 to \$2.75; corn, \$2.25 to \$4; barley, \$1.70 to \$3; soy beans, \$3.50 to \$5.30. Hundredweight prices are quoted in each instance.

Main reason why Essex County producers favour their own negoti- ation for the Windsor market is that the Essex County area has long been known as a high-cost producing area, where land is more expensive than it is in other dairy sections of Ontario and where cash crops bring higher returns per acre than in other parts of the province.

Another factor is that farm labour is more expensive on Essex dairy farms where the dairy farmer has to compete with wars paid by vegetable and tobacco growers. In the past six months, a recent hourly rate was prevalent throughout South Essex and during the tobacco and tomato picking season, wages rose to \$10 for a 10-hour day.

Directors interested in the Leamington market and markets for other towns in the county met separately and decided to ask for the same price as milk producers' shipment to the Windsor market area.

The next step is for the secretary of the E.C.M.P.A. to notify Windsor dairies that producers wish a meeting to discuss prices for milk.

Milk distributors have a period of 14 days between the time they're notified and the date set for the meeting. No discussions are likely to be entertained before that 14-day period has elapsed but they can start any time after that.

After talking things over, the producers of milk distributors can agree upon a price for milk to the farmer or disagree. If they disagree, producers are of the opinion that each side name a representative and that the Ontario Milk Control Board names a third. The price is then arrived at by arbitration.

Interpretations Vary.

There are various interpretations of the new act, but the most recent one is that the Ontario Milk Control Board will establish a maximum price to the consumer after the distributor.

producers have been agreed on or arbitrated.

Distributors have already indicated that they wouldn't be able to say what they could pay for milk until they knew what they would be able to get for it.

Maidstone W I Set Date for Bazaar and Tea.

Mrs. Keith Howard presided at the busy meeting of the Maidstone Woman's Institute held last week at the home of Mrs. John Dawson, with an attendance of 26 members and guests. Five dollars was voted to the Princess Alice Fund and \$10 to the Children's Aid Society. The sum of \$41.75 was received from the penny contest, which ended at the October meeting.

Plans were completed for the annual bazaar and tea, to be held in Essex Public Library, on Saturday afternoon, November 29th, from 3 to 6 p.m. Articles suitable for Christmas gifts, including pyjamas, aprons, novelties and fancy goods, will be offered at the various booths. The special feature of the afternoon will be at the ever-popular tea table, where your fortune will be read. In addition, there will be an assortment of baked goods, canned fruit, pickles and jams. At other tables there will be potted plants, the traditional mystery parcels and all kinds of rummage.

Mrs. Howard will be in charge of the affair and conveners of the booths will be Mrs. R. Bryden, Mrs. Garnet Wilson, Mrs. H. Hyland, Mrs. S. Welsh, Mrs. W. Simpson, Mrs. C. Stalls-worth, Mrs. C. Andrews, and Mrs. W. Taylor. Assisting the conveners will be Mrs. Wm. Ede, Mrs. Everett Wilson, Mrs. Fred Little, Mrs. R. David, Mrs. B. Stanley, Mrs. C. Simpkins, Mrs. E. Strigley and Mrs. Wm. Cowan. Others helping with the bazaar are Mrs. B. Wilson, Mrs. G. Cousins, Mrs. T. Spencer, Mrs. Geo. Ellis, Mrs. Geo. Wass, Mrs. Koehler, Mrs. P. Pomeroy, Mrs. L. Robson, Mrs. J. Laurens, Mrs. G. Reed and Mrs. J. Pridley.

The public is cordially invited to attend.

A social half hour was enjoyed at the close of the meeting, when refreshments were served. Assisting the hostess in serving were Mrs. Strigley, Mrs. Cowan and Mrs. H. Dawson.

The public is cordially invited to attend.

The many friends of Mr. and Mrs. James B. Walker wish them much happiness and good health in their new home in Detroit, to where they moved last week.

Essex Memorial Park.

On Thursday last, November 6th, a general meeting was held, with fifty enthusiastic people attending, to learn what they could of the proposed project. If the rest of the townspeople were as enthusiastic to help themselves to a Memorial Park, it would be so much easier to attain our goal. However, after interesting discussions on various aspects of the park project a nominating committee was formed which, after a lengthy deliberation, brought in the following slate of officers:

Chairman, Hugh C. Newman; vice-chairman, Rev. Wm. Whelan; secretary, Murray Butts; treasurer, Jim Thrasher.

These officers were accepted and carried.

Following this, arose a question on tree planting. Maple Row has too many trees. Rather than cut them down, it was proposed that they be moved to the Fair Grounds, which is in great need of trees for beautification and shade. Of course, they don't move by themselves. Al Dent volunteered to round up a gang to dig the holes, and on Saturday Al Dent, Wid Francotte, Bill Dutoit, Bill Voilans, Luke Dutoit, Frank Neils and Ken Dew-hirst spent their afternoon off digging for an Essex Memorial Park. Thank you men, that's the spirit we need, and this Saturday we would like to have more help, so bring your shovel and lend a hand.

There is always bound to be some expenses in moving trees, so to cover the gathering agreed to hold a Bingo on Friday night, December 5th. Keep it in mind and help the Essex Memorial Park Association help you.

Goose Season Opens Nov 17.

The ducks and geese are migratory birds and belong to no one province, so the season is regulated by the Federal Government. The government has the power to say when and where they can be shot. This year the season for Canada Geese opens November 17th and closes December 31st.

The hunters all realize that if it were not for the Jack Miner Sanctuary, there would be no more geese in Essex County at this season of the year than there are elsewhere in Ontario. The sportsmen have been very co-operative and a few months before Jack Miner died he was made honorary president of the Essex County Sportsmen's Association, which was the last tribute and honour bestowed upon Jack Miner.

The continued interest of the Sportsmen is solicited to help see that no one violates the laws governing the Miner Crown Game Preserve. The Sanctuary was created by the Crown in 1916, some thirty-one years ago. The boundaries are on the South Second Concession road, on the north by the Fourth Concession road, on the west by the McCain Sideroad, and on the east by Division road. The Provincial Game Wardens patrol the boundaries both morning and evening.

IN MEMORIAM

In loving memory of Charles Bannister, who passed away 4 years ago, November 5th.

Off and oft our thoughts do wander. To the grave so far away. Where they laid our father. Just four years ago today. —Ever remembered by his children.

IN MEMORIAM

In loving memory of Frank Buhler, who passed away three years ago, November 17th, 1944.

A loving friend, true and kind. No one on earth like him we'll find. For all of us he did his best, And God gave him eternal rest. In our hearts his memory lingers. Sweetly, tender, fond and true. There is not a day, dear father, That we do not think of you. —Fondly remembered by his wife and family.

IN MEMORIAM

In loving memory of my dear husband, Archie Taylor, who passed away November 10th, 1935, and my son, Lorne, who passed away August 17th, 1932.

His life was earnest, his action kind. A generous hand and an active mind. Anxious to please, loath to offend, A loving husband and faithful friend. —Lovingly remembered by his wife Berlice Patterson and family, Cottam.

IN MEMORIAM

In loving memory of my dear husband, Harry Hutchinson, who passed away one year ago today November 12th 1946.

He bade no one a last farewell. He said goodbye to none. His loving heart had ceased to beat. Before I knew he was gone. My heart still aches with sadness. My eyes shed many a tear. God only knows how I miss him. At the end of the first sad year. —Sadly remembered by his wife Alice.

Mother's Milk.

Feeding to the "Domic" infants of the value of mother's milk, medical authorities stress the importance of natural feeding for infants. It is stated that the infants who are fed with mother's milk, in some degree, are spared the greatest risk of infection to the breast milk, which is then fed to the infant from the breast. In some United States breast milk is sold for as much as 35 cents an ounce, or about seven dollars a quart. Medical science places great store by mother's milk.

Switch Socks.

If you can arrange to have a change of clothing at the office or shop or factory, you can save yourself from a possible threat to health when you get home. Medical authorities suggest that the arrival of a pair of socks, and a spare to the breast milk, which is then fed to the infant from the breast. In some United States breast milk is sold for as much as 35 cents an ounce, or about seven dollars a quart. Medical science places great store by mother's milk.

Tough Tissues.
Keep the respiratory tract healthy and reduce susceptibility to infections which can enter the body through the channel, advise the health experts. They note, also, that vitamin A helps maintain the tough and healthy condition of body tissues, particularly of the mucous membrane.

For necessary vitamin A, Canadians are advised to eat more green and yellow vegetables. Vegetables contain carotene, a substance which is readily converted by the body into Vitamin A.

Reserve Energy.
The thin child may not be getting enough food to build up those reserves of energy so necessary for work or play, as well as for protection against disease or injury.

A low energy supply may mean that the child has to use up proteins which he or she needs for normal growth. This type of preventable malnutrition, according to the experts, is far too prevalent in Canada and health authorities urge parents to give more study to the dietary needs of their children.

Nasal Noises.
Snoring is often an indication of some form of nasal blockage. Persistent snorers are advised by public health authorities to see their family doctor. Simple corrective measures will help to clear up nasal noises which are not only annoying but may indicate some trouble in the nose passages.

Hard Knocks Help.
Learning the "hard way" has its advantages, according to the medical authorities. The "school of hard knocks" is the only sure pathway to true experience and ability to face up to life.

The experts appeal to parents to permit their children to take the blows of fate without whimpers. Only thus, they say, can youngsters develop self-discipline and adjust their behaviour to suit social standards. A pampered child has little opportunity to learn to solve life's problems through trial and error. Only through personal experience can we learn some things.

Health a Duty.
It is a sin against society, as well as one's self, to fail to take precautions against sickness. Ill-health, when avoidable, is antisocial. Authorities in the field of public health declare that maintenance of personal as well as community health, is a sacred duty.

Health isn't just a personal matter, anyway. Since it influences personality and action, it is of vital concern to one's friends and neighbours. That makes it a factor of common concern, and the good citizen is one who takes every measure required to prevent the outbreak of disease.

Your Weight.
The ideal weight for any person depends upon many factors — bodily structure, height, build, etc. No one can establish arbitrary standards based on sex or age.

There is, of course, a direct relationship between weight and health. Public health authorities note, for instance, that it is better for a young person to be slightly overweight than underweight. Older people needn't worry too much if they are "putting on a little weight." Anyway, only a family doctor knows how much you should weigh.

**Modified Power Rationing is Announced by Commission.**

A modified form of power rationing is being put into effect by The Hydro-Electric Power Commission of Ontario. The Regulations, which are designed to curtail certain uses of electricity will come into effect on Monday, November 10th, and will apply throughout Ontario wherever power is supplied by Hydro. This has become necessary in order to help provide sufficient electricity for full production of industry and agriculture, and to maintain employment.

The use of electricity for signs, show windows, and ornamental lighting for decorative or advertising purposes, is prohibited. The operation of air heaters, electric grates, or electric boilers used for heating stores or offices is prohibited; as is also the lighting of interiors of business premises after business hours, unless work is being done. An exception will be made for banks and other business places requiring light for protection.

The use of electricity for flood-lighting of parking lots, used car lots, service stations, out-door industrial

premises and the lighting of marquees, entrance and exits is restricted to the minimum amount deemed necessary in the interests of public safety.

The use of electricity for interior domestic purposes and in hospitals is not prohibited under the Regulations, nor is flood-lighting of airports, lighting for police and fire services and protection, lighting required by law, and lighting for direction signs and signs designating the office of a medical practitioner.

Provision is made whereby the Commission may grant exemptions under the regulations. It is contemplated that such exemptions will be granted only where public health and safety are endangered.

The Regulations will provide only a part of the savings necessary to maintain full employment. It is, therefore, vital that all consumers, homemakers, workers, farmers, storekeepers, and business men do their part by saving electricity wherever possible.

More knowledge is comparatively worthless unless digested into practical wisdom and common sense as applied to the affairs of life.—Tryon Edwards.

Pep for Play.

Experts in healthful dietary claim that a child who is underweight may not be getting enough food for maintenance of those reserves of energy needed for pep at play. Reserve energy, too, must be accumulated to protect against possible disease or injury.

According to the authorities, a low energy supply means that a child has to use up proteins which he or she

needs for normal growth. This type of preventable malnutrition, they say, is far too common in Canada. They urge parents to give more thought and study to the dietary needs of the children.

REGULATIONS

applying to certain uses of

ELECTRICITY IN ONTARIO

WHEREAS the requirements of war production and the scarcity of materials since have restricted the construction of electric power developments;

AND WHEREAS the consumption of electric power has continued to increase at such an accelerated rate since the termination of the war that consumption demand of consumers now serviced, without taking into account pending applications for power, has increased by 25 per centum over the 1945 consumption demand and if the Commission were to carry the reserve of 15 per centum considered provident prior to the war and absorbed in meeting wartime demands, the increase in power requirements would in fact be 40 per centum;

AND WHEREAS the demand upon the Commission for electric power is substantially in excess of its electric power resources, and the Commission is of the opinion that a state of emergency exists and has so declared;

NOW THEREFORE the Commission makes the following regulations:

REGULATIONS MADE BY THE COMMISSION UNDER THE POWER COMMISSION ACT

- No municipality or municipal commission receiving electrical power from the Commission shall without the written authority of the Commission supply or use or permit to be supplied or used by any person the electrical power or any part thereof for the following purposes:—
 - lighting of interior or exterior signs;
 - interior or exterior lighting of show windows;
 - interior or exterior outline or ornamental lighting;
 - interior or exterior lighting for decorative or advertising purposes;
 - out-door and flood-lighting for white-ways and for parking lots, used-car lots, service stations and out-door industrial premises above a minimum permissible only between sunset and sunrise, as follows:—
 - parking lots and used-car lots, 2 watts per 100 square feet of space only while open for business;
 - service stations, 100 watts per gasoline pump standard, exclusive of lights in pumps, and only while the service station is open for business; and
 - out-door industrial premises, amount necessary for working areas only;
 - the operation of air heaters, electric grates or electric boilers used for heating purposes in stores or offices;
 - street-lighting between sunrise and sunset;
 - lighting of marquees or sidewalk canopies except 2 watts per square foot of floor-space or sidewalk area covered by the marquee or canopy between sunset and sunrise;
 - lighting of entrances or exits in excess of 5 watts per foot of width of the entrance or exit; and
 - lighting of interiors of business premises after cessation of business with the public except the amount necessary to enable staff to work.
- These regulations do not apply to,—
 - (i) flood-lighting of airports;
 - (ii) lighting for police and fire services and protection;
 - (iii) lighting required by law; and
 - (iv) lighting of direction signs and signs designating the office of a medical practitioner; and
- No person shall, unless under the written authority of the Commission, take from any municipality or municipal commission any electrical power received from the Commission and use it for the purposes specified in regulation 1.
- No person shall, unless under the written authority of the Commission, take from any municipality or municipal commission any electrical power generated or procured by the Commission and use it for the purposes specified in regulation 1.
- These regulations shall come into force at One o'clock a.m. of the 10th of November, 1947.

International Show Soon on in Chicago.

Largest of the country's livestock
Exposition and Horse Show will be
held at Chicago on November 29th
through December 6th, in the Inter-
national Amphitheatre at the Union
Stock Yards.

It will be the 48th anniversary of
this world's celebrated event, which
each year attracts exhibits of the finest
livestock and crops from the United
States and Canada.

Perdick Record Entry.

Officials of the exposition anticipate
one of the largest expositions in its
history when a final tally of the entry
is made. They predict a total showing
of more than 12,000 head of beef cattle,
draft and pleasure horses, sheep and
swine.

Prizes totalling \$100,000 are offered
in the competitions that will feature
four different breeds of cattle, 11
breeds of sheep, nine of swine and five
of draft horses.

Several hundred of the best saddle
and harness horses and ponies, repre-
senting leading stables of the country,
will compete daily in the famous Inter-
national Horse Shows, chief entertain-
ment feature of the Exposition. Thir-

An opening day feature will be the
International Junior Livestock Feed-
ing Contest in which boys and girls
from Midwest farms will exhibit up-
wards of 1,000 baby beaves of their
own raising as well as lambs and hogs.
The exhibitors are 4-H and Vocational
Agricultural Club members and are
all between the ages of 10 and 21.

The country's largest annual crops
show, the International Grain and Hay
Show, will mark its 25th anniversary
this year as a department of the Ex-

Vital Vitamin.

If the respiratory tract is kept
healthy, susceptibility to infections
which could enter the body through
that channel will be reduced, and food
authorities announce that Vitamin A
helps maintain body tissues, particu-
larly of the mucous membrane, in good
condition.

Canadians are advised to eat more
green and yellow vegetables to obtain
their vitamin A. Vegetables contain
Carotene, a substance which the body
readily converts into this vital vitamin.

One is for 4-H Club boys in which the
contestants, all state champions, will
compete for the national title. The
other is for adult contestants. Here
also the winner will be named national
champion.

Manure a Valuable Farm By-Product

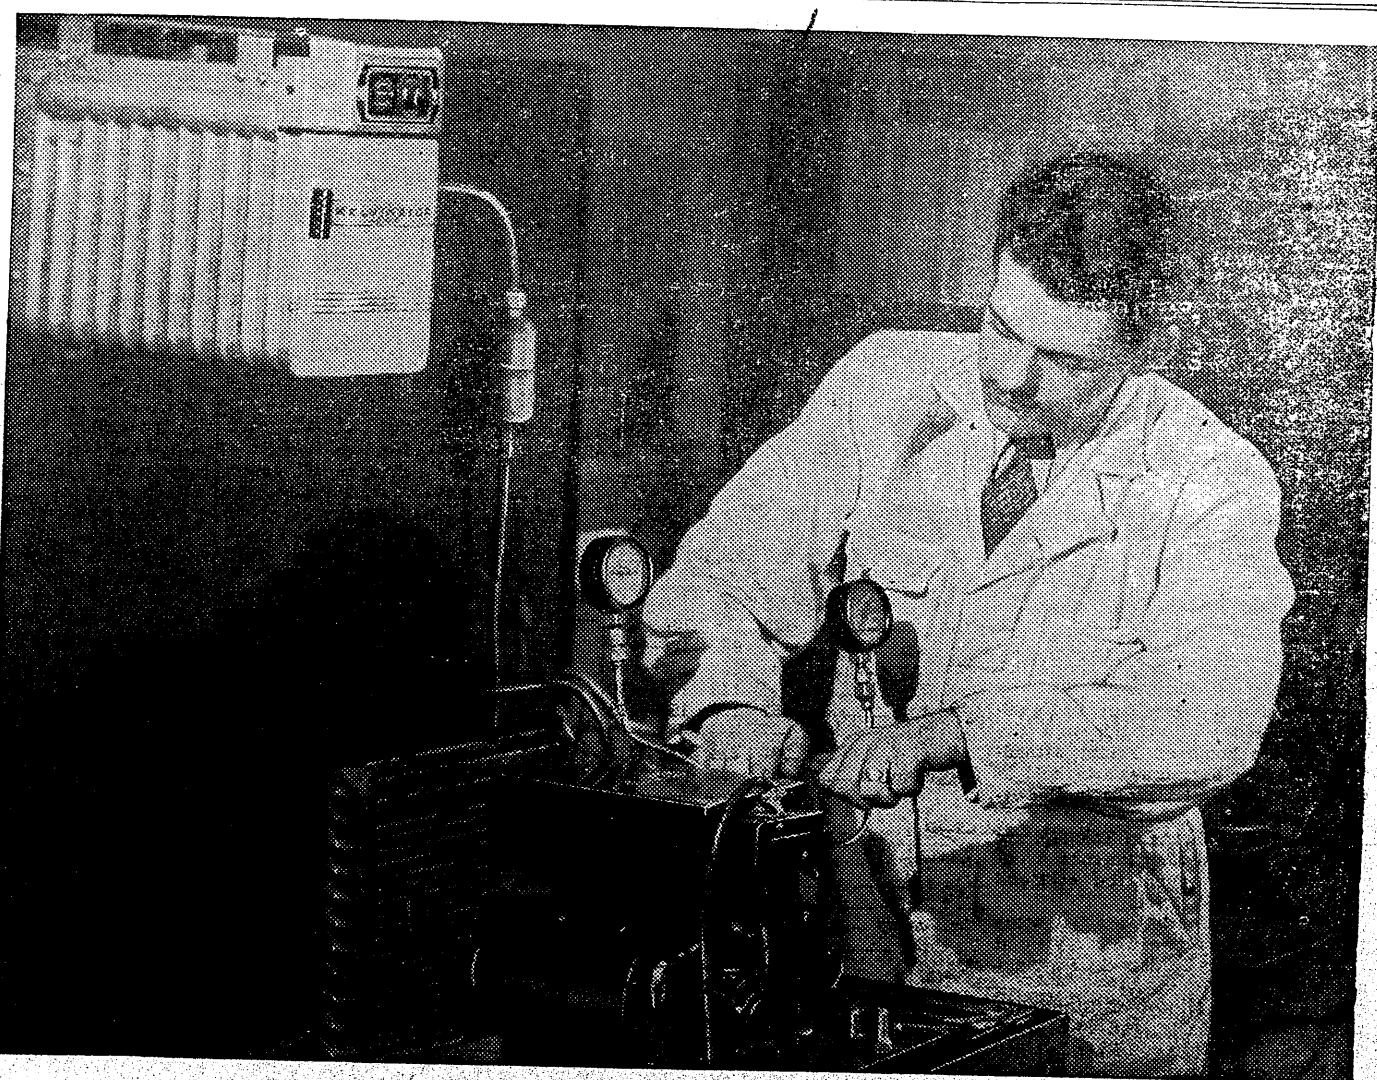

Manure is a valuable by-product
of the farm. It is estimated that
more than 100 million tons of man-
ure, exclusive of bedding material, are
produced each year by the live stock
in Canada. In addition to the nutri-
ents in farmyard manure — nitrogen,
phosphoric acid and potash — it adds
large quantities of valuable organic
matter to the soil and improves the
richness of both light and heavy soils.

It should not be overlooked that
manure is a highly perishable prod-
uct, and care, both in storing and
spreading, is necessary to get the full
benefit from its use.

During the war, the Dominion De-
partment of Agriculture prepared a
pamphlet stressing the value of the

proper use of manure in the wartime
program. With the continued short-
age of foodstuffs in many countries
and the need for high production of
food products in Canada, the best uti-
lization of manure by Canadian farmers
is equally as important now as it was
during the war years. The pamphlet
which deals with the care and preser-
vation of manure, methods of apply-
ing, its place in crop rotation, the re-
lative value of fresh and rotted man-
ure, is still available. It may be ob-
tained free by writing to Dominion
Department of Agriculture, Ottawa.

HANDS AT WORK...

LEARNING REFRIGERATION

ONTARIO'S productive capacity is the measure of her future
prosperity. To assure this province a prominent place in domestic and
foreign trade markets, skilled hands are needed. Increased production
of refrigeration units will mean a greater need for skilled servicing.
Veterans, basically trained in schools and ON THE JOB, will fill this
need as they are absorbed into industry. For those who have mastered
skilled occupations, higher wages, job security and better working con-
ditions are within easier reach.

Through plans sponsored by the Department of Veterans Affairs and
other agencies, hundreds of young workers are being trained for refrigera-
tion servicing. Graduates of training schools are ready now to take
their places in industry. Craftsmen of the future, they will have a share
in Ontario's progress—an important part to play in her industrial de-
velopment.

THE BREWING INDUSTRY (ONTARIO)

D. C. Cury, 23, of Toronto, a veteran
of 15½ months' service in the Royal
Canadian Air Force, is shown checking

The Refrigeration Course gives the
student a theoretical and
practical knowledge of
domestic, commercial and
air conditioning units.

Did You Pay Income Tax For 1942?

If so, read this carefully!

The Government of Canada will repay the REFUNDABLE
SAVINGS PORTION of 1942 Income Tax by March 31st,
1948. If you are one of those who have refundable savings a
cheque will be mailed to you BUT—

Your correct present address is essential!

Correct addresses are available for most of those entitled to
repayment, but a large number of taxpayers are constantly
moving and others marry and their names change.

Cards on which to report changes of address or name are
being sent to all householders in Canada. These are being
distributed at the present time. Additional cards are available
either at your district Income Tax office or your local Post
Office. Do nothing if you live at the same address and have
the same name as in 1942.

FIRST BAPTIST CHURCH — ESSEX.
Next Sunday and for One Week

Pepper-Collard Nuptials.

At a double ring ceremony, in the United Church, Leamington, the Rev. Sidney Davison, united in marriage Miss Viola Collard, daughter of Mr. and Mrs. J. Collard, of Essex, and Lloyd Pepper, son of Mr. and Mrs. A. Pepper, of Leamington, all white mums forming a lovely setting.

The bride, given in marriage by her father, was exquisitely gowned in French lace over satin, the yoke of sheer nylon and long sleeves forming points on her hand. Her long veil of illusion was held to her head by a crown of braids and carried red roses and white mums, her only jewelry being pearls, the gift of the bridegroom. Miss Jean Hickson, as maid of honour, wore pale pink net, made in a gathered bodice and full skirt. She wore a short pink veil held to her head by a beanie, and carried pink roses and mums. Miss Doris Collard, cousin of the bride, was lovely in gown of mauve tulle, with a straight yoke and artificial pockets. She wore identical headpiece as the matron of honour, and carried yellow mums.

Little Maureen McLaughlin, the bride's niece, was adorable in pink tulle, with a large bow in back. She wore a hooped bonnet tied under her chin, and carried a colonial nosegay of pink mums.

Mrs. Collard chose for her daughter's wedding a stunning black frock, trimmed with sequins, with black accessories, and her corsage was of red roses. Mrs. Pepper, mother of the bridegroom, was lovely in pearl gray, trimmed with lace, with brown accessories, and her corsage was of red roses.

Allan Sullivan was best man and the ushers were Gerald Pepper and Donald Nicholson. Miss Elaine Mason sang "The Lord's Prayer" and "Because."

A reception for 100 persons followed at the Four Oaks, the bride's table being centred with a four-tiered wedding cake.

On their return from a wedding trip they will reside in Leamington.

Mrs. Baptiste Emery Dies.

Mrs. Emily Emery, aged 67 years, wife of Baptiste Emery, passed away at the family home, St. James street, in town, on Monday.

She and her husband had farmed all their lives on their farm, near Woodlee, until retiring and moving into town, a little over a year ago.

Surviving, besides her husband, are a daughter Florence Ellen, at home; also four sisters, Mrs. Louise Blanchette, of Sandwich; Josephine (Mrs. A. Steffer), Jennie (Mrs. Wm. Alf. Soucheau) of St. Joachim; and two brothers, Philip, of St. Joachim, and Lawrence, of Leamington.

Funeral services were held from the family home, on Wednesday morning, at 9.30, to Holy Name Church, Essex, at 9, with Rev. Fr. M. L. O'Neill officiating, and burial was in St. Alphonsus cemetery, Windsor.

Coming to Baptist Church.

Known to boys and girls and young people from coast to coast is Rev. Merle W. Johnson, better known as Radio's "Uncle Mel."

At the age of nine, under the preaching of well known Mel Trotter, of Grand Rapids, Mich., Mel surrendered his life to Christ and was saved. In 1936 he found him in Moody Bible Institute of Chicago and as a graduate of the class of '36, he entered into full time Christian service as an associate to a well-known evangelist. Joining Mel Trotter in 1940, Uncle Mel undertook the duties and responsibilities of Director of Music, Young People and Radio, in the Tabernacle in Grand Rapids.

During his ministry with Mel Trotter, he organized from a Sunday school class of eight young lads, Grand Rapids' largest boys' organization "Christian Boys Brigade." Today this project is reaching hundreds of boys for Christ. In its seventh year of fruitful ministry many boys are joining the 1,700 who have already gone out into service. In addition to directing this brigade, Rev. Johnson also undertook the leadership of the large "Christian Servicemen's Center" in Grand Rapids. In a period of less than two years, this soul saving station reached over 10,000 Air Corps Men with the story of salvation through Christ.

In November, 1942, together with a group of fellow Christian leaders, Rev. Johnson founded the popular Radio Program for children, known around the world as the "Children's Bible Hour." Uncle Mel directed it for its initial four years, and through this channel made a weekly visit into the homes of thousands of boys and girls.

During the past year, Uncle Mel has travelled extensively, speaking at Youth for Christ Rallies, Boys and Girls Meetings and Youth Campaigns. His up to the minute gospel message, packed with power and enthusiasm, has stirred hearts of young and old alike.

We are glad to announce that "Uncle Mel" will be with us in the Baptist Church for one week and a day, starting from this Sunday morning, November 23rd to November 30th. Next Thursday, November 27th, the Western Ontario's Pastor and People's Conference will be held in this church, and "Uncle Mel" will be the speaker for the afternoon and evening services.

J. R. Linton Passes.

Following severe head injuries suffered on Monday evening of last week, in an auto accident, James R. Linton, manager of the Essex Farmers Ltd., passed away in Grace Hospital, Windsor, near midnight on Saturday. Death was directly due to a badly fractured skull.

Mr. Linton was one of the town's best known and most respected citizens. He started off his business career when the partnership of Kendrick and Linton purchased the Rose & McCausland elevator business. They sold out a few years later to Essex Farmers, Ltd., and Jim remained as manager and continued in this executive position until his untimely death.

He was a member and Past Master of Central Lodge, A. F. & A. M.; a member and Past Patron of the local Eastern Star Lodge; a member of the Essex Rotary Club; he served a couple of years about twenty years ago, as Councillor of the Town and served several years on the Essex Board of Education, being an ex-chairman of the Board. He had for years been on the official Board of Essex United Church.

Jim was born in Sandwich South Township, a son of the late Mr. and Mrs. Wm. Linton.

Surviving are his widow, the former Veva Saunders, and two children, William D., of town, and Miss Jean Elizabeth Linton, R.N., of Windsor; also a brother, John C., well known merchant and Mayor of Essex, and a sister, Grace (Mrs. John Adamson) of Leamington.

Following a short service at the family home, at 11.30 a.m. his body was moved to Grace United Church, where it rested in state until 2.30 p.m., when funeral services were held in charge of Rev. R. H. Parr, with Mrs. H. Manly as soloist, accompanied by Mrs. J. W. Elsie, at the organ.

Interment was in Victoria Memorial cemetery, the active pallbearers being C. E. Simpson, Geo. R. Weller, D. D. Sweet, W. R. Rodger, of Port Colborne; Herdman, of Harrow, and Glen Gould, while the honorary pallbearers were Harold Nesle, George Brinacomb, Cam Mulcaster, John Walstedt, V. W. Jones, Hugh Johnston, Garnet Stockwell, Carl Bailey, Ross Flood, William Batten, J. A. Nightingale, Joseph LaChance, Fred Butts, Clay Cooper, C. Morin, Rev. J. H. Warren, Angus McKenny, Howard Warren, Capt. Currier, Walter Jessop, Dr. A. E. Benson, Dr. J. D. MacDonald, Dr. G. W. Rogers, Fred Keane, J. W. Elsie, A. G. Cascadden, Harry Molard, Eric Vincent, E. Perry, A. J. Ashton, Ronnie Evan, E. F. Taylor, F. B. Geddes.

The large number to attend the services and the dozens of floral bouquets showed the high esteem in which deceased was held by all.

Old Resident Passes.

Mrs. F. J. Roberts, of Essex, received a telegram recently, advising her of the death of her father's youngest brother, the late Colin Murray, at his home in Carrot River, Sask.

Deceased was born at North Woodlee 65 years ago, but has not resided there since growing to manhood.

Surviving are his widow, the former Anne Campbell; two sons, Elmer, of Vancouver, B.C., and Ralph, of Rainy River; three daughters, Miss Rowena, at home; Miss Margaret, of Portage La Prairie, and Miss Sadie, of Fort William; also a brother Charles, of Detroit; and three sisters, Mrs. Duff Hask and Mrs. Jane Pessant of Detroit, and Mrs. Charles Franz, of Chicago, Ill. There are now only four left of a family of twelve children.

Celebrate Golden Jubiles.

Mr. and Mrs. William Hutchinson, of Kingsville, held "open house" at their home on Mill street, on the occasion of their 50th wedding anniversary, giant yellow chrysanthemums and baskets of white and yellow chrysanthemums, gifts of Lily Rebekah Lodge, and friends, forming an attractive setting.

The late Rev. M. P. Campbell officiated at the ceremony in Essex on November 10th, 1897, which united Mr. and Mrs. Hutchinson in marriage. Hutchinson is the former Miss Margaret Davis, daughter of the late Mr. and Mrs. Milton Davis, of Essex, and Mr. Hutchinson is the son of the late Mr. and Mrs. James Hutchinson, also of Essex.

They have three children, Milton, of Kingsville; Carson, of St. Petersburg, Fla., and Mrs. J. M. Pastorius, of Lincoln Park, Mich., and five grand-children.

Mr. and Mrs. Hutchinson are members of Epworth United Church and the latter is a member of Lily Rebekah Lodge, No. 49, of Kingsville. The tea table at the "open house" was laid with a linen cloth centred by a four-tiered wedding cake topped with a miniature bride and bridegroom, and flanked in a ring of gold baby chrysanthemums. Tall burning white tapers in crystal candelabra burned at each side.

Mrs. Pastorius received with her parents and presiding at the tea table during the afternoon and evening were Mrs. Burns Hutchinson, a granddaughter of Mr. M. A. Hutchinson, and Mrs. Alma Mansell.

Mr. and Mrs. Hutchinson received many gifts, cards and telegrams.

Note.

Due to non-delivery of some of the new equipment for the new local branch office of the Imperial Bank, the opening of same for business has had to be postponed. Opening date will be announced in a near future issue.

SOUTH WOODSLEE

Don't forget Cottam United Church supper and bazaar, on November 27th. Woodlee Y. P. C. will hold a social evening Tuesday evening, November 26th, for past members, at 8 p.m.

The November meeting of the Women's Association was held at the home of Mrs. J. H. Wilcox, with the following ladies and the Bonus Am. as club members as guests. Special guest speaker was Mrs. W. E. Wallace of Windsor, who chose as her theme "A Challenge is Church Women." Others taking part were Mrs. Fraser of Windsor, soloist; and Miss Joan Palmer, Miss Sadie Johnson, of Woodlee. The hostess was assisted at the tea hour by Mrs. R. Hall, Mrs. A. Hoke, and Mrs. F. Wilcox. A very enjoyable afternoon was spent.

The C. Y. O. is sponsoring a graduation dance for the graduating class of St. John's Convent School, to be held in the parish hall, on Saturday evening, November 29th. The graduates are: Pauline Mansell, Robert Mansell, Irene Mullins, Martin Smith and Wilfred Tracey. The sponsors and patronesses for the evening are to be Mr. and Mrs. H. E. Cleavin, Mr. and Mrs. James C. Goss, Mr. and Mrs. Walter Stow, and Mr. and Mrs. Lawrence Tracey.

Graduation exercises will be held Friday evening, November 28th, in the parish hall, North Woodlee, at 8 p.m. The students of St. John's Convent School are presenting "The Coronation," a dramatization of the coronation of King George VI.

The Woodlee Credit Union met in the hall of the Woodlee Hotel, on Tuesday evening, November 19th, for the third meeting of the year. The president, Mr. J. H. Wilcox, presided. The secretary, Mr. J. H. Wilcox, reported on the activities of the union during the past month. The union has been successful in obtaining a loan of \$1,000 from the bank, which will be used for the purchase of a new building. Huneau-Eyraud Nuptials.

At a lovely ceremony Saturday, at St. Mary's Church, Maidstone, Miss Eleanor Eyraud, daughter of Mr. and Mrs. Florant Eyraud, of Maidstone, became the bride of Clarence A. Huneau, son of Mr. and Mrs. Albert Huneau, of Essex. The Rev. Father Chisholm officiated.

Given in marriage by her father, the bride was gown in blue chiffon velvet, a street-length style, fashioned with a bustle and a draped neckline. She wore a matching hat and pink roses.

Mrs. Mabel Huneau, as matron of honor, wore a tulle and velvet dress with black accessories and bronze chrysanthemums.

M. Huneau, brother of the bridegroom, was best man and the ushers were Mr. Lorne Eyraud and Sylvester Pilon. During the ceremony Nova Clonnie, Mike McCloskey and Sylvia McGuire, Jr., sang "On This Day" and "Mother Dear. O pray for Me."

A wedding dinner was served at Larkspur's Hotel, for 30 guests, followed by a reception for 150 guests. The bride's table was centred with a four-tiered wedding cake, flanked by burning tapers in crystal candelabra and a vase of fall flowers.

Mrs. Eyraud chose for her daughter a wedding a coral crepe dress with black accessories and red roses.

Mrs. Huneau, mother of the bridegroom, wore a navy blue crepe dress with black accessories and red roses.

Mr. and Mrs. Huneau left on a trip to the bride travelling in a party car and with matching accessories and a gray fur coat.

They will reside in Windsor.

PUCE
Douglas Patillo 7-year-old son of Mr. and Mrs. Carmen Patillo, while on the way to school, one day early last week, was struck by a westbound auto, on Highway 39, in front of Elmer Pfahler's new hardware store. Mr. Pfahler took him home and Dr. Milten was called. At first he seemed to be suffering from shock and minor bruises. A day or two later he was removed to Grace Hospital, Windsor, and an X-ray showed quite a severe skull fracture. He is recovering now and all his friends, little and big, wish his speedy comeback.

Miss Ruth Martin motored up from Toledo, Ohio, to spend the week-end with her mother, Mrs. Mary Martin, and her brother Daniel.

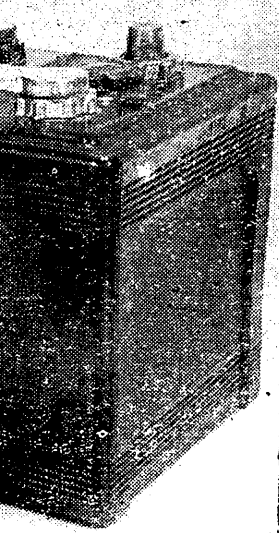

Harold Hicks, who recently returned from Hotel Dieu, after injuries sustained several days ago, in the belt of a hulling machine, suffered a bad spell a few days later and was returned to the hospital, where an X-ray showed a fractured vertebrae of the neck. He will be confined to the hospital for two or more weeks.

FRIDAY, NOVEMBER 21, 1947.

TOWN and VICINITY

—Don't forget Cottam United Church supper and bazaar, on November 27th.
—The engagement is announced of Miss Frances Shepley, daughter of Mr. and Mrs. Milford Shepley of Essex to Harold Price, son of Mr. and Mrs. Clarence Price, of Chatham, formerly of Maldstone, the marriage to be solemnized Saturday, November 22nd, at 2 p.m., at the United Church in Essex.

—Miss Helen Sadler was a guest the past week-end of Rev. and Mrs. Bowen, of London, and while there attended the Varsity-Western University football game, and the Western Alumni dinner at the London Hotel.

—The regular meeting of the Women's Missionary Society of the Baptist Church will meet in the school room of the church on Tuesday, November 25th, at 3 p.m. Reports of the convention, held in Toronto, will be given by some of the members. All ladies invited.

—The Young Married Women's Club of Essex United Church will hold a bazaar and tea on Friday afternoon, November 28th, from 3 until 6, in the church basement.
—Frederick Arthur Gaby, who served the Ontario Hydro-Electric Power Commission for 27 years before his dismissal as chief engineer in 1934, by M. F. Hepburn, died of coronary thrombosis, on Friday of last week. He was 69.

—Mrs. George St. Julian wishes to thank her friends for the many beautiful cards and gifts sent to her while she was in the hospital. They were very much appreciated.

—Plans have been in the making, since last spring, for the Christmas bazaar and tea which was announced in last week's issue, to be held in the Essex Public Library, on Saturday afternoon, November 29th from 3 to 6 o'clock. One of the special attractions is the tea, with your fortune read; also aprons, fancy work, noted plants, novelties, rummage table and baked goods. The bazaar is under the direction of Mrs. Keith Howard, and is being sponsored by the Maldstone Women's Institute. The public is invited to attend.

—The Essex Fire Brigade had a call shortly after 6 o'clock Saturday evening to the new home of Mr. and Mrs. Gordon Switzer, on Arthur avenue. Cause of fire was an overheated gas hot water heater. Considerable damage was done to the interior.

I.O.O.F. Card Party.
—Prize winners at the I.O.O.F. Card Party and Dance, on Friday evening last were: Ladies, 1st, Mrs. S. Quick; 2nd, Mrs. Wilson; lone hands, Mrs. H. McLenon; consolation, Mrs. Jenner; Gents, 1st, Mr. Craig; 2nd, Elmer Blair; lone hands, Robert Mielis; consolation, Pat Durocher. Arnold Vincent won the door prize.

Attention Rebekahs.
There will be a degree practice at the lodge, on Wednesday, November 26th. A full attendance is desired.

—Mostly all the local hunters arrived home from the North country, this past week, with a deer apiece.

—The Essex County Ex-Wardens Association will hold their fall dinner meeting in the Aberdeen Hotel, on Wednesday next, November 26th.

—The members of the Girls' Auxiliary of Essex Deaneery met in the parish hall, on Wednesday, November 12th, for their fall rally, with the girls of St. Pauls, Essex, and Trinity, Cottam, as joint hostesses. Mrs. F. H. Cail, of Windsor, president of the W. A. of Essex Deaneery, was chairman, and introduced the other Deaneery officers who were present. The rector welcomed the girls and their advisors to the parish, and a splendid program followed consisting of a vocal duet by Evelyn Queen and Yvonne Tully, of Trinity, Cottam, accompanied by Mrs. Emerson Rupert; humorous readings by Mrs. Robinson, of St. John's, Sandwich, and a sound and color film shown by Mrs. Bob Garrett, of Cottam. The girls' hymns were sung with Isabelle Simpson, of St. Paul's branch, as accompanist. Lunch was served, after which the girls enjoyed a social time together.

—Group 3 of Essex United W. A. are holding their bazaar in the basement of the United Church, on Friday, November 21st, at 3 p.m. There will be aprons, baked goods, pot holders, pillow cases, etc. At 6 o'clock a hot chicken supper will be served. Tickets, \$1.00.
—A rummage sale, under auspices of Group 2 of the United Church W. A., will be held in the basement of the Public Library, on Saturday, November 22nd, from 9 a.m. to 5 p.m.

MRS. PETERSON'S ORCHESTRA.
Friday, November 28th.
Admission — 50c

SPECIAL THANKS!
We do wish to express our thanks to friends and neighbours and to the fire department who were so kind in helping us to save our home from being destroyed by fire on Saturday. Again we say THANK YOU.—Mr. and Mrs. Howard Switzer and family.

Our Memorial Park.
Trees are our main topic for discussion this week. Trees for shade, trees to add to the beauty of our proposed Memorial Park. As you have heard we are planning to move a number of unwanted trees from Maple Row. This takes time and muscle and last week only three men were present. Murray Butts Chas Benson and Evelyn Queen (Hugh Newman of course). We did what we could but the job is still far from completed.

To further our aims for trees and shrubbery we are holding a miscellaneous Bazaar on Friday night, December 5th, at 8.30 p.m., at the Town Hall, 15 rounds, and door prize, all for 50c. So won't you come along and help us out in our effort to help the community.

EDGAR MILLS
Mrs. Bert Shepley spent a few days in Detroit last week.
Mrs. Ora Bellmore, who has been quite ill at Hotel Dieu, Windsor, has returned much improved in health.
Ken Lepain returned from the North on Saturday, with a fine deer.
Bert Shepley and family entertained a number of friends on Sunday.
H. Taylor and Forest Pigeon, of Malden, called on friends here on Tuesday.

IN MEMORIAM
In loving memory of our dear father, William Jones, who passed away two years ago, November 22nd, 1945.
November comes with deep regret,
A month we never shall forget.
'Till memory fades, a life departs,
You will live forever in our hearts.

—Sadly missed by son Clarence, daughter-in-law Ethel and granddaughter Barbara.

Your Heat Dollar

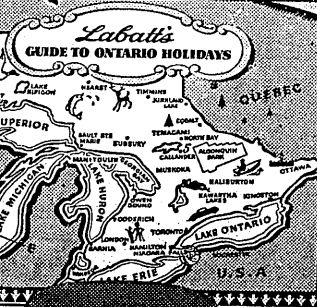

PITTSBURGH—Here's what becomes of 15¢ to 35¢ of the dollars your heating plant pours into your home. It goes out the leaks, "holes" your windows really are. The easy, sensible way to cut fuel costs and improve the efficiency of your heating plant is to equip your home with winter windows. They will pay for themselves in just a few seasons by keeping the heat in. Winter windows apply one of the best heat-insulating principles there is. They form a dead air space between themselves and the regular windows. They should be selected for efficiency, sturdiness and good appearance. Good solid frames with Pennvernon glass panes are important factors. Those that are adjustable with hinges to permit opening for proper ventilation at night or for ease in cleaning, offer convenience as well.

FRIDAY, NOVEMBER 21, 1947.

W. M. NEAL, C.B.E.

Chairman and president of the Canadian Pacific Railway, whose promotion as a Knight of Grace in the Venerable Order of the Hospital of St. John of Jerusalem, has been announced in Ottawa.

Minerals are not Medicine.

In feeding programs designed for top milk and egg production and fast fattening of beef, ordinary cereal grains do not contain sufficient minerals to supply the needs of livestock and poultry. For this reason it is necessary to add mineral supplements to the rations as part of the winter feeding program. These should not be confused as medicine but as part of the daily food supply.

Although common ills such as rickets occur in severe cases of deficiency, some farm animals may show no more than a condition of general unthriftiness when not receiving enough of minerals. Since they are not medicine, however, minerals do not possess very helpful in advance stages of deficiency.

Some of the greatest losses in livestock probably occur when newborn offspring suffer from lack of minerals. These essential elements are not fed to parents. Since such a setback will retard the animal's growth for its entire lifetime, feeding minerals to pregnant female farm animals is most necessary.

Nutrition experts of C.I.F.A. agricultural chemicals division point out that a good mineral supplement should contain calcium, phosphorus, iron, iodine, common salt, sulphur, copper and manganese. Each of these serves a vital role in animal nutrition. Calcium and phosphorus, both of which are necessary for bone building, are two good examples.

Because of the nature of hog feed, addition of a mineral supplement containing more calcium and less phosphorus is recommended. This should be kept in mind when purchasing commercial mineral mixtures.

Clean Milk.

Milk is a highly nutritious food for humans and domestic animals but also for bacteria. Bacteria grow in milk, and cause souring, bad flavour, ropiness, and other defects. Clean, healthy cows; clean, sterilized utensils; and prompt cooling and storage of milk at low temperature are the chief methods for keeping milk free from bacteria.

by ottawa observer

Political discussions and arguments in the nation's capital this week covered a wide range of subjects. It indicates how very complex our modern life has become and how seriously our welfare is affected by forces that sometimes appear remote. There is much speculation on the significance of last week's municipal elections in Great Britain and least detached observers agree that it is a severe setback to socialism and what socialists and communists euphemistically refer to as "planned economy."

No one seriously expects a new election at this time. It is the general impression that the growing sentiment against socialism in England has a permanent effect on C.C.F. supporters in Canada and C.C.F. leaders are struggling desperately to "play down" the importance of the municipal elections. The C.C.F. party in Canada belongs to and actively promotes a union of kindred Socialist parties. It is noted here that the "Galaxy" poll of British confirms the heavy loss of support for the Labour government and a considerable gain by the Conservative party.

Progressive Conservative self analysis. Reports from a number of places indicate a searching self-analysis by leaders and supporters of the progressive standing deficit in York-Sunbury by-election. Daily and weekly newspapers supporting the party are almost unanimous in calling for "a positive and distinctive policy" for the party. They also demand a radical change in the party leaders' "strategy and tactics."

The daily papers are guarded in their suggestions as to what the new policy should be but all agree that it should be definite. At least one weekly paper, which gives unwavering support to the party, has a clear-cut suggestion. It is that the P. C. party propose and advocate a commonwealth customs union, a policy which it claims would "be in accord with conservative tradition and would evoke enthusiasm within the party."

This will be in contrast to the Liberal government's policy of maintaining a balance between its relations with the British Commonwealth, the United States and other nations of the world.

John Disenhaver, prominent party leader, denies the need for new policies. He feels that the party's need is for a publicity campaign to inform the public what the party stands for. Observers here are waiting for the opening session of parliament to see what effect the criticisms have on the party leadership which has been under fire from within its own ranks.

Drastic Change in Policy. Observers here who have been reading newspaper accounts of socialist Canada see a radical change in his policy with respect to war. In a Vancouver interview he placed himself definitely on the side of "preparedness" against war. This is in striking contrast to previous C.C.F. policy.

It is noted with interest here that at Prince Rupert, B.C., Mr. Coldwell denied that he had ever been offered the Liberal Leadership thus leaving many of his supporters out on a limb. This statement finally settles a number of arguments and even bets in the Capital. He said he had been "approached" on the subject of coalition but did not say by whom the approach was made.

A Canadian Economy. There is much speculation among observers here on the Government's plans for maintaining our Canadian economy. In the face of some movement in favour of customs union with Great Britain and the suggestion of a prominent weekly financial paper that we are heading for a customs union with the United States, Liberal opinion in the Capital seems to favour a strictly Canadian economy. That will not be a policy of isolation but of co-operation was shown by the announcement of the trade treaties made at Geneva.

Interest in the government's plans for a strictly Canadian economy is heightened by the report of a new government department presided over by Rt. Hon. C. D. Howe. By people of all parties Mr. Howe's name is always linked with achievement. An integrated program to encourage and promote further development of our resources and extending the degree of domestic processing can greatly expand our exports to the United States and keep our high employment level.

ROYAL WEDDING GIFTS

CANADIAN MADE superfine Merino Blankets, a wedding gift to Princess Elizabeth from the Canadian Woollen and Knit Goods Manufacturers Association, are shown above. The gift consists of two blue and six white blankets bound in matching satin. Miss Iona Routley, T.C.A., checks the shipment before it goes aboard a Trans-Canada Air Lines plane for England.

Clean Hands.

It's sheer self-preservation to keep the hands and the nails clean, declare public health authorities, because dirt serves as a germ collector from the things which may collect there.

Clean hands are advocated for health as well as for social acceptability. Medical officers warn that bacteria invisibly collect around the fingers and the palm, and particularly under the nail, no matter how carefully washed. Thorough washing of hands before eating is particularly important.

Air Clothing.

Youngsters who toss their discarded wearing apparel about carelessly should be taught that the result is just as unkindness it's dangerous.

Due to the perspiration and body odor which is bound to be absorbed by clothing it requires careful airing before being worn again. So, unless the soiled articles are going into the wash or to the dry cleaners at once, they should be placed on a hamper, preferably in the open air.

Protect Eyes.

The familiarity which breeds contempt accounts for many eye accidents, particularly in workshops employing processes which produce flying particles. Health authorities issue a special warning to workers engaged on operations with obvious eye-hazards, warning to workers engaged on operations with obvious eye-hazards, Safety goggles are a "must" in such procedures.

Of all the industrial eye accidents occurring in Canada, it is estimated that at least 98 per cent could have been prevented by the use of approved goggles, eye-shields, etc.

Danger to Skin.

Certain organic solvents used in factories on special processes present a hazard to workers, unless they appreciate the need for precautions. Public health authorities say that some solvents are harmful if inhaled for protracted periods, and if long in contact with the skin.

Have a Hobby.

Since the processes of modern living rarely call for the full use of physical or mental capacities, the experts in healthful living recommend a hobby as well as an ideal way of employing our faculties to the full.

To be healthy and happy we must be fully occupied. If the day's work doesn't call forth all the "sweat and toil" needed to give the body and brain a thorough work-out, an absorbing leisure-time activity will do the trick, helping health as well as killing the idle hours.

Manners Matter.

"Manners, in addition to making the man, makes the healthy and happy man," says a leading health authority. "The mannerly person, besides being socially more acceptable than the boor, is correspondingly happier because of the agreeable atmosphere he creates, and consequently his health benefits."

So the practice of politeness pays off in more than mere enjoyment of intercourse with others. Etiquette rounds out the picture of the balanced, sound citizen.

Tardy Tables.

Youngsters who have stayed up too late at night and, consequently, are tardy at table in the morning, may be tempted to bolt their breakfasts. Nutrition authorities say that children are likely to have more appetite if they do not eat too soon after rising, and, anyway, it isn't good to gulp down breakfast—or any other meal.

Breakfast should be sufficiently early, however, to permit every member of the family to eat slowly—and thoroughly.

Education has for its object the formation of character.—Herbert Spencer.

Disappearing Soil.

When the Pilgrim Fathers landed on the shores of North America, the top soil was about nine inches deep. Today it is an average of six inches in depth for the continent as a whole. In some places it has been lost on a truly.

Early Chicks.

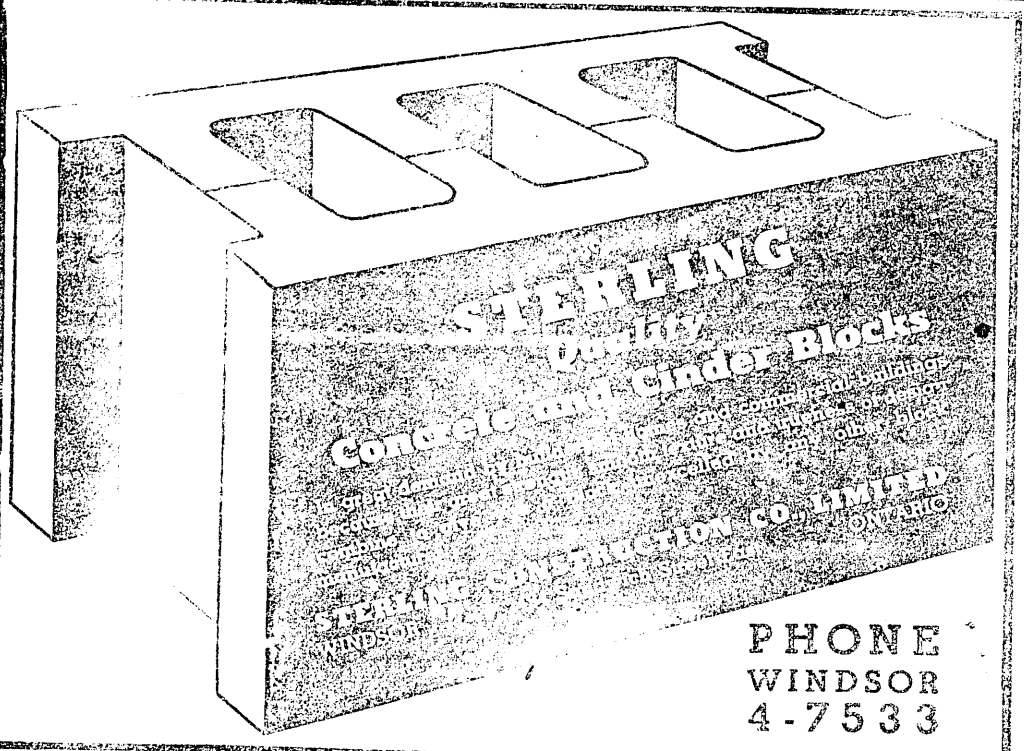

The positive response of Canadian poultry producers to buy earlier hatched chicks, as advocated last spring, has been reflected in the offering of eggs to the Special Products Board, says the Current Review of Agricultural conditions in Canada. During the month of September, 62,234 cases of eggs were inspected for export as compared with 550 cases in 1945. In addition, the Board purchased 25,225 cases for conversion to powder. Receipts of pullet eggs have increased steadily since the first of September and pullet eggs are now being packed for export shipment.

The Band Plays On

During the past weeks several small articles have appeared in the Free Press supporting the Essex Boys' and Girls' Band. In spite of all the detail given in these items, confusion still lurks in the minds of some of our citizens. This last appeal is being made with the hope that the situation will be clarified before the ratepayers and the property owners go to the polls next Monday.

In effect, the property owner will be asked to vote YES or NO to the following question: "Are you in favour of a 1/2 mill assessment to be used for band purposes in the Town of Essex?" Of course, this may not be the exact wording on the ballot, but any other wording on the ballot will have the same meaning.

The Essex Band has an investment of over \$4,000 for instruments. The uniform which distinguishes our band, cost over \$1,500. During the years philanthropic citizens have supported the band, both financially and in the organization work. This has meant great sacrifice and has developed a lack of appreciation on the part of our Essex citizens.

During the last year our Band has made seventy appearances in concerts. Special engagements, Waterloo Festival and the Toronto Exhibition. Twelve times the band played in concert work in the Town of Essex. Should the bylaw granting 1/2 mill, which amounts to approximately \$700, be approved, the band proposes to give a weekly concert in the park.

Let us explain this 1/2 mill grant as proposed by the by-law. In cold facts, it simply means an increase of 50 cents on every \$1,000 assessment. If a house is assessed for \$4,000, it will cost to the owner the small sum of two dollars for band purposes. This amount raised through taxation is just barely enough to pay the salary of our bandmaster and to buy the few needed uniforms each year.

Your interest in the band will be well guarded. A committee headed by the Mayor, and including P. Vanstone, vice-president; C. Simpson, secretary; W. E. Beaman, treasurer, will be responsible for financing the band and spending the money received. This executive is supported by several citizens, J. A. Dowsell, R. H. Perry, P. W. Lee, Brien. Once a year the books of the band will be presented to the town auditors for verification.

The citizens who attended the band concert last Sunday evening were more than pleased with the work of the band. Everyone was loud in their praise and each member given by the band was worthy of comment. Especially were the solo rendered by the boys received with great applause. We were proud of our band.

Surely the citizens of Essex will support the by-law of 1/2 mill assessment for such a worthy purpose. Every property owner ought to be at the polls next Monday. The Town of Essex needs the band. This information is sponsored and paid for by interested citizens.

Essex Nominations.

Mayor—J. C. Linton (acc.), S. Francotte.
Reeve—Frank Irwin, Earl Pulley.
Public Utilities Commission—Ed E. Hines, Wm. Truesdale, S. Francotte (withdrew).
Council—S. Francotte, Charles Macdonald, John Chase, M. C. Loucks, John Shaw, A. G. Cascarden, P. W. Lee, E. J. Queen, Charles Buhler, Chester Gunning, Ed. Michael, Frank Hill.
Public school Trustees—Ward 1, C. Jones, C. Markert, C. Stephens; Ward 2, H. Harrow (acc.); Ward 3, C. Tully (acc.).

Following the close of nominations, short speeches were made by the members of the 1947 Council, who gave reports of their year's work; as well as most of the candidates nominated.

J. C. Linton.
Mayor Linton, in opening his remarks, stated that he was disappointed in the small number in attendance, and thought the ratepayers of town should take more interest in their town.

He spoke of the many hours spent by himself and Messrs. Hines and Johnston, of the Public Utilities Commission, planning the proposed new reservoir, only to have the two tenders for same, being so far in excess of estimates, that it would be impossible to keep within the \$60,000 voted on by the property owners. "I do hope we will have the reservoir completed this coming year," he stated.

In talking of Town Council affairs, he said the Council had been able to reduce the 1947 tax rate 1 mill while, according to government reports, over 90% of the municipalities in Ontario had increased their mill rate; also advising his audience that the town tax collector had collected 88% of the current roll.

"I hope, in this coming year, conditions will improve enough so that we will be able to do repair work which should have been done this year, as well as work which will show up in 1948," he said.

Here, he told of Council ordering a "stop light" from the Canadian General Electric Co. in May last on a 6-week delivery and light is still coming, the company promising delivery soon.

He asked support of the bylaw voting 1/2 mill annually to the Essex Boys' Band, as a contribution to youth. It means only \$50 on a \$1,000 assessment, and gives all our children a chance for a musical as well as social training.

In closing, Mayor Linton stated that in spite of the fact that there have been seventy odd new services installed by the local water works system the past two years, there is still room for at least 25 new homes in town, and if he is Mayor in 1948, and "I intend to stand for reelection," he will look into a Housing Scheme for Essex.

Frank Irwin.

Reeve Irwin also spoke on so few being out at the meeting, and thought it too bad the taxpayers of town did not show more interest in municipal affairs. He gave a brief resume of County Council work before announcing he would be a candidate for reelection.

Mr. Francotte.

Mr. Francotte stated he had no intentions of contesting the Mayoralty, but would again seek re-election as Councillor. As chairman of the Board of Works, he stated that Laird Avenue, from Alice street to Victor street and the Maidstone Townline from eastern limits of town to end of Arthur Avenue, had been resurfaced and if these two pieces of road stand up through the winter, he would propose re-surfacing other streets in town, as in the long run it would be much cheaper than graveling every year.

In talking of drainage work, of which there is plenty to do, he especially spoke of the two outlets, the Maidstone Townline and Puce drain, and the Hanlan and Victoria street drains. Laying of 3 to 4 foot sewer crock was out of the question, but these drains would have to be cleaned out and work would have to be done by machine, as men couldn't be expected to go into the ditches.

As to repair of sidewalks, very little was done this year, due to scarcity of cement. The speaker then branched off on water works matters, stating Essex needed water and needed it bad and thought, that as going to the lake was out of the question, some consideration should be given going to Windsor which, he noted in the paper, was building a new \$2,000,000 plant, which was not expected to be finished inside of four years.

J. M. Shaw reported on finances of the town and stated he would again contest a seat on the Town Council.
Public School Board.

Clarence Jones, incumbent member for Ward 1, advised his listeners that he was too busy and would have to drop off the board and not seek reelection.

Hunter Harrow, reporting for P. Vanstone, chairman of the Board, who had to leave the meeting, spoke of possibility of new quarters, if town continues to grow and there is no more room on present site. He spoke of new lighting and Public Address Systems, stating that a delegation from Windsor Board of Education, who visited on page 5)

To Hold Open House Dec. 4th

The Children's Aid Society of the County of Essex and Pelee Island, and the R. C. Children's Aid Society of the County of Essex, will hold a joint "open house" at 737 Louis Avenue, Windsor, on Thursday, December 4th, from 7 to 10 p.m. A film on child work will be shown, and tea will be served by the Pilot's Club. All interested in social work or have social problems are cordially invited.

Dr. Murray Bowie Shot.

Dr. Murray R. Bowie, aged 37 years, was shot dead in his Canadian Pensions Commission office, at Ottawa, on Tuesday morning.

The shooting was done by a disgruntled World War I veteran, the name of Henry Page, whom Murray had examined a month ago in a periodic medical examination, and found his arthritic condition had improved. The Commission, following his report, had reduced the veteran's pension by \$20 per month, notifying him last week of the reduction. Apparently Page got the notice on Monday and remembering Dr. Bowie had examined him, he went directly to his office and pumped three shots into his chest at point blank range. He then turned the gun on himself with a single shot to the heart.

Murray, son of Dr. and Mrs. H. A. Bowie, of Ottawa, was born in Essex and after graduating in Medicine at Queen's University, Kingston, he interned in hospitals in Brooklyn, N.Y., and Ottawa, before returning to Essex to open a private practice in 1938. He enlisted in the Canadian Army Medical Corps in 1941 and served with the rank of captain.

On being discharged in 1945, he was appointed a medical adviser to the Pensions Commission, taking over the position formerly held by his father, who died a few years ago because of ill-health. His position had only been made permanent a week ago.

Surviving are his father, Dr. H. A. Bowie, who practiced medicine in town for over 20 years before moving to Ottawa, about 1925, and who was Mayor of the town for two or three years; his mother, the former Edna Richards, daughter of the late Mr. and Mrs. W. H. Richards; his widow, the former Katherine Kidd, of Gananoque, to whom he was married on December 30th, 1942, and a 3-year-old son Douglas; also two sisters, Mildred (Mrs. Carnegie) of Toronto, and Gertrude (Mrs. Hensley) of Ottawa.

Henry C. Walters Dies.

Henry C. Walters, 583 Seyburn Avenue, Detroit, former president of the Detroit and Michigan State Bar Association, died Wednesday of last week. Mr. Walters was born in British Columbia in 1870, but came to the Town of Essex as a young boy, with his parents. After graduating from Essex Public and High Schools he and his brother, Frank, bought out the Essex Liberal, now the Free Press, but they sold the paper and went to Detroit.

He began practicing law in Detroit in 1894 following his graduation from the University of Michigan. He specialized in insurance law. He was a member of the Detroit Board of Commerce, Chamber of Commerce of the United States, American Society of International Law, American Bar Association, Detroit Lawyers' Club, and honorary member of the Delta Theta Phi law fraternity. Prior to his retirement in 1945, he was senior member of the law firm of Walters and Head. He leaves a brother, George A., former Detroit councillor and Wayne County Sheriff, now living in Westminster, Md.

Mills-Howson Nuptials.

A quiet but pretty wedding was solemnized, in the Essex Gospel Tabernacle, on Saturday afternoon, at 2 o'clock, when Lillian Evelyn Howson, daughter of Mr. and Mrs. Leonard Howson, was united in marriage, by Rev. E. C. Williams, to Ross Orley Mills, son of Mr. and Mrs. George Mills, all of Colchester North.

The bride, given in marriage by her father, was lovely in a floor-length gown of satin and net, made with sweetheart neckline, and long sleeves forming points over her hands. Her three-quarter length veil was held to her head with orange blossoms.

Miss Blanche Howson, sister of the bride, as bridesmaid, was dressed in maize, with shoulder-length veil held in place with carnations. She carried yellow carnations.

Keith Mills, brother of the groom, was best man, the ushers being Milo Mills and James Howson. Miss Pearl Williams, cousin of the bride, played the wedding music, and Mrs. (Rev.) Williams sang "Because" and "O Perfect Love."

A reception followed at the parish hall, with immediate families present. The bride's table was centred with a three-tiered wedding cake topped with a miniature bride and groom.

Mrs. Howson and Mrs. Mills were dressed in black and wore white corsages for the occasion.
The young couple left on a short motor trip and on their return will reside at the groom's home in Colchester North.

Mrs. Wm. Neundorff Passes

Mrs. Margaret Neundorff, widow of the late Wm. Neundorff, passed away at her late home, 3410 Turner Road, Windsor, on Friday. She was 80 years of age.

The people of Essex and vicinity will well remember the Neundorffs, as they owned the Grand Central Hotel, in town, for many years.
Surviving is an only son, Pearlman, at home.

Funeral services were held from the Marcotte Funeral Home, with burial in Brighton, Mich., cemetery.

Howard Dresser Dies.

Howard Dresser, well-known farmer of the 9th Concession, Gosfield North, passed away today (Thursday) at his late home.

Surviving is a brother Thomas, of Mersea Township.

Funeral services will be held from the E. J. Hicks Funeral Home, Essex, at 2 p.m. Saturday, with Rev. C. E. Taylor officiating. Burial will be in Cottam cemetery.

Ex-Wardens Meet.

The ex-Wardens Association of Essex County met for their annual fall dinner meeting, in the Aberdeen Hotel, on Wednesday at noon, when thirteen members and seven guests sat down to an excellent turkey dinner, served by the management.

Those present were ex-Wardens Enos McCausland, Thomas Plant, D. S. Scratch, James Gow, J. K. McLean, Wm. Clifford, A. A. Marentette, D. M. Eagle, Richard Benoit, James Armstrong, Phil Carson, Leo Sylvester, and George Pearson; also A. McKenney, Reeve Frank Irwin and K. E. Brett, of Essex; County Clerk A. A. Keeley, County Treasurer H. Cade, Governor of the jail John Robinson, of Sandwich; and Curtis Tofflemire, superintendent and J. Willan, inspector of the Home for the Aged, Leamington.

A short program of speeches, with President A. A. Marentette in the chair, was followed by a couple of hours of euche.

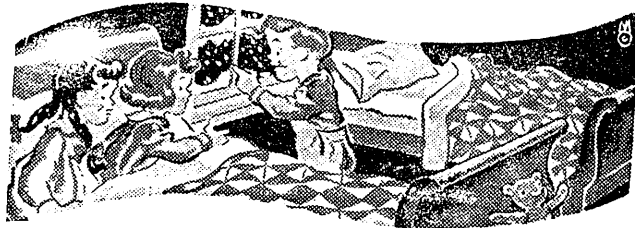

The highlight of the short talks was, as usual, one given by D. M. Eagle, who stated that two out of every three in the world today are either not well fed or starving, and that world matters today are even more serious than they were in wartime. "Cheerful gatherings like ours today will keep depression away," he said, adding that the recent Royal Wedding was a tonic builder for the people of Great Britain and that nothing could have happened in England to build up the morale of the British people more than this happy event. Mr. Eagle is the only ex-Warden who has attended all 28 of the bi-annual meetings held by the association.

Another speaker who gave his listeners something to think over, was John Robinson, Governor of the County Jail. John talked on Play Grounds for children and in his short talk stated that at present out of 69 inmates in the jail, eight are under 15 years of age. He thought that if these juveniles had had proper supervised play grounds to spend their spare time in, they would not be in jail today.

Weeds are Prolific.

Early weeds, such as mustard, can produce two crops of seed a year, and each plant produces hundreds of viable seeds, which, unlike the seeds of cultivated plants, can remain alive in the soil for many years. Mustard seed has been known to remain alive for 50 years. Perennial weeds reproduce by seed and by root stalk. A minute section of the root of couch grass is capable of producing a new plant.

Can Save Repairing of Farm Machinery.

Because machinery is one of the largest and most important factors in the production of crops, it is essential that it be kept in as good repair as possible. Most of this repairing can be done on the farm during the winter months or at some other slack season.

To do much repair work the farm should have a reasonably well equipped work shop, says K. E. Bowen, Dominion Experimental Station, Melton, Sask. This means there should be a fairly large building where the tools are kept and where the whole machine or a good portion of it can be taken inside to be repaired. The shop should be equipped with a stove or some other means of heat to make winter work possible. It should also be equipped with a large bench space, drawers and pegs for holding tools and spare parts, a bench vice and possibly a forge. Although the forge is not absolutely necessary for minor repair work it is necessary for straightening harder metals and can be used, with a little experience on the part of the operator, for soft iron welding.

To avoid unnecessary delays during the busy season, all machinery should be given a complete check-over at least once a year. This makes it possible to change or repair worn parts before they cause serious damage to other parts.

In checking a machine all the moving parts should be removed and thoroughly washed in gasoline to remove dirt and dust which mix with old grease to form a grinding compound. The bearings should all be removed, cleaned, and checked for wear. If worn they should be replaced. Any bent or broken parts of the machine should be taken down, straightened, repaired or replaced with new ones.

It is far cheaper to replace a bearing than to buy a new axle or other shaft. Just as it is cheaper to repair a slightly used machine rather than to buy a new one at present day prices.

NOTICE TO CREDITORS.

IN THE MATTER of the estate of Edward Hurley, late of the Township of Sandwich South, in the County of Essex, Farmer, deceased.

Notice is hereby given in pursuance of Section 51, Chapter 165, R.S.O. 1937, to all persons having any claim against the estate of Edward Hurley, deceased, who died on the 13th day of September, 1947, to send by post prepaid to the undersigned Executor of the estate of the said deceased, full particulars of their claims, verified by an affidavit, and a statement of the securities (if any) held by them, on or before the 20th day of December, 1947.

And that after the last mentioned date the Executor will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims then received by him, and that he will not be liable for the said assets or any part thereof so distributed to any person of whose claim he shall not have had notice at the time of such distribution.

Dated at Essex, Ontario, this 15th day of November, A.D., 1947.

FORBES B. GEEDDES, K.C.,
Essex, Ontario,
Solicitor for the said Executor.

What You Should Know about TRAVEL RATIONING

Why?

Canada's supply of U.S. dollars will no longer stretch far enough to permit all the purchases of goods and services or all the travel in the United States that has taken place in the past. It is, therefore, necessary to reduce our expenditures of U.S. dollars in many different ways. As one of these steps, the Government has decided that the use of U.S. dollars for pleasure travel spending must be reduced. To ensure this reduction in a way that is fair to all, an annual "travel ration" has been established. As in the past — a Form H permit is required by anyone taking out of Canada more than \$10 U.S. or more than a total of \$25 in Canadian and foreign currencies.

Pleasure Travel

Regulations now provide that the maximum amount of U.S. dollars which any Canadian resident may obtain for pleasure travel purposes is \$150 per year. In the case of children of eleven years and under, the amount is \$100. There is no restriction on the number of trips as long as this annual allotment is not exceeded. Any U.S. dollars obtained for one trip and not used on that trip must be brought back to Canada and exchanged for Canadian dollars at a bank immediately on return. No credit for these funds can be allowed against the annual ration for subsequent trips.

Personal Purchases of U.S. Goods

A Canadian tourist should remember that the new restrictions applying to imports from the United States govern his personal purchases there. He may not bring back any merchandise which has now been prohibited or which may now only be imported on a quota basis. The list of goods covered by the new import restrictions is an extensive one. Tourists contemplating any particular purchase in the United States would be wise, before leaving the country, to ask Canadian Customs Officials if this purchase will be admitted.

MAIL EARLY FOR CHRISTMAS

Are you forever intending to send your Christmas mail early... but always leaving it until the last possible minute? Remember that Post Offices are always busy places — but that Christmas mail is an especially taxing burden to over-worked staffs. Why

not start a little earlier and make sure that your mail arrives in time for Christmas? Your help will speed up handling and lessen the extra load placed on the delivery system. Your consideration for others will prove your own "Good Citizenship."

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

IN MEMORIAM.

In proud and loving memory of our dear son and brother, Pte. Roger E. Knight, who was killed in action, in Italy, November 28th, 1943.

A beautiful memory, dearer than gold. Of a son and brother, whose worth can never be told.

Alone, unseen, he stands by our side. And whispers, "Don't grieve, death cannot divide."

Deep in our hearts a memory is kept. Of one we loved and will never forget. And though the years be many or few, We'll always be thinking, dear Roger, of you.

—Ever remembered by mother, daddy, sisters and brothers.

IN MEMORIAM.

In loving memory of a dear son and brother, John Eldred Robson, who passed away four years ago, October 28th, 1943.

To us it seemed his life was too soon done. Ended indeed, while scarcely begun, God, with His clearer vision, saw that he

Was ready for a larger ministry. To us the loss, the emptiness, the pain. But unto Him — all high eternal gain.

Plans Provided.

A set of plans for "Canada's rural health," consisting of architectural designs for small health centres, has been produced and printed by the Department of National Health and Welfare, Ottawa, through its Hospital Design Division. This publication, which is obtainable without cost from Provincial health departments, is to assist those interested in establishing "doctors' workshops" and health centres in rural communities remote from general hospital facilities. The book will be of particular interest to members of rural councils and to country doctors.

Imperial Bank Loans Higher, Profits Up.

With assets at a new high of \$415,081,511, the report of the Imperial Bank of Canada shows net profits of \$840,660 for the fiscal year ended October 31st, 1947. This is equal to \$1.30 per share and compares with net profits of \$717,300, or \$1.02 per share, in the previous year.

Deposits total \$377,841,638, as compared with \$372,747,838 at October 31st, 1946. The chief change in deposits has been a gain of \$35,000,000 in interest-bearing deposits by the public which now total \$247,295,099, while non-interest bearing deposits are down to \$103,756,277 from \$121,919,420. Holdings of coin, Bank of Canada notes, deposits in the Bank of Canada and amounts due from other banks total \$65,958,477, an increase of \$3,019,000. Investment in government and other securities is down to \$163,543,100 from \$215,610,453. This change results from the lessening need of short term financing by the Dominion Government as reflected in a drop in the bank's holdings of Dominion of Canada securities maturing in less than two years. These holdings are down to \$27,235,476 from \$102,898,899, while investment in longer term Dominion of Canada securities is up to \$110,046,573 from \$88,970,715.

Substantial increase is shown in current loans which are up to an all-time peak of \$160,053,598 from \$105,688,527 with the interest tempo of commerce and industry throughout the country. Call loans are lower at \$6,429,112 and provincial and municipal loans are higher.

Profits, after contribution to staff pension fund, provision for contingency reserves and depreciation, were \$1,582,660 in the year ended October 31st, 1947, as compared with \$1,217,354 in the previous year. Provision for Dominion and provincial taxes increased to \$742,000 from \$500,054. Net profits of \$840,660 was available for dividends which totalled \$700,000 and \$140,660 was added to profit and loss balance which is shown at \$1,281,666.

Reserve fund was increased by \$2,000,000 to a total of \$10,000,000, through transfer from contingency reserves set up in prior years and no longer required.

Open Essex Tobacco Sale November 27th.
Setting the highest minimum average price since the board was first formed in 1934 the Market Appraisal Committee of the board of directors of the Ontario Cured Tobacco Marketing Association agreed last week to a minimum average price of 36 1/2 cents a pound for the 1947 crop.

This figure is one and one-sixth cents higher than the minimum average price last year which was 35 and one-third cents a pound. However, it is 38 cents less than the actual price paid for the 1946 crop last year which was 36.85 cents a pound.

Ontario tobacco growers this year should realize more than \$22,000,000 for the crop which is estimated at 20,000,000 pounds. This year saw a record acreage planted in the province with 98,146 acres compared with 90,700 last year.

Despite this increase in acreage this year's production was approximately 25,000,000 pounds less than the record crop of 116,000,000 pounds last year.

This was the result of adverse growing conditions in the province of 2,000,000 pounds by hail during the summer and the wiping out of an estimated 10,000,000 pounds by frost during the harvest.

Six Members.
As has been the custom for a number of years the Market Appraisal Committee is composed of six members of the board of directors. Three representatives are from the buying companies and three from the growers. They are E. C. Wood Imperial Leaf Tobacco Company of Canada Montreal; B. G. Field British Leaf Tobacco Company, Chatham; E. D. Allen, Canada Leaf Tobacco Company, Chatham, representing the buyers.

Archie Leitch, of Guelph, chairman of the board; Leo Stillwell, Tillsonburg, vice-chairman, and Francis Gregory, of Leamington, represented the growers.

Day's Session.
The price was arrived at following a full day's session of the committee. While the full board was in session word was received from Ottawa that the British Government had rescinded its action of two weeks ago when it was announced that Great Britain would not be buying any more tobacco from the 1947 crop in Canada and the United States.

The Ottawa announcement said the British Government had released \$50,000,000 in Canadian currency to purchase all types of tobacco in Canada from this year's crop.

On the percentage of fine cured tobacco exported to Great Britain last year this will mean that the export from the 1947 crop of fine cured tobacco will be in the neighbourhood of 12,000,000 pounds.

Opening Dates.
The date for opening the 1947 market for members in the Delhi district or "new belt" is Thursday, November 20th with the market for Essex County or the "old belt" opening on Thursday, November 27th.

The market for the 126 non-members of the association will open on Monday, December 2nd.

The grade prices for this year's crop has been set as follows: B1, 69.82; B2, 55.85; B2L, 48.87; B3, 41.89; B3L, 35.61; B4, 29.32; B5, 23.74; B6, 17.45; C2, 69.82; C3, 55.85; C4, 48.87; C5, 41.89; M1, 34.91; M2, 27.93; X2, 34.91; X3, 27.93; X4, 20.94; ND, 3.49.

Nose Breathing.

Air breathed through the nose reaches the lungs filtered and purified, so, if you want to stay healthy, breathe through the nose. Mouth-breathing permits dust and germs direct access to the throat.

Any condition which makes nose breathing difficult, or favors mouth breathing, should be discussed with the family physician, so that the trouble may be cleared up.

Ask \$8 Increase on Tomatoes.

Tomato growers urged their representatives on the Ontario Tomato Marketing Board to seek a minimum price of \$30 per ton for tomatoes in 1948 at their annual meeting in the Essex Town Hall last week.

The contract price for 1937 was \$22 per ton, which was settled after arbitration.

Prices Per Can Up.
J. Fred Thomas, representative of the Ontario Tomato Growers' Marketing Association on the negotiating committee, pointed out that since the removal of the ceiling price on canned goods, canned tomatoes have advanced from 19 and 20 cents to 25 cents per can, or approximately 80 cents per bushel more (20 cans to a bushel) than they were a year ago.

The processed product is selling at \$5 per bushel in cans, and the grower receives 14 per cent of the selling price, which isn't enough," Mr. Thomas said.

"It's up to you men to give direction to the members of your negotiating committee," Mr. Thomas continued. "I didn't grow tomatoes this year, and I might as well tell you that the future, insofar as you tomato growers are concerned, rests in your hands and the hands of 16,000 other vegetable growers in Ontario."

Disastrous Year.
"We've had the highest costs of production in history. In the light of a difficult supply of labor which left crop after crop to rot in the field, a short growing season and early frosts, this year has been disastrous to tomato growers in this part of the country."

Mr. Thomas spoke of the need of revising contracts so they won't be all in favour of the processor, and stated that he had suggested to the minister of agriculture, Hon. T. L. Kennedy, that someone with legal training examine existing forms of contracts.

"We would welcome a contract which is fair to both parties, growers and processors," he added, reminding the audience that processors are very much a part of the vegetable growing business. "The processor can't make any money unless he packs tomatoes, and you can't make money growing tomatoes if you have no place to sell them," Mr. Thomas added.

Rot in Fields.
John Shuel, another director on the board, related how some growers offered half their crop for the picking of the tomatoes and had to leave them, lying to rot in the field because of lack of help.

"The processors must remember that with soy beans at \$3.05 a bushel, corn at over \$2 per bushel, both being crops which can be harvested mechanically, tomatoes will have to be worth more money. Tobacco and tomatoes are a hard harvest crop requiring a considerable expenditure of labor, and labor comes high these days."

"Fertilizer is going to be \$4 a ton higher. Are you willing to grow tomatoes for the 1947 price?" he asked growers, who greeted the question with a loud "No!"

Andrew Fulton, of Hamilton, secretary of the tomato growers' association, reported that other meetings of growers in the province had asked for \$25 to \$30 per ton flat rate or \$35 for No. 1 tomatoes and \$25 for second grade tomatoes.

He said that almost all growers were of the opinion that prices for peas should go higher, particularly as packers wished to get a better grade of peas in cans. "If they want the tender peas, they will have to be prepared to pay a tender price for them," he added.

Carl Nicholson, a director for the pea, corn and bean marketing division of the Association, said that processors would have to up the price of corn next year if they wished to get corn.

Directors Re-appointed.
Township directors for the Essex County Tomato Growers' Association were re-appointed as follows: Anderson Ralph Bandy; Malden, P. B. Oliver; Sandwich East and West, Howard Holden; Mersea South, Howard Salmon; Mersea North, George Bow; East, Colchester South, Chas. Brush; Colchester North, Herbert Holden; Tilbury North Rosalre Quenneville; Tilbury West, Wm. Buchanan; Rochester, John Mullen; Gosfield North, Clarence Haggins; Maldstone, John Diemer; Gosfield South, Robert Kennedy.

Pea, corn and green bean directors for Essex County were named: Tilbury North, West and Rochester, Townships, Hugh Bove; Colchester North, Albert Seguin; Anderton, Malden and Colchester South, Carl Nicholson; Gosfield South and Mersea, Hanley Hayes; Sandwich West and Sandwich South, John Cahill; Sandwich East, Sam Ball; Maldstone, Charles Diemer.

17.45; C2, 69.82; C3, 55.85; C4, 48.87; C5, 41.89; M1, 34.91; M2, 27.93; X2, 34.91; X3, 27.93; X4, 20.94; ND, 3.49.

There is a majesty in simplicity which is far above the quaintness of wit.—Pope.

New Tariff Rates on Tobacco.

Edward C. Wood, vice-president, Imperial Tobacco Company of Canada Limited, made the following comment in regard to the new tariff rates on imports that become effective January 1st, 1948, and the restriction on imports which will be effective immediately:

"A prohibition has been placed on the importation into Canada of manufactured cigars and cigarettes, thereby nullifying the effects of the new

tariff. The quantity of cigars and cigarettes normally imported into Canada is very small indeed as practically all cigars and cigarettes consumed in Canada are manufactured in Canada.

"But for very minor exceptions, domestic manufactured tobaccos and cigarettes do not contain imported tobacco and, therefore, will not benefit from the reduction in duty on imported leaf tobacco."

"On cigars manufactured in Canada that contain 100% imported tobacco

the reduction in duty on leaf tobacco, effective January 1st, 1948, will be in the neighbourhood of 3/4c per cigar. What effect this will have on the price at that time is not known.

"About 90% of the total Canadian cigar consumption is cigars manufactured in Canada exclusively from domestic tobacco, with the exception of a very thin wrapper — for this class of cigar the reduction in duty on leaf tobacco will be infinitesimal."

Simplicity, of all things, is the hardest to be copied.—Steele.

The Poor Old Man.

Man's the only male of the species. Work the poor guy must not shirk. Often wishes he was a woman. So he wouldn't have to work. He could be a city politician. But don't want to be called a jerk.

He gets up early every morning. To make a living he must strive. Goes to work at eight o'clock. And don't get through 'till five. Works and slaves every day. Just to keep the family alive.

When he comes home on payday The wife meets him at the door. If he don't hand over the pay check With him she'll mop the floor. Gives him a little allowance. Tells him he'll get no more.

Women never have any pity. For the poor hard-working man. Feeds him on pork and beans. Even makes him open the can. If she happens to be on a diet Steaks and chops she'll surely ban.

—Ed Byrne.

Robert Atkin Passes at 86.

(Crowded out last week)
Robert Atkin, aged 86, for years the dean of Essex County Council, died at Metropolitan General Hospital, on Saturday, at 9.45 a.m., after being in the hospital a week. Mr. Atkin had previously been under the care of a nurse at his home for five months, and had been in failing health for some years.

A Colorful Figure.
He was one of the most colorful men to ever sit on the County Council. Over a period of a quarter of a century he had represented Malden Township and had been active in municipal politics for 37 years, being defeated only three or four times in his long political career. He was Warden of Essex County in 1913.

Politically he was a staunch Liberal, contesting South Essex in the Federal election held during the first World War, when he was defeated by Capt. (Dr.) J. W. Brien, Conservative, of Essex, by the slender vote, after having quite a majority of the normal riding vote.

Mr. Atkin was the last surviving member of a family of 12 brothers and sisters who all lived well past the allotted span of three score and ten years. He was a son of the late Gore Atkin who died 23 years ago, at the age of 96.

Native of Malden.
Born in Malden Township, Mr. Atkin lived there all his life, spending the last 55 years of his life in the home on the Middle sideroad.

Sixty-four years ago he married Ellen McGee, daughter of the late Mr. and Mrs. Alex McGee, another Malden family. Mrs. Atkin died in 1932, after they had been married 49 years.

Surviving are three sons, Walter, of Windsor; and Morris and Fred, of Detroit; and three daughters, Katherine, Ina and Anne, all of Detroit; and five grandchildren.

Funeral services were held Tuesday at 2.30 p.m. at the home in Malden Township, with burial in Rose Hill cemetery, Amherstburg, Rev. J. A. Walker, of Harrow United Church, officiating.

In character, in manners, in style, in all things, the supreme excellence is simplicity. —Longfellow.

Guide to Growth.

Expressions of independence — or thought, well as of action — are perfectly normal and healthy manifestations in adolescents, say the experts. They are merely evidence that the growing youngster wants to impress upon those about him that he is no longer a mere child.

The authorities do suggest, however, that some understanding and careful sympathy and assistance, should be extended by elders to help the developing youngsters to follow the finer instincts.

Redeemer Auxiliary Holds Banquet.

The Redeemer Auxiliary of the Church of the Redeemer, Paquette, held a Mother and Daughter banquet on Friday evening, November 14th, in the Orange Hall, Paquette. The supper was prepared by the members of the Auxiliary. The tables were beautifully decorated with flowers and the W. A. colors of mauve and gold.

A large birthday cake was lighted at the head of the table, with fourteen candles on it, this being the Auxiliary's 14th birthday. After supper three toasts were proposed, first to "Our Mothers," by Miss June Gibbon, responded to by singing "M" is for Mother; second, to "Our Church," by Mrs. Verne McKim, responded to by singing "The Church is One Foundation"; third, to "The W. A.," by Mrs. Freda O'Neill, and responded to by singing "The Love of Christ Constrains."

Mrs. Harry Pettipiece then presented Mrs. Tully with a pair of lovely hand-painted pictures, on behalf of the members of the Auxiliary. This was with Agnes Hartley at the piano. Miss Joyce Thibodeau, of Windsor, gave several delightful readings; Mrs. Harry Pettipiece sang two songs, "Wonderful Mother of Mine" and "Sweet Song of Long Ago."

Mrs. Harold Vollans introduced the guest speaker, Mrs. J. A. McKay, of Windsor, who gave a very interesting talk comparing the women of the Bible with the women of today, using the life of Sarah as an illustration.

A vote of thanks was moved by Mrs. Freda O'Neill, to the guest speaker. The evening was concluded by singing "God Save the King." Rev. Joseph Tully pronounced the benediction.

Those who assisted in serving were Mrs. Anson Tofflemire, Miss Roberta Tofflemire, Miss Grace O'Neill, Miss Reta O'Neill, Miss Margaret Carol, Miss Irene Carol, Miss Eleanor Hartley, Miss Mary Ann Shuel.

Among those present were Mesdames Lorne McKim, Harry Pettipiece, Russell Pettipiece, Ethel Combeau, Phil Dupuis, Otto Boos, Harold Vollans, Verne McKim, Henry Hartley, John Hackson, Reg. Thompson, William Holden, Sarah Pettipiece, Norman Libby, Wm. Allison, H. Reyner, Gordon Edwards, Frank Lounsbrough, Jubenville, Sarah Shuel, Arthur Essery, Glen Essery, Wm. Miller, Thos. Huggard, Charlotte Hartley, James Tofflemire, Henry Jessop, George Vollans, Walter O'Neill, Clarence White, Syd Smith, Leslie O'Brien, J. A. McKay, Thibodeau, Rev. and Mrs. Dickin and Walker, of Harrow United Church, officiating.

Funeral services were held Tuesday at 2.30 p.m. at the home in Malden Township, with burial in Rose Hill cemetery, Amherstburg, Rev. J. A. Walker, of Harrow United Church, officiating.

GIRL PILOTS ARE INDUCTED IN AIR FORCE

FIRST WOMAN TO FLY the famed U.S. Flying Fort in Britain, Miss Margo Gore, pictured center above, is also the first to enrol in the new volunteer flying branch of Britain's Women's Auxiliary Air Force (WAAF). She watches the second pilot to join, Miss Jean Naylor (right), receive the congratulatory letter from the WAAF's director, Mrs. F. H. Hanbury. These new "sisters" of Britain's all-male Royal Air Force must have at least 100 hours solo-flying experience and be under 30. In a time of emergency they would be given ferrying and communications jobs in non-operational areas. In World War II WaaFs did not fly, but did do vital ground work behind the R.A.F. as it tore Nazis from Britain's skies and carried war to Germany's heart.

Common Knowledge.

Everyone should be acquainted with the basic principles of health maintenance, authorities believe. They should know, for example, that any form of irritation in any part of the body calls for rest and protection — and treatment. We are never too young to learn that the body must expel all irritative, toxic and infectious agents. If the body is not functioning properly, even the least learned among us should understand that advice and assistance should be obtained from the only person qualified to give such common-sense.

National Barley Contest.

Harold K. Nesbitt, of Britannia Bay, near Ottawa, won first prize in the Ontario section of the \$25,000 National Barley Contest, at the Royal Winter Fair, in Toronto, this week.

Mr. Nesbitt also won first prize in the Regional Competition for Region No. 10, composed of entries from Carleton Place and \$75, for a total of \$225, and along with the other four Ontario provincial winners earned the right to compete in the Inter-Provincial contest between Quebec and Ontario. The Inter-Provincial Contest, for \$500 in prizes, will be judged in Montreal in January.

Other Ontario provincial competition winners were:

Second prize, \$100, William Lowe, of Fort Frances, who also won first prize in No. 7 Regional contest for a total of \$175.

Third prize, \$75, John Kluge, Renfrew, who also won first prize in No. 10 Regional contest, for a total of \$150.

Fourth prize, \$50, Robert S. Sparrow, of Kinburn, who also won second prize in No. 11 Regional contest, for a total of \$100.

Fifth prize, \$25, Martin L. Dowdall, of Perth, who also won first prize in No. 9 Regional contest, for a total of \$100.

The National Barley Contest, sponsored by the brewing and malting industries of Canada, and conducted by the federal and provincial departments of agriculture, and the agricultural colleges, was started in 1945 to improve the quality and yield of malting barley.

Judges in the Ontario Competition were Dr. L. H. Newman, Dominion Cerealist, Ottawa; Prof. Robert Keeg, an, of Ontario Agricultural College, Guelph; and P. R. Cowan, of the Central Experimental Farm, Ottawa. John D. MacLeod, director of the Crops, Seeds and Weeds Branch, Ontario Department of Agriculture, is chairman of the Ontario committee of the National contest that includes the five grain-growing provinces of Canada.

Mr. Nesbitt, who was one of the leading contenders in last year's contest, took the Ontario Malting Barley title from Clifford Dale, of Glenora, Middlesex County, whose prize crop was judged the best in the province last year. Mr. Dale won second prize in this region this year.

H. Pettipiece of Paquette, won first prize for No. 1 Region, Ontario section of the \$25,000 National Barley Contest at the Royal Winter Fair, which opened at Toronto on Tuesday. No. 1 Region includes the counties of Essex, Kent and Lambton.

Field men from the Departments of Agriculture judged growing crops during the past summer.

Other cash prize winners for Region No. 1 who will also receive a Award of Merit were: 2nd G C Nichols, Blenheim; 3rd, W. Craven, Wallaceton; R. R. 1; 4th, Ian Maynard, Chatham, R. R. 3.

Dental Caries.

The great majority of people are subject to dental caries. No one, say the experts in oral health, can afford to neglect the teeth, no matter what their pearly-white appearance and apparent sturdiness.

At least twice a year there should be a thorough check-up by the dentist to ensure that disease is not getting in its work undetected. Dental decay can be located and checked in the incipient stages.

Selecting Turkeys for Breeding Stock.

Consumers are becoming more aware of desirable meat qualities in turkeys and the satisfaction of the customer should be the objective of those who raise market turkeys, or sell day-old poult to be raised as market turkeys.

The fat and finish of market turkeys is chiefly a matter of feeding and management, says R. M. Blakely, Dominion Experimental Station, Swift Current, Sask. The desirable market qualities, such as plumpness and roundness of breast fleshing, and general blockiness of body are inherited characteristics. Turkeys must be bred into a flock through rigid selection of breeding stock.

The proper selection of breeding stock is important to the individual breeder, but the responsibilities of those who maintain flocks for the sale of commercial hatching eggs is even greater. The poult resulting from their eggs will be distributed to a great many growers.

Ideal breeding stock are plump bodied birds with long, smooth keels, which are well rounded with fleshing throughout their entire length. Selection for this class of bird should commence as they approach maturity as only in this way can early maturing qualities be marked. To insure that the best birds of the flock are retained as breeders, final selection should be made before they are marketed. Balanced carriage, as indicated by fullness of breast, medium length of leg and neck, and blocky outline are also important characteristics. These qualities can only be noted as the birds are walking about the pen. Birds with over-long necks and legs and wedged-shaped bodies should be rigidly culled.

The final selection should include the careful handling of each bird. The bird should be held over a barrel or table by an attendant, as both hands are required to determine the market type of the bird's body. The keel bone should be reasonably parallel to the back and should rock sufficiently at the front, to eliminate any tendency to prominence or knobiness. Good length of keel in proportion to the size of bird is desirable. Many breeding flocks at the present time are inclined to be too short in keel length. Great stress should be placed on breast thickness. This should be a broad "U" throughout the entire length of the keel bone. Large, coarse, deep keeled birds should be avoided since their offspring will not possess the compact

More Farm Help Available for Next Spring.

Officials of the "Emigration Foundation The Netherlands" through their representatives made the announcement that there will be Holland immigrant farm labor available next spring. Most of the immigrants come in family units but there will also be a number of single men.

To all those wanting to engage a family or a single man the following suggestion is made: Apply at once and state what time you want your help. Government regulations require that a farmer make out an application. Our organization obtains the names and qualifications of prospective immigrants from the Netherlands. Then your application and the one sent in by the immigrant are matched and presented for approval to the Immigration Branch of the Department of Mines and Resources. Upon approval the immigrant receives his visa and can obtain shipping. All this takes time and so if you plan to engage immigrant farm help apply at once. Send your inquiry to "Emigration Foundation," Box 7, Chatham, Ont., or apply through your local National Selective Service office. The Agricultural representative in your county also receives applications.

During the past summer three thousand Holland immigrants entered Canada, most of them going to Ontario. This movement has been a great help to the farmers in this province. Most of these immigrants are experienced farmers which are coming to Canada with the purpose to "ventually" buy their own farm.

Many farmers have already made application for next spring arrivals. In order to avoid disappointment farmers should act at once.

COTTAM

Canadian Legion, Branch No. 376, Cottam, wishes to express their thanks to all contributors who enabled our party campaign to be a success. We received altogether \$109.71.

The monthly meeting of the Two by Two Club was held on Friday evening last. The vice-president opened the meeting and after prayer the meeting was turned over to Mr. and Mrs. Murray and their group. Mr. and Mrs. J. D. Jones led the worship service. The speaker for the evening was Rev. J. C. Fleming, of Kingsville, who spoke on "The Power of the Holy Spirit." The meeting was closed by the singing of hymns and a benediction. The next meeting will be held on December 12th.

The annual meeting of Trinity Church, W. will be held on Thursday afternoon, December 18th, at 2:30 p.m. at the home of Mrs. Leche Ash. The yearly reports will be read and election of officers for 1948 will take place. Roll call will be responded to by a Christmas text or poem.

Engagement Announced.

Mrs. Thomas Totten, of Cottam announced the engagement of her grand-nephew, Kathleen Totten, of Dearborn, Mich., to William R. Hess, son of Mr. and Mrs. Delmar Hess, of Cottam. The marriage will be celebrated at 12 o'clock on the evening of December 12th, at Trinity Anglican Church, Cottam, by Rev. J. H. Wheaton.

Wood for L. O. O. F. will begin the first of their series of card parties and dances, on December 5th.

Mr. McPherson Sr., of the 6th Cong., suffered a stroke one day the past week.

Mr. Fred Whitney is not at all well.

Jack Robert, who is working in British Columbia, arrived home last week.

Thanks!

Mrs. Wm. Beno wishes to thank her friends and neighbours for the many kindnesses shown her; for gifts, cards and flowers sent, while she was confined to the hospital and since being able to come home; also to Cottam Red Cross for use of their hospital bed. They were all greatly appreciated.

Cottam W. M. S. Meets.

The November meeting of Cottam W. M. S. was held on Wednesday afternoon of last week, at the home of Mrs. Duncan Hutchison, with an attendance of 32 members and guests, and the president, Mrs. D. R. Jones in the chair.

Mrs. J. S. Folster conducted the devotional service; Mrs. Lewis Malott's group was in charge of the study book. An appeal was read from our missionary in All People's Mission, Windsor, Miss Hazel Adsett, requesting a contribution toward supplying Christmas cheer for the children of the mission.

By a unanimous vote the request was granted. Mrs. Alvin Kay was presented with a certificate of life membership, after which a letter was read from a missionary of the United Church of Canada now serving in Japan, Rev. Mr. Outerbridge, formerly stationed in Hamilton.

A light lunch was served by the group in charge, and a vote of thanks presented by Mrs. Gamble to the hostess and to those who assisted in the program.

ELFORD

The Junior Bible Class will meet at the home of Nick and Jean Prosky, next Wednesday evening, December 3rd, at 8:15 p.m. Election of officers for the coming year. A good attendance is requested.

Sunday visitors with Mr. and Mrs. Winston Baldwin were Rev. and Mrs. J. D. Woollett, Peggy and Richard, of Gesto, and Ivan Russell, of North Ridge.

Sunday visitors at the home of Mr. and Mrs. Ernest Baldwin were Mr. and Mrs. Russell Archibald and Donna, of Detroit.

Mrs. Wm. Arps and Mr. and Mrs. Arthur Arps and son Billy have moved to their new home above Essex.

Mrs. Faye Barnett had the young women of the Bible Class in on Saturday evening for a handkerchief shower for Miss Betty Arps.

Mrs. Ed. Quick has been in bed for a few days. We wish her a speedy recovery.

William Hutcherson is under the doctor's care.

NORTH RIDGE

Mrs. Gordon Hughson left on Tuesday to spend a few days with her sister at Petrolia.

Mrs. Stanley Noble and daughter Emily spent last week at Paris. While there they attended the funeral of the former's uncle, Richard Cracknell, at Canning. Upon their return home they were accompanied by Mrs. F. E. McNally, of Paris.

Edward Pritchard, of the U. S. Navy, is spending his leave at the Russell's.

Mr. and Mrs. Walter E. Russell and Mr. and Mrs. Alex Sova, of Windsor, motored to Shikoka and spent the weekend with Mr. and Mrs. Clifford Russell and Douglas.

GESTO

There will be a shower for Mr. and Mrs. Harold Sweet, at the Gesto Ladies Aid hall, on Wednesday evening, December 3rd, at 8 o'clock. All relatives and friends welcome. Ladies please bring lunch.

The W. A. and W. M. S. will hold a joint meeting, for election of officers, on Thursday next, December 4th, at 10:30 a.m., in the Ladies' Hall. A potluck dinner will be served at noon. All ladies of the community are urged to attend.

Mrs. Harold E. Clarke and little son, Larry James, have returned to their home in Fenwick, Ontario, after spending several weeks with Mr. and Mrs. Stanley Giphrey. Mr. Clarke, who motored down for the week-end returned with them.

Mrs. M. Spinks is spending a few weeks with Mr. and Mrs. W. J. Spinks, in Leamington.

Larry Whitcombe, an Essex County Children's Aid Ward, living at the home of Mr. and Mrs. Earl Meyers, about 8 o'clock Wednesday evening, ran into the side of a car driven by Harold Hutchinson, and was struck by the front fender. He was removed to Grace Hospital, by ambulance, and was still unconscious when admitted to hospital.

INMAN

Mr. and Mrs. Rufus Moore spent Monday with friends in Detroit.

Mrs. Norman Malott and daughter, Mrs. Marie Mills, of Cottam, spent Wednesday with the Middleton family. A number of young married couples attended the Two by Two Club on Friday evening, at Cottam. Mrs. Murray Upcott and her committee presented a fine program.

Mr. and Mrs. Affleck, of Harrow, spent Sunday with Mr. and Mrs. Rufus Moore.

Mr. and Mrs. James Merritt attended the wedding of their nephew, Blake Sanford, of Kingsville, to Miss Duncan, R.N., of Windsor, at the Chalmers United Church, Windsor, on Saturday, November 22nd.

Mr. and Mrs. Murray Upcott and Lynda had dinner on Sunday with Mr. and Mrs. Orin Osborne and Hazel, of Cottam.

Milton Fox Dies.

Milton Fox, ex-M.L.A. for Essex South, a former resident of Gosfield South, died of injuries suffered in an auto accident, on Sunday afternoon.

Mr. and Mrs. Fox were driving back to their home in Windsor, when a car, driven by Ernest Fontaine, of Detroit, heading east on Walker Road, hit their car broadside. Mr. Fox, who was driving, was pinned behind the wheel. He was rushed to the hospital in a private car but died shortly after admittance. Mrs. Fox was hospitalized but is not in serious condition.

Funeral services were held Wednesday from the Crawford Funeral Home, Kingsville, at 2:30 p.m., with Rev. J. A. Davies, of the Church of the Epiphany officiating, and interment was in Greenhill cemetery.

Won in South Essex.
Mr. Fox, though a prominent Conservative most of his life, won the South Essex seat for the United Farmers of Ontario Legislature until 1923.

He was the son of the late Charles Fox and farmed for many years on the farm now owned by Charles Holbeck at Albertville.

Twelve years ago Mr. Fox gave up farming and moved to Windsor where he became manager of the Murray Building, Pitt street west, Windsor.

He was a member of Concord Lodge, I.O.O.F., Kingsville, and a past district deputy master of the Odd Fellows.

He is survived by his widow, the former Jane Greaves; three sons, Len, of Toronto; Ross, of Windsor; Donald, of Kansas City; two sisters, Mrs. William Hawkins, of Detroit, and Mrs. Maud Shaw, of Calgary.

Mark Golden Anniversary.

It was a cold, blustery day, that 24th of November, 1897, when the Rev. J. H. Whedden Sr., rector of Christ Anglican Church, Colchester, officiated at the wedding ceremony that united members of two of Colchester South's pioneer families, J. K. McLean, son of Mr. and Mrs. Thomas McLean, and Miss May Wright, daughter of Mr. and Mrs. Edwin D. Wright.

Mrs. Charles Brush attended the bride, a descendant of a Pennsylvania Dutch family, and Harry Langlois assisted the bridegroom.

On Monday, Mr. and Mrs. McLean celebrated the 50th anniversary of their marriage, with a family dinner at the Norton-Palmer Hotel, in Windsor, at noon, and "open house" at their farm home near Harrow, from 2 until 5 in the afternoon, and from 7 o'clock on in the evening.

Their fifty years of marriage have been active years. During that time Jake (as he is widely known in the county) served 17 years in municipal posts, having been for years a member of the Harrow Town Council, reeve of the town until last year, and, in 1918, warden of Essex County.

There was no political career for Mrs. McLean, but a career as a wife for leisure. Even at that, she has served as president of the Women's Institute in town, and the Women's Auxiliary of St. Andrew's Church, of which she was president, has awarded her a life membership. Mrs. McLean is still an active member of St. Andrew's church.

The couple has five children, who were home to help their parents celebrate their jubilee: Mrs. Allan Herdman; Irwin, of Malden; Clarence, of Harrow; Hugh, of Cottam, and Dr. Edwin McLean, of Wheatley.

ESSEX

I. B. of C. TO HOLD OPEN HOUSE SATURDAY AFTERNOON.

The new building of the Imperial Bank of Canada is completed and will be ready for inspection by the citizens on Saturday, December 6th, at 2.30 p.m. K. Johnston, first assistant general manager of the bank, a former manager at Essex, will be present to greet his many old friends.

The officials of the Imperial Bank of Canada have foreseen in their minds the matter of giving good service to the people of this district. This could not be accomplished in their old office property of which the new branch stands is the former Dr. Brown's office. The construction of the office is of brick and stone. It is equipped with fluorescent lighting and the ceiling is constructed of acoustic tile. The bank windows are of glass brick construction and the front, large, handsome windows are equipped with venetian blinds. The building is air-conditioned and is heated by oil-furnace equipment. The customers counter allows the accounts department approximately 15 feet in which to serve the public. The counter is equipped with two commercial tellers and three savings tellers. A separate burglar-proof vault for safety deposit boxes is constructed and coupon booths for the private use of the bank's customers are installed, thereby allowing the utmost privacy. The basement has been constructed in such a manner as to allow storage for books, documents, etc., which are not subject to water-damage. Water-proofing has been placed in the concrete construction in an effort to prevent moisture entering the basement during heavy rains.

The building is a credit to the Town of Essex and district, and tribute is paid to the officials of the bank for their foresight in construction of such an up-to-date banking office.

The Essex branch of the Imperial Bank of Canada is the 11th oldest branch of the bank in Canada, and was established in town on March 5th, 1885, when the Municipality was a village called Essex Centre.

Murray Bowie Laid to Rest.

The following item of funeral service for the late Dr. Murray Bowie, is a reprint from the Ottawa Morning Journal, of Friday, November 28th: "Swift to its close ebb's life's little day..."

With these words from the ancient psalm, spoken in the hushed silence of St. Andrew's Church yesterday afternoon, Rev. A. J. Burnett added the epilogue to a tragedy that opened in a blaze of gunfire on Tuesday morning when Dr. Murray A. Bowie was slain in his office by an enraged World War I veteran who then used his gun to kill himself.

For many of the hundreds of friends and colleagues from the Department of Veterans' Affairs who had gathered to take a last farewell of the 38-year-old medical officer, the full impact of the tragedy which claimed such a promising life, was brought home with poignancy when the gleaming mahogany casket was wheeled slowly to its place before the pulpit.

The thoughts of those who gazed upon the casket were almost audible in the solemn stillness of the church.

Why should this have happened? Why should he have been taken? Why had God not intervened to spare him?

And the answer, couched in the words of age-old wisdom of the church, came from Mr. Burnett who said that such a tragic happening, the "irresponsibility and apparent futility of which challenge to our faith."

God's word is, of course, constantly reminding us that His ways are not our ways," he said. "There is no searching of His understanding."

"I cannot pretend to tell you why Murray Bowie was chosen to be the martyr in this particular tragedy. I cannot tell you why his home circle should have been chosen of all others to carry so heavy a cross of sorrow."

"Yet I do know this. By his death Murray Bowie has been used to bring home to us life's most vital and tremendous message. That message is simply that we are no more than strangers and pilgrims on this earth."

"Here we have a shining city, no enduring home, no sure security. To-day we mourn our loss of Dr. Bowie, but tomorrow it will be you and I to whom the call comes."

Mr. Burnett said that "scarcely has any single event cast so deep a shadow across the life of our city," and recalled that only a year ago Dr. Bowie had accepted the presidency of the St. Andrew's Society of his church.

He had never been one to crave the limelight, but he threw himself into every phase of the task with a high enthusiasm and grace which won him countless friends.

"There can be no doubt that Murray Bowie was marked out to be a leader in the spiritual life of this church and community."

Dr. Bowie since his birth had been nurtured in the ways of the church and "no man could have been more loyal to the inheritance into which he was born."

"Two years ago, the war over, he settled among us; brought his wife and young son into our midst; and we looked forward to a deepening fellowship and service together through many years to come."

"Then like lightning, and as unpredictable as lightning, the blow fell. Evil madness, bred of war, has done its terrible work."

But Dr. Bowie had lived abundantly and perhaps his death has not been in vain. I wonder if he had to take this

A. J. Ashton Banquetted.

Fully one hundred and fifty citizens of town and country met at Sewell's on Tuesday evening, to honor Bert Ashton, who recently sold his business in town and moved to Riverside to reside.

The dinner was sponsored by the Citizen's Committee of the Essex Chamber of Commerce.

Art Nightingale was chairman for the program of speeches, and in opening his remarks stated that affairs of this nature are getting too numerous. Bert being the tenth professional man to leave Essex in the past two years.

J. C. Linton, as representative of the citizens of Essex, said he was both pleased and disappointed to be called on, pleased that Mr. Ashton was able to take things easy after years of hard work, but disappointed that on retirement he had not chosen to live in town. He spoke of many activities Bert had been associated with, especially those concerning youth, as the Boys Band and Boy Scouts.

John Shuel, as chairman of the Essex High School District Board, of which Mr. Ashton is a member, representing Essex Separate School Board, spoke highly of the honoured guest, saying that he was sorry to lose such a valued member of the board, as he did his share of work and more, too. The speaker also said that while Mr. Ashton had prospered since coming to Essex, his prosperity had been the means of other people in town also prospering.

Dr. D. Clare, for the Essex Kinsmen Club, thanked Bert for the excellent advice and help he had given many of the young members of the town's newest social club.

H. R. Johnston, president of the Essex Rotary Club, of which Bert is a past president, said that his club were luckier than the town, in that they had already signed Bert for another year, and that he would spend each Monday evening with them.

Rev. F. O'Neill, parish priest, of Holy Name Church, of which the honoree guest and his family are very devout members, spoke of how keenly he and his church will miss the Ashton family. He spoke eloquently of "Man, an architect of his own fortune," stating that where lots of people attribute a man who prospers as being lucky that there is no word more misused than the same word "Luck," saying that a resourceful man is never seen in company with an idler.

Others, to say nothing but words of praise were Art Milne, president of Essex Chamber of Commerce; E. W. Lancaster, acting president of the Essex Tourist Association; George R. Weller, a close friend; Mr. Lawrence,

of Borden's, Ltd., Windsor, and Dr. J. D. MacDonald, his family physician and close friend, who presented Bert with a purse of money, as a remembrance of the occasion.

Dr. Mac gave his listeners a brief sketch of Bert's life history, stating he was born on a farm near Aylmer, attended Aylmer High school, started out to work at a bakery in Brantford; then left for Detroit and helped the late Henry Ford build the huge River Rouge plant. On returning to Canada from Michigan, he managed a Dominion Store in Walkerton, for four years; moved on to London, and was in the employ of Silverwoods, from where Art Allen brought him to Essex. The speaker then followed Bert's career from his coming to town 25 years ago, when he had one clerk, Sadie Schooley, and a milkman, first Milford Cunningham and then Herbie Cadarette, to the present time, when he had 20 employees and followed the growth of his business from buying 300 to 400 lbs. of milk a day from three producers to the 3 to 4 ton now gathered and retailed from 30 or more producers.

Mr. Ashton spoke a few words of thanks, in which he hinted to the gathering that it wouldn't be very long before he and his family would move back to Essex.

Junior Farmers Meet Dec. 8th.

of Borden's, Ltd., Windsor, and Dr. J. D. MacDonald, his family physician and close friend, who presented Bert with a purse of money, as a remembrance of the occasion.

Dr. Mac gave his listeners a brief sketch of Bert's life history, stating he was born on a farm near Aylmer, attended Aylmer High school, started out to work at a bakery in Brantford; then left for Detroit and helped the late Henry Ford build the huge River Rouge plant. On returning to Canada from Michigan, he managed a Dominion Store in Walkerton, for four years; moved on to London, and was in the employ of Silverwoods, from where Art Allen brought him to Essex. The speaker then followed Bert's career from his coming to town 25 years ago, when he had one clerk, Sadie Schooley, and a milkman, first Milford Cunningham and then Herbie Cadarette, to the present time, when he had 20 employees and followed the growth of his business from buying 300 to 400 lbs. of milk a day from three producers to the 3 to 4 ton now gathered and retailed from 30 or more producers.

Mr. Ashton spoke a few words of thanks, in which he hinted to the gathering that it wouldn't be very long before he and his family would move back to Essex.

If I Were a Woman.

If I were a woman, I never would wed.

Married women work until they are

dead.

First up in the morning, the last one

to bed.

Men come home from work, say they're

tired out.

It the kids not behave, at them he'll

shout.

Acts like an old man that's sick with

the zout.

That women are weaker I just cannot

agree.

If you think they are, try and prove it

to me.

Women work until midnight, men get

through at three.

Some men are alright, know how to

behave.

Didn't marry the lady to make her his

slave.

Helps with the housework, her head

tries to save.

Some men seem to think when they

put on the ring.

His wife's a housekeeper, and he is

the king.

As Lord and the Master, he must have

his thing.

He will let her go out one night a

week.

If she's not home by ten to her he

won't speak.

So beware, young ladies, if a husband

you seek.

—Ed. Byrne.

Abolish Sales Tax Now.

Taxes may be levied so as to encour-

age industry, increase production,

lower the cost of living. For example,

a tax upon vacant land tends to force

it into use. The higher this tax, the

greater the incentive to use it and this

means more employment.

All taxes on production do the oppo-

site. They increase the cost of liv-

ing and lower the demand for the

things produced. If there was no tax

on buildings, more would be built —

there would be no scarcity of houses

and they would be kept in repair and

there would be no slums.

The majority of taxes are penalties

on industry and increase the cost of

making and exchanging things and

such taxes retard progress and can

destroy civilization. The worst of all

taxes is the sales tax, for it is a pen-

alty on exchange, the very basis of

civilization.

It is a fine on a moral duty — the

duty of helping one another by ex-

changing goods and services.

Whenever this tax has been applied,

it has resulted in inflation, bad times,

unemployment, increasing poverty,

crime and disease.

When the Sales Tax is repealed, it

will lower prices, reduce the cost of

living, increase buying power and re-

lieve the railways so that they will

not require to increase freight rates.

The cost of the sales tax to the gov-

ernment is not limited to the actual

expense of the department which col-

lects the tax. It seriously reduces the

profits of all business, so that the in-

come tax and taxes on profits are much

reduced.

Despite the efforts of the govern-

ment to prevent it, the Sales Tax is

pyramided and while the government

tax is 5%, the cost to the consumer

is increased by each turn-over from

Manufacturer to Wholesaler and then

to the Retailer and so, for every dol-

lar the government gets, the consumer

pays two or three.

Advertising by making known new

or improved products and by increas-

ing the sales reduces costs and prices

of goods. The sales tax on advertis-

ing, paper and printing, etc., increas-

es the cost of goods and raises prices.

The Sales Tax reduces the purchas-

ing power of the dollar and has much

to do with the strikes of labor for

higher pay.

By its repeal all other legitimate

revenue of the government will in-

crease so as to more than make up for

its discontinuance.

It will also reduce the need for help-

ing unemployed and for those whose

earnings are below the standard re-

quired for healthful living. If the

government wishes to abolish the

Sales Tax by instalments there must

not be just a reduction of the per-

centage as that would leave the ex-

penditure and labour of making the

necessary returns unchanged but the

most objectionable application of it

should be done away with first. That

is the taxation of food products, es-

pecially of packaged foods — for they

form the largest single item of the

community and of the laboring class

in general.

The Sales Tax is a violation of the

laws of God. It is legal robbery for

which the Government gives no just

equivalent.

To summarize:

It is unjust.

It is an attack on civilization.

It costs the government more than

the total amount collected.

It produces inflation.

It violates the fundamental laws of

sound economics.

It reduces production.

It is costly to industry by the am-

ount of unproductive labour all firms

have to spend keeping track of the

government requirements and making

the returns.

It has forced many small businesses

into bankruptcy.

It has nothing to recommend it.

It must be abolished.

If a good man has a right to be proud

of anything, it is of a good action done

as it ought to be, without any base

interest lurking at the bottom of it—

Sterne.

FRIDAY, DECEMBER 5, 1947.

SOUTH WOODSLEE

There was a real good turnout to the Men's Association Keno, held on Tuesday evening. The committee in charge were pleased with proceeds for the evening.

Miss Mary Mitchell has opened a beauty parlor in the Cecil Parker building just behind the Essex Post Office.

Mrs. F. Paisley returned home on Sunday, after spending the past month with her son, Leonard Boyan, and his family, in California.

Mr. and Mrs. Charles Holman and child spent the weekend in Tecumseh.

Mrs. Charles A. Diemer is visiting with relatives in Tilbury this week, while her husband is in Toronto.

Bobby Sedman, of Windsor, visited with Mr. and Mrs. Edward Mousseau on Sunday last.

Mr. and Mrs. Cavers attended the funeral of the latter's father, the late Rev. Farrow, in Allenford, on Wednesday.

Mrs. Wright and Jean visited over the weekend with Mr. and Mrs. Stanley Allison, in Windsor.

Mrs. Gladys Nebbitt, of Windsor, was a weekend guest of Mr. and Mrs. Wilfred Hendrick.

Tony Gyorgie is confined to his bed with arthritis.

The W. A. will hold its annual meeting on Tuesday, December 9th, at the church, at 2:30 p.m. Election of officers will take place. Mrs. Wales will have charge of the devotion.

Isaac Dennis and son Orville spent Tuesday in Windsor.

We understand Richard Ruston has purchased the Wilcox estate property, presently occupied by Mr. and Mrs. Dan Weaver.

Paul McHugh is visiting with his parents, Mr. and Mrs. Peter McHugh.

Mr. and Mrs. Gordon Reeb, Joseph Vickard, Ken Reeb and Russell Stein, of Comber, returned Saturday from a successful hunting trip near Sturgeon Falls.

The Bonus Amicus Club will meet in the Union Hall, on Tuesday evening next, December 9th at 8 o'clock.

As there will be election of officers all members are urged to attend.

On Saturday evening last the local hockey club journeyed to Windsor Arena to play the Windsor Monarchs.

They absorbed a 10 to 1 defeat. Coach Bob Vetter claims a poor defence was the cause of defeat. The line of Ken Stowe, Bob Pritchard and Mel Roach scored the lone Woodslee goal, with Mel scoring and Ken and Bob assisting.

ADDITIONAL LOCALS.

—Prof. J. C. Steckley, of the Experimental Farm, Ridgetown, announces a Short Course will be held in January, which will deal with dairy and beef cattle, hogs, soil conditions and crops grown in Essex and Kent Counties.

Prof. Steckley stated there would likely be some allowance made for travelling expenses for those coming from a distance.

—N. Prince, who has been confined to his home the past couple of months, is back at work in his jewelry store.

—The regular meeting of Central Encampment has been postponed from Monday, December 8th, to Monday, December 15th, because of the Grand Masters Rally and banquet at Windsor on the 8th.

—Mr. and Mrs. George R. Weller accompanied Dr. and Mrs. S. F. Miller, of South Woodslee, and spent the weekend with the latter's daughters and their families, in Thorold and Port Dalhousie.

—Mr. and Mrs. Wm. Parker spent Thanksgiving Day with their daughter, Mrs. Thomas Donohue, and her family, in Detroit.

—The Junior W. A. of St. Paul's Church met in the parish hall, on Tuesday, and elected the officers for the coming year, as follows: Advisers, Mrs. Whealen and Mrs. Art Miller; president, Carol Gulliver; vice-president, Patsy Weese; secretary, Pauline Pulleyblank; Dorcas secretary, Jean Birch; assistant, Joanne Maciel.

The scrapbook to be sent with the white gifts was completed, and the year's work finished up. The Christmas party will be in the parish hall, on Tuesday, December 9th, at 4 o'clock.

—The annual meeting of the Girls' Auxiliary of St. Paul's Church, was held at the home of Sheila Whealen, splendid reports were presented and election of officers took place, resulting as follows: Advisers, Mrs. Whealen and Mrs. Standing; president, Isabella Simpson; vice-president, Barbara Bullard; secretary, Pat Goldie; treasurer, Norma Piper; pianist, Eleanor Kendrick; representative to the Clarion, Sheila Whealen. The annual Christmas party will be held in the parish hall on December 10th, and on December 19th the girls are to be the guests of St. Paul's G. A. in Windsor, at their Christmas party.

—Miss Irene Mullins was one of the graduates of St. John's High School, Windsor, on Friday evening, and the graduates were entertained on Saturday evening by the C. Y. O.

Mrs. Nova Cloutier entertained on Sunday afternoon in honour of her daughter, Caro, who was celebrating her 11th birthday. Sixteen little guests enjoyed Bingo and other games before being served a delicious supper, with lighted candles on the large birthday cake.

Congratulations to Mr. and Mrs. John Knapp (Lou Taylor), of Wheatley, on the arrival of a baby daughter, at Hopewell hospital, Leamington, on Thursday of last week.

—The first of a series of ladies' card parties was held on Monday evening, in the Institute Hall. The proceeds from these parties are to be turned over to the community association to ward the purchase of a charter for that organization. Hostesses for the party were Mrs. W. Woltz and Mrs. Wm. Routh. Next week hostesses will be Mrs. Elmer Stowe and Mrs. W. Ebbingshaus. We extend a cordial invitation to the ladies of the surrounding district to come to these parties. We hope to see you and your friends next Monday, at 8:30. Winners: 1st, Mrs. Otto Fuerth; 2nd, Mrs. Josie Fuerth; consolation, Mrs. Annie Allen; door prize, Mrs. James Fuerth.

Ernest H. Lister, president of the County Credit Union, John Diemer, and Mr. and Mrs. C. A. Diemer attended the Windsor district Credit Union Chapter monthly meeting last Friday night at the Norton Palmer Hotel, in Windsor.

The Knights of Columbus put on an impressive "Living Rosary" in memory of deceased members, on Sunday afternoon, in St. John's Church. That morning the members attended mass and Holy Communion, in a body, followed by a breakfast.

A. E. Dodson, president of Comber Farmers' Co-operative, Ernest Heiser, vice-president, C. H. Thornton, secretary-manager, Bruce Smith, Alvin Markham and C. A. Diemer, directors, left Tuesday for the United Farmers' Co-operative annual meeting at the King Edward Hotel, in Toronto.

The Woodslee Y. P. U. held their regular weekly Tuesday evening meeting, in the church basement, with the Missions convener, Ella Bauer, in charge. The meeting opened with call to worship, and hymn 109, "Jesus Calls Us O'er the Tumult," followed by a short reading and prayer. The scripture lesson was taken from Matthew 28:11-20, read by Madeleine Holman. After offertory prayer and offering, hymn 101, "In Christ There is no East or West," was sung. The topic, "Sunrise in Japan Again," was given in the form of questions and answers on Japan since the war. Questions were given by the Young People and answered by Frank Little who acted the part of a "missionary just back from Japan."

Rev. Cavers gave a short talk on Kasaawa, which was very interesting. The worship service closed with hymn 214, "Lord, I Want to be a Christian," and an evening prayer. The business period was conducted by our president, Frank Little. After the business, the meeting closed with "Taps."

United Church Notes. Sacrament of the Lord's Supper, and reception of members. Sunday sermon subject, "A Letter to Rome."

Y. P. U. Tuesday at the usual hour. Citizenship program.

Christmas concert, Monday, December 22nd.

SHOP EARLY

FOR THE BEST SELECTION

Wise housewives know that early Christmas shopping means the best selections. Time slips by so quickly. Before we realize it, Christmas is only a few days away. Why not plan now and shop early to avoid that last-minute rush. Early shoppers are rewarded with wider, and better selections.

Tobacco Growing is Now Big Business.

In both Canada and the United States, tobacco production holds an important place in the agricultural life of the two countries, said Dr. N. A. MacRae, chief, Tobacco Division, Dominion Department of Agriculture, in a recent address at Brockville, Ont. In Canada, the largest tobacco growing area is devoted to the production of cigarette tobacco which is frequently referred to as flue-cured, or Virginia tobacco. It is in this connection that the greatest expansion has been made during the past few decades.

In addition, substantial quantities of burley tobacco are produced. This kind of tobacco is used primarily in pipe mixtures, light plugs, and to some extent in blended cigarettes. There are also two so-called sub-types of dark tobacco, namely, dark air- and dark flue-cured. The varieties grown in each sub-type are distinct and different. Curing of the dark flue-cured tobacco is done in large barns which are kept filled with smoke throughout the entire operation.

Cigar leaf is also grown, principally in the Province of Quebec. There are three parts to a cigar leaf, namely, filler, binder, and wrapper. Production in Canada is devoted to the growing of cigar filler and binder leaf. Most of the wrapper leaf is imported. Some attempt at present is being made in the Province of Quebec to produce cigar wrapper grades. In addition to the foregoing, some pipe tobaccos are grown, of which a portion is used for cigar filler purposes.

All types of tobacco, with the exception of the flue-cured, or Virginia, cigarette tobaccos are grown in mixed farming areas. Flue-cured tobacco, however, is a big industry and is not produced merely as a cash crop or a sideline. It constitutes the farmer's principal source of income.

An indication of the expansion of tobacco growing in Canada, Mr. MacRae said that total production of all leaf of various types amounted to less than 9 million, and that the total production exceeded 141 million pounds, of which about 120 million pounds were of the flue-cured type. In fact, there was an increase of 275 per cent in production during the past decade over that produced during the previous decade.

Pride, the most dangerous of all vices, proceeds from want of sense, and want of thoughts.—Dillon.

CANADA'S health

Clearness.

Personal cleanliness, the medical people remind us, helps prevent the spread of communicable diseases. It also minimizes the danger of skin ailments, including the risk of infecting wounds.

Public and health authorities remind Canadians that personal cleanliness means sanitary living and working quarters, and, of course, clean linen and outer clothing, as well as good hygiene of skin, hair, tooth, nail and feet.

Sentries of Science.

Sentries are posted at the very threshold of biological science, so that Canadians may live better, safer and longer. Soldiers of disease-prevention guard the quality and safety of everything we eat and drink and even of what goes into our drugs and medicines.

National health watchdogs in laboratory, on inspection staffs and in administrative posts work with provincial, municipal and rural health authorities, with the specialist and the scientific explorer in his clinic, to ensure a healthier Dominion.

Finding One's Feet.

No matter where life takes you, learn to adapt yourself and to make the most of the current environment and opportunities. Don't be a "fish out of water," say the wise men, who claim that a normal, healthy person should have no trouble in "finding his feet" in any situation and under any circumstances.

In fact, the manner and speed with which we adjust ourselves to new and changing conditions will depend upon our intelligence, our common sense, our willingness to be co-operative and, of course, the state of our health. And health will benefit from speedy adjustment to environment.

Growing Older.

As science masters disease and the average life-span lengthens, the proportion of older people in Canada's population is growing rapidly. Accordingly, governments and leaders in public thinking are calling for more of that "old-fashioned" respect and care for the elders which once marked people of breeding, so that the twilight of life may be brightened for all.

Those youngsters who get steam-rolled up over looking after a "bunch of old fogies" are reminded that they, too, may be old, some day.

School Lunches.

Teachers with the health and happiness of their pupils at heart will be pleased to learn that a film-strip is available in Canada, illustrating simple ways of planning a program of children's mid-day meals at school.

This aid to teaching and to good health may be obtained through Provincial or municipal health authorities. It is entitled, "The Rural School Lunch."

Nibbles at Noon.

Health authorities have a special message for the business girls. In order to work properly and to enjoy life more fully, they should know that the noon-day meal is as important as a substantial breakfast, which helps start the day right.

"Girls, don't make it just a soft drink and a sandwich," the experts plead. "A good lunch should include hot dishes, when available, with milk, meat, or meat alternates, Canada Approved Vitamin B bread, vegetables and fruit." There is just no value in a mere nibble at noon.

CHRISTMAS MAIL FOR THE U. K.

A record shipment of mail, largest ever to leave a Canadian port, was carried to the United Kingdom on the Canadian Pacific cargo-passenger ship Beaverford, which sailed from Montreal for Liverpool, November 23rd, with 19,750 bags of parcel post, in addition to 10,350 tons of regular cargo, including the heavy deckload of logs, shown above, and 23 passengers. In the above picture, the last bags of mail in the record shipment, which weighed 800 tons and occupied 102,410 cubic feet of space, were being loaded. The mail, a large part of which is made up of Christmas packages, is packed 25 feet deep in the hold.

Essex Library News.

By E. E. J.

This is for the housewives in our community.

Did you know that our library is open every Wednesday and Saturday afternoon, from 3 to 5 o'clock? And did you know that on the tables in our library every month come the most outstanding magazines? Our board has made an excellent selection for you. Come in and enjoy them. They are yours, and they are free.

1. "Good Housekeeping," (monthly) a high class magazine for housewives everywhere, excellent department on Fashions, Needlework, Beauty, Children and Cooking.

2. "Chatelaine," a truly Canadian monthly, with good fiction and a general features department that deals with such subjects as "Husband's Jobs and Working Wives," "Why Men Leave Home," "So you Want to be a Nurse," "Kleptomaniac," etc. A fashion department that is most practical and suitable for modern income people. A beauty department, a Housekeeping department, that deals with all problems in a home, and a Child Health Clinic.

3. Better Homes and Gardens, a monthly magazine, filled with up-to-date articles and illustrations on the latest in decorations for your home; also excellent suggestions if you are planning on remodeling or building. Gorgeous new recipes, with pictures of how they should look. Then the advertisements are exciting and it doesn't cost a cent to look.

4. "Sylvia," a gorgeous little booklet that comes every month from the Department of Lands and Forests of Ontario, and is issued in the interests of improved forest protection, forest management, land use and fish and wildlife conservation. It has exquisite little colored reproductions of paintings by Canadian artists with short sketches about the artist. You will love this little gem gotten up so beautifully and with fine taste.

5. "Quill and Quire," a Canadian monthly publication. This deals with articles and in advertising, and could well help you to decide your own reading. It has all the stationery news, and many articles of interest to those who wish to do things original.

6. "The National Geographic Magazine," the aristocrat of magazines, a monthly whose chief aim is the increase and diffusion of geographic knowledge. The November number has a wonderful article on "Unlocking the Secrets of the Northern Lights," with eight superb colored pictures of the Aurora. If you have been in the north and thrilled to these mysteries, you will be thrilled again by reading the article. If you have not seen them, then this is a must if you want to be informed.

7. "Canadian Nature," a non-commercial Canadian magazine, published five times a year. A lovely little thing dealing with wild life in Canada, many pictures, coloured and otherwise. It sponsors nature clubs and urges communities to form clubs to assist children and adults to become students of nature, to put them in possession of a most interesting and instructive hobby.

8. "Readers' Digest," a well-known monthly magazine of human interest articles the world over. If you travel and meet people, the Readers' Digest and the geographic way form a common subject of conversation.

9. "Health and Welfare," a monthly bulletin issued by authority of the Minister of National Health and Welfare, Hon. Paul Martin. The October number dealt very fully with immigration. If you have any doubts come in and read the facts for yourself.

10. "Depatch," the Canadian Red Cross Society. Read what our Red Cross is doing in peacetime. It is amazing.

Draft and Damp.

While they do not always, in themselves, produce colds, drafts often sap the vitality, particularly of infants, the aged and the sickly. The medical profession, therefore, says, "Dodge the draft."

Other factors tending to weaken resistance to colds include sudden changes in temperature and exposure to dampness.

More Darkness—More Traffic Danger.

Despite ideal driving conditions in the best October weather the Province has enjoyed in over a hundred years, 89 persons were killed, on Ontario roads last month. This toll while below the 95 dead for October of last year, emphasizes the need for greater care in the coming winter months.

Highway officials point out that people over 35 and under 65 are more exposed to traffic hazards this time of year and consequently accidents increase in this group. Traffic accident figures for this October show that of the 89 persons killed, 27 were between the ages of 35 and 65. Last October 25 of the traffic deaths involved people in this age group.

Accident statistics indicate that while fewer children, proportionately, are killed on the roads during the months of early darkness more middle-aged and elderly people suffer injury or death. In cities and towns slippery streets and the tricky light of the day especially dangerous to the persons on foot.

At night the dark clothes worn by most adults make them difficult for motorists to see. Pedestrians are urged when walking down poorly-lit streets or along country roads to carry or wear something white.

Although there is less motor traffic on rural roads in the fall and winter the added hazards make them the most dangerous. Early darkness, rain, sleet, fog and ice, and consequently care on the part of drivers and pedestrians. Rural accidents accounted for 46 per cent of the total accidents last year in Ontario. And November and December were the worst months in 1946 for accidents on country roads.

While the October record was comparatively good, considering the big increase in traffic, the Highway Department emphasizes that the last two months of the year are usually the worst months for the Province generally and urges everyone to make additional allowance for the risks peculiar to this season of the year. Particularly those between 35 and 65.

11. MacLean's, "Canada's National magazine, issued semi-monthly. Every Canadian who wants to know about his country should read this magazine. The general articles are an answer to questions we ask after reading our daily papers.

12. "Life," a weekly, filled with pictures of current events throughout the world. To mothers the Library has three excellent magazines for the children: "Childlife," a monthly filled with pictures and suggestions for the wee ones; "Wee Wisdom," a monthly for boys and girls — really character building. The four departments, stories, poems, activities and clubs are the result of much study and research of the needs of the present day child. You may assist young ideas to sprout if you read this magazine; (3) "Girls," tops with teens — a monthly that deals with the teenage group of girls. It has five departments: Stories, personality speaking, getting around, strictly fun and fashions.

This magazine is an uplift and may be a help in solving problems.

With Canada's parliament on nine weeks there is much speculation about the attitude the opposition parties in the House of Commons will take toward the government's plan to promote a real Canadian economy.

The case made by Rt. Hon. C. D. Howe in asking for the helpful cooperation of all Canadian people has made a deep impression. "Provided we can have the whole-hearted cooperation of all Canadians in the working out of the program, there need be little dislocation."

In support of this cooperation it is recalled that co-operation during six war years had enabled Canada to double the production of goods over the six previous years and to put one million men and women into active service. It is also remembered that new jobs were created in the years of reconversion to absorb all demobilized men and women as well as those who had been employed in war in employment today. This was achieved by co-operation of all Canadians in spite of the prediction of the socialist (C.C.F. leader that hundreds of thousands would be unemployed immediately after the war.

Canada's Capacity.

Canada is presently undertaking the greatest expansion program in the history of our country. This increase in the production of goods will make our economy more self-contained and thus lessen the dangers of depression and enable us to employ more people by expanding our exports.

About 30% of our purchases from the U. S. is steel and other structural materials and machinery and equipment. Obviously these cannot be prohibited without seriously retarding our progress. Thus prohibitions can only be placed on purchases that are unproductive or practically so. Mr. Howe also urges that unproductive public works be deferred until the Canadia production program has attained its objective.

Canada is now manufacturing 200 important items which prior to the war, were imported. The government is asking for the co-operation of all to greatly increase the volume and number of these items. The Geneva Trade Agreements have opened many markets for them, and we have a larger Canadian market due to an increase in the buying power of our people. Mr. Howe says that "There are today few manufactured products that cannot be produced as cheaply in Canada as anywhere else in the world as long as we have adequate markets."

Moray. "Organized free individualism has its opportunity to prove its worth in the world as never before as against state controls. If it fails it will be due to the selfishness of those who control dollars and sterling, money must be made the servant of mankind and not its master, and if it is utilized so as to pull the world through its present difficulties it will indicate that our system is on the right road."

This pronouncement came from the Rt. Hon. J. G. Gardiner, Minister of Agriculture, as he spoke to the Rotary Club of Montreal and answered three daily papers which had questioned his right or competence to speak on matters other than agriculture. Observers here (except some socialists) are satisfied that the actions of United States and Britain in working out the Marshall plan for European recovery prove that the free democracies will live up to the high ideal proposed and that Canada will do its full part.

Drew of Ontario, on Federal Affairs. Observers here show much interest in the attack Premier Drew of Ontario made on the Federal Government's plan for a Canadian economy when he was in Ottawa last week. The only plan he proposed for Canada was a devaluation of the Canadian dollar; a plan which has already been discarded by the Canadian government for reasons this observer outlined last week.

There is a considerable surprise at his request for a meeting of the federal and all provincial governments to work out Canada's economic problem. His statement seems to be in support of the stand taken by Premier Duplessis of Quebec, who would deny the right of the members elected to the federal parliament to speak for the people. This appears to be a major constitutional issue. It is not forgotten here that it was the stand taken by these two provincial premiers which prevented any provincial conference. They have not yet indicated any more co-operative attitude if another meeting were called for any purpose.

Friendship. One movie actress was telling another that she always bought her Christmas presents in October. "But," said her friend, "how do you know in October who your friends are going to be in December?"

The "Lowly" Food Can.

The "lowly" food can which the housewife discards without a thought after she has emptied its contents, is actually a wonder of modern technology. The secret of its strength lies in its construction.

First, the material is a special alloy of steel, which is rolled into a thin sheet. This sheet is then coated with a layer of tin, which prevents the food from rusting. The can is then formed into its final shape by a process called "drawing and ironing."

There are two types of enamel in common use, both a golden yellow color. One is used to preserve the bright color of red fruits. The other is used to prevent the discoloration of the contents and the staining of the inside of the can, such as otherwise may occur with products containing sulphur. This sulphur action is the same as the harmless discoloration of a hard-boiled egg on a silver spoon, with which housewives are familiar.

Many of the food cans may be seen in the home that the metal in a food can is five times as strong as ordinary steel. The coating of enamel on the inside of the can is about 1/1000 of an inch thick, and the metal is about 1/16 of an inch thick. The can body has a thick layer of metal (3/16 of an inch) of steel, of this alloy and two of tin. In addition, the inside surface may have a coating of enamel. The enamel on the end, containing sealing compound, and the flange on the can body are indexed and coded for positive identification of metal — double seal (1).

Department of Mines and Resources.

Mines and Resources Glen announced this week that the Dominion Government is assisting in the opening up of a coal deposit in the Yukon Territory.

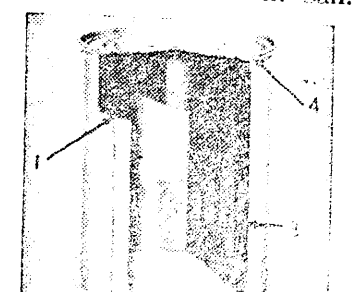

Increasing remoteness of wood fuel supplies is currently hampering mining and other development in the territory, and although several of Yukon's coal deposits had been previously mined to a small extent, commercial development has not taken place because of the hitherto limited markets and the availability of wood for fuel. Current activities in the production of silver-lead ores in Mayo district, in placer gold production in Dawson district, and in development of lead gold occurrences, all point to the benefit that will be derived from opening a coal mine on a scale to provide fuel for mining and steamship navigation such as that at Mayo, Dawson, and Whitehorse.

The deposit to be developed is at Tantalus Butte, near Carmacks, on the Lewis River, which is the principal tributary of the Yukon River. It is approximately 100 air miles northwest of Whitehorse and on the main navigation route between Whitehorse and the Dawson and Mayo mining areas. The geological and engineering examinations that have been made indicate low mining costs and that the deposit contains good quality bituminous coal in quantity regarded as sufficient to provide the commercial and domestic coal requirements of Yukon for many years.

An agreement has been entered into between the Dominion Government and the Yukon Coal Company Limited, for development and operation of the Mines and Resources, loaning such funds as may be necessary to equip and develop an efficient colliery to meet Yukon's coal requirements. Opening of the mine workings has already begun and it is expected that development can be pushed throughout the winter with the object of having the mine reach substantial production by the opening of the 1948 navigation season.

Hugh McLeod Passes.

Hugh McLeod, of Detroit, passed away on Thursday last week, from a cerebral hemorrhage, with which he was stricken but a few hours before his death.

Deceased was born near Welland, 67 years ago, a son of the late Mr. and Mrs. Duncan McLeod, and lived in North Gosfield before moving to Detroit. He was one of a family of 13 children.

Surviving are his widow (nee Millie LeBeuf) formerly of Sandwich, and three children: also six brothers, Murd, James and Joseph, Cottam; Duncan, Lou and John, of Windsor; and three sisters, Mrs. W. E. Malott, Mrs. James Stevenson, and Mrs. Joe Howe, of Cottam.

Funeral services were held from the Hall Funeral Parlor, Detroit, on Monday, with burial in Evergreen cemetery, Detroit.

Mr. and Mrs. Murd McLeod, Mrs. W. E. Malott, Mrs. Stevenson, James and Joseph McLeod, all of Cottam, attended the services.

COTTAM

Everett Merritt is a patient in Grace Hospital, Windsor, where he underwent an operation for a double hernia.

Mr. and Mrs. Robert Garrett attended the Mink Show in Grand Rapids, Mich., last week.

Sunday visitors at Mr. and Mrs. E. Rupert's were Mrs. Stuart Mossop, Mr. and Mrs. Ivan Ennis, Dianne and Gayle, of Maidstone; Mrs. J. H. Rupert and Mr. and Mrs. John Dodson and Jacqueline and Richard, of Essex.

Mr. and Mrs. Virgil Collard and family, of Windsor, visited from Friday until Monday with Mr. and Mrs. Albert Collard and family, and with Grand-ma Collard and Millie.

Mr. and Mrs. James Carder, of Windsor, were Sunday guests at Mr. and Mrs. Gord McDonald's.

Misses Jackie and Kathryn McLeod visited on Saturday with Mr. and Mrs. Douglas O'Neil, of Kingsville.

During the afternoon service at Trinity Church, on Sunday last, a special dedication service was held, when Archdeacon Westgate, of Windsor, and Rev. J. H. Wheaton dedicated an Altar basin in memory of the late William Stuart Mossop, and wine and water cruets in memory of the late Caryle William Mossop, the gifts being presented by Mrs. Mossop and daughters. Special music was rendered by the choir, under the direction of Mrs. Harry Newman.

Trinity Guild held their annual election of officers, at the home of Mrs. Harold Mellon, on Thursday last. A short program was enjoyed. A reading was given by Mrs. S. H. Wyatt, and two solos by Mrs. Henry Mannington, accompanied by Mrs. E. Rupert. Rev. J. H. Wheaton gave a very inspiring address. A delicious lunch was served at the close of the meeting. Miss Orpha Stotts is the president for the coming year.

The Eight O'clock Club met in the United Church basement, on Tuesday evening, enjoying a most interesting talk by Major Eacott, of Faith Haven, Windsor. The program was introduced by Mrs. Orance Laramie, who presided at the meeting. Mrs. Mitchell, of Woodlee, gave a reading and a musical selection by Mrs. Leslie Merritt, on the guitar, accompanied by Mrs. E. Rupert, was enjoyed. Lunch was served by members of the club.

The annual chicken supper, held on Thursday evening, November 27th, was an outstanding success. In spite of inclement weather the crowds exceeded that of former years. Door receipts were slightly over \$600. The bazaar receipts will be announced later.

An exceptionally fine program was presented, consisting of music by an 11-piece ensemble of the Salvation Army from Windsor. Readings were given by Miss Jane Wing, of Leamington; solo numbers by Miss Olive Brown, of Windsor, and a number entitled "The Wedding of Jack and Jill," was presented in a very pleasing manner by Jacqueline McLeod and Arthur Squire, of Cottam.

White Gift Sunday will be observed in the Sunday School next Sunday. The annual Christmas meeting of the Woman's Association will be held at the home of Mrs. Arthur Coote, on Tuesday afternoon, December 9th, at 2:30 p.m.

Union Gas Co. Asking Boost in Price of Gas.

Town Clerk K. E. Brett on Monday received a copy of an application filed with R. S. Colter, gas referee, by the Union Gas Company of Canada, asking for higher rates for domestic, commercial and industrial users.

The increases in rates for Essex being asked are up to 100% higher than present rates.

In the letter accompanying the application claim, T. Weir, general manager of the Gas Company, brings to attention of Essex Council, as well as the other municipalities served by his Company, that under provisions of The Natural Gas Conservation Act, a municipality is required to file a statement of defence, if any, with the referee, within fourteen days from date of receipt.

No date has, as yet, been set for the hearing.

The schedule of rates which the Gas Company ask should be approved are as follows:

Domestic and Commercial.

First 200 CF. 50c CCF Net

Next 2,800 CF. \$1.00 MCF 95c MCF

Next 7,000 CF. 97c MCF 92c MCF

Over 10,000 CF. 90c MCF 85c MCF

Note: CF means cubic feet; CCF means hundred cubic feet, and MCF means one thousand cubic feet.

INDUSTRIAL RATE

First 200 CF. 50c CCF Net

Next 99,800 CF. \$1.00 MCF 95c MCF

Over 100,000 CF. 95c MCF 90c MCF

Present Rates.

Winter Gross Net

First 10 MCF. 60c 55c

Next 10 MCF. 65c 60c

Over 20 MCF. 75c 70c

Summer Gross Net

Per 1 MCF. 85c 80c

In Essex, a householder who now pays \$2.75 net will pay \$5.61 net on new proposed rates, while a person who burns 18,000 cu. ft. now paying \$10.30 net, will pay \$16.94.

Submission of the Gas Company.

Because of the rapid decrease in the volumes of natural gas now available in Ontario this Company can now supply less than 50% of its customers' requirements with gas produced from its own wells, and to supplement this gas it has been necessary for the Company to purchase large quantities of manufactured gas for processing, and to manufacture gas in its own plants.

It has also increased its purchases of other natural gas produced locally wherever it has become available.

Even taking into account the gas available from all these sources the Company has not sufficient supplies of gas to enable it to remain any part of the large house-heating market which it was required to relinquish during the war, and it is thus prevented from increasing its volume of sales to any appreciable extent.

The cost to the Company of the auxiliary gases which it is now buying, i.e., refinery still gas, propane-butane gas, oilgas and purchased natural gas, is much greater than was the cost of similar volumes of the Company's own natural gas available a few years ago, and these costs are continuing to increase.

In addition, all other operating costs of the Company such as labour, materials, municipal taxes, etc., have shown substantial increases and are continuing to increase.

As a result of all these adverse factors, operations under present schedules of rates are being carried on at a substantial loss to the Company. If the Company is to continue to meet the requirements of its customers for gas service it is absolutely essential that it be permitted to put into effect at the earliest possible moment a new schedule of rates to meet these changed conditions.

The following information sets forth the reasons for the shortage of gas, the manner in which the Company has endeavoured to meet such shortage, and indicates why the changes in type and quantity for the gas now available, and the increased costs of operating, make it necessary for the company to obtain higher rates for its gas.

Depletion of Natural Gas Reserves in Ontario.

In Ontario natural gas was first produced in commercial quantities in 1889 — fifty-eight years ago — and since 1907 there has been practically continuous development by drilling new wells and exploring for new gas fields.

Like oil, natural gas is a depleting commodity and while some of the fields discovered and developed in Southwestern Ontario have yielded immense quantities over the years, others have been much less extensive, some, such as the Malahide field, lasting only a few years. Viewed as a whole, it has always been inevitable that supplies of this valuable natural resource would some day become exhausted.

Union Gas Company of Canada, Limited, has been one of the leaders in exploration and development work, and also contracted for purchase of available supplies of gas produced by other companies and syndicates. Despite all the activity in exploration work and the employment of the best scientific assistance available, the new production over a number of years past has not kept pace with the quantities of gas required. The estimated reserves of natural gas in presently known

New Bank Opens.

The newly-erected branch of the Imperial Bank of Canada was officially opened at 2.30 on Saturday afternoon, when Mayor J. C. Linton, assisted by I. K. Johnston, 1st assistant to the General Manager, of Toronto, and Cecil Simpson, local manager, cut the ribbon and opened to the public the front doors of the building, one of the latest banking edifices, for its size, in the whole of Canada.

On house was held both afternoon and evening, at which hundreds of townspeople and men and women of the surrounding farming communities, avoided themselves of going through the bank.

Some of the out-of-town bankers and wives who attended the opening were: I. K. Johnston, assistant manager, of Toronto; T. R. Jones, Windsor; E. W. Gamble and wife, Cottam; E. B. Reynolds, Sandwich; A. E. MacGill and wife, Amherstburg; W. T. Carthew, Walkerville; H. J. Arnebeck, Fergus; Road branch, Windsor; Ivan Groskurth, Walkerville; A. Shanahan, Sandwich; F. Wray, Sandwich; Amir and P. Allen, Windsor; Mr. Nicoll and wife, Harrow; E. J. Baker, manager, St. Catharines, formerly of Essex; Mr. and Mrs. Conway, Windsor Branch; Mrs. G. J. Lackner, widow of Windsor Branches, and Mr. and Mrs. W. J. Blankstein, of Kingsville.

Grand Master, I. O. O. F.

Grand Master McCarthy, I.O.O.F., Province of Ontario, paid his official visit to this district during the past week. On Friday last he accompanied the Metropolitan Degree team of 55 members, in their international trip of good will, to Flint, Mich. Monday night, the G. M. attended a rally for Ward District No. 1, at the Prince Edward Hotel, in Windsor, while on Tuesday evening he made a similar visit to Erie District No. 2, where some 250 rallied at the call of the D.D.G.M., Clarence Totten, at Essex.

The Grand Master gave an address of much merit. He outlined departure from the usual method of exhortation by the usual method of exhortation, Love and Truth. He suggested organizing a benevolent attitude towards our unfortunate citizens whether in or out of the order. His remarks were well received and his message will not be soon forgotten.

The Rebekahs, of Essex, provided an excellent chicken dinner, both in quantity and quality. Practically all were able to dine at one sitting.

P.G.M. Albert Brunner, of Oshawa, acted as chairman in his usual capable manner. Vocal numbers of superior quality were provided by Mrs. Washburn, of Comber, accompanied by her daughter, and by Mr. Matthew, of Tilbury, accompanied by A. Dubs.

Fields have gradually become depleted to the point where they are insufficient to continue serving the present demands of customers even without replacing the approximately 10,000 central house-heating units removed from customers' premises during the war.

To indicate the extent of the effort to discover additional natural gas supplies, the following totals shows what drilling has been done by Union Gas Company alone during the 10 year period ended March 31st, 1947, and the results of this drilling.

Total number of wells drilled, 475;

total number of dry wells, 242; total number of producers, 233; number of these wells still in operation, 155.

As indicated above many of the wells brought in during this period are already exhausted and in addition the delivering capacity of wells in existence prior to this period has been steadily decreasing as withdrawals were made.

During the 10-year period Union Gas Company expended a total of \$3,697,693 on exploration for natural gas, including drilling, lease payments and geological survey costs, or at the rate of approximately \$370,000 per annum.

It is the intention to continue local development work in the search for natural gas so long as the Company's financial position will permit and the results obtained justify the expenditure.

Even though a fair number of producing wells have been brought in during recent years the total drilling results over the past several years indicated that the company could no longer depend on local sources of natural gas alone to meet its requirements but must become more and more dependent upon the production of manufactured gas and the purchase of natural gas from any other available sources.

In providing gas service, especially for heating purposes, by far the larger demand is during the winter months, and it is necessary to have in reserve sufficient quantities of gas to sufficiently high pressures to meet the extreme peaks in demand which arise during the winter even though such peaks may last for only a few days or a few hours.

Schedule "A" attached hereto, containing excerpts from a report prepared on the gas reserves available to Union Gas Company as at 31st July, 1947, prepared by Ralph E. Davis, a consulting engineer, expert in matters pertaining to gas, indicates the extent of the gas reserves available to the Company as at that date. When compared with the annual gas requirements of the Province of Ontario, it is seen that there is no provision for storage in Italy.

Bible Day.

The Essex Branch of the British Foreign Bible Society is making its annual appeal on Sunday, December 14th. The contributions last year amounted to \$184.44, which was approximately \$20 less than the year before. Members and adherents of our churches are invited to attend our church services and make their annual contributions. Present world conditions are creating greater demands for the Word of God than at any time heretofore. Our missionaries would be crippled without our Bible in its 55 translations. Our churches are requested to forward their gifts to our local treasurer, Wm. Thompson, as early in December as possible.

Mrs. Caroline Taylor Dies.

Mrs. Margaret Caroline Taylor, widow of the late Alexander Taylor, passed away at her late home, Talbot street, in town, about 11 o'clock Wednesday morning, following months of ill health.

Deceased was born on November 24th, 1858, a daughter of the late Mr. and Mrs. George McCreery, on lot 27, S.T.R., at Malton road, on the farm now owned by Bert Seguin, and had lived in the same vicinity all her life.

On May 28th, 1878, she married the late Alexander Taylor, who died ten years ago, and to this union was born nine children, Susie Bell (Mrs. D. Duncan) and Louise May (Mrs. B. Burdick), of Royal Oak, Mich.; John Franklin, of Ann Arbor, Mich.; John Franklin, of Dearborn, Mich.; Gayton, of Plymouth, Mich.; Cary Maud (Mrs. Fred Sadler) of Essex, and W. Raymond, at home. Two sons, R. Dewar and Scott, predeceased their mother.

She was a member of Essex United Church, being very active in all the women's organizations of her church. She had a most kindly disposition and was beloved by all.

Funeral services will be held from her late home, Talbot street, on Saturday, at 2 p.m. Burial will be in the family plot in North Ridge cemetery.

Essex Memorial Park Bingo.

The Memorial Park Bingo, held on Friday evening, last, was a very successful affair. The town hall was filled to capacity and the Bingo started right on schedule, at 8.30. Although I feel I should apologize to those who came real early, because I didn't have 8.30 on the tickets. My fault, and I beg your humble pardon for 30 minutes. However, it was a good crowd — a happy throng who came out to battle with Lady Chance for a grand variety of prize donations, and, with prizes in mind, I would like to add special thanks to those listed below, for their donations to help our Memorial Park, Essex Radio Electric, Dominion Store, Essex Dairies, Dick Graham (Shell gas), Rio Theatre, Malott Hardware Store, Dept. Cold Facts.

If we are to accept the word of one of the world's great geographers, Professor Ellsworth Huntington, of Yale University, Canada faces a rather promising future. We deduce this from one of Professor's Huntington's best sustained theories, that as civilization develops it moves toward the colder regions. Early civilization in Egypt and Mesopotamia didn't know how to cope with winter. Greece and Rome, being further north, were soon reaching out for new conquests. Then man discovered the principle of the chimney and some of its troubles were solved. He could move from the temperate zone to the northern and still survive. Anyway that's the theory, the intellect grows as progress moves northward. Rather heartening words, we fancy, for North Battleford or Whitehorse.—J. L. Rutledge.

Maidstone Council.

Monday, December 1st. Council met this day pursuant to adjournment, with all members present. The minutes of last meeting were read and on motion of Messrs. Wright and Walstedt, adopted as read.

Louis Renaud, owner of a 1/2 e 1/2 lot 15, Con. 6, complained to council that the two access bridges to the north of his lands were too small and caused the water from the 6th concession road drain to overflow on his lands. Left with Mr. Walstedt to investigate. The Clerk reported no appeals against assessments for 8th Concession road drain.

Moved by Mr. Wright, seconded by Mr. Humeau, that assessments for 8th Concession road drain be confirmed.—Car.

Bylaw 1947, North end Eighth Concession road drain was finally passed. P. B. Goddies, solicitor for Thomas Elhardt, owner of a 1/2 lot 285, S.T.R., served written notice on Council that the Hyland drain was out of repair and that Mr. Elhardt required same repaired forthwith.

Moved by Mr. Wright, seconded by Mr. Walstedt, that notice to repair Hyland drain be confirmed and that Mr. Elhardt be appointed to make an inspection, survey and report on same, with authority to vary assessments, if necessary.—Car.

Bylaw No. 1946 in relation to Municipal Council and school trustees, was adopted.

The following notices were received: The Corporation of the 2nd Concession road drain, 1947 school rates, \$2,100; 1947 school rates, \$2,100; 1947 school rates, \$2,100.

Moved by Mr. Walstedt, seconded by Mr. Humeau, that the Corporation of the 2nd Concession road drain be notified to pay the 1947 school rates, \$2,100, by the 15th day of December, 1947.—Car.

FUCE

(Crowded out last issue.)

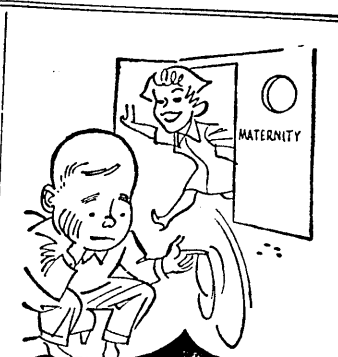

Friends were sorry to learn recently
of the death of Mr. Gale in Detroit. He
had had some bad spells of illness in
the past two years, but at the end
suffered a heart attack, from which he
never rallied. He will be much missed
by all who knew him, and especially
in the summer colony along the lake.
He has been out here a number of
years and built a lovely large home
at the east end of the grove along the
lake east of East Puce Road.

Mrs. E. Lauzon and twin daughters,
Connie and Jimmie, sponsored a shower
for Mrs. Francis Lauzon, on Thursday
evening. A large number attended.
Blanco was played and many received
nice prizes, after which the honoree
opened her many lovely gifts. She
was assisted by her sisters-in-law. De-
licious refreshments were served, after
which the guests departed, having en-
joyed a very fine evening.

Many from this district attended the
Puce Sportsman's banquet and enter-
tainment at Swineland Tavern (Can-
ton's) on Friday evening.

Douglas, young son of Mr. and Mrs.
Cameron Piche, who was struck by a
car two weeks ago while on his way to
school, is getting along nicely. He
was taken to Grace Hospital, Wind-
sor, where he was operated on for a
bull fracture. Dr. Nielson, brain spe-
cialist of Detroit, came over and per-
formed the operation, which was a de-
cided success. Douglas is now con-
valescing in Windsor, at the home of
his grandparents, Mr. and Mrs. A.
Little, and his aunt, Miss Eleanor
Little R.N., in attendance.

Pride is ignorance; those assume
most who have the least wisdom or
experience; and they steal from their
neighbor, because they have so little
of their own.—Mary Baker Eddy.

What IS
THIS WOMAN
DOING?

She's helping fill a pay envelope.
In her kitchen?

Yes! She is one of Ontario's thousands of housewives
saving all the electricity possible so that more power
can be made available for our busy farms, factories
and other industries.

How is she saving electricity?

Right now, a delicious dinner is being completely
cooked in the oven using only one element—instead of
several on the cooking surface.

As soon as the kettle started to "sing", she turned the
switch to "off", the stored heat in the element will
bring the water to a boil.

Such a careful homemaker uses only proper sized
utensils on elements, uses "low" heat for stews, and
saves many a penny by making the best use of stored
heat after switches have been turned off.

Please save all the electricity you can! Even the
"little" you save, multiplied by the "little" saved by
all Hydro consumers, will speed Ontario's growing
factory and farm production.

EVERYONE!

THANKS!
TOWN OF ESSEX.
 To all who assisted in electing me
 as a member of Essex Council for 1948
 kindly accept my most sincere thanks
 and appreciation.
 I do hope before 1948 passes to merit
 the confidence you have placed in me.
 Again thanking you I am,
 FRANK HILL.

THANKS!
TOWN OF ESSEX.
 For the liberal support and confi-
 dence shown in me at the polls on
 Monday last, I desire to express my
 sincere thanks, and hope to show my
 appreciation by giving the town my
 best services.
 Yours sincerely,
 JOHN CHASE.

THANKS!
TOWN OF ESSEX.
 Many thanks for the splendid vote
 accorded me at the polls on Monday

 I appreciate the support given me
 more than words can express.
 Sincerely yours,
 ED. E. HINES.

THANKS!
TOWN OF ESSEX.
 In ever loving memory of our son
 and brother, Pte. Thomas L. Quick,
 who was killed in Italy four years ago,
 December 13th, 1943.
 We do not need a special day
 to bring you to our mind.
 For the days we do not think of you
 Are very hard to find.
 If all this world were ours to give,
 We'd give it, yes and more,
 To see the face of our Tommy dear
 Come smiling through the door.
 —Fondly remembered by mother and
 dad; Carson, Herman, Mabel, Jim and
 Sharon.

IN MEMORIAM
 In loving memory of Sir John Murray
 Foster Newman, who was killed in
 Holland, December 16th, 1944.
 Deep in our hearts a memory is kept
 Of one we loved and will never forget.
 —Always remembered by Grandma
 and Grandpa Newman, aunts, uncles
 and cousins.

IN MEMORIAM
 In memory of our only son, and brother,
 Sigmund Murray Foster Newman,
 killed and buried in Holland, on De-
 cember 16th, 1944.
 Nothing can ever take away
 The love a heart holds dear,
 Fond memories linger every day,
 Remembrance keeps him near.
 —Always lovingly remembered by
 mother, dad and Lella.

IN MEMORIAM
 In proud and loving memory of our
 boys Roger Knight and Tommy Quick,
 who died in Italy four years ago, No-
 vember 28th and December 13th, 1943.
 They are not dead, our boys who fell
 in glory.
 Who gave their lives for freedom and
 for truth;
 We shall grow old, but never their
 great story,
 Never their gallant youth.
 In a perpetual spring we set apart,
 Their memory ever green shall grow,
 In some bright secret meadow of the
 heart,
 Where never falls the snow.
 —Sadly missed by Mr. and Mrs. Cliff-
 ord Knight and family.

Card of Thanks—The family of the
 late Martha Welker, wish to extend
 their sincere thanks to relatives,
 friends and neighbours for their trib-
 utes, including H. Heinz Co., in their
 recent bereavement. Special thanks
 to Miss Cross, Mrs. J. W. Eiseley, Rev.
 C. E. Taylor and the S. L. Kennedy
 Funeral Chapel.

THANKS!

TOWN OF ESSEX.
 The confidence you placed in me, at
 the polls, on Monday, is greatly appre-
 ciated. I wish to thank all my sup-
 porters and friends for their grand
 help.
 Again thanking you, I am,
 Sincerely yours,
 A. GLENN CASCADEN.

THANKS!
TOWN OF ESSEX.
 I would like to express my sincere
 thanks and appreciation to the voters
 of Essex for the confidence you have
 placed in me by re-electing me as a

Blowing Overdone.

Head not your horn is the chief official of the Ontario Highway Traffic Commission. Making motorists who misuse automobiles horns.

At least seventy-five per cent of blowing is unnecessary," he explains that the horn is a warning signal to be used of emergency at the drivers' discretion. It is not meant as a substitute for good manners or common sense.

Phonies that relying on the horn as a path is a dangerous and in particular he warns motorists who, without speed, expects children at the wheel of the way at the horn. This type of a menace to public safety, and should be dealt with.

Automobile horn is being substituted for many uses for which the horn never intended it, he says, letting your date know you are outside; (b) showing your date when blocked in traffic; (c) at some one whose actions (d) applauding a ball game; (e) raucous accompaniment of a party and (f) "blasting" rough traffic.

He is required on all motor vehicles the highway officials feel are being misused to the detriment of safety. Too many motorists use their horns and their heads too.

COTTAGE CHEESE.

Cottage cheese is recommended by dietary authorities as a meat alternate. It is an ideal source of animal protein and makes a splendid addition to a meal. Weight for weight, cottage cheese contains more protein than meat. It is rich in Vitamin B and, if made from whole milk, contains vitamin A as well.

Trinity Guild Meet.

The annual meeting of Trinity Guild was held at the home of Mrs. Mellow, with 18 members present. Mrs. Leslie Ash, president, opened the meeting with prayer. The committees presented their yearly reports and plans were made for the congregational dinner and Christmas party, to be held in the Orange Hall, December 16th.

Following the business meeting, Mrs. Ash turned the meeting over to Rev. Wheeler for election of officers.

Following are the officers for 1948: President, Miss Orpha Stotts; vice-president, Mrs. Leslie Ash; secretary, Mrs. Grace MacGillivray; Sunshine secretary, Mrs. Garnet Stockwell; Chancel Guild, Mrs. Persons; Mrs. Montgomery and Mrs. Una Jackson; visiting committee, Mrs. W. J. Ash, Mrs. A. Lonsberry, Mrs. A. Ross, Mrs. Stanley Fox, Mrs. Hetherall, Mrs. Una Jackson; tea committee, Mrs. Marie Mills, Mrs. R. Alexander; program committee, Mrs. Manningham, Mrs. Mellow.

A social hour followed, with two beautiful songs by Mrs. Manningham; a reading by Mrs. Wyatt, and a short talk by our rector, Rev. Wheeler, on living conditions in England today.

The meeting was closed and lunch was served by the hostess.

Mayor Wins in LaSalle.

Mayor George A. Henderson, of LaSalle, was re-elected in a close contest, on Monday, with Albert Roanne Jr. Mr. Henderson polled 296 votes to 256 for Mr. Roanne. A total of 552 ballots were cast in the towns election out of voters list total of 840.

In the councillors race Fred Haslam led the poll with 227 votes. He was followed by three others, all of whom received 274 votes. They were Alvin Brunet, who was re-elected; Harry Bolemier and Norman Gignac. The last man to fill out the five-man council was Horace Cooper, who was re-elected with 230 votes. Robert Fleming received 186 votes and Thomas J. Hayward 166.

P. R. Anderson was re-elected to the towns public utilities commission with 269 votes. He was opposed by John Jones, who received 60 votes, and Noe Melioux, who received 179 votes.

Roeve Chappus gained office by acclamation. Two vacancies on the public school board were also filled by acclamation, placing in office Manley Dawson and Keith Jones.

Canadians Sweep Soybean and Field Peas Classes.

A British Columbia exhibitor who grows vegetables as a hobby, Tuesday won the top award in the field peas division of the hay and grain show at the 48th International Livestock Exposition, while entries from three other provinces also gained honours.

John Decker, of Pemberton, B.C., who moved to the country several years ago for his health, won the field peas championship with his yellow variety. The reserve championship in the competition was won by A. C. Douglas, of Chippawa, Ont., who showed a small yellow variety. Decker won the reserve championship in the event in 1939 and the championship in 1940, 1941 and 1946.

Canadian entries captured all the major awards in the field peas class. Albert Robbins, of Laura, Sask., was second in the large yellow peas division, and John Hass, of Renfrew, was third. W. L. Ross, of Coblen, Ont., was second in the small yellow variety, with W. H. C. Ruthven, of Alliston, third.

Canadians also took all the top honours in the yellow or greenish yellow soybeans contest. William R. Beattie, of Stapes, who was named reserve champion in the soybean contest, also was awarded first prize for his yellow or greenish yellow soybeans, regions one and two. R. H. Peck, of River Canard, was second, and Thomas E. Brown, of Cassile, Alb., third.

Ottawa Restores Tariff.

Canadian Growers Will Gain \$500,000.

On-coming advance in sugar prices which was recently announced by the Minister of Finance will benefit Canadian sugar beet growers by over \$500,000 this crop year.

Most recent crop estimates point to an Ontario harvest of approximately 160,000 tons, with average sugar content running about 15.5 percent. The cent-a-pound sugar boost authorized by Ottawa ends the remaining 25 cents per hundredweight of the former subsidy.

The Government's action in ending rationing and restoring statutory import duties is welcomed by both processors and producers as a major step preliminary to the ending of control.

Ottawa Growers Comment.

Eugene King and G. Harry Wilson, M.B.E., chairmen of the Ontario Sugar beet marketing "producers' association, claimed the derationing announcement was good news for the growers.

"The increase in price will result in growers receiving a bonus this year amounting to approximately \$1 per ton," they stated. "The Board in co-operation with the Canadian Association, has been advocating the move for some time."

"The announcement of Finance Minister Abbott is heartily endorsed."

"The growers are looking forward to the operation of both the Chatham and Wallaceburg refineries."

Increased Costs.

Philip Baker, president of the Alberta and Canadian Beet growers' associations, points to the government's action as "ample proof that the beet sugar industry has finally impressed Ottawa with the fact that producing costs have risen." He stresses, however, that the growers' policy is to maintain a fair price for sugar while assuring Canadian growers parity with cane producers.

The recent price adjustment according to a press statement made by Herbert Sulkers president of the Manitoba Beet Growers Association "brings beet sugar very close to parity with cane sugar including statutory duty rates," and "... help (s) cover increased expenses this year."

The Manitoba official endorses derationing as a "step in the right direction" and adds that "it is the conviction and desire of all beet growers and of the entire sugar industry to see the last remnants of sugar control abandoned... when the emergency powers vested in the Sugar Administrator expire."

Parity Promised.

Finance Minister Abbott reports that the government will not subsidize either beet or cane sugar and "beet sugar may therefore be expected to sell at prices in line with average laid down, duty paid costs of imported cane sugar." Prior to the price revision November 3rd, this was not the case.

Early watches had only an hour hand.

Cost of Cocoa Beans May Affect Candy Bar Prices.

Prediction that the price of chocolate bars may soon rise to 10 cents a pound. Since that time they have advanced 800 percent to the record level of 48 cents.

In 1941 the beans sold at five cents a pound. Since that time they have advanced 800 percent to the record level of 48 cents.

Our Parliament Opens.

As this is being written parliament is opening with much of the old-time dignity and pageantry. One cannot view the forms and ceremonies closely resembling those of the United Kingdom without feeling very deeply the political liberty which we enjoy. More deeply still does one feel that it is this political liberty that has given us the opportunity to achieve, under the influence of freedom, a measure of economic liberty and prosperity far exceeding that of any other form of government and which offers greater prospects for our future.

The Program.

Last Thursday, the Prime Minister returned from Great Britain and the continent of Europe, appearing full of energy and in the best of health.

Mr. King emphasized again the dangers of the European situation, and stressed the need for moderation "for peace and goodwill" in all our contacts because impatience and ill-will between classes and nations retarded recovery and prosperity and could lead to disaster.

The Program.

The highlights of the government's program is already known; to ratify the extensive trade agreements made at Geneva, to consider the measures taken by the government to meet our exchange needs; and to strengthen our Canadian economy for the benefit of all sections of our people.

Mr. Coldwell, the socialist leader, has outlined a program which he said would be discussed by the members of his party. It recommended the control of prices of food, clothing and fuel, and rationing if necessary. Farm representatives here feel that control of food prices is unfair to them unless wages and manufactured goods are kept within their ability to pay.

The Progressive-Conservative leader Mr. Bracken promised that the program of his party would be decided and announced after the members met in caucus.

Trade is a Two-way Street.

Perhaps since confederation Canada's department of Trade and Commerce, like the trade departments of all other countries, concentrated on finding and holding markets for the products of Canadian farms, factories, fisheries and forests. Ever since the end of the war has made external trade again possible Canada's Minister of Trade, Hon. J. A. MacKinnon has recognized trade as a two-way project and has paid equal attention to imports and exports.

For this reason his 1947 good-will trip to South Africa and the Mediterranean countries has had exceptional success. Almost every country visited buys a great deal more from Canada than it is able to sell to us. This creates an exchange situation for our customers which Canadians understand and appreciate. This attitude on the part of Mr. MacKinnon's trade mission created good-will for Canada that will be of great value when we reach the position, now predicted, where we need wider markets for the things we produce.

Reciprocity.

To Canadians Mr. MacKinnon said "never before have I been so impressed by the need of Canada to buy from the countries which buy so much from us, especially those of the British Commonwealth countries. We must realize that by so doing we indirectly assist and strengthen the United Kingdom in her present financial difficulties and, of course, help ourselves." Last year we sold to the Union of South Africa 19 million dollars worth of our products and purchased less than 8 millions from them.

Leads Essex Bowling League.

Guy Pouget's Harrow entry and Tilbury lead the County Travelling 10-pin League, with 28 points, six more than Essex and Wheatley No. 1, the closest competitors. There are 12 teams in the league this year, four more than last spring.

Bill Truesdell, of Wheatley, is president and Guy N. Pouget, of Harrow, is secretary-treasurer.

Norman Bondy, of Harrow, has the league's high single for the season with 216, while George Ash, of Essex, tops the total department with 425. Harrow Recreation leads in team scores with a 1921 single and a 2812 total.

Guy Pouget, Harrow, has a 189 average. Father McNabb, of Tilbury, has 177. Norman Bertrand, Amherstburg, 176, and Norman Bondy, Harrow, 175.

The standings to date are: Harrow, 28; Tilbury, 28; Essex, 22; Wheatley No. 1, 22; Edwards, Leamington, 21; Amherstburg Recreation, 18; Deerhead Club, 18; Belle River, 15; Loucks, Essex, 14; Wheatley No. 2, 12; Leamington, 12; and Tremont, 7.

Essex Town Council.

Monday, December 15th.
Council met in statutory session, in the Council Chamber, at 8.30 p.m., with Mayor J. C. Linton, Reeve Irwin and Councillors Shaw, Francotte and Maedel present.

Mr. Shopley addressed Council, stating he had laid the 50 18-inch tile in the McEntee drain as ordered by the Mayor. He also stated that he had repaired the catch basin in the alley behind B. Simon's.

Mr. Francotte asked Mr. Shopley to build a 3 ft. square catch basin on Victoria street, at Victor.

Bylaw No. 1119 re grant of 1/2 mill to Essex Boys Band, as voted on by the electors on voting day, December 1st, was given its third reading and finally passed.

Minutes were read, and on motion of Messrs. Francotte and Irwin, adopted. F. Brown, building inspector, gave a full report of building program in town for the year. He reviewed his report of first eight months, as presented in September, a total valuation of \$180,200, and reported the months of September, October and November, which totals \$53,300, a grand total of \$233,500 for the year.

The Clerk read a letter from Mayor Irwin, received by the Mayor, in which he stated he would hold the town responsible for any damage caused by the disrepair of bridge into his property over the McEntee drain.

Mr. Francotte stated he would look after the Roundings bridge, at once.

A letter was read from H. W. Hall, principal of Essex High School, requesting Council to keep sidewalk clear to High School, so that children going to and returning from school would not have to use the highway and endanger their lives.

This matter was left with Mr. Francotte to see Mr. Kennedy street man, requesting him to keep walk clear of snow.

A letter was read from A. T. White, of the Department of Municipal Affairs, stating the Department had prepared a standard pension plan for permanent Municipal employees. The plan had the approval of the Minister, Hon. G. H. Durnbar.

The letter stated copies were available and would be mailed on application.

S. Francotte reported receiving many complaints about Essex Farmers dumping corn cobs at the town dump. Kids light the corn cobs and the smoke nuisance is bad.

Mr. Linton stated he had spoken to Glen Gould, of the Farmers staff, about the dumping of corn cobs on dump, and he was sure Mr. Gould had told him that his firm had made arrangements to have them drawn out of town, however, he would see him again.

Mr. Francotte also stated that dump was in real bad shape from Essex Hydro unloading all their limbs trimmed from town trees, by the H. E. P. C. trimmers.

Quite a lengthy discussion followed on the dump, during which it was decided to contact Avaron Hill and see if he would sell town additional land where he had already removed the clay and refuse then could be dumped into the trenches and covered.

Mr. Francotte reported the Provincial Police would like use of boulevard alongside the Essex Hydro Building as parking space, and in order to do so, the tree opposite back door would have to be cut down. He had arranged with Mr. Johnston, of the Commission, to have the tree cut down.

Mayor Linton reported receiving many complaints about condition of town dirt roads.

Mr. Francotte advised he had been filling holes with gravel all week, but realized that this was only a temporary remedy. He had seen Mr. Knister, County Road superintendent, and had been promised use of county grader when roads were fit to work on.

Mr. Francotte stated he would like to wait and see how Laird avenue stood up through the winter and if road was in good shape next spring he was in favour of doing more resurfacing and less graveling.

A discussion followed on advisability of town purchasing a 3-ton truck, with underslung grader so roads could be scraped at the proper time.

Mayor Linton agreed with Mr. Francotte in regard to resurfacing of streets, stating that if Laird avenue and Maidstone Townline stood up through the winter, Council should do at least a mile of the dirt roads this coming summer.

W. E. Beaman, town Treasurer and tax collector, presented a couple of small accounts, totalling \$20.20, going back to 1923, asking Council's authority to write them off his ledger, stating he had missed them when Council approved of previous list he had brought in.

On motion of Messrs. Francotte and Shaw, Mr. Beaman was given authority to make necessary entries for write-offs.

A resolution was passed requesting the Mayor to declare Friday, December 26th (Boxing Day), a civic holiday.

The following accounts were, on motion of Messrs. Shaw and Maedel passed as follows: S. Brown, 1/2 year's salary as chief, \$45; C. Johnston, 1/2 year's salary as fireman, \$37.50; G. Jones, 1/2 year's salary as fireman, \$37.50; W. Bridgen, 1/2 year's salary as fireman, \$37.50; G. Miles, 1/2 year's salary as fireman, \$37.50.

Veronica Schwertner Dies.

Veronica Schwertner, aged 43, Highways 56, 3, Maidstone, member of St. Mary's Church, died Saturday at her home after one month's illness. Deceased had been an invalid for 25 years, yet always had a smile and was very cheerful. She was a resident of Maidstone for 27 years, but was born in Autauga, Ohio.

She is survived by her parents, Mr. and Mrs. Robert Schwertner, at home, and three sisters, Mrs. Len Dorsey, of Windsor, Mrs. Louis Teutman, Dearborn, Mich., and Mrs. Gordon Dixon, of Illinois.

Funeral service will be held at 9 a.m. from the residence, to St. Mary's Church, at 9.30 a.m. Burial will be in the church cemetery. Rev. Fr. J. H. Chisholm officiating.

The pallbearers were Raymond B. Leat, Robert Hergett, Stanley Deehan, Charles (Bud) McChesney, Mike Palen and Louis Collins.

Junior Farmers' Organization Meet.

The Junior Farmers' Organization of Essex County, held its annual meeting of the year, on Monday, December 15th, in the parish hall, Essex. During the meeting moving pictures of rural telephone work were shown, by Mr. Patterson, of the Bell Telephone Company.

Election of officers was held, and the Executive of 1948 will be as follows: President, John Tully; first president, Howard Holden; past president, Lloyd Kemp; secretary, Charles Dalton; treasurer, George Gagnier; editor, Ora Stevenson; reporter, Margaret Balfour; sports committee, John Trepanier and Yvonne Tully; recreation committee, Helen Balfour and Donald McLean; pianist, Roberta Haghighi; lunch convener, Orville Stotts; song leaders, Howard Holden and Jack Thomas.

Plans for the Junior Farmers' banquet, to be held early in the year, are as yet, incomplete.

It is hoped that many more young farmers will join the organization. The date of the first meeting will be published in the Free Press.

Leslie Norton Passes.

Leslie Norton, aged 54, formerly an engineer with the Canadian Industries Limited, died Friday, of tuberculosis, in Essex County Sanatorium, where he had acted as librarian and bookkeeper, after his health improved and he was no longer a bed patient. He was killed, and passed away Friday morning from a heart attack.

He lived in Windsor for 24 years, moving there from England, where he was born.

He is survived by his mother, Mrs. Emily Norton; a sister, Mrs. Kathleen Davies, of Maidstone; a brother, Alwyn, of Maidstone. His father, Samuel J. Norton, C.E., died some years ago.

Funeral services were held at 8.30 a.m. Monday, from St. Mary's Church, Windsor, to St. Mary's Church, Maidstone, at 9.30 a.m. Burial was in the family plot in the church cemetery.

Thomas O'Brien Passes.

Thomas O'Brien, aged 75 years, of South Woodside, passed away in Metropolitan Hospital, Windsor, on Friday. Deceased was born on the Middle Road, in the Township of Maidstone, on the farm known as the Nick Boldin farm. He never married.

Surviving are four brothers, Frank, Joseph, Edward and James, all at home; also a sister, Mrs. Mary Hunt, of Port Huron, Mich.

Funeral services were held from the E. J. Hicks Funeral Home, Essex, at 8.10 Monday morning to St. John's Church, Woodside, at 9. Rev. Fr. E. G. Doe officiated and burial was in the church cemetery.

Essex Library News.

By E. E. J.

The Essex County Library, whose motto is "Travel and Knowledge," is a real live institution that too few people know about. It is financed by the Essex County Council and the Department of Education, at Toronto. The Educational Department duplicate the amount of money given by the County Council.

Miss Bettie Hardy is in charge, with headquarters at the Willstead Library in Windsor. She and her assistants buy the books and distribute them to about ten libraries in the county, they also serve schools where there are no libraries. She would be happy to go any place where people would like books — so if you are interested, write her at the Willstead Library, Windsor.

If there is any book on any subject you particularly want to read, tell your Librarian, she may be able to help you get it through the County Library.

Every three months Miss Hardy and her assistants arrive at the Essex Library with hundreds and hundreds of books, fiction, non fiction and juvenile. Then our librarians select about two hundred books she thinks the Essex public would like to read. These books are all the latest editions.

On Monday, December 8th, Miss Hardy arrived with her latest consignment of books and took back the books she had left in September.

Essex Cow in Georgia.

James Toffomire received a letter this week from the Georgia Constal Pain Experimental Station, asking for past performance sire and dam records of a registered Jersey cow he had bred now owned by them.

The cow is Essex Favorite, born (No. 1618162) born August 19th, 1942, sire Iona Cuts, Essex, dam Voluntary Oxford Nancy Lass. She has a calf by Iona Deaming Standard.

Vincent C. Mooney Passes.

Vincent C. Mooney, aged 85, of 221 Gower street, Windsor, former tool and die maker with the Ford Motor Company of Canada Ltd., died Monday in East Windsor Hospital, at 8.15 years of age. He was a member of the Holy Name Society of Immaculate Conception Church, lived in Windsor 33 years, but was born in Sandwich, Ontario.

He is survived by a daughter, Mrs. Ronald Barnes, of Detroit, Mich., and the mother with the Ford Motor Company of Canada Ltd., and a son, Mr. Henry C. Mooney, Essex, and Mrs. Henry C. Mooney, Windsor, Ont., two sisters, Mrs. Mary C. Mooney, of Windsor, and five grand-children.

Funeral services were held at 8.30 a.m. this (Thursday) from the Albany Roman Catholic Church at 9 a.m. Burial will be in St. Alphonsus Cemetery.

Essex Memorial Park.

As I stated at the Memorial Park Bazaar, the financial results would be published in the Free Press, so here goes.

Total taken in \$203.55
Total rent and advertising 20.94

Total in account \$182.61

You can see for yourself that it's a good deal towards the advancement of your Memorial Park. Thanks again for your support, and if everyone gives us a helping hand you can rest assured the Park will not fail.

And at this time the Essex Memorial Park Association executive, Hugh C. Newman, president; Rev. Whelan, vice-president; Murray Birt, secretary; Jim Thibault, treasurer, wish all a Very Merry Christmas.

Gagnon-Rail Nuptials.

The wedding of Miss Dorothy May, Rail daughter of Mr. and Mrs. Fred Rail, of Maidstone Township, and Arthur Gagnon, son of Mr. and Mrs. Philip Gagnon, of Stony Point, was solemnized recently in St. Michael's Church, Leamington. Following a honeymoon to Niagara Falls, they will reside in Leamington.

Milk Price Boost.

As a result of a decision of a Board of arbitration, sitting in Toronto, this past week, a price of \$1.10 per cwt. was set for producers belonging to the Essex County Milk Producers' Assn., and serving this area.

This new price of \$1.10 is an increase of 55¢ per cwt. as against the \$1.96 asked by the producers, an increase of \$1.11 over the \$3.55, now being paid the farmer.

This increase will mean a 2¢ per quart raise in the price of milk, as there are 38 quarts to a cwt., the difference of 2¢ per cwt. being allowed the distributor.

However, the official retail price of milk for this district will not be set by the Milk Board until next week.

The Board of Arbitrators were M. C. Burton, president of the Essex County Milk Producers' Association, representing the producers; C. F. Rose, Brantford, named by the distributors and Judge A. B. Curry, of Manitoulin Island chosen by Ontario Milk Control Board.

The decision has not as yet been accepted by either the producers or the distributors.

Canadian Legion Christmas Party for Children.

The Canadian Legion, Essex Branch No. 201, again this year are sponsoring a Christmas party for the children of Essex and surrounding district.

Last Christmas the party was held in the Legion Club Rooms and 500 anxious children were on hand to greet Santa Claus who arrived on the town's fire truck loaded with gifts for every little boy and girl in Essex and vicinity.

The party was a huge success and one still wonders who was the happier the children or the Legionnaires. This year due to the lack of accommodation at the Legion Club Rooms, for so many children, the party is being held in the Rio Theatre, on Tuesday, December 23rd, at 2 o'clock in the afternoon.

The children will be entertained for approximately an hour with cartoons of Bugs Bunny, Donald Duck, Mickey Mouse and their other favourite woodland friends.

After the show each little boy and girl will go up to see Santa Claus beside his huge Christmas tree and receive their bag of candy, with all the trimmings.

To avoid delay we urge all parents to have their children at the theatre by 2 o'clock at the latest.

Watch Scratches.

These minor scratches and cracks which are common, particularly when the watch is being worn, are not a sign of weakness. If they are, the watch would be a very poor one. The only watch which will scratch and crack is a watch which is made of a material which is not strong enough to stand the wear and tear of everyday use.

"Spiritual Peace"
The fruit of the spirit is love, joy, peace, long-suffering, gentleness, goodness, faith, meekness, temperance; against such there is no law. Galatians 5:22-23.

Peace is the power of the Christian temper. It is the power of the Christian temper which our nation needs, that brings us to a settlement of our national problems, and a consistency within ourselves.

Nothing can bring you peace but you; nothing can bring you peace but the triumph of principles. Emerson.

by ottawa observer

Observers here are the most surprising feature of our parliament, after a week of the session, is the aggressive attitude taken by the Progressive Conservative leader John Bracken.

With more spirit than ever before Mr. Bracken complained that the cost of food was up over 70%.

It was noted that while he criticized the government for establishing the Canadian dollar on a par with the American he did not ask that it be "devalued" now.

The campaign for depreciation of the Canadian dollar is being carried on persistently, outside the House of Commons by Premier Duggan of Ontario.

Arguments on the Dollar.

Observers here are at a loss to understand Mr. Duggan's claim that a lower value for Canada's currency would be "its true value."

All admit that the average buying power of the Canadian dollar in terms of our basic needs is much greater than that of the American dollar and much greater than most currencies in the world.

Mr. Howe and Mr. Abbott made the most effective arguments in favour of maintaining the value of our currency.

The degree to which our prosperity depends on external trade is shown by the fact that our trade with other countries, on a per capita basis is three times that of the United States and twice that of Great Britain.

Our country of twelve million people enjoys an external trade practically equal to that of the United States, a power with 150 million people.

If our currency was depreciated it would make it more difficult for countries such as Britain, France, Czechoslovakia to sell their products in Canada and would thus impede the recovery of the war-ravaged countries.

The Trade Agreements.

This observer listened carefully to the addresses of all party leaders on the trade agreements, Canada made at Geneva with 17 countries.

It was obvious that the Prime Minister was very busy in introducing these agreements to parliament and in assuring that they be ratified.

He outlined the record of the Liberal party in lowering tariffs and promoting trade and presented the agreements as a far-seeing step in a long time Liberal policy.

He pointed to the relation between a free flow of trade and low costs in the interests of the majority.

The Opposition Leaders.

All opposition party leaders were crowded and careful in their statements. However, one could not miss the opposition from Mr. Bracken, Mr. Caldwell and Mr. Blackmore, who spoke for the Social Credit leader in this debate.

Mr. Caldwell and Mr. Blackmore sought to minimize the importance of the agreements while hesitating to oppose them openly. Observers here note that socialist (C.C.F.) opposition to free trade is in line with

that party's "Regina Manifesto" which permits only such trade as would be permitted by "export boards" and "import boards."

There is much interest here in Mr. Bracken's startling proposal of a "customs union" with Great Britain and other commonwealth countries.

Many believe that the proposal will be rejected by the party. Mr. Howe claimed that such a step would, at this time, be very detrimental to the prosperity of Canadians and expressed great surprise that the opposition leaders failed to "appreciate the importance" of "the most far-reaching lowering of tariff barriers ever accomplished."

Our Marketing Contracts.

As this is being written the talks on the extension of contracts for the sale of Canadian food products to Britain are still going on.

Few predictions on the result are heard. While many contend that the U.S. markets should be opened up for our farm products others claim this would have a disastrous long term effect for our farmers who must continue to look to the old world for steady and continuous markets. It is difficult to find a crystal ball to predict the future.

In every age and clime "On earth peace good will toward men" must be the watchword of Christianity.—Mary Baker Eddy.

If your husband did the ironing just once...he'd sign up for a THOR Gladiron tomorrow!

• You'd never catch a man bending over a hot, steaming ironing board until his back ached—not while there was a Gladiron in the world to make ironing easy! And why should he—and why should you—once you can get a Gladiron that stands while you sit—takes all the fret and fatigue out of ironing.

Men's shirts are easier than you'd believe when ironed with the patented Gladiron roll. Slacks and children's clothes whisk through like nothing at all. And flatwork goes as fast as you can guide it through.

The Swing of the Pendulum.

By Joseph Lester Rutledge.
The recent municipal elections in
England, Wales and Scotland were
admittedly a reflection of national feel-
ing. The General Secretary of the
Labour Party, Morgan Phillips, put that
he publicly stated that it was the
greatest fight for socialism since the
general election, and that the Tories
were hoping to prove that "there is a
definite discontent and dissatisfaction
with the labor policy." Whether that
statement can now be used as an evi-
dence that the results suggest a move
away from labor and back to conservatism
is still somewhat doubtful. What isn't
doubtful is that the average voter over
the night shed still the same old
feeling about the labor policy. Still the
feeling about the labor policy is the
same old feeling about the labor policy.
The feeling about the labor policy is the
same old feeling about the labor policy.
The feeling about the labor policy is the
same old feeling about the labor policy.

Quite obviously the average Brit-
ish voter is not happy with the labor
policy. He doesn't like the average
voter. He is not too certain as to
whether the policies of the present
government show any promise of better
things. What is certain is that the
average voter is not happy with the
labor policy. The feeling about the
labor policy is the same old feeling
about the labor policy. The feeling
about the labor policy is the same old
feeling about the labor policy. The
feeling about the labor policy is the
same old feeling about the labor policy.

Time to Prepare for Ice Storage.

When facilities already exist for
making or storing ice on the farm,
now is the time before the severe
weather sets in to put them in order.
On farms and country houses where
there are no such facilities and it is
desired to store ice this winter, there
are three common methods for doing
the job: (1) the inexpensive rough
board enclosure; (2) the more elabo-
rate insulated enclosure; and (3) the
gradually tilting the making
away from labor and back to conserving
as a means of storing ice for house-
hold use. The second method has no ad-
vantage over the rough shed. Still the
rough shed provides facilities for
loading milk and other food products
direct from a horse-drawn wagon to
the well above the covered ice. The
insulated enclosure should be about 12 feet deep with
a foot of ice applied from water, but so far
as the ice itself has no advantage
over the rough shed. Still the

FRIDAY, DECEMBER 19, 1947.

Time Out.

Going further with the old adage "all work and no play..." Canadian medical experts recommend frequent let-up in activity, and change of occupation, if you want to do the best work.

For school-agers they see the need of regular breaks in routine. "These give the classrooms a chance to clear and both teacher and pupil get the benefit of short spells which let air in to their brains and bodies."

Orphaned by Ontario's worst traffic accident of the year, Mary and Kenneth Howey, aged 7 and 11 (third and fourth from left, above) are all that is left of a once happy family. With their father and three brothers killed at a level crossing south of Tillsonburg and their mother killed by the resulting crash, the tragic plight of these children has deeply stirred the Ontario public. —Photo from London Press.

Rags Are Risky.
 Any old piece of cloth for wiping the eyes, nose or any other part of the body just won't do, we are warned by health experts. They remind workers in industry, particularly, against the danger of spreading infection from common or roller-towels or by using rags or waste as cleaners.

Where disposable towels are not standard equipment in a workshop or office, workers are advised to provide themselves with clean individual towels or a plentiful supply of sanitary tissues.

Poison Pays.
 It doesn't pay to be grouchy and irritable, say the medical authorities. One expert at Ottawa puts it this way: "The well, and well-poised person has all emotions under control, is calm and not easily disturbed. Chronic crossness is a sure sign of poor health, and the person who persistently 'flies off the handle' should see the family doctor."

By poise, the doctors do not mean mere placid serenity. They know that "fire" too, is necessary, at times. They simply suggest that calmness should be the prevailing mood, for poise pays.

Small Beginnings.
 Small mistakes can develop into major miseries. That, the medical profession reminds Canadians, is particularly true in health matters. Seemingly trivial infections may easily develop into serious diseases. "Colds," for instance, pave the way for a host of afflictions, such as sinusitis, bronchitis and pneumonia.

The doctors warn us that it is wise to guard against the apparent minor ailments, and to take prompt action when they occur, to avert dangerous complications.

Healthful Reading.
 It is easy, today, to learn how mankind is rapidly defeating disease and how science and social thinking are combining to make life more livable on this planet.

If one enjoys reading, there is an absorbing and valuable lesson to be obtained simply by keeping abreast of the health and welfare fields. It is every-one's duty to know how to conform to advanced health measures, particularly in the field of prevention.

Free literature to help Canadians keep in step with the advances of the humanitarian sciences is distributed on request, and may be obtained from any provincial or local health officer.

Clean Living.
 Clean living means more to health authorities than simply moral conduct and avoidance of excess. The medical people think particularly of bodily cleanliness, internal as well as external.

Cleanliness of body embraces thorough cleansing of the skin, through which the body breathes. The frequent refreshment of the skin is as essential for physical as for social advantage. And cleanliness involves scrupulous care of the clothing, so that all possible sources of contagion may be avoided.

Compressed Air.
 The practice of using streams of compressed air directly on the body, either for "cooling" or for dusting clothing while it is being worn, is frowned upon by public health officers. They warn industrial workers that eye-sight and hearing are known to have been destroyed by such stunts. If the air stream enters the body in any way, it can be dangerous, and the health people suggest that compressed air is not a safe substitute for soap and water — or a cooling fan.

Something Steady in Your Life.

By Joseph Lister Rutledge.

A life-type operator on one of King Land's great dairies, has given the best explanation in not only of Britain's on-the-edge reaction to the post-war and economic situation, but also of her continuing indifference to the road stability in political thinking.

"I am a good trade unionist and I am a party man myself," said the operator. "But the royal family means something to me. I suppose it is having something to do with my life. These two things are not mutually exclusive. They carry on the evidence, they carry on the thinking of all classes. It pains how Britain has achieved far-reaching social change without the complete disruption that has followed the dramatic changes in Italy and France. Deep and bitter antagonisms have not and are not because there has been nothing steady in their lives to remain a strength and a rallying point."

It is not so much the institution of royalty itself that has given this stability. It is the symbol, the embodiment of a state of mind that can accept and rejoice in the happiness and well-being of those who are more fortunate than themselves. It is the recognition that privileges are not necessarily an infringement of the rights and privileges of others but may represent the acceptance of larger responsibilities that are for the benefit of all. Standing in sharp relief against such a way of thought is the envy and covetousness that is the mainspring of the political ideologies that are troubling our world. The communistic attitude that it is better for many to suffer than for one to have a special privilege is the very antithesis of the thinking of that staunch trade unionist and Labor Party man who saw the fullness of having something "steady in your life" even if that "something" represented conditions and circumstances that he could not hope to share.

A MERRY CHRISTMAS!
At this season, when we observe the birth of the King of Kings, who was born in the little Town of Bethlehem, the Free Press extends to one and all very best wishes for a Merry Christmas and we add the hope that while enjoying the season's festivities we may not fail to render homage to Him, who paid the sacrifice that we might reap the benefit of eternal life. "Who you are born this day, in the City of David, a Saviour, which is Christ, the Lord."

Jeremiah (Jerry) Collins Dies.

Friends and relatives were shocked on Sunday evening, at 10 p.m., when they learned that Jerry Collins had passed away, suddenly, at his home in Maidstone, Ont. He was the youngest child of the late Jeremiah Collins and Ann Kavanagh, and was born on the same farm where he passed away.

Deceased had celebrated his birthday last Monday, December 15th, and was 65 years old. His wife, the former Catherine (Kitty) Kirby, who was also born on December 15th, died on May 8th, 1946, and his brother, Mr. Charles Collins, died June 2nd of this year. His oldest sister, Mary (Mrs. Robert Greenwood) died in Detroit on November 29th, 1945. His sister, Agnes (Sister Mary Pauline), died in Kalamazoo, Mich., about three years ago. His brother, Henry, is seriously ill in East Windsor Hospital. So, from a large family, deceased is survived by only two sisters, Kate (Mrs. Pat Donovan) of Seattle, Wash., and Lotie (Mrs. Stephen Cory) of Essex. Besides his brother Henry, he has a brother Frank, of Spokane, Wash. A sister, Marion (Mrs. David Barron), is also deceased.

Deceased farmed all his life, as well as operating a milk route, retiring from both about a year ago. He was an ardent 5-pin bowler, belonging to the Essex 5-pin League. He was an active member of St. Mary's parish and belonged to the Holy Name Society.

He leaves to mourn his loss six sons, Donald, Russell, Harry, Wilfred, Michael and Daniel T., at home. A son Gregory was drowned in Lake Erie a few years ago. There are also 12 grandchildren.

The funeral will be held from the Janss Bros. Funeral Home, in Windsor, to St. Mary's Church, on Wednesday morning, with Rev. Fr. J. H. Chisholm officiating. Burial will be beside his wife in St. Mary's cemetery.

Ames-White Nuptials.

At a very quiet wedding ceremony, performed in the Colman United Church parsonage, on Saturday, December 20th, Rev. C. E. Taylor united in marriage Edward Earl Ames, son of Mr. and Mrs. Wm. Ames, of Gosfield, North, and Miss Beatrice Kathleen White, daughter of Mr. and Mrs. Clarence White, of Paquette.

The bride chose for her wedding, a brown suit, with matching accessories and wore a corsage of white and yellow mums, while her bridesmaid, Miss Anna Ames, sister of the groom, was dressed in a brown and white checked suit and also wore a corsage of white and yellow mums. Clair Fa gleish was groomsmen.

Public Utilities Commission.

Wednesday, December 17th.
The Commission met, in regular session, in the Town Treasurers office, at 2 p.m., with Chairman J. C. Linton and Messrs. Hines and Johnston present.

Mr. Hines reported on his trip to Toronto, tabling several circulars showing the different types and size of steel tanks manufactured. He stated that Mr. Crase, of the Horton Steel Works, Galt, has a steel storage tank of 750,000 gallons, at a cost of approximately \$22,000. He also has a steel storage tank of 75,000 gallons, which would be 75 ft. from the ground, at a cost of approximately \$17,000. At these figures the Commission could build the necessary concrete buttment for the large storage tank and lay the mains to the Water Works, and keep within the \$60,000 expenditure authorized by the ratepayers.

Mr. Hines stated that he had asked Mr. Crase the lifetime of a steel tank and he had advised that if they are kept painted, they would last indefinitely. Mr. Crase would visit Essex about the middle of January.

Mr. Hines also stated that on asking Mr. Crase to deliver a date that he (Mr. Crase) had said that it would be at least 12 months, as all steel companies are on a quota basis, however, if Commission could get a priority, and he thought they could, his company after they received the steel.

The secretary-treasurer was instructed to write Dr. Barry, M. O. H. of Ontario, and appraise him of possible change in plans re town reservoir, requesting that he advise Commission how they could go about getting the priority for steel, and asking his aid in the matter.

On motion, the following accounts were passed:
Water Works—N. Hill, salary, expenses paid, \$153.40; Wm. Cornley, salary, \$154.33; Receiver: General of Canada, tax, \$4; Essex Hydro, ac-

Stanley L. Pierce Passes.

Stanley Lawrence Pierce, aged 47, of 1431 Patent Avenue, Windsor, metal mechanic with Ford Motor Company of Canada Limited, died Friday of last week, at his residence, after a year of ill-health.

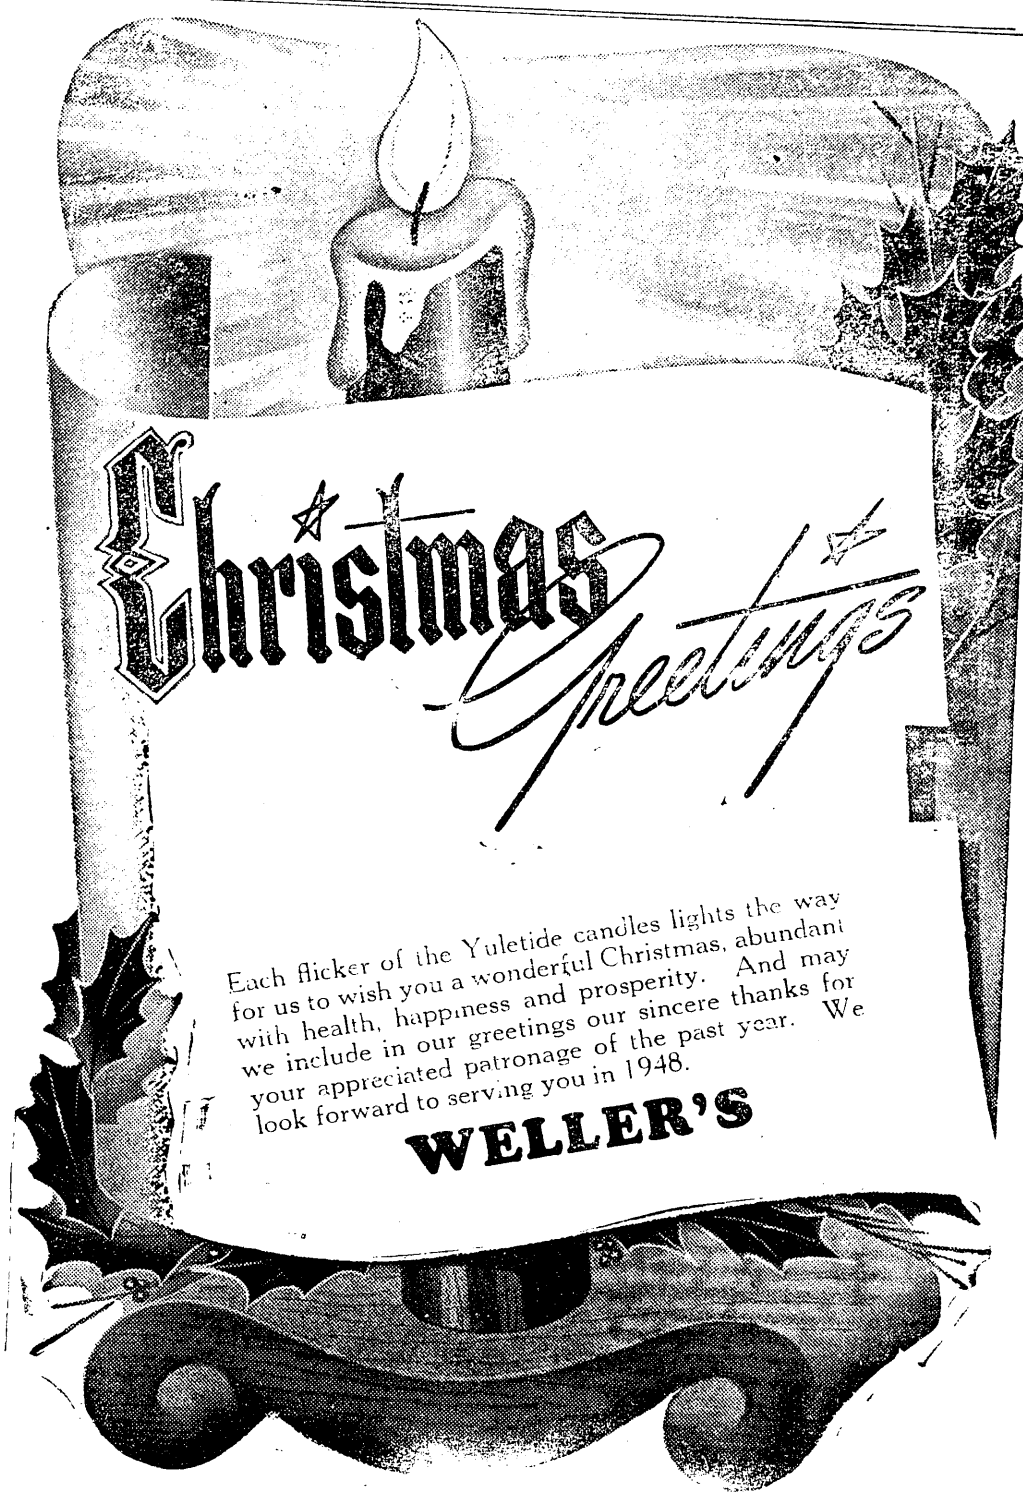

Mr. Pierce was a member of Border City Lodge, 554, A. F. & A. M., and lived in Windsor 25 years, moving there from Essex. He was born on Pelee Island, and was a member of the United Church.

He is survived by his widow, the former Beatrice Drouillard, at home; two daughters, Mrs. Alex Lawrus and Mrs. Lloyd Penrose, of Windsor; his parents, Mr. and Mrs. Robert H. Pierce, of North Ridge, one sister, Mrs. Wilbert Smith, of Dryden, and one brother, Maurice, of Vancouver, B.C.

Funeral services were held at 2 p.m. Monday in the Morris Funeral Home, with Rev. C. F. Macintosh officiating. Burial was in Evergreen Memorial Park Cemetery, Leamington.

Dangerous Dares.

Although they do not advise unduly curbing the spirit of adventure in adolescents, medical authorities say that there are some "experiments" which young people would be well advised to leave until later in life. For instance, trying out the effects of tobacco and alcohol on a "dare" is dangerous business. Mature judgment and self-control are required to cope with such situations and, anyway, it is pointed out, tobacco and liquor impair the ability to study or result in lasting popularity in the fraternity.

Be honest, but hate no one; overturn a man's wrong-doing but do not overturn him unless it must be done in the overturning of the wrong.—Abraham Lincoln.

Diet and Study.

Statistics prove that the better a youngster is fed, the more readily will he learn. Young people concentrating on studies, therefore, should make it a point that they are not handicapping the school unnecessarily by neglecting proper food. There is evidence that proper food not only helps the body to avoid weakness and pain, but contributes in part to the working of the brain.

Gosfield North Council.

Council met in statutory meeting, with all members present. Minutes of last meeting were read and approved.

The following communications were read:

Letter from Dr. S. P. Millen, stating he had taken issue to Grace Hospital for treatment and he had been in the hospital about a week.

From Windsor Flying Club, advising they were taking up the matter of insurance direct with the insurance company, and thought the matter would be amicably settled.

From J. E. Caughey, approving of the purchase of the 4 ft. galvanized culvert for use on the North Rear road, Morden, Helwig & Ferrie, insurance adjusters, re claim of Canadian Oil Company.

Clare Chatterton, asking to have Fox street extended westerly to give outlet to the lots at the rear of Talbot road lots. No action taken.

On the medical account of Isaac Klason, moved by Mr. Stevenson, seconded by Mr. Dewhurst, that this be left with Mr. Tully to advise as to the merit, as he thought best.—Car.

W. J. Fletcher, O.L.S., presented his report on the repair of the Belle River Road drain from the centre of lot 279 northeasterly and northerly to the Cat. Outfall drain on the North Rear road. The date for reading this report was fixed for Saturday, January 17th, 1948, at 3 o'clock p.m. In the meantime the Clerk was asked to interview the rural Hydro manager as to the cost of moving the Hydro poles.

Bylaw No. 945, imposing a rate for ten years on the 6 1/2 x 12 ft. 24 in. S. for a life loan of \$1,500, upon application of Mike and Joseph Kubinec, was read three times and passed.

Bylaw No. 946, respecting the provision of the cost of sidewalks in the Police Village of Cottam, to be paid by the lot owners and the village was read the necessary times and passed.

Application for the job of janitor for the Township Hall, was John Baster, for \$100 per year, and Wm. W. Ash, at \$180. On motion, the application of John Baster was accepted, duties to commence January 1st.

Accounts were approved and passed as follows: Voucher 124, for road maintenance, \$62.50; George Coote, refund, \$8.37; Mildred Mossop, refund, \$5.58; W. J. Ash \$29; A. Stevenson \$25; A. Dewhurst \$20; J. W. Smith \$30; E. J. Goodwin \$29; Wayne Tully \$27; A. T. Ross \$20; J. W. Smith \$75; stamps, \$5.

FRIDAY, DECEMBER 26, 1947.

SOUTH WOODSLEE

Miss Joan Pemberton, of Toronto, is spending the Christmas holidays with her father, J. M. Pemberton.

The business people of the village will observe Friday, December 26th (Boxing Day) as a civic holiday.

Prize winners at the I.O.O.F. card party, on Friday evening, were: Ladies' 1st, Mrs. S. Rhoads; 2nd, Mrs. H. Newman; 3rd, Mrs. F. Swazey; consolation, May Allison; Gents' 1st, W. Goslin; 2nd, Wm. Routh; 3rd, Jone hands; consolation, H. Newman. The door prize was won by Al Hargraves.

The sermon for Sunday, at Ruscomb and Woodslee, is entitled "And God's Glory Shall Appear."

The Sunday school teachers and officers will meet for the regular monthly study on Sunday December 28th, at 8 p.m., at the home of Mr. and Mrs. Alvin Hedge.

Anniversary Sunday will be January 11th. The guest preachers are to be Rev. S. Davidson, of Leamington, and Rev. E. Taylor, of Cottam.

Treasurers of the various organizations are reminded that the books are to be closed on December 31st, and the accounts audited as soon as possible after that date.

Winners of the drawing for prizes of the Home and School Club were: Miss Mary Monseaux (the doll and wardrobe) and Raymond Bissonnette, the manager and crib.

St. John's Young Ladies' Sodality had an excellent turnout of members to receive Holy Communion, in a body, at the 8:30 mass last Sunday.

Mr. and Mrs. Leo Brosseau, of Jeanette's Creek, were visitors with Mr. and Mrs. C. A. Diemer, on Sunday.

Miss Bortha Rivest was a weekend visitor with her parents, Mr. and Mrs. Armand Rivest, of St. Joachim.

Walter Plant, of Regina, Sask., has arrived home for over Christmas.

The Christmas concert presented last Friday evening, by the pupils of St. John's Separate School, was a huge success. Santa Claus paid his annual visit to distribute the gifts to the children, followed by Mrs. Santa Claus a few moments later, who scolded him for forgetting one of his parcels. The good sisters and pupils are highly commended for such a splendid entertainment.

Midnight Mass will be celebrated on Christmas Eve at St. John's R. C. Church. Other masses will be at 8:30, Low Mass at 9 and High Mass on Christmas Day. Everyone is invited to come and rejoice!

New Books in Woodslee Library.

Hetty Dorval, by Wilson, a Canadian novel; Murder on the Purple Water, by Crane; Gentleman's Agreement, by Hobson, a newspaper story; Woman from Nowhere, by Brophy, an English mystery; Practising of Christopher, by Eckert, a story for parents; Prince of Foxes, by Shellabarger, story of the mysterious Lord Andrea Orsini; Creatures of Circumstance, by Somerset Maugham, tales of far and near places; Mr. On Loong, by Standish, adventures of a Chinese Laundryman; Red Canvases, by Wallenstein, a romantic novel; Our Own Kind, by McSorrey, a delightful story; Case of the Borrowed Bullet, by Eric Stanley Gardner.

Mr. and Mrs. Frank Vickerd, of Detroit, visited with the John Diemer family on Sunday.

The pupils of St. John's school have made excellent progress in the first two months of operation of their school Credit Union.

Did you hear National Farm Forum on Monday night? The dramatized "breadbasket of the world" certainly gave all listeners some food for thought. Next Monday December 22nd, will be review night and the last broadcast for 1947. On January 5th the topic under discussion will be "Marketing by Co-Op."

Let's get a few Forum groups started! The executive of St. John's Holy Name Society met in the school hall on Monday evening. Many important items of business were brought before the meeting. The date set for the annual meeting was Sunday, December 28th at 1:30 p.m.

A. H. Teller, Anson Michls and John Diemer spent Sunday in Chatham.

Mr. Evelyn Chevalier, nurse-in-charge at Hotel Dieu Hospital, Windsor, spent Monday at the home of the parents, Mr. and Mrs. Joseph G. Chevalier.

SOUTH WOODSLEE

(Too late for last issue)

The annual meeting of the Woodslee Credit Union will be held January 23rd at 8:30 p.m. in the school hall.

John Hallinan, of Toronto, manager of the Ontario Credit Union League, will be the guest speaker. Official notices will be sent out to all members at least one week prior to the date of meeting.

St. John's Holy Name Society had a 100% turnout of members to receive Holy Communion, in a body, last Sunday morning. The men of the parish are to be congratulated for this wonderful showing on the last day of the Eucharistic Mission.

C. A. Diemer attended a banquet held in the Community Hall, Comber, on Thursday last. The banquet was in honour of the "Co-Op" softball team, for taking first place in the Comber Softball League. The directors and manager of the Co-operative, the president and directors of the league, the "Co-Op" players and their manager were all present.

Mr. and Mrs. Frank Vickerd, of Detroit, visited with the John Diemer family on Sunday.

St. John's School Credit Union

Woodslee Credit Union has already gone far in providing financial protection to its members, and by becoming a member of your school branch you have furthered that aim. But there is need of still more savings before we reach a desirable state of security.

We want to extend our sincere congratulations to your good teachers, in particular to Mother St. Maurice, for the interest they have taken in your Credit Union also to your officers and, last but not least, to all your members.

We hope for many more members, in fact 100% membership from St. John's school in the very near future.

If we can be of any help or assistance do not hesitate to call on us.

Wishing you one and all a very Merry Christmas and a Happy New Year.

Yours Co-operatively,
L. J. PIESCHKE, President
C. A. DIEMER, Treas. Mgr.

MAIDSTONE CROSS

A Merry Christmas and a very Happy New Year.

Congratulations are in order for Pat L. McAuliffe, in his acceptance of a new position at his work at Ford's. The department he is leaving presented him with a grand gift of a pen and pencil set and carton of cigarettes. Best wishes for added success and we feel sure Pat will fulfill his new position capably.

Grand High Midnight Mass will be sung at St. Mary's by the pastor, Rev. F. J. H. Chisholm, and the Young Ladies' Sodality will render hymns before singing the mass. Mr. Thomas Chittie will be the organist.

Joan, twin daughter of Mr. and Mrs. Bernard Collins, underwent an emergency appendix operation in Hotel Dieu, on Monday evening. Her condition is fair.

Henry Collins is in a very critical condition.

Miss Claire McLean attended the J. T. Wing Co. Christmas banquet held at the Prince Edward Hotel, on Saturday. Each employee received a cash Christmas gift, while those who have 25 years or more service, received a gold engraved Longines watch.

Mr. and Mrs. Thomas Little were delightfully surprised on Saturday evening when a few friends, relatives and their son Wallace, his wife and four grandchildren, their daughter Florence, her husband, Orville Ellis, and three grandsons, journeyed to their new home and entertained them on their 49th wedding anniversary.

There was played, prizes going to Mr. Little, the happy groom of nearly half a century; Mr. and Mrs. Jack O'Shine, of Detroit; Mrs. Norma Hill, of Detroit; and Mrs. Rox Bell, of Windsor. The happy couple were the recipients of many lovely gifts for their home as well as personal gifts and flowers.

A lovely midnight supper followed opening of the gifts by Mrs. William Wade, of Detroit, the bridesmaid and sister of Mrs. Little. All sang "For They're a Jolly good Couple" before departing in the early hours.

Miss Irene Brewshier entertained at a party, at her home, on Saturday evening, for the younger set.

THE NATION'S BUSINESS.

Interest in the new food agreements with Britain, which were announced in the House of Commons last Thursday by the Prime Minister, has overshadowed all other discussions in the nation's capital city. The new agreement preserves what has come to be known as the "gardener plan" of long term agreements to ensure a measure of safety and security for Canadian Agriculture.

The spearhead of opposition to this plan comes from John Bracken, leader of the Progressive Conservative Party. However, his opposition has shown itself more on the public platform than in the House of Commons.

In Parliament his main objection was that Britain might not carry out its part in the plan. This stand he took when the long term wheat agreement was first introduced in 1946. On pages 4822 and 4823 of Hansard 1946, in an exchange with Walter Tucker, M.P., he explained that he said Britain "might not carry out the deal."

The contracts announced last week in addition to wheat included bacon, beef, cheese and eggs at higher prices to meet advanced feed costs. They also included certain raw materials needed for reconstruction, principally timber and non-ferrous metals. One part of the Prime Minister's statement is considered particularly significant here. "Canada wishes to continue to send to the United Kingdom all those supplies which are... sustaining the U. K.'s reconstruction program."

An interruption at this time would have very serious consequences.

Plan for Canadian Economy.

Second only to food agreements, the government's plans for reducing our expenditures of American Dollars continues to be debated wherever the politically minded gather here. The Progressive Conservative opposition contends that these prohibition measures should have been taken six months ago and that they would not then have been so severe. There are many who claim that relaxation can come rapidly and that therefore food measures should not be passed. Mr. Howe's guarantee that no new Canadian industry would be encouraged which depended for survival on a continuance of the "protection" afforded by the prohibitions and quotas, has reassured the Liberals. They maintain that the people of Canada can only be hurt by high tariffs or any other continuing form of protection.

There is no sign that this attitude is shared by any of the opposition parties. The C.C.F. party continues to press for controls on food prices while claiming that the federal government no longer has the power to control wages which affects the price of everything the farmer has to buy.

Party Control.

There is considerable comment by observers in Ottawa on the recent actions of the radical C.I.O.-C.C.L. trade union. The leaders of the union have now appointed, and are paying, full time organizers for the C.C.F. party to work all across Canada. This is the most definite evidence yet come to light to substantiate the claim that the control of socialist party has passed from the Western Canadians who formed it to the socialist and communist element in Eastern Canada's labour unions.

Ever since 1943 the leaders of this union have claimed the C.C.F. as the political arm of labour. The fact that not one C.C.F. (socialist) member has been elected in the industrial centres of Ontario shows that loyal labour has refused to accept the direction of its socialist minded leaders. Many members of the union accuse their leaders of using their prestige at the head of the union to further their own political ambitions. There is still a great deal of division between the socialist leaders who follow the C.C.F. and those who follow the communists and these elements continue to submerge the true interests of the honest labourer in this union.

Provincial Elections.

With final results of Prince Edward Island election coming in there is much comment on them.

After its first two years in office the Bennett government of 1930 lost 9 by-elections and held one. In addition the Conservative party lost control of 6 provincial governments.

After two years administration by the present government it has won all four by-elections and the Liberal party has retained the one province where an election was held.

This column extends to all its readers best wishes for a Merry Christmas and a Happy New Year.

On Friday evening, January 2nd, 1948, L.O.O. No. 552, will sponsor a card party and dance in the Orange Hall, to which the public is cordially invited. Mr. and Mrs. Clarence Fields, of Detroit, will furnish the music for dancing.

Mr. and Mrs. Robert Libby, of Windsor, were Sunday visitors of Mr. and Mrs. Thomas Libby.

Mr. and Mrs. Howard Snider and family spent Sunday with Mr. and Mrs. Ed. Heaton, of Colchester South.

The Christmas concert for U.S.S. No. 10 and 4, had to be postponed from Wednesday evening, December 17th, until Tuesday evening, December 23rd, owing to the haphazard condition of the roads.

Her many friends are wishing Mrs. Anson Tofflemire a speedy recovery from her recent illness.

(Too late for last issue)

Mrs. Ida Meunier, aged 69, wife of Phylas Meunier, died last Tuesday, at the home of her daughter, Mrs. Gerald Coon, Puce, with whom she and her husband had been living for some time. She had been a resident of Windsor for 4 years, coming here from Manitoba, where she lived 40 years. She was born in Montreal. Besides her husband and daughter, at home, she is survived by two other daughters, Mrs. Damien Ferrier, of Puce, and Mrs. Rene Hurtubise, St. James, Man.; four sons, Albert, of Puce; Romuald, of Swift Current, Sask.; Paul, of Markstay, Ont., and Conrad, of Charley Lake, B.C.; and 13 grandchildren. Funeral services were held at 9:30 a.m. Saturday, from the Albemly J. Janisse & Son Funeral Home, Windsor, to St. Simon and Jude Church, Belle River, at 10 a.m., with Rev. A. Marentette officiating. "Bural" was in the church cemetery. The pallbearers were A. Blais, M. Boivin, R. Cote, Harold Dawe, W. Lebert, of Puce, and Mr. Crew, of Windsor.

Mr. and Mrs. Clarence Miner and Mr. and Mrs. Harrison Smith and daughter Joyce, of Detroit, were guests of Mr. and Mrs. Stanley Major on Saturday.

Mrs. Earl Pfahler and Miss Minnie Pfahler recently gave a shower at the former's home for Mrs. Eleanor (Pfahler) McDonald, of Rochester, Mich. A large crowd were on hand. Cards and luncheon were played and there were several lovely prizes for each. The honours opened the gifts, after which a delicious repast was served. All enjoyed the evening immensely.

Miss Dorothy Lounsbrough has arrived home from the University of Western Ontario, to spend Christmas with her parents, Mr. and Mrs. Ed. Lounsbrough.

Murray O'Neill arrived home on Friday from the University of Western Ontario, to spend the Christmas vacation with his parents, Mr. and Mrs. Roy V. O'Neill.

Miss Lucille McKee, who is attending the University of Western Ontario, and Miss Joan McKee, of Haverhill College, Toronto, have arrived home to spend the Christmas holidays with their parents, Mr. and Mrs. Percy McKee.

On Friday evening, January 2nd, 1948, L.O.O. No. 552, will sponsor a card party and dance in the Orange Hall, to which the public is cordially invited. Mr. and Mrs. Clarence Fields, of Detroit, will furnish the music for dancing.

Mr. and Mrs. Robert Libby, of Windsor, were Sunday visitors of Mr. and Mrs. Thomas Libby.

Mr. and Mrs. Howard Snider and family spent Sunday with Mr. and Mrs. Ed. Heaton, of Colchester South.

The Christmas concert for U.S.S. No. 10 and 4, had to be postponed from Wednesday evening, December 17th, until Tuesday evening, December 23rd, owing to the haphazard condition of the roads.

Her many friends are wishing Mrs. Anson Tofflemire a speedy recovery from her recent illness.

completed solves this problem, but ere wood fuel is lost waiting for heaters to cool. The oil-fired equip- ment responds much more quickly so often a full day can be saved in turning one batch off to market and then cure begun. In these days of high prices for fuel, the use of oil burners are not easily obtained with record crops to handle this saving of a few hours on each cure means a great deal to the farmer, the dealer concludes.

Woodrow and family; Mrs. Jennie Martin, Mr. and Mrs. Grant Martin, all of Windsor, and Miss Margaret Martin, of Detroit; and Harvey Lawhead and daughter, of Maidstone.

Pioneer Passes

In the passing of Edgerton Scratch, on Saturday, the county lost its oldest pioneer. He was 96 years of age on March 17th of this year.

Funeral services were held from his late home, in Leamington, on Monday afternoon, in charge of Rev. Sidney Davidson and burial was in Lakeview Cemetery, Leamington.

Surviving are four sons, Eugene S., well-known ex-Warden of Essex County, of Gosfield North; Harrison, of Leamington; Carman, of Banff, Alta.; and Eldon, of Wyoming, formerly of Essex; also three daughters, Mrs. W. S. Newman, of Victoria, B.C.; Mrs. Stafford Morris, of Mersea Township; and Mrs. Frank Marwood, of Windsor.

Deceased was born in Colchester, but his parents later settled on a farm near Leamington, and he lived in that district all his life. He certainly was a man who could really call a spade a spade, and he never had the opportunity to go to school, yet taught himself to read and write, in fact he got to have quite a reputation as a poet, having a number of poems published in newspapers.

He was a farmer and carpenter by trade, as well as an Episcopal Methodist lay preacher, being in great demand for years to fill in, in the pulpit when the regular minister was holidaying or unable to take charge in his own church.

He took an active interest in Municipal work, serving as tax collector and Reeve for Mersea Township; was Inspector of the County Home for the aged for 20 years, and served on the Council of the Town of Leamington and the Township of Mersea.

The late Mr. Scratch had a wonderful memory. He often stated he never forgot when he was in Leamington, was only one house, and spoke of taking a short walk from their farm home to bag a deer.

Hold Joint Meeting.

A joint meeting of the W. M. S. and Evening Auxiliary was held in the church on Monday evening, December 15th, with an attendance of more than forty. The worship period was in charge of Mrs. J. S. Folster, assisted by three ladies from each society, in a special Candlelight Service interspersed with Christmas Carols. Mrs. Gordon MacDonald sang two solos, and a duet was rendered by Mrs. L. Allen and Mrs. Harry Newman. Mrs. R. Birch presenting an interesting Christmas story.

A pleasant feature of the meeting was the packing of a contribution of jars of jam, fillies, honey and assorted dishes for the missionaries. Misses Staples and Adsett, of our All Peoples' Mission in Windsor, which was personally delivered at the Mission by Rev. E. C. and Mrs. Taylor, of Cottam.

The slate of officers was presented and approved as follows: President, Mrs. D. R. Jones; 1st vice-president, Mrs. J. S. Folster; 2nd vice-president, Mrs. E. C. Taylor; recording secretary, Mrs. Harry Vance; corresponding and press secretary, Miss Cinda E. Williams; treasurer, Mrs. Nelson Clark; Department Christian stewardship, Mrs. J. S. Folster; supply secretary, Mrs. H. Vance; literature and missionary monthly, Mrs. A. Atton; temperance, Mrs. Norman Simpson; citizenship, Mrs. A. E. Neville; community friendship, Mrs. E. C. Taylor; mission Band superintendent, Mrs. J. Folster; assistant superintendents, Mrs. E. Gamble and Mrs. Folster; Baby Band superintendent, Mrs. Leslie Merritt; librarian, Mrs. Chambers; pianist, Mrs. Clarence Pettapiece.

Before closing a lunch was served by Mrs. Earl Pratt's group, who Christmas cake and cookies were enjoyed with a cup of tea.

Watch for details of the Christmas moving pictures coming on Friday, January 2nd, at 8 p.m. This is an outstanding picture and is interesting to both young and older ones alike. Come to church on Sunday and receive a blessing and give thanks to the Lord for the blessings he has bestowed upon you during the year 1947.

Reason shows me that if my happiness is desirable and a good, the equal happiness of any other person must be equally desirable.—Hendy Sligwick.

All things whatsoever ye would that men should do to you, do ye even so to them.—Matthew 7:12.

Hess-Totten Nuptials.

Crowds overflowed the church and many were turned away, in a candle-light ceremony, when the marriage of Kathleen Totten, granddaughter of Mrs. Thomas Totten, of Cottam, and Willard Hess, son of Mr. and Mrs. D. Hess, of Cottam was solemnized, at 7:30 p.m. on Saturday, December 13th, at Trinity Anglican Church, with Rev. J. H. Wiseman officiating, in a single ring ceremony.

Baskets of white chrysanthemums and potted ferns decorated the chancel with palms and cadebra in the background.

Preceding the ceremony and during the signing of the register, the solos "The Lord's Prayer" and "Because" was sung by Mrs. Manningham, of Cottam.

The bride, who was given in marriage by her father, Donald Totten, of Cottam, wore a gown of ivory antique satin, with a round neckline and yoke of nylon, and a fitted bodice with a row of tiny buttons down the back, fitted sleeves with pointed cuffs. The skirt was caught up in front in three scalloped, each tied with a satin bow and a hoop underskirt with roses and rows of antique lace showing. The three-yard train was scalloped and was banded with lace. She wore a shirred satin poke bonnet with a fingertip veil and carried a bouquet of white roses and hydrangeas with streamers of the valley. Her maid of honour was her sister Donna, of Dearborn, Mich., who wore a blue tissue taffeta gown with matching blue ostrich plume for headpiece, and carried yellow carnations. The maid-of-honour was the Ida Willis, of Windsor, sister of the groom, who wore a yellow tissue taffeta gown, and the bridesmaid was Roberta Haggins, of Cottam, cousin of the bride, and she wore pink taffeta gown. They both carried lilac mums and yellow carnations and lilac ostrich plumes as headpieces.

Little Donna Hess, daughter of the groom, was flower girl and wore a long white taffeta dress with a poke bonnet matching the bride's, and carried a basket of white baby mums.

The groom's best man was Harold Burns, of Windsor, and the ushers were Ralph and Douglas Bowers, of Cottam; Walter Willis, of Windsor, and Billy Walsh, of Dearborn, Mich.

Mrs. Thomas Totten, grandmother of the bride, chose a two-piece burgundy gown with black accessories, and a corsage of gardenias. Mrs. Lowell Nason, of Dearborn, Mich., mother of the bride, wore a brown lace gown over gold metal cloth, and a corsage of white roses. Mrs. Hess, of Cottam, the bridegroom's mother, wore a royal blue crepe gown with pink accessories and pink ostrich this in her hair, and a corsage of white gardenias.

A reception for four hundred and fifty followed the ceremony.

The bride's going away costume was a royal blue two-piece suit with brown accessories and she wore a corsage of white gardenias pinned to her fur coat. Upon their return they will reside in Cottam until their ranch home is completed.

Among the out-of-town guests were Mr. and Mrs. H. Padgett and Bob Mason, of Detroit, and Mr. and Mrs. Dule Yeakum, of Dearborn, Mich.

Greetings

Not just a wish for Christmas
But a wish for each day of the year
And never were greetings more hearty
Or wishes more true and sincere.

CHRISTMAS GREETINGS

Like the voices of Angels
On that first glad Christmastide,
May the songs of joyous children
Again ring far and wide.
To tell a weary, struggling world
The glory of Christ's birth,
And bring again His promise
Of "Peace, Good Will on Earth!"
